

## Victory Over Manchester Ends Season

### Special Routine Band Performs During Half-time

Chelsea's Bulldogs finished their football season by trouncing the Manchester Dutchmen 38-8, last Friday night on the Chelsea home field.

Chelsea scored in all four periods with Bareis, Hummel, Knickerbocker, and a Murphy-to-Berke pass doing the scoring for the home team. David Troiz made the lone TD for the Dutchmen in the third quarter.

Chelsea's first drive to pay dirt started on the Manchester 34 yard line and four plays later Murphy snapped a 10-yard pass to Berke in the end zone for the TD.

During the second quarter Chelsea took charge of the pigskin on their own 21 and three plays later Denny Murphy heaved a 40-yard pass to Berke who was brought down on the 10-yard line. Two plays later Bareis went through the middle of the line for a Chelsea touchdown. The extra point was good and Chelsea led, 18-0.

Minutes later if the second quarter Dick Bareis ran 45 yards for another touchdown, making the score 20-0 at half-time.

During the half-time the spectators saw the Chelsea band go through their paces as they honored National Education Week by saluting the Home Economics and Agriculture departments with their formations of a straw hat and a frying pan. A football was also formed, in recognition of the athletic-minded participants. A splendid demonstration of baton twirling was given by Constance Jennings, a senior student.

In recognition of the dances that follow the home games, both basketball and football, the band did a dance number, "Auf Wiedersehen."

Following the half-time intermission the Dutchmen came back strong. Receiving the kickoff on their own 30, they marched all the way with Troiz going the last four yards to complete a 67-yard sustained drive.

The Bulldogs then moved the ball from the 40-yard line where they had taken the kickoff, to a score of their own, with Alfred Knickerbocker scampering for the last five yards and the touchdown. The third quarter ended with the score standing at 27-6.

Chelsea's final score came after they took charge of the ball on the Dutchmen's 42-yard line with Hummel going over for the TD. Captain Frank Sweeney, regular right tackle, shifted to the fullback position and smacked over the line for the extra point to make the final score read 34-6.

Chelsea's defense was spearheaded by Sweeney, Clark, Bauer and Riegger, while Coach Conklin reserves made a very good showing of coming in to stop the Manchester drives in the second half.

## CHS Football Team Faces Rebuilding Job Next Year

The Chelsea high football team finished its season last Friday evening winning four and losing four. The Chelsea line showed great improvement throughout the season. Headed by Captain Frank Sweeney, they battered opponents throughout the season.

Hard work at practice shows up in games, and the Chelsea squad really worked. Bill Clark and Jim Bauer were listed by the coaches as the two boys most faithful at practice, working hard and trying to improve.

With the squad losing seven and possibly eight men, the team is faced with a re-building problem. Leaving are Capt. Frank Sweeney, right tackle; Bill Clark, left tackle; Otto Riegger, left guard; Richard Bareis, fullback; Alfred Knickerbocker, left half; Denny Murphy, quarterback; Jack Hummel, right half; and Phil Bauer, right end. The coaches feel that the lack of speed and personnel may hurt the ball club to some extent. More boys turn out for football the situation will be helped considerably.

Some of the replacements in the line will be Ted Nixon, Bob Keizer, Eddie Walker and Bud Ringe, who are ready to take over.

Backfield replacements will probably be Harold Stett, Dave Elkins, Ralph Quivins, Don Mahar, Jim McLaughlin, and Fred Hoffman. The rest of the load will be on the regulars coming back, including Don Proctor, right half; Bob Berke, right end; Phil Bareis, left end; and Duane Satterthwaite, center.

With these boys ready to go for the blue and gold next season, the Bulldogs may be among the contenders. With Flat Rock and Rososel both graduating their present powerhouses, it could be Chelsea's year.

The coaches feel that the lack of speed and personnel may hurt the ball club to some extent. More boys turn out for football the situation will be helped considerably.

Rev. Betz is to preside. In announcing the service, he mentioned that the offering will be divided among the participating churches for their World Service programs.

## Barbara Kuhl Wins Award for 4-H Work

Barbara Kuhl is one of four Michigan 4-H club members who will receive 15 jewel wrist watches in recognition of outstanding project work in leadership, meat animal production and soil and water conservation.

The watches will be presented by national companies or others interested in furthering the 4-H club program. Leadership winners for the state are Clara W. Piepkow, Springfield, and Barbara Kuhl, of Chelsea. Marion Mannschreck, of Morenci, is recognized for her meat animal project, and Dan C. Davis, Vassar, for work in soil and water conservation.

Announcement of the names of the four winners was made this week by the Michigan State College Extension Information Service.

Barbara, 17, has a record of 29 completed 4-H club projects in her six years of participation. Leadership work has been a primary interest during the past three years. She is the daughter of Mr. and Mrs. Arthur Kuhl.

Clothing projects have interested Barbara for the past six years. She has also been working on vegetable gardening, sheep, horses, flower gardening and other projects.

As an outstanding flower gardener, Barbara organized a club and supervised its activities. She was also superintendent of the flower show at the Chelsea Fair.

Barbara's high school activities have included Junior Farm Bureau, varsity basketball and student council. She is also active in church work.

## Soaking Rain Hits Community Sunday Night

An estimated one and one-half inches of rain fell here Sunday night and Monday morning. The rain was accompanied by thunder and lightning which began about 10:30 p.m. and continued intermittently for several hours.

No serious damage resulted here but power in the downtown area was interrupted for about an hour, beginning at midnight, when lightning struck a power line and demolished a meter in a small building behind Merkel's hardware store and started a chain reaction. The blasted meter started a fire which burned the wiring and the burned wiring, in turn, blew the large fuses on the three-phase power transformer serving the downtown area and also blew the fuse in the fire whistle when it was turned on after the fire alarm was called in to the operator.

Rural areas served by the Detroit Edison company were without electricity for varying periods during the night because of the storm.

Sunday night's rain was the first ground-soaking rainfall here since the middle of October. Farmers of the community welcomed it as a life-saver for the coming year's wheat crop.

Old-time weather "prophets" quote the saying "Thundershowers in the fall, no winter at all" in support of their predictions of an open winter.

## Capt. Merle Barr Released from Army

Capt. Merle S. Barr, Jr., arrived home Sunday night after being separated from the U. S. Army at Camp Carson, Colo. Capt. Barr had been recalled to active duty Jan. 18, and served in Alaska for six months. He returned to the States late in September and had been stationed at Camp Carson since then.

He plans to return to his former position as purchasing agent at Federal Screw Works next week. Monday evening a family gathering was held in his honor at the home of his parents, Mr. and Mrs. Merle Barr, Sr.

Mr. and Mrs. Gottlieb Sager spent Sunday in Jackson with the former's sister, Mrs. Mary Castle, and her sons, Don and Fred.

FINAL GAME FOR CHS—Seven of the eight players pictured above played their final game as members of the Chelsea High school football squad in the contest with Manchester last Friday night. The eighth player, Jim Bauer, a junior, will also be lost to the team next year if the state law on age limits remains unchanged. In the front row are Jim Bauer, Otto Riegger, left guard, Bill Clark, left tackle, and Capt. Frank Sweeney, right tackle. The four in the back row are Jack Hummel, halfback, Denny Murphy, quarterback, Richard Bareis, fullback, and Alfred Knickerbocker, left halfback.

## Foreign Policy 'Dangerous' Declares U. of M. Lecturer

Dr. Henry L. Bretton, instructor in political science at the University of Michigan, Monday evening declared that the U. S. foreign policy in regard to western Europe.

Differing sharply from previous lectures, which interpreted present foreign policy as the road to peace, Bretton characterized our present policy as extremely dangerous, and becoming more so. He advocates, instead, a policy of gentle but firm resistance to Russian aggression, lest we become so careful that we ultimately dare not even speak out against her. He interprets the Berlin air-lift, for instance, as a great defeat for the West, which had a clear right to a roadway into Berlin.

He believes that the U. S. should have sent, immediately, as General Clay requested, an armored ground force, before the world press had an opportunity to make the situation a matter of prestige and "face-saving." He thinks that the Soviet forces would have backed down, and the Western rights might have been preserved.

He also stated that the present success of Communism is partly because Communists have sold the world on their peace-loving characteristics, while the U. S. rattles its A-bombs and H-bombs too loudly. Many Europeans are convinced of Russian peaceful intent. After all, the Russians stay home, but American military forces occupy Germany, Korea, etc.

Interpreting a century and a quarter of foreign policy in terms of the Monroe Doctrine, he stated that once the U. S. had announced the Doctrine in 1823 and permitted the British navy to enforce it, we thereby became committed to maintaining, or substituting for, the British navy, as in World Wars I and II. It is to the basic interest of the U. S. to prevent the unification of Europe, that fount of manpower and productivity which might tip the scale of victory, under the leadership of a hostile power.

The Truman Doctrine, announced in March, 1947, setting up a line of containment from Greece to the Arctic, was the first extension of the Monroe Doctrine. This was necessary because of the methods used by the Soviets—military intervention, as in the Greek "civil war," and subversion from within, as in France and Italy. The Mar-

## Pneumonia Strikes Burg While Hunting

J. Vincent Burg, who was with a Chelsea party of hunters staying at Buff Creek Lodge, near Barton City, was taken to an Alpena hospital Monday, after becoming seriously ill. His illness was diagnosed as pneumonia, according to a message received Tuesday morning by Mrs. Burg.

Accompanied by her daughter, Mrs. Roland Spaulding, and her son-in-law, Dudley Foster, Mrs. Burg left immediately for Alpena. The Chelsea men who were with Mr. Burg at the hunting lodge are Leon Chapman, Ford Merkel, Emerson Lesser and Albert Forner.

## Hudson Pastor Named To Fill Congl. Pulpit

Rev. Thomas Toy, of Hudson, has accepted the call to be pastor of the Chelsea Congregational church and will assume his duties here January 1. Rev. Toy preached at the annual church Nov. 2 and the call was extended to him at that time. His acceptance was received by the local church during the past week.

Rev. Nathaniel Skidmore will continue to serve the church as interim pastor until the end of the year.

## Christmas Seal Sale Started This Week Throughout County

The 46th Annual Christmas Seal Sale to fight tuberculosis will be conducted from Nov. 17 to Dec. 25, it was announced today by Mrs. Warren Daniels, Chelsea representative on the Board of the Washtenaw County Tuberculosis Association.

It is estimated that there are 16,500 active cases in Michigan of which 10,300 are known to health departments. 68 of these known, active cases were reported in Washtenaw County in 1951.

Because of its spread from the sick to the healthy, its high attack rate, its symptomless onset, its long duration and its tendency to recur even though once arrested tuberculosis is the most complex and costly health problem. It kills more people each year in Michigan than all other infectious diseases combined.

A half-century ago, when tuberculosis killed most of its victims, death was largely a fight against death. Today, tuberculosis deaths still represent a staggering loss but the past 45 years have given us weapons to prevent the spread of tuberculosis.

## Gov. Williams Has Small Margin as Canvass Nears End

Gov. G. Mennen Williams was holding a lead of less than 8,000 over Republican Fred M. Alger as the canvassing boards of the state, with the exception of Wayne county, were nearing completion of their tallies of the votes cast in the Nov. 4 election.

Totals for the state were listed as 1,400,407 for Williams and 1,322,488 for Alger. Williams' lead, according to these figures, is 7,919.

The count listed is the official tally from 82 counties of the state together with the unofficial Wayne county tally.

The Moody-Potter senatorial race is to be the subject for an inquiry by investigators for the Senate Rules Committee who were reportedly to begin their inquiry into accusations of fraud this week. Potter's lead over Moody was approximately 47,000.

The Senate investigation in the Moody-Potter race was asked in a formal petition of the State Democratic chairman, Neil J. Staebler, of Ann Arbor.

The allegations of "voting irregularities" include charges that in the northern part of the state "many thousands of votes" were lost to Moody through "purposely full" or "involving split ballots." It is also contended that in many heavily Democratic precincts voters were disfranchised by being forced to wait in line for hours to cast their ballot. Because of the long wait, voters reportedly got so tired they went home without voting.

## Jurors Drawn

Listed among the 60 county residents whose names were drawn Friday as jurors for the December term of the Circuit Court are the following from this vicinity: Roy Kumbach, Agnes Merkel and Olga Widmayer, of Sylvan township; Mrs. William McAtee, Sharon; Veva Kalmbach and Edmund Cooper, Lyndon; Albert Eschelbach and Fred Girard, Lima; George Burmeister and Harold Elsemann, Freedom; Henry Heimerding and Marie Scheurer, Manchester.

## Successful Hunters Return from North Woods with Deer

### Bill Schatz Sports Fine Deer Without Going Hunting

William Schatz, with the assistance of Bob Roy and Bud Hafner, had quite a time for himself last Saturday and has had as much fun telling about it this week as returning deer hunters have in recounting how they bagged their prize specimens.

Bill created quite a sensation early Saturday when he drove through town with the head of a fine eight-point buck sticking out of the trunk of his car and Bob and Bud calling attention to the fact with triumphant yells.

Everyone who saw it thought Bill was surely the first Chelsea hunter to return with a deer on the opening day of the season. The whole performance, however, was a hoax, perpetrated after much thought and effort merely for the sake of a good laugh.

The fine deer head is the mounted one which has been hanging in Bill's shop for some time. It was stuffed by Bob Roy and Bud Hafner, who are proficient at such jobs. A realistic effect was obtained Saturday with the addition of blankets.

Carrying the joke still farther, Bill drove the car into the parking lot next to the Frigid Products lockers to get watchers the impression the "deer" was to be stored there.

He and his two assistants then stowed the deer head inside the trunk and returned to the shop.

## Delegates To Hear Information on Blood Bank Plan

Mrs. Dudley Holmes, Chelsea chairman of the blood program for the American Red Cross, has arranged a meeting of representatives of clubs, organizations and industries of the community to be held in the social center of the Methodist church Monday, Nov. 24, at 8 p.m.

The meeting is one of the steps in the preparation for forming a blood bank or banks in the community. The proposed formation of a blood bank project will be explained by a speaker from Ann Arbor and representatives attending will be asked to present the matter to their own groups for action.

Any interested persons in the community are welcome to attend. Mrs. Holmes said.

The blood donor clinic, which is to provide blood for a temporary Chelsea blood bank, will be held here Dec. 1, 2 and 3. The first two days the clinic will be held from 12 until 6 o'clock in the afternoon, and the Dec. 3 clinic will be held from 10 a.m. to 4 p.m.

Mrs. Holmes said yesterday that she is in need of volunteers to work at the clinic the three days. She said each day's quota of workers needed includes one receptionist, three registrars, two nurses and four nurses' aides. Volunteers who wish to offer their services may call Mrs. Holmes.

Dinner guests Tuesday of Mrs. Leon Chapman were Mrs. Walter Eschelbach, Mrs. Everett Van Riper, Mrs. George Steele, Mrs. Emerson Lesser, Mrs. Reuben Lessner and Mrs. William Reule.

## Three Local Stores Report Total of 300 Licenses Sold

More than 300 deer-hunting licenses were sold in Chelsea this year, according to reports from the three local stores where they may be obtained. Merkel Brothers reported 235 sold by Tuesday of this week, and Chelsea Hardware and Gambles each reported 50 sold.

Merkels, who are sponsoring a contest to determine the heaviest deer bagged, reported that 14-year-old Jerry Slusser weighed in a 119-lb. buck at 9 a.m. Monday and Sylvester Parker followed in the afternoon with one weighing 134 lbs. Parker got his at 11:30 a.m. Saturday at Nahma Junction in the Upper Peninsula.

George Merkel returned home Monday with a three-point buck he shot at Pile Lake, near Kalkaska at 9 a.m. Saturday.

L. Dean Steinaway got an eight-point buck at 11 a.m. Saturday at Oscoda on the Au Sable river. Dressed, the buck weighed 105 lbs.

Wilbur Hinderer, hunting with a party of five men near Mio, downed a buck Sunday afternoon. Only one other member of the party got a deer. He was a brother-in-law, Clarence Haarer, of Saline.

Leon Chapman and Vincent Burg also shot a buck while hunting at Buff Creek Lodge, near Barton City. Chapman got his Saturday and Burg downed his Sunday, according to information telephoned to Mrs. Chapman. She said her husband neglected to tell her the size of the deer.

Conservation Officer Don Boyer had reports that three deer were taken in the county during the first two days of the season. Two of these were four-pointers weighing in the neighborhood of 165 lbs., and the third was believed to have been an eight-pointer. One of its antlers had been shot off. The three were taken at widely scattered points, one at 83rd road, north of Dexter, one at Portage Lake and the other in the Waterloo area.

Boyer said he counted 35 hunters in this area the first two days but the number had dwindled to five or six by Wednesday. The deer population in the county is well scattered, Boyer stated.

Only outside home decorations will be included in the contest.

The Chamber of Commerce Christmas party and ladies night will be held Tuesday, Dec. 16, in St. Mary's school hall. Dinner will be served at 7 p.m., it was announced.

Store hours for the week preceding Christmas were decided upon. Thursday, Dec. 18, stores will remain open until 6 p.m.; Friday, Saturday, Monday and Tuesday, Dec. 19, 20, 22 and 23, they will remain open until 9 p.m. and Wednesday, Dec. 24, will close at 6 o'clock.

HOSTESSES AT COFFEE HOUR—Homemaking I, sixth and seventh hour classes made cookies, coffee, table arrangement, and served the guests at the coffee hour held at Chelsea High school last Thursday afternoon in observance of American Education Week. ## New Registration To Be Completed by Public Library

A complete new registration of borrowers is being made by the Chelsea Public Library. Many borrowers have used the same card number for years and may continue to have the same number if they will come to the library and re-register. This is a very important survey of those using the library and will be studied by the library board as the basis for obtaining state aid for the next fiscal year.

**Buchanan**—The Buchanan fire department responded early Monday evening to a Niles township alarm, the location of the fire being in the former barn on the Quinn Waters farm on the Mayflower road about a mile south of the Niles-Buchanan road.

The lower floor of the barn had been converted to a four-room apartment.

In all, four fire departments, from Niles township, Buchanan, Bertrand township and the Morris farm, were called and responded. However, when they arrived the building was beyond salvage and they confined their efforts to sav-

ing the residence, located only 30 feet to the east.

The barn and contents, valued at \$7,000, were a total loss.—Berrien County Record.

**Standish**—Steve and Tom Pavlik, co-owners of the Trading Post Restaurant, had the now famous "sugar" model of the Trading Post at the Food Festival in Detroit for ten days recently.

One of the sure things for benefit of the children will be Ole Santa Claus who is just about certain to be the biggest hit of the parade.—Rochester Clarion.

**Frankfort**—The newly constructed city water tank located on "tank hill" which was used on Halloween night to boost president-elect Eis-

enhower has now been repainted. The "We Like Ike" sign which appeared is no longer in evidence and the tank is again a solid aluminum in color.—Benzie County Patriot.

**Kenneth Doench**, 27567 Lahser Rd., Birmingham, was accidentally shot by his son, Thomas, while hunting on the Klingerman farm, five miles west of Saline; about 11:30 a.m. Monday.

Doench was standing at the end of a ditch while the rest of the party was moving up the ditch. Thomas, 15, didn't know that his father was in range of his shotgun when he fired at some game. Doench was hit with nine pellets in the face and two pellets in the arm. Doench was brought to the Saline General hospital where he was treated by Dr. Harold Miller and released.—Saline Observer.

**Frankfort**—Someone who has lost a small brown and white female collie will be relieved to know that she has been found and at the present time is being well cared for awaiting the owner to come and claim her.

### Police Ask for Help in Prevention of Holiday Accidents

"It's time to talk turkey," Chief of Police George W. Doe said today.

The chief was talking about Thanksgiving, but the turkey he referred to was straight talk about coming winter driving conditions.

"Thanksgiving time is homecoming time for many American families," Chief Doe pointed out, "and roads will be crowded with motorists going home for the holiday."

The chief pointed out that Thanksgiving comes at a time when winter may let loose with its bay of tricks.

"You can't depend too much on good weather in late November," he said. "A sudden snowfall or an unexpected freeze can play havoc with motorists' safety."

He suggested that drivers take these steps immediately to guard against conditions that cause traffic delays and accidents. "Do it now," he said, "and avoid delays when everybody else wants service on the same day."

1. Check batteries.
2. Check windshield wiper blades and defrosters.
3. Be sure brakes are equalized.
4. Have all lights and mufflers checked.
5. Have tire chains ready for use.

Asked whether he considered tire chains necessary if a car had "winterized" tires, the chief referred to a report of the National Safety Council's Committee on Winter Driving hazards. This report said recent tests showed that tire chains cut braking distances on snow and ice in half and increase ability to get started or climb hills under slippery conditions by four to seven times.

Winterized tires were found to stop a car a little shorter than conventional tires but tire chains did far better than any tread. At 20 miles per hour on hard packed snow, the report said stopping distances averaged as follows: conventional synthetic rubber tires, about 70 feet; winterized tires, 60 feet; tire chains, 40 feet. On ice at the same speed—conventional tires now slide 227 feet; mud-snow tires 190 feet; and tire chains about 80 feet.

The report on special tires concluded: "Their overall improvement is not great enough to warrant less care or precaution when driving on slippery surfaces. Such tires do not come close to performance of reinforced type tire chains."

### Band Impresses Spectators with Friday's Routine

Football fans who attended last Friday's game here were impressed with the half-time performance and entertainment put on by the Chelsea High school band under the direction of Eugene Shroyer.

In observance of American Education Week, the band had practiced several formations which were put on with creditable precision during the intermission in Friday's game. The formations represented various departments of the local school.

The home economics department was recognized in the formation of a "skillet and four eggs," the major omelettes taking the part of the eggs.

A straw hat was formed in honor of the agriculture department and a football formation honored the athletic department.

To the tune of the song, "Auf Wiedersehen," the band went through a dance routine as a recognition of the H-Y club which promotes after-the-games dances.

The concluding band number was a drill routine which ended with the final "hats off."

Leaders of the various groups are as follows:

Brownies—Mrs. Louis Burghardt, Mrs. Betty Reith, Mrs. Carter and Miss Laitenen.

Junior Troop—Mrs. Robert Wagner.

Intermediate and Tenderfoot troops—Mrs. Lewis Bernath, Mrs. Joseph Fisher, Mrs. Charles W. nana, Miss Helen Vail.

Officers of the Council for the current year are Mrs. A. D. Mayer, president; Mrs. Carl Mayer, vice-president; Mrs. Dudley Holmes, treasurer; Mrs. Deane Rogers, secretary.

Committee members are Mrs. Walter Gage, Mrs. Hugh Sorenson, Burghardt, and Mrs. Robert Wagner.

Higher average incomes have, through the years, resulted in higher standards of living. And the funeral profession has steadily kept pace with all advancement.

The notable improvements made in both the extent and quality of service and merchandise have not been extravagantly priced.

On the contrary, as is shown by our wide range of prices, every family, regardless of its circumstances, may arrange for a funeral of highest standards at a price it can afford to pay.

• The demand for birth certificates in keeping Michigan Department of Health clerks on the double these days. Dr. Albert E. Heusler, commissioner, says that the pace is approx that of the early days of World War II.

An average of 50 persons a day personally seek copies of their certificates and the backlog of unprocessed mail requests has passed 1,000 and is increasing daily.

One of the reasons for the unusual demand is that schools are so crowded that many require birth certificates for enrollment. Resumption of hiring by heavy industry after the steel strike also contributes to the load.

• There were 384,717 new motor vehicles licensed in Michigan during 1951. Pennsylvania, Illinois and Texas surpassed this mark.

Michigan ranked seventh in the number of passenger car registrations last year with 2,218,227 of them on the road. There were 306,213 trucks and 5,877 buses adding to highway traffic.

Wayne county ranks fourth in all United States counties for motor vehicle registrations. New York City, Cook County (Chicago) and Los Angeles were 1-2-3. Wayne has one passenger car for every 3.3 persons and 10 cars for every nine families.

Oakland County (Pontiac), Kent (Grand Rapids) and Genesee (Flint) are among the top 115 counties in the country.

• If your attic is a typical one, you periodically vow, "We've got to get rid of some of this worthless stuff we're keeping."

That's just what the State of Michigan is doing.

• Millions of records clog state offices and 40 per cent are kept for no reason at all.

So, following legislation passed on recommendation of the Little Hoover Commission, conservation and civil service agencies threw out 20 useless and obsolete forms and save \$15,850 annually. Simplifying birth records in the department of health eliminated five typists and \$49,275 annual expenses.

Thirty per cent of all records in the departments of administration and conservation were found valueless and their destruction approved. Savings: \$7,000 yearly.

When paperwork controls have been put in effect on the 14,000 different forms used by all 114 state agencies, the Little Hoover group estimates savings will reach \$800,000 annually and that when a centralized records center is established the million dollar mark will reach the yearly economy mark.

Clare Knickerbocker is now working for his brother, George, Standard Oil dealer here. As Cpl. Knickerbocker, he was released from active service in the Army, at Fort Custer, Oct. 31. He spent one week at home and then attended Standard driver classes at Addison for a week before taking up his new duties this week.

**Foreign Policy . . .**  
(Continued from page one)

shall Plan for economic aid, announced in June of 1947, was the second step in that first extension. The second real extension of the Monroe Doctrine came in 1948 when the U. S., by joining the North Atlantic Treaty, proclaimed its willingness to defend the area in a military sense.

He interprets Korea as a test case: had the U. S. not fought in Korea, we could not have held out of the Soviet orbit a Europe ready to stampede into any camp promising peace.

Dr. Bretton believes that neither military aid nor economic aid alone will solve the problem: we must supply both until western Europe can handle both the problem of Communist military attack from without, and the problem of Communist subversion from within, due to the cost or rearmament.

He regards as completely false the basic assumption behind containment—that western forces grow stronger as Eastern Europe grows weaker. He points to the Cominform, established in 1949, which effectively united all Eastern Europe into one unit, with one military language, one policy, one set of standard weapons, etc., while western Europe continues to work itself up, sometimes even at cross-purposes.

He believes that the U. S. should work hard not only on the NATO, but on the Mutual Security Program, and should encourage such integrating forces as the Schumann Plan, the European Defense Community, etc.

**Report Requested on Deer Killed in Southern Counties**

Lansing—Sportsmen who shoot buck deer in Chelsea and other south-central Michigan areas during the Nov. 15-30 season are asked to notify the Conservation department's Ross Lake Wildlife Experiment station near Lansing.

The Chelsea area hunter can phone the station collect, Lansing 8-8638. A state game specialist will come to your residence, weigh the deer, measure the antlers and determine the age by development and wear of the teeth. Even if the deer has been cut up and cannot be weighed, biologists can secure valuable information from the head alone.

"Last fall we examined 53 bucks shot within a 50-mile radius of the station," reports Dr. C. T. Black, station head. "This fall we hope to examine double this number in the 50-mile area now that more persons know of the job we are trying to do in south-central counties."

"Of course, the major effort again will be in northern deer country where some 25 voluntary deer checking stations will service cooperating hunters."

Aging deer by their teeth was first applied in Michigan on a large scale last fall and provided a more accurate picture of the composition of the deer herd in good, fair and poor food areas. Considerable difference was indicated between the weight and rack size of southern farmland deer and northern distress area deer. Year-

ling farmland whitetails averaged 32 pounds heavier and possessed racks with three or four more points than their northern kin in overbrowsed ranges.

State game men estimate that there are 10,000 deer in the southern, heavily human populated third of the state.

## Theodore Betts Pledges Theta Xi Fraternity at U. of M.

Theodore Betts, son of Mr. and Mrs. Wesley Betts, is among the 506 University of Michigan students who have been pledged to the 44 social fraternities on campus in the formal rushing period which was recently completed. He is a pledge of Theta Xi Fraternity. All pledges become active fraternity members in late February.

Their first work as pledges was a three-day program of painting and rejuvenating the U-M Fresh Air camp for underprivileged boys. A twist from the traditional "hell week" when heckling and paddling were the symbols of the times, the fraternities sent their pledges out to help on this constructive community welfare project under the sponsorship of the Interfraternity Council.

## Study of Log Markings Recalls Romantic Lumber Era in Michigan for Wayne U. Coeds

Twins Erina and Galina Smyrnof of Chelsea, Wayne University seniors, try to operate a woodsman's saw. The border of log markings by counties is an indication of the variety of types of markings used during Michigan's great pine harvest.

The lumbering era in Michigan was one of the grandest and most colorful this State has known. The early history of Michigan is in fact, the development, growth, and decline of the lumber industry.

Dr. Berl Hudgins, head of the geography department at Wayne University in Detroit, points out in his study Michigan, Geographic Backgrounds in the Development of the Commonwealth: "It is true the lumbering era was spectacular and romantic, but there was loss of life and property in fires and the logging and river driving often took tolls in lives of men."

One phase of this glorious era was the marking of logs to facilitate the identification of ownership by the numerous boom companies that sprang up during the great harvest years. These companies ran logs down the river, sorted, rafted and sent them to the sawmills immediately to make way for more and more logs.

The early log marks were merely backs cut into the bark with an ax—simple straight-line symbols. However, in the 1840's when logging increased to a grand scale, the necessity for more and different types of markings arose.

Similarity of the log markings was the cause of many disputes over rightful ownership of log property. Thus, in 1842, the Michigan Legislature enacted a law requiring log marks to be registered in the county where the logs were to be manufactured into lumber.

Michigan's many tributaries, rivers, and falls carried a tremendous load of the great pine harvest. North of Saginaw Bay, the Rifle, Au Gres, Au Sable, and Thunder Bay rivers each had separate boom companies to handle the river loads.

With this great increase of logs, markings became so complex and varied that it was reported that one boom company had a standing offer of \$50 to anyone who could design a mark of three letters in any arrangement that had never been used before.

Many humorous markings came out of this era, such as "Dumbbell", "Chicken on a Fence", "Bed Bug", "Snuff Box", "Pair of Legs", "Pig's Head". The Tobacco River Lumber Company of Saginaw County appropriately enough selected the marks "Tobacco", "Smoke", "Cigar", "Plug", and "Snuff" to identify their logs.

From where I sit... by Joe Marsh

Going... Going... Almost Gone

Granny Robinson put on quite a show the other night at the annual White Elephant auction held at the Women's Club.

Towards the end of the evening, she had the ladies battling for anything she put up. "What am I bid for this woman's lovely black coat here—good as new? Who'll say ten dollars?" she asked.

Granny held the coat up, and commenced describing the coat's lining, sleeves, buttons—really "selling hard." Then, suddenly, she took a close look and blurted out "Land sakes, no more bidding

please—this is my own coat!" From where I sit, what almost happened to Granny was good for a laugh, but sometimes when people "get carried away" with their own talk it's not so funny. I prefer a glass of temperate beer while listening to my favorite radio program—you may like soda pop—or cider. I suggest we hold on to our personal opinions—and believe in them—but take a good close look at them before we try to "sell" them to our neighbor!

**Consider Preferences**  
Children of school age have a preference for blue over red, surveys show. Yellow runs third in favor and green is preferred over white. Inasmuch as children have such a decided liking for the primary or brilliant colors, it is well to keep this information in mind when planning the painting of children's rooms. As children develop, their preference changes toward the subdued, less gay colors, further tests reveal.

## French-Schulze Vows Repeated at Ann Arbor Church

Mr. and Mrs. Richard J. Schulze are now at home at Portage Lake. Their marriage, Nov. 8, took place in the First Methodist church, Ann Arbor, with Rev. Erlend Wangdahl officiating at the 8 o'clock ceremony.

Matching lace formed the halo headpiece which held her fingertip-length veil. Her bouquet was of white roses and a rose orchid.

Mrs. Fred Henes, of Dexter, the bride's twin sister, was matron of honor, wearing for the occasion a yellow ballerina-length gown of lace over taffeta. She carried yellow and white-colored mums and wore a headpiece of matching flowers.

The three bridesmaids' gowns and bouquets were of similar style. Helen Green, in turquoise, carried yellow mums while Margaret Green, in shrimp color, and Mary Curtis, in rose color, carried yellow mums. The bridesmaids are all of Dexter.

Diane French, niece of the bride and daughter of Mr. and Mrs. Leonard French, of Chelsea, was dressed in a yellow ballerina gown matching that of the matron of honor and carried yellow and white flowers.

### Lightning Destroys Electric Meter in Merkel's Hardware

At midnight Sunday, Chelsea firemen were called out when lightning struck and blew up the electric meter housed in the small building behind Merkel's Hardware store. Firemen stood by for two hours to watch for a flare-up of the fire which had smoldered along wooden shelving inside the building.

Firemen also assisted in replacing large fuses which were burned out on transformers located atop poles in the downtown area.

The fuse on the fire whistle was blown out by the lightning, also, and had to be replaced.

Chelsea firemen had been asked to stand by and be ready to go to the assistance of the Dexter Fire department, in case they were needed. The Dexter men were fighting a barn fire on the Paul McMichael farm on North Territorial road near Dexter. The barn had been struck by lightning. Damage was estimated at \$1,500.

Saturday night a 1952 car, driven by A. E. Foerster of Jackson, was ruined when it caught fire after a tire blew out as it was traveling on US-12 near the Juergens farm home, east of Chelsea. The mishap occurred at 12:45.

The Chelsea Fire department responded and put out the blaze.

### Heres' One Hunter Who Didn't Have Very Good Luck

Joe Merkel, Sr., returning home Monday morning from a week-end of hunting at Effe Lake, near Kalaska, was involved in an automobile accident at 11 a.m., about two miles out of Farwell.

He and Louis Helm, riding with him, were injured, but seemingly otherwise unharmed, according to reports of the accident.

The mishap occurred when the brakes on his car reportedly failed and the car collided with another. Merkel called his son, George, who had just returned home from the hunting lodge with a buck he had bagged at 9 a.m. Saturday, and asked him to return and pick him up as his car was badly damaged.

Starting out immediately in his truck, George got as far as Williamston when he lost a wheel from the truck and was stranded there. The trip to Farwell and return was finally accomplished when Mrs. George Merkel, at her husband's request, drove the family car to Williamston and accompanied him north. The party arrived in Chelsea at 1 a.m. Tuesday.

### Hog Quarantine Lifted in County

Hog quarantines which had been in effect in Kalamazoo county since the middle of October and in scattered townships in Livingston, Wayne and Genesee counties as well as eight townships in Washtenaw county the past three weeks, were lifted Tuesday. Washtenaw townships affected by the quarantine which had banned shipment of hogs, included Lima, Dexter, Salem, Scio, Ann Arbor, Northfield, Superior and Webster.

REV. HUBERT MITCHELL

#### Youth for Christ Executive To Speak at Sterling's Barn

Rev. Hubert Mitchell, Foreign Secretary for Youth for Christ International, will speak at Sterling's barn, 12870 North Territorial road, on Friday and Saturday of the Thanksgiving week-end, Nov. 28 and 29 at 8 p.m. There will also be a morning meeting Saturday at 10:30.

Mitchell served for six years as a full-time missionary with the primitive tribesmen of Sumatra. At the outbreak of the war, he, together with his family, escaped the invasion of that island. For three months their ship dodged enemy submarines on the way to the United States.

At the close of the year, 1946, Mitchell and his family left for India. He opened up the Youth for Christ work there and for five years served as director of Youth for Christ in India and Ceylon, with headquarters in Calcutta.

Mitchell is now at the Youth for Christ International headquarters in Chicago directing the overseas program.

#### Plymouth's New Look for 1953

The distinctive grille of the 1953 Plymouth keynotes the new styling which carries through from bumper to bumper. The new models feature horizontal character lines that accentuate the ground hugging grace of the new streamlined styling. The softly rounded hood, sweeping out to the fenders, covers Plymouth's improved 100-horsepower engine with its 7.1 to 1 compression ratio. Note also the one-piece windshield with uniform curvature for minimum distortion and "Control Tower" visibility. It is available also in restful, heat-absorbing Solex tinted glass.
