

## Michigan MIRROR

State-Wide Tid Bits

Michigan highways will soon receive heavy travel of outstate vacationers.

According to Charles M. Ziegler, state highway commissioner, the coming construction season will see more detour signs than in recent years as a mark of progress in the prospect.

The state treasury expects to receive a little more money in 1953 for highway building and maintenance than the \$125 million which it received last year. Revenue comes from the state gasoline tax (one cent in all states is now six cents), from a graduated weight tax on commercial vehicles weighing 8,000 pounds or more, and from federal aid to the tune of \$15 million.

Of this amount the state highway department will get 44 per cent.

Michigan, the tax collector for local governments, will return 56 per cent back to counties and cities. The 83 county road commissions will get 37 per cent, and the 488 cities and villages are counting on 19 per cent.

Commissioner Ziegler expects to spend about \$19 million maintaining Michigan's 9,313 miles of state roads. About \$25 million will be set aside for construction of new roads and bridges. \$24 million will be earmarked to retire bond issues on Detroit expressways, and another million and a half for bonds on the Detroit-Toledo expressway.

There are 1,075 miles of state concrete highways, 8,085 of bituminous surfaced roads and 1,160 of gravel.

Two big question marks in the highway department for next year are toll roads in Michigan and the bridge across the Mackinac Straits. Commissioner Ziegler's view on toll roads is a "middle of the road" stand; improved roads are needed so badly that any legal method is better than no attempt to raise funds. Although he favors a free highway system, he would not oppose the creation of a tax road authority.

Ziegler said he favors the Mackinac bridge idea after making sure of two factors. One was that the project was practical from an engineering standpoint—this has been established by technical authorities. The second is that it is financially sound. This seems satisfactory also, for there is indication that bonding companies will be ready to finance the venture. Presently, the bridge is to work to begin on the bridge in the spring of '54 with completion in the fall of '56.

Another big problem is that of safety. The first 11 months of 1952 recorded 1,541 fatalities on Michigan highways, an increase of 34 over the same period in 1951. Economic loss resulting from personal injuries and property damage to the state from January through November in 1952 totaled \$145 million.

The commissioner was recently elected chairman of the Michigan State Safety Commission. This body is responsible under law for highway safety programs.

Serious have been held and other methods are being used to analyze Michigan's problems and that legislative and administrative reforms designed to lead to greater safety can be recommended. The press of Michigan has cooperated with these activities.

Other activities for 1953 include studies to determine how to make more economical road design and the possible uses of radioactive materials to improve testing and research procedures.

## Cage Team Sets League Record Score

### Rejuvenated Squad Swamps Lincoln Friday Evening

A vastly improved Chelsea basketball team went overboard last Friday evening to break the Huron League and home floor scoring record by defeating Lincoln 87 to 47. Throughout the game Chelsea kept a safe margin ahead. Improved recovery at the backboard by Barels and Elkins was largely responsible for the better game.

In the first quarter the Bulldogs started on a rampage with the scoreboard showing 18 to 10 at the period's end. Bob Berke and Bob White each added five points while Richard Samper made six for Lincoln.

Chelsea was still in the lead as the first half ended 37-23. Bob White added eight more to his total score while Lowell Smith added four for Lincoln.

After the half Chelsea racked up 24 points to Lincoln's 11 to end the third quarter 61 to 34. Neil Buehler led with 12 points, while Jerry Kruger led Lincoln with six.

The fourth and final quarter saw Chelsea reach 87, then it looked like the Bulldogs might add but the Bulldogs put on pressure and the score went to 87, breaking the 1950 scoring record.

Bob White led scoring honors with 12 points, while Richard Samper added eight to lead for Lincoln. The final score was 87-47.

On foul shots, Chelsea made 23 out of 37 for a percentage of 62. Lincoln took 26 tries and made 11 for a percentage of 42.

The Bulldogs showed the home crowd a very exciting game, the best of their season. However, an overtime period proved fatal as Lincoln won 47-46. Beckett made ten points to lead Lincoln, while Harold Stoll made 13 for Chelsea, assisted by Jim Cranford, Lynn nine and Lloyd Schneider. Galt Weir and Don Mahar with eight points each.

## Girls' Basketball Team Ends Season with 4-3 Record

The local girls' basketball squad played a most spectacular game overriding Dexter, their long-challenged victor for five consecutive years, and defeated them 22-16.

Chelsea controlled the scoring throughout the game with their new fighting spirit. First period ended 5-2 with Dixie Rowe and Shirley Segerstrom each adding a basket for Chelsea, while Sandra Gale placed one for Dexter.

Second period Chelsea widened the gap to 12-4. Dixie Rowe added the entire extra seven points.

After the half Dexter stepped up their scoring ability and ended the third quarter 15-12, still Chelsea lead. Kathy Wentzel and Arlene Sulka each made seven points for Dexter.

The fourth period was the tightest for both teams but Chelsea clung to their lead and broke ahead 22-16 with Dixie Rowe placing four foul shots.

Top scorer for Chelsea was Dixie Lee Rowe with 15 points; Kathy Wentzel and Sandra Gale each made six points for Dexter.

Chelsea girls' basketball team traveled to U. High where they defeated the U. High girls, 28-11. Dixie Rowe was high scorer for Chelsea as she racked up 17 points, while Helen Elismann and Delores Buehler made four points each.

Nooren Tubecook paced the losers with five points, assisted by Joe Burton with four points.

This game concluded the girls' season as they finished with four wins and three losses for the season.

## Warning Issued That Stray Dogs Will Be Impounded

Police Officer Frank Reed stated yesterday that stray dogs are again becoming a nuisance in Chelsea. He said all dogs found wandering around the streets or the school grounds without collars, or tags will be picked up and impounded.

He advises owners of dogs to keep them under their control at all times and to be certain they have their collars and tags on. He said there is no wish to deprive dog owners of their pets but the stray dogs that belong to no one, and become a hazard when they roam the streets at will, are the object of the present pick-up drive.

## Band Uniforms Ordered To Outfit Current Members

The Chelsea Band Parents club at a special meeting held Tuesday night, accepted the band uniform which was on display, made up to comply with the club's specifications, and placed an order for 32 of the uniforms.

By placing the order at this time, the uniforms will be delivered in time for the annual spring concert to be given by present members of the band on April 29. Approximately 50 uniforms will be needed, altogether, and the remaining number will be ordered as soon as possible.

The uniforms are of dark royal blue, all wool, trimmed in gold and the coats may be worn in four different ways. The regulation double-breasted style coat may be worn as a regulation style coat, with a shirt and tie, as a concert-style outfit or may be buttoned to the throat with a high collar effect.

The third style is achieved by means of a removable, reversible shield which may be worn with its matching gold-trimmed blue side showing across the front of the coat. The fourth style features the button on shield with its gold lining turned to the outside.

"Chelsea," in gold letters, appears on each shoulder.

Band members had the final say on the choice of hats to be ordered, and chose the shako style, approximately six inches in height, in preference to the regulation type.

The hats are trimmed at the front with an anti-pointed star in gold and the figure of a lyre embroidered in silver.

## Juvenile Court . . .

(Continued from page one)

The judge believes his solution to the juvenile detention problem to be the best of any offered to date. He is against building juvenile quarters in the new court house, not only because space and funds are limited, but because he believes such court house arrangements would give an institutional impression, which, he feels, would not have as good an effect, psychologically, in the treatment of juveniles as the home atmosphere of his proposed cottage-type quarters.

The judge also opposes the suggestion of a new building to house juvenile court and detention quarters. Annual expense of such a building would amount to \$30,000, Judge Payne said, in addition to the original cost of construction. He considers a separate building for juvenile detention and court purposes as unnecessary and impractical in a county of less than 200,000 residents and said Washington county is not expected to qualify in this respect for at least 20 years.

According to the 1952 annual report of the Probate and Juvenile Court as compiled by pamphlet form the Juvenile division has handled cases as follows: 38 dependent and neglected children, 47 dependent and neglected children, official cases; 89 alleged delinquent juveniles, unofficially investigated; 75 cases delinquent juveniles, official cases.

Also handled by the Juvenile Court were 231 hearings on adoptions; 216 petitions for hospitalization of afflicted children; 25 petitions for hospitalization of crippled children; and 102 cases of children who are wards of the court.

The financial report for the year 1952 for care of the children who are wards of the court, gives the total amount of expenditures for their maintenance as \$18,871.39, of which \$17,306.99 was for board and care. This leaves \$3,405.59 as the amount necessary for maintenance in excess of appropriations for the purpose, according to the report.

Of the 58 official cases of delinquent juveniles, all between the ages of 10 and 16 years, 31 were from Ypsilanti; 10 from Ann Arbor; 6 from Willow Village; 3 each from Chelsea, Milan and Dexter; 2 from Willis and 1 from Saline.

Charges against the 58 delinquents were headed by a list of 15 who were detained for stealing. Other offenses included breaking and entering, unlawfully driving away an automobile, possession of stolen property, forgery, aiding jail break, assault, drinking, sexual delinquency, truancy and traffic violations. Miscellaneous misconduct accounted for seven of the cases.

EVEN THE MUFFLER  
DOES THINGS TO THE POWERWorld's  
newest  
V8

BACK in the old days, any man who wanted real performance used a "cutout" on his car.

It was a device that by-passed the muffler—because mufflers have always cut down on usable power. But it made a lot of noise.

Muffling that noise—and still getting rid of exhaust gases as fast as they come from the cylinders—has stumped the automobile people for years.

Now, Buick engineers have racked up another "first."

They have come up with a muffler of supreme quiet and zero power loss—first time in history.

It is called a dynamic flow muffler. And it is one of many advances that make the great 1953 Buick ROADMASTER even greater.

For this automobile—the greatest Buick in fifty great years—has a brilliant new V8 Engine that can turn up 188 hp. And every one of its horsepower can be delivered as usable power—since none is restricted in muffler passage.

As you would expect, there is more to this magnificent motorcar than power, great though it is.

There's a finer ride, better maneuverability, easier handling—now with Power Steering as standard equip-

ment, and Power Brakes optional at extra cost.

And there's the amazing new Twin-Turbine Dynaflo bringing quieter, jet-fast getaway to complete and utter smoothness.

Why not come in and see for yourself just how great the greatest Buick in half a century really is?
