## Waterloo Road Committee Gains Lansing Hearing

Lyndon township's supervisor, Orson Beaman, and the committee he appointed to work toward early improvement of approximately four miles of Waterloo road in the township, are going to Lansing next Tuesday, Oct. 7, to meet with representatives of the State Board of Conservation. The committee will be accompanied by Howard G. Miner, Washtenaw county Road Commission manager.

The committee expects to meet with Director Gerald E. Eddy or with Deputy Director Wayland Osgood.

The committee hopes to enlist backing for the road improvement project since the contention of Lyndon township is that the state owes an obligation to the township because of the large tracts of state-owned land there.

Members of the committee are Bert Conway, L. D. Guinan, Leigh Beaman and Sam Markey.

## Cost of Site Utilities Studied by Board

The services of a civil engineer have been secured by the Chelsea Agricultural Schools Board of Education for the purpose of getting estimates on the approximate cost of sewer and water lines to the various sites under consideration for a proposed new elementary school.

Two special meetings were held during the past week to discuss the proposed site question and another special meeting is to be held as soon as the civil engineer's figures are ready.

Philip Lusk, three-year-old son of Mr. and Mrs. Don Lusk, of 563 West Mill street, suffered a sprained ankle and bruised knee when he ran into the side of a car near his home at 2:40 Saturday afternoon.

According to police reports, the car was driven by Doris Reed of 4487 Kalmbach road.

## Fair Lunchroom Adds Nice Sum To Help Financing

Approximately 650 pounds of meat, including beef and pork roasts and hamburger, 90 loaves of bread, and 1650 hamburger buns are some of the items noted on the list of food consumed in the old Red School, turned lunchroom for the four days of the Community Fair. This is in addition to the potatoes, coffee, vegetables, pies, cakes and other items which were donated by people of the community.

Between \$1,500 and \$1,600 was taken in at the lunchroom, according to tentative figures available at this time. Expenses, it is believed, will be around \$800 and the committee is hopeful the net proceeds will be \$1,000. The money will go toward expenses of the Fair.

Comments heard all indicated that the food was excellent, was moderately priced and quickly served to eliminate long waits.

Women of the community worked in shifts assisting the committee appointed by the Fair Board. Those on the committee included Mrs. James Hough, Mrs. Lloyd Heydlauff, Mrs. Erwin Haist, Mrs. Warren Daniels and Mrs. John Brooks.

The meat was roasted in homes in the community and brought to the lunchroom when ready to serve. Plans had been so carefully arranged that there was a steady flow of food coming in whenever it was needed.

Figures were not yet available on the proceeds from admission and parking charges but Lloyd Heydlauff, Fair Association president, said yesterday that he is certain all operating costs will be covered by the money realized from these sources and the lunchroom.

## U. of M. Prof. Is Speaker at PTA Meeting

Dr. Howard McCluskey, professor of educational psychology and adult education at the University of Michigan, was the guest speaker at the Junior-Senior High School PTA meeting in the school gymnasium Monday evening. He was introduced by James Hough, PTA president, who announced the topic of his address to be "Home, Community and School Cooperation in Guiding Children's Youth."

This was the first meeting of the PTA group for the present school year, and because of their common interest in youth activities of the community, the Kiwanis club was invited to join the PTA members at a pot-luck supper which preceded the meeting and then remain for the program.

Parents and teachers of elementary school children were invited to hear Professor McCluskey's talk also.

Professor McCluskey in his address, brought out the fact that combined forces of parents and teachers give the impact on education which it needs. He said "Home is an educational agency of the first order" and then went on to explain how the pre-school child is influenced by the environment of the home. The child's health, personality and ability to adjust himself when he enters school all reflect the home training he has received. Very often, parents are not conscious of the influence they are exerting.

He said the Parent-Teacher Association is a valuable asset in bringing about an understanding of the school child by means of a comparison of notes by parents and teachers.

The school can do a better job and the home can do a better job, he stated, if they will combine their efforts.

Speaking of the community's part in influencing the education of high school students, he stressed the importance of the trend to combine a job and school attendance in a cooperative occupational training program.

Professor McCluskey summed up his talk by stressing three points, first, that home and school agencies will both do a better job if they pool their resources; second, the school should make better use of the people of the community which, in other words, is "using community resources"; and third, that the program is an important training process more people now attend high school, although a smaller percentage of high school graduates go to college. The high school, therefore, should assume the important role of providing occupational training for those who do not plan to go to college.

Mrs. Willard Pennington has been named general chairman of room mothers for the year.

Room mothers and the grades they represent are as follows: Mrs. Carl Mayer, Mrs. Ellen Hart, 7th grade; Mrs. Clarence Vogel, Mrs. Lorenz Wenk, Mrs. Hugh Sorenson, eighth grade; Mrs. Claire Smith, Mrs. Walter Wolfgang, Mrs. W. GRAND CHAMPION STEER—Earl Heller, 12, son of Mr. and Mrs. Carl Heller, is shown here with his grand champion 924-pound Hereford steer which he raised as a 4-H club project this year in the Rogers Corners-Herdsmen's club. The steer was sold in the fat stock auction to Clarence Stapish, bringing Earl a top price of 38 cents per pound and a tidy sum of cash. This is the third consecutive year that Earl has had the grand champion steer at the Chelsea Community Fair. He is a seventh grade pupil this year at Jewett Stone school.

GRAND CHAMPION BARROW was shown by Harry Macomber, 13, son of Mr. and Mrs. George Macomber of Park road. Harry raised this barrow as a 4-H project as a member of the Lodi-Seo Junior Farmers club. The pig brought 27 cents per pound in the stock auction Friday afternoon. Last year Harry showed the grand champion two-year old gilt.

### Fourth Annual Pig Scramble Held Friday at Fair

Friday afternoon the fourth annual pig scramble was held at the Chelsea Community Fair. The following is a list of boys catching pigs and the sponsors' names:

Jim Dault, Chelsea State Bank; LeVern Walz, Chelsea State Bank; Bob Weirich, Kusterer's Food Market; David Fischer, Farmers Supply; Irvin Knickerbocker, Glick's Department Store; Bob Fischer, Dorr Whitaker; Dean Fowler, Merck's Hardware; Jim Klobuchar, Warren Daniels; David Grossman, Foster's Mens Wear; James Gray, Joe Merck; Douglas Stark, Strickler's Men's Wear; James Weir, Lawrence Wacker; Tim Schulze, Bliss Elevator; Alan LeVan, Frigid Products.

The gilts in this pig scramble, with the exception of four purchased from Jesse Hewens, of Ypsilanti, this year, are great-granddaughters of the gilt which the above sponsors purchased in 1950.

The same agreement is in effect between sponsor and boy as in 1950, namely that the boy do a good job of raising his gilt, that he have her bred to a registered Duroc gilt when she is eight months old, and that he allow a committee to choose the best gilt in his litter to return to the sponsor. Upon fulfillment of the terms of the agreement, the remaining pigs in the litter and their dam belong to the boy.

With the completion of the 1953 pig scramble the sponsors have placed 56 registered Duroc gilts with Chelsea FFA boys.

This year, the Chelsea State Bank is placing a beautiful 16-inch trophy in competition to go to the FFA boy who, at 56 days, has raised the heaviest litter containing eight or more pigs. This trophy is an added incentive to do a good job with FFA swine projects.

The winner of the trophy will have his name and the litter weight inscribed on the trophy and will gain permanent possession if he can raise the heaviest litter two different years. The presentation will be made when all fall litters have reached 56 days of age.

## Dundee Vikings Set Sails, Swamp Sluggish Varsity

Last Friday, Chelsea suffered its second defeat in as many starts, this time at the hands of Dundee's powerful Vikings. The final score read Dundee 25, Chelsea 0.

Near the end of the first quarter Dundee's Ron LaMonde carried the ball over from the five-yard stripe, but this play was nullified by a 15-yard penalty.

Early in the second quarter Chelsea fumbled on their own 20. Dundee covered the ball and after two running plays, scored on a pass from the ten. The extra point attempt failed.

The kick-off that started the second half was returned 30 yards by Chelsea's Don Proctor. However, the Bulldogs couldn't get a drive rolling and were forced to punt.

Near the end of the third quarter Dundee's O'Lane carried the ball over from the four. The extra point attempt failed again, and the score was Dundee 12, Chelsea 0.

Early in the final quarter LaMonde broke loose for a scoring sprint that took him 35 yards. The extra point was good and Dundee led, 19-0.

Dundee's final score came with only seconds left to play. Jim Pickens carried the ball over from the seven. The extra point attempt failed and the final score read Dundee 25, Chelsea 0.

Chelsea was unable to start their offense rolling all evening. Bob Keeter, Chelsea guard on defense, fouled up Dundee's offense several times by grabbing their quarterback before he could hand off the ball. Duane Downer, playing his first game as a regular linebacker, played well on defense.

This Friday Chelsea travels to Flat Rock for their first game of the season away from home.

# Rockwell Spring and Axle Company

A CONSOLIDATION OF  
**THE TIMKEN-DETROIT AXLE COMPANY**  
AND  
**STANDARD STEEL SPRING COMPANY**

ON OCTOBER 1, 1953, a new corporation takes its place on the great horizon of American business progress and advancement.

The names and reputations of the two parties to this merger have been highly regarded for more than a half century. So also, have the names of those men whose talents and skills have brought an uncommon measure of success to each of the two merged companies.

Among the valued customers of the new company are the leading automobile and truck manufacturers to whom millions look for the automotive transportation that has become the bloodstream of the nation's economic and industrial life.

Equally valued customers are those great farm equipment manufacturers whose names are world-known and world-respected.

There is probably no street corner or farming area throughout the civilized world where the products of the new corporation may not be seen.

Timken's business consists primarily of the manufacture and sale of front and rear axles for commercial trucks, motor coaches, trolley buses

and commercial trailers; transmissions, axles, final drives and power take-offs for farm tractors and other farm equipment; axles and transmissions for material handling equipment and other industrial and military uses; transfer cases, gear carriers and brakes.

In addition, the Timken name is nationally known and highly respected for its pre-eminence in the manufacture of quality oil and gas home heating equipment.

Standard's principal peacetime products are automobile bumper brackets and face bars, seat and back cushion springs and tubular frames, flat leaf springs, coil springs, universal joints and assemblies, and steel gratings and treads.

The complete modern research laboratories and skilled personnel of the two organizations will facilitate constant interchange of ideas. The result will be evident in expansion and acceleration of engineering and product research and development.

Thus—to the vast motoring, industrial and farming population, this merger can and will result in substantial and steady product progress. For it is

the aim and purpose of the new corporation to plough back the savings economies will afford, and to plan diversification for future growth and strength to benefit customers, employees and stockholders.

The new corporation starts with assets of more than \$155 millions. Total sales in 1953 will approximate \$400 millions. Manufacturing facilities comprise 24 plants strategically located in 19 cities. With two complete bumper plants, three complete axle plants, two complete leaf spring plants, four complete seat cushion and back spring plants, the possibility of interrupted production for any cause is reduced to a minimum.

A successful merger has been defined as "a combining of talents and assets for immediate mutual benefit and anticipated future development." This consolidation fits that definition, not alone with respect to all who are connected in any way with the companies involved, but to the continuing welfare and advancement of the nation's economy.

The officers and directors of the new corporation approach their tasks and responsibilities with humility and high hopes for its future.

From where I sit... by Joe Marsh

### One for the Books!

Noticed the Missus had a red ribbon tied around her finger at breakfast one morning last week. "What's that for?" I asked. "Your memory slipping?"

"It's not for me," she answers, "it's to remind you, and everybody else who asks what it's for, to contribute to the Woman's Club Library Fund. We need \$200 and we figured we'd get more help if we could get people to ask us about it."

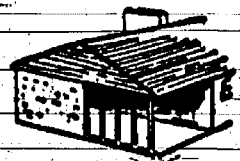

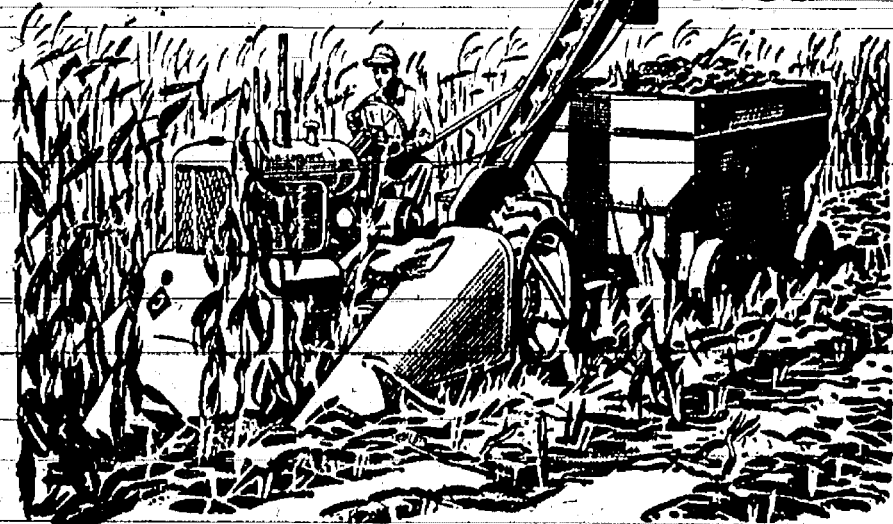

Well, as it turned out, the red ribbon worked just fine. The ladies are having the library all

fixed up—and there's enough money for some new books, too. From where I sit, it would be a fine thing if we had some sort of private reminder when we forget the rights of our neighbors. Like when we start telling them what we think is best. I may like a travel book and a temperate glass of beer while you prefer a cup of tea with your historical novel. Let's both remember not to "put the finger" on the other!

## High School Band Participates in U-M Annual Band Day

Chelsea High school's band, under the direction of Gene Shroyer, will be one of the 115 Michigan high school bands which are to participate in what is expected to be the world's largest massed bands day at the University of Michigan Saturday, Oct. 3, during half-time ceremonies of the Michigan-Tulane football game.

Approximately 6,347 bandmen will take part in the event which is sponsored by the University bands of which Professor William D. Revelli is director.

The musicians will have just one rehearsal together the morning of the game. That's no more than that allowed the 29 bands who played in the first annual Band Day in 1949.

A count of the types of instruments that will be used reveals that there will be 1,133 cornets and 761 clarinets, but just one E-flat clarinet and one baritone saxophone.

Chelsea's band is the only one from this vicinity chosen to participate, according to the listing of bands from all over the state. Noted on the list is the band from Roscommon High school, where Elwin Hulce, former Chelsea resident, is superintendent of schools.

Personnel of the Chelsea band making the trip are as follows: Clarinets: Cynthia Pugh, Evelyn Moore, David Briston, Nancy Peck, Douglas Collyer, Lydia Mayer, James Buck, Tim Schulze, Jim Geor, Norma Larson, Audry Musolf.

Cornets: Neil Fahrner, Byron Pearson, Robert Balmer, Karl Rie-

mensneider, Bill Sorensen, Fritz Wagner, Loren Keizer, Monica Smith, King Hanna.

Saxophones: Bernice Miller, Rebecca Brown, Ruth Walz, Richard Fowler.

Horns: Elaine Williams, Llewellyn Lehman, Hubert Brown, Norria Rowe.

Trombones: Dean Fowler, Glenn Weir, Laverne Walz, Fred Skiver, Baritone: Dennis Schumm, Ronald Papsdorf, George Staffan, and Douglas Warren.

Tuba: William Geddes, Fred Klink.

Percussion: Jim Weir, Arlene Paxton, Mary Lou Sexton, Mildred Carty, Rebecca Slane.

Baton Twirlers: Lorraine Paxton, Marilyn Honbaum, Shirley Bair.

Head majorette for the band this year is Betty Leggett.

Accompanying the band as chaperones will be Charles Cameron, Mr. and Mrs. John Griffin, and Mr. and Mrs. Floyd Fowler.
