It's a SWAP!

There are two sides to every "swap" . . . giving and getting. All through life, we are "swapping" . . . giving up something we want less to get something we want more. That's exactly what happens when you open a savings account and add to it regularly. Once the saving habit is established, you'll hardly miss the small deposits you make each pay-day. Yet they can make your dearest dreams come true: a home of your own, a college education for your children, financial independence for your retirement years. This is the kind of "swap" that spells success and happiness in life. And the best time to start "swapping" is NOW!

JUNIOR PLAY

A good play can be produced only with the cooperation and assistance of everyone. Who, in a successful play, are the ones who get most recognition? The performers? What about the unseen workers behind the scenes? The stage hands, the make-up people, the costumers—these are the ones to whom the recognition should go. Their cooperation and willingness to work make for the success of the play.

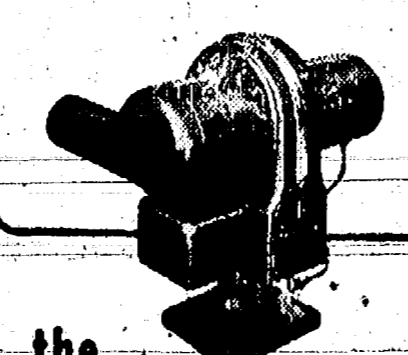

Any director finds it gratifying and worthwhile to work with a group of students who will cooperate. Among the problems the director must face are improvising equipment, creating or modernizing scenery, lighting, and the temperamental actor who is unwilling or unable to accept directions. The goal of every director is to produce a play that is enjoyed and accepted by the audience and is a worthwhile experience for the students.

DISCUSSION GROUPS

Discussion groups for Junior High and High School students were held Feb. 15. The boys and girls met separately to discuss school life and ways to improve it. The girls discussed sanitation in the shower and rest rooms, disposal of lunch waste at noon, and petty larceny.
The boys discussed taking care of school property and writing on desks, among other problems.

Organizations . . .

STUDENT COUNCIL

The committee, "Better Representation" reported that the Student Council member in each home room should be given extra time to read and voice his personal interpretations of the minutes on Thursday of each week. Representatives from every organization will be invited to participate in any discussion, but will not have the voting power in any proceedings taken.

The Student Council voted to give the cheerleaders \$20 to aid in paying for their new uniforms.

The Senior class requested permission to sponsor an assembly on Wednesday, Feb. 17. The assembly will include slides taken by Don Proctor during his European trip.
Plans were approved for the 8th grade to sponsor a "Sadie Hawkins" dance on April 17 for the 7th, 8th and 9th grades.
It was approved to have valentine boxes decorated for each grade. Valentines were passed out Friday morning.

CHEERLEADING

The cheerleaders are very grateful to the student body for their fine cooperation at games. Although only two regular games remain there are all the tournament games.

New York Central Towns Win 427 New Industries

YOUR RAILROAD HELPED TWO WAYS last year to locate 427 new plants in towns and cities on its line. It worked closely with local chambers of commerce and realtors. And its industrial-development experts kept in constant touch with new or growing businesses that might need factory or warehouse sites.

BIG INDUSTRIES AND SMALL were represented among those won for the New York Central communities. Everything from local dairies and canneries to the world's biggest steam-turbine electric generating plant, part of the multi-billion-dollar expansion of private power companies in the area Central serves.

2. MOST IMPORTANT OF ALL was Central's top quality freight service. For this is the factor that makes your town and every town on its lines truly a "Central" location. It links plant sidings directly with six of America's ten-top markets and with the busiest and best-served Atlantic seaports.

4. NEW JOBS AND NEW WEALTH moved in with these new industries. New markets for local farmers. New customers for merchants. Helping to bring this prosperity is another way New York Central forms a living part of the communities it serves. And that's always the CENTRAL IDEA!

That's why people are calling the new 1954 Chevrolet the outstanding motor car value of this new year!

Men and women everywhere are deciding that Chevrolet for 1954 gives more for the money than any other car in its price range.

vanced 1954 engines—the thoroughly proved "Blue-Flame 125" engine teamed with Powerglide (available on all models at extra cost) or the thoroughly proved "Blue-Flame 115" engine!

New economy—yes, even stronger gasoline savings—because both of these great high-compression engines are designed, engineered and built to wring more power from every charge of fuel.

Moreover, these new Chevrolets remain the lowest-priced line in their field, again this year.
