Share Huron League Title with Dundee; Tourney Play Starts

The Chelsea basketball team set a new Huron League and Chelsea gymnasium record when they defeated the Ypsilanti Lincoln Raiders by a score of 94 to 59 last Friday evening.

Chelsea and Saline previously held the Huron League record of 87 points, and before last Friday night, the Chelsea Bulldogs also held their own gymnasium record of 90 points.

This victory was the Bulldogs' 15th in 16 starts this season. The Bulldogs and the Dundee Vikings are now co-champions of the Huron League for this season.

With Bob White, Neil Buehler and Bruce Hoffman setting a terrific scoring pace in the first quarter, the Bulldogs took a commanding lead of 26-9 at the end of the first period.

Ypsilanti-Lincoln and Chelsea each scored 17 points in the second quarter to make the score 43-26, in favor of Chelsea at the intermission.

Bob White hit for five field goals and Bruce Hoffman for four in Chelsea's big third quarter of 24 points. Ypsilanti-Lincoln was held to nine points in this period as the Bulldogs led by a 67-35 score at the three-quarter mark.

In the final quarter, Neil Buehler, Dave Elkin, Bob Bertke and Bob DePant sparked Chelsea to one of their best quarters of the season as they broke the Huron League and Chelsea gymnasium records.

as they scored 27 points. Ypsilanti-Lincoln also had a very good quarter as they scored 24 points to make the final score read Chelsea 94, Lincoln 59.

Neil Buehler's long shot from the side-court broke the Huron League record for the Bulldogs, and Bob DePant's one-handed shot from the corner broke the Chelsea gymnasium record.

High-point men for Chelsea were Bob White, 27 points; Hoffman, 25 points; and Neil Buehler, 22 points.

This is the Bulldogs' second Huron League basketball championship since the Huron League was organized in 1930. The first basketball championship was won by the 1951 Bulldogs.

In the reserve game the Chelsea Bulldogs defeated Ypsilanti-Lincoln by a 45-32 score. Donald Mahar paced the Bulldogs with 16 points. He was followed by Ralph Owings with 9, Ted Nixon and Fred Hoffman with 8 each, and Billy Roberts with 4.

Contractors Ready To Begin Work on New School

Contractors for the construction of the new north elementary school are waiting until weight restrictions on roads are lifted so they will be permitted to move their heavy bulldozers and trenchers from Ann Arbor to the school site and begin work.

School Board members have been assured that the new eight-room building will be ready for the opening of school next September.

In the meantime, there is some activity toward preparation for the construction work.

Carpenters have been putting up the temporary tool and supply sheds and construction surveyors have been marking and laying out the location for the foundations.

Work will begin in earnest as soon as the equipment can be moved here.

DHIA Meet To Be Held at Pittsfield

The third annual meeting of the Washington-Detroit-Huron Improvement Association will be held at Pittsfield-Grange Hall, Friday, March 5 at 8 p.m.

This organization has completed three testing years in Washtenaw county with a steady improvement in the "per cow average" each year, thus proving its value to the users, officers have stated.

Getting rid of "boarder cows" through the use of DHIA records and improving the balance of the herd through artificial breeding are stated as two major reasons for the price squeeze on dairy farmers in 1954.

This was brought out by extension economists at recent "Barnyard Economics" meetings held throughout the state.

George E. Parsons, Dairy Extension Specialist from Michigan State College, will show his pictures on German agriculture and answer questions pertaining to DHIA or HIR records.

There will be reports by Supervisor Floyd Fowler, Walter Wolfgang's term as director expires. Nominations will be accepted from the floor.

Refreshments will be served by wives of the directors.

According to local officials of DHIA, not enough requests for DHIA testing have been received to warrant training a second tester. Anyone interested should call or write Don Johnson at the court house, Ann Arbor, or come to the meeting on March 5.

Solicitation Underway for Red Cross

Mrs. John Fischer, Chelsea Red Cross drive chairman, said yesterday that the 1954 campaign for funds began Monday with all fund workers united in their efforts to secure the \$1,700 quota as soon as possible. She said everyone seemed hopeful that the amount contributed here in the month-long campaign will top that figure.

Mrs. Fischer mentioned that it will help campaign workers in their canvass of the community if contributions will have their donations ready when the block workers call. In past campaigns, the practice has saved much time and an increasing number of people have been following the plan each year, workers have reported.

Checks may be mailed to Chelsea Branch, American Red Cross, c/o Mrs. John Fischer, 509 South East street.

The county-wide goal this year is \$75,500 in contributions and 20,000 Red Cross members. Everyone who contributes one dollar or more to the fund becomes a member.

During the past year, in Washtenaw county, the Red Cross Home Service department has assisted 3,083 cases in the armed forces. This includes service to the armed forces personnel as well as to their families.

The disaster services sent three nurses to the Flint tornado area and the safety services department awarded 777 first aid certificates and 1,134 water safety certificates after supervising the examinations required, according to information released through county Red Cross reports.

As of June 30, 1953, 60 nurses were enrolled for Red Cross service and three nurses were furnished in polio epidemic areas.

Fourteen blood clubs were organized in the county during the year and 8,693 Red Cross volunteers have been trained.

The Junior Red Cross of Washtenaw county has provided 460 gifts boxes for veterans, old people and hospital patients. In addition, \$300 was spent for the benefit of children in the Huron Valley Child Guidance clinic.

The many services of the Red Cross are financed by the contributions of the members and the annual drive during the month of March.

Wolfgang Named to Fairgrounds Planning Body

Walter Wolfgang has been elected a member of a planning committee representing agricultural interests of the county in drawing up plans for development of the Washtenaw county fairgrounds. The election was held Thursday at the Farm Bureau store in Ann Arbor.

The planning committee was named under terms of a proposed agreement between the Washtenaw County Fair Society, owners of the 42-acre tract, and the city of Ann Arbor, whereby both groups named two trustees to hold in trust the money the city will pay for the property after the society's bills are paid. These four trustees will select a fifth trustee.

Other members elected Thursday as rural members of the planning committee are Frank McCalla of Whitmore Lake, and Erwin Steeb of Ann Arbor.

Fernan, Clements of Saline, and Jesse Hewens of Ypsilanti, were elected as trustees representing rural interests. The two rural

OUR HIBERNATING POPULATION

As winter closes in on Michigan outdoors quite a few of our animals cut down the cost of living enormously by crawling into a hole and virtually pulling the hole in after them for a few months. The small matter of self preservation is involved, too, for by hibernating they also automatically remove themselves from exposure to most natural enemies.

Bear Typical

The Michigan Black Bear is an outstanding example of complete hibernation in a mammal. They do not merely become torpid like a woodchuck, but simply den up underground—perhaps under a huge stump where they sleep quietly, subsisting on accumulated fat to sustain life. During the long winter retirement which begins with the coming of the first heavy snows, the black bear's cubs are born naked and blind. They weigh little more than a half pound apiece and they develop very slowly. Even while the mother is still in hibernation the cubs nurse and grow although their rate of growth is slow.

Semi-Hibernation Common

While some animals, such as the bobcat and fox, range their territory

all winter, others take a deep breath and remain almost in suspended animation when severe cold spells hit the state. The raccoon is typical of this category. Beginning early in the fall the raccoon eats just about twice his normal intake of food, building up a heavy layer of fat. This serves a double purpose—keeps him warm and supplies energies for those cold waves during which he chooses to find a comfortable den and remain curled up in a furry ball. However, once the sun comes out and the air temperature rises above freezing he'll be on the move again in search of an ear of corn forgotten by the farmer.

These days the raccoon is moving into suburban areas, too—and city dwellers report seeing more and more of the "masked bandit" in the hours after dark.

Squirrels fall into a similar classification, "hibernating" only for a day or two at a time. Folks who believe those comical nests high in hardwood trees harbor squirrels in the winter are wrong—for these animals move about thruout the winter. Unfortunately they suffer severe casualties in population during a hard winter. But they are a prolific mammal—so chances are well-behaved black-grey and fox squirrels around Michigan for many moons to come!

INSIDE THE CAPITOL

By John B. Martin,
Auditor General

The advantage of cooperation between departments was well shown last week when the Secretary of State advised me that his examiner had discovered that certain applications for drivers licenses had not been forwarded with their fees from the Muskegon Heights Branch Office.

One of our auditors was immediately dispatched with the representative of the Secretary of State's Office to check the records and determine why these fees had not been received by the State. In less than twenty-four hours the auditors had established the amount of the shortage, approximately \$450.00, had determined which applications had not been forwarded, obtained a signed confession from the employee involved and made certain that the State was reimbursed for the full amount of the shortage. The facts showed that the money had been taken during a one-week period in Au-

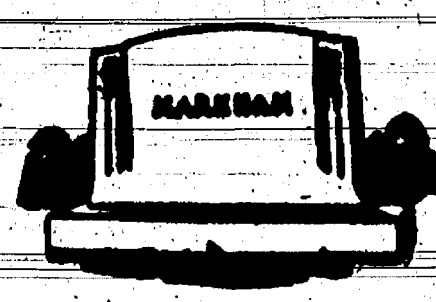

gust after the date when any annual examination would have been made. The speed with which we were able to move in this case and the results accomplished were due in large part to the fact that the two departments worked closely together and went into action immediately upon the uncovering of evidence pointing to a default.

The amount involved in this particular case was not large, but might have been a great deal larger in an office where greater amounts of money were being handled. Our report made several suggestions for the tightening of internal financial controls which have been informed by the Secretary of State's Office, are being promptly put into effect.

This is just one instance of the kind of situation my department is constantly watching for and in which we are now receiving close cooperation from the other departments of state government. A \$750,000,000 business takes a lot of watching.

Overnight guests Sunday at the home of Mr. and Mrs. Charles Lancaster were Mr. and Mrs. Ernest Grabowski of Saginaw.

The Weight of Public Opinion is Against the Excise Tax on Telephone Service

"Which Federal excise tax do you personally object to most?"

That question was asked recently in a public poll conducted by Opinion Research Corporation. They wanted to learn how people personally felt about Federal excise taxes. These were their findings: THE EXCISE TAX THAT INCURRED THE MOST RESENTMENT AND IRRITATION WAS THE TAX ON TELEPHONE SERVICE.

Of the people interviewed, 59% objected most to this tax. It was more objectionable than the Federal excise taxes on gasoline, automobiles, tires, railroad tickets, cigarettes, movie tickets, and many other things.

This high percentage of objection to telephone excise taxes is understandable. Each month they add 15% to your telephone bill for local service, and 25% to your bill for long distance calls costing 25 cents or more. For excise tax purposes, it's as though your telephone were a luxury, like jewelry or furs.

We recognize the Government's need for adequate income and for balancing the budget. But if Congress is to consider any excise tax reductions, we believe the excise taxes on telephone service should be among the first to get attention.

All the savings from a reduction or repeal of these taxes would go to telephone users—not to the telephone company.

Modern Basketball Appeals to Spectators; Today's Game Faster, Says Wayne Coach

Coach Joel G. Mason of Wayne University shows Tartar cagers, Oscar "Wally" Ziemke of St. Joseph and Don Halverson of Stambach, how the game is played. In the early days of basketball all the courts were surrounded with a wire or netting to form a type of cage. Those that played the game came to be known as cagers.

Modern basketball fans, accustomed to today's fast, high scoring games, would have a hard time visualizing the cage sport of the early days when the total score was often less than 20 points.

Comparing today's sport with the basketball game of 40 years ago, Coach Joel G. Mason of Wayne University, points to Tartar cagers, who played the game at the University of Western Ontario a 103 to 94 defeat last season, but in 1918-19 the score of Wayne's hard fought victory over Assumption College was 12 to 9.

In 1911 Dr. James Nelsmith of the Springfield College physical education department, tackled a rough basketball on the gym wall. From that day on basketball was on its way to become the top sport of the indoor winter season.

By 1906 the game was popular on the college scene, but rules and regulations had yet to be developed. The dribble of the early days was controversial that often it was necessary to play periods by different rules. Some games consisted of two 15-minute periods with a five-minute break. Others were as long as three 15-minute periods. It wasn't until 1930 that rules became uniform.

The first goals were peach baskets or iron rims attached to the wall. Out-of-bound lines were added when the backboard came into play. The variety of early backboards prompted a 1916 ruling that all boards be a specified size and painted white.

Early games were played in halls, auditoriums, and churches. Players became adept at dodging red-hot, pot-bellied stoves and arching shots high over cross-beams and rafters.

The early courts were bordered around to a height of three or four feet. When wire or netting was added above, it brought on the appearance of a cage. Hence, the term cagers.

There were no free throws. A point was added for every three personal fouls. Then came the decision to have one man shoot the foul shots from 20 feet out. Later this was changed to today's 15 feet with the shooting to be made by the man who was fouled. Stalling in the backcourt did much to lower early day scores until a 10-second line was installed.

Modern fans think of the center jump as outmoded, but it did not completely disappear from the college scene until 1937.

As rules, officiating and playing conditions improved, the uniforms reflected the changes. Bulky knee pads and other padding used when the game was rough, disappeared. In their place is the modern, lightweight two-piece uniform appropriate for today's fast moving game.

Parliamentary Procedure Team Shows Ability

Philip Smith, Agricultural teacher at Chelsea High school, and the parliamentary procedure team, which won the district contest at Manchester two weeks ago and participated in the Future Farmers regional contest at Saline on Tuesday of this week, were guests of the Kiwanis club at the regular weekly dinner meeting in the social center of the Methodist church Monday evening.

The team gave a demonstration of their skill in conducting a meeting and speaking extemporaneously on the matter of doing something beneficial for the community through the FFA organization. The subject of their talks on the community project was not told them until just before they spoke. This is in accordance with their contest rules.

Members of the team are Lloyd Gray, Don Schneider, Duane and Ronald Satterthwaite, Llewellyn Lehman, Larry Chapman and Edson Whitaker.

Their suggestion for an FFA community project was for sowing grass seed in the roadside park at the North Main street entrance to the village.

Also a guest at the meeting was Vance L. Ogden of Clinton, formerly of Chelsea.

Affred Mayer and Donald Alber were named delegates to the Kiwanis International convention to be held in Miami, Fla., May 9 through 13. Alternates are James Hough and Charles Cameron.

Anton Nielsen was named to represent Kiwanis club on the Chelsea Recreation Council.

Chandler Rogers, chairman of the support-of-churches committee, announced the Lenten services of churches of the community.

Local Explorer Scout Troop Issues Plea For Adult Advisor

Explorer Scouts of Chelsea are desperately in need of an adult advisor to their troop. They are not only with the present group of six boys, but add more who wish to participate.

It has been pointed out by Ed Dickelman, Scoutmaster, and Dr. E. J. Sutter, assistant Scoutmaster, that no special knowledge of scouting is required to become an Explorer advisor.

Explorer Scouts plan their own meetings and their own work, but need the adult advisor to complete their organization and to supervise their meetings and other activities.

They hold evening meetings once a week and set the dates of meetings to suit the convenience of their advisor.

It is stipulated that an advisor must be 21 years of age or older. Anyone who is willing to volunteer for the worthwhile job of supervising the activities of boys 14 years old and over, may contact Dr. E. J. Sutter or Scoutmaster Dickelman.

Road Commission Crews Hard Pressed To Keep Highways Clear of Snow Drifts

Predictions that most of the cold weather of the present winter would be experienced here in March seem to be borne out by the real winter weather of the past few days.

Cold, strong winds early Monday could be said to have brought March in "like a lion," and snow of blizzard proportions yesterday continued the effort.

Howard G. Minier, Washtenaw County Road Commission manager, said yesterday morning that this was the worst storm of the winter for road crews. The blowing snow made for poor visibility and the drifts with ice underneath were responsible for many cars sliding into ditches.

There were tie-ups of traffic during the morning on US-12 and US-28, he said, and road crews were dispatched to the scenes to help get traffic moving. He was looking for a number of secondary roads to be closed until the wind died down as snow-plows could be of some effect. As long as the high winds continued, plowing was useless, he pointed out.

Sanders were rushed to the hills on main highways where cars were having difficulties.

Jackknifed trucks held up traffic in several instances on US-12 and 28.

Minier said it would take two or three days after the storm abated before roads would be back to normal.

HERE'S HOW... MAKE A TABLE-DESK

A simply constructed table-desk can be made of wood with just a few tools and skills.

To start, construct a rigid frame, B, of 1 x 4 material, both glued and screwed together for rigidity. Frame section, C, calls for sawing out the corners to accommodate the legs, and cutting the slots with saw and chisel for the drawer rails. When B is glued to C and drawn tightly together with screws, the legs fit into the corners as shown in D and E.

The table-desk top may be of 1-inch or 1 1/2-inch material, 12 two 12-inch boards and one 6-inch board, each 48 inches long are used, there will be only two joints in the top.

The top is fastened either by screws from the top or right-angle brackets from beneath, and has a 1 1/4-inch overhang all around.

Drawer detail is shown in E. As for the best wood and finishes, your local lumber dealer will be able to advise you.

It's a SWAP!

There are two sides to every "swap" . . . giving and getting. All through life, we are "swapping" . . . giving up something we want less to get something we want more. That's exactly what happens when you open a savings account and add to it regularly. Once the saving habit is established, you'll hardly miss the small deposits you make each pay-day. Yet they can make your dearest dreams come true: a home of your own, a college education for your children, financial independence for your retirement years. This is the kind of "swap" that spells success and happiness in life. And the best time to start "swapping" is NOW!

Elementary Parents' Night is Friday evening, March 19.

JUNIOR CLASS PLAY
"Our Town," by Thornton Wilder, is entirely different from any previous presentation by a Chelsea group. It will be presented by the Junior class Saturday, March 27 at 8 p.m. Some of the characters who are portrayed in the play might be our next-door neighbors.

The stage manager, played by Harold Stott, is a person who has lived in Grover's Corners all his life. He knows the town and its citizens very intimately. He occasionally interrupts the play to narrate explanations, illustrations, interpretations or backgrounds.

Howie Newsome, played by Bill Hoppe, is the town milkman.

Howie is optimistic, friendly, good-natured, easy-going, gossipy.

Simon Stimson, played by Lester Wahl, is the town scandal. Although a local choir director, he indulges too deeply in drink, and is seldom completely sober. This gives the gossips a topic for discussion.

Mrs. Soames, played by Diette Hibbs, is the town gossip. She is somewhat astonished at the fact that the choir director of the church is a tippler; so she diligently spreads the word.

Movies . . .
During the week of Feb. 23 through March 3, two movies were shown. Mrs. Balstad's and Mr. Davis' seventh grade history classes saw "Peru" and "The ABC's of Corn Belt" was shown to Mrs. Conklin's Homemaking II class.

PEP MEETING
The pep meeting for the game with Lincoln started with a cheer from the senior high cheerleaders. A skit was then given by the speech class, showing how a game would have been played 100 years ago. After a talk from Mr. Conklin the junior high cheerleaders led a cheer. Talks from Mr. Magiera and Mrs. Balstad followed.

The Latin club presented a short skit representing a radio program. They gave a play-by-play description of a Greek and Roman basketball game complete with cheers in Latin. There was even an announcer with commercials. Mr. Magiera gave a short talk about the good sportsmanship during our previous games and asked that it be continued. He also asked that the gym be cleared shortly after the end of the game in order that the H-I-Y may start the dance. The school song was sung and the pep meeting ended.

VILLAGE OF CHELSEA AUDIT REPORT

December 31, 1953

February 24, 1954

To the Honorable, the Village Council
Village of Chelsea, Michigan

We have examined the statement of financial condition of the Village of Chelsea as of December 31, 1953 and the related statement of receipts and disbursements for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statement of financial condition and statement of receipts and disbursements present fairly the financial position of the Village of Chelsea at December 31, 1953, and the results of its operations for the year then ended, in conformity with generally accepted governmental accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,

Iceman, Johnson & Hoffman
By C. A. Hoffman.

The evening program takes the place of the former Girl Scouts Father-Daughter banquet.

Association members also discussed the need for Brownie and Girl Scout uniforms and equipment and are requesting that anyone who has uniforms they are willing to dispose of to contact Mrs. J. V. Fisher.

An incomplete report of the annual Girl Scout cookie sale, recently conducted here, showed the sale to be a great success and Association members credited cooperation of Chelsea residents as well as enthusiastic salesmanship on the part of Girl Scouts and Brownies as the principal factor in the success of the project by which Girl Scout activities are financed. Proceeds are approximately \$175. The girls sold 1,440 boxes of cookies.

Also assisting were the wives of the Pratt three sons, James, Robert and Ellis.

Table decorations were in red and white, with the three-tiered anniversary cake all white and the table bouquet of red gladioli and white carnations.

VFW Auxiliary Asks

For Volunteer Help as VA Hospital Aides

The 1st social meeting of the VFW Auxiliary was held Monday evening at the home of Mrs. John Chaplin. There were 19 members and one guest present.

Refreshments were served by the committee which included Mrs. Chaplin, Mrs. Carl Benjamin, Mrs. Joe Kast and Mrs. Charles Ritter.

Mrs. Iva Carty was the recipient of the door prize.

During a short business session Mrs. Mac Packard, Auxiliary president, stressed the importance of the business meeting to be held March 15 when nomination and election of officers is to take place.

She also led a discussion during which plans were made for a hospital party at the VA hospital in Ann Arbor, March 17.

Mrs. Packard asked for volunteers who would be willing to spend Mondays at the VA hospital to assist veterans by doing errands for them, reading to them, shopping for them and other personal services. It is not necessary to be a member of the VFW Auxiliary to volunteer for this work. Two local people are needed each Monday.

The local Auxiliary has made plans to "adopt" one of the forgotten veterans at Ypsilanti State Hospital who never have visitors, receive no mail or any comforting word for anyone outside the hospital. These are young veterans of World War II, Mrs. Packard pointed out.

Purple Heart Award Given Posthumously to Sgt. Earl Buku

During the past week, John Buku, 28-year-old driver of a car involved in the Dec. 5 collision on US-12 in which Viola Buku and Thomas E. Bauer, of Chelsea, and John Ragland of Battle Creek, lost their lives, was sentenced on a negligent homicide charge in Circuit Court, Ann Arbor, Tuesday.

Leggett was put on five years' probation; given 42 days in jail, with credit for time already spent in jail because bond was not furnished; and ordered to pay \$150

Better quality roughage can reduce costs of producing milk in Michigan by 20 to 25 per cent, asserts an MSC agricultural economist, C. R. Hoglund.

State and federal ballots were combined for many years in 1943 they were separated to prevent Democrats from cashing in on the votes of Franklin D. Roosevelt.

Since President Eisenhower has some appeal of his own, Republicans in the legislature favor going back to the old system.

Cries of politics by the Democrats were met with the same charge by Republican Sen. Joseph Cloom of Wakefield.

Cloom made no bones about favoring the switch because it benefits the GOP, and made a strong point of Democratic opposition to the bill.

At least 30 bills have been introduced aimed to better working conditions, increase unemployment or disability payments, provide broader coverage of present laws, etc.

How much, not if, is the question to be decided.

It is generally agreed that unemployment insurance will be increased, as will workmen's compensation benefits. One bill proposes a maximum of \$44 per week for a person with four dependents and increasing the effective period from 27 to 39 weeks. Another bill, sponsored jointly by 34 Democratic representatives, requires unemployment payments figured from a fixed percentage of an average weekly wage, plus dependents.

It is generally agreed among legislators that the proportion of increase agreed upon for unemployment benefits will be applied to workmen's compensation.

Other proposals include: broadening workmen's compensation to include employers of one or more persons; law requires that employers of less than four need not be covered; establishing higher safety standards; creation of an accident prevention fund; a minimum wage of \$1.25 per hour.

All of these will be sorted out by members of the Labor committee; some will probably become law.

Interests, with the two to be named by the city of Ann Arbor and a fifth to be named by the four, will form a board which has vetoing power over the planning committee.

Three members of the planning committee representing Ann Arbor, are still to be named.

Agricultural interests of the county are chiefly concerned with assuring use of the fairgrounds for the 4-H fair after its sale to Ann Arbor.

The city's plans for the fairgrounds are to promote its use as a recreation center.

Wolfgang said yesterday that the planning committee would welcome suggestions from farm organizations, granges, the Farm Bureau groups and others to learn their opinions regarding proposed uses of the fairgrounds. Knowing the desires of the majority of people in the county would be of help in deciding action by the committee, he concluded.

Thirty-five farmers attended the election meeting Thursday.
