Wolverine Pipe Line Dedicated Monday in Vicksburg Ceremony

About 800 civic leaders and other residents of this locality were guests at a luncheon held Tuesday at the Hayes Hotel in Jackson in connection with the dedication of the Wolverine Pipe Line system.

Cyrus S. Gentry, president of the Wolverine Pipe Line company, addressed the group. Displays of pipeline operations were presented and a motion picture was shown depicting pipe line construction in rugged terrain. Jackson is the site of a delivery point on the 295-mile line extending from Hammond, Ind., to Detroit and Toledo.

The system was dedicated Monday in a ceremony at Vicksburg, John H. McCarthy, chairman of the Michigan Public Service Commission, pressed a button starting pumps which formally opened the multi-million dollar system. The line was built to meet the increasing demands for petroleum products in this rapidly growing area. The line moves 4,000,000 gallons of oil products a day from Hammond to Detroit and Toledo. Operating 24 hours a day, the system ensures dependable supply and efficient distribution of petroleum products.

The system's capacity can be boosted from the present 4,000,000 gallons a day to 7,350,000 gallons a day by the addition of more pumping stations. The main products carried are six brands and grades of motor gasoline, kerosene, and distillate fuel oil.

The Wolverine company was established and the common carrier line was constructed through the joint efforts of the Texas company, Cities Service Oil company, and Shell Oil company.

Sentenced on Drunk Driving Charge

Wesley F. Carpenter, picked up on West Middle Street, 9:30 p.m. Wednesday, appeared in Municipal Court, Ann Arbor, Thursday morning on a charge of drunk driving and was ordered to pay \$50 fine and \$50 costs or spend 20 days in jail. Failing to pay the fine, he is serving the time in jail, according to police reports.

ROBERT W. WINNICK

Winnick Enters Sheriff Race on Republican Ticket

Robert W. Winnick, 38, a former Washtenaw Sheriff's Department lieutenant, has announced his candidacy for county sheriff on the Republican ticket.

His entry swells to six the number of GOP aspirants seeking the party's nomination in the Aug. 3 primary election and adds to the belief that it will be one of the most vigorously contested races in recent county history.

Winnick, citing his 12 years of experience in police work as qualifications for the post to be vacated upon the retirement of Sheriff John L. Osborn, said the "the people of the county are paying for the service of the Sheriff's Department and are entitled to all the facts of a given case or situation as soon as possible."

Promises 'High Standards'

He said he would regard it as his "prime responsibility" to see to it that county residents receive "the highest standards of law and order."

Winnick, who resigned from the Sheriff's Department in 1951, was an unsuccessful primary candidate for sheriff in 1952, running against Osborn.

Rival Republican candidates on the Aug. 3 ballot will be Thomas A. Fitzgerald, Harold E. Swowland, Herman Oltersdorf, Erwin L. Klager and Jack J. Koehnke. The winner of the GOP race will be opposed by either Lawrence P. Oltersdorf or Robert B. Kidd, who seek the Democratic bid.

Winnick was born on a farm in Huntingdon county, Pennsylvania, and was graduated from the Rock Hill High School at Orbis, Pa. He worked for a short time as a miner and was later employed by a construction firm before coming to Michigan in 1935.

He worked on a Scio township farm for four years, was employed as a chauffeur for a Detroit attorney from 1939 to 1941, and then served as a patrolman with the Ann Arbor Police Department from 1941 to 1946. In April of that year he joined the Sheriff's Department as a deputy, becoming a sergeant in 1948 and a lieutenant on Jan. 1, 1951. He held that post until his resignation on July 15, 1951.

From January, 1952, to December of that year, Winnick was employed as a plant security officer at the Kaiser-Frazer Corp. plant at Willow Run. In December, 1952, he was promoted to supervisor of plant guards, holding that position until August, 1953, when K-F reduced its force.

For the past nine months, Winnick has been working as a driver-

Bell Telephone Asks Re-Hearing On Rate Hike Case

The Michigan Bell Telephone company on June 10 filed a petition with the State Public Service Commission in Lansing for a rehearing of its application for a rate increase that would average three cents per telephone per day.

The Commission on May 11 denied Michigan Bell's rate application in full.

The company cited two general reasons for a rehearing: 1. Changes that have occurred in Michigan Bell's financial results since the year ending September 30, 1953, which the Commission used as a test period in reaching its decision. 2. "Numerous errors" committed by the Commission in support of the order denying the company an increase.

Clifton W. Phalen, president of the company, said he was hopeful that a rehearing would "bring about an up-to-date appraisal of our financial situation. All we want is a recognition that increased costs of doing business must be reflected in our rates in order that we may continue to provide the one thing that everyone wants—good telephone service."

George Heydlauff Attending ROTC Summer Camp

George F. Heydlauff, son of Mr. and Mrs. Lloyd Heydlauff, is one of 86 ROTC cadets of Western Michigan College, Kalamazoo, who will participate in summer camp maneuvers beginning June 19.

The bulk of the group will be going to Fort Lee, Va., and Heydlauff is included in this number. Ft. Lee, Va., is the quarter-master corps main camp, and Western Michigan is now finishing its last full year under the QM branch, as in the fall it will follow the national trend to the General Military Science program.

The Fifth Army area is sending some 4,000 cadets from 13 states to summer training, while throughout the nation 17,000 cadets will be in camp. One six-week summer camp period is required of all cadets before they may be commissioned, and is usually taken as the senior year of college comes to a close.

Statistics show that clergymen live longer than anyone else—evidently they are the best risks here and hereafter.

He worked on a Scio township farm for four years, was employed as a chauffeur for a Detroit attorney from 1939 to 1941, and then served as a patrolman with the Ann Arbor Police Department from 1941 to 1946. In April of that year he joined the Sheriff's Department as a deputy, becoming a sergeant in 1948 and a lieutenant on Jan. 1, 1951. He held that post until his resignation on July 15, 1951.

From January, 1952, to December of that year, Winnick was employed as a plant security officer at the Kaiser-Frazer Corp. plant at Willow Run. In December, 1952, he was promoted to supervisor of plant guards, holding that position until August, 1953, when K-F reduced its force.

For the past nine months, Winnick has been working as a driver-

GEORGE MEADER

Meader Will Seek Re-Election to Congressional Post

Representative George Meader has announced he will seek the Republican nomination Aug. 3 for re-election to Congress from the state's second Congressional district. (The district includes Washtenaw, Jackson, Lenawee and Monroe counties.)

Meader announced his candidacy after filing nominating petitions with Secretary of State Owen J. Cleary at Lansing. He is seeking his third term in the House of Representatives.

Meader, 46, is former prosecuting attorney of Washtenaw county and one-time chief counsel to the Senate War Investigating committee and to a Senate Banking and Currency subcommittee, proving alleged fraud in the Reconstruction Finance Corp.

One of Meader's wartime investigations led to the conviction on war fraud charges of former Rep. Andrew J. May (D-Ky.) and industrialists Henry and Murray Garson.

Born at Benton Harbor, Meader is married and the father of three children. He is a graduate of the University of Michigan Law School.

He figured prominently in recent attempts to curtail the abuses of Congressional investigating committees, offering a resolution to streamline and tighten investigating procedures.

Meader has authored law review articles on limitations of Congressional investigating powers and the importance of Congressional fact-finding processes.

He is a member of the Methodist Episcopal Church—the Kiwanis club, Elks, Moose and the Eagles. He was president of the University of Michigan Club of Ann Arbor in 1937 and vice-president of the University's Alumni Association in 1940-41.

Gamma Globulin Available to Those Exposed to Polio

Dr. Otto K. Engelke, Washtenaw county health director, announced this week that gamma globulin will now be available for exposed individuals other than members of a polio victim's family, a practice which previously was the rule.

As in other diseases the preventive measures will, in each individual case, be determined by the patient's own physician. Still required by the Health Department, however, will be the name and address of the original case and name, age and weight of all patients who are to receive the globulin.

Dr. Engelke concluded his announcement of the widened use of gamma globulin with the following statement: "We have no reassurance that this or any other method of globulin use is an effective method of preventing polio or its complications."

Regulations for the distribution of gamma globulin for use in polio contacts are those basically established nationally by the Mutual Security Administration, on a state-wide level by the State Health Department, and in Washtenaw county by the County Health Department with the advice of the Health Committee of the Washtenaw County Medical Society.

Operations and Judiciary committees of the House, Meader has more recently figured in investigations leading to curbs on government competition with private enterprise.

Survival Is Not All

Tremendous gains have been made over the years in the skill and knowledge of the medical profession. Curing disease, accomplishing surgical miracles, and the discovery of new drugs can be classed as one of the wonders of the world.

But survival is not all! Even though broken bodies can be mended and diseases cured, what about the broken spirits and mental anguish caused by financial strain due to accident and illness? You and I have seen it time and again.

My Company, Woodmen Accident, has been furnishing protection against financial losses due to accident and sickness for 64 years. Such protection for you or your family costs only pennies a day! Let's talk it over—

Curious Woodchuck Gets Free Haircut

Lansing—Curiosity killed the cat, but it only gave the woodchuck a haircut. And maybe took a little skin, too.

This particular woodchuck lives in a forest area in the western upper peninsula.

One day last week he found some expensive fishing rods leaning against an automobile. Guided by a dietary craving known only to woodchucks, he ate all the cork off the handles.

Exploring further, he found the underside of the vehicle a mass of wonderful hiding places. He climbed and scrambled in these.

Suddenly, while he was leaning against a fan-like arrangement and viewing the dim interior, a whirl started and woodchuck's rump was neatly scraped of hair.

The car owners, a man and wife fishing team, returned from exploring the woods, found their chewed-up fishing rods and started the engine.

Woodchuck jumped out from under the hood and headed for deep woods. For a time, he will sleep on his snout and eat standing up.

Col. Charles Lindbergh received the first Distinctive Flying Cross awarded by the U. S. Government.

Financial Writer Sees Sales Brisk, Consumers More Price Conscious

By Roger W. Babson

While most of the columnists
and business counselors last De-
cember forecast a depression for
1954, I constantly insisted that
1954 would be a "fair business
year." This you will find in my
forecast which then appeared in
this paper.

General Business

(1) Despite my general opti-
mism with regard to prospects for
business during the last half-year,
there will be many crosscurrents.
The improvement over the first
six months will be no one-way
street. Some industries will lag,
or fall behind. Others are slated
for betterment. Building has held
up well, and was the backbone of
business in the first half of 1954.
The momentum generated should
carry through the balance of the
year.

(2) Also deserving of attention
as in line for continued high activ-
ity, or for improvement, are the
following industries: Electric pow-
er output, aircraft production, rub-
ber manufacturing, household
equipment, electrical equipment,
petroleum, natural gas, shoes, and
textiles. Even the sick coal in-
dustry will enjoy some pickup
from the very depressed levels ex-

perienced during the first six
months of 1954.

(3) Due to slip further down,
or slated to show the least im-
provement, are the following in-
dustries: Machinery, machine
tools, railroad equipment, metal
fabricating, steel and iron, and
autos and auto parts. In par-
ticular, auto output will not
match the first half, with com-
petition keener in the last half
than at any time since the
1930's.

Sales and Inventories

(4) As in the case of general
business, discussed above, sales
prospects will rule selective. With
purchasing power holding well, de-
mand for food products and soft
goods will remain at a brisk pace.
The public, however, have learned
something about watching their
pennies. They have become more
price-conscious. For this reason,
I predict that the mass distri-
butors, such as the grocery and
variety chains, will run ahead of
the others saleswise, during the
last half-year.

(5) Retail sales in general,
although about 4 per cent lower
dollarwise, have held up during
the first six months of 1954, and
will leave domestic affairs to

other concessions reduced the
actual receipts. This is encour-
aging since it shows that con-
sumers are still willing to spend
if the price is reasonable. In
terms of units, retail sales will
hold up through 1954. Inven-
tories will constantly be reduced
during 1954. THE RETAILERS
WHO DO BEST IN 1954 WILL
BE THOSE WITH THE BEST
SALES FACILITIES FOR
THEIR CUSTOMERS.

Political Outlook

(6) I forecast that the more
liberal attitude on the part of
the Eisenhower administration
will surely continue through No-
vember and perhaps until the 1956
elections. During the past six
months rumors have been spread-
ing to the effect that President
Eisenhower will not run again;
but there is no agreement at this
writing by either party as to who
the next candidates will be.

(7) The President has won his
conflict with Senator Bricker; the
House approved his Tax Bill; the
Taft-Hartley Labor Bill has been
shelved, to the relief of all; and
he has so far kept out of the
McCarthy-Army row. I forecast
that for the balance of the year
he will leave domestic affairs to

his associates and devote most of
his time to helping Mr. Dulles
ward off trouble with Russia and
China, and avoid another "Korea."

(8) During the first six months
of the year a "New Look" has de-
veloped in connection with defense
expenditures. Appropriations for
foot soldiers and certain classes
of airplanes have been cut in
favor of items for atomic war-
fare and guided missiles. East
authorities agree that we will get
more protection and fighting
strength from this change with-
less cost. As a promise "to get
our boys out of Korea" was a
great factor in electing Dwight
Eisenhower as President, he natu-
rally will hesitate to send U. S.
foot soldiers into Indo-China, at
least before the coming November
elections.

War and Peace

(9) There will be no World
War in 1954 started by Russia or
the U. S. A. In the last half of
1954, however, the United States
will move closer and closer to the
position occupied by Great Britain
during the 19th Century. The
United States will prepare to en-
gage in small wars anywhere in
order to prevent outbreak of a
world conflagration.

(10) I predict that the
United States in the last six
months of 1954 may by-pass
the United Nations and try to
form a "defensive" league of
nations interested in Southeast
Asia. The purpose: To keep the
rice, tin, and rubber of the re-
gion from falling into Com-
munist hands. Most of the arms
and military know-how needed
by such an alliance of anti-
Communist nations in the Far
East will be furnished by Uncle
Sam. This means that cuts in
arms expenditures, scheduled for
the last half of 1954 by the Administration, may
not be put into effect. The
Korean situation will remain
about as is—"much talk, no
shoot," but Indo-China will
constantly become a greater
threat.

(11) Do not forget Europe and
the Middle East. France is torn
by internal dissension and a blow-
off could come there any time.
West Germany is growing more
impatient with French bickering
over the Saar and over the forma-
tion of a Western European army
including German participation.
Russia will strive mightily to
widen the split between France
and Western Germany by holding
out the "bait" of reunion between
East and West Germany.

(12) Friction between the Jews
and the Arabs in the Middle East
is being encouraged by Com-
munist agents. The smoldering fires
there could break into flame at
any time, requiring a hurry-up
call for Uncle Sam's fire depart-
ment.

Stock-Market Outlook

(13) Of course, some day the
market (especially the Dow-Jones
Industrial) will get a bad wallop
with very much fewer spins. On
the other hand, this may not come
during the next few months. Up
to this time the high yields of
stocks have not appealed so much
to investors, owing to the personal
tax on both dividends and on in-
come in general. Although stock
yields compared with those of
bonds are not as high as they
were a few years ago, they are
attractive.

(14) The new Tax Bill and the
increased buying for pension funds
and investment trusts have, how-
ever, increased the demand for
common stocks and could hold the
market up for some months to
come. I forecast that it will be
very important to make careful
selections of stocks. Don't buy
stock just because they have
gone off heavily in price and ap-
pear cheap.

(15) Unfortunately, many
small concerns will find it more
and more difficult to compete
with their big competitors. Not
only can these big corporations
make goods cheaper and have
better means of distribution,
but they can spend huge sums of
money on advertising, which a small
concern cannot do. This will be
especially evident during the
next six months. The companies
which will prosper most are
those which have inaugurated
effective labor-saving programs.
Manufacturers will win only as
they purchase new labor-saving
machinery, spend more money
on research and on well-directed
advertising.

(16) Automobiles will continue
to be hard to sell and easier to
buy during the last half of 1954.
Both the automobile stocks and
the cars will be in less demand.
There will be more bargains in
used cars, discounts on new cars,
especially cars of the "indepen-
dent" manufacturers.

(17) Canada will continue to
boom during the second half of
1954, but this may be a good time
to take profits on Canadian in-
vestments.

Money, Inflation And Interest Rates

(18) When Mr. Eisenhower as-
sumed the Presidency with his
Cabinet of "9 millionaires" they
proclaimed a new monetary policy
which would increase the value of
the dollar and raise interest rates.
Either fortunately or unfortu-
nately, the economic situation
caused a reversal of this policy.
The value of the dollar shows no
increase over January 1st and this
has been hailed by Wall
Street as a sign of further infla-
tion. Wall Street has boomed cer-
tain common stocks accordingly.
Interest rates during the second
six months of 1954 should aver-
age about as at present.

(19) The fear of involve-
ment in Indo-China is strength-
ening the commodity markets.
This takes some of the pressure
off of Secretary Babson and

those who have been resisting
increased tariffs. I forecast an
upward movement in many com-
modity prices—other than farm
prices—during the balance of
1954.

(20) Money supplies are on the
rise again now. They will con-
tinue to expand during the last
half-year. Inflationary effects on
the price level will be limited as
our capacity to produce is now
large. Remember, the surest way
to quell an inflationary fire is
with a flood of goods. Inflation-
ary effects of increased money
supply could also be nullified by
the change in the Government's
method of collecting the corporate
income tax. The new tax law may
put the large corporations on a
pay-as-you-go basis, squeezing
their cash holdings.

(21) Any psychological infla-
tionary flare-ups that may take
place as a result of war scares,
big or little, will not be long-
lived. They will definitely be dam-
aged to follow up a word of
warning: Don't get drawn into
any speculative moves in com-
modities or stocks based on the
outbreak of a small war. If the
need arises, our Government will
move with lightning swiftness to
put controls into effect. They are
already "triggered." The only real
danger of any federal tax in-
creases will come with the out-
break of another war.

Labor, Building And Real Estate

(22) As to unemployment, I
will say that this has increased
some over last year, but if con-
sidered on a per-capita basis, it is
even less than that of five years
ago. Look for a moderate reduc-
tion in the ranks of unemployed
during the last six months of 1954.

(23) The improvement which I
expect in employment should
not, however, be sufficient to
make union leaders careless. Jobs
will still be very much in demand.
This should mean that the last
half will see no prolonged strikes.

Most union-management set-
tlements will be made with a
moderate amount of give and
take. Any wage advances will
be limited to the neighborhood
of a reasonable hourly figure,
plus some additional fringe
benefits. The Administration
and the Labor leaders will not
try to revamp the Taft-Hartley

Bill during the last six months
of 1954.

(25) My forecast as to the var-
ious classes of real estate is as
follows:

(a) Large commercial farms
will experience a further sag in
their land values during the last
half-year as farmers' gross in-
come dips lower.

(b) Small farms on the
fringes of big city suburbs should
hold or rise in price as people
get further away from city cen-
ters. This move could become an
avalanche in the event of really
serious war scares.

(c) I look for vacant land in
the suburbs to hold its value well.
In the big cities it may be another
story, unless the land is suitable
for parking purposes.

(d) Business properties in the
big cities may show somewhat in
price during the last six months
of this year. Suburban business
properties can be expected to hold
up. Demand for more shopping
centers will be noticeable during
the months to come.

(e) Home property (espe-
cially the older houses, particu-
larly in the cities) will continue
sagging in price. In the suburbs,
the bigger houses, even of recent
vintage, will be harder to sell.
Most salable home properties
will be the newer houses in the
middle and lower-price brackets
with emphasis on the "ranch-
houses" so-called.

(f) In the last half-year,
construction will still be a power-
ful support to our economy as it
has been for so long. Seasonally,
building will hold well, strength-
ened by continued liberal credit
terms. Some boost to building
could come in the second half if
civilian defense moves create a
"disposal scare." If this happens,
look for a rush by many factories
to move operations into areas far
from bomb-vulnerable cities.

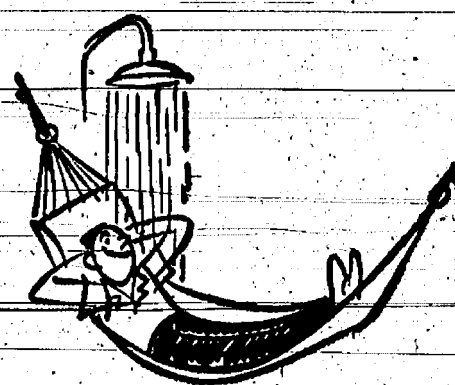

CONCLUSION: I cannot end
this forecast without reminding
readers that we are living in a
truly New Era, comparable only
with the year 1 A.D., 1954 years
ago, or the invention of printing
800 years ago. The H-Bomb, in
the hands of any dictator, could
bring about unparalleled con-
ditions. These changes could make
the things, about which I have
written above, of little value or
consequence. Only a great spiri-
tual awakening can save us.

Some people go years without much attention to health. Others may need the Doctor on hand to start the day—every day. Between these two extremes are great numbers of thinking people caring for their health in an orderly manner.

They see their Doctor at regular intervals for guidance. They take the medicine he prescribes according to direction. They report unusual symptoms promptly. All these are common sense precautions and intelligent steps in health care, as is the practice of bringing your Doctor's prescriptions to this fine pharmacy.

Right in front of Granny White's beautiful old house on Maple Avenue there's a brand-new sign: "Antiques. Inquire Within."

Now—don't get excited. Granny explained it all the other night—after we settled down in her parlor, me with my temperate beer, Granny with her tea.

I asked her if she was really going in the antique business. "Oh, no," says Granny, "I wouldn't sell anything. I put that sign up so folks would come in and talk—and look around. If they insist on a price, I tell them some out-

rageous figure! I guess I just like people," she said.

From where I sit Granny can be excused for her little ruse. She may be in her eighties, but her mind is young—and open. She's the kind of person who's made this town so wonderful. Granny not only likes people—but she respects them and their preferences and opinions. Come to think of it, "liking" and "respecting"—mean much the same thing, don't they?

CUSTOM NOTE: Twin-Turbine Dynaflo, and Safety Power Steering are standard equipment on every Buick ROADMASTER of no extra cost.

It makes you feel like the man you are

YOU must know, of course, that a fine car is more than merely a means of fine travel.

It is, as the psychologists tell us, an extension of a man's own personality.

It reflects what you feel, what you like, what you are.

So we ask you to take the wheel of a Buick ROADMASTER like the one shown here—for it is, we have found, the automobile chosen more and more by those who are definitely moving ahead in the world.

You will find it a car that fairly breathes success.

From its size and its breadth and the magnificent modernity of its styling, you know it is a car of custom stature—and so does the watching world.

The wondrous windshield is a pride in itself. You don't just see the view—you command it.

You will find it, too, a car of luxurious obedience.

From the moment you ease your foot down on the pedal, you take immediate mastery of the road and of distance.

And you know it—in the silken whip of

Twin-Turbine Dynaflo, the might of Buick's greatest horsepower, the magic cushioning of coil springs on all four wheels, the exhilarating ease of Safety Power Steering at your hand.

But with all this, you buy with prudence when you buy a ROADMASTER.

For—though it is, and looks, custom production—it sells for the lowest price-per-pound in the fine-car field. And so wise an investment makes you feel even more like the man you are.

Drop in, or phone us this week, and we'll gladly arrange a demonstration.

BUICK SALES ARE SOARING!

Latest figures for the first four months of 1954 show Buick now outselling every other car in America except two of the so-called "low-price three." Better look into Buick if you want the beauty and the buy of the year.

Frances Miriam Pidd, Robert Heller Speak Vows in Dexter

Frances Miriam Pidd and Robert Leroy Heller exchanged wedding vows at an 8 o'clock ceremony performed Saturday evening in the Dexter Methodist church. Rev. A. P. Rickard, pastor of the church, officiated.

The bride, a 1954 graduate of Dexter High school, is a daughter of Mr. and Mrs. Erwin Pidd of Trinkle road, and the bridegroom is the son of Mr. and Mrs. Leroy Heller of Waters road. He graduated from Chelsea High school in 1953 and is operating his own farm at 1610 Guenther road, where he and his bride will be at home after June 26. Home Gardening Class Members Tour Wolverton Gardens

Members of current and former University of Michigan classes in home gardening offered in Ann Arbor, Detroit, and Grand Rapids attended a special garden tour and "reunion" Sunday, Ruth Mosher Place, the instructor, reported. Friends and families of students were also invited.

The group held a "class session" and garden tour at the Dillon Wolverton gardens on Washington street at 3 o'clock in the afternoon. While adult members of the group toured the gardens the children were entertained at the Sylvan theatre at the invitation of Mr. and Mrs. Wolverton.

Although the attendance was somewhat smaller than last year's 600 who toured the Wolverton garden, because of the torrential rain which fell earlier, Mrs. Place

said Monday that those who did attend were repaid for their efforts. She stated that the Wolverton garden is "one of the most beautifully designed and maintained gardens in southern Michigan."

She said the trees and shrubs are in excellent condition with the center of attraction being the roses which Mrs. Place said, "steal the show."

CHAMPION STRAWBERRY BEGONIA PLANT

Mr. and Mrs. Raymond D. Gadd, former Chelsea residents now living on Jackson road, Ann Arbor, have a strawberry begonia plant that is believed to be somewhat of a champion in its field. A characteristic of this type of plant is to send out runners which fall over the side of the container in which it is potted and at each end of the trailing runner a new little plant forms.

The Gadds' plant now has approximately 100 of the little runner plants extending from the original plant.
