Jiffy Mixers Assured of League Title

Chelsea Milling Jiffy Mixers basketball team assured itself of the first place spot in the Manchester League by defeating Brooklyn Sunday afternoon, 43-40. This earned the Chelsea team its seventh straight win with no losses.

The team had defeated the Grossman-Huber team Thursday night, 38-29.

In Thursday night's game, high point men for Chelsea were Weldon Jarvis, 9; Bruce Hoffman, 8; and Jim Baxter, 7.

Grossman-Huber team's Smith had 14 points and Mitchell 5.

In Sunday's game, Jerry Lehmann accounted for 20 of Chelsea's 43 points and Gary Bond and Neil Buehler had 10 and 7 points, respectively, to their credit.

High men for Brooklyn were Shield, 9; McClos, 9; Taylor, 8; and Bibbins, 7.

The Jiffy Mixers play one more game with Manchester next Thursday, Feb. 13. The game starts at 7 p.m. and will be played in the new Manchester gym.

The Manchester team is now in second place with five wins and two losses.

BOOSTS POLIO FUND — When the March of Dimes campaign was concluded Friday, the proceeds of the above "dime and dollar" card amounted to \$101.70. The money was added to Chelsea's total for the 1958 campaign. The huge "card" in several sections, has been in place the length of the counter at Nelson's Bar on Old US-12 and patrons had added the dimes and dollars during the month-long drive. Bill Nelson said yesterday that he and his wife, Jenny, had "worked on the project a little" in order to reach the \$100-plus total. Mrs. Nelson is shown beside the board in the above photograph.

Bulldogs Lose Second Game To Milan

The Bulldogs lost to the Milan Big Reds again, this time by a score of 52-39. The game was played here Friday night.

The score at the end of the first quarter was 10-10 and at the half it was 21-24, in favor of Milan.

Chelsea, with a lack of good tough rebounding, lost many points on the boards. Had the Bulldogs won this game they would have had a 5-6 record for the season. They now have a 4-6 record.

Willie Heiligh was high-point man for Chelsea, with 11 points before fouling out. Odie Richardson had 10.

The Junior Varsity also lost, but only by one point, 34-33.

Both teams will attempt to get back on the victory trail when they travel to Saline tomorrow night. The reserve game will start at 6:45 p.m.

Spring Immunization Clinic Scheduled Here for March 11

A complete schedule of the spring immunization clinics was released today, according to Dr. Henry A. Scovill, president of the Washtenaw County Medical Society. The schedule shows 46 locations in which clinics will be held from Feb. 4 to March 27.

Chelsea's clinic will take place Tuesday, March 11.

At Dexter the clinic will be held Wednesday, March 19, and at Manchester, Thursday, March 20.

Immunization clinics, sponsored each year by the Medical Society, are conducted for the purpose of giving booster immunizations to all children in the county without cost to them.

"It is particularly important to the high school age student that he avail himself of this service," said Dr. Scovill, "since records indicate that the attendance among this group has been below the desired standard."

He explained that protection against diphtheria, tetanus and smallpox is needed throughout life, and protection gained from these immunizations needs to be "boosted" to a satisfactory level every three years.

Participating in the conduct of these clinics are members of the Washtenaw County Medical Society, the staff physicians of St. Joseph Mercy hospital and University hospital.

Delegates Named To Attend Conference on Education

Sixteen men and women from Chelsea have been invited to take part in the 19th annual Citizens Conference on Education at the Lansing Civic Center, on Tuesday, Feb. 11.

What a that awesome-sounding title really means is that once every year education leaders invite laymen to sit down with them and talk about education.

Chelsea men and women who received invitations to the event from Superintendent of Public Instruction, Lynn Bartlett, are as follows: Donald Bacon, Gerald Carr, Carl Chandler, James Daniels, Lowell Davison, Mrs. J. V. Fisher, Robert Foster, Mrs. George Erlinger, James Gaken, Mrs. Dudley Holmes, Mrs. John Keusch, the Rev. S. D. Kinde, Mrs. Charles Lancaster, Mrs. Alfred Mayer, Mrs. Russell McLaughlin and the Rev. Philip Rusten.

Superintendent Charles Cameron will attend in the capacity of educator.

As is often the case with people who are wrapped up in their subject, educators feel they can benefit from the fresh points of view of the ordinary layman.

And it works both ways. Laymen at the same time get new insights into what educators are doing and hope to do for the children.

Together, these two groups hope to come up with a new slant on improvement of curriculum, according to Bartlett.

The day has been divided into seven periods. Delegates will register between 8 and 10 a.m.

Mrs. Charles Naldrett, with whom most parents are familiar as president of the Michigan Congress of Parents and Teachers, is chairman of the opening session.

The roster is full of illustrious names: Dr. Eric A. Walker, president of Pennsylvania State University, will start the meeting with a brief introduction of the conference's theme, "A New World — A New Curriculum?" He is a vice-chairman of President Eisenhower's Committee on Science and Engineers. At one time he was chairman of the National Research Council.

Spurred on by the sudden, universal interest in satellites and space travel, leaders in education are beginning to ask themselves, "If we are to be catapulted into a brand new world, won't we have to change the curriculum to keep up with it?"

They want to hear what laymen delegates have to say on the subject. In order to make the discussions intelligible and keep them on a give and take basis the leaders have divided the conference up into two and a half discussion groups. Each delegate was asked to choose one of the discussion groups when he made his reservation.

The vice-president of Hillsdale College, Lawrence Taylor, will spend a few minutes in instruction to the groups before they go to their respective meetings at 11:30 a.m. The hour from 12:30 p.m. to 1:30 p.m. will be devoted to luncheon, after which each person will return to his own group for a discussion.

At 3:15 p.m. the Director of Industrial Education for Chrysler Corporation, W. D. Merrifield, will introduce Gov. G. Mennen Williams who will give the principal address.

Monday Is Final Day for Registration

Monday, Feb. 10, is the final day to register for the March village election. Anyone not properly registered by that date will not be permitted to vote at the election, in accordance with election regulations.

Last week (Wednesday, Jan. 29) a very moving ceremony took place between 8:30 and 11:30. PTA members and officers were installed. Speakers at the installation were Mr. Howard Flintoft, Mr. and Mrs. George Prinzling, Mr. and Mrs. David Sanborn, club adviser, and club officers each gave short readings. Then, after each member had lighted a small candle from one larger candle, everyone recited a pledge. First-year members who received their pins were: Janet Bernath, Sandra Buehler (vice president), Kathy Craft, Stanley Dyer, Ellen Keusch (treasurer), Kathryn Kinde, Nadine Lentz, Karen McAllister, Carolyn Miller,

Ann Morrison, Ruth Prentice (president), Delores Scripser (secretary), Mary Ann Steger, Judy Wagner, Ted Wilson, and Marketa Young. After such a serious occasion, everyone enjoyed treats of crackers and cheese, cake, and punch, thanks to the excellent planning of Janet Bernath, Sandra Buehler, and Karen McAllister.

Members are reminded to pay at least their first semester dues. The \$5.05 per day is really "piling up." As of today, Feb. 6, fines are 55 cents! See Ellen Keusch promptly!

The seniors have been making plans for representatives of various travel companies to speak to them on their trip. A good part of a day will be set aside in the near future for such speeches to be made.

The ten male members of the high school golf team have bought golf jackets. Each of these jackets has a large golf ball and tee on the back and the words, "PAIN-BUSTERS." Everyone is hoping that the team can live up to its name.

Over a period of five days in December (including the day before Christmas) Quentin Smith

and Jon Harris each played 72 holes of golf. As soon as the weather warmed up, the boys will be able to practice outdoors but now they are content learning the fundamentals of the swing and grip.

The girl members of the golf team have not yet met but are soon to get organized.

Mr. Cowell hopes that more boys will soon join as the team is still rather small.

Senior high girls Phys. Ed classes are finishing their basketball tournaments. After they have completed this they will begin a unit on bowling and will be going down town for bowling several days a week. All the girls are looking forward to those visits. Good luck, girls!

The band practiced hard for their mid-winter concert, which was held last night.

People who have to play solos in the solo contest in Ypsi have been practicing hard and furious trying to memorize their solos. The contest will be held Feb. 8.

Home Ec. students have been reading out of Home Ec. books on how to make blouses. In general, they have been learning the different kinds of stitches. For their projects, most of the students are making blouses.

In the past, Home Ec. students have done some sewing, cooking and a little home decorating.

The Future Homemakers of America held a dinner Wednesday evening and invited the FHA club from Manchester. Barbecues were served. After the dinner, all the girls went into the gym and danced and played Indian Dodge ball.

The art classes have been working with clay. They are constructing pottery, which will be fired and finished off by being glazed. All of the classes are now working with clay.

Seventh graders now have \$7.00 in their chest as a result of \$5.00 from canned goods and \$2.00 from window painting. They are planning dues for the second semester but nothing has been decided. They are also planning a Seventh-Eighth grade party for spring.

Seventh graders are glad to welcome Olive Beeman back after a three-week leave with a broken ankle, which she obtained during vacation. She is coming along fine, on crutches.

The eighth grade was relieved to finally hand in their semester scrapbooks, which contained information on their own favorite topic or science.

Each week they hand in maps, which they have made, to Mr. Marshall, their history teacher.

The eighth grade English class has been having fun reviewing movies they have seen in the past. Essays, which they have been recently writing, tell their viewpoints on the acting and the movie in general.

On Fridays, the eighth grade select choir meets to sing favorite songs. The students not in choir meet in the gym for dancing or other recreation.

Priscilla Neal, chairman of the Junior play committee, announced that the play, "Ten O'Clock Scholar," had been picked and it will be in March.

A Junior ham supper was discussed and the committee was named to look into it. This committee is Sue Patrick, Anita Eisenmann, Sandra Fraser, Jim Mahary, Fritz Wagner, and Pat Markie.

The money-making committee discussed things to sell such as stationery with the school emblem on it, and selling hot dogs and sloppy Joe's at the study hall during noon hour. Mr. Lane stated that the juniors could not sell anything else this year for making money, so the idea was dropped.

A committee for the prom was picked to discuss and plan it. On this committee are these juniors: Earl Heller, chairman, Don Wood, Sandra Karner, Ellen Keusch, Lynne McMannis, Sharon Slane, Jennifer Hibbs and Lois Stark.

Student Council is finishing plans for a special basketball game to be held early this month for the benefit of the "March of Dimes." Right now they are in the process of selecting two suitable teams. It is hoped that the faculty will make up one of the teams.

Ways of what should happen to Student Council members if they fail to attend meetings was discussed.

Judy Carr, Claudia Snyder, Bill Lite, Barbara Stetin, Irene Stetin, Lynne Adams, Richard Reed, Doris Martin and Kathleen Joseph received pins as Junior Librarians for awards and to identify them to anyone in the library wishing assistance.

Decision Pending on Pay-Television

The Federal Communications Commission has authorized tests of proposed pay-television systems. Although there is grave doubt as to the Commission's authority to do this, it has been done.

The next step will see the pay-television system tested, and the public's reaction, plus that of Congress, and the FCC, will determine whether this is a "foot in the door" or merely a limited test designed to obtain information and experience.

Whatever others think about it, those who are investing money in pay-television, and are setting up systems to operate under the test authority granted by the FCC, are out for the money, and for profits, and they will be keenly disappointed if their investment is cancelled out by a refusal to allow pay-television systems to operate.

Therefore, it seems that the FCC has backed into answering the question which has raged in television circles for many years. Congress may refuse to authorize pay-television, but more likely it will probably go along with an FCC decision.

We doubt that any pay-television system owner has the right to interfere with existing channels, as allocated by the FCC under the free system which now serves television set owners who bought their sets and made their investment on the assumption that television was a free medium.

It is said that in the field of arts, such as opera and theatre, pay-television would allow the viewer to see programs which are not now carried by advertisers on free television. However, this would probably mean—if pay-television did actually offer such programs—that the great majority of viewers would have their program choice interfered with so that the small percentage of the total viewing audience who had the money to pay could see a program desired by the minority.

We feel there can be no justification for pay-television if, at any time, on any channel, it interferes with or supplants free television.

New Whatsit Breed of Politician

One human behavior expert says it is a sad thing that only one Man was ever born who could hold authority over other people without getting a swelled head, and the people killed him.

Many of the world's top leaders have approached their jobs with humility and moderation but eventually they all came down with power fever.

The final stage of this dread disease is when the subject gets himself convinced that God appointed him, and that anyone who disagrees with him ought to be shot or get a bayonet in the gizzard.

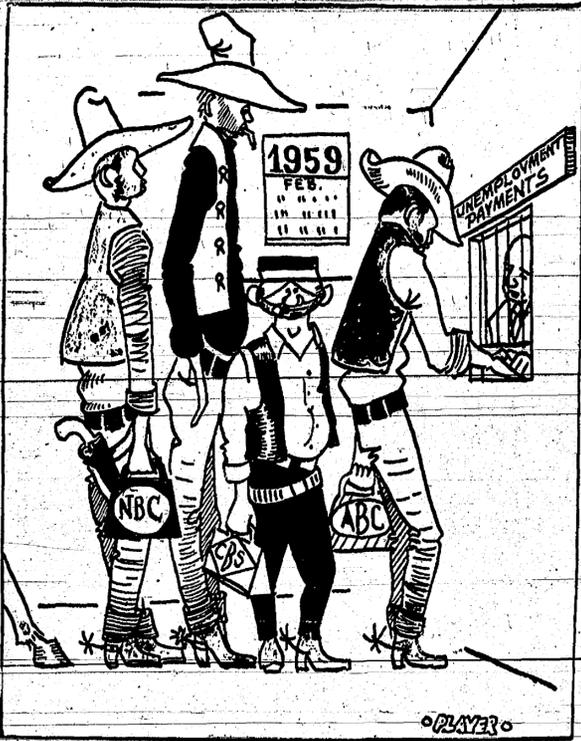

Consider the Republicans and Democrats. They started going to school together, living in the same neighborhoods, and intermarrying and now you can hardly find a purbred example of either species.

What we have mostly now is a political hybrid which you can't tell from a Socialist, and which has an over-developed urge to get his feet in the public trough.—The Montague Observer.

Nation's Ups and Downs

A nation's citizens can be suppressed for a time, but eventually will rise up almost overnight and fight against their oppressors. Likewise, a nation can lazily bask in the sunshine of "good times" and drift into a more and more freedomless condition—then suddenly become aware of the irons that chain its people to some form of governmental tyranny. Like a pendulum, nations, history reveals, swing back and forth from freedom to loss of this inestimable value... and to freedom again.—The Birmingham Eccentric.

★ All the Way

One current song hit that doesn't appeal very strongly to my wife and me goes something like this: "If you love somebody, you've got to love somebody all the way."

I don't care for the tune and she doesn't care for the words. The tune reminds me of the accompanist who said to the singer, "I play on the white notes, then I play on the black notes, but you sing in the cracks."

"The trouble with those words," says Helen, "is that the wrong people are going to sing them. It would be perfect if somebody who's been married 35 years would croon them to his wife. But would he? Not a chance. The danger is that a couple of high school juniors who have only the haziest notion of what love is really about are going to quote those words to each other—and they may draw the wrong conclusions."

I wonder whether today's youngsters play the game of Four-three-two-one? In my earlier hand-holding days, it went like this: The fellow would give his girl's hand four squeezes, meaning, "Do you love me?" A single squeeze in response meant, "No," or three squeezes meant, "Yes, I do." Two squeezes stood for "How much?" and the final squeeze ranged from weak to powerful, depending on the degree of affection the squeezer intended to declare.

But let's get back to "All the Way." There are plenty of subjects in which I take a mild interest, but I surely don't want to be devoted to them All the Way.

I am interested in photography, but I wouldn't want to be the fellow who would spend his last dollar for a wide-angle lens.

I think the USA is a wonderful country—but I don't go along with the superpatriots who say "My country, right or wrong," I am more eager to be right than to be patriotic.

I think the Bible is a wonderful book, but I couldn't say, "The Bible, right or wrong," I value it because it is right, not because it is the Bible.

When it comes to loving, you're a lucky man if in the course of a lifetime you find one person you can love with your whole heart.

Youngsters—get quiet—change from teen-age magnetism, but this attraction needs deepening and broadening before they understand love fully. A good definition of love is found in the Bible (1 Timothy 1:5), where we read about "love that issues from a pure

heart and a good conscience and sincere faith."

Only those who have sincere faith in each other can know the love that endures all the way—in plenty and in want, in joy and in sorrow, in sickness and in health.

Approximately \$35,000,000 has been set aside by the Government for use in efforts to develop new markets for farm products abroad.

The program will involve 26 countries and the money for it was obtained through sale of Government-owned farm surpluses abroad for foreign currencies. No American dollars will be used.

★ MICHIGAN MIRROR ★

By Elmer E. White, Secretary, Michigan Press Association

Super highways tying together all major Michigan cities and bringing the millions of the cities closer to the playgrounds of the Water-Wonderland will be finished in six years.

That is the pledge of Highway Commissioner John C. Mackie, 36. Mackie has set up priorities on both Detroit expressway system and the out-state network of limited access multi-lane highways.

The total cost will be approximately \$2 billion, about one-third of Michigan's highway needs shown by a survey conducted three years ago.

Most of the early planning in the first stages of construction were achieved before Mackie took office last July 1, by his predecessor, Charles M. Ziegler.

But it remains for Mackie to finish the job, connecting the completed pieces of the project. Democrats and Republicans agree that Mackie, ambitious and fast on his feet, cannot help but become the greatest road builder in state history.

Federal aid not available to earlier commissioners will pay for 90 per cent of the interstate system, and other financing arrangements have been developed.

Most important is the growing public awareness of the need for highways—the pressures which grew through the last years of Ziegler's 13-year regime to a final, powerful impact in 1956.

There were skeptics when Mackie announced his \$1,250,000,000 outstate highway program last fall. Contracts came slowly at first, but the dam broke in December.

Mackie has placed first priority on a super highway linking Detroit and Chicago along US-12, a Detroit to Muskegon route along US-16 and a route from the Ohio turnpike to the Straits of Mackinac, using US-23, US-10 and US-27.

He has promised the entire program will be under contract by 1962 and completed by 1964.

Right to work legislation may be most controversial in this session. Labor leaders argue that laws which permit employees to work at a unionized plant without belonging to the union are "union busting." Advocates of "right to work" legislation argue that no

man should be forced to belong to a union in order to hold his job. The record seems to indicate that right to work laws, while they might slow down union activity, do not "bust" unions. At present 19 states have such laws, some of them for 10 years or more. Two experts in the labor field were unable to point to a single union which ceased to exist because of the laws.

Much union progress, on the other hand, has been reported in the southeast part of the country where right to work laws have been in existence for the longest period of time. It will be interesting to see what use both sides of the right to work argument make of the labor picture in states where the law has been in operation.

Secrecy in government on all levels is under attack in the 1958 legislature.

Sen. Frank D. Beadle (R-St. Clair) is sponsoring a bill to open meetings of all public bodies and make their records open to public scrutiny.

Gov. Williams is interested in a similar administration bill.

The idea is pushed hard by the Michigan Press Association which has been fighting for years for the "peoples right to know" about the agencies which spend their tax money, and by Senator Delta Chi, a professional journalism fraternity.

Williams is taking a two-way approach—stating that the right to know about government has another side—the editor's responsibility in presenting the information.

Simultaneously Williams brought out the point that some records must remain secret. They include adoption records and certain business records of the state insurance department.

Lawmakers, while not contesting this, say the major problem is on the local level.

Politics is gaining momentum far in advance of the 1958 election next fall. Rep. George W. Sallade (H-Ann Arbor) is ready to announce his go-it-alone candidacy for governor on the Republican ticket.

Thursday, Feb. 7, 1924—Consumers' Power company is planning extensive improvements to take care of increases in its Chelsea business. New switches and devices will be placed to control the additional current demanded for the 1924 program of the state-owned Cement Plant.

That the Chelsea Municipal power plant will show a profit of \$10,000 over operating expenses for the fiscal year was the estimate given at the village council meeting by Superintendent Peter Boehm Monday evening.

Arrangements for a new fire alarm to take the place of the old steam whistle were discussed this week by village officials. An electric horn, mounted on an elevated position at the power plant, with outlying positions from which it could be "touched off" in case of fire, was proposed by Superintendent Boehm.

Chelsea joined with other municipalities in mourning for the late ex-president Woodrow Wilson who died at his Washington home Sunday. Due to ice frozen on the pulley at the top of the flag pole, officials were unable to display the flag until Tuesday morning.

DRIVING CAN BE pretty tricky this time of the year. So Telephone Company drivers get special training for winter. Among other things they make a special effort to:

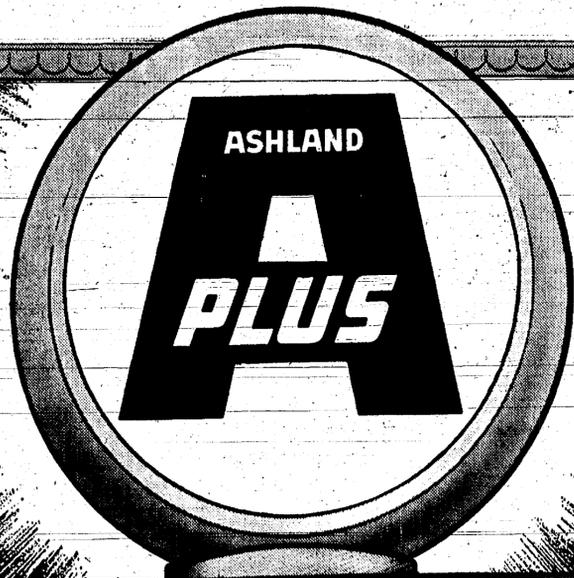

- Keep windshields clean.
- Watch for unexpected icy spots where roads are shaded by trees or buildings.
- Keep plenty of stopping space between their car and the car ahead.

When a telephone man waves good-bye to his family in the morning and says "See you tonight," we want to do everything we can to make his words come true.

Treat your dollars with respect. True, they won't buy as much as they used to. But, this is the very reason why you should spend as FEW of them—and save as MANY—as you possibly can. The dollars you needlessly spend only help to keep prices high. The dollars you save help to relieve inflationary pressures and thus bring prices down. Is There Cause for Concern About Our Science Education?

Sputniks and missiles circling the earth emphasize once again the potential of science and the needs of our time. The recent achievement in space science have resulted in a stepped-up missile program and a searching look at our children's and the nation's scientific education.

Four well-qualified panelists will take part in a discussion of science education on Wednesday, Feb. 10, when the High School and Elementary PTA of Chelsea meet in the High School Auditorium at 8 p.m.

The discussion will be concerned with basic questions on science education stressing the importance of becoming science-literate citizens on issues which affect each person's future in science and technology.

PTA members ask, "Can we shape this new awareness of scientific and mathematical education into an urgent but balanced program for our children?"

All interested persons are invited to attend the panel discussion.

A few score years ago, when scientifically prepared, ready-to-use eyedrops were not available, the blue-eyed mountain girls of the Southern Appalachians used juice from the Jimson weed as an eye application. The juice was thought to enlarge the pupil so that only the thin rim of the blue showed. Today the dictionary defines the weed as being "intensely poisonous." Its use definitely is not recommended.

IN BEAUTIFUL CHELSEA

Now that Christmas and the after Christmas sales are a thing of the past we can begin to think of what the fashion picture will look like for the spring. Floral patterns in all the colors of the rainbow seem to be the style setters.

Pointed toes will be the shape of the spring and summer shoes for all occasions. Pumps fashioned of silk, satin, and cotton weaves in floral patterns will be in demand. This is the season for the tall girl as medium heels are just as important as the spike heel.

Bathing suits are tailored with low, low backs and attractive and moderate front lines. The newest look will be one of floral designs on nylon elastic materials. A dull finish on the fabric. The wool suit seems to be out.

All of the outstanding American designers are making use of their collections informality and comfort. Even the summer evening dresses are a combination of comfortable flattery. Printed swiss organdy is a popular fabric in this department and so is cotton lace.

You can have your good white linen for last year dyed green. As a solid color, green leaves the field. It is often coupled with serious shades of blue. The effect is cool and pleasing. It should flatter any complexion.

Jewelry is simple and unimposing compared to last seasons bold beads and large earrings. The thing seems to be workmanship rather than size.

Hats are of two sizes—so small as to be almost unnoticeable or large and drooping. Picture hats are the thing for late spring and summer cocktail parties.

What's the difference between a white egg and a brown one? Inside there's no difference as the color of the shell depends on the breed of chicken. Nutrition and flavor are the same in both.

THE MARK OF A REALLY SMART PERSON

The mark of a really smart person is not necessarily a college diploma or a Phi Beta Kappa key. It might be simply a record of carefully-considered actions. To "know it all" would be wonderful - if we humans could absorb that much knowledge in a lifetime. Next best is to seek and accept the advice of experts, particularly your Doctor. Visit him frequently. Follow his directions carefully. Bring your prescriptions to us to be filled, and take the medicine he prescribes regularly. Such cooperation is the best course possible for preservation of your health, and it marks you as a really smart person.
