Four Area Teams Organize New Softball League

Ralph Heimke, athletic director of Cassidy Lake Technical School, has organized a softball league to be known as the Irish League and composed of four teams—Chelsea Jiffy Mixers, managed by Mac Packard; Muntz, managed by Don Sampson; Camp Waterloo, with Charles Bowdidge as manager; and a Cassidy Lake team. Manager of the latter team is H. B. Prin.

A four-round robin schedule has been drawn up and games will be played Friday nights on a home-and-home basis.

Officers of the new league are Mac Packard, president; Charles Bowdidge, vice-president; and Ralph Heimke, recording secretary and rules interpreter.

Since Chelsea has no ball diamond facilities at present, all Chelsea games will be played on one of the three other teams' home diamonds.

Members of the Dana management team present for the event included J. E. Martin, president; L. L. Melick, vice-president in charge of finance; J. R. Miller, vice-president in charge of manufacturing; N. A. Moore, general manager of Standard Equipment Division; and L. J. Haney, director of industrial relations.

Drivers' Licenses Will Be Issued Thursday Mornings

A change in the schedule for issuing drivers' licenses in Chelsea will set the time for each Thursday morning from 9 a.m. until 12:30 p.m., according to an announcement by Sheriff Robert E. A. Lillie. Since Sheriff's Department has the charge of issuing licenses in Chelsea and Manchester several weeks ago, he has been alternating Thursday mornings and afternoons between the two communities.

The regular morning schedule for Chelsea was arranged in response to a request by Village President Donald Alber for the convenience of people of the community and because it will better serve the Chelsea High school driver training program.

The new schedule goes into effect immediately.

Deputy Keebler is in charge of renewing operators' licenses as well as issuing new licenses and giving the required operators' road tests.

March to Cemetery Will Start from Municipal Building

Chelsea will honor the memory of soldier dead of the community tomorrow, Memorial Day, 1958.

The parade will form in front of the Municipal building at 10 a.m. George Knickerbocker, as officer of the day, will be in charge of arrangements to get underway promptly at 10:30 a.m. for the march down Main street to Park street.

Flowers are needed for the decoration of soldiers' graves during the Memorial Day exercises tomorrow. Members of the Woman's Relief Corps will arrange the bouquets this evening at the home of Mrs. Minnie Broesamle, 118 East Middle street. If you have flowers to contribute bring them to Mrs. Broesamle's home this afternoon or early this evening or call GR 9-3861 for pick-up.

A Service That Keeps Faith With The American People

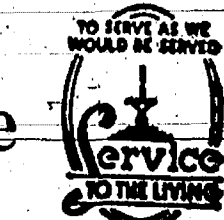

Higher average incomes have, through the years, resulted in higher standards of living. And the funeral profession has steadily kept pace with all advancement.

The notable improvements made in both the extent and quality of service and merchandise have not been extravagantly priced.

On the contrary, as is shown by our wide range of prices, every family, regardless of its circumstances, may arrange for a funeral of highest standards at a price it can afford to pay.

Ginger is making plans for a picture, but there's nothing signed on the dotted line as yet.

Shirley Booth will spend the summer in her Cape Cod home instead of playing "Long Day's Journey Into Night" in London as expected.

It appears they made the announcement in England while she was still negotiating; but the salary they offered would have had her playing for practically nothing.

Myrna Loy is in Los Angeles visiting her mother, Dell Williams, who is seriously ill.

Sat. Minoe costars with Fess Parker in Walt Disney's "Tonka." Minoe plays a Sioux Indian chief, White Bull, in the story of the great cavalry horse, Comanche, and of General Custer's last stand on Little Big Horn River.

Sam Wood's daughter, Joanne, plays the part of a southern belle in "Cat On A Hot Tin Roof."

Claire Kelly, a former cover girl, is Metro's newest head threat to Ava Gardner. She has been added to the cast of "Please Don't Eat The Daisies."

Tony Bennett, recording and night club star, will spend most of the summer studying dramatics, but takes a week off to appear in "A Tree Grows In Brooklyn" in Bucks County, Pennsylvania.

Peter Graves gets to kiss a girl on the screen for the first time in three years when he joins Barry Sullivan in "The Far Wanderers." On Peter's TV show the only thing he kissed was a horse.

Barry Sullivan plans to spend part of each year in Switzerland, where he'll make an independent picture with his own company. MCA is setting up the Swiss operation for our friend Barry, but he has done the financing himself.

Suburban Mothers Complete Their First Club Year

Suburban Mothers Child Study club completed its first club year Thursday, May 22 at 8:30 p.m., at Lyndon Town Hall. Eighteen members and two guests were present.

Mrs. William Drew, first vice-president and program chairman of the state board of the Child Study Clubs Association, installed the new slate of officers, headed by Mrs. Kay Slusser as president.

Mrs. Drew was accompanied by Mrs. Arnold who is to become her corresponding secretary.

A candle-lighting service was included in the installation ceremony, candles of all officers being lit from the club's first installation candles. All candles used during the installation are to be melted down by the outgoing president, Mrs. Jack Gilbert, for use at the next installation service when the ceremony will again be repeated. The annual custom will eventually form a "giant" candle incorporating this year's candles and those used in succeeding years.

Entertainment following the dinner included a horn solo by Wendy Gilbert, a reading by Carol Reith; baton twirling by Lynn Slusser; accordion solo, Sue Eisenbeiser; reading, Donna Snyder; and a travel talk by Mrs. Drew who recently visited in Central America.

The dinner committee for Thursday's affair included Mrs. Norman Houk and Mrs. Basil Rellay.

Daughters of present members of the club assisted by serving the club dinner. The girls are Lynn Slusser, Carol Reith, Sue Eisenbeiser, Donna Snyder and Wendy Gilbert.

Decorations for the dinner meeting were in charge of Mrs. Velma French and Mrs. Alex Gresten. Carrying out the club's colors of pink and white, flowers were used in profusion to give a patio effect.

The hostess, Mrs. Ginny Brier, had presented each guest and club member with a carnation, the club's official flower.

The next regular meeting of the club will be held in the fall at the home of Mrs. Ray Slusser.

Tight Cedar Chest Will Protect Wool Clothes from Pests

If you're storing winter clothes, especially wools, for the summer, you may be wondering just how effective is a cedar chest? For moth protection.

According to Bernette Kahabka, extension clothing specialist at Michigan State University, cedar chests make good pest-proof containers primarily because of their airtight construction.

Cedar oil vapor kills small larvae but is not effective against larger ones. So before storing be sure wools are free of larvae—the destructive stage of the moth.

Dry clean or wash garments to be sure they're clean when stored. If your cedar chest is several years old, treat it as you would any other storage area. Clean it thoroughly—perhaps vacuuming is the best method for removing lint and dirt, the food supply of moth larvae.

vacuuming will also remove any deposits of insects or eggs. Burn contents of the vacuum bag after you finish.

Then spray the inside of the chest with a three to five percent DDT solution. Spray enough to leave a cloud or fog in the chest. For further protection of clothes you can use flakes, crystals or balls, sprays or rinses on garments to be stored.

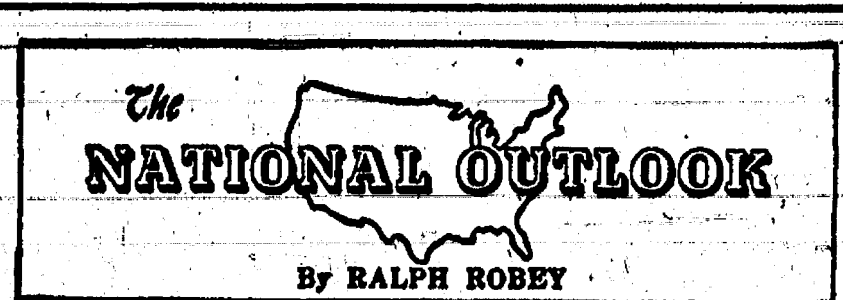

A good cedar chest is made of red cedar. At least 70 per cent of the chest proper is made of 3/4 inch heartwood. Of course the outside can be veneered with hard woods like walnut or mahogany without affecting the pest-proofing value of the cedar oil vapors.

More Favorable Business News

More and more persons are convinced that we are now trying to find the bottom of the recession. This results in almost everyone looking for signs to support such a conclusion. Following are some of the more convincing items being cited:

1. Housing starts in April rose, on an annual basis, to 950,000. The April rise followed two months of decline, and lent support to those who believe we shall see a minimum of one million private starts this calendar year.

Construction as a whole continues to set new records because of the heavy volume of public building.

2. Farm prices and farm income have both shown appreciable rises. In the case of prices, the rise came in the last September, and has continued each month since then.

Farm income was slower in moving up but now is well above its low of last year. It used to be said that recessions and depressions are bred and fed on the farm. Obviously, this time that is not true.

3. Over-all personal income showed an increase in April, for the first time since last August. The increase amounted to \$600 million. Unfortunately the entire increase was the result of so-called transfer payments—unemployment compensation, social security, and the like. Wage and salary payments continued to drop.

4. Personal consumption expenditures continue to hold up well. Durable, especially automobiles, are still moving at a slow pace, but nondurables and services are both higher than a few months ago. These expenditures have been one of the stronger elements in the economy all the way through the recession.

5. Machine-tool orders have increased for three consecutive months. The total still is not high, but at least the recent trend has been in an encouraging direction. The trouble here was that the machine tool industry has an unusually sharp decline at the end of last year. Even three months rise still leaves the total well below the figure of a year ago.

6. Steel production has recently shown a slight increase. It is still only 51 per cent of capacity, but it was considerably below this a few weeks ago. It is expected to show a further increase of moderate proportions in coming months. This expectation is based upon the belief that inventories have been reduced to below normal.

7. Various companies are beginning to report that they believe they have passed the low point.

These are perhaps the more important favorable elements in the present business situation. Of course these are unfavorable elements as well, because there is no statistical basis for assuming that. Likewise there is no statistical basis for assuming that we have much more decline ahead of us.

This means that business management, and everyone else, should begin to have confidence in better times. Improvement will not come in all industries simultaneously, and it may not get started for some months, but it is no longer the part of wisdom to remain deeply pessimistic.

Kindergarten Registration Sets Record

Kindergarten enrollment is the largest in many years, according to Arthur Schmunk, elementary school principal, following the annual pre-kindergarten registration last Friday.

The response of parents and children to the initial enrollment of beginners proves that this year's venture is worthwhile and an outstanding day in the lives of the little folks, Schmunk said.

Enrollment for the day amounted to 145 children divided as follows: North school rural, 43; South school rural, 38; North school town children, 16; and South school town children, 48.

Principal Schmunk anticipates that approximately 30 more children are to be enrolled and he said it would be appreciated if parents of these children would contact the South Elementary school office by telephone or in writing.

Four high school students assisted with the playground period for the pre-kindergartners. The four are Shirley and Stanley Dyer, Carol Danforth and Kathryn Kinde.

Refreshments were served at both morning and afternoon sessions by the hospitality committee of the PTA, with Mrs. Marie Sibley in charge.
