## Bulldogs Lose First Game In Tourney

Chelsea met St. Thomas for their first and last game in the district tournament Friday night at Dexter as they dropped it 57-38.

Chelsea led, 15-11, at the end of the first quarter. They were outscored 16-11 in the second quarter to trail by one point, 27-26, at half-time.

St. Thomas again outscored Chelsea in the third quarter but Chelsea trailed only, 40-38, going into the fatal fourth quarter in which St. Thomas scored 17-0 for Chelsea to win, 57-38.

George Mayer was high for Chelsea with 9 points. Bob Welsa followed with 7, Loren Keizer and Frank Fredrick each with 6 and Alton and Homer Nixon had 5 each.

## Easter Seal Letters in Mail Today

Easter Seals are in the mail today in the Chelsea area, according to an announcement by Paul F. Niemeus, chairman of the project for the Kiwanis club of Chelsea, local sponsoring organization.

The letters were addressed and stuffed by members of Zeta Beta Chapter of Beta Sigma Phi of which Emma Eisele is president. The sorority's assistance was volunteered as one of its service projects.

The annual Easter Seal Sale here is a part of the program of the Washtenaw County Chapter of the Michigan Society for Crippled Children and Adults, Inc.

The society is described as a non-profit organization that operates but does not duplicate the work of other agencies.

Its aim is to aid the crippled of all ages, races and creeds with its only source of funds being the voluntary gifts received from the annual sale of Easter Seals.

Proceeds of the Easter Seal contributions make it possible to provide handicapped children and adults with wheelchairs, crutches, braces and walkers they need.

Funds secured in the annual sale also help provide transportation, clinics and other services, including the specialized fields of research, occupational therapy, assistance with education and home nursing care.

Another project made possible by proceeds of the Easter Seal Sale is a summer camp program for the handicapped.

Letters in the mail today contain a return envelope, properly addressed, for mailing contributions.

A county-wide farm auction is being planned to benefit the Farm Bureau office building fund, according to announcements made this week.

Weather permitting, the auction will probably take place at the new Farm Bureau building, Saturday, April 4. Further announcements will verify the date for the sale.

Useful articles you no longer need may be just what someone else is looking for," according to promoters of the fund-raising project.

Items already contributed for the sale include a used stoker, an incubator and some cow stanchions.

Farm equipment or household goods will be welcomed as contributions for the auction.

Participation of all Farm Bureau members and friends is the aim of the committee planning the event.

**MOVING DAY** for a Sharon township barn, approximately 36 feet wide and 70 feet long, was last Saturday when the barn changed its location from the old Couch Dorr farm to the Don Irwin farm one and one-half miles northwest across the fields. The barn replaces the Irwin barn destroyed by fire last New Year's day. Prior to 1948 the former Dorr farm had been owned by Roy Raymond for about 25 years. The Newman Development Co. bought the place from Floyd Dicks who had been the owner since 1948. The Newman Co. subdivided the farm into small "farms" of five or ten acres and a Detroit party became the owner of the part upon which the barn was located. It was the Detroit man who sold it to Irwin. The house on the old farm had burned several years ago. The Heckman Co. of Napoleon was in charge of moving operations. At the time the picture was taken Saturday they were temporarily halted because of soft spots in the ground. Workmen returned to the work on Sunday. Timbers used to support the barn during the moving operation were 15 inches square and about 80 feet long. The foreman in charge of the moving crew estimated the barn's weight at about 80 tons.

## KNOW YOUR PTA

Plan to attend the next PTA meeting, March 18. The topic will be "Know Your School's Health Program."

The program for the next PTA meeting will be about water fluoridation. This is a timely subject as the village will be building a water plant in the near future and this will be a good time to include the equipment. If you wish to learn more about this vital dental health aid for your children, attend the PTA meeting next Wednesday evening, March 18. Final arrangements are being made for a speaker who can speak with authority on this subject.

In our PTA you can add your voice to millions of other voices that demand and enforce laws protecting children and youth. You can keep informed on the findings of all those who have made a life-work of understanding young people, and see that these findings are put into practice.

### Plans Announced for Penny Carnival

Just a minute, Mother, save that outgrown toy, crumpled comic book, those old children's books and records. That collection of white elephants, too, will find a welcome at the PTA Penny Carnival.

Friday, May 15 is the date set for the popular event which will be held in the new Community Fair building at the grounds on Old US-12.

Parent representatives and room mothers from each grade met at North School on March 2 to formulate plans for the Penny Carnival. The next meeting will be held in the South School, Monday April 20 at 8 p.m.

Following is the listing of the Carnival Booths with the sponsoring grades. You may find your child's grade in the list. The room mothers in charge will appreciate the co-operation of all the children's parents in making the carnival a huge success and fun for the whole family.

White Elephant Booth, 1st Grades, South school.

Peppermint Booth, 2nd Grades, North school.

Bean Bag Toss, 2nd Grades, South school.

Make-up Booth, 8th grade.

Food Booth, 9th grade.

Ping Pong Gun Booth, 10th grade.

Two or more classes of the same grade will work together on one booth, making it easier on all people involved.

A collection time for all contributions will be announced. Toys, comics, records, books, particularly children's books, and those useless odds and ends that are just too good to throw away—they all will go toward making the Penny Carnival a time of fun for everyone.

The Second Michigan Mathematics Prize Contest was offered to some 8,000 students, grades 9-12, in public and private Michigan schools. This is an increase of 2,000 participants over the previous year. Any student was eligible. The test lasted about two hours. Its upper-difficulty level was geared above the ability of students who would have completed four years of high school mathematics.

An unspecified number of top performers are to be awarded four-year college scholarships, and some will be awarded gold and silver medals. Top performer in each participating high school is to receive certificate of merit.

Our participants were Roger Herman (11), Sandra Karner (12), Ellen Kusch (12), Philip McDaniels (11), Antoinette Morrison (11), and James Mahar (12). Mr. George Bergman, counselor, administered the test.

Winners will be announced during the last week of March. Each school will receive a record of the performance of all contestants by the middle of April.

Tests are administered in the conference room near the library and sometimes in the library itself.

The Freshman class, meeting Wednesday during activity period, considered plans for the Freshman-Sophomore return dance which is scheduled for April 17. Committees were appointed for decoration, publicity, and refreshments. They also decided that the remainder of their dues, which is \$2.50 a

semester, must be paid by the end of this six weeks.

In Biology, the Freshmen are completing their projects which are due Friday. Algebra notebooks are also due Friday.

The high school girl's physical education classes have been doing exercises to prepare themselves for the following weeks of modern dance. The exercises produce poise in walking, sitting and dancing.

Each class broke up into three groups, then picked a nursery rhyme to act out in modern dance form. As each group acted out their nursery rhyme the other girls tried to guess which one they were doing.

All the girls seem to enjoy it very much and are having a lot of fun.

The two Azalea plants in the high school library were donated by Miss Joan Wieser, school librarian, for the informal open house at the high school.

Band members have been practicing a tune called "The Eagle Call Boogie" which they enjoy very much. Ronald Papsdorf was nominated and unanimously elected vice-president to replace Joanne Larson. Ronald plays first chair baritone.

First chair players for this week are as follows: Ed Lauhon, cornet; Carol Dancer, saxophone; Ruth Prentice, flute; Sharon Smyser, clarinet; Carol Cameron, bass clarinet; Ronald Papsdorf, baritone; Dave Talbot, trombone; Peter Flintoft, bass; and Ted Wilson, drums.

The poster committee chairman for the winter concert was Carol Huelsberg. The posters were to be distributed by Friday.

The Sophomores have chosen to order their class rings from the Balfour Company. No date has been set for ordering the rings as yet.

The final plans for the Freshman-Sophomore dance on March 14th are being completed.

The Student Council has furthered their actions on the prop

purchased for the new stage by agreeing to also buy the first coat of paint to cover them.

Several committee reports were made. David Rowe stated that Mr. Lane had approved the idea of letting boys who wish to grow beards for the centennial anniversary. Roger Herman stated that the band boxes have been removed from the room behind the stage so that the Seniors can complete their construction of the props. Bob Smith stated that the flag committee has found several appropriate flags to choose from. He and Don Ferguson will select one of these.

Ann Morrison said that she had talked to Mr. Lane about reading the minutes over the P.A. system but he refused as he thought it would be better if each homeroom teacher would read them in homeroom so if there were any questions, they could be answered.

A committee report was made by Ruth Prentice concerning the handbooks that might be made in the future. She read a letter to all surrounding schools asking them if we might have a copy of their handbook.

It was decided that no organization will be allowed to sell gum in the school in the future.

Two assemblies are being planned. The one in March will be the Eastern-Michigan Choir. There will be a band exchange some time in April.

Student Council okayed \$16 worth of new records. Tom Dunlap and Roger Herman will buy these at school discount.

"Room for the Groom," a comedy in three acts will be presented March 20-21 by the senior class in the high school auditorium.

Properties are being gathered and scenery is in the process of being finished.

Tickets may be purchased from any senior.

Busy, busy, busy! That is how we find the members of the senior class during these last few weeks before the senior trip. Last week it was announced that there was a surplus in the treasury. With this surplus and each person paying an additional \$3.00, president Markel announced that it would be possible to extend the senior trip one day, making a six-day trip. The class would then leave Easter Sunday evening and would spend the night and one extra day in Washington D. C.

An impromptu meeting was called in which the class voted in favor of the extra day. Also, orders were taken for graduation announcements and name cards and have been sent in.

## Time for Some Economy in State Government Rather Than New Taxes

After several months of hearing gobbledegoo from practically every politician in the state bemoaning the fact that the state government is broke, none of them have yet agreed on an acceptable plan to ease the crisis.

While they each cry that their pet project is being hampered by lack of funds, that state employees face payless paydays, that there will be no money for school aid payments, etc., the verbal barrage continues.

Has anyone yet considered that the best possible solution to this dilemma might be a drastic dose of economy mixed into government?

The usual explanation given by public officials when taxes are discussed is that people demand more and more services and consequently more and more money is required to pay for these services.

There probably is some truth to this reasoning, too. But who is it that's clamoring for more services? Such demands are nearly always made by small minority groups. A well-organized minority group makes a big noise and the politicians jump to satisfy their every whim.

Probably the vast majority of the state residents are opposed to the added service—or should we better say they are "indifferent." Because they are indifferent they offer nothing but silence in protest to the plan and before they know what has happened there is a new service, a new governmental department to administer it, and additional funds and new taxes needed to pay for it.

Public officials at all levels, schools, cities, counties, state and federal, are constantly giving in to such minority pressure groups and thereby continually expanding.

Somewhere this trend must be stopped, and even reversed—and about the only way it will ever be accomplished is for each and everyone of us to stand up and sound off our objections to these clamor groups. This speaking up can be in public meetings, or whenever government expenditures are being discussed. Our Letterbox Column is always open to publish your comments and we welcome such contributions.

It is never easy to trim the wings of a politician or bureaucrat but if there ever was a time when legislators should show a little intestinal fortitude and really economize, it's now. Just a little timid trimming here and there won't solve the problem. It will take some bold, wholesale chopping and it should be started now instead of searching for some new means for additional taxes.

We cast our vote for a little economy instead of more taxes. How about you?

## The Total Selling Medium

How valuable is newspaper advertising to the retail merchant?

Here's what the president of a Montana department store has to say: "If suddenly I were restricted to one and only one advertising medium, I would board up the display windows, discontinue all interior and departmental selling displays, eliminate all informative show cards, discontinue all sales meetings and sales incentives, stop all telephone selling and continue an aggressive business-building advertising investment in the newspapers."

This merchant also terms newspapers "the total-selling medium." What advertiser could ask for more.

## MICHIGAN MIRROR

By Elmer E. White, Secretary, Michigan Press Association

Labor might be forcing industry to provide a guaranteed annual wage in an economic war of attrition.

The principle of GAW was established some years ago by UAW President Walter P. Reuther. It won a compromise in labor-management negotiations, but fell short of victory.

But now, by extending other phases of labor's fight for more security, it is possible to see signs of success.

Labor unions always have considered the state's unemployment compensation program inadequate. Last week, it got support from an unusual quarter.

Three University of Michigan professors reported results of their research showing that jobless benefits in all states are generally inadequate.

They said that all workers should be covered. Michigan's law covers those in plants with four or more workers. They said benefits should last 30 weeks, some seven and one-half months. Michigan's runs 26 weeks, or six months.

They said that a worker should get 40 per cent of his take home pay while jobless. Michigan's ranges from 40 to 50 per cent.

The AFL-CIO in Michigan is now campaigning for perpetual unemployment compensation, benefits for the entire period of unemployment, no matter how long. Republicans in the legislature are proposing a plan under which workers would contribute to the fund which is tapped for the benefit checks.

The idea was first brought up for consideration by the unions, but Republicans stole a march on them by publicly announcing the idea early.

Oddly, unemployment compensation started first as a fringe benefit for workers, negotiated by unions with a strike threat as its major weapon.

At present, employers make 100 per cent of the contributions to the fund based on a payroll assessment. The more jobs they keep constant, the less they contribute.

Voters will decide April 6 whether to give the state legislature extraordinary powers in case of a disastrous enemy attack.

The proposal, which came from the Federal Office of Civil Defense, would allow the legislature to fill offices temporarily to keep government alive until normal operations could be resumed.

It would require an enemy attack on the United States and, specifically, damage which would vacate important governmental offices.

However, it does not say what would happen if the legislature were bombed out.

Main discussion in the legislature centered on the change in name of the State Board of Agriculture to the Board of Trustees of Michigan State University, but a side comment drew most attention.

During debate, one legislator indicated that Michigan State would start campaigning soon for a medical school.

## Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

The weather has been sorter bad out our way lately and I ain't got out much to find out what's going on. The wood in the shed is getting low and my old lady has been looking at me, the woodshed, and the axe all in the same look. If things keep getting worse I reckon I'll have to chop a few planks off the porch.

My old lady don't give me no credit for it, but when I'm setting around I'm thinking mighty hard. For instance, I been thinking the last day or two that one of the great troubles with man is him being so stubborn. It ain't all his fault. The first 20 year his mother is always pestering him about where he's going, the next 40 year his wife pesters him with the same question, and when he dies I reckon the mourners is all wondering the same thing.

It's sorter natural for a feller to get stubborn about overthing with a life like that. I recollect I had a neighbor onct that got drunk and saddled up his horse backwards. When his old lady pointed it out to him he got so mad that he allowed as how he was saddled up just right for the direction he was going, rode off facing the horse's tail and waving at his old lady.

What brought all this to mind was a place I saw in the papers the other day about more moonshine liquor being made in the South than ever in history. They ain't making no money out of it,

but they're just stubborn because the Government has said they can't squeeze their corn instead of eating it or feeding it to the hogs.

I got a neighbor up the road that comes to church ever Sunday, sets in the front row and goes to sleep. When the local preacher is in the pulpit he can snore right through the benediction. But let a strange preacher visit us and he sets there with his hands cupped to his ears all the way. I asked him one day how come he could sleep so good with the local preacher and listen to good when we has a stranger. He said he was jest a little bit stubborn about such things, that he knewed he could trust his local preacher but one of them strangers might slip in a paragraph or two about evolution or vitamins. When I asked him what vitamins had to do with it, he said there weren't nothing in the Bible about 'em and what ain't in the Bible ain't got no business in the pulpit.

I don't know nothing, for instance, that the world needs more than a square egg, one you can set any place like a cake of soap and it won't roll off. If Secretary Benson would pass a regulation that square eggs was illegal, we'd have square eggs in time for this year's Easter. Man is a contrary animal and it ain't good for him, but I got to admit he has a heap of things to make him contrary. Yours truly, Uncle Lew.

### ★ Pay

Sombody sent James Tamblin a motto to hang on the wall that said: "Whatever is worth doing is worth doing for money." In other words, if you aren't going to get paid for it, don't do it. That might have some value in helping us to eliminate some of the unimportant volunteer jobs that seem to attach themselves to anybody whose resistance is low.

But I'm glad that Jim doesn't take that motto very seriously. If he really followed it, he would have to give up several positions in which he is working for the betterment of his community—and for which the salary is nothing, or next to nothing.

No, you aren't going to get much "pay" for helping your boy build a snow man or teaching your daughter to skate or helping your wife pick out a hat. And I don't think it is "pay" that makes a woman aim for a perfect cake. There isn't much "pay" connected with golf or ice fishing. But life would be pretty dull if all of these had to be eliminated.

We do some things just because we enjoy them, and some just because we know they need to be done. Whether we receive any pay right now doesn't matter too much. In the long run we get the appropriate pay for all our acts, whether they are kind or selfish, wise or senseless. When anyone does a good deed, as the Good Book says, "he shall not lose his reward."

Jim's motto reminds me of some others I have seen lately: "Always be sincere, even if you don't mean it."

"This is a non-profit organization, but we didn't plan it that way."

"Don't go away mad—just go away."

"I'll be glad to help you out. Which way did you come in?"

## HOW DOES YOUR TOWN MEASURE UP?

An industry always takes the measure of a town before thinking seriously of locating a plant there.

Make your own check list and measure your town for yourself.

You might start by marking yes or no on each of the following questions: Does our town have good industrial sites? ; Financing available for plant construction? ; Modern and adequate schools? ; Attractive shopping facilities? ; Pleasant residential sections? ; Well supported churches? ; Good streets and highways?

Progressive municipal government? ; Adequate public services? ; Widespread community spirit? ; Strong civic leadership? ; Wise zoning provisions? ; Good community planning?

If your check list shows much room for improvement, it indicates the job to be done.

MYSTERY FARM NO. 46, originally published in the March 5 issue of The Standard, is there since 1911, the William Reule home on Chelsea-Manchester road, south of US-12. The Reules have lived there since 1911.

## 'Mystery Farm No. 46' Identified as Manchester Road Home of William Reules

Mystery Farm No. 46, identified by area residents as the William Reule home at 2156 Manchester road, has been modernized and attractively landscaped since the present owners took it over in 1941.

The well kept appearance is enhanced by means of the white picket fences with weeping willow trees growing behind them. Approximately 15 acres of land is included in the farm property. Formerly known for many years as the Barth farm, the last members of the Barth family to live there were the late Pauline Barth and her brother, Julius.

Their parents, Mr. and Mrs. Andrew Barth had purchased the place as a home for their family of six sons and three daughters. One of the daughters, nicknamed "Mike" is now Mrs. LeFebvre of Salt Lake City, Utah, and one of the sons, Gus Barth, is living somewhere in Idaho.

The others, all now deceased, were Mrs. Louis Gordon, Louis, John, Charles and George. The latter lived at 333 Washington street until his recent death. His wife and son Edwin still live there.

Those who called The Standard

office to identify the farm are Allen Brossam, Anton Nielsen, Mrs. Walter Beutler, David Pastor, Mrs. Robert Steele, Mr. and Mrs. Franklin Swamy, Mrs. Leonard Edwar, Elwin Barth, Robert Schneider and Mrs. William Quiley.

A community development project, the survey, which will take several weeks to complete, will include questions on the government, health, education, recreation and other phases of community life. Part of a nation-wide movement, the community development program is being sponsored by the U. S. Jaycees and American Motors Corp. of Detroit, in co-operation with the American Planning and Civic Association.

Jaycees chapters are surveying their respective communities to determine the nature of local needs and problems. Based on these findings, action programs are then to be organized to meet the most important needs of the community and its citizens.

Chapters with notable records for stimulating co-operative community co-operation and planning will be awarded certificates of merit by the National Jaycee organization. In addition, the Chelsea Jaycees will compete with other chapters in this state and the nation in trying to do the best community planning job.

To accomplish the survey, the community will be evaluated by

facts and personal opinions where ever possible on these subjects: The People—Evaluating how many high school graduates leave Chelsea and why do they leave?

The Government—Attitudes toward holding offices and are the Municipal ordinances adequate?

The Organizations—Are there adequate meeting places, are there organizations to serve all age groups?

The Social Agencies—Are the agencies financed in the community and what services are adequately provided for?

The churches—Are the churches asked for assistance in community programs?

The economy—Are there openings for shops, or services and are professional service needs being met?

The tourists—How many car travelers pass through and

are events held to attract visitors?

The Appearance—Are the parks, streets, city appearance and transportation facilities adequate?

The Health—Are there sanitation laws, are they enforced, is the water supply adequate?

The Education—Is there adult education, is there an active PTA?

The recreation—Are there adequate opportunities and facilities for all types to express themselves?

These eleven subjects, each with sample questions, will provide the Jaycees with many interesting and diversified answers, to work with. Anyone wishing to participate in this evaluation is urged to contact the general chairman, George Palmer, GR 5-7431.

## Why Are Beards For?

Beards is stuff what is made up mostly of hairs. (We say "supp" - egg-tobacco juice or the like in "em.) Beards grow almost always on the lower half of the face. Hairs on the top-side of the head is more pronounced due to present day customs which is to fight to keep it off the lower while in most cases it all falls out of the upper and the differential between the eyebrow hair and upwards is practically nonexistent. But if it still is you cut it partly off every couple of weeks and what is left is definitely more pronounced as we mentioned before because it's definitely is and mostly beards aren't.

Which brings us right back to our subject—beards and why are beards for? In the past (before Marlboro and tattoo) they were the mark of a man and were worn with pride, and some vanity. Then came the big drive by the Gillette people and some of the queerest looking faces were brought to light. . . people got used to them and the age of facial nudity began. Men conformed like a flock of sheep and the manly art of beard growing became a thing of the past along with the horse and the 5-cent cigar.

Now cigars is made mostly of Sorry—back to beards—one final statement—Most men living today have long been suppressing one of two desires. They either want to raise a beard or they want to chase wild women.

Beards! What brought up this beard question was the teasing undercurrent around town about beards—when are we going to start growing them—are you going to grow one—Boy! I am. Not me, I'm not going to grow a beard (whose decision—his or his wife's?)

Now, all this talk is being brought about by the celebration of the 125th anniversary of the founding of Chelsea. This is an occasion with two definite sides to it. We as a community are earnestly trying to slow down in our everyday life to look back into the past and give thanks to those who made our community the outstanding community that it is today. We don't claim it is perfect—but there is not a nicer town—a nicer surrounding rural area—nor nicer people anywhere in this world. We mean every word. . . we're proud of our community and we're proud to be a part of it.

And secondly, because we are so well blessed in every way in our community we are planning to have a real fun-filled celebration with a true Mardi Gras spirit prevailing for several weeks this summer.

This brings up the point of this article. We intend to run short series of informative articles concerning the plans and schedule of the celebration but first we want to establish once and for all this fact.

This is not and definitely not "just a beard-growing affair."

A time will be set later on in the celebration for the growing of beards by those who wish to take an active part in the phase of the celebration and enjoy all the fun that goes with taking an active part.

There will also be a lot of fun for those who don't wish to grow facial foliage.

You do not have to grow hair on your face—if you do not wish to.

You will not have to pay a fine for not growing one nor will you be subjected to anything more degrading than a few wondering glances from the local women-folk. As we mentioned previously everyone has suppressed desires. They either want to grow a beard or chase wild women.

And usually the consumption of one of these desires in a period of your life time is sufficient. So here will be your chance. If you have done neither . . . take your choice—But if you have given in to one of these desires—skip the other!

See you all Wednesday March 11 in the High School cafeteria. —Executive Committee 125th Anniversary.

## Seek Talented Homemaker In Mrs. Michigan Contest

The "Mrs. Michigan" contest, devoted to bringing the homemaker's talents, tasks and community service to national attention, get underway today.

The search for the state's top homemaker, which will lead her to the "Mrs. America" finals and a share of \$50,000 in prizes, will be conducted throughout Michigan between now and April 19 when all Qualification Record Questionnaires must be in the hands of Michigan Consolidated Gas Co., sponsors of the event.

Official entry blanks are now available in all Michigan Consolidated offices and a number of gas appliance dealers. Questionnaires will be sent to all those who return entry blanks by April 11. The winner of the "Mrs. Michigan" contest will receive more than \$1,000 in prizes and she and her husband will spend 15 days at a fabulous ocean front hotel in Fort Lauderdale, Fla., while she competes in the "Mrs. America" contest in June.

Among the \$15,000 in prizes which "Mrs. America" will receive are an Esther Williams Swimming Pool built in her own back yard, a flying vacation tour of Mexico and South America with her husband, two additional weeks of expense-paid vacation in Ft. Lauderdale for her whole family, an outdoor motor and boat, a completely equipped kitchen and gas appliances from RCA-Whirlpool, a year's supply of Wilson & Co. meat products and many more.

Mrs. Michigan, as well as Mrs. America, will also be amply paid for all public appearances they may make during the year of their reign.

Fred A. Kaiser, vice-president and sales manager of Michigan Consolidated, pointed out that the "Mrs. Michigan" and "Mrs. America" Contest are not beauty competitions. "We are looking for women who are proud to list their occupation as 'housewife' and regard their life in the home and

community as stimulating and pleasant," Kaiser said.

"The American homemaker is in a class by herself and this contest is dedicated to glorifying her ability to maintain a happy home, take part in church, civic and school affairs and keep herself attractive, all at the same time," he added.

Following the deadline for receipt of the official questionnaires, interview teams will make personal visits to the most likely candidates throughout the state. Local competitions will be held and at least 13 women will be chosen to take part in the state finals to be held in Detroit, May 6 and 7.

The finals will be judged by three previous winners of the contests, Mrs. Barbara Dolan of Greenville, the current "Mrs. Michigan," Mrs. Mary Weitzel of Detroit, and Mrs. Nila Dreger of Grand Rapids.

Contestants will be scored on general homemaking skills, including meal preparation and planning, plus good grooming, personality and attractiveness.

The winner of the "Mrs. Michigan" contest will be announced at a party for press, radio and television representatives at the Port Shelby Hotel the afternoon of May 7.

In addition to the expense paid trip to Florida, Mrs. Michigan will receive an RCA-Whirlpool gas range, a Ruud gas water heater, a Calorator-Incinerator, 13 pieces of "Mrs. America" West Bend aluminum kitchen ware and other awards. All finalists will receive a vacuum cleaner from RCA-Whirlpool, a national sponsor of the contest.

Mr. and Mrs. Sam Misalides and daughter, of Kalamazoo, spent Thursday here and visited at the homes of their parents, Mr. and Mrs. Mike Misalides and Mr. and Mrs. Earl Bauer. They also visited the former's sister Mrs. Chrysoula Hofhansian, of Manchester.

RESOLUTION CREATING VILLAGE CIVIL DEFENSE ORGANIZATION

In recognition of the need for Civil Defense protection for the residents of the Village of Chelsea, and

WHEREAS, the County of Washtenaw and the State of Michigan each has an active Civil Defense Organization, and

That, mutual aid and assistance during and following a disaster must be provided for among the neighboring communities, and

That, a Resolution to provide for direction and to prescribe the powers, duties and responsibilities of various village officials for Civil Defense is necessary, be it therefore resolved that said Resolution shall read as follows:

1. Definitions—

For the purposes of this Section, certain terms and words are herein defined as follows:

1.1 "Civil Defense" shall have the broad meaning of preparation for protection against, and relief from the effects of either direct attack or sabotage by a hostile nation or the effects of a natural disaster as described herein.

1.2 "Attack" will mean any activity declared by the Governor or the President to be direct assault against the State by a hostile nation or agents thereof, including bombing, chemical or biological warfare and sabotage.

1.4 "Emergency" will mean a condition resulting from enemy attack, sabotage or other hostile action or natural disaster which cannot be handled by normal operating personnel and facilities.

1.5 "Civil Defense Volunteer" will mean any person who has been recruited, induced, or who otherwise volunteers to serve without compensation in the Village Civil Defense Organization, and whose name and address appear on official departmental roles or rosters for Civil Defense.

There will be an executive head of the Department of Civil Defense who will be appointed by the Village President and the Village Council on the recommendation of any member thereof. Said executive head to be known as the Director of Civil Defense, and such assistants, clerks, employees and volunteers as are deemed necessary to the proper functioning of the organization.

2.2 Deputy Directors will be appointed from among the heads of each village department, board, commission and agency, whose duties and responsibilities will be, but not necessarily limited to, Police and Traffic Services, Fire Services, Engineering Services, Welfare Services, Communication Services, Financial Services, and Personnel and Administration Services. It is the intent that in so far as possible, duties and responsibilities will be assigned Deputy Directors which are similar and analogous to their current functions. Otherwise outstanding capable citizens will be selected as Deputy Directors.

4.2 The Director of Civil Defense will be responsible for public relations information, and education regarding all phases of Civil Defense.

4.3 The Director will be responsible for the development of Civil Defense Plan, and upon adoption, will be responsible for implementation and such revision of the plan as to maintain it in a current state of readiness at all times.

4.4 The Director will coordinate all activities for Civil Defense, and will maintain liaison and cooperate with all other interested and affected agencies, public and private.

4.5 The Director will coordinate the recruitment and training of volunteer personnel and agencies to augment the personnel and facilities of the village for Civil Defense purposes.

4.6 When a State of Emergency has been declared, the Director will assemble and utilize Civil Defense Forces and prescribe the manner and conditions of their use, following predetermined plans.

4.7 The Director may take all necessary action to conduct tests of the Civil Defense Plans.

4.8 The Director will be responsible for the formulation and negotiation of mutual aid plans and agreements.

4.9 The Director will be responsible for establishing a primary and secondary Control Center.

4.10 The Director may issue proper insignias and papers to Civil Defense workers and other people directly concerned with Civil Defense.

5. The Civil Defense Plan—

5.1 As soon as practical, after the enactment of this Resolution, and the assignment of an Executive Head, comprehensive Civil Defense Plan will be developed and presented to the President for adoption by the Council. The plan will be prepared in such a manner as to follow the County, State and Federal concepts for Civil Defense Operation. It will include the maximum utilization of all services, personnel, equipment, facilities and resources of all existing village departments and agencies that can be adapted to Civil Defense operations. When approved, it will be the duty of all municipal departments, boards, commissions and agencies to perform the functions and duties assigned by the plan and to maintain their portion in a current state of readiness at all times. The Civil Defense Plan will consist mainly of two (2) major parts; namely, (a) An Organization Plan, and (b) an Operations Plan. The Operations Plan will be the results of the joint efforts of the Director of Civil Defense and each Deputy Director.

6. Violations—

It will be unlawful for any person willfully to hinder or delay the Civil Defense Organization in the enforcement of any rule or regulation issued pursuant to this Resolution; or to do any act forbidden by any rule or regulation issued pursuant to the authority contained in this Resolution.

## Windy Gets "Collared"

A stranger walked into Fudge Barton's store the other day wearing one of those "Chatterfield" coats. When the boys saw the fancy velvet collar, they broke out laughing.

The stranger seemed to ignore them and went on about his business. He even pretended he didn't hear Windy's remark about the "big city" coat. Then, on leaving, he walked over to Windy.

"I gather you find my coat peculiar," he said. "Well, where I come from we're so peculiar

we even extend a hand to strangers." With that, he shook Windy's hand.

From where I sit, the twist on the old adage is true: "clothes don't make the man." We ought to judge a man for what he is. That's tolerance, something we ought to practice every day. For example, you like coffee... I like a glass of beer. That doesn't make either of us "different" or anything to laugh at.

## Homemaking Hints

Put some light on the subject when you're working in the kitchen, advise home management specialists. You'll find that light colors on walls and cupboards reflect more light than do dark colors.

Sit down to work in the kitchen when you can. It's a good way to save energy, say home management specialists. Use a chair which lets you sit with good posture and allows you to place both feet flat on the floor.
