## Sidewalk Sale Set for This Week-End

Memories of Chelsea's recent 125th Anniversary celebration will be revived this week-end when local merchants put on their third annual Sidewalk Sale Days event. Real bargains on seasonal merchandise will be featured, with stocks moved-out on the sidewalk in the style of pioneer days. The event proved exceptionally popular with Chelsea shoppers when it was first introduced two years ago and was even more so last year. Advertisements in this issue of the Standard list many of the special bargains being offered on every kind of merchandise—household appliances, furniture, groceries, meats, hardware, wearing apparel for every member of the family, jewelry, drygoods, drugs, ice cream, etc., etc. As their contribution to the Sidewalk Bargain Day event, members of the Village Council have again decided that there will be free parking in the downtown area throughout the two-day event. Stores will be open until 9 p.m. Friday. Closing hour Saturday will be 6 p.m.

## Kindergarten Pupils Should Register Now

Children who will begin kindergarten this year and are not already registered should be registered at the earliest possible date at the office of the principal at South Elementary school. Others who are to register as soon as possible also are any new residents who will be entering elementary classes, kindergarten to sixth grade. Arthur Schmunk, elementary principal, said registrations may be handled by telephone or in person and should be made today or tomorrow if possible. Children who are not enrolled prior to Sept. 8 when school opens should be accompanied by their parents in order that they may be taken home after they are registered to await room placement. Kindergarten children enrolling Sept. 8 will be given room placement Sept. 14. Principal Schmunk explained that all children registered at the kindergarten meeting in May of those who have registered since then need not re-register. Transportation plans will be announced in The Chelsea Standard at a later date. Elementary school classes will be in session for the full day on the opening day of school, Sept. 8, except for kindergartners who will have a regular half-day session. Rural elementary children will want to bring a noon lunch, it was announced. Principal Schmunk said, "We are very eager to hear from at least eight parents of last year's first grade North school pupils who would like to transfer to South school second grade. "Other information will follow at a later date, but the urgent detail at present is that those not registered do so at once so that class groups may be adjusted. "Word concerning those who have moved from our community would also be very helpful," Principal Schmunk said.

According to information received yesterday from Clearwater, Fla., Chelsea's 125th Anniversary Queen and her husband, Mr. and Mrs. Charles Popovich, Jr., arrived safely at Tampa International Airport at 6:30 a.m. Sunday, almost an hour ahead of schedule. They had expected to reach there at 7:21 a.m. At the appointed time they were met by A. D. Birch, mayor of the City of Clearwater, O. C. Lockett, manager of the Chamber of Commerce, Miss Pat Marcheselli, Miss Clearwater Fun'n-Sun Queen, Dick Adams, general chairman of the Clearwater's postoffice centennial committee, and Mr. and Mrs. U. Following luncheon at the home of Pat Marcheselli, they enjoyed their first swim in the Gulf of Mexico at Clearwater Beach. In the evening they were dinner guests at a party given by Mayor Finch at the Pelican restaurant. A full program was planned for their week's stay in the "Fun 'n Sun City" in Florida. They are living at 215 Bay Haven Court, Clearwater, as guests of Mr. and Mrs. Leo Bishop of Chelsea, in one of their apartments on Clearwater Bay. The Chelsea couple were accompanied by Willow Run Airport by an enthusiastic group of Chelsea friends, the caravan including children as well as adults. With a continuation of the good fortune weatherwise which had held throughout the 125th Anniversary celebration, it was a beautiful night for flying. An additional lucky break was the fact that the flight to Tampa was made in a deluxe DC-7 plane instead of the smaller, slower plane customarily assigned for the 12:30 a.m. trip. The larger plane, which is the type used by Presidential.

From where I sit ... by Joe Marsh

A Real  
"Novel" Idea

Had a call from Whitney Fisher, head of the Town Library's Emergency Committee. He's asked me to explain the situation.

This is the "emergency." The library's moving into its new building next week—over on Bridge Street. Moving all those books will cost more than \$200. At that rate we won't be able to afford any new books for a couple of years.

Whitney's got the solution—have everyone in town borrow at least five books, keep them

a week, and return them to the new address!

From where I sit, cooperation among neighbors is the life-blood of a town. People should work together... whether it's to help a library or fight intolerance. For instance, if you'll respect my right to an occasional glass of beer—and I respect the beverage of your choice... that kind of cooperation will do lots to help wipe intolerance—"off the books."

Good Drivers  
May Get Lower  
Insurance Rates

Motorists with accident-free and conviction-free driving records may get lower car insurance rates if a plan advocated by James M. Hare, Secretary of State, is adopted by Michigan insurance companies.

"Many of us interested in traffic safety spend most of our time and effort in straightening out the habitually careless driver," Hare pointed out. "It is high time that somebody gave the careful, law-abiding driver a break."

At a recent meeting in Lansing, 60 representatives of insurance companies met to discuss the possibility of adopting a California plan of giving good drivers reduced car insurance premiums as a reward for operating their vehicles without accidents or moving traffic violations.

The plan could give good drivers

a 20 per cent rebate on their premiums.

John J. Savage of the National Bureau of Casualty Underwriters told the group that the reaction of the press and public in California was enthusiastic and that the plan tended to make individual motorists cognizant of the savings advantages of lawful driving.

Savage exhibited California press accounts and editorials bearing such headlines as "A Premium For Prudence," "New Insurance Rates Justly Reward Safe Driving," "Break For Safe Drivers," and "Pays To Be Good."

The good driver rebate plan has many merits," Hare commented. "We will pledge our continuing co-operation to insurance companies and others in Michigan who

may wish to adopt the California plan. By working together we scientists and careful drivers can extra break for their safe driving habits."

## DEFENSE PLAN URGED

The chairman of the House Space Committee has called for protective measures against chemical and biological warfare after witnessing an experiment with dogs.

Rep. Overton Brooks (Democrat of Louisiana), said the experiments, demonstrated to the committee behind closed doors, emphasized the need for measures to "insure our survival in case these weapons are used against us both on the battlefield and in our civilian population."

Tomorrow morning we will place a 15-lb. ham (not pre-cooked) in the pre-heated oven of a Monarch electric Roaster Range. THE RANGE WILL THEN BE DISCONNECTED and moved out to the sidewalk for all to see.

Eight Hours on Stored Heat

At 5 o'clock tomorrow afternoon, after the ham has baked for 8 hours on Monarch stored heat, the seal will be removed—the ham will be brought forth for all to see—and eat. Truly a remarkable exhibition of the heat-holding properties (and economy) of the Monarch oven!

FREE  
HAM SANDWICHES

The proof is in the eating! To show you how deliciously juicy and tender meats can be when baked in the Monarch oven, the ham will be sliced and served in sandwiches—They'll be the best you've ever tasted!

## Nothing Can Beat Smell, or Taste Of Home-Made Bread Baking

Just about the time we begin to think this old world is getting a little wobbly on its axis and nobody on the globe is making much sense, something happens to restore our confidence in the human race and bolster the feeling that things may still come out alright.

And about all you have to do to get the benefit of this restorative in most any community is to sniff the air. Somewhere, some housewife, or maybe several, are baking yeast bread and small fry are standing around waiting impatiently for the first hot slice with butter and sugar on it! Doesn't that picture bring back fond memories of your childhood?

There is probably no odor in all the world that is more delightful, more nostalgic or better calculated to bring a bewildered humanity to its senses. As it wafts over town, husbands and fathers are reminded that it's getting time to wind up the day's work and head for home. Mothers nowadays are instructing their daughters more than ever in this most glorious of household arts.

Back of this new enthusiasm for the age-old accomplishment is the fair and 4-H club work, where this year, in every section of the country, more women than ever before are competing for prizes for their yeast bread and rolls. And in seeking to outdo Grandma at the time-honored mixing and kneading and baking chores, they are helping to bring a fast civilization back to a healthy appraisal of the good old simple life.

With fresh, savory, home-made bread in the oven, nothing, we feel, can be too wrong with the world.

## It Pays To Read Your Newspaper

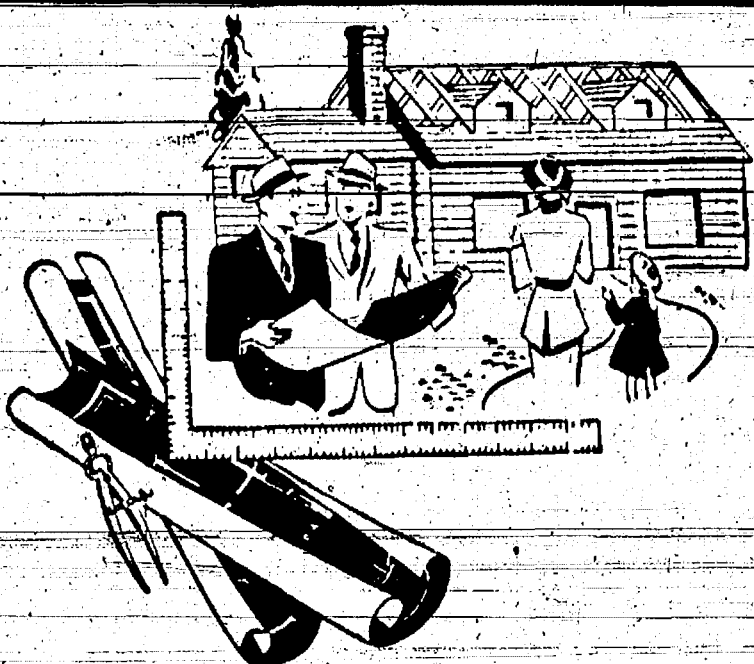

The value of reading a newspaper is well established. In a changing world, following the news is a continuing education for any thoughtful person. And in the field of thrift and specific benefits, a single advertisement of a needed bargain often saves more than the cost of the newspaper for a year.

Even after being read and discarded, newspapers have many uses. In this respect, they clearly are much superior to rival media. You cannot wrap a fish or start a fire with last week's television program.

More rewards of newspaper reading continue to turn up. An expensive New York charm school, for example, tells feminine students eager to make a hit with men to read a good newspaper regularly. It will give them something to talk about, will show that they are bright and alert.

A new Harper's book on the drug industry, "The Merchants of Life," by Tom Mahoney, adds another testimonial as to the power of the press. A scientist of the Upjohn Co. at Kalamazoo, in 1954 read one day in a Detroit newspaper of a new German drug which when taken by mouth promised to control diabetes, previously controlled only by daily injections of insulin.

Samples of the drug were ordered by cable. Tests proved its usefulness for many patients. As a result of the scientist reading the news item, Upjohn today has annual sales of some \$20,000,000 in the drug and 400,000 American diabetes patients have been freed from bothersome and painful injections with a hypodermic needle.—Clare County Cleaver.

## ★ MICHIGAN MIRROR ★

By Elmer E. White, Secretary, Michigan Press Association

Michigan's cash crisis focused almost unprecedented attention on the State Administrative Board this year.

Except for the Secretary of State's signature on drivers' licenses, the public usually is not directly aware of Administrative Board actions.

This year, the Board has been to Michigan what the Joint Chiefs of Staff is to the Pentagon.

Urgency and secrecy prevail when the Board meets to decide how to meet the pressing problems it faces.

These are the men who, with Williams, exercise control over all state agencies and institutions.

Gov. John B. Swainson—He is acting governor when Williams is out of town and presides over the Administrative Board meetings when the Governor is absent.

Although he carries no vote as president and presiding officer in the GOP-dominated Senate, Swainson has been a valuable liaison man between the Executive and Legislative branches.

Swainson, a World War II double amputee, directed much of the effort to cash in the 50-million-dollar Veterans' Trust Fund.

Of all "cabinet members," the Lieutenant Governor has the least full-time duties.

Sec. of State James M. Hare—Although he directs a far-flung agency operation, Hare's role in the cash crisis has been confined primarily to committee sessions within the Administrative Board.

He was assigned to help look out for employee welfare during periods of payless paydays.

Hare feels he has made an indirect contribution to easing the cash crisis through his efforts to inaugurate programs of government economy and efficiency.

His non-crisis duties include operation of elections and motor vehicle services. His 225 branch offices throughout the state provide the bulk of the patronage jobs available in state government.

Hare's primary interest has been in the field of traffic safety.

Atty. General Paul L. Adams—The legality of the Board's unprecedented action in halting pay checks was carefully screened by Adams. He also has been called upon to review proposals to ease the cash crisis.

As chief legal enforcement officer of the state, his duties have been greatly increased during a time when the state has had to stall off creditors.

When contractors, suppliers and other vendors began demanding in-

terest on money owed by the state, it was Adams who said they could take their cases to the State Court of Claims, where he is the "defense attorney" for the state.

Treasurer Sanford A. Brown—He's had the worst of the headaches.

Brown supplies the figures that determine administration policies on rationing of money.

He has the constitutional obligation to make distribution of earmarked funds for schools, cities and villages and other units.

As the top fiscal officer in a state plagued with fiscal difficulties, it follows that Brown would have a difficult job.

One of Brown's toughest jobs has been to correct the misconceptions about Michigan's reputation and credit on the national money market.

Auditor General Frank Szymanski—The Auditor General's office releases the checks for payroll,

welfare bills and other obligations. When there isn't enough money, Szymanski has to impound the checks. More than 30,000 checks were impounded late in July.

A few vendors with extreme hardship cases were able to get their money. Szymanski made the decisions.

Highway Commissioner John C. Mackie—As in Hare's case, Mackie's cash crisis role has been confined to joint action as a voting member of the Administrative Board.

But as chief of the largest agency in state government, Mackie has had a direct interest in the impact of the cash crisis.

However, most of his employees are paid from earmarked funds and did not suffer payless paydays.

Mackie directs a Board subcommittee considered with maintaining safety and defense measures should there be a collapse of state services.

Lynn M. Bartlett, superintendent of public instruction—Bartlett's efforts have been directed toward helping school districts live with the state school deficit that reached about 30 million dollars late in July.

As a member of the Municipal Finance Commission, he helps review the thousands of requests for borrowing received from districts throughout the state.

## Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

We had a right lengthy session at the country store Saturday night on account of the subject under discussion being preachers. As usual, Ed Doolittle did most of the talking, and from what Ed was saying, they must have a real up-and-coming preacher at his church.

Ed is a Baptist but says he don't know exactly what branch it is. All he knows is that they put 'em plum under water when they is baptised. Ed says that's the only kind to belong to, says when you want to scald a hog you don't pour water on him, you throw him in the vat. That brings up a argument from the fellers that belongs to other creeds, but there wasn't no argument about Ed's preacher being the best.

Ed says he preaches about everything in the world, all in one sermon. Variety, that's what Ed says his preacher has got, some-thing to interest the whole congregation. He'll talk about gangsters, the United Nations, wimmen, liquor, Congress, the drought, Russia and the high cost of living, all in the same sermon. Ed says when the weather gets real hot he's liable to discuss all these things in the same sentence.

Sunday, fer instance, he went from wimmen to fishing and from there to fried chicken. He said when he was a boy a girl blushed when she heard a naughty joke but now she just memorizes it. He allowed, as how wimmen was going to perdition faster'n the country was going broke. He said proof that we was reaching the living-end come from this actress in Hollywood the other day who said she'd been married five times and that three of them was perfect and two was ideal.

On the subject of fishing, the preacher claimed the Government was mighty hard up fer some-thing to do when they passed laws protecting fish. He allowed that all the fish he'd ever saw was able to look out fer themselves.

On the topic of fried chicken, Ed's preacher said he'd like to put a stop to the rumor that preachers don't like nothing but chicken. That was the case, he allowed, back when chicken was scarce, back in the depression when it was dangerous fer a chicken to crow out loud. Now, he claims, even Methodist preachers can get all the chicken they want. Ed says that from the little remarks his preacher drops, he figures he don't like Methodists.

On account of my old lady being a Methodist, I got to go hear that feller real soon and git both sides of it.

Yours truly,  
 Uncle Lew.

## smoothest ride!

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly—Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "the smoothest, most quiet, easiest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

**BEST ROOM**—Official dimensions reported to A.M.A.\* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

**BEST ENGINE**—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCARS Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

**BEST ECONOMY**—A pair of Chevrolet sikes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

**BEST BRAKES**—Chevy's bonded-lining brakes are the biggest in their field, built for up to 66% longer life. In a direct competition conducted by NASCARS, Chevy out-stopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

**BEST STYLE**—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

**BEST TRADE-IN**—Any N.A.D.A.† Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used-car prices last year averaged up to 12% higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?

**MYSTERY FARM NO. 63**—Located a mile east of Waterloo, Mystery Farm No. 63 was identified as the Leigh Beeman place. The Leigh Beemans and their son, Donald and his family live there. The property has been in the Beeman family 95 years.

## Leigh Beeman Farm on Waterloo Road Has Been Family Homestead Since 1865

Mystery Farm No. 63 proved to be the Beeman place on Waterloo road, one mile east of Waterloo, which has been the Beeman homestead since 1865. Five generations of the family have lived there. Leigh Beeman, the present owner, was born and raised there. His son Donald, now works the farm. Both families live in the big double house.

The Leigh Beemans have three sons, Wilbur, George and Donald. Mrs. Leigh Beeman is the former Carrie Dykemaster. The Leigh Beemans were married in 1920.

Both the Leigh Beemans and the Donald Beemans are members of the EUB church at Waterloo and father and son both formerly enjoyed their hobby of baseball playing but now prefer horseback riding.

Donald is a member of the Yorkshire Breeders Association and the Leigh Beemans are Farm Bureau members.

Dairying and swine raising are principal farm activities on the Beeman place. They normally have 30 head of cattle. Corn and hay are their principal crops.

They are chiefly interested in progressive improvement of their dairy facilities.

The first Beeman who owned

the farm was Washington Beeman who took it up on a tax title in 1865.

His son, Francis, was married in 1866 and lived there until 1899.

The next owner, George Beeman, was born there and lived there until his death in 1938 at the age of 72 years.

Leigh Beeman, the present owner, is George's son.

The George Beeman family also included two daughters, Mrs. Mac Garfield and Mrs. Nina Dykemaster, both now living in Jackson.

An interesting antique which is still the property of the Beeman family is the old ox plow which was pulled by a team of oxen and a team of horses to break the first soil on the farm 95 years ago.

Calls identifying the farm were received from the men at Blass Elevator who were the first to identify the place; Ed. Schable, Keith Alan Kleis, James Kramer, Mrs. Thelma Hughes, David Pastor, Eugene Wahl, Carol Gaddis, Judy Woolley and Mrs. Nina Dykemaster who called from Jackson, saying she was born and raised on the farm.

### Special Dividend Slated To Be Paid Vets with Disability Insurance

A special dividend of \$4,000,000 will be paid this year to 85,000 National Service Life Insurance policy holders who carried the \$5 total disability provision, Lloyd H. Jameson, manager of the Veterans Administration's Regional Office in Detroit, announced today.

This provision provides the insured veteran with a monthly income of \$5 per month for each \$1,000 of insurance in force in the event he becomes totally disabled, and costs him an additional premium, Jameson explained.

Payments on the dividend will start in July. Eligible to receive them are those veterans whose TDIP rider was in force Dec. 31, 1958. The amount of the dividend will depend on the age group, plan and number of months the insurance was in force. Jameson explained that this disability rider dividend is in addition to the dividend which has been paid annually to holders of certain NSLI policies.

Policyholders whose insurance was in a state of lapse during December, 1958, will receive the dividend only if their policies were reinstated before June 1, 1959.

Because their age group has not accumulated any surplus, those who were issued TDIP riders prior to Jan. 1, 1950, by virtue of waiver of good health provisions due to service-incurred disability, will not participate in this special dividend.

## Queen Honored in Florida...

(Continued from page one)

dent Eisenhower, was needed in Florida Sunday morning and the passengers scheduled for the night flight were transferred from the smaller plane.

The Clearwater Sun, in its Sunday edition, printed the following story pertaining to Mrs. Popovich's arrival and stay in Clearwater.

Centennial Week for Clearwater will begin this morning with a regal air when, at 7:30 o'clock, lovely Norma Jean Popovich, queen of the centennial of Chelsea, Mich., arrives at Tampa International Airport to participate in the city's Post Office anniversary observance, and to return the recent visit of Miss Pat Marchiselli, Miss Fun 'n Sun.

The Clearwater Post Office was established on Aug. 20, 1859, by David B. Turner, who served as its first postmaster.

The Chelsea Queen comes for this observance as a courtesy exchange. Miss Marchiselli was sent by the Chamber of Commerce and the Fun 'n Sun Committee last month to represent Clearwater at the Michigan city's centennial. She was joint guest of honor with Queen Norma Jean and her court at many events, and, as return hostess, will be on hand to greet the slender brunette beauty from Chelsea as she steps from the plane today.

Welcome Committee. Heading the welcome committee at the airport will be Mayor Alex D. Finch, Clearwater Chamber of Commerce Manager O. C. Lockett, and Junior Chamber of Commerce Centennial Chairman Dick Adams. The city of Clearwater, the Chamber of Commerce and Junior Chamber are sponsors of the centennial observance.

The visiting queen from Chelsea has been signally honored in advance, having been chosen queen of the Letter Carriers Centennial Ball, the grand finale of the week-long event. The gala ball over which she will reign will be held at the municipal auditorium Friday evening, and will bring to a close a week of activities that will keep her much in the limelight on the Clearwater scene. Miss Marchiselli plans to begin by taking her to St. Cecilia's Catholic Church this morning.

This afternoon Queen Norma Jean will be guest of honor at the boat races to be held just east of the Marina in Clearwater Harbor, and Monday evening she is scheduled to make a television appearance over a Tampa station. She will occupy a position of honor at the Post Office Centennial ceremonies Thursday at 4 p.m. on the Post Office steps.

At Honor-Table. As queen of the Centennial Ball Friday evening, Miss Chelsea will preside over the table of honor, attended not only by Pat Marchiselli as Miss Fun 'n Sun, but also by Miss Clearwater, Miss

Carolyn Reichle, and her court. Miss Marchiselli is a member of the court.

Others invited to sit at the honorable table will be Mayor Finch, Manager Lockett, Dick Adams, Joyce, chairman of Centennial Week, Clearwater Postmaster Lester Debus, and Clearwater City Commissioners Col. James H. Watkins, Cleveland Insko Jr., Herbert Fields and Amos Smith.

S. C. Tetreau and Edward De Laura, co-chairmen of the ball, have announced final plans for the affair. Russ Barron and his orchestra will furnish the music, and door prizes donated by the local merchants will be awarded during intermission. A special event will be selection of the most of the centennial. A prize will be awarded the winner.

Miss Chelsea will be a guest at the apartments of Mr. and Mrs. Leo Bishop, also residents of her home city. The week-long vacation in Clearwater was one of the prizes given her as Chelsea's centennial queen.

END OF AN ERA. A congressman wants to save the wild mustang—a symbol of the West—from extinction. About 20,000 of the horses roam the Western states. But their number grows smaller, says Representative Baring. (D., Nev.), as modern round-ups, using planes and trucks, capture the mustangs for dog food.

Baring has introduced a bill aimed at stopping mechanized wild horse round-ups. A House Judiciary subcommittee which has been besieged with mail on the subject, has scheduled a hearing on the measure July 15. Baring said his bill was aimed both at securing humane treatment for the animals and saving them from extinction.

The state of Kansas is one of America's thrifty and greatest producing states. It leads all others in the production of wheat, and produces many other farm products. It also ranks very high in mineral production, among its production being large quantities of oil, zinc, coal, natural gas and cement.

The first settlement in the state of Georgia was made at Savannah in the year 1733.

## State Has 50%

## More Lobbyists Than Legislators

Michigan has 222 registered legislative agents or 78 more than it has Senators and Representatives.

This unusual situation was revealed by Secretary of State James M. Hare, who pointed out that legislation passed last year required legislative agents, or "lobbyists," as they are sometimes called, to re-register each year. The fee is \$5.00.

Legislative agents represent associations of barbers, nursing homes, cosmetologists, school administrators, manufacturers, florists, restaurateurs, automobile dealers, insurance agents, funeral directors, teachers, railroads, lumber dealers, and many other occupational and professional groups.

Others represent Alcoholic Beverage Licensees, The Michigan Temperance Foundation, The Watchmakers Guild, The Fertilizer Dealers and Users of Michigan, The Michigan Table Top Congress, The Association for Rural Education, The Michigan Thoroughbred Breeders and Owners Association, The American Association of Massage and Therapy, and The Low Grade Iron Ore Interest Association and so on.

"Just as the press has long been called 'The Fourth Estate,'" Hare said, "the legislative agents for professional, industrial, and special interest groups, also play many roles in the legislative process. They could be called 'The Fifth Estate.' And like all persons fighting for a cause they sometimes help to expedite good legislation and on other occasions some slow up much needed reforms."

In any case, anyone who wants to know the names of these 222 influential people who helped to mold much of this year's legislation can get a list by writing the Registrations Section, Michigan Department of State, Room 8, The Capitol, Lansing.

## IN MEMORIAM

In Loving Memory of our dear father and grandfather, Peter J. Young, who passed away two years ago, August 19, 1957. Sadly missed by his children and grandchildren.

## CARD OF THANKS

I wish by this means to express my thanks for the kindnesses extended to my wife, Bertha, and the cards and flowers sent to her during the months she was at the hospital and for the sympathy expressed in many thoughtful ways following her death. Special thanks to the Rev. Arthur Wacker, William Haas.

The first settlement in the state of Georgia was made at Savannah in the year 1733.

Walt Disney's

"Darby O'Gill and the Little People"

TECHNICOLOR

Carol Lynley lost nine pounds during the shooting of "Blue Denim." She and Brandon De Wilde, at 17, are the youngest steady dating pair in show business.

More haste, more cost. Alfred Hitchcock hoped to speed up filming with Cary Grant in "North by Northwest" as hired two crews, to prepare the next scene while shooting the first.

It didn't work, and, in addition to the money paid for the second crew, Hitch had to pay Cary \$5,000 a day for a month beyond his guarantee for the picture.

It's hard to believe that Lana Turner hit 40 on her latest birthday.

If you ever wonder what happened to the Mercedes Benz that Kim Novak received from the junior General Trujillo, she said it.

Shelley Winters is aglow over a diamond necklace Tony Franciosa gave her for their second wedding anniversary.

DARBY O'GILL AND THE LITTLE PEOPLE

Walt Disney has gone whimsical, quaint and Irish in his latest offering to delight the hearts of young and old alike.

This film abounds in brogues and leprechauns (for the uninitiated—little men with magical powers who are only 21 inches tall and are traditionally seen only by the Irish).

The plot, set in picturesque Irish countryside, around the turn of the century, centers on Darby O'Gill, a sly, but nevertheless lovable, old chap who spends a great deal of his time in the local pub talking to all who will listen about the leprechauns he has seen.

A merry, whimsical mix-up follows, including Darby and the King of the Leprechauns, Darby's beautiful daughter, and her intended—a strapping young local fellow, who has been hired to replace Darby as caretaker on an estate. However, all ends happily

ever after—as things should do in Fantasyland.

Albert Sharpe gives a spirited performance as Darby, Janet Munro, an English lass, is attractive and sweet as the daughter; and Sean Connery is a broth of a boy, as her intended.

### Thin Coat of Wax Best Protection For Most Furniture

Wax gives a fine protective finish to most wood furniture. Jessie Marion, home furnishings specialist at Michigan State University, says there is a knack to applying a good coat of paste wax.

She suggests using cheesecloth. Place a small amount of paste wax on several layers of cheesecloth and gather the corners together so the wax is enclosed.

Apply a thin, even film of wax to the furniture. First use a circular motion then follow the grain of the wood. Friction causes the wax to melt and come through the cloth. A thin film of wax is all you need. A thick layer of wax or blotches here and there are difficult to polish.

Allow the wax to stand, according to directions. Then polish with a woolen cloth until a hard film is formed.

You may test the job by rubbing your finger over the surface. If you can trace a path in the wax, rub some more. There should be no soft wax on the surface when the job is done.

A small electric buffer is excellent for polishing wax. This gives a much harder finish than you can get by hand rubbing.

Although most furniture is enhanced by a coat of wax, Miss Marion adds that some manufacturers do not recommend the use of wax on their furniture finishes. Check when you buy to be sure.

### Miller Clan Reunion Held at Mecosta County Camp

The 30th annual Miller Clan reunion was held at the Youth Camp Community building, School Section Lake, Mecosta county, last week-end. It had been voted at last year's reunion to rent the entire camp for the week-end for the convenience of relatives coming from a distance. A total of 43 arrived Saturday evening to spend the week-end.

Attending from Chelsea were Mr. and Mrs. Laurence Boyer and children, Mr. and Mrs. John Chaplin and children, Mr. and Mrs. Mac Packard and four of their children, Mr. and Mrs. Winston Boyer and son, and Fremont Boyer.

Present for Sunday's potluck dinner were 115 relatives including Mr. and Mrs. Duane Boyer and children and Mr. and Mrs. Gary Packard of Chelsea, and Mr. and Mrs. Jack Simpson of Ann Arbor.

The Simpsons were designated as having come the longest distance to attend; Mrs. Edith Mead of Mulliken was the oldest person present; and Wanda Boyer of Chelsea was the youngest.

Hosts for the reunion were Mr. and Mrs. John Adams and sons, John C. and Eddie, of Mecosta, formerly of Chelsea.

Sunday's program included musical selections and songs by Eddie Adams who has made two recordings and has a third recording which is to be released in September.

Fremont Boyer was elected president; Millard Root, vice-president; and Fannie Adams, secretary-treasurer.

"Even when you sit on it, Beautyrest 'takes it'!"  
—says Don Herold

MATTRESSES get sat on as well as slept on. A lot of people (like me) like to use the edge of their mattress as a chair.

If I owned an ordinary mattress, you can bet those edges would have broken down long ago. And that's no small point. When the edges of a mattress sag, you can lose a lot of sleep over it. However, my mattress is a Beautyrest, with patented sag-proof edges that stay firm as long as the mattress lasts (a date I personally figure to be somewhere in the 1970's)

### RECORD STUDENT

Athens, Ohio—Imagine going through ten years of schooling with a straight "A" average all the way!

That's the enviable record of Mrs. Patricia Donahay Cooksey, who graduated recently from Ohio University.

Mrs. Cooksey, who married last September, never knew what it was to get a "C" on her report card in two years of junior high school, four years of high school and four years of college.

Goodwill truck of Jackson will be in Chelsea, Monday, Aug. 24, for pick-up of useable discards. Phone Wesley Morrison, GR 9-1952.

### EDUCATION PAYS

Brantford, Ont.—Daniel Buhl, 31, whose hobbies are mathematics and sports car driving, won a dismissal on a charge of speeding.

Buhl told the court a radar unit will clock a short car at a greater speed than it is actually traveling. Such a unit had clocked his 18-foot sports car at 38 miles an hour, but the difference in length between his vehicle and a normal 18-foot model would result in a deviation of 5.92 m.p.h., he testified. That would mean he was going within the speed limit. Buhl produced figures worked up with a slide rule to prove his point. The case was dismissed.

### PIN MONEY

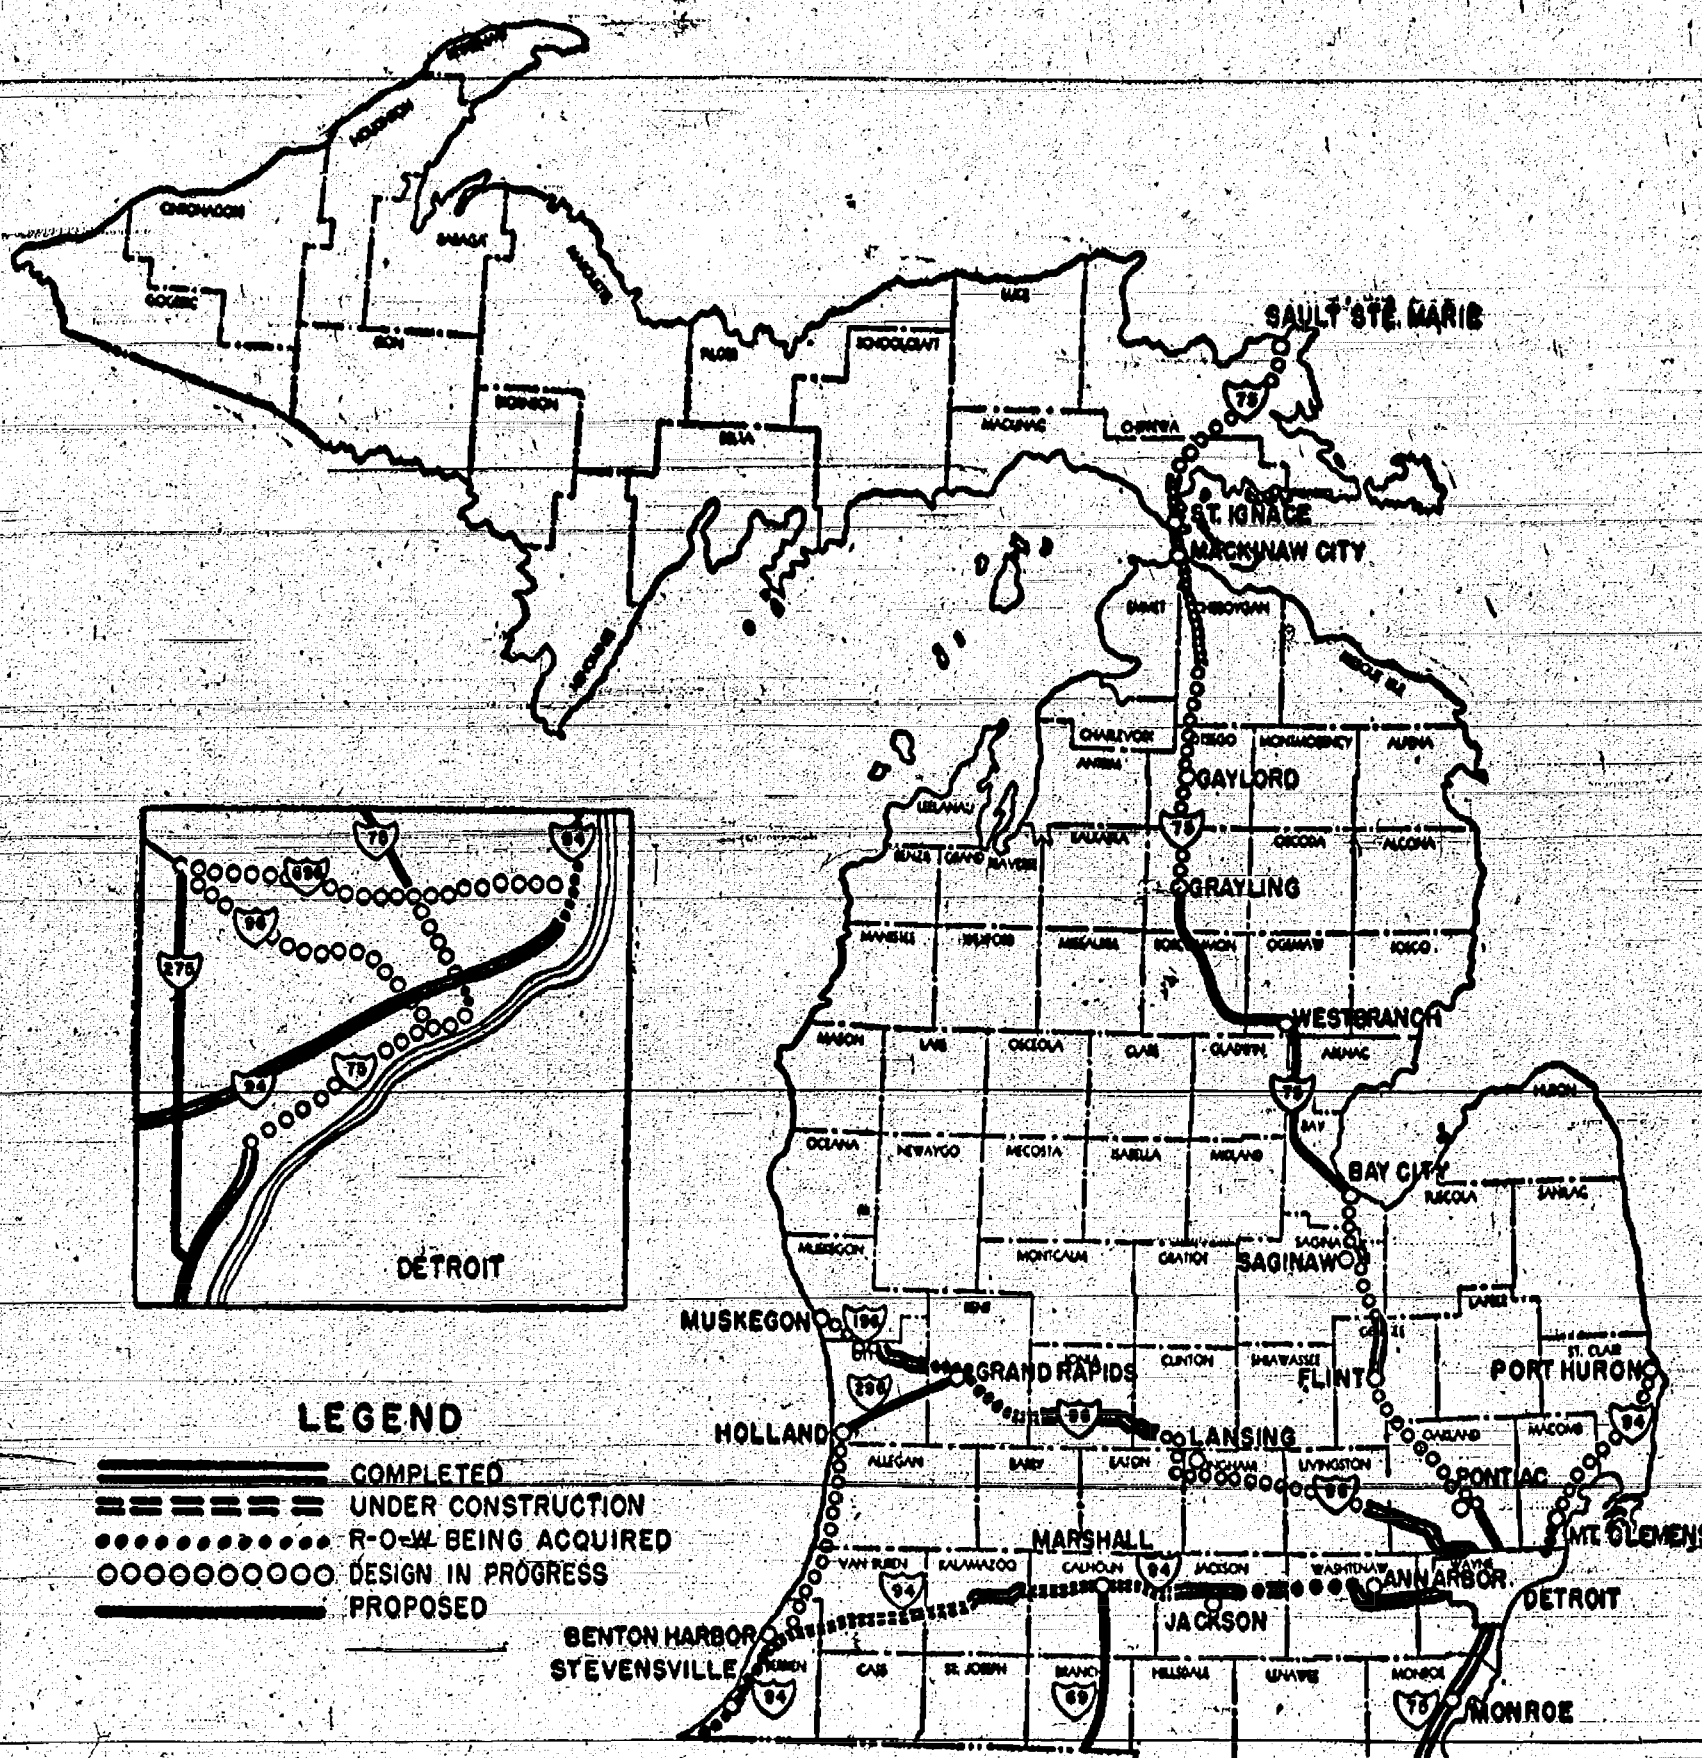

Edinburg, Texas—"There is no legacy like honesty," said a sign on the bulletin board of Pan American College, and under it were tacked dollar bills. A student needing a small loan could take a bill or two, with the understanding it would be repaid as soon as possible.

It all worked fine, officials said, until four non-student juveniles dropped in. They cleaned off the board—\$27 worth—with no plans for repayment.

Juvenile officers picked up the quartet and turned them over to their parents. Police didn't say how much money was recovered.

### Wool Referendum

(Continued from page one)

If approved in the September referendum, producers having two-thirds of the volume of production represented in the referendum must approve if the agreement is to be extended.

Deductions from wool and lamb payments under the new agreement would not exceed 1 cent per pound for shorn wool and 5 cents per hundredweight for unshorn lambs. Deductions at these rates have been made from payments for each marketing year since 1955.

Producers may vote throughout September. The entire month has been designated as the voting

period to encourage as large a turnout as possible. Any producer who believes he is eligible to vote and does not receive a ballot by the above date should get in touch with the county ASC office. To be counted, ballots must be received by the county ASC office not later than Sept. 30. Chairman Max M. Kalmbach urges producers to mark and return their ballots as soon as they are received.

## Expressway Contract To Be Let

Lansing—A continuous 134-mile stretch of the Detroit-Chicago expressway will be completed or under contract following the letting Sept. 2 of the final 4.8-mile gap in the route in Jackson county. Highway Commissioner John C. Mackie said today.

This final job has a Sept. 30, 1960 completion date.

With this 4.8-mile section under contract, the new expressway (future Interstate route 94) will be either completed or under construction from the Jackson-Washtenaw county line 134 miles west to Stevensville in Berrien county.

Another 44 miles of the expressway, from Detroit to Ann Arbor, is already in use which will make a total of 178 miles of the 220-mile-long Michigan expressway that will be completed or under construction—79 miles now open to traffic and 99 miles that will be under construction.

The only remaining sections of this expressway will be an 18.5-mile stretch from Ann Arbor west to the Jackson-Washtenaw county line, in Washtenaw county, and a 23-mile stretch from Stevensville in Berrien county south to the Indiana state line. Both of these sections are expected to be under contract yet this year.

## 1960 Conservation Reserve Signing To Start Aug. 24

Farmers who wish to put cropland in the Soil Bank's 1960 Conservation Reserve must ask the county ASC committee to set a basic annual rate per acre for the offered land. Max M. Kalmbach, chairman, Washtenaw County Agricultural Stabilization and Conservation Committee, said today.

The period for filing such requests is from Aug. 24 through Sept. 10. No such request will be accepted after Sept. 10.

In setting the basic annual per-acre rate for land offered, the county committee will take into consideration the productivity of the land and the rate will be limited to the local fair rental value of the land based on the crops harvested from it during the past five years. When all the eligible cropland on the farm is offered for the Conservation Reserve, the rate will generally be set 10 percent higher than the rate for only part of the eligible land.

After the basic rate has been determined, the farmer may apply for a contract at any figure below the basic rate established for the land offered in the request for rates. If necessary, a priority system will be used to determine which offers are accepted.

Contracts under the Conservation Reserve may run for as long as 10 years. During the time of
