

State Park Users Will Need Sticker Permit After Jan. 1

Lansing—Park users will need annual \$2.00 or daily 50-cent stickers on windshields of their vehicles to enter 54 of Michigan's 61 administered units beginning Jan. 1, 1962.

This was the decision of the Conservation Commission during

its meeting last week at the Higgins Lake conservation school. Benzie, D. H. Day, Port Crescent, Fayette, Muskegon, Lake, Bald Mountain, and Fort Custer parks are the seven which will not be included under the sticker requirement next year. These parks may be added later when they are more adequately developed.

According to present plans, annual stickers will be available through hunting and fishing license dealers, several other sources.

AMENDMENT WEIGHED
Voters in thirteen states will be deciding simultaneously in November on whether to adopt almost identical state constitutional amendments.

The aim of the amendment—and the reason why the movement is so widespread—is to grant emergency authority for filling state and local offices and otherwise insuring the continuity of governmental operations. In the background lies the threat of national emergency, such as a nuclear attack that might kill or disable large numbers of officials.

The Way the Ball Bounces

With Tom Johnston

Michigan looked very good to this reporter against Oregon this past Saturday as the Wolverines opened their second season against the "Ducks" and their second season under head coach Bump Elliott. This week, we are inclined to have high hopes of a Michigan win up at East Lansing.

On the prep scene, Chelsea looked quite improved last Friday night when they played University High. The Bulldogs had to come back after that interception made the scope 6-0 in the game's opening minutes, but come back they did, to claim a much needed conference win. Ed Lauson looked much improved in both his direction of the team, and in his passing, while the general caliber of play was better.

Our thanks again to Supt. Cameron and other school officials for helping us out with a broadcast stand.

Many of you might have noted a hurrying figure racing for that ladder to his stand just prior to game time last Friday. To tell the truth, it was "old T." who had a rough time with a heavy schedule which included meeting plane that was late, and a hostess on that flight.

Then to top it off, we had engineering problems on tape speed the next morning when we played the tape. Heck, no one's perfect, but I'm sure that this week plans will all go off on schedule. You know, watching 22 players, the field stripes and the sticks is much more fun than just watching the game.

But the game is over, and Chelsea won to take the post of conference favorite for another week. This week, we'll be broadcasting the Dexter-U. High game, which should tell a lot about both clubs, and could be a whole of a ball game. Al Ritt and company have been doing a great job for the Dreadnaught followers this fall, and the U. High contest with little doubt will be the biggest test of the unbeaten Dexter eleven.

Ron McNally made a winning debut as Manchester's head mentor when the Dutchemen defeated Pinckney in their season's opener, and Manchester is always a team to watch in any year.

Notes from here and there—
I think that Chelsea's football programs this fall are about as nice as I've seen for any of the area schools in several years.

Was Bump Elliott ever in a good mood Monday afternoon, I guess that the staff all deserved a momentary break and pat on the back for the Oregon game.

The Lions still seem to me to lack the best Public Relations in the world. Some think that Buddy Parker and Bobbie Layne were Detroit's biggest losses. I think that the biggest loss was when Nick Kerbyway went to the Pistons.

Have you heard my newest show with Wally Weber the "Wizard of the Words" following all Michigan football games? Do tune in, it's fun.

Michigan Sports in Brief—
East Lansing—LeRoy Loudermilk considered the No. 2 quarterback

on the Michigan State football team—will be off the team if he failed to report for practice Tuesday. The junior from Wilkesburg, Pa., didn't show up for practice Monday, and the Spartan team rule is that a player is off the squad if he misses two practices without an excuse. There have been unconfirmed reports that Loudermilk withdrew from school Monday. Spartan Coach Duffy Daugherty says the former All-American pick may be disappointed that he didn't play in Michigan State's season opener Saturday.

Both Michigan State and Michigan are tooling up for the opening of their Big Ten campaigns. They will renew their arch-rivalry Saturday when they clash at East Lansing. Michigan State is higher rated nationally, but Michigan is expected to go into the game on an about-even footing on the strength of the Wolverine's impressive, 21-0 win over Oregon Saturday. The Spartans had to settle for a 7-7 tie with Pitt Saturday.

Detroit—In a long-shot gamble to add speed to their offense, the Detroit Lions are giving Olympic gold medal winner Glenn Davis a shot at professional football. Davis, just recently returned from Rome, where he won his second gold medal in the 400-meter hurdles. He also won the event in the 1956 games. Davis was a track star at Ohio State, but didn't play one second of football.

Howard "Hopalong" Cassidy—the ex-Ohio State All-American who now handles a starting half-back assignment for the Lions—recommended that the club give Davis a tryout. Lion President Edwin Anderson talked with Davis Monday and granted the track star a tryout. Said Anderson: "He will receive a fair opportunity with us."

The University of Michigan School of Music presented 193 concert programs last year.

TO CONGRESS
President Eisenhower has de-
clined to resume Congress
in session as long as re-
solved to pass the twenty-one
of unfinished business set
in his legislative agenda of
May.

The President expressed his de-
mand in a special message to the
Senate and House of Representa-

action on items indicated by "an
intensification of Communist truce-
lence," particularly in Central
Africa and Cuba.

Huck Saves the Day

Saturday's always "together"
day for Huck Roberts and his
missus. Five days a week
Huck's selling on the road, so
they like to spend Saturday
afternoon by themselves.
Most of Huck's friends know
this and stay away unless in-
vited. All except one couple.
Then Huck found a polite way
to send them home.
Soon as Huck would spot the
couple driving up, he'd put on
his hat and coat—and step out
the front door. Polite as could
be, Huck would say, "Sorry
we can't ask you in, we're just
on our way out!" Then, soon's
the couple drove off, Huck
went right back inside!
From where I sit, neighbor-
liness means a mutual respect
between neighbors—for one's
privacy, feelings and prefer-
ences. This holds for little
things too. For instance, when
a neighbor prefers a glass of
beer or buttermilk, that's his
business. And it's our job to
respect his preference every
day of the week—Saturdays,
Sundays and holidays included.

Local WSCS To Observe 20th Year

Next Wednesday, Oct. 5, the
Women's Society of Christian Serv-
ice of the Chelsea Methodist church
will observe the 20th anniversary
of its organization.

The special observance will in-
clude a luncheon in the church so-
cial center at 1:30 p.m. followed by
an appropriate program.

The Women's Society of Chris-
tian Service of the Methodist
Church was formed in 1940 on a
national and international basis by
the merging of three former wom-
en's church groups: the Ladies'
Aid, Foreign Missionary Society
and Home Mission Society.

The Women's Society of Chris-
tian Service, commonly referred to
as the WSCS of the Chelsea church,
now has 140 members divided into
five circles—Mary Martha, De-
borah and morning, afternoon and
evening groups of Philathea Circle.

Each of the five circles has its
own monthly meeting and all com-
bine for a general WSCS meeting
about six times during the year.

Mrs. J. V. Fisher was the first
president of the Chelsea WSCS.
The president this year is Mrs.
Loring Bates.

The WSCS of the Chelsea church
is a part of the Ann Arbor District
which is affiliated with the De-
troit Conference of the North Cen-
tral Jurisdiction Woman's Division
of Christian Service of the Board
of Missions of the Methodist
Church. The WSCS is also a mem-
ber of the World Federation of
Methodist Women.

During the 1958-59 church year
total WSCS membership in the
United States reached a total of
1,800,262 women.

Each year the WSCS stresses
thorough exploration of topics de-
signed as the year's study pro-
gram in one of its three depart-
ments. This year's topic for the
Society's department of Christian
Social Relations is "Alcoholism."

The remaining two departments
of the WSCS are Foreign and
Home Missions department and
Spiritual Life department.

WSCS groups in all Methodist
churches will observe the 20th
anniversary in various ways.

J. V. Burgs Visit Nine Countries on European Trip

Mr. and Mrs. J. Vincent Burg, I,
have returned from a European
trip the past week after visiting
several countries including Portu-
gal, Spain, France, Italy, Monaco,
Germany, England, Austria and
Ireland.

One of the highlights of their
trip, they said, was seeing the Pas-
sion Play at Oberammergau, Ger-
many, which is staged by the local
people every 10 years. For more
than 300 years the people of Ober-
ammergau have loyally and sin-
cerely observed the vow sworn by
their forefathers in the war and
plague-stricken days of 1633.

What was originally an artless
folk drama has gradually been
transformed by gifted poets and
directors into a presentation of
dramatic art on a high level. The
cast numbers 1,200 and includes
men, women, children, choir mem-
bers and orchestra.

The play starts at eight in the
morning and continues until five
in the afternoon with an intermis-
sion of two hours at noon. The
Burgs said the performance is
given only three times a week so as
to give the cast a rest period.
Seating capacity is 6,000 and every
seat is occupied at each perform-
ance.

In visiting some parts of Spain
and Portugal the Burgs took par-
ticular notice of the soil conditions
which they found to be very poor.
Hills, rocks and mountains covered
large areas. In small areas, olive
trees and fig trees managed to
exist. In some parts of Ireland
the land was wet bog. Fuel for
heating and cooking is dug from
these bogs, cut in chunks and left
to dry before using.

"In summing it all up," the
Burgs stated, "we are thankful to
be living in the greatest country
in the world. Let's appreciate it
and keep it."

HEEDS PRESIDENT

The Senate Appropriations Com-
mittee has recommended that
\$100,000,000 in additional foreign
aid funds be included in a special
appropriations measure.

That amount, with \$75,000,000
more, was part of the regular
foreign aid bill recently by a Sen-
ate-House conference committee.

President Eisenhower, however,
made a strong plea for restoration
of the funds, saying the reduc-

WORLD FOOD-AID

The sale of vitamin preparations
containing more than 0.4 milli-
gram of folic acid in a daily dose
has been restricted to a prescrip-
tion-only basis.

The Food and Drug Administra-
tion, announcing the order, said
existing stocks should be relabeled
promptly to show they can be
obtained only upon prescription. It
added that a reasonable time
would be allowed before taking
court action to enforce the ruling.

U. S. OPTIMISTIC

Top United States officials are
optimistic about prospects for miti-
gating the effects of the economic
breach in Europe.
They believe the new Atlantic
wide economic organization will be
the way to unite the rival Euro-
pean trade blocs in four or five
years.

France, West Germany, Italy,
Belgium, The Netherlands and
Luxembourg have formed a high-
ly integrated Common Market,
within which trade barriers are
being progressively reduced. Brit-
ain, Denmark, Norway, Sweden,
Austria, Switzerland and Portugal,
defending their interests, are the
European Free Trade Association.

Announcing the 1961 Ford...
Beautifully proportioned to the
**CLASSIC
FORD
LOOK**

The 1961 Ford Galaxie...
Club Victoria—beautifully
built to take care of people

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can
do for you... and for itself!
It lubricates itself. New nylon bearings and a newly developed
lubricant keep the '61 Ford freshly greased for 30,000 miles. Good-
bye grease racks! What's more, it cleans its own oil. The 1961 Ford's
Full-Flow oil filter lets you go 4,000 miles between oil changes.
It adjusts its own brakes. A "mechanical brain" keeps brakes
adjusted for the life of the lining.
Rust? Ford's body is specially processed to resist corrosion, even
to galvanizing body panels beneath doors.
Ford takes care of itself on the turnpike, too, with a new 390-
cu. in. Thunderbird Special V-8 that has all the punch you'll ever
need. The 352 Thunderbird Special V-8 and 292 Thunderbird V-8
thrive on regular gas. And, for top economy, you can choose the
'61 Mileage Maker Six.
This is the 1961 Ford... beautifully proportioned to the Classic
Ford Look... beautifully built to take care of itself.

CUB SCOUT NEWS
 Cub Scout Pack 125 of Chelsea kicked off a new season this month with many activities. The Cub Scout theme for September is "Cub Scout Citizens." As in the past, the Junior Chamber of Commerce will be the sponsoring organization.
 Sept. 6 at 7:30 p.m. a meeting was held at South school for all den mothers and committeemen. A new committee was formed and voted on by those present. Literature and materials were handed out to all those present who needed them.
 Sept. 22 at 7 p.m. at South school a pack meeting was opened with a flag ceremony by Mrs. Worden's Webelos den. A prayer was led by Mrs. Weatherwax's den. The Rev. Paul Schnake led group singing. All pack meetings each Cub Scout is required to bring at least one or both parents. A parent will be awarded to the den with the most parents present. It should be brought back to be awarded again for the next month.
 Two dens were at a tie, Mrs. Gladys Park's Den 6 and Mrs. Mary Tibb's Den 4. Mrs. Parks declined by saying her den was mostly a new den, so Mrs. Tibb's den took home the pennant. Mrs. Worden swore in her new Webelos den. A Boy Scout handbook was presented to each boy by Jeff Spaulding a Boy Scout who will help them with their tenderfoot requirements. The word Webelos means, "We'll Be Loyal Scouts." A number of awards were given to the Cub Scouts for their work completed this summer.
 Ralph A. Frisch, Sr. gave a report on the Oregon University of Michigan game Saturday Set. 24. He said "a thousand Cub Scouts would be present at this game." All Cub Scouts were to get in free along with some adults.
 John D. Potts, chairman of the committee, announced that nine boys were without a den mother and wished some one would come forward to help.
 Closing song was presented by the Rev. Paul Schnake at 8:30 p.m.
 Sept. 24 at 11:00 a.m. at the Fire Hall 62 Cub Scouts and 13 parents organized to go to the football game at Ann Arbor. Before leaving a group picture was taken. By 12:30 all the Cub Scouts were inside the gate and sat down to eat a snack lunch they had brought. By game time which was 1:30 p.m. the boys were settled in their seats. All the boys and their parents enjoyed a wonderful game which the University of Michigan won by a score of 21 to 0. Most of the Cub Scouts were happy to go home!
 Oct. 4 at 7:30 p.m. at South School a committee meeting with den mothers will be held. Everyone is asked to be on time; it will close at 8:30 sharp.

ATOMIC TESTING
 The platforms approved by the Republican and Democratic parties seem to have defused atomic testing as a lively political issue, in contrast to the 1956 Presidential campaign.
 In effect, both parties have come out for the same objective—an atomic test ban—with adequate safeguards.
 If this bipartisan unity on an atomic test cessation persists through the campaign, it could be of considerable significance and assistance to the Administration in confronting crucial decisions that lie ahead on the test issue.

Annual Ram Day Set Monday, Oct. 3 At MSU Pavilion

Many sheep raisers have found Ram Day to be a good place to buy a ram. This event will again be held at the Michigan State University Livestock Pavilion. The date is Monday, Oct. 3 beginning at 10 a.m. At this time, leading purebred breeders in the state bring in their rams and place them in pens. Each ram will carry a tag giving its age, weight, and price. Buyers may select any ram they wish at the price indicated. Approximately 200 rams will be on display at this ram "supermarket."

All rams will be inspected before unloading and will have been dipped since June 1. All rams bought at Ram Day will be insured for 75 per cent of the purchase price for 10 days immediately following the sale by the Michigan Sheep Breeders' Association, sponsors of the event.

Don't pass up this opportunity to buy a good ram this year.

Farm Loan Co-Op Annual Meeting To Be in Dexter

At a meeting held recently, the Board of Directors of the Federal Land Bank Association of Ann Arbor declared a 3 per cent dividend to all members of record as of May 31, 1960.

Manager Robert Hall stated that the Association had a most successful year and that Washtenaw, Wayne and Livingston county farmer borrowers would soon be receiving their dividend checks.

The Board of Directors of the Association also set the date for the annual stockholders' meeting which will be held Thursday evening, Sept. 29 at the Dexter High school in Dexter.

Hall also pointed out that the Federal Land Bank Association of Ann Arbor extended long term credit last year to 164 farmers or suburban home owners for \$1,805,100 in Federal Land Bank real estate loans. As of June 30, 1960, there was a total of 706 farmers in Livingston, Washtenaw, and Wayne counties using the services of this co-operative with outstanding loans totaling \$6,559,556.

The University of Michigan Extension Service Lecture Bureau last year averaged more than 450 programs for an estimated total audience of 49,000 people in more than 100 Michigan communities.

UNIVERSITY OF MICHIGAN BANDSMEN—These area residents are members of the University of Michigan Marching Band which will appear at all Wolverine home football games and make two away-from-home trips this fall. Shown with Assistant Prof. George R. Cavender (far right), assistant band director, are (left to right) Byron Pearson, 13940 Old US 12, Chelsea; John Rose, 9601 Fulton Dr., Whitmore Lake; George N. Heller, 3999 Huron River Dr., Dexter. The 170-member band will travel to East Lansing, Oct. 1, and to Madison, Wis. on Oct. 29. The Wisconsin trip will be made by the band as the guest of the Chevrolet Division of the General Motors Corp. Each bandman spends at least eight hours a week rehearsing for each appearance.

MYSTERY FARM NO. 117—This is a photo No. 117 in the Sept. 22 issue of The Standard. The farm is owned by Heller's father, Leroy Heller, of Waters Rd. which appeared as "Mystery Farm" in the Sept. 22 issue.

Robert Hellers Make Many Improvements in Their Guenther Road Farm Home

A date "1869" appears on a stone of the home at 1810 Guenther Rd., now occupied by Mr. Robert Heller; however, the present modern style home is only about 48 years old. It replaced the former home which was destroyed by the 1917 fire which struck this area.

At the center of the photo, Heller also added a 40-foot extension to the tool shed and added a wide driveway the length of the shed. He has also cemented much of the yard between the tool shed and the newly-constructed silo.

Loose lumber in the foreground of the photo had been hauled there from the old freight house at the New York Central tracks, west of Main St., which was torn down more than a year ago. Some of the lumber was used in building the extension on the tool shed.

Heller's plans call for further improvement of the farm property as he and his father find time for it. They are both busy operating the 160-acre farm shown in the photo, the 180-acre Leroy Heller farm on Waters Rd., and part of the neighboring Sutton farm.

Leroy Heller bought the Guenther Rd. farm six years ago but he and his son had worked it for some time before that.

The younger Heller has Holstein dairy cows, raises chickens, and keeps 10 Cheviot ewes. His interest in sheep dates back to his days as a 4-H club member. He and his father are still active in 4-H club work as some of the adult leaders of the Rogers Corners Herdsmen 4-H club.

Mr. and Mrs. Robert Heller have lived on the Guenther Rd. farm since July, 1959. Mrs. Heller is the former Elsie Knoedler of Saline. She is employed in the Co-operative Extension office at Ann Arbor.

The Hellers are members of the Freedom Farm, Bureau and Zion Lutheran church at Rogers Corners. Robert also serves on the board of directors of the Chelsea Steer club.

Ownership records of the Heller farm date back to Aug. 1, 1833, when Pardon Keyes secured portions of the farm from the U. S. Government.

In addition to Keyes, those who have owned the property through the years include Joseph Sanderson, Consider and Samuel Cushman, 1842; Jacob Taylor, 1844; Elijah Keyes, 1846; Curran and Jane White, 1851; Catharine Saunders, 1859; Betsie Keyes, 1884; Bertha Stevens, 1906; Chauncey Stephens, 1911; Mildred and John Weimeler, 1942; Oscar and Cora Mahlke, 1943; and Leroy Heller, 1954.

Among the first to call in the correct identification of the Heller farm were the men at Blaess Elevator Co., Mrs. Robert Wirtz, Mrs. Arthur Kuhl, Robert Heller, Charles Curtis, Mrs. William Stark, Mrs. Ernest Horning and Helen Rothfuss.

Grapevine Reports Many Compacts Are Clinging to Basic Style Pattern

The word has it that some of the new compact cars have been changed only very little as far as styling is concerned. If this turns out to be a trend in the new compact field, we will welcome it. However, we are afraid that manufacturers will be unable to resist the temptation to add doodads, and new-fangled lines, every 12 months, to create new sales.

The cost of the compacts could undoubtedly be held down if manufacturers would cling to the same general style over a period of several years. This is the successful formula of Volkswagen, which has sold more small cars in the United States than any other make.

This is also the policy with other cars in Europe, not all of them compacts. The Rolls-Royce, a classic and fine automobile manufactured for many years in Great Britain, changes only imperceptibly each year, and only Rolls owners could probably tell the difference in models over a period of several years. This allows the family to make an investment in a fine car, knowing that it will not be obsolete or outmoded in the style category in two or three years. Good cars are consequently often driven for 15 or 20 years in England.

Already the compact cars success in the United States has surprised many in the automobile trade. If the compact can be bought and kept for several years without becoming obsolete this will be still another advantage they will have and should increase their sales even more. We think millions of Americans would welcome this trend.

Enter Fall, the Most Pleasant Season

We usher in Fall this year with most of our attention fixed on politics, international crises, and economic considerations.

But Fall is a time to reminisce, a time to enjoy nature and the outdoors, and a time of beauty in the fields and woods around us. Perhaps the most pleasant weather of the year occurs in the Fall, when cool, crisp days come alive with the color of foliage in all the possible brilliant hues.

Fall this year extends from Sept. 22 until four days before Christmas, on Dec. 21.

In our Fall days the night will be longer than the days, a process which always begins at the autumnal equinox, and on Dec. 21, the shortest day of the year will be experienced.

One reason why Fall is pleasant is because the earth has stored up so much heat during the summer and releases it only gradually. Therefore, the nights are not quite as cold in early Fall as they are in early Spring. The nights seem to retain some of the warmth of summer, while the days are not too hot, bringing in the first cool breezes of Fall, whereas in the early Spring the days become hot, but the nights are often uncomfortably cool.

Fall brings with it, then, a climax of nature, the climax of sports in the United States, and the wonderful outdoor opportunity you should not miss—for the outdoors will not beckon so pleasantly for most of us until next Spring.

Man never recognizes a dictator in advance. To the average fellow before the wedding she seems no more than a sweet girl.

It's a sad commentary on our educational system that a lot of students never learn to read anything except their football letters.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

I see by the papers where some of them Congressmen claims we're wasting millions of dollars trying to get the Voice of America sent to them countries behind the Iron Curtain. Things has come a long way in this world since I was a boy and I reckon I ain't fitten to judge exactly what the Voice of America is today. When I was a boy I used to get up at daylight and listen to that old rooster crowing down at the barn and I reckon that's the nearest thing I ever heard to the true Voice of America. But it would be pretty hard to get that story told on radio, and them fellers in striped pants in the State Department wouldn't understand it nohow.

I ain't saying that things was better when I was a boy. For instance, they're making these compact cars so small and riding lawn mowers so fancy that I can hardly tell which is which. But both of them is better'n that old T-Model Ford I used to crank on a cold morning. I'd wrap a rag around the carburetor and pour a gallon of boiling water on it, and if it was a real cold morning I'd have to jack up a rear wheel so it would turn when you cranked. The grease in the transmission was so cold and stiff a feller just couldn't turn the motor over with both wheels on the ground. It usually took two to get the thing started. One set in the car holding the clutch in neutral and pushing the spark down right quick when the motor started. If you kept the spark down while cranking, you might get a broke arm. It general took 30 minutes to get her going. Just one thing though, Mister Edi-

tor, Gasoline was eight cent a gallon and no tax. The experts is even saying that the way we was raised up in them days was all wrong. A professor named Dale B. Harris of Penn State University come out the other day and said that doing chores around the house didn't build a child's character. In fact, he said, it might be bad for the child. I reckon Mister Editor, that's what ruined me, having too many chores to do when I was a boy. I'd probably turned out alright if I'd had me a Super Eight and spent my time drag racing. I saw a bank ad in the paper the other day asking people if they knowed where their money went. About 99 percent of mine goes for taxes and living expenses. I spend the other one percent in riotous living and got no regrets. I'm like this feller Tommy Manville. He said he's spent a million dollars getting rid of 12 wives and had no regrets on account of about six of 'em being worth a million to get rid of.

Yours truly,
Uncle Lew.

MICHIGAN MIRROR

By Elmer E. White, Secretary, Michigan Press Association

People who take money from Michigan citizens on false pretenses are under attack.

Attorney General Paul L. Adams and his staff have put into operation a program to warn consumers about the schemes and gimmicks that unscrupulous salesmen use to bilk the public.

The theory behind the program is that if people know what to look out for, they won't be susceptible to fraud or misrepresentation.

"It has become apparent that the rapid expansion of consumer frauds and unfair trade practices is a recognized state-wide and national phenomenon of concern to all of us," Adams said.

He has recruited representatives of reputable business and trade associations, lawyers, legislators, state and federal officials, educators, civic leaders and members of the press, radio and television outlets to work in the fight against fraud.

Worthwhile results of the program have already started to show up, Adams said.

"As a part of our consumer's protection program, we have been distributing bi-weekly articles to all newspapers, radio stations and TV stations, alerting the public to various schemes and gimmicks designed to bilk the consumer," he said.

"The fine co-operation of these new agencies has been paying off," Adams said.

"We are beginning to hear from consumers who read or heard of these warnings in time to save them from falling for some fraud."

It is through such co-operation between public agencies and the press, radio and TV that we can continue this fight to protect the consumer's dollars," he said.

A chief target of the attorney general's campaign has been the door-to-door salesman.

Householders are constantly in danger from persons who arrive selling anything from over-priced merchandise to complete home repair service which is either not provided or shoddy.

The scope of the battle will eventually extend to shady operators in all fields.

The Michigan State Chamber of Commerce has picked seven major challenges facing Michigan businessmen as problems to overcome in reaching the state's economic potential and rebuilding its national image.

Echoing politicians of both parties, the Chamber put creation of new job opportunities first on the list.

"Michigan has the manpower, the materials, the mental capacity, the management experience and the opportunity," said Harry R. Hall, executive vice-president of the newly formed body.

"With the proper leadership, untold co-operation and some good old-fashioned hard work, Michigan's economic expansion is limited only by the effort we are willing to exert," he said.

Other challenges listed by the state chamber:

Legislation to help bring employers to Michigan. An overhaul in the state's tax structure. Expanded personal political participation by businessmen. Better communications to help businessmen understand the economics of doing business. Revitalizing and restyling the image of Michigan, and a united voice of businessmen to fight all the other challenges.

"Our job is to promote, publicize and sell Michigan's magnificently good qualities to the rest of the nation, and in some cases to the people of Michigan," Hall said.

Michigan missilemen take a back seat to nobody when it comes to accuracy.

The Michigan National Guard said recently two Nike-Ajax missile batteries—both from the Detroit area—each scored two hits in two tries at a recent training exercise in Fort Bliss, Tex.

The four successful firings were all at ranges of more than 15 miles.

"Both batteries gave an outstanding performance while on the firing range," said Maj. Gen. Ronald D. McDonald, the Adjutant General of Michigan.

Batteries B and C of the First Missile Battalion (Nike-Ajax, 177th Artillery, were the deadeye shooters.

"With a score of 90 as superior, Battery B was rated as 92.4 and Battery C was rated as 90.8. The Battalion was given an Outstanding Proficiency Award by the Fort Bliss Missile authorities," McDonald said.

If your neighbors have neglected to qualify, this writer urges you to get them to the clerk's office by car, buggy, bicycle or piggy-back. Get them out, even though they may be of a different political faith.

Another disarming example of the way our elections are changing Michigan's philosophy occurred last week when the Board of Governors of Wayne State University opened the school for lectures by Communists from Russia and by Communist sympathizers.

When Wayne University was being overrun by Communist propagandists 10 years ago, the then President, Dr. David D. Henry, barred all Soviet lecturers from the classrooms. The City of Detroit, which then owned the university, backed Dr. Henry unanimously.

Wayne U. finally was taken over by the state. It's first Board of Governors was elected by the people last year.

Five of the board members are

Ann Arbor—200 high school bands are scheduled to take part in the 12th Annual Band Day at the University of Michigan on Saturday, Oct. 8.

Qualified Electors Should Register Now

At 8 a.m. next Saturday, 12 city-owned busses will start a 10-day tour through the streets of Detroit to register citizens who are now qualified to vote in the November election. When the busses park in congested areas where Democrats outnumber Republicans by as much as 10 to one, UAW workers will be trumpeting through the neighborhoods, routing the lazy and the neglectful from their homes.

This display of political enterprise, organized under the banner of good citizenship, could produce as many as 50,000 Democratic ballots.

Yet Republicans, fascinated by the demonstration, seem content to watch and admire—and set up no counter move in most areas where the GOP is still predominant.

Republican State Chairman Lawrence Lindemer and his aides have been trying desperately to start a fire that would get unregistered voters on the rolls of township and municipal clerks. But they cannot do the job alone.

Well, the deadline for registering is Oct. 10.

There is not time now for many undertakings like the Detroit experiment promoted by the UAW.

So Republicans, therefore, must rely in most counties on a warning to the tardy that if they do not register and use their ballots they may destroy the kind of government they demand. Those who gamble about affairs in Lansing should remember that the total of unregistered citizens in Republican counties is many times greater than the number of unregistered Democrats in Detroit.

Your duty is crystal clear if freedom is to be preserved in America.

If you are not registered, rush to the office of your township or city clerk before the deadline, Oct. 10.

Chelsea firemen, assisted by Captain Miles and 25 boys from Cassidy Lake, responded when a straw stack at the Oscar Kalmbach farm caught fire from sparks from the exhaust of a tractor. A cable was thrown around the stack and it was drawn into a field away from the barn, lessening the danger to the barn and other buildings.

Mr. and Mrs. Paul Beal

Loretta Schmitz, Paul Beal Wed Saturday in Double-Ring Ceremony

A double-ring marriage ceremony uniting Loretta Schmitz and Paul Beal was performed at 3 p.m. Saturday at St. Paul's Evangelical and Reformed church with the Rev. Paul M. Schnake officiating in the presence of 200 guests.

Parents of the couple are Mrs. Raymond Schmitz of Ann Arbor, formerly of Chelsea, and the late Raymond Schmitz, and Mr. and Mrs. Stanley Beal of Chelsea.

The bride was given in marriage by her uncle, Willoughby G. Cook of Ann Arbor.

For her wedding she wore a gown of white peau de soie with a sapphire neckline and three-quarter length sleeves. An inset of allon lace extended into a chapel train. Her veil of silk illusion was held in place with a crown-shaped pearl headpiece and she carried an orchid on a white ribbon.

The bride designed and made her own gown with the assistance of an aunt, Mrs. W. G. Cook.

Mrs. Vincent Dault, a sister of the bride, served as matron of honor. Her olive-green gown was fashioned with a lace bodice and nylon organza skirt over taffeta. A hat of leaf petals of matching material and a yellow rose corsage, fastened to a white satin and pearl evening purse completed her ensemble.

Costumes and accessories worn by Nancy Schmitz, another sister of the bride, and Judy Welch for their roles as bridesmaids, matched those of the matron of honor.

Judy Melin of Plymouth, a niece of the bridegroom, served as flower girl and Robert Heydlauff, a cousin of the bride, was the ring bearer. The flower girl, dressed in yellow, carried a basket of yellow and white mums.

Walter Melin of Plymouth, brother-in-law of the bridegroom, assisted as best man, and Fred White of Dexter and Robert Eder were ushers.

The bride's mother wore for the wedding a beige silk dress with brown accessories while the bridegroom's mother wore turquoise brocade and chose moth accessories. Each had a corsage of gardenias.

At the reception which followed in the church hall, Mrs. Julius Eder and Mrs. Delbert Boike poured coffee and tea; Mrs. George Welch served punch; Mrs. Willis Heydlauff served ice cream; and Mrs. W. G. Cook and Janet Beal, cousin of the bridegroom, cut the bride's and bridegroom's cake, respectively. Mrs. Richard Beal was in charge of the guest book.

When the couple left for their wedding trip the bride was wearing an olive-green suit with black patent accessories; her corsage being the orchid she had carried on her bride.

Both the bride and bridegroom are graduates of Chelsea High school. The bride is employed in the physical therapy department at St. Joseph Mercy hospital, Ann Arbor. Mr. Beal recently discharged after two years of military service, is employed with L. A. Davidson contractors.

Farm Housing Loan Regulations Undergo Change

Under a recent change in the eligibility requirements for a farm housing loan, a farmer who owns a farm that will annually produce for sale or home use at least \$400 worth of commodities may, if he meets other eligibility requirements, be able to obtain a farm housing loan.

Previously, according to Carl Robinson, Farmers Home Administration county supervisor for Washtenaw and Wayne counties, an applicant had to own a farm that would produce a substantial amount of the operator's income.

Farm housing loans are made by the Farmers Home Administration and are used to construct and repair needed farm houses and farm service buildings.

Other eligibility requirements for farm housing loans remain unchanged. These requirements are that the applicant lacks the resources needed to obtain credit elsewhere, be a citizen of the United States, and have sufficient income from farm and other sources to pay farm operating and family living expenses and meet payments, when due, on his debts.

Applications for this type of credit may be made at the County Office of the Farmers Home Administration located in Room 17 of the Washtenaw County Building, Ann Arbor.
