QUOTE

The condition upon which God has given liberty to man is eternal vigilance.
—John Philpot Curran

SP Feats Explained to Kiwanians

F. Hoffmeyer, Chelsea High School teacher, spoke to the Kiwanis Club at the Monday evening meeting on psychology. Hoffmeyer was introduced by second president, Steve Wagoner, principal.

Hoffmeyer discussed psychic phenomena including hypnosis, telepathy, mind-reading, the ESP, and other related topics. He also discussed the Kiwanis Club's role in the community.

Hoffmeyer was passed out by Gene Hoffmeyer, his new son-in-law.

School Board Briefs

The Chelsea School Board met Tuesday evening in the board room at the High School. All Board members were present.

Robert Foster called the meeting to order. Superintendent Charles Cameron took the chair for the selection of a president. New officers elected are Dr. Clare Warren, president; Charles Lancaster, secretary; Robert Taylor, treasurer.

Motion was made by Taylor, seconded by Herman Koenig, that the regular board meetings be held on the first Monday of each month and special meetings be held on the third Monday. The next meeting will be July 18.

Recreation Area Camps Packed on 4th

Park officials at the Waterloo Recreation Area Headquarters report an overflow of would-be campers over the week-end.

By last Wednesday evening, camp officials reported turning away 65 camps at the Portage Lake and Sugar Loaf camp sites. By Sunday evening, 358 camps had been turned away—an estimated 1,332 persons.

Some camp sites are now available at both sites, according to park officials.

Campers were expected to be numerous over the Fourth of July, park officials said, but "we didn't expect anything like this!"

In addition to the campers, 1,650 Sunday day-use people were also turned away from Portage Lake due to lack of parking space. Temperatures soaring into the 80's probably contributed to the influx of campers, officials said, although camping sites were reported available in the upper part of the lower peninsula.

HOW OBSERVANT ARE YOU? Waterloo Park Interpreter, Thomas R. Hodgson, explains one of the new exhibits at the Cedar Lake Outdoor Center. The exhibits, which he made during the winter months, stress detective work in discovering the natural wildlife and plants with which the region abounds. This exhibit illustrates different signs which may lead an observer to wild animals or birds, including animal tracks, food remains, droppings, animal remains, rub and claw marks and animal homes. Other exhibits illustrate wildflowers of summer and winter, with paintings of what the plant looks like when in bloom during the summer months and an actual dried stalk protruding through snow in the winter time. A third exhibit has 24 samples of bark-covered branches to identify different species of trees by the bark, and a fourth exhibit provides an opportunity to identify deer, skunk, opossum, rabbit, raccoon, squirrel and "mole" tracks. The exhibits were all made out of used available materials as no money was budgeted for these projects. The 1966-67 budget includes an allotment and more exhibits are planned.

CHS Students Chosen for Music Camp

Several Chelsea musicians will attend the Interlochen Music Camp this summer.

The internationally famous summer music camp, located at Interlochen, Mich., provides small group as well as concert experience for musicians interested in both band and vocal music.

Susie Knickerbocker, daughter of Mr. and Mrs. George Knickerbocker, and Kathy Fuiks, daughter of Mr. and Mrs. A. E. Fuiks, are attending the two-week long All State High School division camp which began July 3.

Susie's attendance is partially sponsored by a Kiwanis Club scholarship. In try-outs, Kathy, who plays alto clarinet, was seated in the first chair section. Susie will be playing second clarinet.

Later in July, two students will be attending the Junior High division camp. Crystal Impola, daughter of Mr. and Mrs. Carl Elkins, an oboist, and Pat Gilbert, daughter of Mr. and Mrs. Jack Gilbert, a clarinetist, will attend the camp for two weeks.

Both band sections, the High School and Junior High, feature small group rehearsals, applied music classes, recreation, try-outs, and concerts.

Several students applied for the camp, but final selections were made by the Interlochen staff. Partial fellowships are provided for those accepted from money donated during the free-will offerings. (Continued on page five)

Hickory Hills Nature Trail Abounds in Scenic Beauty

The Hickory Hills Nature Trail meanders through some of the wildest and most scenic parts of the Waterloo Recreation Area. Starting at the area headquarters, the footpath is less than one mile long. Visitors should allow approximately one hour to travel the trail, allowing time to read the markers along the path and to appreciate the untamed natural scenery found in the oak-hickory woods.

Park Naturalist Tom Hodgson planned the nature trail and the explanatory pamphlet and markers which interpret natural phenomena found along the pathway.

Although the trail opened this spring, many additional features are planned. Eventually the path will be completely covered with wood chips, provided by Consumer Power Co., for easier walking and to prevent erosion on the trail. The chips now cover much of the trail, placed there by Boy Scouts, Girl Scouts and school groups from the surrounding area.

Broad steps on steep inclines make the hills easy to climb. Eventually benches will be located at strategic positions along the trail to permit visitors to rest while enjoying a particularly scenic view, watch birds at a birdfeeder filled with seed the year around, or, in the early morning hours, to observe deer at salt licks.

Bird houses will be installed gradually, and a boulder trail is also being set in place along the end of the present trail. Although the boulders presently in place have not yet been labeled, visitors may examine a conglomerate composed of glacial till, limestone boulder embedded with fossils, a mudstone boulder embedded with fossils, a granite boulder, a dolomite resulting from volcanic action, and another conglomerate with a sandstone base embedded with a variety of native rocks.

(A conglomerate is a composite rock composed of fragments of previously existing rocks cemented by natural forces.) The boulders each weigh nearly half a ton, Hodgson said.

In addition to the pamphlet which explains the human and glacial history of the area, as well as many other processes occurring in nature, a wildflower pamphlet locating and identifying the flowers found along the trail is planned. Among the flowers now in bloom are the white pondlilies, the reddish-orange devil's paintbrush and the blue-flowered pickweed.

Hodgson explained that when wild flowers are marked along the trail, they tend to concentrate visitors in one spot and are often trampled. He said he hopes to be able to divide the wildflower pamphlet by seasons to describe the flowers found throughout the year and thus enable visitors to locate their own examples.

Today, visitors may consult the plexiglass signs, paper laminated between sheets of plastic and attached to metal posts buried in the ground, which identify poisonous and edible plants and trees by their Latin names, give

Bids Opened On Junior High Construction

Only One Contractor Submits Bid At Cost of Approximately \$18 Sq. Ft.

Bids were opened Thursday evening on the new Chelsea Junior High school. The Chelsea Board of Education expressed satisfaction with the bids.

The only bid received by the Board for general construction was \$1,283,775 submitted by Henry W. Dekoning Construction Co. of Ann Arbor. The bid averages approximately \$18 per square foot.

The Chelsea Board was proposing a construction cost of \$14.50 per square foot. The Chelsea Board of Education was reported to be quite pleased by the bid.

The bid after hearing about the bids on Ann Arbor's proposed Huron High and bids submitted on other school projects throughout the state, Ann Arbor had hoped for a construction cost in the vicinity of \$20 but the bids they have received are reported to be in the vicinity of \$30. Construction bids throughout the state are reported to be running 30 to 40 percent above proposed construction costs.

Eight Chelsea Youths Enter Derby Race

Eight Chelsea area boys have qualified for the Ann Arbor Soap Box Derby scheduled for 6 p.m. Saturday, July 9, on S. Main St., Ann Arbor.

Successful entrants are Jeff Daniels, 665 Washington St., sponsored by Chelsea Lumber; Scott Foster, 515 Wilkinson St., G. A. Sales & Service; Tim Lancaster, 607 Washington St., State Drug of Ann Arbor; Eugene Moore, 1347 Sager Rd., Prigid Products; Philip Musolf, 11470 Waters Rd., Musolf Construction Co. of Ann Arbor; Michael Roskowski, 7109 Lakeshore Dr., Chelsea Lumber; Terry Lee Roskowski, 7109 Lakeshore Dr., Spaulding Chevrolet; and Chris Tompkins, 9609 Chelsea-Manchester Rd., Bill Brown's Super Service.

Ninety boys will race for trophies, U.S. Savings Bonds and the trip to Akron for the national race, which goes to the winner. The awards banquet will be Sunday, July 10.

Derby entrants will participate in the Soap Box Derby Parade in Ann Arbor on Friday night, starting at 6 p.m. At least 60 units are scheduled for this parade.

The parade will form at 6 p.m. at St. Thomas church parking lot on Kingsley St. It will proceed down Kingsley to Detroit St., to Fourth Ave., to Williams, to Ashlevy, to E. Liberty and down Main St., to Catherine St., to Detroit St., and back to St. Thomas church.

The Soap Box Derby Queen was selected last night, Wednesday, July 6. Laurel Lancaster, 12-year-old sister of Tim Lancaster and daughter of Mr. and Mrs. Charles Lancaster of 607 Washington St., was a queen contestant. The queen selection was based on appearance, poise and personality. Contestants were of the same age, 11 to 15, as the Derby entrants.

Following a trial run on the official track Thursday night, the cars will be displayed until Race Day in tents located in the 300 block of S. Main St.

Benefit Teen Dance Set for Lamb Fund

A Teen-Benefit Dance for the Chelsea Community will take place July 8 from 7-11 p.m. in the high school gymnasium. All bands will compete in a performance contest. The band selected as best will receive a prize.

All bands interested in participating in the contest should call Linda Lauer at 479-7124. Refreshments will be served.

The idea for a benefit dance came from the Chelsea Fellowship of the Congregational church in Chelsea. This youth organization is under the direction of Mr. and Mrs. Jerry Saterthwaite.

All teen-age persons of the community are invited and urged to attend. The proceeds will go to the Lamb Fund.

Band Concert Slated Friday

A group of light musical selections will be presented by the Chelsea Community Band this Friday evening at 7:15 p.m. in the Municipal parking lot.

The free concert is one of a series of four concerts scheduled for consecutive Friday evenings in July.

The band is under the direction of Chelsea High School band director Bruce Galbraith, who said that any former band players are invited to join the band for their Wednesday evening rehearsals scheduled for 7 p.m. at the High School and the Friday evening concerts.

Open House Slated Saturday By University Microfilms

University Microfilms, Inc., will hold a Community Open House at its new \$2 million plant at 300 N. Zeeb Rd. in Slio township (just off Exit 169 from I-94) next Saturday, July 9, from 1 to 5 p.m.

The new building, nearly doubles the operating space of the company's previous quarters on N. Zeeb Rd. in Ann Arbor. Situated on a 27-acre plot, the 76,000 sq. ft. plant is the largest and most modern microfilm facility in the world.

University Microfilms, Inc., a part of the parent company, Xerox Corp., in Ann Arbor, UMI has been a pioneer in micro-

film technology and related processes to facilitate storage and speed retrieval of original documents and printed materials. The need for them has increased. UMI offers in microfilm or xerographic printout collections of out-of-print books, modern periodicals, doctoral dissertations, rare and otherwise inaccessible manuscripts for use by scholars, researchers and libraries.

The new building, now occupied and complete except for a few finishing touches and landscaping, was expressly designed for the ultimate in production efficiency and employee comfort. The one-story facility makes use of basement and roof areas for the location of additional equipment. The building is also unique in that none of the typical mechanical and engineering trappings of a plant are visible to the eye.

UMI's editorial, research, camera, processing, production and warehouse operations are all greatly expanded within the new plant structure. Provisions were made in the overall design of the building for expansion on the north side.

Another unique feature is a trough running the full length of the south side of the building which purifies the water coming off into the one-acre pond located on the property. The pond is stocked with fish and picnic tables will be placed around its perimeter.

The opening of our new headquarters is a momentous occasion for us. Power said, "We would be most happy if all our friends and new neighbors in the area would join us to share in our enjoyment during our Community Open House."

Fortune Industries Doubling Capacity of Present Plant

Fortune Industries, Inc., a mushrooming Chelsea-manufactured products used in metals finishing, recently announced a \$250,000 expansion program which will double their present capacity.

A husband-and-wife team, Mr. and Mrs. Leonard Fortune, started in 1953 with a parcel of land purchased from Elmer Scherdt, 11601 Chelsea-Dexter Rd. From their original purchase, they built a fast-growing industry which already has undergone six expansions. Mrs. Fortune, for several years the only "employee," and her husband have watched the industry grow until 42 persons now work in the two plants.

The products, shipped to 2,000 customers throughout the United States and several foreign countries, have the grayish appearance of pebbles and are used in deburring and surface finishing of metals. The synthetic abrasives are heated and fused into uniform shapes which come in several different sizes for use on a variety of metals and parts.

In lumbering hurels, rotary finishers and vibrators. When metal products are added to the vibrating, casks containing the abrasives, the metal is polished by the rubbing together of the "deburbed."

The Fortune Industry recently announced that it is planning to double its capacity by building a new plant on the site of the old one. The new plant will be a two-story building, 100,000 sq. ft. in size, and will cost approximately \$250,000 to build. The new plant will be completed by the end of the year and will double the company's present capacity.

Summer Reading Program Slated at McKune Library

The annual summer reading program for children ages 5 through 12 will begin at McKune Memorial Library July 11.

This is a six-week program. Each child joining the club will be given a membership pin, a personal folder for listing the books as they are read, and at the end of six weeks those who have read 10 or more books, approved by the librarian, as being suitable for their age group, will receive a certificate of achievement.

There will be no competition this year for greatest number of books, since quantity alone is not the sign of real achievement. There are graded booklists available to help each child select books, but other titles may be included to qualify for a certificate of achievement.

A membership roster will be posted in the children's room at the library and all boys and girls aged 5 through 12 are urged to come in and join by putting their name on the membership list.

Mr. and Mrs. E. E. Ball and son, Ronnie, of Philadelphia, Pa., are visiting at the home of Mrs. Irma Grau and family.

LIKE TOPSY, the Fortune Industries "just grew up." Started in 1953 from a plant containing some 2,000 square feet, the industry has expanded six times to its current 33,000 square feet located in two buildings; additional expansions are planned on both sides of the newest building. President Leonard Fortune stands with his wife, vice-president, and first employee, on the foundation of what is destined to become a new laboratory and office building on one side of the new blue and white building located on Chelsea-Dexter Rd.

Busy Work
 Laws which duplicate others or cannot be enforced seem a waste of time and money.
 One enacted this year involves an edict to school districts to review their textbook purchases to insure fair treatment of the races. It tells the local districts, in effect, to be sure that the teaching tools they use do not reflect badly on minority groups such as Negroes, Jews and Indians. It omits, however, the State Board of Education to check periodically to be sure the local boards are following the law.
 Missing, however, is any power for the State Board or any other governmental unit to punish school units which choose to stick with old books which, for example, never picture a Negro or Indian child in a group picture.
 While this is not a duplication of any law, a formal policy statement to this effect was issued some years back, however, by then Superintendent of Public Instruction Lynn M. Bartlett.
 In addition to being sent to the various school districts in the state, it was brought to the attention of the textbook publishers and distributors which serve Michigan districts.
 Presumably, in the three or four years since this policy was circulated, most schools have purchased new textbooks incorporating the policy.
 For all purposes, the new law will not likely mean any change in practice. Any school districts which have not followed the policy handed down by Bartlett will feel little pressured to change now since the 1960 law has no enforcement provision in it.

Labor Shortage
 A seemingly intractable problem is reported by the State Corrections Department: Michigan's prison administrators are having a difficult time finding necessary labor to keep the prison industries operating well.
 The problem arises partly because of changes in the frequency of paroles and shorter sentences being given criminals. Another factor is the type of criminals housed in the prisons, which operate 14 separate industries.
 Today's inmate is much younger than previously. In many cases he has little education and has done little or no work during his lifetime. He is frequently hostile and unwilling to accept discipline. He is not inclined to be a good worker.
 Prison industries are operated at Southern Michigan Prison at Jackson, Michigan Reformatory at Ionia, and the State House of Corrections at Marquette.
 Other corrections facilities, mental institutions, and some other state government units in the past depended greatly on the prison industries for cloth, work clothing and shoes, office furniture, road signs, cleaning supplies, and canned goods produced from prison farm goods.
 Most familiar prison industry by far is the auto license plate business.
 The most necessary and meaningful change being attempted to correct the labor problem is an effort to find ways to get the youthful "difficult" inmates to work.
 As one department spokesman said, "Since work is a part of living in the outside, suitable work habits and skills, where possible, should be instilled in the inmates while they are inside."

Heavenly Patrol
 Speeding drivers are the primary target of a new attack on highway accidents. It likely is one of the most expensive traffic safety moves which could be undertaken, but it could be effective.

NEWS HOLLYWOOD
 Hollywood has lost one of its most loved comedians, Ed Wynn, 79, veteran actor in movies and TV for 64 years, died after six months of illness.
 Remove are that Min Farrow is leaving the television series "Peyton Place" to make movies for 20th Century-Fox. Miss Farrow is currently playing the part of Alison Mackenzie.
 If all the after-dinner speaking could be eliminated, the dinner would be just as good.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:
 Ed Doolittle reported to the fellows at the country store Saturday night that him and his old lady was having domestic troubles. This is a real switch for Ed on account of his troubles was usual political.
 Ed said his old lady reminded him their golden wedding anniversary was coming up soon and she was expecting him to do some thing fitting for the occasion. Anything fitting for a golden anniversary, followed Ed, would involve gold and everybody knew the Democrats outlawed gold thirty years ago. Furthermore, said Ed, you can't even substitute silver since the The Great Society put all the silver into the poverty program and started making money out of specified mud and putty.
 All the fellows, Mister Editor, including Clem Webster of the Great Society was expressing sympathy for Ed in his hour of great misery. Clem said Ed was lucky and didn't know it. At his house, reported Clem, it was mighty lonely for him on account of he was growing old all alone. He reported his old lady ain't had a birthday in eight year.
 Zerk Grubb said him and Clem was in about this same fix, that his old lady was at 62 and holding. Furthermore, he said, she had been holding ever since she got her Social Security seven year ago.
 Bug Hookum was in favor of putting a stop to celebrating wedding dates anyhow. He claimed wimmen didn't put no great store by a wedding anniversary like they did in the old days. Bug said it used to be a woman saved her wedding dress for her daughter, but now the daughter was saving her own wedding dress for her next wedding.
 Personal, Mister Editor, Bug is a little odd in several matters. First off, he ain't never told no body how old he was. All the other fellows will mention it when they get another birthday, but Bug ain't had a birthday since the store opened during World War I. But he must be getting along in years. Ed told me confidentially that him and Bug set down in a cafe and he noted Bug looked over the menu afore he looked over the waitress. He must be a little older than I was thinking.
 Josh Clodhopper said the way for Ed to solve the problem was to let his old lady set on the creek bank and watch a golden sunset. But Josh ain't got much sentiment about wimmen. He reminds me of the fellow that didn't want to smash his finger so he held the hammer with both hands and let his old lady hold the nail.
 If you have any answer for Ed's problem, Mister Editor, let us hear from you.
 Yours truly,
 Uncle Lew

JUST REMINISCING

Items Taken from the Files of The Chelsea Standard

4 Years Ago . . .
 Thursday, July 5, 1952—
 David E. Berke, son of Mr. and Mrs. Roy Berke, has been promoted to the rank of Lieutenant, United States Navy. He is a 1952 graduate of the U. S. Naval Academy.

34 Years Ago . . .
 Thursday, June 30, 1932—
 Two deer have been sighted in the vicinity during the past week. Family reunions held during the past week included the Weber family reunion at the home of Mr. and Mrs. J. E. Seelinger at Clark's Lake, with more than 100 present; the Eschbach family at Pleasant Lake with 51 relatives attending; the Lambirth reunion at Burke's Grove, Whitmore Lake with 105 representatives; and the Stinson reunion, held at the Glazier summer home at Cavanaugh Lake.

14 Years Ago . . .
 Thursday, July 3, 1952—
 John Griffin, formerly of Sioux City, Ia. is the newly-appointed principal of Chelsea High school, according to an announcement made by Charles S. Cameron, who officially took over duties as superintendent on July 1.
 Barbara Kuhl is one of six girls who were announced Tuesday as winners of \$200 scholarships presented by the National Farm and Garden association for study at Michigan State College.

Colored Eggs Interest
 Congressman Vivian

H. Marshall Penn of 19680 Old US-12, local Araucana chicken breeder, has received a letter from Congressman Vivian (D-2nd Dist.) Congressman Vivian expressed his interest in the unusual chickens, which lay blue, green, pink or olive-drab colored eggs, and commented that he hoped to visit the Penn farm to see the chickens (Penn's Araucana chickens were featured in a story in The Standard on April 14.)

PEARLS of WISDOM
 Envy—For one man who sincerely points out our mistakes there are a thousand who sincerely hate our success.
 —Charles C. Colton.

24 Years Ago . . .
 Thursday, July 2, 1942—
 The Peninsula Furnace and Foundry Co. is the first Chelsea industry in which employees are participating 100 percent in the profit-sharing plan for the purchase of United States War Bonds.

Self-Discipline—The greatest freedom man has is the freedom to discipline himself.
 —Bernard M. Baruch.

Trifles—Little strokes fell great oaks.
 —Benjamin Franklin.

ALCATRAZ CROWDED
 San Francisco—Barbara Hart had a dream come true when she married John Catelli at Alcatraz. More than 100 persons attended the wedding. Barbara grew up there since her father was a guard for 18 years. Her parents are now the caretakers.

SUMMER RECREATION PROGRAM

Third Week Schedule - July 11-July 15

School Playground—Monday through Friday, 9:30-11:30 a.m., arts and crafts, group games, contests.

Supervisors: Sue Gardner (M-W-F) and Joanne Fisher. Children should be entering school next fall in order to participate.

School Playground—Monday through Friday, 9:30-11:30 a.m., arts and crafts, group games, contests.

Supervisors: Lynn Visel and Terrie Boyer.

Twirling Lessons—Girls in grades 4, 5 and 6 in the fall. Monday and Wednesday, 9:30-11:30 a.m. Instructor—Jill McEachern. Classes at on-high school athletic field, near the band room.

Sports Program—High school athletic field.

Supervisors: Fred Mills, Larry Gaken and John Lixey.

League and Midget League Baseball Schedules—

League—Monday through Friday, 9:30-11:30 a.m.

Midget—Monday through Friday, 9:30-11:30 a.m.

July 11—Midget League—

9:30 a.m.—Angels vs. Twins, Orioles vs. Tigers.

July 12—League—Vampires vs. Spitfires, Cannonballs vs. Giants, Ramchargers vs. Thunderbolts.

July 13—Midget League—

9:30 a.m.—Angels vs. Orioles, Tigers vs. Twins.

July 14—League—

9:30 a.m.—Vampires vs. Thunderbolts, Cannonballs vs. Spitfires, Ramchargers vs. Giants.

July 15—League—

9:30 a.m.—Vampires vs. Spitfires.

HICKORY HILLS NATURE TRAIL—Park Interpreter Thomas R. Hodgson displays the pamphlet describing the various points of interest along the recently-completed foot trail located at the Waterloo State Recreation Area Headquarters. The scenic trail takes approximately one hour to walk, includes markers describing various plants and trees, such as the marker shown in the photo. The pamphlet describes glacial action, birds, fossils, a bee tree, lichens, lake succession and other aspects of the area which might otherwise go unnoticed along the trail.

Hickory Hills Nature Trail

(Continued from page one)

be observed as they lay their eggs on the sandy shoreline of Crooked Lake, and visitors may hear green frogs squinting like plucked banjos and bullfrogs adding their sonorous tones.

Visitors to the area are cautioned to bring mosquito repellent along. Hodgson jokes that he may devise a mosquito identification chart. (Visitors could identify mosquito species from the size of the welt.)

Hodgson, graduated with a BS in wildlife management from Michigan State University, spent a year as assistant naturalist at the Carl Fenger Arboretum in Lansing before he came to work for the Department of Conservation in September as the park interpreter for the Waterloo Recreation Area.

His work is concentrated in two areas: the outdoor centers at Mill and Cedar Lakes, equipped with sleeping cabins and a main dining hall, and the campgrounds.

The centers are used by school groups throughout the school year, but may be reserved by any organized group providing that during their stay they devote one-third of their program time to the area.

Who Said Chelsea Schools Already Had Enough Administrators?

A local sage has pointed out that residents must be the fact that the Chelsea School Board has indicated a need for an assistant superintendent to help administer affairs of a school system serving more than 2,000 students should take as lesson from the Chelsea Methodist Home.

The June 30 Chelsea Standard stated that the new Methodist Home administrator, the Rev. John Hall, would among his other duties, "take responsibility for the social, physical, financial and religious needs of the 15 residents and direct the staff of 87 employees."

That figures out to 5.8 employees for every resident.

The Rev. Edwin Velsa, who resigned as administrator of the home on June 18, said that when he left the home there were 215 residents and he jokingly questioned the efficiency of the new administration.

The Rev. Hall quickly pointed out that, if the figures were true, it would drive good administration by showing a substantial reduction in residents needing care.

(Actually, the Methodist Home still has 215 residents and the Chelsea schools are still without an assistant superintendent.)

Chatter is a very expressive word when applied to some conversations.

Swimming Top Event in Rec. Program

Attendance during the first week of the summer recreation program sponsored by the Chelsea Recreation Commission totaled 1,389 participants.

The afternoon swimming lessons drew the largest number, 404; while the South school playground attracted 291 and the Little League baseball had 142 participants. North school playground activities had 138 children who will be entering school next fall and the Midget League baseball for boys in grade 2, 3 and 4 attracted 110.

The morning swimming program drew 76 non-swimmers, while the afternoon basketball program attracted 50 high school boys. Forty-six boys from grades 2-7 showed up for the Friday track meet.

An evening gymnastics and wrestling program for high school and junior high school boys included 40 participants and the morning baton twirling attracted 40 girls in grades 4, 5 and 6.

Golf lessons proved to have the fewest number of participants, with only two persons taking part in this program.

Council Briefs

The Village Council met Tuesday evening at the Municipal Building.

Discussion was held regarding the speed limit on N. Main St. The speed limit is set by the state Highway Department. The Council will ask for a speed survey to be taken during the busy hours of the day.

Grading and blacktopping of the street over the bridge on McKinley St. was approved.

Authorization was given for the payment for street work to Rod Mills, Thompson, McCully & Ayling and Cunningham.

Needed improvements at Veterans Park were discussed.

Discussion was held with John Palmer, Chief of Police, regarding the use of firecrackers. There is a state law and also a village ordinance against the use of firecrackers.

Fortune Industries Doubling Capacity of Present Plant

(Continued from page one)

A combined research and processing laboratory and office space has been nearly completed adjoining the new blue and white warehouse buildings and Fortune plans to be in it by July. A further expansion on the other side of the building will be completed in September.

The laboratory and planned expansion will bring the square footage of the one plant to 34,000 feet.

The board of directors of this promising company contains a varied group. Dr. Frank Bacon, a professor of marketing at Michigan State University, in East Lansing; Ralph Beaman of Ann Arbor, a retired General Electric employee who serves as the financial advisor; C. D. Ortmann, who was formerly with AC Sparkplugs and who serves as an advisor on ceramics; Albert H. Lane of Akron, O., whose faith in the business acumen of his "kid brother" has paid off handsomely.

In addition to her duties as vice-president of Fortune Industries and as a mother and homemaker, Mrs. Fortune, a former school teacher, found time this past winter to do substitute teaching in the Ann Arbor school system.

The Fortunes, who make their

home at 1354 Glendaloch Circle, Ann Arbor, have two daughters and three sons: Mrs. Marshall (Nancy) Green of Palmyra; Mrs. Scott (Peggy) South of Flint; Richard, an engineering student at Michigan State; John, a student at Ann Arbor High school; and Jim, who is in the seventh grade at Tappan Junior High.

Farm Bureau Plans Public Meeting with Candidates for Congress

The Farm Bureau Political Action Committee will sponsor a "Meet Your Candidate" meeting on Thursday, July 14, at 8:30 p.m. at the Farm Bureau Building on the Saline-Ann Arbor Rd.

George Meader and Marvin Esch, both candidates for the Republican nomination for the U. S. House of Representatives, 2nd Congressional District, will be present. This is the only primary contest in the legislative area.

Each man will speak for 15 minutes before the meeting is opened for questions.

Farm Bureau women are urged to attend along with their husbands and friends.

Study Groups Calendar

July 10—Rogers Corners Study Group, 12:30 pot-luck dinner, home of Mrs. Harold C. Powers. In case of rain at Noonan-Work home.

July 13—South Superior Study Group, home of Mrs. William Dillon, 5590 Geddes Rd., Ann Arbor.

July 13—Lima Center Group picnic at Fische's Grove, Mrs. Clarence Reddeman, hostess.

A young mother with her first baby wishes about 4,000 diapers a year plus extra bedding and baby clothing. This is in addition to the rest of her family clothing and household linens.

Who Said Chelsea Schools Already Had Enough Administrators?

A local sage has pointed out that residents must be the fact that the Chelsea School Board has indicated a need for an assistant superintendent to help administer affairs of a school system serving more than 2,000 students should take as lesson from the Chelsea Methodist Home.

The June 30 Chelsea Standard stated that the new Methodist Home administrator, the Rev. John Hall, would among his other duties, "take responsibility for the social, physical, financial and religious needs of the 15 residents and direct the staff of 87 employees."

That figures out to 5.8 employees for every resident.

The Rev. Edwin Velsa, who resigned as administrator of the home on June 18, said that when he left the home there were 215 residents and he jokingly questioned the efficiency of the new administration.

The Rev. Hall quickly pointed out that, if the figures were true, it would drive good administration by showing a substantial reduction in residents needing care.

(Actually, the Methodist Home still has 215 residents and the Chelsea schools are still without an assistant superintendent.)

Chatter is a very expressive word when applied to some conversations.

Prospective Freshmen Attend Orientation Session at WMU

Michael Tarasow of Chelsea and Margaret Dehn of Gregory were recent visitors at Western Michigan University.

The visits were part of the University's summer orientation program designed to acquaint freshmen and transfer students with campus activities and landmarks before they begin classes next fall.

The incoming students, often accompanied by their parents, are visiting the WMU campus this summer to map out future study programs, meet their counselors and learn their way around university buildings. Under the direction of Norman Russell, director of orientation and a member of the counseling bureau, the students arrive in small groups daily through July 22. They remain on campus for a day and a half to get many of the preliminary requirements out of the way.

When the fall semester begins on Aug. 20, the students need only check into their living quarters the day before classes begin on Aug. 30.

Giving advice is a habit with human beings, but fortunately in some advice is even more strongly ingrained.

JCCs Benefit From Detroit Grid Game

Grid Game

Neil Fahrner of the Chelsea Jaycees, has been appointed the local ticket chairman of the first annual Michigan Jaycee Football Classic, Chelsea chapter president Ron Branham announced today.

The Jaycee Classic is scheduled for Thursday, Aug. 11, at Tiger Stadium, where the Detroit Lions will play the powerful Eastern Division St. Louis Cardinals. Game time is 8 p.m.

In special ceremonies last week in Lansing, Governor George Romney proclaimed Aug. 11 as "Jaycee Football Classic Day" in the state of Michigan.

Cosponsors of the game will be the Michigan Jaycees and the Michigan Jaycees Foundation. Funds from the Classic will be put into a state Jaycee fund from which local chapters may borrow to finance Jaycee community development programs. An estimated \$75,000 will be available for the state fund if all available tickets are sold.

"It is our hope to meet not only the needs of today's communities, but to meet those of tomorrow's as well," said chapter president Branham. "This game creates an other avenue for meeting these needs, thus enabling us to better serve the community."

For further information on how to obtain tickets for the Jaycee Classic, contact Fahrner, or Ken Norris.

Two CHS Students Attend Music Camp Sessions at CMU

Roger Frisinger, 13450 Jerusalem Rd., and Shirley Howard, 17904 Old US-12 W., are among the 139 high school musicians who attended the fifth annual Central Michigan University high school music camp at Mt. Pleasant.

The two-week camp, conducted by Central's department of music, ended Saturday with final concerts by the camp orchestra, chorals and bands.

During their two-week stay, students attended rehearsals and individual lessons and practices during the day in preparation for two concerts. The first concert was presented at the end of the first week of practice. Student recitals were given last Thursday evening.

Other activities included a piano and voice recital by two members of the Central faculty, a camp faculty concert and a CMU Artist Course recital by concert pianist Alexander Tcherepnin.

DEATHS

Charlie Housewright Dies Suddenly Thursday

Charlie Housewright, 73, of 731 Cavanaugh Lake, died suddenly Thursday, June 30.

Born Jan. 27, 1893 in Karnak, Ill., he was the son of Gain and Audrey Summers Housewright. He and Clara Campbell were married in 1914. She died in 1934.

He moved to Ann Arbor in 1934. He and Carrie Taylor were married June 19, 1948. She survives. They moved to their present address nine years ago.

Surviving are four sons: Delbert of Jopka, Ill.; Donald of Phoenix, Ariz.; Charles of Charleston, Mo.; Vernon of Vienna, Ill.; three daughters: Mrs. Vance (Adeline) Wilson of Karnak, Ill.; Mrs. Alex (Pauline) Benko of Glendora, Calif.; and Mrs. Max (Carlo) Kaczorowski of Toledo, O.; one brother, Louis of Portage Lake and two sisters: Mrs. Barney (Mae) English of Ann Arbor and Mrs. Pearl (Pearl) Miles of Karnak, Ill., survive. One brother and one sister preceded him in death. Other survivors include 14 grandchildren and one great grandchild.

Services were Sunday, July 3 at 1 p.m. with the Rev. James Craig officiating. Arrangements were in charge of Staffan Funeral Home with interment being made at Oak Grove Cemetery, Chelsea.

Mrs. Joseph L. Brand Dies Sunday Morning At Home Near Waterloo

Ida L. Brand, 80, of 11700 Reithmiller Rd., Grass Lake, died at her home Sunday morning.

Born Dec. 21, 1885, she was the daughter of Gottlieb and Carolyn Frankie Stoker. She was born in the house where she died, and had made her home there for 75 years.

Her husband, Joseph, preceded her in death. They were married July 30, 1913.

She is survived by two daughters: Mrs. Leslie (Nina) Hodsel of Leslie, Audrey at home; three sons: Floyd of Manchester, Minor of Metamora, O.; Orrin at home; a sister, Kathryn Felton of Perry; 11 grandchildren; three great-grandchildren.

Funeral services were Wednesday at the Stormont Funeral Home, 14 Grass Lake, with the Rev. Karl Kestner of Ann Arbor officiating. Interment followed at the Mt. Hope cemetery near Waterloo.

Helen Rose Miller Was Director of Instruction In Hamtramck Schools

Helen Rose Miller, 77, of 13229 Northlawn Ave., Detroit, died Saturday, July 2 at Standish Community Hospital in Standish.

She was born May 2, 1889 in Sylvan township, the daughter of Jacob P. and Sara Jane Stapish Miller.

She graduated from Chelsea High school in 1905 at the age of 16. She attended Ypsilanti State Normal, now EMU, where she received a bachelor of arts degree.

She later received a master's degree at the University of Michigan and also did graduate work at Notre Dame.

For more than 30 years, Miss Miller was director of instruction in the Hamtramck Public schools. She retired in 1959.

A member of the Catholic Daughters of America, she also belonged to the Altar Society of St. Bridgett of Detroit, the Legion of Mary and many national and local

school organizations. She was preceded in death by five sisters and two brothers and is survived by several nieces and nephews.

Requiem High Mass was sung Tuesday at 9 a.m. by the Rev. Father Meliszewski. Burial followed in Mount Olivet cemetery. A rosary was recited at 8 p.m. Monday, July 4. Arrangements were made by Staffan Funeral Home.

J. Fred Bareis Former Chelsea Resident Dies in Traverse City

J. Fred Bareis of Tampa, Fla., a former tenor soloist in the St. Paul United Church of Christ choir, died July 3 in Traverse City. He was 66.

A former Chelsea resident, he was the son of Jake and Annie Schmidt Bareis. He was married to Gail A. Raymond, who survives.

He was president of the North Tampa (Fla.) Civic Association. He made his home in Tampa and in Traverse City.

Survivors include his widow, two daughters, Mrs. Robert (Carol) Jacobsen and Patricia L. Bareis, both of Lansing; one son, Frederick of Traverse City; one grandchild, Jeffrey, of Lansing; a sister, Mrs. L. W. Townsend of Tampa.

Funeral services were Wednesday at the C. K. Wetherby Co. with the Rev. Dr. R. Lloyd Post officiating. Interment was at Woodland cemetery. Contributions have been made in his memory to the Oleta Mayer Memorial Organ Fund of St. Paul's.

Leo J. Coval Former Nebraskan Dies After Prolonged Illness

Leo J. (Red) Coval of 7812 Fourth St., Dexter, died at St. Joseph Mercy Hospital Friday evening after a long illness.

He was born Oct. 29, 1916 in Petersburg, Neb.; the son of George and Lena Coval, Sr.

He has been a resident of the Washtenaw county area for the past 31 years, coming here from Nebraska. He was a member of St. Joseph's Catholic church and the Knights of Columbus.

He and Nada Keson were married June 20, 1940 in Ann Arbor. He is survived by his widow; his parents, who live in Ann Arbor; three sons: Leo David, of Dexter, Richard and Paul, both at home; one daughter, Dianne, at home; four brothers: Michael, Victor and Herman, all of Ann Arbor; George, Jr., of Whitmore Lake; four sisters: Mrs. Robert (Josephine) Budlong of Novi; Mrs. Robert (Wilma) Musolf of Chelsea; Mrs. Russell (Bernita) Auto of Manchester; Mrs. Floyd (Eleanor) Hoover of Texas; one uncle; one aunt; several nieces and nephews.

Rosary was recited Sunday evening at 8 p.m. at the Hosmer Funeral Home. Funeral services were Tuesday morning at 10 a.m. at St. Joseph's Catholic church with the Rev. Father Anthony J. Wallis officiating. Burial followed in St. Joseph's Catholic cemetery. Arrangements were by Hosmer Funeral Home.

POLICEMAN FINDS PANTS

Point Pleasant Beach, N.J. When State trooper Michael Kodan saw a man wearing trooper's pants, he recognized them as his lost pants. He arrested Edward Spock who said he'd been on a binge and didn't remember how he'd got the pants on.

William J. Hoppe Named Area Forester

William J. Hoppe has been promoted to area forester at the St. Charles Field Office where he will be continuing private forestry cooperation with landowners in Gratiot, Saginaw, Genesee, Tuscola and Huron counties. Hoppe, a native of the Chelsea area and a graduate of Chelsea High school, attended Jackson Community College and received a Bachelor of Science degree from the University of Michigan.

Two Trailer Parks At Four Mile Lake

The trailer park development on the Four Mile Lake lakefront includes the Otto Lucht and the Harvey Fischer trailer parks. The two parks each have facilities for approximately 30 trailer houses. Last week's Standard stated that the Otto Lucht trailer park had space for approximately 70 trailer houses.

Young Rider Crushed At Waterloo Hunt Club

Birth Davis, 12, daughter of Mr. and Mrs. Fred D. Davis of Bloomfield Hills, died Friday at the University Medical Center in Ann Arbor after her horse tripped on a jump at the Waterloo Hunt Club and rolled on her.

She had a crushed chest, head injuries and cuts and bruises over her entire body. She was riding her own horse, Late Bate, when the accident happened. The horse was not injured.

Miss Davis was an accomplished rider and had appeared in several horse shows in Madison Square Garden, according to a Hunt Club spokesman. She was a member of a team that won the hunt team competition at the Garden last year.

Stick to the little tasks in life and you will soon find out that someone else has the big jobs for himself.

Saline Centennial Caravan Returning

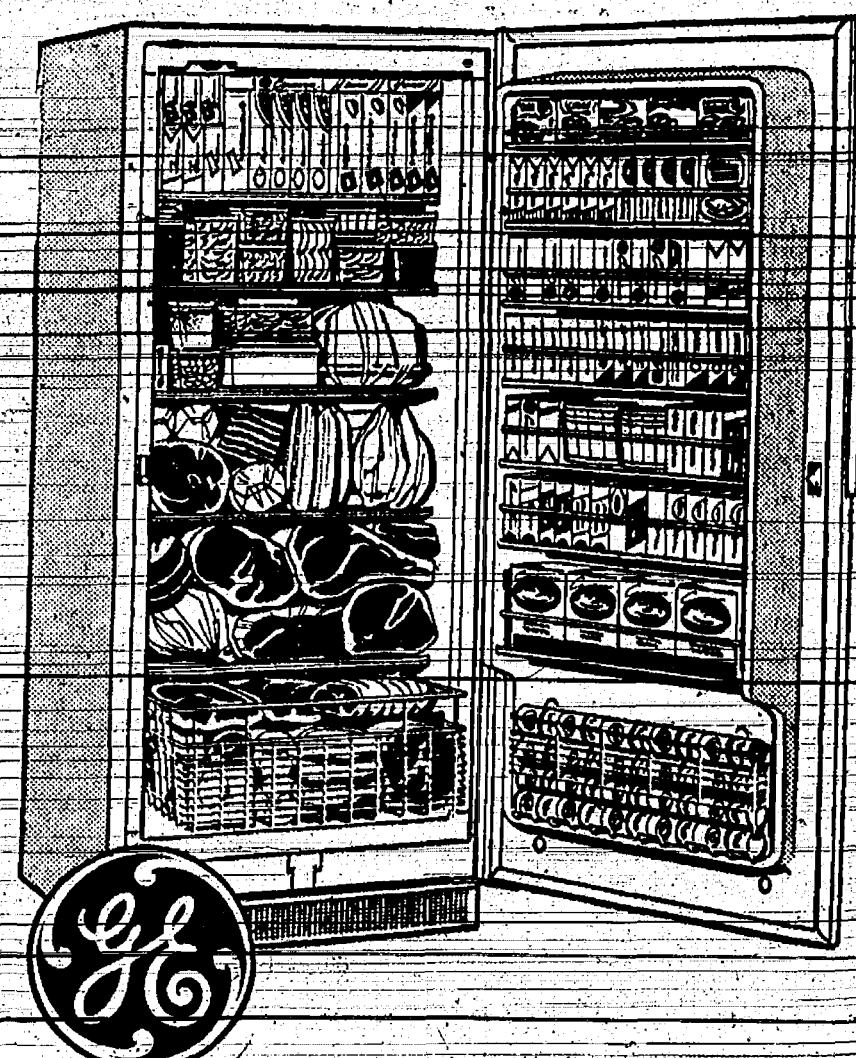

The Saline Centennial caravan will re-visit Chelsea Saturday, July 16, at 7:45 p.m. Although arrangements had been completed at press time, the caravan will be one of the highlights of the visit.

Home on Leave

AC-2 Robert Brown, Mrs. William J. Brown, and their home on leave from Wright Air Force Base in Ohio will be home until early in August when he will go to Vietnam.

On Dean's List

John Hand, a first year student of Chelsea High school and the son of Mr. and Mrs. Stanley Hand, has been listed on the Dean's List at Morningstar College in St. City, Ia. He completed his sophomore year in June. He is majoring in history, political science and sociology.

Eddie Koengeler and Tim Markel combined their pitching talents to throw a no-hitter for the Cannonballs.

ONE-MINUTE SPORTS QUIZ
1. What team won the recent Wightman Cup Play?
2. Who holds the world 880 yard track record?
3. What pitcher recently hurled the American League's first no-hitter?
4. Will the two pro football leagues stage a playoff game in 1967?
5. How old is Sam Snead?
(Answers on page 12)

ON HEAVY DRINKERS
Los Angeles — Dr. Irs. Cisin, professor of sociology at George Washington University, reports that a recent survey shows that 42 percent of American adults are heavy drinkers. A heavy drinker is one that takes one drink daily or at least five drinks at any one time. The survey showed more Episcopalians, Catholics and Jews drink than Baptists.

CRIME RATE UP
The FBI reports a 6 percent increase in the U. S. crime rate. The FBI figures were based on reports from 5,034 law enforcement agencies representing more than 143,000,000 of the population.

Interested in starting an investment club? NAIC's booklet, "An Educational and Investment Opportunity for You," tells you how to go about it. For a free copy write to T. E. O'Hara, National Association of Investment Clubs, Department S, Box 1058, Detroit, Mich. 48231.

Q. My husband is 42. I am 36. We realize we need an investment program. We have about \$9,000 worth of Deere & Co. stock purchased over the years. My husband's \$20,000 in life insurance is very inadequate, as the retirement pension he can expect from his company will continue only while he is still living. On the other hand, his present salary of \$12,000 a year will increase at least \$250 each year. We can afford insurance and investment. Could you advise what type of insurance we could buy to give me the best opportunity for "you" falls widow? Also, what type investment program would be good for us?

A. You are to be congratulated at having established such a fine program which you are in a good position to develop further at such an early age. With 23 years to go to the normal retirement time for your husband, you certainly have time in which to build.

You didn't mention the type of life insurance your husband now has. If his present coverage is ordinary life, you might aim to double or triple this amount with term insurance. Inasmuch as you have 23 years to build up other assets through an investment program, and since you already have a good basic amount of insurance, the principal purpose of any additional insurance you bought would be to provide protection while you are building other assets. I suggest you talk with a good life insurance agent about a program that will enable you to carry the increased insurance at the lowest possible rate.

Perhaps your husband can get group life insurance through his company where he is employed. The cost is usually quite reasonable. Try to obtain the maximum coverage there.

As to ways of building up your investment program, I suggest you talk with your broker and get his help in picking five or six high-quality, growing companies whose stock you could acquire over a period of time through regular payments at the rate of \$10 a month each through the New York Stock Exchange Monthly Investment Plan.

You might also make periodic mutual fund-making sure, however, that you don't sign up on a front-loaded contractual plan.

I should also, by all means, urge you to consider organizing a husband-and-wives investment club with some of your friends. Making small monthly payments into such a club will help you build an investment account and, more importantly, will help you develop the investment savvy needed to manage your own ideas for your developing personal investment program.

Q. I own shares in a local bank that has branched out recently, opening nine offices. Although this is an area where much population growth is expected, some of these branches are not too active and are waiting for population to fill their vicinities. I haven't read anything about bank-share investments. Can you tell me the history of bank stocks? What is your opinion of them?

A. Certainly banks have been a fine investment through the years, growing faster than the economy as a whole. But what may be said of any type of business generally may not be true of a particular unit of that industry.

As a shareholder, you should be receiving statements showing whether your bank is operating at a profit and whether its rate of profit has been adversely affected by what you consider the opening of too many new offices.

Since the bank is a local one, talk to the bank's management directly, asking what its objectives are and what results it is achieving.

As a shareholder, you should be receiving statements showing whether your bank is operating at a profit and whether its rate of profit has been adversely affected by what you consider the opening of too many new offices.

Since the bank is a local one, talk to the bank's management directly, asking what its objectives are and what results it is achieving.

Interested in starting an investment club? NAIC's booklet, "An Educational and Investment Opportunity for You," tells you how to go about it. For a free copy write to T. E. O'Hara, National Association of Investment Clubs, Department S, Box 1058, Detroit, Mich. 48231.

Q. I own shares in a local bank that has branched out recently, opening nine offices. Although this is an area where much population growth is expected, some of these branches are not too active and are waiting for population to fill their vicinities. I haven't read anything about bank-share investments. Can you tell me the history of bank stocks? What is your opinion of them?

A. Certainly banks have been a fine investment through the years, growing faster than the economy as a whole. But what may be said of any type of business generally may not be true of a particular unit of that industry.

As a shareholder, you should be receiving statements showing whether your bank is operating at a profit and whether its rate of profit has been adversely affected by what you consider the opening of too many new offices.

Since the bank is a local one, talk to the bank's management directly, asking what its objectives are and what results it is achieving.

Lack of Funds Forces Postponement of Many State Highway Construction Jobs

Lansing — Lack of funds has forced the postponement of the start of 82 primary state highway construction projects in 28 counties.

Total estimated cost of the construction involved is \$146 million, State Highway Director Howard E. Hill said.

Included in the newly announced postponements are a number of projects first scheduled for bid-taking earlier this year but delayed until fall. These have been postponed even further.

"Both the Michigan Good Roads Federation and the Michigan State Highway Commission warned the legislature a year ago that there would not be sufficient funds to continue our highway building program," Hill said.

"Bills were introduced to provide the needed increase but never got out of committee. Efforts to get the bills out of committee this session failed also," Hill said.

"We have been forced to reschedule primary construction in both rural and urban areas throughout the state."

"Our Interstate construction program will continue on schedule. The Federal government pays 90 percent of the costs of roads in this category."

"But on primary roads, with 50-50 state-federal participation, we are in a jam."

Projects being postponed are rated in the "must" category, Hill said.

"Michigan has managed to 'get along' with depression-era passenger car license fees and a 1956 state gasoline tax that combined are the lowest per-passenger-car in the nation, Hill said.

Under existing formulas for division of these funds to federal, state, county and local units of government, the net contribution

per vehicle for construction and maintenance of state highways is about \$88 per year, he said.

Under proposed increases of one cent per gallon in the gasoline tax and an increase in passenger car license fees from the depression-era level of 35 cents per hundredweight to pre-depression levels of 55 cents per hundredweight, the total increase in cost per motorist would average between \$15 and \$20 per year, he said.

But most of the increase would go to county and local units of government with the net result, he said.

Complicating the predicament of funds has been an anticipated increase in construction and right-of-way acquisition costs further restricting the department's program, he said.

U-M Study Shows Simple Wheel Becomes Complicated

Note: The new High Safety Research Institute of the University of Michigan is conducting a broad and complex program of research. One of the major goals of the program is to develop a better understanding of the factors which influence the performance of a tire. The program is being conducted in a series of phases. The first phase is to determine the factors which influence the performance of a tire. The second phase is to develop a better understanding of the factors which influence the performance of a tire. The third phase is to develop a better understanding of the factors which influence the performance of a tire. The fourth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifth phase is to develop a better understanding of the factors which influence the performance of a tire. The sixth phase is to develop a better understanding of the factors which influence the performance of a tire. The seventh phase is to develop a better understanding of the factors which influence the performance of a tire. The eighth phase is to develop a better understanding of the factors which influence the performance of a tire. The ninth phase is to develop a better understanding of the factors which influence the performance of a tire. The tenth phase is to develop a better understanding of the factors which influence the performance of a tire. The eleventh phase is to develop a better understanding of the factors which influence the performance of a tire. The twelfth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The fourteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The sixteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The seventeenth phase is to develop a better understanding of the factors which influence the performance of a tire. The eighteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The nineteenth phase is to develop a better understanding of the factors which influence the performance of a tire. The twentieth phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-first phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-second phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-third phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-fourth phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-fifth phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-sixth phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-seventh phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-eighth phase is to develop a better understanding of the factors which influence the performance of a tire. The twenty-ninth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirtieth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-first phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-second phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-third phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-fourth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-fifth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-sixth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-seventh phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-eighth phase is to develop a better understanding of the factors which influence the performance of a tire. The thirty-ninth phase is to develop a better understanding of the factors which influence the performance of a tire. The fortieth phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-first phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-second phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-third phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-fourth phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-fifth phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-sixth phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-seventh phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-eighth phase is to develop a better understanding of the factors which influence the performance of a tire. The forty-ninth phase is to develop a better understanding of the factors which influence the performance of a tire. The fiftieth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-first phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-second phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-third phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-fourth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-fifth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-sixth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-seventh phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-eighth phase is to develop a better understanding of the factors which influence the performance of a tire. The fifty-ninth phase is to develop a better understanding of the factors which influence the performance of a tire. The sixtieth phase is to develop a better understanding of the factors which influence the performance of a tire. The sixty-first phase is to develop a better understanding of the factors which influence the performance of a tire. The sixty-second phase is to develop a better understanding of the factors which influence the performance of a tire. The sixty-third phase is to develop a better understanding of the factors which influence the performance of a tire. Mrs. James Carroll Marshall

Rayma I. Smith, James Marshall Wed in Candlelight Ceremony

A candlelight ceremony at the Congregational church Saturday evening united Rayma Irene Smith and James Carroll Marshall in holy matrimony. The ceremony was officiated by the Rev. Robert Livingston. The bride, Rayma Irene Smith, 28, of 403 Pauline Blvd., Ann Arbor, was given away by her father, Mr. and Mrs. James Carroll Marshall. The groom, James Carroll Marshall, 28, of 403 Pauline Blvd., Ann Arbor, was accompanied by his best man, Mr. and Mrs. James Carroll Marshall. The ceremony was held at 8 p.m. and was attended by a large number of guests. The bride wore a white gown with a long train and a full skirt. The groom wore a tuxedo. The ceremony was a private affair and was held in a candlelight setting.

Vivian's Poll Reports Voters Favor Right To Work Laws

Congressman Weston Vivian (D-2nd Dist.) has released the results of a legislative opinion poll—the first ever conducted in this district—which he sent to more than 100,000 residents of this district. More than 8,000 completed questionnaires were returned to his District Office. Constituents were asked to rank a list of the most pressing domestic and international issues today. Education was deemed the most pressing domestic issue, followed by inflation, water pollution control, balancing the budget, civil rights and poverty. The top-ranked international issue was strengthening the United Nations, followed by Communist subversion, assisting developing nations, arms control and disarmament, balance of payments deficit and the increase of U.S. military strength. Sixty percent of the persons polled said that they "generally approved of the policy the United States has followed up until now in Vietnam." Forty percent said they did not. When asked which of several suggested courses of action for the future most closely corresponded with their own view, 41 percent said the U.S. should continue to maintain the present level of military pressure while searching for an acceptable political solution; 36 percent said the U.S. should seek a total military victory as speedily as possible and toward that end should raise the level of attack against the Communists in both North and South; 15 percent said the U.S. should withdraw its military forces from Vietnam as rapidly as possible; and nine percent said the U.S. should continue to maintain the present level of military pressure, but cease bombing of North Vietnam while searching for an acceptable political solution. Congressman Vivian pointed out that the complexity of the situation in Vietnam is clearly reflected in these replies. While 60 percent said they generally approved the U.S. policy in Vietnam, only 40 percent checked this course of action when asked of their own view. He thus concluded that there was a good deal of confusion as to what current policy actually was. Sixty-nine percent of the persons polled said they thought the U.S. should let international supervised free elections within South Vietnam determine the make-up of the government. Nine percent said they thought the U.S. should insist on excluding the Viet Cong from any representation in a future South Vietnamese government and six percent said they thought the U.S. should allow minority Communist participation in a provisional government. In the area of domestic issues, 71 percent said they favored state "right-to-work" laws and 20 percent said they were opposed to them. However, when asked "if

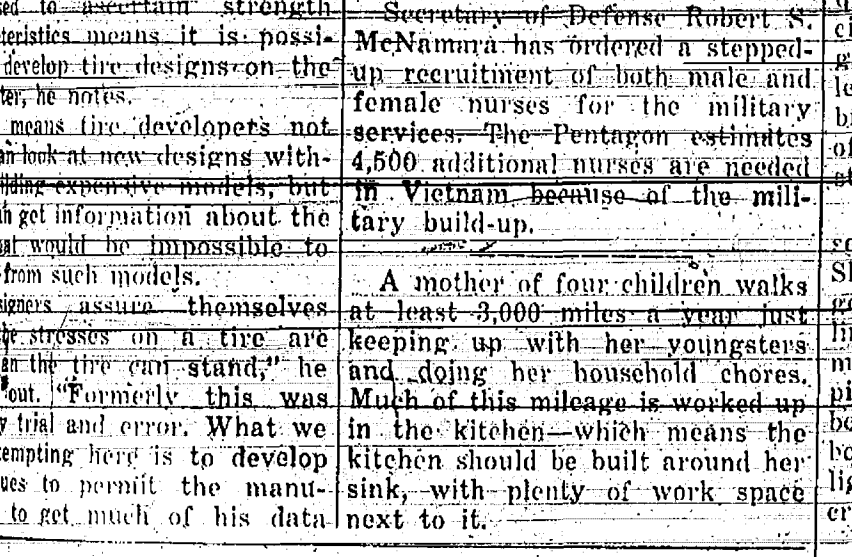

Medicare Approved Hospitals Available to All Eligible Residents

Lansing — Every Michigan resident eligible for Medicare will find an approved hospital in his area, according to State Health Director Albert E. Heustis. "Some 287 state hospital applications have been processed by the health department, and sent to the Chicago Regional Office of Social Security for certification," he said. "One hundred ninety hospitals have received certification and it is expected that certification for all but a handful of those remaining will be accomplished by July 1, 1966 when Medicare goes into effect." Dr. Heustis observed that 28 home health agencies have also been certified under the program. Another eight will receive future certification in the near future. The home health agencies explained is a voluntary of governmental unit that provides health services in the patient's home after he has been released from hospital care. The state health department processes all hospital and health agency applications. Some 107 hospitals were surveyed using Medicare standards as a yardstick. "This survey represents the first total inventory of hospital facilities in Michigan. It gives a comprehensive profile of the number and types of hospitals now available," he commented. In addition to the hospitals personally visited by department consultants, 180 other facilities were previously accredited by the Joint Commission of Accreditation of Hospitals. These applications were sent to the Social Security office without further surveys. Dr. Heustis praised the hospitals and their physician staffs for their co-operation during the extensive surveys conducted by the health department. "The hospitals really lined up behind the Medicare program, and our consultants found a willingness to get the job done. We also found a sincere desire to upgrade hospital services." In cases where hospitals did not have the level of services required in the Medicare program, health department consultants worked with administrators in order to bring the facilities up to certification standards. The best ideas germinate in honest, realistic minds, and are not the result of self-seeking thoughts.

TIPS for your TOP from

TODDY and FRAN
You say you want to watch an artist at work? Stop in at our shop. If you doubt that a hairdresser and an artist have something in common, picture this before and after: enter a pitiful-looking four-year-old, pretty eyes virtually hidden behind her bangs; exit a grinning, confident little lady, cool and sweet in an appropriate haircut. Or picture her un-stylish mother, tense, tired, sad and drab slip into the shampoo chair. Watch the change as she relaxes, then raises her brows as our operator "operates"—sets her hair in a becoming summer style; see her emerge from the comb-out a chic smiling woman. This is not the work of an artist??

Water Deaths Climb Sharply In Heat Wave

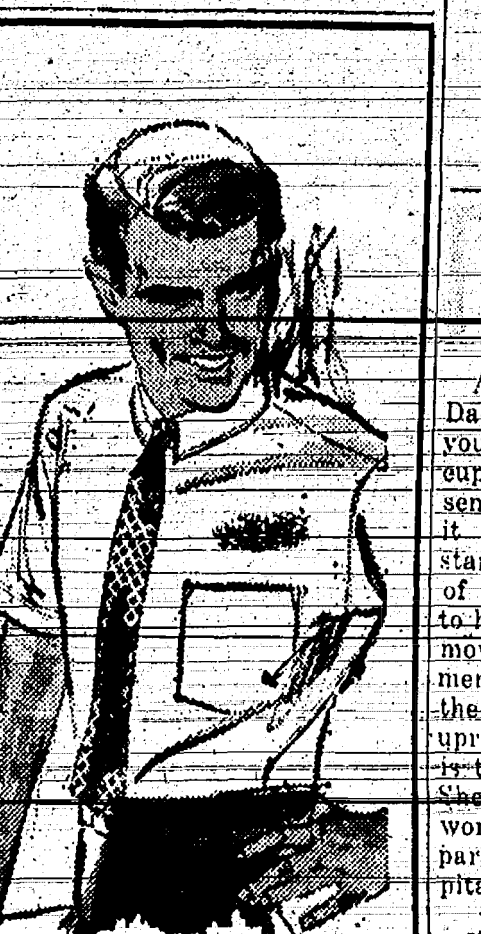

With heat relief a contributing factor, Michigan deaths in water accidents climbed sharply in recent weeks, jumping by 53 from 79 deaths as of June 15 to 132 through June 30, according to State Police figures from all law enforcement agencies.

This was a 68 percent rise in fatalities while accidents increased by 80 percent from 108 at mid-June to 195 on June 30.

There were 110 drownings in 162 accidents through June 30 last year.

In the 103 accidents on which official reports have been received so far this year the breakdown of 98 deaths included 31 swimmers or waders, 25 who fell from bridges, banks, docks or piers, 16 who fell through ice, 15 boat operators, 10 boat passengers, and one who died attempting to rescue another. Provisional information available shows 34 other deaths in 32 accidents. In addition, at least 44 persons have been injured.

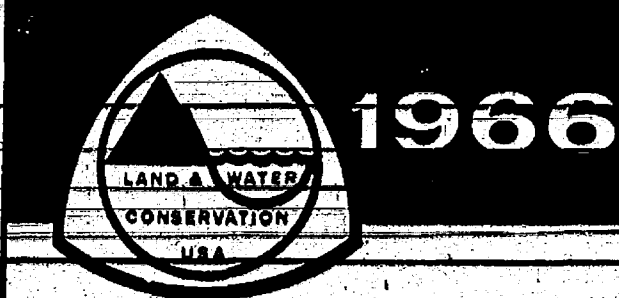

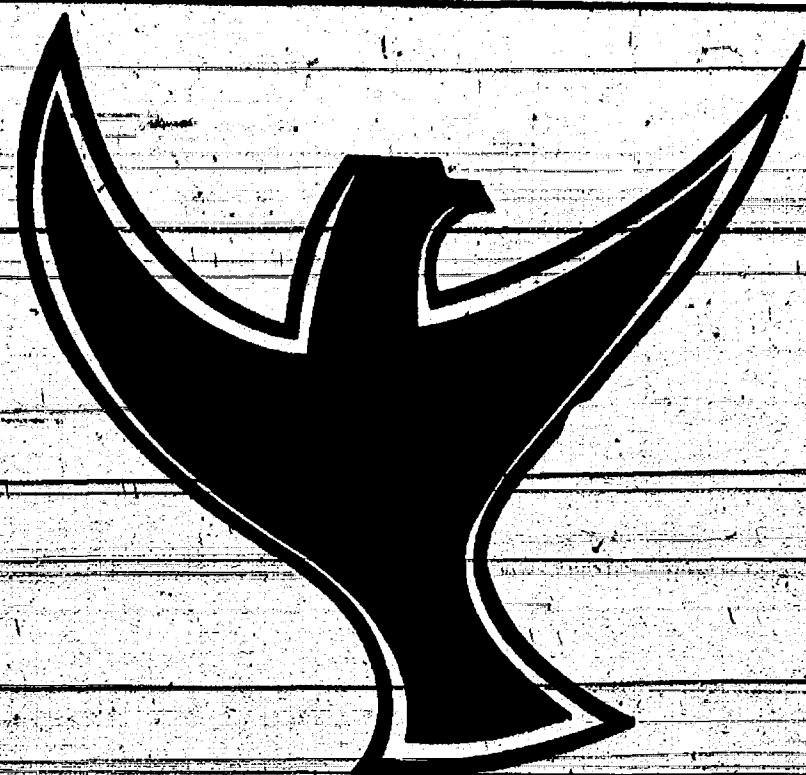

The State Police emphasize that common sense compliance with safety rules when swimming, including use of the "buddy system," vigilant watch over children in or near water and obedience to rules of the road in boating can help prevent water accidents which increase markedly in the summer. Last year 245 persons drowned in 347 water accidents in Michigan.

FEDERAL RECREATION AREA ENTRANCE PERMIT
YOUR PASSPORT TO OUTDOOR FUN: Under this year's "Operation Golden Eagle," a program to boost federal outdoor facilities nationwide, the Michigan Department of Conservation is selling the above entrance permit at a number of its offices. The \$7 annual permit is a passport to 7,000 federal recreation areas throughout the country, including nearly 50 in this state. Besides being just the ticket for outdoor fun, the permit provides revenues which are used to help pay for expansion of public recreation facilities in Michigan and other states. The golden wallet-size card is now on sale at the Conservation Department's Publications Room in Lansing and its information office in Detroit. It also may be purchased at the Department's regional headquarters in Marquette and Roscommon and all of its district headquarters except the Rose Lake office near East Lansing.

New Books at Library

Doris L. Sannes, Librarian
A SQUARE OF SKY—by Janina David. The personal account of a young Jewish girl, Janina, in occupied Poland. The book is not sensational and horror-filled, but it does vividly portray the constant terror of living in the ghetto of Warsaw. The mother manages to hold her family together as they move from one bombed-out tenement to another. Janina escapes the country just before the tragic uprising of the Warsaw ghetto and is the only survivor of her family. She now lives in England and works in the Social Service department of a large London hospital.

HMS SARACEN—by Douglas Reeman. A novel. The story of a ship of the Royal Navy and the man who believed in her. The setting involves two battle campaigns, the first in World War I in the ill-fated Gallipoli campaign and the other during World War II in the Mediterranean. In the first campaign Richard Chesney, joins the crew of the Saracen as a young midshipman. In World War II he again joins the Saracen, this time as her Captain. Lively reading with lots of action.

THE LAST BATTLE—By Cornelius Ryan. Non-fiction. This work portrays vividly those last two weeks in which the City of Berlin was smoldering in ruins and terrorized, yet still miraculously very much alive. The last refuge for Hitler—the last defense for the Germans—and in the opinion of many the pre-ordained source for a new conflict. A book of suspenseful drama and of prime historical value.

CONGO KITABU—by Jean Pierre Hallet. Jean Pierre Hallet spent 18 years in the Belgian Congo and writes a memorable book concerned mostly with the wildlife of the Congo. He has a genuine concern for the preservation of the animal species and feels that we have no right to hunt and take away the life of anything for any reason other than sheer survival. Other than a strong desire to take over the reins of the U. S. Army Pacific and "get on with it."

FIRE UNDER THE ASHES—by James McNeish. This is an informal biography of the life and the crusading spirit of Danilo Dolci. Dolci was dedicated to improving the standards of living of the Sicilian people. His methods were often very unorthodox and questionable. He was a radical sometimes accused of being a Communist, but certainly a dynamic and dedicated man.

NO PEACE FOR THE WICKED—by Elizabeth Ferraris. A new mystery for you avid mystery readers. A middle-aged woman and her young niece plan a vacation trip abroad and become involved in mystery, intrigue and murder.

WATCH THE WALL, MY DARLING—by Jane Hodge. A novel of romantic suspense. Setting is the South Coast of England during the Napoleonic Wars. Christina learns that her cousin Ross heads up a smuggling gang and also is a Secret Agent for the Crown. She becomes involved in a series of dangerous adventures.

THE MONUMENT—by Nathaniel Benchley. In this novel Benchley shows us a kind of humor that points out that human comedy is often quite tragic. A movement started in a small New England town to erect a monument to the town's only war casualty, a former town ne'er-do-well who died in the Korean war. The proposed monument project splits the town loyalties. The characters drawn by Benchley are realistic and often strike close to home for many of us. Written with humor and biting satire.

THE SIGN OF THE PRAYING TIGER—by Lucian Burman. Very light fiction, this is a hilarious account of an expatriate American hillbilly, an expatriate stranded on an island near Indonesia. He opens an America style "Success School" on a houseboat and becomes involved in some most incredible predicaments.

Gen. Dwight Beach Prepares To Assume Pacific Command

General Dwight E. Beach, recently named by President Lyndon B. Johnson to become commander-in-chief of the U. S. Army Pacific, will take over his new command Sept. 1, according to word received from Seoul, Korea.

He is presently serving as commander-in-chief of the United Nations Command, Commander of the U. S. Forces in Korea and commanding general of the 8th U. S. Army.

The four-star general, one of 13 currently on active duty in the U. S. Army, was born in Chelsea on July 20, 1908.

As commander-in-chief of the U. S. Army of the Pacific, he will be in over-all command of U. S. Army troops stationed in Japan, Korea, Hawaii, Ryukyu Islands, the 8th U. S. Army, the 25th Infantry Division and U. S. Army Forces on Taiwan. The headquarters for the Pacific command are at Fort Shafter near Honolulu.

The U. S. Army Pacific is the largest single army command in the Free World.

The Vietnam war will be one of the many sensitive areas confronting General Beach when he succeeds General John K. Waters, the present Pacific commander who is retiring Aug. 31.

General Beach made a one-week inspection trip to Vietnam before the announcement had been made that he was to be the new commander. His interest in the Vietnamese situation has been increased because it was his U. S. Army Advisory Group in Korea which helped train and equip the Republic of Korea Army troops now fighting in Vietnam.

In a recent statement, General Beach said: "Korea is the northern anchor of the Free World position in the Far East and Vietnam is the southern anchor. The northern anchor has not been under attack since 1953 and the reason is that we have a powerful military force in the Republic of Korea backed by two U. S. divisions."

At the time he learned of his appointment, General Beach said: "It will be a sad day when I leave Korea." But the general also expressed a strong desire to take over the reins of the U. S. Army Pacific and "get on with it."

Combat in the Pacific is not new to General Beach.

During the early stages of World War II as a lieutenant colonel, he fought his way across the Southwest Pacific with the 167th Field Artillery Battalion which he commanded. By the time he had reached the Philippines he had been named 24th Infantry Division Artillery executive officer. At the end of WWII, General Beach had participated in four amphibious assaults—Atsugi, Maffin Bay, Wakde, and Palawan.

For gallantry in action, during the Maffin Bay assault, he was awarded the Silver Star, the third highest decoration for heroism in combat.

A veteran of 34 years of service, he took charge of his 7th command in Korea in July 1945. He was the 46th Infantry Division Artillery commander from December 1953 to March 1954 when he took command of the 45th in Korea for one month. From March 1954 to November 1954 he was with the 8th Army in Korea and became 8th Army chief of staff in November 1954 until April 1955.

Although he has been the top

GENERAL DWIGHT E. BEACH

U. S. military commander in Korea for less than a year, he has become widely admired and respected by his troops and the Korean people.

Commanding troops in the opinion of General Beach, is the most rewarding job in the military. General Beach commanded the famed 22nd Airborne Division at Fort Bragg, N.C., from June 1950 to April 1951. He is a qualified Senior Parachutist which requires a minimum of 32 jumps.

General Beach also commanded the U. S. Army Combat Developments Command from August 1963 to June 1965. For developing a new doctrine for land warfare, General Beach was awarded the Distinguished Service Medal, the highest U. S. award for meritorious service not involving actual combat.

During his military career, General Beach has been 11th Airborne Division Artillery commander, director of Special Weapons Development, and an instructor at West Point, the Field Artillery School, Command and General Staff College, and the Army War College.

Known for keeping his troops informed and enlightened, General Beach has afforded selected members of his command the opportunity to question him twice a month on the American Forces Korea Network telecast of "Commander's Time." The increasing popularity of the show, where the four-star general has answered questions and expressed his opinion on a variety of topical subjects, is also carried over AFKN radio so units in the northern portion of the Republic of Korea are aware of their commander's thinking.

Another program that General Beach believes is vitally important to his soldiers is called "Soldiers' Situations" and "Solutions." Various engagements of the Korean War are related to troop audiences during training classes using maps and projected slides. In this way the U. S. soldier in Korea is shown the best possible solution in various combat situations.

The program has received the wholehearted support of General Beach.

In addition to the Distinguished Service Medal and Silver Star, General Beach has been awarded the Legion of Merit, Bronze Star and Air Medal with Oak Leaf Cluster. Before entering West Point in 1928, he attended the University of Michigan in Ann Arbor.

For two years, in 1930, he joined the Theta Chapter of Sigma Chi. He is a 1932 graduate of West Point.

His brother, David A. Beach, lives at 237 Jefferson St., Chelsea. His other brother, Kenneth O. Beach, was killed in action during World War II in the Philippines. Their parents, the late Mr. and Mrs. D. Edward Beach, were life-long residents of Lima township and Chelsea.

A 1928 graduate of Chelsea High School, he was a varsity football team in 1925 and 1926 and also played varsity basketball.

In September 1930, General Beach married the former Florence Clem of San Antonio, Tex. The Beach family is one whose lives have been strongly tied to the military. General Beach's wife is the granddaughter of Johnny Clem, an immortal figure of the war between the States who has subsequently come to be known as "Johnny Shiloh." Johnny Clem enlisted in the Army in May 1861 at the age of nine, just one month after Fort Sumter had been fired upon. When he retired at the end of World War I he was a major general.

The Beaches have five children: Mrs. Donald B. (Ann) Jackson, 21, Cadmus, Wyoming; Capt. Dwight E. Beach, Jr., 24, (USMA '50), currently an instructor at West Point and living with his wife at 32 Payson Rd., Cornwall-on-Hudson, N.Y.; Cynthia, living with her husband, Capt. Richard Guthrie with Special Forces at Fort Guitch, Canal Zone; Lillian, living with Mrs. Beach's mother, Mrs. John L. Clem, at 1412 Mary Dr., San Antonio, Tex.; and living with her parents in Seoul.

General Beach is probably one of the few people who, as a boy, did not want to be a fireman. He wanted to be a soldier. He is.

Sports Quiz Answers...

1. The U.S. team.
2. Jim Ryan of Kansas U.
3. Sonny Siebert of Cleveland.
4. Yes.
5. 54.

POSTAL WORKERS & BONDS

Postmaster General Lawrence F. O'Brien told officials of his department that Federal employees have the right to refuse to buy U. S. savings bonds. Reportedly, pressure had been used on employees to buy bonds by two postal unions.

Detroit Attorney Named To Head Michigan VFW

Grand Rapids — The Veterans of Foreign Wars today elected a well-known Detroit attorney, Boniface R. Maile, commander of the Department of Michigan, VFW at closing sessions of the group's 47th annual state convention which opened here June 23.

Maile, 58, of 789 Balfour Rd., Grosse Pointe takes command of the 55,000 member organization succeeding Clarence Schumacher of Rockford. Disabled in New Guinea in WW II, and National Commander of the Disabled American Veterans in 1950, Maile is the first in Michigan's VFW history to have served as national commander of another veterans organization prior to becoming VFW State Commander.

In accepting office Maile told the 3,000 delegates gathered at the Grand Rapids Civic Auditorium that "today with anti-Vietnam demonstrations common in the United States, the VFW takes on in addition to rendering service to veterans, their widows and dependents a mutual obligation to spearhead a revitalizing of patriotism, giving importance to what's right with America."

"None can speak more eloquently on behalf of peace and patriotism than those who have fought in war," said Maile.

"Checking Communist aggression is our primary objective in Vietnam. Our own security is tied to peace in Asia and the free world. To ignore aggression only increases the danger of a larger conflagration," he continued.

Maile said unless patriotic organizations "like ours arouse in loyal Americans the dedication and the domestic."

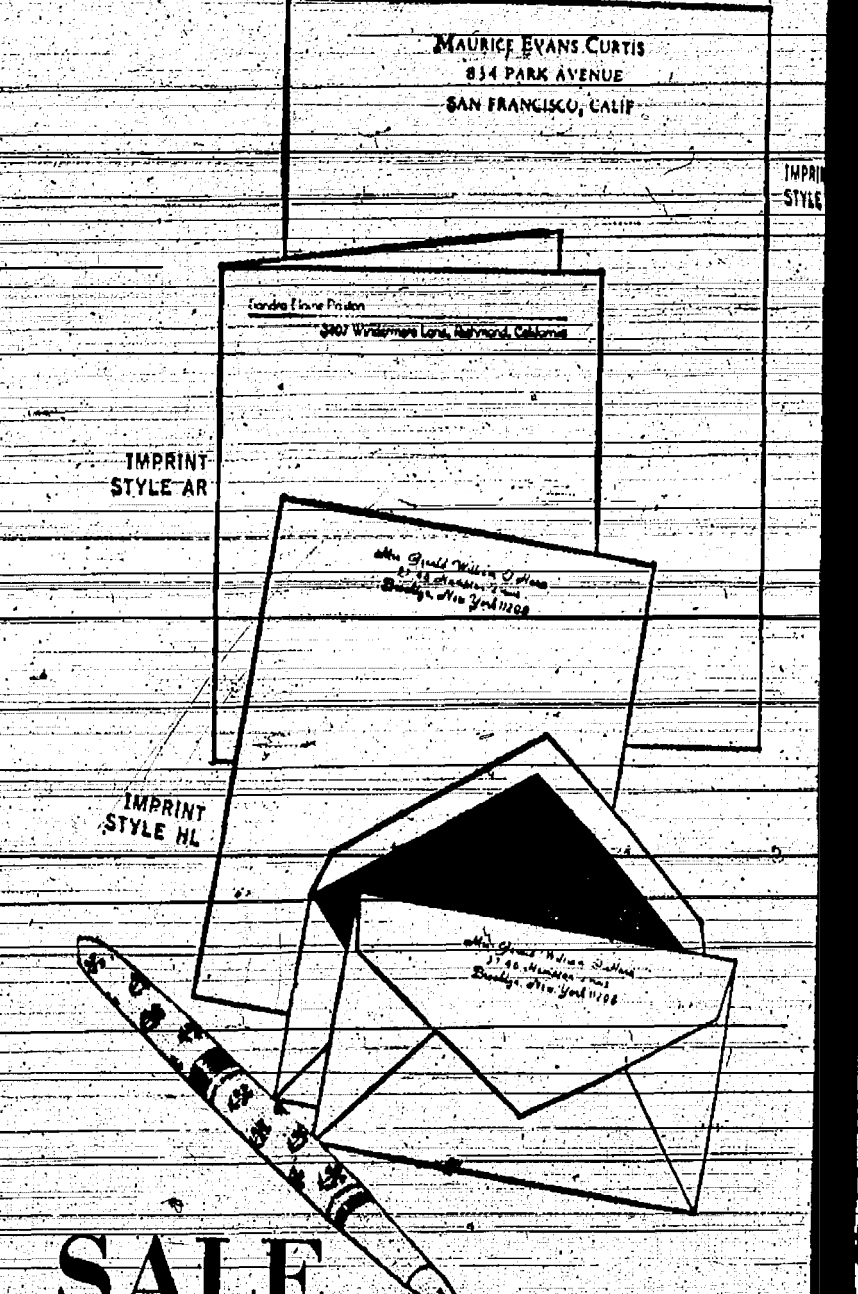

BONIFACE R. MAILE

and devotion acquired to maintain freedom, the outlook for the future will be a bright one. "We have an inheritance of a great American backbone to sustain determination to attain it in 200 years ago," Maile said.

FIRST PAPER

The first newspaper published in the United States appeared in Boston in 1689. Publisher Benjamin Harris called the four-page "Public Occurrences. Both Foreign and Domestic."

SALE
Save \$3.51 on **Rydex**
Flight personalized stationery
