V Gridders Win Opener at Fowlerville

The Chelsea Junior Varsity foot- l team opened its season Thurs- evening with a 13-0 victory the Fowlerville JV team.

Neither team was able to get offense rolling in the first f a common ailment in season ners, but both teams showed a ng defense.

Chelsea suffered two bad breaks the first half when a good punt urn was called back because of lip and later when a fumble oc- red on the Chelsea 20-yard line owing a punt by Fowlerville.

Fowlerville JV's were unable capitalize on either error.

During the second half the Chel- offense was sharper, tougher more aggressive. An inter- ted pass by Tim Colvia, which returned to the Fowlerville one- d line, set up the first Chelsea e. Craig Houle swept the right for the score.

Council Extends Tax Deadline For Last Time

The Chelsea Village Council, at the regular Sept. 20 meeting extended the deadline for the payment of Village taxes to Oct. 20. After that date, any unpaid taxes will be considered delinquent and will have to be paid to the Washtenaw County Treasurer, with an added penalty.

After a lengthy discussion, the Council was evenly divided on allowing an extension this year. Since this practice is an antiquated practice stemming from the depression period of 1932 and the fact that the taxes are legally due on Sept. 20 of each year, the Council moved that this would be the last extension.

The feeling among Council members was that the period between July 1 when the statements are mailed out and Sept. 20 is an adequate length of time for payment and that the extension only brings the deadline closer to the fall tax period.

Bulldogs Lose Contest at Fowlerville

The Fowlerville Gladiators defeated Chelsea Bulldogs 27 to 0 last Friday.

The Bulldogs for the second week in successions were unable to score a point from offense.

The Chelsea Bulldogs kicked off to Fowlerville to start the game. Fowlerville returned the ball to the 30-yard line where Chelsea held and forced a punt.

The Bulldogs were unable to move and were in turn forced to punt. Again the defense held Fowlerville in check and the teams traded punts.

Fowlerville scored on this series, going 55-yards with quarterback Gary Kenroy going the last 30 with a sweep of end. The extra point was good by Kenroy.

Chelsea was again held on offense and the Fowlerville team scored again, this time halfback Larry Sparks going from 21 yards out. Sparks also scored from seven yards out, making the score 21 to 0 at half-time.

Starting the second half Chelsea took the kick-off and showed some offense, moving to two first downs. Here the drive stalled and the Bulldogs' Jack Speer was forced to punt.

Fowlerville came right back and scored on a 22-yard reverse to end the scoring for the night.

Chelsea's halfbacks Tom Bowling and Don Salyer led the Bulldogs' running attack.

The Bulldogs travel to Dundee next Friday to play the Vikings. Game time is at 7:30 p.m.

A public showing of Chelsea Bulldogs film will be shown Wednesday, at 7:30 p.m. in the Audio-Visual room in the High school.

Girl Scout Adult Leaders Still Needed

Brownie and Junior Girl Scout leaders are still desperately needed to continue the Chelsea girl scouting program.

Four Junior Girl Scout Leaders and one assistant leader plus five Brownie Scout leaders must be found to continue those scouting programs.

Because of the lack of volunteers, no new Brownie members can be accepted unless more mothers volunteer to help. None of the Brownie troops will be organized until leaders are found for all the Brownie troops.

Scout officials emphasized that no Scouting experience is necessary as leadership training is available through the Girl Scout Council. All interested persons are asked to call Mrs. Brice Graham at GR 9-5721 as soon as possible.

A special meeting of mothers of Brownies and Junior Girl Scouts and members of the two organizations has been called for Wednesday, Oct. 5 at 3:45 p.m. in the all-purpose room at North Elementary school.

Two Brownie leaders and one Junior Girl Scout leader volunteered following an appeal last week for leaders. Three Junior Girl Scout Troops, 82, 58 and 47, have started meeting or will begin meetings soon. The girls will be notified as to future meeting dates.

The Girl Scout Neighborhood Association met Monday evening, Sept. 26, in the Junior High school home economics room. Nineteen leaders and neighborhood service volunteers, including the chairmen, secretary and troop consultants, attended the meeting.

A nominating committee from the Girl Scout Neighborhood Association will meet Thursday, Sept. 20, at 7:30 p.m. at the home of Mrs. Paul Mann. They will nominate a neighborhood chairman and a troop consultant. Mrs. Wilbur Worden, the present neighborhood chairman, and Mrs. Warren Eisenbeiser, who is troop consultant, cannot succeed themselves again because of a Scout by-law prohibiting the same person from holding the position for more than six years.

Social Service Agency Cites Housing Need

Board Points to Scarcity of Low Cost Housing for Increasing Population

Annual reports were presented at a luncheon meeting of the Chelsea Social Service held in the agency's quarters in the Municipal Building at noon on Sept. 20.

According to the report of the Treasurer, Mrs. Leroy Hoffman, the organization received $2,088 from the Community Chest, plus $20 in individual donations during the year.

Disbursements totalled $1,744.02, covering expenditures for assistance and administrative expense. The largest single item was a total of $682.47 for grocery orders, while $107.49 was used for purchase of new clothing.

In reporting on the work of the agency, Mrs. Louis Ramp, the director, said that 362 families or individuals have been known to the Social Service during the 10 years they have been operating. Of these, 27 were new this year and 34 of the clients from former years have been seen this year.

Interviews for the year totalled 262, which added to those from former years made, 2,587 interviews since the inception of the agency.

As usual, the peak periods of activity were at the beginning of the school year, when requests for clothing were heaviest, and at the Christmas season.

The Social Service operates a Christmas Bureau, processing both requests for gifts for the needy and offered help from individuals and groups, thus insuring more even and complete distribution than would be possible without guidance.

Mrs. Ramp also told of ways in which the Social Service has cooperated with persons working on the President's Anti-Poverty Program, mainly by providing statistics and data on local conditions to qualified workers on the program.

All present officers of the Chelsea Social Service Board were re-elected, with the list as follows: Louis Burghardt, president; Mrs. R. W. Wagner, vice-president; Mrs. Paul Scaible, Sr., secretary; Mrs. Leroy Hoffman, treasurer.

Other members of the Board are: Harold Jones, Mrs. Arthur Schmunk, Mrs. E. W. Eaton, Charles Lancaster and Don Houle.

Mrs. Louis C. Ramp continues as director with Mrs. David Colquhoun as assistant.

The meeting closed with a discussion of the need for low-cost but modern housing in Chelsea, where a rapidly increasing population has made vacant housing virtually non-existent. The need appears greatest among the indigent and low income group, whose needs seldom come to the attention of the public. The Board went on record as urging that action be initiated to determine need for and methods for securing needed low-cost housing for Chelsea.

Three Injured In Two Separate One-Car Accidents

The setting sun temporarily blinded Craig B. Price, 24, as he and his wife, Margaret, both of Jackson, were driving west on Pleasant Lake Rd. near Fletcher Rd. in Freedom township late Sunday afternoon, according to Washtenaw County Sheriff's officers.

Price's car veered off the north side of the road as he approached a curve, careened 230 feet into a small embankment, came back across the road for another 300 feet and finally stopped after landing in a ditch on the east side of the road.

Both were taken to St. Joseph Mercy Hospital in Ann Arbor.

THE LANSING REPORT FROM senator GIL BURSLEY

The Senate Appropriations Committee will be meeting all day next Monday to consider a supplemental appropriation for the Mental Health Department. Whatever we agree upon will be readied for action when the entire legislature reconvenes on Oct. 11.

Reasons for this speed-up in implementing authorized mental health programs is four-fold.

1) Local programs for community mental health services are being developed more rapidly than was anticipated when the budget was prepared. Applications have been received from seven counties (including Hillsdale-Jackson) not originally expected to be ready with programs for another year. Their total programs are set at $1,350,000 of which the state must pick up 75 percent or $1,012,000. If we want these community mental health programs to start this year a supplementary appropriation or allocation of $1,000,000 will be necessary.

2) Three new patient buildings at the Plymouth State Home and Training School will be completed and may be occupied ahead of the budgeted schedule. Buildings for the blind, handicapped and for toddlers will be completed two to four months earlier than expected. Funds for earlier staffing and admission of patients are estimated at about $506,000.

3) Civil Service pay increases have resulted in an accelerated recruitment pattern which neither the Executive nor the Legislature had reason to believe would occur. The Department as a result has virtually eliminated all personnel shortages.

Earlier there had been great difficulty in recruiting personnel in southeastern Michigan because of higher wage levels in private industry. The Department with authority from Civil Service recruited basic nursing personnel at higher than minimum pay rates and thus filled existing vacancies. Likewise the Department secured from Civil Service a new higher classification for basic nursing personnel in all state hospitals. This was needed to retain the more skilled and trained employees. The effect of these two types of Civil Service pay increases will add $616,145 to the budget.

The practical effect of coming to virtually full staffing at earlier dates than anticipated makes it possible to advance the starting date for eight new programs authorized by the legislature for the current fiscal year. None of the proposed new programs would be expanded beyond the legislative intent or authorization. They would merely be commenced at an earlier date and this would require $791,000. These eight new programs include day care centers for 500 more retarded children; improved hospital services for emotionally disturbed children; improve hospital control of contagious diseases; improved intensive treatment for chronically ill; improved hospital growth and development for retarded; expanded aftercare services in consultation centers; and training officers in hospitals.

4) A correction in underestimated salary levels has been requested by the Department.

In summary, most mental health programs authorized by the legislature may now be implemented at a much more rapid rate than was believed possible.

The Senate Appropriations Committee will have to weigh these requests for funds and after reviewing all the facts we will have to prepare responsible recommendations for presentation to the legislature on Oct. 11.

Hollow Law?

Views vary on what the effect of Michigan's new conflict of interest law will be.

Demanded by Gov. George Romney in conjunction with the legislative and executive pay raises enacted this year, the law is intended to avoid possible charges of influence peddling by persons in authority.

People who praise the new ethics law say it will get and keep state employees and officers at all levels out of positions where their offfcial knowledge could possibly be construed as beneficial inside information.

Critics of the law contend that its language is so vague that it cannot be effectively enforced to eliminate the practices intended to be stopped.

Even the few specific sections lack teeth for enforcement, the critics say. For example, one section prohibits legislators who are lawyers from representing clients before state government boards or commissions, but discipline for infractions rests with the legislative house in which the violator is a member.

Another section prohibits any government employee from having "a direct or indirect interest, financial or otherwise, in a contract with the state or any of its political subdivisions." Violation of this ban calls for "appropriate disciplinary or civil action," but the appropriate action is not specified in any way.

Even among the critics the views vary. While some say the vagueness makes the law ineffective, others contend its provisions are too detailed.

Certain language makes the law apply virtually to everyone who is paid a salary or expenses from tax funds of any Michigan government unit, not just the state itself.

Thus, this group says, a business executive in a community might be prevented from serving on a school advisory committee if his firm had any dealings with the school system. This could occur if committee members were paid expenses for serving.

All sections of the new law are being studied carefully by the Attorney General's office at this time.

One saving grace, the critics say, is that the law does not take effect until next spring. Conceivably before that time amendments could be passed to correct any unclear or unnecessary language or any obvious omissions.

More and More

Citizens who lament the increasing growth of government at all levels rarely find anything to cheer in the state Civil Service Commission's annual personnel report and this year is no exception.

Many used to find encouragement in the idea that if the government was in the hands of the Republicans, the trend toward bigger and bigger government would end. This idea no longer holds true.

This year's commission report indicates some 4,000 employees have been added to the payroll since 1962, when a GOP chief executive took over.

Some state Republicans will try to blame the increase in the public payroll on Democrats who have controlled the legislative purse-strings the past two years. This accounts only for two of Gov. George Romney's four years in office.

Another argument will be that the Democratic-controlled federal government keeps getting bigger and the state must do its best to get back as many of its tax dollars as possible.

Most politicians legitimately emphasize that the public is constantly increasing its individual and collective demands on the government and they must be responsive to these demands.

Growing Danger

Shocking news that water accidents in the first nine months of this year killed as many people in Michigan as during all of 1965 has provoked a call for increased concern about water safety.

For most people, water sports activity ends in September when summer vacation comes to a close.

Fatalities in Michigan water mishaps through Sept. 15 totaled 285, as compared with 235 during all of 1965. At the mid-September mark last year, however, the water death toll stood at 210.

Water activity does not end in Michigan at any time of the year, the recorded statistics show.

Last year, for example, the final three months of the year accounted for 25 deaths.

Some boat enthusiasts stick with their sport almost until the first snowfall. In the heaviest part of the winter, ice-covered ponds, streams and lakes post a great temptation and danger for cold weather fans.

As in the case of highway safety, the time for concern and diligence over water safety is 12 months of the year.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR

I heard my preacher say onct that nothing in this world never happened by what he called "coincidance," that everthing in life was planned by the Lord. Natural, I got to believe my preacher, and fer that reason I figger this little matter that happened to me last week was the Lord's planning.

But first all, I want to say I'm agin this habit some folks has of going to another town or the big city to buy stuff. When I have to borrow money, which is about twict a year, I don't go to the bank in the next town. And when I die I'm practical certain if any tears was shed they would be shed by my neighbors and home folks.

But the wimmen folks was the worst offenders in this matter. They figger the shopping pastures was always greener some place else. My old lady, fer instant, ever now and then was ordering a item from a mail order house. Last week the mailman brung her one of them fancy frying pans that don't need no scouring. It was wrapped up in scraps of old newspaper and on one piece you could see the date, Monday, September 9, 1963. I got to looking at it and they was a short article saying Presient Kennedy was worried over the surplus of wheat, that the nation's grain elevaters and storage places was filled to capacity, and the Guvernment was allowing the sale of wheat to them Russians on account of we had no place to put it.

The same day the mailman brung my old lady's frying pan, he fetched my pamphlet from the Department of Agriculture and I reckon, Mister Editor, that's where the Lord's planning come in. My pamphlet said we was running into a bad shortage of wheat and it looked like we was going to have to put more acres in wheat on account of the Russians had contracted to buy all Canada's surplus wheat fer the next three year and Canada was the only other county in the world that had any wheat to spare.

And us ole footlog and briar patch boys has got enough experience in these matters to know any time this country gits short on wheat the price of bread and flour was going up. Farthermore, you don't have to be no footlog expert to know; when we put more acres in wheat, we was going to have to cut down on feed fer cattle and hogs and the price of meat will git sky high.

It ain't going to hurt the farmers and ranchers that raises and grows their own but it'll be mighty hard on you city folks and I want to extend my deepest sympathy to you, Mister Editor, at this time.

It's like the system we got fer developing machines that does all the work and at the same time running a billion dollar program fer unemployment.

Yours truly,
Uncle Lew.

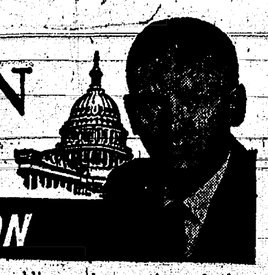
ART STEINAWAY, Chairman DAVE ROWE, Co-Chairman

Congressman Wes VIVIAN Reports from WASHINGTON



All of us, citizens and public officials, lament the fact that the cost of living is rising in the United States; members of the United States House of Representatives are no exception.

Last week, the annual Public Works Appropriation came to a vote in the House of Representatives. The Appropriations Committee recommended an appropriation of somewhat over $1.3 billion for various Public Works projects.

During this time of inflationary pressure, I believe that we should defer and curtail non-essential spending. In my opinion, tens of millions could have been cut from the Public Works Appropriation bill that came before us, without deminishing our nation's health, welfare and security.

Because of my strong belief that government spending must be curtailed this year, I voted against the appropriation. I hope the Committee will reduce remaining appropriations yet to come.

The remarks I made during the debate on the bill will be of interest to you.

Mr. Chairman, as many members have reiterated today, it is incumbent upon us this year to cut out or cut the costs of all defendable Federal programs, and projects, in order that we will be able to continue adequately, and in some cases to increase, truly essential programs. Several amendments were proposed today to the public works portion of the appropriations bill before us, which would have reduced the cost of the bill without, in my opinion, being detrimental to this nation. I am disappointed that none of these were adopted.

I am sure that the members of the Appropriations Committee, who handled this bill, and of the Public Works Committee, who handled the predecessor authorization bill, took their duties seriously and have offered what they consider a good compromise. But I personally feel that a lesser cost compromise would have been preferable.

A principal reason why none of the amendments were adopted of course is patently clear. A number of individual members here today who have told me they would like to vote against specific projects, also told me a fact we all know, that they as individuals are not desirous of having the sponsors of these specific projects discover their disaffection, for they fear that possible future projects in their own district, even though of potentially much greater merit, might suffer. And as all of us have observed, at no time have standing or teller votes been asked on any one of the amendments—a situation which is rare on a bill of this magnitude.

Mr. Chairman, I conclude that the best course I can follow to express my dissatisfaction with the cost of this bill, and my disappointment with the situatioon which prevails on the floor, is to vote against the bill.

Four Chelsea Servicemen Participate In Giant Navy Training Exercise

Four Chelsea Navy men participated in a naval exercise entitled "Eager Angler" recently.

The four, Seaman Apprentice Donald L. Dickelman, Seaman James R. Perry, Seaman David E. Aldrich and Electronics Technician Paul J. Schramm, Jr., are each assigned to different ships. A total of 29 ships ranging in size from attack aircraft carrier to minesweeper participated in exercise Eager Angler.

Seaman Dickelman, son of Mr. and Mrs. Edwin Dickelman of 253 Harrison St., Chelsea, is attached to the USS Canberra; Seaman Perry, son of Mr. and Mrs. John Perry of 509 W. Middle St., Chelsea, is a crewmember aboard the USS Turner Joy; Technician Schramm, son of Mr. and Mrs. Paul J. Schramm of 5800 Stofer Rd., Chelsea is assigned to the USS Long Beach, and Seaman Aldrich, son of Mr. and Mrs. Gale Aldrich of 116 Buchanan, Chelsea, is aboard the USS Bennington.

All four ships are part of the First Fleet.

Exercise Eager Angler is designed to ready ships for combat roles in the Western Pacific. Vice-Admiral Bernard F. Roeder, Commander First Fleet, was in overall command of the mine exercise which commenced on Sept. 13.

Among the phases of naval warfare stressed were air and anti-air operations including aerial strikes with live ordnance in the bombing ranges of the Chocolate Mountains and San Clemente Island; close air support and aerial reconnaissance.

Training in shore bombardment by cruisers and destroyers, and PT boat operations, communications techniques, simulated search and rescue operations were also included.

Seaman Dickelman entered the Navy in October 1965, and has been stationed aboard the USS Canberra ever since completing his boot training at the Great Lakes, Ill., training center. He returned in May from duties in the South China Seas and is scheduled to return to Southeast Asia in October. The home base for the Canberra is San Diego, Calif., where Seaman Dickelman completed a six-week Naval Yeoman's Course following his boot camp training.

Technician Schramm graduated in 1962 from Chelsea High School and entered the Navy in October of the same year. He has completed several training courses during his tour of duty with the Navy, including one in submarines and another in nuclear power. He was assigned to the USS Long Beach in March, 1966 and previously had been in naval stations at the Great Lakes, Ill.; New London, Conn.; Hawaii; Vallejo, Calif.; Hartford, Conn.; Norfolk, Va.; Port George, Va.; and now in California.

Seaman Perry graduated from Chelsea High school in 1964 and entered the Navy the same year. His home station is in Long Beach, Calif. He returned last year from seven months duty in Southeast Asia.

★ Local Government Legislation, '66 Session

PUBLIC ACT 135 — authorizes township boards to adopt any standard heating or air conditioning code, or any parts of such a code which has been promulgated by the state, a state department, board or agency, or by any national organization or association conducted for the purpose of developing such a code. (Effective 6, 23, '66.)

PUBLIC ACT 136 — allows the township board to authorize the township park commission to act as the township recreation board. In addition, the bill provides that the township shall fix the compensation paid to the members of the township park commission. The compensation and expenses shall be paid from the park maintenance fund or the township general fund. (Effective 6, 24, '66).

PUBLIC ACT 143 — provides that the director of the county board of social welfare and his assistants shall hold no elective office, shall devote their entire time to their duties, and shall receive such compensation as shall be fixed by the state civil service commission in addition to necessary travel and other expenses. This provision now only applies to the director. In addition, the travel and other expenses of the director and his assistants may be disapproved by the civil service commission. (Effective 6, 24, '66).

PUBLIC ACT 144 — requires that the owner of a dwelling shall be given an opportunity to appear at a hearing before the legislative body of a local unit to show cause why his dwelling should not be repaired or demolished.

PUBLIC ACT 145 — allows a village to issue bonds, except special assessment bonds, for local improvements up to 40 percent of the cost of the improvement if approved by a majority of the electors voting on the issue. Such bond issues now require approval by a 3-5 majority of electors voting on the issue. (Effective 6, 24, '66).

PUBLIC ACT 178 — makes appropriations for the fiscal year ending June 30, 1967 to the Department of Commerce to assist political subdivisions of the state in the construction and improvement of publicly used airports. In order to receive this aid, a political subdivision must provide matching funds and the fund shall be administered by the aeronautics commission. (Effective 7, 1, '66).

PUBLIC ACT 182 — would require the local legislative bodies of cities to provide for wards, from which members may be elected or nominated (unless the members are elected at large), which are as nearly equal in population as practicable, contiguous and compact. The local legislative bodies would be required to so apportion their wards not later than December 1, 1967 and to reapportion them after each subsequent decennial census. (Effective 7, 1, '66).

PUBLIC ACT 193 — provides that in counties where a county planning commission has been established the township planning commissions shall file a copy of all township zoning ordinances, and amendments, with the county planning commission.

State's Water Accident Toll for '66 Already Exceeds Last Year's

Michigan's 285 deaths in 575 water accidents in the first eight and one-half months this year already exceed by 50 fatalities and 28 accidents the state's water toll for all of 1965, according to State Police preliminal figures.

Through Sept. 15 last year there had been 210 persons drowned in 474 water accidents. The full year total of 1965 was 235 deaths and an equal number injured in 417 accidents.

The breakdown on 251 deaths this year on which official reports have been received included 141 swimmers or wader, 40 who fell from bridges, banks, docks or piers, 29 boat operators, 26 boat passengers, 17 who fell through ice, three who attempted to rescue others, one skin or scuba diver and one who fell into a tank. Provisional information has been received on 31 other deaths. At least 203 persons have been injured so far this year.

With the advent of cooler weather in the fall months, the state's water accident toll normally decreases markedly.

Congressional Dinner Slated Oct. 6 at Dundee

The annual Second Congressional Dinner will be held on Saturday, Oct. 22 at 7:30 p.m. in the gymnasium of the Dundee High school, general chairman LeRoy Cappaert of Ann Arbor announced today. Tickets will shortly go on sale.

"The District Dinner is an annual tradition for Democrats and their many independent and Republican friends in Lenawee, Livingston, Monroe, and Washtenaw counties and those areas of Wayne county which are in the Second District," Cappaert said. "All of the proceeds from the dinner will, as in the past, go toward the campaign expenses for the re-election of Congressman Wes Vivian."

In announcing the dinner, Cappaert announced that the district ticket sales chairman will be Joseph A. Frisinger. He also states that a prominent Democratic official of national stature will shortly be announced as the dinner's main speaker.

The average adult, with all wisdom, rarely understands how much the average child understands.

College Students Eligible To Try For Federal Jobs

U. S. Congressman Wes Vivian announced today in Washington that college students from the Second Congressional District will be eligible to compete in a nation-wide Office and Science Assistant examination for many of the temporary jobs in the Federal departments and agencies that will be filled in the summer of 1967. The examination includes a written test for jobs at grades GS-1 through 4, with salaries ranging from $69 to $92 per week.

For similar jobs during the summer of 1966—the first year a competitive test was given—more than 105,000 applicants competed.

The test for jobs in the summer of 1967 will be given on three different test dates in Adrian, Ann Arbor, Jackson, Toledo, and more than 1,000 cities and towns across the country.

Candidates wishing to take the test on Nov. 26 of this year must file applications by Oct. 21; those wishing to compete on Jan. 7, 1967, must file by Dec. 9, 1966; and candidates for the Feb. 4, 1967, examination must file by Jan. 9, 1967.

All interested citizens will be given equal opportunity to compete.

Congressman Vivian explained that those interested in Federal summer employment in 1967 should obtain a copy of Civil Service Commission Announcement No. 401 entitled "Office and Science Assistant Examination for 1967." A pamphlet "Summer Jobs in Federal Agencies," providing detailed information on the kinds of jobs that will be available and further guidance for applicants, will be distributed during the month of November. The announcement and the pamphlet will be available at college placement offices, boards of civil service examiners, offices of the Civil Service Commission, and civil service information points in some Post Offices.

Applicants may use the tear-out form which is a part of the announcement leaflet or ask for Civil Service Form 5000-AB to make application to the U.S. Civil Service Commission, 1900 E. Street N.W., Washington, D.C., 20415.

Candidates may select any one of the three test dates and may choose a city where the test is being given. The Commission will notify each applicant of the exact time and place. The test measures clerical skills, vocabulary, reading comprehension, abstract reasoning, and table and chart interpretation. The time required to take the test is about two hours.

If your listeners show signs of inattention, just intersperse your remarks with a compliment; that will bring 'em back to life.

He was born May 10, 1896 in Chelsea, the son of A. Henry and Louise Wacker Schumacher. His father had been a Chelsea blacksmith for 70 years. He was married to Ruth Widmayer in New York City on June 7, 1918. She died Nov. 3, 1946.

He was a graduate of Chelsea High school and the University of Michigan. He received an honorary doctorate from the University of South Dakota. He had retired as director of research for Bell Telephone Laboratories in New Jersey in May, 1961. Since that time, he had acted as a technical consultant for firms in Connecticut and Minnesota.

Funeral services were held at 3:30 p.m. Monday at the Burghardt Funeral Home, with the Rev. Philip Rusten of Ann Arbor officiating. Burial followed in Oak Grove cemetery, Chelsea.

Light Frosts Hit Area While Montana Swelters

Fall colors have begun to show in woods throughout the area, and nippy weather testifies that fall is on its way.

While the Montana banana belt continued to report temperatures in the 90's, Michigan temperatures dipped to a low of 34 degrees Monday evening and registered in the 40's and 50's throughout most of the preceding week.

Light frosts have been reported in low areas throughout the vicinity, but little crop damage has been reported.

Waterloo Recreation Area Personnel Hosting Napoleon 6th Graders

The Waterloo Recreation Area is hosting 105 Napoleon School District sixth graders this week at Cedar Lake Camp.

This is the fourth year the Napoleon schools have included such an outing in their schedules. Nature study, arts and crafts, lecturers, movies and recreation are included in the scheduled activities.

Accompanying the students are the principal, teachers and six high school seniors who are serving as cabin counselors. The pupils all attend Ackerson Lake School in Napoleon.

Mrs. R. J. Greenwood of Redondo Beach, Calif., arrived Friday evening, Sept. 23, to spend several weeks visiting her father, Ray Culhane and her sisters and their families, all of Chelsea and the surrounding area.

Don't complain about the hot days; this is what you longed for back in February.

Can caviar ever be served in the container in which it is packed? Why are porcelain or ivory spoons recommended for serving caviar?

Fresh caviar may be, and traditionally is, served in its original container or in a bowl nestled in shaved or finely chopped ice. Porcelain or ivory is considered best for caviar service because it will not crush the grains of roe.

Fall Travel Incentive

Uncrowded accommodations and, in many instances, reduced rates add incentive to autumn vacations and week-end travel in Michigan, according to the Michigan Tourist Council.

Museums and art centers in metropolitan areas are open year-round, while many of Michigan's zoos and parks are still of interest to vacationers.

Remember the time when everybody rushed out of doors to see a lone airplane flying overhead?

Just A Minute . . .

By the Rev. James A. Craig

A judge in a religious art exhibition, Mrs. Katherine Kuh, commented that "today we don't even know what religion is so how can we know what religious art is?"

There may be some questions about the content of religion but it is not so far past description as Mrs. Kuh might think. Perhaps the real difficulty is in describing religious art.

For most of us religious art is a painting with a religious motif, like the Crucifixion or the Flight to Egypt or the Birth at Bethlehem. But I wonder if we don't make a mistake.

Let's enter a plea for religious art being anything that deals with the real affairs of the world with which men live. It could be a picture of a starving man, or of the destruction of a city, or of the chaos of much of the present world.

Religious art might be a painting of soldiers carrying out their gruesome responsibilities in the obliteration of an enemy or the impersonal masses on the streets of the city.

It might be the relatively calm pastoral scenes of a countryside or the disturbed landscapes of some abstract artist.

There is no end to what religious art might be.

At least there is a good argument for saying that it is not limited to "biblical" subjects. It meets men where they live and offers them some interpretation of the predicament. Thus, in the broad sense, it is religious.

It is religious in the narrow sense as well since it helps him to define what is happening and, by the grace of God, find some meaning in it.

More Than 150 Falls Throughout Michigan

Michigan has more than 150 waterfalls offering autumn appeal to camera fans and nature lovers, according to the Michigan Tourist Council.

Many of the falls are accessible by short foot trails, while others are located along roads and highways.

THE COUNTRY PULPIT:

Three Things You Must Know

There are only three things that you need to know in order to be saved. You do not have to know theology or the doctrines of the church. But there are three things that you must know.

First, you must know that you are a sinner and that you are lost. You will not want a doctor unless you know you are sick. You will not want a rescuer unless you know you are drowning. You will not want to be found unless you know you are lost. You will not realize your need of a Saviour unless you know you are a sinner. Now God says, "All we like sheep have gone astray, we have turned every one his own way" (Isaiah 53:6). "All have sinned" (Romans 3:23). Hence you are a sinner. Do you know it? Will you believe what God says about you?

Second, you must know that you cannot save yourself. "Not by works of righteousness which we have done" is what God says (Titus 3:5). "Not of works" (Ephesians 2:9). You cannot save yourself by being baptized or confirmed nor by joining a church and becoming religious. You cannot save yourself by living a good life, by obeying the golden rule of keeping the commandments. Your own works will never save you. Self-salvation is impossible. You cannot save yourself. Do you know that? Will you believe what God says?

Third, you must know that Jesus Christ and Jesus Christ alone can save you. No one else can. "Thou shalt call His name Jesus, for He shall save" (Matthew 1:21), is what God says. "Neither is there salvation in any other" (Acts 4:12). So then Mohammed cannot save you, neither can Confucius nor Buddha. Religion cannot save you — Catholic, Protestant, or Greek Orthodox. Only a Person can save you. Systems and doctrines, rites and ceremonies, pilgrimages and deeds of merit are inadequate. But, praise God, Jesus Christ, the living, resurrected Christ, God's Son, can save you. Do you know it? Will you believe it?

Then, my friend, all you have to do, if you know these three things, is to receive Jesus Christ as your own personal Saviour. Open your heart to Him now and invite Him in. God says: "As many as received Him, to them gave He power to become the sons of God" (John 1:12). You are a sinner, you cannot save yourself, Jesus Christ can save you. Oh, then, receive Him and receive Him — NOW.

Cub Scout Packs Plan Vaudeville Shows for October

Cub Scouts will put on vaudeville shows and Boy Scouts will compete in Scouting skill contests during October according to the month's program themes announced by Bob Lambert, Scout commissioner of the Iroquois District, Portage Trails Council, Boy Scouts of America.

Cub Scout Vaudeville is the October theme for Cub Scout packs in the Iroquois District and each of the several dens in a Cub Scout pack will prepare a puppet show, magic show, hootenanny, musical review, pantomime, or charade for the monthly pack meeting.

Most of the Cub Scout packs also plan to take part in Fire Prevention Week projects and to work on earning the "Family Alert" pack citation as a part of the emergency preparedness program of the Boy Scouts of America, Lambert said.

Boy Scout troops in the Iroquois District practiced such Scoutcraft skills as first aid, fire building, cooking, signaling, knot tying, compass, and map orientation in preparation for their Camporee that features Shawandо skill events for its patrols--the small groups of boys that make up each troop. The Camporee was held at Big Portage Lake, near Jackson, from Sept. 9-11.

Suggested activities for the high-school-age Explorer posts during October include, a Halloween party, a meeting for prospective members as a part of the Follow the Rugged Road roundup, and a car rally to test Explorers' navigating and driving skill, Lambert concluded.

You can help yourself to longer life if you obey traffic regulations without waiting for a patrolman to catch you.

M Says Prices Adjusted ly for Equipment Changes

rolt — General Motors an- ed prices on all its 1967 passenger cars today. All ars will include as standard ment certain items which extra cost items in 1966 and product improvements. The passenger car price adjust- are less than the 1966 op- prices for those items made rd equipment in 1967 plus justment for the cost of t improvements. Thus, the mer will benefit from the ec- es of mass production result- om the increased volume of items and product improve-

price adjustments made on passenger cars for both the al items and the new prod- improvements made standard e $53 for all passenger cars, on three models remain un- ed. The price on one model ced as a result of the dele- certain equipment formerly rd. The adjustments on oth- dels range from $29 to $80. price adjustments do not e any provision to recover ed wage and fringe benefit which average six percent those in effect a year ago or for increased prices paid for steel, copper, and other materials.

As a result, 1967 marks the ninth consecutive model year that General Motors' cars have been priced at the 1959 model levels (priced in the fall of 1958), adjusted only for equipment changes.

In addition to certain former optional items now being made standard on all 1967 models, many other product improvements have been made.

Certain former optional items are being made standard on all 1967 models, including the four-way hazard warning flasher system, non-glare breakaway interior rear view mirror, front seat belt retractors, and Tire size changes to permit single inflation pressure for most normal use, as well as some convenience items.

The 1966 list prices of optional equipment made standard on 1967 passenger cars range from $16 to $71 and average $37. In some instances, certain items formerly standard equipment have been deleted and prices have been reduced appropriately.

In total, 29 new or improved safety items are incorporated in the 1967 model General Motors passenger cars. The new safety improvements include—the energy absorbing steering column, the first to be announced in the industry; in the event of a severe front-end collision, the steering column compresses at a controlled rate when impact pressure is applied at either end.

Also included are dual master cylinder brakes and warning light, representing a significant contribution to greater vehicle safety and reliability—one of the dual cylinders will control the front brakes and the other the rear brakes — thus two-wheel braking power will be maintained if either circuit is damaged or borken and a warning light signals failure in either system.

Folding seat back latches that lock coupe front seats and station wagon second seats in place; passenger guard front and read door locks which prevent the front doors, when properly locked, from being opened either inadvertently or in the panic of a crash situation (passenger guard rear door locks were standard on 1966 models); fusible link wiring to minimize fire hazards and to facilitate electrical repair; and a freeway lane changer, a driver controlled device operated in conjunction with the directional signal lever when the driver wishes to indicate that he intends to change lanes, have also been added.

All 17 items required by the General Services Administration will be available on 1967 model GM passenger cars, and sixteen of these items are standard equipment. Fourteen of these items were standard on 1966 models including among others front and rear seat belts and anchorages, padded instrument panel and visors, two-speed windshield wipers and washers, backup lights and an outside rear view mirror.

Two GSA items have been added as standard equipment on 1967 models—the dual master cylinder brake system mentioned above and the four-way hazard warning flasher system which serves as an emergency measure to warn other drivers by simultaneously flashing all turn signal lamps. The seventeenth item, the General Motors Air Injection Reactor Exhaust Emission Control System, will be included on all cars purchased for Government use or purchased in California.

All models will have improved five-tumbler locks to minimize theft. The 1967 model cars also include a variety of other product improvements which already have been or will be announced by division.

Evidence of the improved product value, quality and performance of the new models is the extension of the warranty period on GM's 1967 model passenger cars to cover five years or 50,000 miles, whichever comes first, on the power train components (engine, transmission, drive line and rear axle) in addition to the current warranty coverage of 24 months or 24,000 miles on the entire car except tires (which are warranted by the tire manufacturer).

1967 GM passenger cars will go on display in dealer showrooms on Sept. 29 for Chevrolet, Pontiac, Oldsmobile and Buick models, and on Oct. 6 for Cadillac models.

Production Records Told for Area Holsteins

Brattleboro, Vt. — Milk and butterfat production levels established by registered Holstein cows in this area have been reported by Holstein-Friesian Association of America. The individual lactations were tested under official supervision.

Vicinity cows listed in the Holstein report are:

Leo Bur Pontiac Lassie, 5691971, a two-year-old owned by Leonard Burmeister, Ann Arbor, produced 20,170 lbs. of milk and 625 lbs. of butterfat in 365 days.

Cavanaleck Gay Rockette, 5671214, an eight-year-old, produced 19,560 lbs. of milk and 712 lbs. of butterfat in 305 days. Fobes Delmora Countess, 4857466, a six-year-old, had 19,160 lbs. of milk and 619 lbs. of butterfat in 365 days. Pathway Ideal Fay, 3559727, a 13-year-old, had 15,820 lbs. of milk and 605 lbs. of butterfat in 305 days. Locust Breeze March Sylvia, 5063572, a five-year-old, had 15,990 lbs. of milk and 632 lbs. of butterfat in 335 days. All are owned by Elton Frey, Ann Arbor.

Pabst Regal Best, 4610724, a seven-year-old owned by George Macomber & Sons, Ann Arbor, produced 18,090 lbs. of milk and 657 lbs. of butterfat in 365 days.

Green Acre P. G. Diana, 5479926, a three-year-old owned by Lowell Spike, Manchester, produced 18,870 lbs. of milk and 707 lbs. of butterfat in 365 days.

These new production figures may be compared to the estimated annual output of 7,880 lbs. of milk and 285 lbs. of butterfat by the average U. S. dairy cow, notes the national Holstein Association.

Michigan State University supervised the sampling, weighing and testing operations in cooperation with the Holstein organization's herd and breed improvement programs.

Children should realize parents are smarter than they appear to be and parents should remember children are smarter than adults suspect.

Errors Noted in Deer Permit Applications

Lansing — Michigan hunters getting ready to fill out their applications for 1966 antlerless deer hunting permits are urged to double check their completed forms before mailing them to the Conservation Department's Lansing office.

Department license officials are particularly reminding each applicant that he must designate the number of the special area where he hopes to hunt antlerless deer this fall. Many early applicants have made the mistake of putting down the names of counties instead of area numbers.

In response to another apparent misunderstanding noted in early entry returns, hunters are advised NOT to return their license number tags with their applications.

Postmark deadline for permit applications is Sept. 30.

The high cost of living doesn't seem to have affected its popularity.

Pvt. Turner entered the U. S. Army on June 22 and was sent to Fort Knox, Ky., for basic training. He is presently stationed at Fort Dix N.J., where he is being trained in transportation.

GENEROUS JUDGE

Fresno, Calif.—When Wayne L. House, 48, was released from a fifteen-year prison term for forgery, the judge offered to pay for his hotel room until he found a job. Houser was soon back in jail—he was ordering drinks for everyone in the hotel and charging them to the judge.

REGISTRATION NOTICE

FOR

GENERAL ELECTION

TUESDAY, NOVEMBER 8, 1966

To the Qualified Electors of the

TOWNSHIP OF LYNDON

(PRECINCT NO. 1)

COUNTY OF WASHTENAW, STATE OF MICHIGAN

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned Clerk, will, upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Township, City or Village not already registered who may APPLY TO ME PERSONALLY for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Thirtieth day before any regular, special or official primary election and the day of such election.

Notic els Hereby Given that I will accept registrations Wednesday, October 5, 1966 at my home, 11380 Roepcke Rd., from 8 a.m. to 8 p.m., and on any other day that I am home, and at Lyndon Township Hall, 1715 North Territorial Rd., on

Monday, October 10, 1966 - Last Day

The Thirtieth day preceding said Election

As provided by Section 498, Act No. 116, Public Acts of 1954.

From 8 o'clock a.m. until 8 o'clock p.m. on each said day for the purpose of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said TOWNSHIP, CITY or VILLAGE as SHALL PROPERLY apply therefor.

The name of no person but an ACTUAL RESIDENT of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

Elector Unable To Make Personal Application, Procedure

SEC. 504. Any elector who is unable to make personal application for registration because of physical disability or absence from the Township, City or Village in which his legal residence is located, may be registered prior to the close of registration before any election or primary election by securing from the Clerk of the Township, City or Village in which is located his legal residence, duplicate registration cards and executing in duplicate the registration affidavit before a notary public or other officer legally authorized to administer oaths and returning such registration cards to the Clerk of the Township, City or Village before the close of office hours on the last day of registration prior to any election or primary election. The notary public or other officer administering the oath shall sign his name on the line for the signature of the registration officer and designate his title.

Unregistered Persons Not Entitled To Vote

SEC. 491. The inspectors of election at any election or primary election in this State, or in any District, County, Township, City or Village thereof, shall not receive the vote of any person whose name is not registered in the registration book of the Township, Ward or Precinct in which he offers to vote.

Transfer of Registration, Application, Time

SEC. 506. Any registered elector may upon change of residence within the Township, City or Village cause his registration to be transferred to his new address by sending to the Clerk a signed request, stating his present address, the date he moved thereto, and the address from which he was last registered, or by applying in person for a transfer. The Clerk shall strike through the last address, ward and precinct number and record the new address, ward and precinct number on the original and duplicate registration cards, and shall place the original registration card in proper precinct file. Such transfers shall not be made within the 30 days next preceding any election or primary election, unless such 30th day shall fall on a Saturday, Sunday, or legal holiday in which event registration shall be accepted during the next full working day, provided that no such transfer shall permit any person to vote in any Township, City or Village in which he had not resided 30 days next preceding any election or primary election.

Transfer of Registration on Election Day

SEC. 1507. Any registered elector, who has removed from one election precinct of a Township, City or Village to another election precinct of the same Township, City or Village shall have the right to make application to have his registration transferred on any election or primary election day by executing a request over his or her signature for such transfer and presenting the same to the election board in the precinct in which he is registered. Upon receiving such request the inspector of election in charge of the registration records shall compare the signature thereon with the signature upon the applicant's registration record and if the signatures correspond then the inspector shall certify such fact upon said request and the applicant for transfer shall then be permitted to vote in such precinct for that election only. The application for transfer shall be filed with the Township, City or Village Clerk who shall transfer such voter's registration in accordance with the application. When the name of any street in a Township, City or Village has been changed, it shall be the duty of the Township City or Village Clerk to make the change to show the proper name of street in the registration records, and it shall not be necessary for the elector to change his registration with respect thereto in order to be eligible to vote.

ood Roads Group Seeks ore Money for Highways

group of interested citizens organizations concerned about condition of Michigan roads, ood Roads Federation, is un- ding a program aimed at ding the word about the grow- eed for funds. The aim is to the citizens of the need dditional revenues and to en- ge the enactment of legisla- ecessary to maintain and im- Michigan roads.

the proposed package had adopted last year, Ann Ar- ould have received $202,296 for roads. Other estimated es in motor vehicle high- funds under the proposal in- Ypsilanti, $60,006; Milan, 6; Chelsea, $9,836; Saline, ; Dexter, $5,187; Manchester, Washtenaw County Road Commission would have received $351,965 in additional funds.

What the Good Roads Federation proposes to make these increases possible include:

1) A 1-cent increase in state gasoline, diesel and liquified petroleum taxes.

2) An increase in automobile license fees to a range of $14 to $28.

3) A 10 percent increase in commercial vehicle weight taxes.

The proposal would also change the distribution formula for restricted highway funds and would reduce the cities' share of trunkline improvements within their borders.

The Good Roads Federation lists safety as one resulting benefit of the proposal, but also lists lower over-all travel costs, and boost to economic growth and tourism as other benefits. The Federation hopes to get legislative action in 1967.

AGRICULTURE in ACTION .....

★ The Meat You Eat ★

Michigan meat is among the most healthful in the nation, according to one livestock expert, reacting to recent disclosures of arrests made for unlawful processing of meat in our state.

Protection afforded consumers by a relatively new law—in fact the very law under which the arrests were made, is cited as the top reason consumers can have full confidence in what they find in supermarket showcases.

Laury Ewing, a livestock specialist with the Michigan Farm Bureau, and a strong supporter of Michigan meat as "the very best there is" says that uniform, statewide meat inspection and slaughterhouse licensing has placed our state near the top of the "best meat" list among all states.

"Our inspection program is almost identical to that written into federal inspections laws. It provides for ante and post-mortem inspection by veterinarians or other licensed inspectors," Ewing said. By "ante and post-mortem" he referred to requirements in the law which call for animal health inspection both before and after slaughter.

When coupled with rigid slaughterhouse sanitation standards, Ewing contends that all Michigan has passed through three of the toughest check-points that exist within any state inspection program.

Both the efficiency of this system and the need for it were demonstrated dramatically in the recent arrests, Ewing feels. "I am pleased with the evidence that it is working so obviously well."

Who pays for the inspection program? The public pays and the public benefits. The program is tax-supported and administered state-wide through the Michigan Department of Agriculture. Farmers were among the first to call for the new law—at a time when protests were heard from a handful of slaughterers and processors who contended that such laws were unnecessary and would add new burdens to the industry.

"Recent events have underscored how very wrong they were, and how very necessary the inspection system is," Ewing said. "Housewives may buy Michigan meat with confidence, knowing it has passed through the rigid checkpoints of an independent, tax-supported, non-political state-wide inspection system."

Visit Historical Points On Fall Color Tours

Visiting Michigan points of historical interest and other sightseeing attractions may be combined with fall color tours to make autumn week-end jaunts more rewarding, according to the Michigan Tourist Council.

Historic sites and other interesting places to visit are included in the 1966 edition of the Michigan Autumn Color Tour Guide, available without charge from the Michigan Tourist Council, Lansing.

The guide contains 24 suggested color tours throughout the state.

Service Academy Applications Now Being Accepted

Senator Robert P. Griffin (R-Mich.) said today that young men seeking appointment to one of the nation's service academies should write him before the deadline of Oct. 7.

Applications are being accepted for appointments to the U. S. Air Force Academy, the U. S. Military Academy, the U. S. Naval Academy and the U. S. Merchant Marine Academy for school years that begin in mid-1967.

Senator Griffin's office is allowed three appointments at the Air Force Academy, one at the Military Academy and one at the Naval Academy. Each of Michigan's Senators and Congressmen is privileged to nominate 10 candidates for appointment to the Merchant Marine Academy. These candidates will compete on a state-wide basis for the 12 vacancies allocated to Michigan.

To qualify for appointment to a service academy, an applicant must be a resident of the State of Michigan, unmarried and a U. S. citizen. He must be at least 17 years old but not yet 22 on July 1, 1967.

Senator Griffin asked that applicants notify him of their interest by writing him at Suite 253, Senate Office Building, Washington, D.C. Each applicant will be asked to complete and return an application form, together with other enclosures indicated on the form.

To assist Senator Griffin in the selection process, each applicant is requested to take a preliminary screening examination November 11, 1966, in a Post Office or other designated building near the applicant's home. Each applicant will be notified of the location for his test, which is administered and graded by the Civil Service Commission.

Senator Griffin said he has already received 175 applications.

Why is it there are always people to tell you how to invest your money who have none to invest themselves?

Edited by Students of the Chelsea High School Journalism Club

Class elections at Chelsea High school were held Monday, Sept. 19.

Those elected to class office follow

Senior class — Larry Porath, president; Kim Flintoff, vice-president.

Junior class—Lynn Faist, president; Loren Boyer, vice-president.

Sophomore class—Sarah Lindauer, president; Judy Sandergon, vice-president.

Officers and class members are now in the process of deciding what to do for homecoming week, which will be Oct. 10 to 14.

No decision has been made on whether or not magazines will be sold by the senior class this year.

The sales remain undecided because of a problem from previous years.

At the present time the Class of 1967 is planning where to have senior pictures taken. It was agreed at the class meeting, Monday, to have different companies come and submit a bid on prices. Powell Studio, Craine Studio, and Guenther Studio were the three chosen to submit bids. The decision of the class will be made known in the near future.

The Building and Grounds Committee of the Chelsea School Board made a tour of the school system, Sept. 22.

The committee consisting of Robert Foster, Dr. Clare Warren, Don Irwin, H. Charles Powers and Charles Lancaster, ate lunch at the High school and proceeded on their tour of the schools.
