## Bulldogs Back In Conference Title Race

Trail Milan By One Game After Wins Over Novi, Manchester

With the victories over Novi and Manchester this past weekend, Chelsea extended their winning streak to four in succession, their league record to 6-3 and over-all record to 7-4.

Chelsea is now in the thick of the championship race as they trail Milan and Dundee by one game. Chelsea gets a chance to tie Milan Friday night, Jan. 30, as they travel to Milan to take on the Big Reds.

Chelsea won against Novi, 71-58, Friday night, Jan. 23, and against Manchester, 80-60, on Saturday night, Jan. 24.

Chelsea got off to a slow start against Novi and trailed 11 to 13 after the first quarter, but came to life in the second to score 25 points to Novi's 13.

Howie Treado led the second quarter with 10 points. Chelsea continued in the third quarter, outscoring Novi, 21 to 10. Art Farley led Chelsea's third quarter drive with 8 points.

The fourth quarter saw Chelsea's bench swing into action as the Bulldogs had built up a 26-point lead in the third quarter.

Approximately 60 area farmers were entertained by Chelsea Kiwanians on Monday evening, Jan. 26, at the high school cafeteria. A smorgasbord meal sponsored by the Key Club boys of the high school was served.

Local farmers were welcomed and commended for their contributions to the community by President George Palmer and by Program Chairman Julius Blass.

After the meal, the program was presented by Paul Knowles and his leader dog. The program centered around the role of the leader dog in a blind man's life. A film was shown explaining the training procedures for each new dog and master.

Knowles demonstrated how his dog would lead him safely up and down steps and around obstacles. Board of directors met at George Staffan's home Wednesday, Jan. 28.

An inter-club will meet at Ann Arbor Southeastern on Thursday, Jan. 29.

## Dimes Fund Gains \$2,600 From Bowlers

Chelsea Lanes took in the greatest amount of money percentage-wise in the county during the March of Dimes, county-wide, bowling tournament held Jan. 11-18, it was announced Monday, Jan. 26, according to Mrs. Ed Greenleaf, Chelsea Bowling chairman.

"Although we didn't take in the greatest amount of dollars, we did collect the largest amount on a percentage basis when comparing the size of our lanes and number of league bowlers in the area with others in the county competition," explained Mrs. Greenleaf.

"We also did very well in the county bowling scores competition. Our women's division local high entry, Mrs. Maynard (Peg) Portner, placed second in the county. Poertner was second behind Marion Luckhardt of Colonial Lanes in Ann Arbor," continued Mrs. Greenleaf.

Mrs. Poertner was awarded a dinner for two at an area restaurant along with the other second and third-place winners: Robert Bailey, Thunderbird Lanes, 2 in the men's division with a series score of 716; Ann Stockler, Ypsi-Arbor Lanes in Ypsilanti, 3rd in the women's division with a series score of 687; and Michael Dumacyn, Lodge Lanes in Belleville, 3rd in the men's division with a 716 score.

First-place winners, Billy Guntor, Thunderbird Lanes in Ypsilanti, and Marion Luckhardt, Colonial Lanes in Ann Arbor, bowled a 722 and a 678 series, respectively. They were awarded trophies by the Washtenaw chapter of the March of Dimes and were also awarded dinner for two tickets at an area restaurant.

Bowlers during the tournament week were asked to contribute \$1 to the MOD to have their week's series score entered in the local competition. Winners of the local competition in both the men's and women's division were then sent in to the county competition.

More than \$2,600 was collected on a county basis, \$469 of that collected in Chelsea, for the March of Dimes.

## Rubella Immunization Is Underway

Inoculation is the word of the day in Chelsea where youngsters from throughout the area are being immunized today against "Rubella," which is deemed responsible for numerous birth defects.

The Chelsea drive is part of a vaccinating program aimed at 12,000 to 13,000 elementary school students in Washtenaw county.

The free clinics, sponsored by the county health department, the March of Dimes, and the county medical society, will continue throughout the county until Wednesday, Feb. 4.

Parental permission slips were given out through the schools, and must be returned in order for the child to receive the vaccination.

Mrs. Homer Kuhl, 4902 Chelsea-Manchester Rd., has been elected the 1970 president of the Chelsea Community Chest at its annual meeting Wednesday, Jan. 21.

The meeting, which was open to all members of the Chelsea Community Chest, was held for the purpose of electing officers for the coming year and for reporting on the activities of 1969. A member is anyone who has contributed to the Chelsea Community Chest.

A treasurer's report was given, along with the secretary's report from the previous year, followed by the election of officers.

Members elected, in addition to Mrs. Kuhl as president, are M. A. Bowen as vice-president, and Mrs. Charles Popovich, as treasurer. A secretary has not as yet been elected to replace Mrs. Donald Baldwin, last year's secretary.

Seven members were added or renewed to the board of directors for three-year terms, and two new directors were elected to one-year terms to replace vacancies due to resignations. The seven are Robert Thornton, new member; Walter Brown, new member; Lou Muck, new member; Kenneth McDowell, new member; Mrs. John Schaffner, renewal term; Mrs. Homer Kuhl, renewal term; Mrs. Donald Baldwin, renewal term. Those elected to the one-year terms are Mrs. Lloyd Schneider and James Hoffmeyer.

## CHS Debate Team Finishes Year with 3rd-Place Ranking

Debate season is over for Chelsea High debaters, who have ranked third in their league for the 1969-70 season.

Chelsea received the third-place trophy in their league with Coelius as first, Saline, second; Ida, fourth; Monroe Catholic Central, fifth; Jefferson, sixth; and Erie Mason in the last slot.

These teams begin their actual debating season in December, although preparation begins much earlier.

A national topic to be debated is selected after a national survey of all debate coaches for subject areas is taken. The topic is announced in May, and preparation begins. The 1969-70 topic was "Resolved: That Congress should prohibit unilateral United States military intervention in foreign countries."

Preparation consists of research, attending debate clinics, and study of special debate materials prepared on the subject. By October the major preparation is complete.

Special summer institutes are desirable, but these are usually costly. William Coelius, debate coach at Chelsea High, is trying to defray the cost of these seminars by raising money during the year to finance several debaters at one of the institutes held at Michigan State University, the University of Michigan and others.

Debaters do get debate tournament experience before December with the Early Bird Tournament held at Wayne State University in September, the Novice (Beginners) Tournament in October at Ypsilanti High school, the Switch Side Tournament at MSU in November, and in December, the Jackson Tournament at Jackson Parkside. These tournaments usually consist of 3-4 rounds and involves 6 to 8 debates. These tournaments provide team experience in debate as well as individual awards to outstanding debaters.

Chelsea High's eight varsity debaters are all underclassmen, who will be returning to the squad for the 1970 season.

Sharon Heydlauf, a junior in her second year of debate, who has 15 varsity debates to her credit, plans to attend a summer debate institute, but as yet has not chosen which.

Cindy Sawyer, a junior in her second year of debate, has debated 16 varsity debates, and also will attend a summer institute in debate.

Chick Lane, a first-year sophomore debater, who plans to study debate during the summer, has 12 varsity and three junior varsity debates to his credit.

Jackie McClain, a junior who developed for the team the basic philosophy used by the negative, plans to attend a summer debate institute to add to the experience she already has with 13 varsity debates.

Ann Thomson is in her first year of debate as a junior. She developed the basic affirmative case structure. She has five varsity and three junior varsity debates to her credit.

Patrick Pluck, a junior, who is in his first year of debate, aided this year in adopting the affirmative case to negative attacks. He has debated twice varsity and twice junior varsity.

Kathryn Schaffer, a first-year sophomore debater, has one varsity and three junior varsity debates chalked up.

Keith Pfeifle, debated three junior varsity debates as a sophomore first-year debater.

Coach Coelius, who himself has debated for Eastern Michigan University and coached forensics at Albion High school for two years prior to coming to Chelsea to coach debate and forensics, has great expectations for his team during the 1970 season.

## Voters Approve Operational School Millage

Request for 10.98 Mills on 2-Yr. Basis Approved Monday in Light Vote

Chelsea voters ratified for two years the 10.98 operational millage for the Chelsea school system in a special election held Monday, Jan. 26 at the Dwight E. Beach school.

Some 944 registered voters cast their ballots in the election for a 558 yes, 376 no, count. There were 10 spoiled ballots. This accounts for roughly 80 to 85 percent of the registered voters in the school district. To participate in this election, it was not necessary to be a property owner.

"We all wish to thank the people of Chelsea for their fine support of their school system," Superintendent Charles Cameron stated.

"It gives all of us in the community a feeling of solidarity and stability as we plan for the coming two academic years. This will enable us to continue operation of the Chelsea system and to plan for the future."

"This will also enable us to be definite in our interviews with prospective teachers and with our present staff when discussing the schedule of programs for the district, as well as salary schedules," continued Cameron.

"We wish also to express appreciation to the members of the Jaycees, the clergy, the Kiwanis club, the Citizens for Quality Education and the Room Mothers of the elementary schools for their co-operation in reminding people to vote in the millage election," noted Cameron.

President of the board of education, Donald Irwin, expressed his appreciation, "to all the administrators for their work in managing the millage campaign." He, too expressed his appreciation to the electorate for their support of the Chelsea educational system.

## Wrestlers Win Strong 2nd in Howell Tourney

Chelsea, with a strong finish in the finals, closed within eight points of first-place Dexter and finished ahead of a strong Galesburg-Augusta team to finish second in Howell's Paul Bennett wrestling tournament Saturday, Jan. 24.

Dexter amassed a total of 91 points with Chelsea second with 83 and Galesburg third with 78. Chelsea's hopes of catching Dexter were dimmed when Captain Tim Colvia received a rib injury and had to forfeit in semi-finals.

Chelsea, after finishing third at the Parma tournament Saturday, Jan. 10 behind Dexter and Galesburg, made a strong showing at Howell when seven Chelsea wrestlers made it to the final match and one in consolation.

Winning places for Chelsea were Mark Montange, second at 98 lbs.; Jim Wencel, second at 107; Tom Tibb, second at 115; Steve Ernest, third at 123; Jim Poertner, second at 130; Bob Koengeter, second at 145; Karsten Kargel, first at 185; and Dennis Brown, first at heavyweight.

Outstanding wrestling matches for Chelsea were: Captain Tibb's fine 7-1 win over No. 1 Kircher of Dexter; Karsten Kargel's pin over Trapp of Dexter; Dennis Brown's pin win over Brad Baker of Milford, who was seeded No. 2 behind Brown.

Chelsea received the runners-up trophy, but Coach Bares pointed out that "all Chelsea would have had to do to win the tournament was to convert three of the second-places into first-place wins."

## Bands Ready To Compete in Music Contests

Chelsea High's bands will be traveling during the beginning of February and the beginning of March to compete musically with other state bands and ensembles.

The first competition to be participated in by Chelsea High musicians will be the Saturday, Feb. 7 Solo and Ensemble Festival to be held in Livonia at Schoolcraft Community College. More than 50 musicians from the high school will be in competition with others throughout the state.

The following week, Saturday, Feb. 14, junior high musicians will travel to Livonia for a Solo and Ensemble festival for that age group to be held at Schoolcraft Community College.

On Saturday, March 7, both the concert band and the symphony band will participate in the district competitions, in preliminary for the state competition. The district concert band festival will be held at Melvindale, and the district symphonic band festival will be in Milan.

District competitions for the 7th and 8th grade bands will be the following week, Saturday, March 14, in Saline.

## Peanut Sale Hurt By Miserable Weather

More than \$75 was collected for the March of Dimes by Chelsea Boy Scouts during their recent peanut sale.

The scouts were on the streets Friday, Jan. 23 and Saturday, Jan. 24 selling peanuts.

Because of inclement weather, there were many peanuts left after the sale. It is expected that they will hold another sale at a later date to benefit the foundation.

## Funds Sought For Chelsea Scholarships

The Chelsea Scholarship Fund Committee will add students to its decision-making group for the first time this year, according to George Bergman, Chelsea High school counselor.

"It is hoped that an even better representation of the Chelsea community may be obtained by the addition of students to the committee," said Bergman.

The committee each year decides upon the disbursement of scholarships varying in amount from \$50 to \$350 and based upon scholarship excellence and apparent need.

Two years ago \$2,000 and last year over \$1,000 was given in scholarships to Chelsea youth for their education.

Students joining the committee will be from the National Honor Society, whose president is Claudia Devine.

Present members of the group are Ray Canine, Mrs. Robert Daniels, George Palmer, Mrs. Dwight Beach, Charles H. Lane, Miss Lynn Williams, David Kniseley, Ken Larson, George Prinzing, Mrs. Dorothy Conlin, and George Bergman.

Members of the National Honor Society have sent out letters requesting donations.

Anyone interesting in donating to the Chelsea Scholarship Fund may send it in care of the Principal's Office, Chelsea High school.

## Washington Report by Congressman MARVIN L. ESCH

Reform, often talked about but rarely accomplished, gets a fresh chance in Congress this year. The House and Senate will probably take long, hard looks at three proposed reforms of great significance: postal, welfare and congressional.

Postal reform, one of the first proposals made by President Nixon after he took office, is rated by people in the know as a real possibility. This prospect has got to be a surprise to many since our eaky postal system has withstood previous attempts to halt official patronage and make it fully effective.

Mr. Nixon has called for a government corporation to operate the postal system on a business-like basis. The corporation could raise funds for badly needed modernization. By removing politics from the personnel system, the President's proposal would provide recognition for outstanding work and rough advancement.

The President's welfare proposal is more controversial and may become law this session, but will certainly become an important part of the Washington dialogue. Such dialogue, joined by a public at large, is an essential part of our final decision on what to do about our wholly inadequate welfare system. While men of good will disagree on what needs to be done, there is no doubt major changes are needed. The President's proposal is clearly a major step in the right direction.

Congressional reform also will be a searching look this year. The question here is not so much whether changes will be made, but whether they will equal the need. While such reform may appear at times to be merely an amoral argument among legislators, I believe it is one of the most important steps we can take to modernize our government. It is very difficult for this nation to make the advances it needs when Congress is badly outmoded.

One other reform that will receive plenty of attention is environment. In this case it is not an organization or federal program we must alter, but the very world we live in.

## Ottawa County Dairy Herds Tops in State

Ottawa county is Michigan's leader in butterfat and milk production per cow from herds enrolled in the Michigan Dairy Herd Improvement Association. The DHIA is a voluntary co-operative in dairy herd testing, supervised by the Michigan State University dairy department.

Ottawa county has 55 dairy herds in the DHIA program. They averaged 14,386 pounds of milk and 545 pounds of butterfat per cow in 1969.

Other Michigan counties, based on per cow milk production, ranked in this order in the first 10: Missaukee, Bay, Grand Traverse, Gratiot, Isabella, Huron, Midland, Mecosta and Allegan.

In butterfat production per cow, ranking in order behind Ottawa county were: Mason, Gratiot, Missaukee, Kent, Muskegon, Isabella, Allegan, Mecosta and Dickinson. Michigan Department of Agriculture in 1969 compared with 1968 in 1968.

Sanilac is the only county in the state with more than 1,000 dairy cattle herds. With 1,049 herds the thumb county is far ahead of the second county, Huron, an adjoining county with 798 herds.

Other top counties in the number of dairy herds include: (3) Allegan, 500; (4) Ottawa, 482; (5) Montcalm, 456; (6) Kent, 432; (7) Ionia, 427; (8) Clinton, 424; (9) Leape, 419; and (10) St. Clair, 410. Two counties, Hillsdale and Isabella, tied for position 11 with 383 herds.

Michigan State University dairy authorities say that while the number of dairy farms is declining the average number of cows in the herd increases.

## MICHIGAN MIRROR

By Elmer E. White, Secretary, Michigan Press Association

**COLLEGE RANK**  
Michigan has three of its colleges ranking in the top 30 in the nation in size, according to a national survey of college enrollments.

Michigan State leads the state's institutions and ranks 11th in the nation both in terms of full-time students and total enrollment.

Michigan ranks 16th in the number of full-time students with Wayne State ranking 23rd.

These figures are included in the 50th annual survey of college enrollments prepared for the educational journal, "School and Society."

According to the report Michigan State had 50,085 students enrolled for the year, compared with 49,515 a year ago. Michigan had 38,928 and Wayne State had 34,924.

In terms of full-time students, Michigan State is listed as having 39,244, up from 37,858 a year ago. Michigan has 30,255 and Wayne State has 21,476.

Five Big 10 Conference schools are in the top 10 and Purdue ranking 19th joins MSU and Michigan in the second 10. Only Iowa and Northwestern from the Big 10 are not in the top 30 list.

The five schools listed in the top 10 in their order of rank are: Wisconsin (6), Minnesota (7), Illinois (8), Ohio State (9), and Indiana (10).

**LEGISLATURES MEET**  
In most states, the practice until recent years was to have the Legislature meet only once every two years unless an emergency arose.

In that case, lawmakers would be called into a brief special session by the Governor to handle the problem and then would go home. That isn't the case anymore. A check of the legislatures around the country shows Michigan's is only one of 33 which are meeting this year.

In 28 of the states, the legislatures are holding regularly scheduled meetings.

These are Alaska, Arizona, California, Colorado, Delaware, Florida, Georgia, Hawaii, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, New Jersey, New Mexico, New York, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Utah, Virginia and West Virginia.

Five other states, Illinois, Ohio, Tennessee, Vermont and Wisconsin, will see legislatures coming back to reconvene their 1969 session.

It's just another example of how times have changed.

**O'HARA MENTIONED**  
At least one national magazine has mentioned Congressman James C. O'Hara as being considered a dark horse candidate for the Democratic Party's presidential nomination in 1972.

Esquire magazine, in its February issue, lists O'Hara as one of 10 men who are being mentioned in the place of another as a dark horse possibility.

The article says the most logical dark horse candidate right now seems to be U. S. Sen. Harold Hughes of Iowa, who was a close friend of Bobby Kennedy's.

But in sizing up other possibilities, O'Hara's name is included. The magazine says O'Hara "played leading role in breaking House deadlock over federal aid to parochial schools, thus permitting passage of first omnibus federal aid to education bill."

"There is occasional talk in Washington about his larger political aspects," the magazine says.

## Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

Zeke Grubb told the fellers at the country store Saturday night that he hears tell that over in England a feller "stands" for election, by here he "runs" for office. Zeke said he had studied the situation up one side and down the other and he figgers them two words tells the difference in how the countries is run.

You wouldn't have a chance standing for office in this country, allowed Zeke cause ya'd git stomped by candidates running as hard as their tongues and money would carry them. Zeke said folks in England pick their leaders, where ours run til they git in and then they pick us clean.

Clem Webster was wide disagreed with Zeke. Clem said he knowed a Republican Administration and a Democratic Congress is jest the thing for keeping em fighting one another and getting nothing done for the country, but he was strong for our checks and balances. And he told Zeke he wasn't talking about the Government's habit of writing checks for more than their bank balance.

The thing is, went on Clem, the way we got it set up somebody is checking on everybody in high places, and it ain't jest political parties keeping a eye on one another. The people and special the newspapers stir around to keep things running halfway straight, was Clem's words.

Ed Doolittle was agreed the more people know about their Government the better off everybody is, but he said things he sees in papers makes him wonder if some in office wouldn't do the country a favor by standing and walking out.

For instant, Ed said a congressman that had listed 1,315 different federal aid programs said they

was 200 more nobody would claim. They had a catalog with all the aid listed, he said, but new services keeps it outdated. With all this aid, Ed allowed, we still got money for such as a \$21,000 grant to study the mating call of Central American frogs.

Furthermore, said Ed, it has got to the place we spend more time keeping records than we do doing what we keep records on. One happy note recent was where the Joint House Committee on Disposition of Executive Papers ask to be done away with cause it ain't done a lick of work since it was started in 1944. But Ed said he ain't actual seen where the committee was broke up.

Practical speaking, Mister Editor, it's awful hard to plant an idea and git it to grow in Government. I saw where there was 700 bills introduced to amend Social Security, but ain't but two of em getting attention in Congress. I reckon we got a heap of bad bills or a powerful lot of good ideas going to waste.

Yours truly,  
Uncle Lew.

Lt. Gov. Vernon J. Brown was the speaker at a meeting of teachers of Washtenaw county at the Chelsea Methodist church Thursday evening. Among statements he made: In a state that bet \$150,000,000 on horse races last year, there are at least 12,000 children who are deprived of educational facilities; last year people in Michigan spent twice as much on liquor as they did on education; 85 percent of Michigan school children are housed in out-moded school buildings; 10,000 elementary school children are restricted to half-day sessions because of inadequate facilities; and that a slight increase in taxes "about the price of a World Series ticket" would do much toward solving the problem. He also said that \$100 million at least "should be spent immediately to repair only the very worst of the evils," and that three groups being "cheated" by present inadequacies are students, parents, and taxpayers, none of whom are getting the services that the future welfare of the state really requires.

## Rubella Immunization Is Underway

(Continued from page one)

Youngsters were chosen for the mass immunization because they are the prime carriers of the disease, which can inflict unborn babies with congenital rubella which can continue to cause suffering throughout the child's life.

During a rubella epidemic, and 1970 has been projected as an epidemic year by the State Department of Public Health, it is estimated by the National Institute of Health that at least one percent of all pregnant women would produce a "rubella casualty."

Various birth defects may occur in babies born of a pregnancy complicated by rubella. The most frequent defects are:

1) Hearing loss. Unless it is in the form of virtual deafness, as is often the case, the loss of hearing is not always discovered until the child reaches school age.

2) Vision loss. This includes blindness. Most common defects are cataracts, glaucoma, abnormally small eyeball-size, lesions of the retina, and couding of the cornea.

3) Heart defects. Sometimes these are not apparent at birth. They become a frequent cause of death during early infancy.

4) Abnormalities of the central nervous system. This includes brain damage which results in cerebral palsy, and in mental retardation. Another common deformity is abnormally small head size.

These are only a few of the defects outlined by the Michigan Department of Public Health, which lists other defects from the 1964 epidemic as stunted growth, "birth marks," enlarged liver and spleen, hepatitis, swollen lymph nodes, bone lesions, anemia, encephalitis, injured heart muscles, and abnormal fingerprints.

The term rubella was given to this disease in 1896 by an English doctor as an alternative to its many misnomers. Rubella was classed with "rash" diseases for many years and called the "German measles," although it is neither German in origin nor "measles" in category, according to the health department.

In 1941 Sir Norman Gregg, an Australian ophthalmologist began discovering the correlation between those pregnant mothers who had contracted rubella and those with diseased children. Studies subsequent to this led to the discovery of rubella as a disease capable of killing and crippling in the thousands.

It is estimated by the National Communicable Disease Center of the U. S. Public Health Service, that at least 370 Michigan babies either died or were severely damaged by the 1964 epidemic.

Experts in epidemiology indicate that if 80 percent of youngsters can be immunized, the threatened rubella epidemic will be effectively squelched.

**ALCATRAZ & TOURISTS**

## Auto License Plate Sale Goes Smoothly

The scrunch for license plates shouldn't be as devastating as usual due to the extension this year of the deadline for passenger car plates from Feb. 28 to March 31.

"The State of Michigan hopes to have two smaller peaks, rather than one large one by extending the deadline for passenger car plates, but maintaining the deadline for commercial and trailer plates at Feb. 28," explained Wallace C. Wood, head of the license bureau in Chelsea.

There has been another change which should be noted by the owners of trucks: Last year, notes Wood, "Any truck weighing over 8,000 lbs. used as a commercial vehicle had to declare a gross elected weight. This year, any commercial vehicle, regardless of weight, other than a pick-up, that hauls a trailer must declare a gross elected weight."

"This weight will be computed by adding the weight of the truck plus the heaviest trailer it will pull, plus the weight of the heaviest load that the truck and trailer will haul. The licensee will then pay on the G.E.W."

Wood, who noted that by Feb. 15, there is usually always someone in line, suggested that people remember to bring with them their car title, proof of insurance, and money to pay for the license in order to expedite matters. "It would also facilitate matters if each would sign the back of the car registration card in three places before they come in," Wood noted.

"Actually we have a pretty smooth operation here in Chelsea," Wood said. "Usually we keep a record the last week of where cars are from who come to Chelsea for plates. We've found in past years that 75 percent of these are from outside of Chelsea. I guess they're people who just drive around looking for the shortest line."

"We've had people come here who have been in line elsewhere, who've gotten their plates and then gone back only to see the very people who had been in line with them before, still waiting in line," continued Wood.

Wood will be traveling to Dexter on Saturday, March 14 to be at Frank Grohs Chevrolet to dispense plates. He will be in Manchester two Saturdays, March 7 and March 21. The first Saturday, he will be at Tom Marshall's and the second at Tish Chevrolet. On all occasions he will be dispensing plates from 1 to 4 p.m. in an effort to facilitate those who do not have a license bureau.

## UNIVERSAL PEACE

### GOOD HEALTH TO MAN

"Man has now reached out farther than his own earth. Peace on earth is therefore no longer a sufficient phrase for our times. Universal peace is now much more apt. The emphasis the astronauts have put on spiritual guidance and physical health shows that science and technology are not incompatible with divine belief."

As pharmacists we see this every time a new drug is released for public use and we stock it in our pharmacy. It gives us great personal satisfaction that man has been given the knowledge to seek out new medicines which can eventually give good health to all.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

## Debate Team...

(Continued from page one)

"We have some sharp debaters returning for the 1970 season. We should do even better than this year. We will try to get as many debaters to those summer institutes as possible.

"The summer institutes can provide as much debate experience in two weeks as a debater could get in one season, because of the intensity of the efforts, and the expertise of the resource people brought in from all over the country to train debaters," continued Coelius.

Possible areas for the 1970 debate topic are pollution of natural resources, income taxes and poverty.

## Discussion of TV Censorship Proposals Studied on Show

East Lansing—The slogan "music and news" assumes an extra and provocative dimension when Mason Williams joins "The Show" Saturday, Feb. 7, at 1 p.m. on WMSB (Channel 10), Michigan State University television.

Grammy-award-winning composer Mason Williams brings more to "The Show" than a vibrant musical style. In his conversation with a group of 25 students and series host Bob Walsh, he exchanges thoughts on television censorship and advances his own theory of communications—that it is not just presenting a self-contained performance, but rather a vehicle for getting, both sides involved and caring.

Blues musicians Taj Mahal and the Group from the Plantation offer a distinctive sound in the authentic country blues tradition—soulful, expressive and vital. Folk singer Donal Leace performs three compositions, including his own "Yellow Cat."

Other WMSB highlights include:

CONDUCTING—"NET Festival" presents a unique look at the role of an orchestra conductor with "Solid on Conducting," Sunday Feb. 1, at 1:30 p.m.

As the focal point of a musical production, the conductor plays an important role in determining the tone and interpretation of any particular piece of music. The problem faced by many would-be conductors is the difficulty in gaining actual conducting experience.

On the program, Georg Solti, musical director of the Royal Opera House, holds a "master class" in conducting for three talented English conductors. Beethoven's Leonora Overture No. 3 serves as the mode of expression, with Solti conducting the final section of the overture.

## PEACE—

"Spin Back the Years" reviews the records of man's attempt to achieve tranquility on "The Search for Peace," Tuesday, Feb. 3, at 7 p.m.

Series host G. Robert Vincent presents recordings of people who have affected the peace movement, from Sen. Henry Cabot Lodge, Sr., and Woodrow Wilson to Edward Benes, Andre Gromyko and Franklin Delano Roosevelt, and from the League of Nations to the United Nations Organization.

## DRAMA—

"NET Playhouse" poignantly portrays the last years of the great composer Frederick Delius on "A Song of Summer," Sunday, Feb. 1, at 11 p.m.

"Seen through the eyes of Eric Fenby, a young organist who comes to live and work with Delius upon hearing that the composer is blind, paralyzed and unable to work, the story is one of incredible difficulties and continual striving. Several almost insurmountable handicaps had to be overcome before Fenby could assist Delius in completing such major works as "Son of the Hills" and "A Song of Summer."

The film script was drawn mainly from Fenby's book, "Delius as I Knew Him." Max Adrian stars as Delius and Christopher Gable as Eric Fenby.

SPORTS—  
The best of Michigan State's week-end sports action appears on "Spartan Sportline," Monday, Feb. 2, at 7 p.m.

Hosts Jim Adams and Terry Beyerman review films of basketball with Minnesota, a fast-paced hockey game with Denver, and gymnastics and wrestling against Illinois teams.

## RED CHINA—

"NET Journal" provides a starting view of a closed country on "A Glimpse of China," Sunday, Feb. 1 at 4:30 p.m.

Produced by Bill Cunningham of the Canadian Broadcasting Corp. (CBC), the documentary was filmed in China under guidelines set by the Peking government. Scenes include the training of a commune militia, treatment for hearing defects, a worker's self-criticism session and a fair for Western buyers.

After the film, Cunningham and Colin McCulloch, Peking correspondent of the Toronto Globe and Mail, discuss the implications of its finding.

## RECITAL—

Pianist James Dick, winner of several international competitions is guest on "Young Musical Artists," Wednesday, Feb. 4, at 7 p.m.

A finalist in the 1966 Leventritt, Busoni and Tchaikovsky competitions, Dick has toured the Soviet Union, Latin America, Canada and the United States. He graduated from the University of Texas in Austin with honors in piano.

The program of compositions includes the Concerto Grosso in D Major by Vivaldi, transcribed for piano by J. S. Bach; Sonata para Piano by Ginastera; and Etude in C Minor, Op. 25, No. 12 by Chopin.

## St. Louis School Wins Basketball Game at Jackson

St. Louis school hosted and won a basketball game Saturday, Jan. 24, 57-42 against St. Johns of Jackson.

"It was through the courtesy of Mr. Lawson, coach of the Beach school team, who allowed us to play his school that we worked up the courage to challenge the St. John's team," explained the Rev. Fr. Umberto, coach of the St. Louis team.

"We've been very fortunate this season and have had quite a success with the team."

"This win was quite an accomplishment for us," continued Fr. Umberto.

The team went swimming Sunday, Jan. 25 in Jackson at the YMCA and afterwards were treated at the Burger Chef in honor of their Saturday victory. The treat was subsidized by the Parents of the Society of Friends.

## 34 Years Ago...

(Continued from page two)

Bonus application forms for World War veterans arrived in Chelsea today and Paul C. Maroney, service officer of the local American Legion Post has been appointed to take charge of filling out the applications for ex-service men of the area eligible for the bonus.

Zero and sub-zero weather the past week called for stoking up furnaces and stoves in order to keep warm and this was a contributing factor in three calls to the fire department for chimney fires or overheated furnaces at the homes of Alma Pierce on Pierce St., Ernest Fitzmier on Grant St., and Maurice Hoffman on Lincoln St.

In order that the village of Chelsea may fully participate in the pleasures to be derived from the facilities of the Waterloo Park Project, an effort will be made to create sufficient interest here to secure a recreational site for exclusive use by the people of this community. Initial action has been taken by the Kiwanis club and a committee from the club conferred Monday with C. D. Platt, project manager to discuss plans whereby such a project could be realized.

## EATING OUT

Thirty-four percent of all Americans go out for breakfast at least once a month; 63 percent enjoy a restaurant lunch at least monthly; and 59 percent have dinner in a restaurant once a month.

The Tigers hit six home runs in a game at Oakland, Aug. 17, tying a club record.

## For And About Teenagers

## THE WEEK'S LETTER:

"Here is my problem. I am 14 years old and I like this kid at school a lot. He isn't going with anyone right now. My girlfriends say that they think I could get him because I'm cute. I'm scared that, if I am introduced to him, he won't like me. My brother knows him and could introduce us. What do you think I should do?"

OUR REPLY: The first thing you should do is to stop being afraid of things that might happen or might not happen. If you are cute, as your girlfriends say, there is no reason that a boy

should not like you—if you are natural and pleasant person. The second thing you need to realize is that you will never know whether he likes you or not until he is given the opportunity to make a decision. Your own indecision and fearing the "worst" makes that difficult. Learn to think positive. Assume that he will like you—and remember that it isn't the end of the world if he doesn't like you as well as you think you like him.

If you have a teen-age problem you want to have discussed or an observation to make, address your letter to "For and About Teen-Agers," Community and Suburban Press Service, in care of this news paper.

## TODAY'S THOUGHT

By LOUIS BURGARDT

Some people appear to get better breaks in life. Others appear to get more than their share of bad breaks. Good or bad, the breaks are a part of life. When depressing moods occur through sickness, financial difficulty, or other adversity, there is only one person who can help or hurt you. Only one person can break your nerve or crumble your hopes. Only one person can cripple your faith. That one person is YOU, YOURSELF.

Life is never a continuous peaceful path through a pleasant landscape. Life requires challenge, effort, exertion, determination, courage and sacrifice. Men like Mozart, Robert Louis Stevenson, Goethe, Nietzsche, Beethoven, Dickens, Michelangelo, Mark Twain and countless others of less fame overcame bad breaks. They proved the saying true—"Stick and stay and make it pay." You can too if you dare to decide to do it. . . . BURGARDT FUNERAL HOME, 214 East Middle St., Chelsea, Mich. Phone GR 5-4141.

POURING CASTING PLASTER into a pottery mold is Llewellyn Appling. Mr. Appling does all of the pouring for the pottery which is actually made at the Methodist Home.

## New Arts & Crafts Class Enjoyed at Methodist Home

Brightly colored turtles, ash trays that look like butterflies, nut dishes in the shape of large walnuts, and twinkling Christmas trees are just some of the products of the Chelsea Methodist Home new Arts and Crafts class.

Under the direction of Mrs. Austin Artz, since May, 1969, the 15-member class meets every Monday, Tuesday and Wednesday mornings.

"We usually buy greenware," explained Mrs. Artz, "although we do pour some of our own molds."

Llewellyn Appling is in charge of pouring those molds that are produced in the Home. He pours the molds, allows them to dry and then fires them in one of the two kilns that the class uses.

"We usually fire a piece first, and then we paint it three times.

This is where the ladies are allowed to use their artistic ability and use the type of paint texture and colors they desire.

"After the painting process, the piece of pottery is fired again and then ready for sale," continued Mrs. Artz.

There are two display cases for the work of the class: One is in the workshop itself, located on the first level of the building; the other is in the Main Lobby.

Proceeds from the sale of these items goes to purchase more materials for the classes. During Christmas time the class made 68 Christmas trees which had interior lights which lit up.

Plans are being made to move the class to a larger area to accommodate more pupils and allow for the addition of other facilities, according to Mrs. Artz.

ARTS AND CRAFTS is the newest project of the Chelsea Methodist Home, under the direction of Mrs. Austin Artz, shown here with several of her students. From left are Mrs. Savory, Mrs. Bullard, Mrs. Artz leaning down, Mrs. Kelch, Mrs. Embury, Mrs. Quackenbush, Mrs. Walls, and Mrs. Toepfner.

### Latest in Hair Styles for 70's Feature Short Designs, Enzymes

Despite Rudi Gernreich's recent prediction that we'll all have bald heads as part of the new fashion look for the 70's, outstanding artists, including Avogadro, the current French champion of hairdressers, continue to design for the hair.

Hair is shorter for the 70's look, which features soft, mini movements of the hair, but is very definitely IS. The newest from Paris and Brussels designers are the very short "sophisticates." Many are interpretations of L'Aiglonne, the hairstyling trend recently introduced by the French Haute Coiffure. It includes a look tapered at the nape, full in the front and near the crown of the head. Soft, chic curls of approximately two inches long sweep back towards the ear, rather than away from it. These curls create a soft look, unlike the plastered, hairsprayed look of the 60's.

A design which incorporates the sophisticated look of softness, but which adds its own new look is the mini-look created by Illa of New York. This design is one meant for all-occasion appeal. Its gamine look has soft mini movements curving forward, pixie fashion. More sophisticated are top-lock strands pushed up and away for off-the-face drama. Either version sports the new, now-longer-than-ever nape, relies on a perm for its carefree curls, takes to new color for added zest, and requires regular cuts to retain its shape.

Besides shorter designs, the next new word in hair is enzyme. These are being added to all types of beauty products, including hair products.

There are several thousand different types of enzymes, including the type that is made from yeast and used in laundry detergents, but all have one common factor. This is that they all act

as catalysts to initiate a chemical reaction and enable it to proceed under milder conditions than otherwise possible.

The new type of permanent which includes enzymes is a little costlier and takes longer to administer, but the results, can more than offset these. With one of these "Bio-Wave" permanents, perfect, natural curls may be had even with bleached or silvered hair.

Little teasing is needed to create fullness, thus allowing for a softer look.

The effectiveness of the enzyme added product depends upon the use of the correct chemical combinations in the product. Many fad products will appear which will not have the effectiveness possible. For a better understanding of products, and product-types available, consultation with a qualified beautician is advised.

## Faculty Cagers Defeat JCs in Benefit Game

Chelsea High's faculty reign supreme after defeating the Chelsea Jaycees two years in succession on the basketball court.

This year's game was played Thursday night, Jan. 22 under the sponsorship of the Jaycee Auxiliary as a project to raise funds for the March of Dimes Foundation.

Chelsea Jaycees were defeated by the educators, 88 to 74, in a battle which had the Jaycees running the entire game.

At the end of the first quarter the faculty led by a score of 25 to 9, to mislead the fans into believing that the game would be a give-away. By the half, the Jaycees had closed that lead to 39-31.

Jaycees took the lead during the third quarter, 61-60, but only temporarily, halted the teachers on their way to the victory line.

High scorers for the faculty were Paul Terpstra with 27, Bob Fursel with 24, and Phil Bareis with 19.

Scoring power for the Jaycees came from Ed Windell who scored 27, Dave Clark with 13, and Gordie Beeman with 9, and Tom Steele with 8.

The varsity club turned their portion of the gate to the March of Dimes, after it was given to them by the faculty. This meant that a total of \$113.75 was donated.

## ★ Cracked Egg Story

Eggs are the latest target of a "consumer revolt" at the grocery counter.

As usual, some housewives are blaming farmers for the rise in egg prices, ignoring the fact that the law of supply and demand has not been repealed.

The reason behind the higher egg prices is simple—there is a shortage of eggs.

First, many egg producers went through the wringer when prices fell in 1967, and some were forced out of business.

Second, there was an expectation of increased egg production in 1969, and buyers of eggs for bakeries, and other processed products, delayed buying until the fall when supplies were expected to be heavier.

When this increase in eggs did not occur, such buyers had to purchase on the current market, and since they represent 10 percent of the purchases annually it boosted prices for fresh egg buyers.

Third, disease losses in laying flocks helped cut output.

These facts of economic life have been largely ignored by the metropolitan press.

The Chicago Daily News, for example, assigned a reporter whose specialty is covering social reform movements, to write a story on the "consumer revolt."

This reporter said that both retail and wholesale executives "blamed egg producers for forcing up prices."

An unnamed wholesaler was quoted by the Chicago paper thusly: "They're keeping market prices unnaturally high. A producer is making \$9,000 a week profit on 1,000 cases. That's very good money, so he doesn't care if sales are off and housewives suffer."

If metropolitan papers keep on laying eggs like this one, the shortage will soon be over.

## Home Economist Named To Serve Washtenaw County

Mrs. Jeannette D. Drew will join the Washtenaw County Cooperative Extension Service staff Feb. 1, as a home economist. Mrs. Drew's appointment was approved by the Michigan State University Board of Trustees, Friday, Jan. 16. Mrs. Drew will have her headquarters in the County Building. She will share responsibilities for the family living program in Washtenaw County with Mrs. Helen Fairman, who worked in Monroe and Lenawee counties.

The two home economists will prepare programs for adults and young people in clothing and textiles, food and nutrition, family life, housing and home management. Extension home economists provide information through presentations at meetings, and special classes, printed materials, and radio, television and newspapers.

Mrs. Drew recently completed her masters' degree at Wayne State University. She worked briefly in psychotherapy with children through the Merrill Palmer Institute in Detroit.

# The big difference between Duster & Maverick is not the \$90.75

## Duster has a bigger engine

Duster's standard 125 hp Six dusts off Maverick's standard engine by 20 big horses. Even beats Maverick's only optional engine by 5. And if you want performance, you can go all the way up to 340 cubic inches with Duster. No Maverick can match that.

## Duster has a longer wheelbase

Duster's 108 inch wheelbase is a full 5 inches longer than Maverick's. In overall length, Duster has 9 more inches. Add Duster's extra 352 lbs., and the result is a smoother ride, and more stable handling.

## Duster has a 5-year/50,000-mile power train warranty... Maverick doesn't.

Chrysler Corporation warrants against defects in materials or workmanship to the first registered owner only, and will repair or replace without charge for parts or labor at any authorized Imperial, Chrysler, Plymouth or Dodge dealership, the engine block, head and all internal engine parts, water pump, intake manifold, transmission case and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and differential of its 1970 Duster for 5 years or 50,000 miles and all other parts for 12 months or 12,000 miles, whichever occurs first, excluding only fires, normal deterioration due to wear and exposure, normal maintenance services and parts used in connection with such services, repairs required as a result of accident, abuse, negligence, racing, or failure to perform recommended maintenance services. Warranty repairs should be obtained from selling dealer unless he has ceased to do business as an authorized Chrysler Motors Corporation dealer, or the owner is traveling or has moved to a different locality and cannot return to his selling dealer.

## Duster has a bigger trunk

A lot bigger trunk. 15 cubic feet for Duster, only 10.4 cubic feet for Maverick. Just because a car is small on the outside doesn't mean it has to be small on the inside.

## Duster has bigger brakes

Bigger brakes mean more stopping power, and Duster's got it. Effective brake lining area for Duster: 153.4 sq. inches. For Maverick: only 106.0 inches. And if you like disc brakes or power brakes, Duster offers those too. Maverick doesn't.

## Applications Being Sought For Pre-Kindergarten Classes

Applications are being accepted for students and teachers for the pre-kindergarten school to be held from June 15 to Aug. 14 at the North Elementary school through the Washtenaw Community school district, according to Marilee Martinez, consultant for special projects with the Washtenaw School District.

"We're looking for youngsters who are eager to begin their formal learning experiences, but who have not yet been to kindergarten," said Martinez.

"We've planned a wide range of enriching experiences for pre-school children around the 4-5 age group which will aid the child both in later learning and in beginning to deal with those things not in his immediate environment. To facilitate this learning, special programs have been planned for the qualified child," explained Martinez.

"We're looking to each of the communities in which these pre-school institutes are held for personnel. We will be hiring one teacher and three aids for each 30 children. We will also be hiring social workers, nurses and cooks," noted Martinez.

"We'll be holding a special one-week training session prior to the opening of the school for the purpose of training para-professionals in child development, preparation of materials, and other preparatory areas," noted Martinez.

"At the end of the ten-week school session, those who participated in the training and the teaching program will be reviewed and certified by the school board as having completed this special experience.

"This may have ramifications later in the acceptance of this personnel during the regular school year in positions as teacher's aids," Martinez continued.

The program will also be asking for volunteer teachers and helpers. "It is hoped," according to Martinez, "that at least one male teacher per class may be found."

For further information, or for those interested in applying for a position as a teacher, or for those interested in enrolling their children in the program, write to Washtenaw Intermediate School District, Box 1406, Ann Arbor.
