Varsity Loses To Lincoln in Final Seconds

Chelsea's Varsity cagers staged a brilliant comeback in the second half only to suffer a tough 61-63 defeat at the hands of the Lincoln Railsplitters last Friday night, Feb. 6.

Buildup cagers, trailing by 15 points at intermission, came roaring back in the second half, outscoring the Railsplitters by 5 in the third period and 8 in the final stanza only to fall 2 points short of Lincoln.

The game went right down to the wire with the score deadlocked at 61-all. Lincoln's Ken Wright sank two free throws with 10 seconds left in the game and Chelsea failed to counter with a basket before the buzzer sounded.

Chelsea placed three starters in double figures with Jim Wojcicki (Continued on page five)

BOY SCOUTS Jon Schenk (left) and Rodney Branham of Troop 425 work on their window display as part of National Boy Scout Week. The displays are aimed at informing the public on the activities of scouting and its purpose. Scouting is celebrating its 60th birthday in the United States this week.

National Boy Scout Week Is Observed in Many Ways

Boys of all ages are in school today with their uniforms on as Scouts across the country are celebrating 60 years of scouting in the United States during National Boy Scout Week, which opened on Saturday, Feb. 7.

Scouts in Chelsea began the week by putting up window displays in local store windows on Saturday, Feb. 7. These displays revolve around the theme of the week "Youth in Action," and the theme of scouting, "American Manpower begins with Boypower."

Scout Sunday was held Feb. 8 in connection with the idea of the reverent Scout. Boys from all area churches wore their scouting uniforms to church.

Scouting is open to all ages of boys from 8 to well over 18. The 8- to 10-year-olds participate in the Cub Scouts, of which there are four packs in the Chelsea area. These are Pack 415 with Cubmaster Richard Seyfried, Pack 334 with Cubmaster Richard Kalmach, Pack 445 with Cubmaster Walt Brown, and Pack 455 with Cubmaster Duane Hall.

From the age of 10 to 11, the boys are members of the Webelos. Chelsea has four Webelos groups which are attached to the Cub pack. Webelos leaders are Carner Slocum, Pack 415; Clyde Myers, Pack 435; Toby Peterson, Pack 445; and Otis Titus, Pack 455.

At the age of 11, a boy becomes a Boy Scout. Chelsea has

four troops. Troop 420 with Scoutmaster Cecil Clouse, Troop 425 with Scoutmaster James Branham, Troop 465 with Scoutmaster Robert E. Snyder, and Troop 476 with Scoutmaster Chuck Stoner.

After the age of 18 a boy is eligible to belong to an Explorer post, of which Chelsea has one. "Scouting is really for all ages," according to James Branham of Troop 425, which is the oldest troop in the Chelsea area.

Scouts in Chelsea are members of District 4 of the Portage Trails Council. District 4 is made up of Milan, Saline, Dexter, Chelsea, Whitmore Lake, Manchester, Portage Lake, and Pleasant Lake, and has 17 scouting units.

At present, Rolland Spaulding is the president of the Portage Trails Council.

Scouting first came to Americans in 1910 from England where it was founded much earlier by Lord Baden Powell.

Ann Travis Wins Top Award In Youth Leadership Contest

Ann Travis, daughter of Mr. and Mrs. William B. Travis, 16 Sycamore Dr., has been awarded the local prize in the Elks National Foundation, Youth Leadership Contest. Ann was presented the award by the Ann Arbor Elks Lodge.

Ann was chosen on the basis of leadership, citizenship appreciation, perseverance, resourcefulness, sense of honor, neatness and arrangement of her application, and compliance with the instructions of the contest.

Ann, who is editor of the 1970 Annual at Chelsea High, the "Barker," managed to have that publication meet its publishing deadline for the first time in six years. Prior to assuming the editorship, Ann served as the Annual's business manager in 1969.

President of the Senior Trip Club, Ann and the group plan to go to New York in March. She is also a member of the National Honor Society, through which she served as chairman of that group's recent visit to C. S. Mott Children's Hospital. She made the arrangements for the visit as well as participated as Raggedy Ann in the "Mother Goose" presentation, which the NHS designed to entertain the children.

She is the chairman of the make-up committee for the CHS musical, "Carousel," having worked on three previous musicals on the make-up committee.

Ann and her family, which includes a sister, Mrs. Steven A. (Janet) Magennis, who is attending Michigan State University, attends St. Paul United Church of Christ. Ann serves on the Ann Arbor-Jackson United Church Youth Forum Board.

Ann, who has numerous hobbies, including sewing, skiing and playing the piano, plans to attend Olivet College in September.

The Ann Arbor Elks have placed Ann in competition for the state award in the youth leadership contest. The decision on state winners should be announced in the near future.

Other winners from the local competition are, in the girls division, Ann in first place; Vicki Eiselle of Manchester, second (Continued on page five)

Scout Leaders Report to Kiwanis Club

Rolland W. Spaulding was the speaker at the special Boy Scout Week observance by the Kiwanis Club of Chelsea Monday evening. Spaulding has been active in scouting for more than 20 years, and is at present president of the Portage Trails Council and the proud possessor of the coveted Silver Beaver Award, scouting's highest award.

He told about the new camp facilities near Clare, and how they were being developed.

He also told of the need for more interested adults as scout leaders and counselors. There were 900 more boys in Portage Trails Council in 1969 than in 1968.

Walter Henne, lieutenant governor of Division 10, led an inter-club of four Kiwanians from Ann Arbor Eastern Kiwanis club, A former resident of this area, Harvey Koselka, prosecutor for Lenawee county, led an inter-club of seven Adrian members including two brothers of Chelsea member, Charles Cox.

Dress Code Approved for CHS Students

A proposed code for dress, which was presented to the board of education by members of the Chelsea High School Student Council, was discussed at the board's business meeting on Monday, Feb. 9.

The proposed code, presented by Jane Mann and Jane Haselschwardt at the Monday, Feb. 2 board meeting, was a result of an opinion poll conducted by the Student Council after concern was expressed on the part of students, faculty and parents.

The proposed code was discussed and modifications were made by the board. The code, as it now reads:

1. Skirts, culottes, and pantsuits will be worn at an appropriate length for school—no display of undergarments.
2. Girls will not wear sweat-shirts or jerseys.
3. Boys' slacks will not be frayed.
4. Shoes will be worn at all times; boys will wear socks. Sandals will be allowed (with socks).
5. Boys' hair will be clean, neat, above the shirt collar, out of the eyes, and off the ears.
6. Girls may wear slacks from December through February. They will not be frayed or excessively tight.
7. Obscene language will not be used on school grounds.
8. There shall be no display of affection.
9. Sideburns will be neatly trimmed; there will be no mustaches or beards.
10. Shirt tails must be tucked in.

Disciplinary action for violation of any of the above points includes individual counseling, referring a student usually to the principal or a guidance counselor; sending the student home to change and return to school; conferring with his or her parents.

Final action is suspension or expulsion; usually reserved for repeated offenders.

Three Teacher Grievances Heard Today

Unresolved Complaints Go Before Professional Arbitrator for Settlement

Arbitration on three grievances filed for binding arbitration by the Chelsea Education Association on behalf of three teachers last Jan. 7 are being heard today beginning at 10 a.m. in the Board Room of the Chelsea High school by an arbitrator from the American Arbitration Association.

The arbitrator, M. David Keefe, was agreed upon by the CEA and the Board of Education after the disposition of the board in these three matters failed to satisfy the teachers involved.

Of the three grievances, two involve the use of Business Days as outlined by the Master Agreement between the CEA and the Board. These two grievances, one filed Nov. 26 by Lawrence Lonsway, and one filed Dec. 5 by Dennis Raymond, are debates over the right of the board 1) to question the use of a business day by a teacher, and 2) to not pay the teacher for the day taken as a business day, irrespective of why the day was taken.

The other grievance, filed Nov. 20 by Douglas Matz, is an alleged overload in the teaching assignment. It relies on Article V, section A 3b of the Master Agreement. It states that "Each Junior High school teacher shall have at least the same preparation time as he had during the 1968-69 school year."

The teacher involved in the grievance feels that he should have two preparation periods as he did the previous year. The board contends that he did not have two preparation periods, but rather that he had one with extra time allotted for travel between schools due to a difference in the two schools' schedules.

Keefe's name was one of seven sent to both the CEA and the Board by the American Arbitration Association. Both the CEA

and the Board were asked to rank in order which arbitrator each would prefer. Both agreed upon Keefe, who then set the time, date, and place of arbitration.

Keefe, who is an arbitrator by profession, has had extensive experience in the field of arbitration. He has been the manager of the Industrial Relations department for Marathon Oil Co. from 1956 to 1964, has been a commissioner with the Federal Mediation and Conciliation Service from 1952 to 1956, has been a staff representative with the AFL from 1941 to 1952, has been a faculty member at Indiana University, and for the past 11 years a member of the University of Detroit faculty.

Binding arbitration is the final step in a grievance procedure for a teacher with a grievance, beginning with an informal discussion of the matter with the individual teacher and his principal and/or immediate supervisor. If this is not satisfactory, then a formal written grievance may be filed with the building principal or supervisor.

If the disposition on the filed grievance is not satisfactory to the involved teacher, he may file a grievance with the superintendent, who then has three days to dispose of the matter.

The next step towards binding arbitration is a grievance filed with the Board of Education, which may then do one of three things. (The board may 1) review the complaint in an executive session, 2) hold a hearing on the matter, or 3) give it other consideration as the board sees fit. In all three of these matters, the board chose to hold a hearing on the matter to give both sides an opportunity to express the situation.

If the board disposition is not satisfactory, then binding arbitration may be asked.

ROBERT PETERSON

NANCY PICKLESIMER

Top JA Businessman, Businesswoman Chosen

From the Chelsea Business Center entries, two Chelsea Junior Achievers have been chosen as Miss Achievement and Mr. Executive.

Nancy Picklesimer of the Chelsea Business Center has been judged the top Junior Achievement businesswoman of this area, and Robert Peterson has been judged the top Junior Achievement businessman.

Nancy, who is a senior at Chelsea High school, is an officer of Danamite Enterprises J. A. Co., which is counseled by the PTO division of Dana Corp., with Phil Boham and Larry Bentley of Dana.

Nancy aspires to become a Christian psychologist, spending her first year of study in South Carolina at Rob Jones University.

"Being a Christian psychologist is like being a psychologist, but with a Christian faith and Christian ideals," explains Nancy, who is the daughter of Mr. and Mrs. Mitchell Picklesimer, 419 S. Main.

Robert Peterson, the son of Mr. and Mrs. Albert Peterson, 410 Dale, who is also a senior at CHS, intends to become an engineer. He is an officer of Dana-Mites Enterprises J. A. Co.

Robert enjoys the out-of-doors,

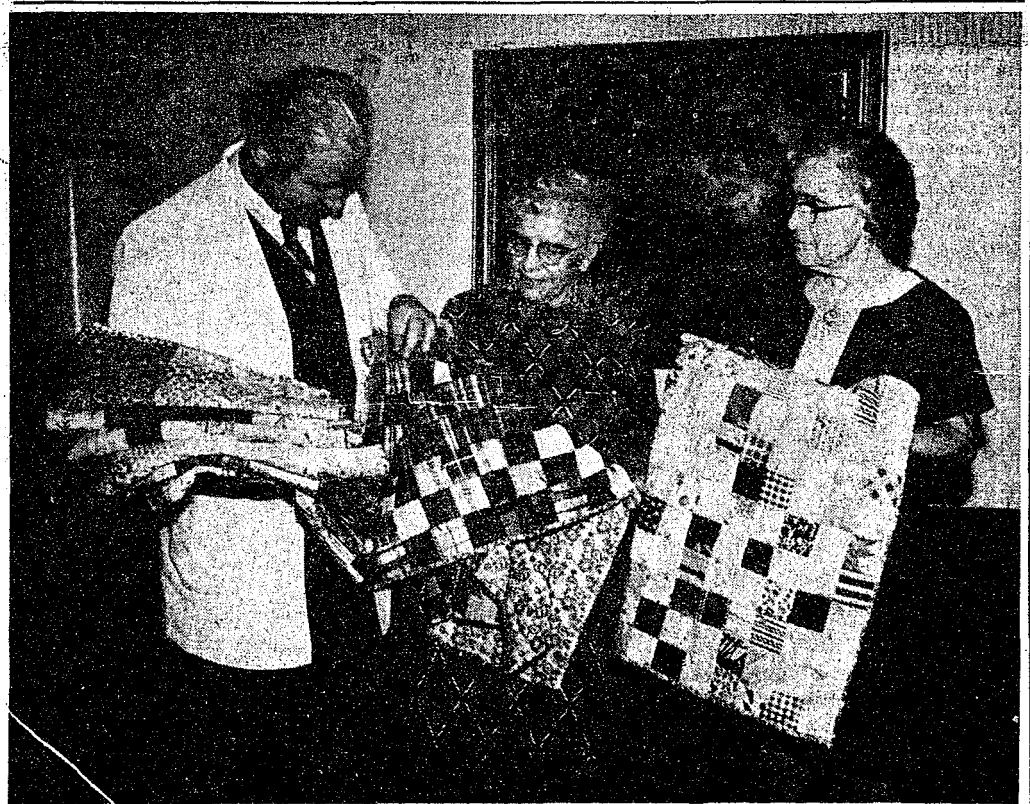

and spends his summers camping and swimming. He has been accepted at Eastern Michigan University, Ypsilanti, and has interviewed with Flint's General Motors Institute.

Both Nancy and Robert were judged on knowledge of Junior Achievement, on leadership characteristics, poise, personality, and appearance.

These local winners are competing for regional honors. Five finalists will then vie for the Southeastern Michigan title. These district winners will be announced in the near future.

Junior Achievement is similar to a club, which high school students may join to learn about the business world. In Chelsea both Chrysler Proving Grounds and Dana Corp. have gone to the schools and explained the workings of business to the students. From this explanation students may join Junior Achievement and be counseled by one of the firms in setting up their own business.

Students set up their business on a corporate level with officers and stockholders. To begin the financing of their business, students sell stock in their company to area residents and businessmen (Continued on page five)

WARM GIFT: Admiring the delicate workmanship of these lap robes donated to the Chelsea Medicenter Extended Care Facility is Dr. Michael Papo of the Medical Center. Members of the St. Paul Mission Club donated the dozen hand-made robes to the facility. Pictured here from the left are Dr. Papo, Mrs. Emma Seitz, and Mrs. Annette Vail.

Mission Club Ladies Make Quilts for Use at Medicenter

Mrs. Emma Seitz and Mrs. Annette Vail, representing the 14 members of the Mission Club of St. Paul United Church of Christ, delivered 11 lap robes this week to the Chelsea Medical Center for the use of the patients.

The club's project for this year is making as many lap robes as needed by the Medical Center. There are now 44 patients (Tuesday, Feb. 10). The first patient was admitted Jan. 12 of this year.

The lap robe project is one of many the club has undertaken since its founding in 1935 by the late Mrs. Elizabeth Wackenhut. Originally membership was restricted to women of the church who were 70 years old or over, the charter members being Mrs. Caroline Breitenwischer, Mrs. William Pielemeier, Mrs. Caroline Hinderer, Mrs. Minnie Gross, Mrs. Wackenhut, Mrs. Lisette Widmayer and Mrs. Lena Barth. All are now deceased.

Present members of the club are no longer restricted as to age. Current members of whom a number are working on the lap robe project are Mrs. Hilda Trinkle, Mrs. Hilda Stierle, Mrs.

Elsie Paul, Miss Cora Feldkamp, Mrs. Lula Beutler, Mrs. Esther Nicolai, Mrs. Margaret Grieb, Mrs. Catherine Seitz, Mrs. Annette Vail, Mrs. Amanda Mayer, Mrs. Sarah Bahnmiller, Mrs. Milda Lindauer, Mrs. Mina Seitz, Mrs. Violet Thomas, and Mrs. Emma Seitz.

Serving as officers this year are Mrs. Emma Seitz, president, and Mrs. Grieb, secretary-treasurer. Founder of the club was Mrs. Elizabeth Wackenhut who had heard a missionary worker from India tell of the dire need for bandages for the leper patients in the hospital at Chandkuri. Mrs. Wackenhut who, because of her age, was unable to continue her work at church suppers and other events, as she had done for many years, decided to organize the Mission Club as a means of giving needed services to mission projects which were not too strenuous for herself and others in her age group, making bandages from old sheets was the club's first project. This was continued until other means of supplying bandages became available.

Since then club members have made clothing for needy children

in various parts of the country; sent toys to mission stations for distribution at Christmas time; made quilts and rugs for various missionary stations; and supplied bedding for families in this area who lost their possessions in home fires. They also have made monetary gifts to missions and to St. Paul church.

Among the organizations which have benefited from the club's work are the Winnebago Indian Mission at Neillsville, Wis., Emmaus Home for Epileptics and Mentally Retarded near St. Louis, Mo., the Evangelical Home for Children and the Aged in Detroit, Save-the-Children Federation and many others.

The group meets once a month (with the exception of August) at the homes of members. The meeting is opened with a brief devotional service and readings and the remainder of the afternoon is spent on work projects.

Mrs. Amanda Mayer, who is now a patient at the Medical Center, served as president of the club for several years before she resigned two years ago for health reasons.

Washington Report by Congressman MARVIN L. ESCH

One of the most significant but little known features of President Nixon's State of the Union message was his call for balanced national growth. This is a bold, new policy on the grand scale that should be of interest to everyone in our Second Congressional District.

By spreading population growth and economic development, we not only rejuvenate small towns and rural areas too long ignored, we actually increase the prospect of curing urban ills.

The southeast area of Michigan, including our District, will experience great change in the next two decades. It is the responsibility of government at all levels to bring about balanced growth; to protect open space and vital agriculture areas while providing modern services for a growing population.

The century-long migration of people from outlying regions to congested metropolitan centers has clearly been devastating to both. Nearly every big city problem we have has been caused or made worse by jamming together in a small area millions of people, many of whom are psychologically unsuited for the big city.

Numerous small towns and rural

areas, meanwhile, have been caught in a relentless downward economic cycle. Because job opportunities are lacking talented young people leave town, and local vitality diminishes further.

In the last third of this century 100 million babies will be born in the U. S. If most are forced to choose the suffocation of packed-in urban centers, then we have learned nothing from the history we have witnessed in recent decades.

Because of my alarm about this problem, I introduced legislation that calls for establishment of a Commission on Balanced Economic Development. There have been a variety of other proposals along this line. Hopefully this big push by the President means the concept of balanced growth will soon become firmly established in the nation's thinking.

If we are to successfully promote balanced growth for the common good, we also must do what we can to spread prestige. There is, of course, no way to prevent some communities from achieving more glamour and glory than others, nor should there be. But grand plans will simply not work if any area—large, small town, big city—is scorned.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

Ed Doolittle that keeps a picture of Abe Lincoln in the back of his watch reminded the fellers at the country store Saturday night that Abe's birthday was coming up this week. Ed said he was wondering as he does every year what Abe would think about his Republican Party now.

Ed suggested Abe would have some choice words for this silent majority the Nixon Administration says ought to be running the country. Abe probably would point out right off it was this silent majority that elected Nixon President the same silent majority that elected Roosevelt, Truman

and all the tax and spend Democrats.

Clem Webster was agreed with Ed that the most can be just as wrong as the least and a whole lot more often. The majority backed Hitler and Tojo, allowed Clem and all the rest of the biggest mistakes in history. Clem recollected where Mark Twain said once if a feller finds himself thinking with the majority he had better change his mind quick.

Another saying Clem recalled was that great minds have purposes and ordinary minds have wishes. What we got to have is not just people with the same wishes but a few folks with some ideas about what to do about problems was Clem's words. The good Lord made more average than any other way and it ain't the ordinary that gets things done in this world Clem said.

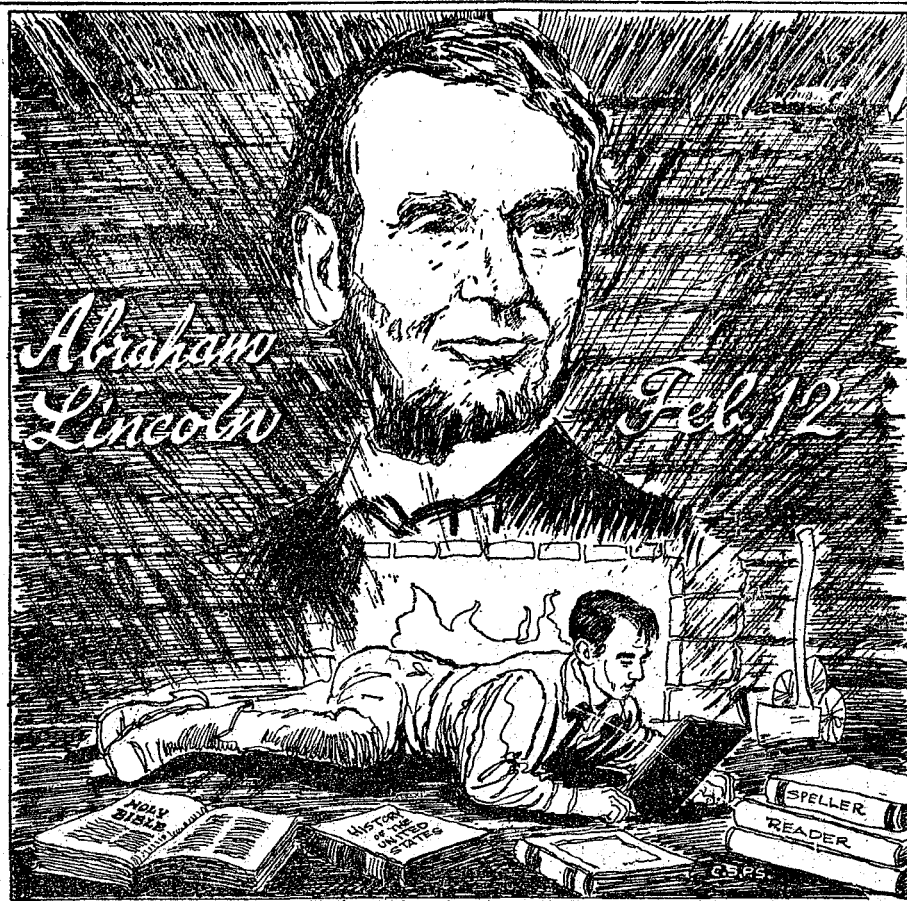

The one thing the silent majority ain't silent about is advice. Ed allowed and he recollected the fellers talking last week about advice for newspaper editors. Ed was of the mind that if a feller can tell the difference between good and bad advice he don't need none and if he can't the good advice ain't going to do him no good.

Furthermore Ed allowed the majority don't ever take no good advice cause they git took on ever deal comes along. Ed said he heard once where this feller run a ad in the paper saying it was a body's last chance to send him a dollar and he got dollars from a lot of folks that didn't want to miss out. Jest recent Ed said this feller nailed a box to the bank and put up a sign telling folks to use his night deposit box instead of the regular one. When he got a box full he jest took down his box and his sign and took off.

Actual Mister Editor I figger it's the average feller that holds the world together but I got to agree with the fellers that the majority don't allus stop and read the fine print. A figger ain't allus a fact in this world. You see a gal in a girdle and you see a figger but you look at the gal without the girdle and you see a fact. Most of us average is so struck by figgers we don't bother with facts.

Yours truly,
Uncle Lew.

Money Gathered
Michigan's Republicans plan a war chest of \$1,268,000 to help finance their candidates in November elections.

The budget was drawn up by the GOP State Finance Committee and comprises nearly 50 percent of the party's total budget for the year.

Party leaders aren't saying what priorities they are putting on the various races, however. Reliable estimates put about \$1 million of it on the U. S. Senate and gubernatorial races with the remainder in the other races around the state.

This isn't the only money the various candidates will be spending.

It is generally conceded that a race for governor or the senate costs about \$1 million now days. That's a lot of money for a job that pays \$40,000 a year (the governorship) or one which pays \$42,500 a year (the senate). There are of course, many more advantages to holding office than the financial ones.

Romney Remembers

Former Gov. George Romney's chances for the presidency were damaged more than any other single thing in 1968 by his now infamous "brainwashing" statement.

He illustrated recently at a news conference he hasn't forgotten the term, and that he's still a little sensitive about it.

"I'm very proud of that particular term," he told a questioner. "I think history will show that I was using an accurate term at the time. Dean Acheson (former secretary of state) has confirmed that he was also brainwashed."

"So I'm not one who apologizes for having used that term," Romney went on. "I told people what I think, and I meant it."

"I made up my own mind with regard to the Vietnamese conflict that we made a tragic mistake, and I voiced that for over a year in less dramatic terms; and nobody paid much attention until I used that particular term."

"And I'm glad I did because nobody has forgotten it," he said. "I hope they never do."

Romney will probably get that wish. The word "brainwashed" has already earned a place in the folklore of American politics.

Dinner Abound

The birthday of Abraham Lincoln is Feb. 12, and the Republican Party has seen fit to observe this date for many years by holding "Lincoln Day" fund raising dinners throughout the country.

The number of dinners increases during an election year, and this year is no exception.

The GOP have scheduled a total of 32 "Lincoln Day" dinners in Michigan this year, and they will occur as late as the last date of the month.

The most called upon speaker for these dinners is Gov. William G. Milliken, who has signed up for a total of eight during the month.

Assistant national chairman El-

Judge Ross Campbell Named to State Bar Family Law Committee

Circuit Judge Ross W. Campbell has been appointed a member of the Committee on Family Law of the State Bar of Michigan by A. D. Ruegg, president.

Judge Campbell is the author of published articles on juvenile court and mental health law. A former juvenile court referee, he was elected a probate judge in 1967 and headed that court's Estate and Mental Health Division until his appointment as a circuit judge in 1969.

The circuit court hears all cases of divorce and child custody.

Tight Money Continues

The money market will continue tight for Michigan farmers.

The Production Credit Associations and Federal Land Banks will continue to feel the credit squeeze according to Michigan State University agricultural economists. The tight money situation will also slow the land market, and the proportion of land sold on land contracts is likely to increase in 1970.

Peterson has accepted five invitations.

A total of 13 other speakers have been signed on to fill out the other 19 dates.

Bountiful Harvest

A 28th percent increase in the state's seven major fruit crops means that a total of 594,000 tons was produced in 1969 as compared with the previous year. But low prices, shortage of harvest laborers and unfavorable market conditions caused growers to abandon about 22,500 tons of mature fruit.

A look at some of the figures gives an idea of the bounty which resulted from the season.

Apples: 680 million pounds; 23 percent above 1968.

Tart cherries: 105,000 tons, a 5 percent increase.

Grapes: 40,000 tons, a whopping 75 percent increase over the smaller crop in 1968.

Peaches: 95 million pounds, more than double the crop a year previous.

Pears: 24,000 tons, more than double the record low 1968 crop.

Plums-Prunes: 14,500 tons, 12 percent over 1968, but 3 percent behind 1967.

Dubious Honor

Taxpayers in Michigan have some consolation in the knowledge that residents in nine states pay more to their state governments.

National average for the states is \$338 for each man, woman and child. Michigan people are taxed at the \$367 level. New Yorkers pay the most, \$503. California is next with \$488. People in Nevada and Hawaii pay \$429 and \$421, respectively.

Cheapest states from the tax load standpoint are Arkansas (\$200 per person) and Kentucky, Tennessee, West Virginia, the Carolinas, Georgia, Alabama and Texas. Per capita rate there runs about \$250.

One thing is certain as death: taxes will be going up, and chances are good they will be going up fastest and furthest in the states which are now the lowest, if those states are to progress.

FEBRUARY IS THE TIME TO PLAN AHEAD

With the excitement of the New Year over and everything settling down to normal, it is time to take stock of ourselves and look to the coming busy months of 1970. We expect that many new and encouraging advances will be made in the field of health and medicine. Hopefully this will be the year when cures might be found for some of the diseases that still plague mankind.

We look forward to serving our friends and customers and to their enjoyment of good health in the months ahead. We hope you will look to your physician for advice in times of illness and, also important, plan ahead to get regular health check-ups for your family.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

TROOP 58—

We met Monday, Feb. 9 at the Congregational church. We went downstairs for a Valentine's party with our sister Brownie Troop 169. We exchanged Valentine cards with them. We played a game to see how many different words we could get out of Valentine's Day. For refreshments we had candy hearts, cup cakes, and Kool-Aid. We sang "Hark to the Chimes" for a grace. Mrs. Lorenz passed out permission slips for going to the clinic to give the people the tray favors. We put the tray favors together today. Next week we get our cookie order blanks. We closed with "peace." Debbie Packard, scribe.

BROWNIE TROOP 247—

Brownie Troop 247 met Wednesday, Feb. 4, at the Congregational church. Refreshments were served by Fatty Hume. We went into the Brownie Ring and talked about working and playing safely. Mrs. Donkin showed us how a fire extinguisher works. We voted to buy a Brownie flag with some of our money from dues. We made plans for our Valentine party. Our meeting was closed with the Brownie squeeze. Barbara Schardein, scribe.

BROWNIE TROOP 169—

Brownie Troop 169 met Monday, Feb. 9, at the Congregational church. Dues were taken, then we entertained our sister troop No. 58 with a Valentine party. We played a game making up words from "Valentine's Day." Then we had cupcakes furnished by Lari Inbody, Karen Popovich and Robin Jones. We closed with the squeeze and taps. Susan Heller, scribe.

JUNIOR TROOP 82—

Wednesday, Feb. 4 we took dues and attendance. Then for opening we repeated the pledge and sang "America" and "All night, All Day."

We have two new girls in our troop; they are Kim Slocum and Laurie Campbell.

Two girls came from the High School speakers. Their names are Theda Allen and Becky Barkley. Theda Allen talked about yoga and you. We did a easy post and cobra. "Becky Barkley talked about Chelsea. Did you know there's 41 miles that lead to nowhere. The Father-Daughter night is March 12.

Barbara Roy, scribe.

Less Time Required To Feed Haylage

Dairymen spend 24 to 30 percent less time to harvest and store haylage than hay for herds of 40 to 160 cows, according to MSU agricultural economists. Daily time to feed all forages was reduced from 25 to 60 minutes per form when haylage was fed instead of hay on the Michigan dairy farms studies. Forage made up 25 to 30 percent of the cost of producing milk.

Third Skills Workshop Slated
Saturday at Ann Arbor Church

The third in a series of Skills Workshops for church school workers, youth leaders and church librarians will be held Saturday, Feb. 14 at Zion Lutheran church, 1501 W. Liberty Ann Arbor. The event is sponsored by the Washtenaw County Council of Churches Department of Christian Education.

A new feature in this workshop will be a group for church librarians under the leadership of Mrs. Josephine Kyles of Washington, D. C. Every church is urged to have its librarian present to gain the latest insights into how to make church libraries serve a useful purpose and advance the total concerns of the church. The course will give information in how to set up a church library, what books to buy and where, how to catalogue and how to promote.

"Mrs. Kyles for many years director of Christian Education for the Washington, D. C. and Detroit Councils of Churches is expected to handle this responsibility with consummate skill," according to Miss Ann Tyler, workshop chairman.

Other courses will be activities for younger children, How to Love, Sound and Christian Personality, The Creative Use of Audio-Visuals, Expressive Christian Art and Teaching the Total Child. Leaders for the workshop will converge on Ann Arbor from all over the nation.

The registration fee includes coffee and doughnuts upon arrival and lunch. Those interested may obtain information by getting in touch with the pastor, the Christian education director of their church or by calling the Council of Churches, 761-0930.

Oilmen Find California Sea Lion off Louisiana

Crewwomen on an oil rig off the Louisiana coast were delighted recently to find a seal-like creature cavorting beneath them. It remained for days, and scientists confirmed it was a California sea lion, according to Petroleum Today.

Once an oil rig is set in the water, it becomes an artificial reef. The legs and cross braces become covered with barnacles, algae, and seaweed, which attract fish, which in turn—in this case—attracted a passing sea lion far from home.

Wyatt Earp Ended Career as Oilman

Whatever happened to Wyatt Earp after the gunfight at the OK Corral? The magazine Petroleum Today reports that the famous ex-marshall of Tombstone, Ariz., enjoyed a degree of success as an oilman, although he once wrote to a friend about one of his wells: "I was in hopes they would bring in a 200 or 300 barrels per day well. But I must be satisfied, as it could have been a duster."

Wildcat wells are still, as in Earp's day, much more likely to be dry-dust than profitable. Chances of discovering a significant new field containing the amount of oil or gas considered necessary for commercial success are only two in 100.

A marble-type finish is possible with antiquing kits. The secret is in the way you handle the surface after you have applied the toner. First, apply a relatively heavy coat of toner and lay a large piece of wrinkled clear plastic lightly on the top of the area. Pat the plastic lightly with a cloth to make sure that wrinkles and air bubbles appear. Pick up the plastic carefully—don't drag it. You can use a sponge or bur-lap to accomplish the same effect.

place; and Leslie Bunton of Lincoln in third place.

In the boys' division, winners are David Hieber of Ann Arbor, first place; David Bucholtz of Manchester, second place; and Scott 'Nelson' of Ypsilanti, third place.

Ann and Hieber will be awarded \$100 in the local competition and the second- and third-place winners will each receive \$75 and \$50, respectively.

The prize money increases at the state level and the national level. Last year's state winner, Hannah Jane Hardy, was awarded \$900 for first place. Many scholarship awards are given at the state level irrespective of whether or not the applicant places.

National prize money is \$2,000 for first, \$1,000 for second, and \$1,250 for third-place winners.

The Elks hold another competition, the Elks National Foundation Youth Scholarship Contest, which places its major emphasis on grades, rather than leadership, although scholarship and leadership are considered in both contests.

TODAY'S THOUGHT

By LOUIS BURGHARDT

With the exception of the Bible, we think reading about Lincoln can buoy one's spirits, can give hope when hope is needed, more than any other way. Sadly, but wisely, when you read about Lincoln, you see the greatness in the man. You see how a great man is measured, unfortunately, after he has fallen, like you measure a tree after it is down, not while it stands.

Lincoln never claimed to be an orator but his words put to shame the multisyllabled oratory of other statesmen. For example, read this—

"I am not bound to win, but I am bound to be true. I am not bound to succeed, but I am bound to live up to what light I have. I must stand with anybody who stands right; stand with him while he is right and part with him when he goes wrong." A great thought? Yes, of course. 54 words! And 52 of the 54 words are of one syllable!

Lincoln's birthday reminds us that small words with good deeds measure a great man. . . BURGHARDT FUNERAL HOME, 214 East Middle St., Chelsea Mich. Phone GR 5-4141.

Kiwanis Travelogue Presents Tour of Israel Saturday

WALTER DODSON

Saturday, Feb. 14 the Kiwanis Club of Chelsea will present its fourth program of the "Travel and Adventure Series" at 8 p.m. at the Chelsea High school auditorium.

Walter S. Dodson will present "A Taste of Israel," which tours the land from Dan to Eilat, taking a look at such interesting subjects as diamond cutting and tapestry weaving.

"Israel, with a flavour all its own, is both a new country and an ancient civilization," according to Dodson who has had a good deal of professional cinematography experience. "It has neglected land which now has bloomed with fertile farms and green fields where ancient governments rose for a brief moment, only to fall. The people are new, hailing from 70 different countries, but living together in harmony."

Dodson was born and educated in England. He enlisted in the British army in 1939, serving in France and Belgium. He escaped Dunkirk and subsequently spent five years in the Middle East where he met his wife, Margot. In 1949 he moved his family to the U.S. and obtained a position as a chief engineer, practicing photography and cinematography part-time. His professional cinematography experience and enjoyment of meeting people from different countries induced him to become a full-time travelogue artist.

Thieves Get \$116 from South School

Robbers broke into the South school over the past week-end and stole \$116 in cash from a locked file cabinet in the office of the school.

"The thieves definitely knew what they were doing," reported Officer Louie Schneider, "They entered through room 14 on the west side of the building sometime between 5:15 p.m. on Saturday, Feb. 7 and 11:30 a.m. on Sunday.

"They smashed a bottom window and gained access to the office," continued Schneider, "then they took a key, opened the filing cabinet, took the money, replaced the key and exited the same way as they had entered."

In all, the robbers got roughly \$80 in loose change and the remainder in small bills. The money was described by Schneider as lunch money, book money, etc.

The police have a suspect in the incident and several pieces of evidence.

★ Obscenity Must Go

Guidelines to control the quality of television programs may be forthcoming from the Federal Communications Commission. The need for control is recognized by FCC people in light of increasing criticism of the quality of programs. Most criticism is centered on programs as being either too sexy, too violent, or too bland. One area of concern is the problem of obscenity on television, especially as more of the adults-only movies being made begin to appear on the medium.

Dean Burch, chairman of the FCC said, "I personally feel the FCC has to take some sort of step as far as movies are concerned," reports the Wall Street Journal.

Other reports indicate congress later this year may be getting into the act for sterner regulations in this area.

Rural-urban areas alike will sigh with relief when and if actions are taken.

Burch explained television as being unlike other mediums which have restraints, theaters or bookstores, where if one is not qualified (age limit) he cannot join in. But those same restraints are not available on television when a child, for instance, is sitting in front of a TV set at home during prime-time hours, he said.

Farmers believe the increasing dissemination of obscene materials, programs, and motion picture films contribute to immorality and delinquency and favor efforts of the FCC to establish guidelines designed to prevent salacious television programs.

Burch said the decision has to be made by the FCC, the courts or by Congress and "I think we the FCC would be willing to go ought to get at it." Asked if to court to settle the issue, Burch said, "If a test case is what's necessary... then I guess a test cast it will be."

Here's just one example that letters from the people are being read, keep 'em coming folks, with the idea of getting more action started to help repair society of another of its pollutions.

Engines Are Major Source of Air Pollution

Engines are a major source of air pollution, reports a Michigan State University agricultural engineer.

The automobile is the worst offender, says Les Mack. Cars of the U. S. consume about 4 billion tons of air each year and replace it with carbon monoxide, nitrogen oxides, sulfur oxides and other poisonous corrosive substances.

Engines of all kinds suck in billions of tons of air, then spew out fumes that contaminate the air, Mack notes.

Raw Interior of Medical Life Portrayed on TV Documentary

East Lansing—"NET Journal" probes the raw interior of medical life on "Hospital" Sunday, Feb. 15, on WMSB (Channel 10), television. Because of the realistic approach and unflinching detail in the 90-minute documentary, "NET Journal" moves to a new time, 11:00 a.m. for this program only.

Filed entirely at Metropolitan Hospital in New York City, the program contains no interviews or narration. Instead through a camera's eye, the cumulative impact of daily experience within a municipal hospital is conveyed, attesting to the knowledge and compassion of a hospital staff.

In one segment of the program, a man arrives in the emergency ward with a knife wound. His hand is covered with his blood, holds his hand as he is treated.

In another segment, a boy who has taken mescaline cries that he is going to die, while doctors seek to purge him of the drug and to reassure him about his health.

The documentary was produced and directed by Frederick Wiseman, 1969 Emmy winner for PBL's "Law and Order," a documentary on the Kansas City Police.

Other WMSB highlights include: PUPPETS—Some of television's best-loved characters return for a series of five programs, on "Kukla, Fran and Ollie" premiering Tuesday, Feb. 17, at 7 p.m.

The venerable trio consists of Fran Allison and her two puppet friends, who are joined by all the Kuklapolitians. The puppets are created and animated by puppeteer Burr Tillstrom.

After introducing themselves and the gang on the first show, "Here We Are Again," Kukla, Fran and Ollie turn their attention to some of the pressing concerns of the day. Ollie endeavors to get such big-name performers as the Beatles and the Supremes to appear on the show and reminisces about his days at Dragon Prep. The three stars close the show with two songs, "I See the Valley So Clear" and "Day at Dragon Retreat."

MONEY—"Money Matters," a consumer-oriented series, premieres with an explanation of life insurance, Monday, Feb. 16, at 1 p.m.

Hostess for the series is Mary Ellen Burris, home economist and producer of several television series in New York.

In addition to a thorough examination of life insurance, the series explores the pros and cons of owning a freezer, shopping in discount houses, purchasing carpet and handling children's allowances.

JAPANESE MUSIC—"Music of Japan" offers viewers an unusual opportunity to hear the beauty and variety of traditional Japanese music, Sunday, Feb. 15, at 2:30 p.m.

A trio of skilled musicians—Kajji Yagi, Kodo Araki Y and Miss Kayoko Hashimoto—performs works for koto, shamisen (or sangan), and shakuhachi.

SWISS FONDUE—2 cans (10% ounces each) condensed Cheddar cheese soup 1 cup cubed Swiss cheese 1 large clove garlic, minced Cubed French bread

In saucepan, stir soup until smooth; add cheese and garlic. Heat until cheese melts; stir now and then. Each person spears bread with fork or wooden skewer, and dips into hot fondue in "communal" casserole or fondue pot. Makes 3 cups or 6 servings.

Dairy Income Going Up—Gross income from dairying will be up in 1970, predict Michigan State University agricultural economists.

Generally, prices paid to farmers in 1970 are expected to be about the same or slightly higher than in 1969.

Reporters: All the children

Happy winter to everyone! We have been very busy working on a health unit. Plenty of sleep, good food, keeping clean and outdoor play helps us stay healthy and strong.

We have a new member in our afternoon class—Geoffrey Shaw and Darrin Edwards in the morning class.

Last week we made butter from whipping cream. We each shook the bottle of cream ten times and the cream turned to butter and butter milk.

Some of our class members have been sick and we hope they will rest and feel better soon.

Dr. Miller came to see us during dental health week. We all enjoyed asking him questions about our teeth and seeing his big tooth brush.

Let's all hope spring will come soon!

FIRST GRADE—

Room 8

Teacher: Mrs. Morgan

Reporters: All the children

In Science we have been learning about dinosaurs. We visited the Museum at Ann Arbor and looked at the displays. Our guide told us many interesting things about dinosaur fossils. We were impressed by their immense size. We also looked at the mounts of Michigan birds and small animals. We enjoyed the trip.

In Math we have been learning the names and values of coins. We are using play money to help us add coins. We can write our own equations when adding coins. We like to learn how to count money.

Room 4

Teacher: Mrs. Stewart

We have had a busy month!

We went to the museum to see the dinosaur skeletons and really liked looking at them and knowing who they were. We made a dinosaur booklet with copies of the stories we wrote about Stegosaurus, Brontosaurus, and Triceratops. We had a visitor on Feb. 4. Sandy Trevino's brother, Gilbert, who just returned from Vietnam, who stayed and heard his read. He also went to the museum with us. He was the only one with us. We were making valentines soon, but those are a secret!

February birthdays are: 6th—Billy Freeman, 9th—Sheri Machnik, 22nd—Eric Pichlik.

Room 5

Reporters: Barry Hinz and Roland Klink

We have been learning about dinosaurs. Last Monday we went to the museum in Ann Arbor. Our guide told us about dinosaurs and birds. We will be studying birds soon. We have been learning to use a thermometer and recording the temperature on a chart every morning. We are going to have a Valentine party on Feb. 13.

Room 2
Teacher: Mrs. Thodeson
Reporters: Tracy Barr, Timothy Roy, Lori Ann David and Melanie Schneider.

February birthdays: Kenny Bauer.

What a day we had at the museum! It was exciting for some of us to have a chance to ride on a bus. The guides asked us lots of questions and answered some for us. The fossil egg was interesting to many of us. We all had our most favorite part of the trip.

Teresa Heilmann is back in school. She had her tonsils out. We learned a poem to go with the snow men we made. We think our number work is easy. We were surprised to find that we can read a book all the way through by ourselves.

SECOND GRADE—

Room 7

Teacher: Mrs. Lopez

We have made a mural on the bulletin board showing many of the ways to have fun in winter.

The picture shows children playing with sleds, skis, toboggans, ice skates, snowmobiles, and building snowmen. We have decorated our windows with silhouettes of Lincoln and Washington, whose birthdays are this month.

In Science class we are learning about weather and the seasons. We are learning how water gets into the air by using some experiments.

Everyone is looking forward to our Valentine party next week.

Room 10

Teacher: Mrs. Plank

Feb. 1-7 was National Dental Health Week. We saw several filmstrips on care of our teeth.

Each of us demonstrated the proper way to brush on some giant teeth with a giant toothbrush.

Rancher Glen presented a program on good health. He is a real cowboy and told us about his experiences and sang some songs cowboys sing on the trail.

We made sculptures out of straw which are displayed in the showcase in the hall. We are getting ready our valentines for our party Friday, Feb. 13. We are reading a book about Valentine's Day. It explains why we celebrate Valentine's Day and tells some legends about St. Valentine.

Grouping in both addition and subtraction is the math concept on which we are currently working.

Three Chelsea Students Named to Ferris Honor List

Ferris State College, Big Rapids, has honored 1,391 students, among them three from Chelsea, for scholastic excellence in the Fall Quarter by naming them to the Academic Honors List, according to Dr. Robert H. Huxol, vice-president for instruction.

To be named to the Academic Honors List, a student must maintain at least a B average while carrying a full academic load.

Students named to the list included, from Chelsea: Mary M. Baize, daughter of Mr. and Mrs. G. A. Baize, 30 Island Lake Rd., who is studying business; Lynn A. Visel, daughter of Mr. and Mrs. Edward Visel, 639 S. Main, who is a freshman studying accounting; and Douglas, Q. Weatherwax, son of Mr. and Mrs. Guy D. Weatherwax, 513 Arthur, who is in the business program.

Mary Baize, whose average so far in her freshman year is a 2.97, received six grades of A, and one B in physical education. Mary intends to complete a four-year program to receive her BS in secretarial science, as well as her teacher's certificate in business. Mary's course load was 17 credits, several over the normal semester load of 14 or 15.

Lynn Visel, also a 1969 graduate of Chelsea High school, intends to become a Certified Public Accountant. She was home over the Christmas holidays to visit her family, who then all flew out to California to visit Lynn's brother, Barry, who is stationed there with the Navy. Lynn was a member of the Chelsea High band.

Douglas Weatherwax, with a 3.52 grade point, plans to teach social studies and minor in physical education. He looks forward to becoming a counselor or a student advisor. Douglas, who is also a freshman, is a 1969 graduate of Chelsea High school.

SUNDAY'S SERMON

★ Success, Happiness

The argument is not always won by the loudest voice. Anger displayed is not the best way to attract support to a cause, no matter how just the anger, how right the case.

Whatever one seeks in life, the chances of lasting success are related to the manner in which the effort is made. Ill-gotten success is easily lost, in the same manner in which it was gained. Many people learn too late in life that success and happiness are not one and the same thing.

Whatever your goal, try to balance the scale between what you take and what you give. Help others and they will respond in kind. Seek only your fair share of any reward, compensation, praise or credit; give to every other man his due.

Do not be too proud to concede when another's point is well taken. Remember that you can accept defeat in battle without losing a war. Admit your mistakes and try to correct them.

Follow the golden rule and, more times than not, what seems a complete loss will be turned into some measure of gain.

Michigan Electric Rates
Among Lowest in Nation

Lansing—The average Michigan homeowner is paying less for electricity than residents of 47 other states, the Public Service Commission (PSC) of the Michigan Department of Commerce reported recently.

PSC Chairman Willis F. Ward of Detroit said the average residential electric bill in Michigan was \$7.59 for homeowners who use up to 500 kilowatt hours (KWH) of electricity each month.

Residents of only two other states—Washington and Oregon—had lower average bills. The U. S. average bill was \$10.37 for residential service of up to 500 KWH per month.

"The Public Service Commission is proud that Michigan electric utilities are among the most efficient in America," Ward said. "Our electric rates are low despite the fact that most Michigan homeowners buy electricity from privately-owned companies."

"Washington and Oregon and several other states have large publicly-owned electric companies which do not pay most taxes and thus have lower costs."

Ward said electric rates charged by Michigan's two largest privately-owned utilities—Detroit Edison Co. and Consumers Power Co.—are among the lowest charged by the nation's 205 privately-owned electric power companies.

The average 500 KWH customer of Detroit Edison and Consumers

Power had a monthly electric bill of \$6.84 in 1968. The cost of the same service would have been \$15.76 in New York City, \$13.74 in Florida, \$12.82 in Boston and \$12.80 in Chicago.

The Public Service Commission chairman said the residential use of electricity increased by more than 25 percent in Michigan during the period from 1962 to 1967.

The average home in Michigan used 4,334 KWH of electricity in 1967 compared to 3,374 KWH in 1962, according to data recently published by the Federal Power Commission.

The Detroit suburb of Livonia, where homeowners used an average of 6,044 KWH of electricity in 1967, led the state in residential use of electricity and Ann Arbor followed by the average home used 5,342 KWH of electricity and Ann Arbor where average annual consumption of electricity totaled 5,044 KWH. Hackson homes averaged 3,905 KWH.

Tigers Sign 4 Prospects for Farm System

Detroit—The Tigers announce
the signing of a catcher, an out-
fielder and two infielders for their
farm system.

The four prospects will report to
Tigertown, the Tigers' minor
league base at Lakeland, Fla., for
assignment, according to Ed Kat-
alinas, director of player procure-
ment who announced the signings.

The four prospects are:
Ken Stouffer, 21-year-old catch-
er from Sandusky, O. He is 6-3
and 210, bats and throws right-
handed, was signed by Tiger Scout
Wayne Blackburn.

Steve Ring, 20-year-old outfield-
er from Malden, Mass., signed by
Scout Joe Cusick. A righthander
all the way, Ring is 6-1 and 200,
played at Budett Junior College.
Daniel Ruth, 21-year-old first
baseman from the University of
Colorado, whose home is Boulder,
Colo. Drafted by the Tigers in
June, 1969 free agent draft, he is
5-11 and 195, bats and throws
righthanded.

Don Batts, 20-year-old third bas-
eman from Wilson, N. C., who has
been playing baseball in military
service and was recommended by
John Sharkey, a Tiger farmhand
outfielder who was at Batavia of
the New York Penn League last
summer. Batts is 5-11 and 175,
bats and throws righthanded.

IN THE OPEN

By Lee Smits

Perhaps America is not old
enough to have legends, myths,
and folklore. Paul Bunyan, yes.
In the old French era, the loup
garou and little else, so that
Ground Hog Day is given special
attention. Candlemas, Feb. 2, is
the day when the ground hog
awakens from his winter sleep,
climbs out of his den and decides
how much is left of winter. If
he sees his shadow, it will be six
weeks before spring moves in.

Except for this quaint notion,
the woodchuck (marmota monax)
is largely unpublicized. This
doesn't seem fair, since the wood-
chuck is an important member of
the wildlife community. Mich-
igan's principal game animal is
the cottontail rabbit, and were it
not for snug underground dens dug
by woodchucks the cottontail could
not survive sub-zero weather.

Michigan pioneers appreciat-
ed the woodchuck. Moccasins
were soled with its tough hide.
There was no better material
for boot-laces. What is more,
the most delectable wild meat
was young woodchuck, fattened
on clover.

There are two pelage phases—
gray and reddish brown. Grandma
believed that one color was edible,
the other, rather risky. At one
time woodchuck inspired a bounty
racket in southern Michigan town-
ships. Kids ran trap lines in early
summer, stringing the scalps of
young woodchucks on hay and pre-

sending them to the township
clerk who paid the highest bounty,
sometimes as much as 25 cents
per scalp.

The farmer does have one legiti-
mate complaint against the wood-
chuck. Horse or cow stepping into
a woodchuck burrow may break a
leg. The vegetation consumed by
a woodchuck family amounts to
little.

In modern times the woodchuck
is chiefly famed as a target for
riflemen. Full-grown men will
crawl across fields, toting costly
weapons equipped with telescopic
sights, for the purpose of blast-
ing a two-pound rodent with a bul-
let intended for moose.

The most successful skunk man-
on the Michigan scene is the
skunk. Nature gave the skunk
immunity from most of its
enemies, but neglected to pro-
vide the skunk with equipment
for home-building. The wood-
chuck takes care of the skunk's
need for shelter.

Skunks are inclined to be soli-
tary in their habits, but when they
take over a woodchuck burrow it
is come one, come all. A rural
youth with a degree of expertise
in disposing of skunks could earn
himself a suit of clothes in an
exciting afternoon of skunk har-
vesting.

A skunk relies on one method
of defense whereas a woodchuck
has only its teeth and muscle, yet
a determined woodchuck is more

than a match for a farm dog 10
times its size. In spite of its pug-
nacious disposition, the wood-
chuck is a highly attractive pet.
Affectionate, playful, never nip-
ping a friend.

ed through the courtesy of

WQOL PRODUCTION
Gaydon Blank, extension sheep
specialist, reports that the ASCS
information indicated both an in-
crease in the number of flocks and
in pounds of wool marketed in
1968 and 1967. As a state, Mich-

tion among states east of the Mis-
sissippi and 20th among all states
in the U.S.

The big difference between Plymouth Duster & Maverick is not the \$90.75

Chrysler Corporation

Duster has a bigger engine

Duster's standard 125 hp Six dusters
off Maverick's standard engine by
20 big horses. Even beats Maverick's
only optional engine by 5. And if you
want performance, you can go all the
way up to 340 cubic inches with Duster.
No Maverick can match that.

Duster has a longer wheelbase

Duster's 108 inch wheelbase is a full 5 inches longer than
Maverick's. In overall length, Duster has 9 more inches. Add
Duster's extra 352 lbs., and the result is a smoother ride, and
more stable handling.

Duster has a 5-year/50,000-mile power train warranty . . . Maverick doesn't.

Chrysler Corporation warrants against defects in materials or workmanship to the first registered owner only, and
will repair or replace without charge for parts or labor at any authorized Imperial, Chrysler, Plymouth or Dodge
dealership, the engine block, head and all internal engine parts, water pump, intake manifold, transmission case
and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and differential of its
1970 Duster for 5 years or 50,000 miles and all other parts for 12 months or 12,000 miles, whichever occurs first,
excluding only tires, normal deterioration due to wear and exposure, normal maintenance services and parts used
in connection with such services, repairs required as a result of accident, abuse, negligence, racing, or failure to
perform recommended maintenance services. Warranty repairs should be obtained from selling dealer unless he
has ceased to do business as an authorized Chrysler Motors Corporation dealer, or the owner is traveling or has
moved to a different locality and cannot return to his selling dealer.

*Manufacturer's suggested retail price for standard Duster 2-Door
Coupe—and standard Maverick 2-Door Sedan, equipped with
items listed including federal excise tax. Price excludes dealer
preparation charge, state and local taxes, destination charges,
and other optional equipment.

Duster has a bigger trunk

A lot bigger trunk. 15 cubic feet for
Duster, only 10.4 cubic feet for Maverick.
Just because a car is small on the outside
doesn't mean it has to be small on the inside.

Duster has bigger brakes

Bigger brakes mean more stopping power, and Duster's got it.
Effective brake lining area for Duster: 153.4 sq. inches. For Maverick:
only 106.0 inches. And if you like disc brakes or power brakes,
Duster offers those too. Maverick doesn't.

Junior Varsity Cagers Win on Free Throws

Chelsea Junior Varsity found out that free throws are the key to victory as they edged Lincoln, 60-55, last Friday night, Feb. 6. The Bullpup cagers hit 20 of 27 shots from the charity stripe for a red hot 74 percent while the Little Raisers connected on three of a mere five attempts.

The JV's, behind by three points at the end of the first period, stormed ahead with scoring spurges in the second and third periods of 17 and 21 points.

Three Chelsea players hit for double figures while defeating Lincoln for the second time this year. Ed Koengeter had a near perfect night at the line hitting on 7 of 8 free throw attempts and banging home five field goals for 17 points. Co-captain Greg Howard tied for high honors as he also tallied 17 total points. Jeff Schmidt was the final Bulldog player to top 10 points as he scored 11. Jeff Daniels scored eight points.

Jeff Schmidt made his presence felt on the boards as he grabbed 13 rebounds to lead Chelsea. Jeff Daniels grabbed 8 rebounds and Greg Howard and Ed Koengeter each collected 6.

Granddaughter of Chelsea Woman Chosen Queen of High School

Laura, who is the 50th queen of the high school, took her place beside the king, Jim Fortson, before a capacity crowd who attended the traditional event.

Ohio Tourists Lured to Michigan By Effective Direct Mail Campaign

Lansing—Show me a man with a new car and I'll show you a man itching to travel. Utilizing this old axiom, the Michigan Tourist Council launched its first direct mail campaign to promote non-resident vacation travel to Michigan. The Council's initial venture paid off handsomely, according to William T. McGraw, Council director.

"The Council's \$2,211 direct mail investment resulted in out-of-state spending of \$332,210 in Michigan during their recreational trip, providing an enormous impact on the state's economy," McGraw said. "For every dollar invested in this program, the State of Michigan received a return expenditure within the state of \$172 by non-residents."

The program to lure vacationers to Michigan was geared to a select group of Ohio residents, specifically 20,000 new auto owners. In April, 1969, a direct mail letter, along with an inquiry-generating card, was mailed to each of these potential recreational travelers, resulting in more than 2,100 requests for Michigan vacation literature.

A follow-up questionnaire, forwarded in November to a scientific sampling of those persons responding to the initial mailing, revealed that 48.9 percent actually vacationed in Michigan.

"Of greater importance," McGraw

said, "is the fact that 98.4 percent of these visitors indicated they definitely plan to return to the Great Lake State. Therefore, the economic benefits gained as a result of this program will continue to be realized in the years ahead."

McGraw said the visitors from the Buckeye State traveled in groups averaging 4.4 persons who stayed 8.1 days and spent \$358.21 while in the state.

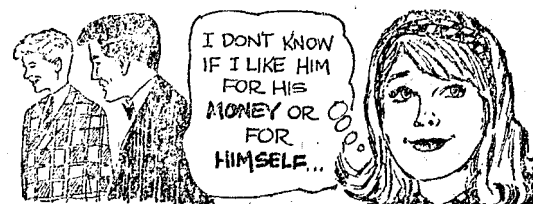

"Tremendous as the results of this first direct mail approach appear to be," McGraw said, "the figures are very conservative. They assume that the only persons vacationing in Michigan as a result of the program are those who returned the inquiry cards. The fact is that many people who failed to request the literature still came to Michigan for recreational traveling."

The survey also revealed, however, that the literature sent in response to these inquiries generated considerable interest in a Michigan vacation. Of those who came to the state, some 82 percent said the literature played an important role in the planning of their trip.

McGraw said the results of this survey has provided the Council with a basis for expansion of direct mail programs during the 1970 spring-summer seasons.

For And About Teenagers

THE WEEK'S LETTER:

"I am 17 years old and have just returned from Asia. I met a boy there whom I liked very much and he said that he liked me. We dated quite a bit and found out a lot about each other. He is a very wealthy person and I don't know whether I like him for his money or I like him for himself. Please help! I will see him soon."

OUR REPLY: Is it necessary that you decide before you see him again why it is that you like him? We don't think so. Unless you knew that he was wealthy before you met him and had dates with him, then money was not a factor in your getting to know one another. If you knew that he was wealthy and wanted to know him for this reason, it is possible that you like him as a person,

since you were already impressed with the fact that he had money. You cannot ignore the fact that he is wealthy—but you should realize that other things are much more important.

If you have a teen-age problem you want to have discussed or an observation to make, address your letter to "For and About Teenagers," Community and Suburban Press Service, in care of this news paper.

When you wake up on these cold crisp mornings I'm sure one of the first things you do is plug in the coffee pot. After a cup or two you are ready to 'face the day.' But may I suggest serving some old-fashioned gingersnaps with your coffee. They require so few ingredients and truly are easy to make. Try them!

GINGERSNAPS

(2 1/2 dozen)

- 1 package "JIFFY" Spice Cake Mix
- 2 teaspoons ginger
- 1/2 teaspoon cinnamon
- 3/4 cup soft margarine or butter
- 2 teaspoons water.

3. Knead about 15 times to make sure mixture is well blended.
4. On lightly floured surface roll dough 1/4 inch thick. Cut with 2 inch circle cutter or other desired shape, place on ungreased baking sheet.
5. Bake about 10 minutes.

You hear a lot about trips these days. Trips to southern resorts. LSD trips. Trips to the moon even. They all have one thing in common: they offer an escape from mundane, routine, workaday scheduling. But we'll guarantee a trip that will relieve the winter monotony for you, give you some relaxation, make you feel as if you'd been on vacation. A trip to our shop for a "winter overhaul" — a color, permanent, styling, you name it; you'll love it — and it's safer and cheaper than any of the other "escape" trips. See you soon?
