Chest Fund Campaign Lags At 36% of Goal

Industry Lay-Offs Throughout Area Having Serious Effect on Collections

Chelsea's 1971 Community Chest drive is sadly lagging behind its goal. In the third week of the drive incomplete reports and totals indicate that only 36 percent of the goal has been reached.

All industries have been contacted, and the lay-offs at many of our local and area-wide plants are having an adverse effect on the goals for the 1971 drive.

Bulldog Grid Team Downs S. Lyon, 25-14

Chelsea's varsity football team defeated the South-Lyon Lions Friday night, Oct. 23, by a score of 25 to 14. This was the Bulldog Homecoming game.

The Bulldogs took advantage of the Lions' mistakes and scored a total of 18 points in the second quarter to break open the game. Wayne Welton passed to Mark Collins, covering 34 yards, to start the Bulldog scoring. Welton then passed to halfback Tim Ortring covering 14 yards to score the second touchdown.

Third touchdown was scored on the ground, when Ortring went the final one yard after Tom Harmon intercepted a Lion pass to give Chelsea the ball.

Chelsea's last six-pointer was scored by the defensive team when Mark Collins picked off a Lion pass on Chelsea's 36-yard line, and raced 64 yards for the score. Extra point was kicked by Ortring, giving Chelsea 25 points.

The Bulldog defense played a solid game, although they had 14 points scored against them. Rick Wescott, Randy Seitz and Mitch Heard performed well, with the assistance of Tom Lukasiak and Jack McClear.

Chelsea makes its last road trip of the season Friday night, Oct. 30, as they travel to Saline to play the Hornets at 7:30 p.m. The final two teams that Chelsea will meet will be Dexter and Jackson Northwest on Nov. 6 and 13. Those games will be at home.

Freshmen Win Tuesday 20-14, Over Brighton

Tuesday night Oct. 27, the freshmen team had another tough game, downing a scrappy Brighton team 20-14.

Chelsea drew first blood on a 27-yard scamper by Marv Guster and an extra point run by John Tandy. Tim Treado got the freshmen's second TD, when he picked up a Brighton fumble and dashed 30 yards for the score. Third Chelsea TD came after a 50-yard scamper by Dale Poertner on a reverse.

John Houle went two yards on a quarterback sneak, gaining his first touchdown of the season. The extra point attempt was not good, so Chelsea took a 20-0 lead into half-time.

Chelsea let down their pressure in the second half. Mistakes and fumbles and an unsuccessful fourth down gamble set up the first Brighton TD. An interception on (Continued on page five)

Free School Lunches To Be Given Needy

Chelsea School District will be offering free and reduced rate lunches to certain students in the district this school year, in conjunction with the National School Lunch Program and the School Breakfast Program, superintendent of schools Charles Cameron announced this past week.

According to Cameron, any child who comes from an indigent family may apply for, and receive, a free lunch, or a lunch at a reduced rate. The names of these children will not be published, posted or announced in any manner. Children receiving free or reduced rate meals will not be made to work for their meals, use separate lunchrooms, serving lines, or special section of the lunchroom. They will not have to eat at a different section of the lunchroom. They will not eat at a different time from paying students. They will receive the same meal as every other student. Those students with free or reduced price meals will receive meal tickets every week from the principal, just like other Chelsea school students.

This policy will become effective on or before Nov. 1.

Reduced price lunches will be given to those children that come from families with low incomes. They are available to anyone who comes from a family unit of one, who earns less than \$2,075 per year; two, earning less than \$2,725; three, earning less than \$3,375; or four, earning less than \$4,025; five earning less than \$4,620; six, earning less than \$5,215; seven, earning less than \$5,750; or eight, earning less than \$6,300. Narcotics Film Slated Tonight

"Narcotics, the Decision," the film scheduled to be shown this evening in the large group instruction room at Beach school, will be shown at 8:15 p.m., instead of the regularly scheduled time. This change is due to the Halloween activities which will also be this evening. This change in time should give parents of Halloween trick-or-treaters time to attend the meeting.

Also on hand at the showing will be Patrolman Louis Schneider of the Chelsea Police Department. He will bring with him an "educational display" of narcotic drugs and apparatus.

Dale Robbins Out for Season With Knee Injury

Horses, Deer Cause Two Auto Crashes

An accident involving two horses and an automobile occurred late Monday afternoon, Oct. 26 on Jackson Rd., at Baker Rd., Washtenaw County Sheriff's Department officials report.

The auto, driven by 67-year-old Pearl Virginia Menge, 8888 Roe Rd., Chelsea, was westbound on Jackson Rd., at 40 mph, when she struck two horses which were crossing the road. The horses, which belonged to Preston Cowell, 7585, were roaming free at the time of the accident.

Next Tuesday Is General Election Day

Fate of Controversial Parochial Issue Will Be Decided at Polls

With elections just around the corner, busy politicians are winding up their campaigns. Election day is Tuesday, Nov. 3 when local residents will vote to choose the people who will represent them at the various levels of government.

Michigan voters will elect a governor, U. S. Senator, and a Congressman. They will also vote on three amendments to the state constitution.

First amendment deals with a bonding issue to provide low-income housing. Proposal B concerns lowering the voting age to 18.

The third proposal, the controversial Proposal C, deals with an amendment which would constitutionally ban all funds from being used in support of all non-public schools. A "yes" vote on Proposal C will forbid such laws as the present "Parochial" bill, and make that law unconstitutional. A "no" vote will not elect more funds to be spent, it will simply defeat this amendment.

In the 18th legislative district, voters will elect a state senator and state representative.

County commissioners from Precinct I and II will be chosen, as well as township supervisors, clerks, treasurers, and trustees and constables, which will be elected in the townships of Sharon, Lima, Freedom, Sylvan, Lyndon, and Dexter.

Non-partisan officers will also be elected. Two Justices of the Supreme Court, Judge of the Court of Appeals, Judge of Circuit Court, Judge of Probate Court, Judge of 14th District Court, and two members of the board of trustees of Washtenaw Community College will be decided.

They will also vote on a proposed increased millage for the Washtenaw Community College. The increased millage will be used to purchase and operate equipment for occupational training.

Several townships have certain local issues to decide also. Dexter

township will decide whether spirits in addition to beer and wine will be permitted for consumption on the premises within the township. Dexter voting will be at the new Township Hall, 6880 Dexter-Finckney Rd., near the intersection of North Territorial Rd.

Dexter township will elect one trustee, and one constable, while Sharon will elect one trustee and one constable. Sylvan township will elect one trustee, and two constables, while Lima township will elect one trustee and one constable. Freedom township is electing one trustee and two constables. Lyndon township will elect one trustee and two constables. Miscellaneous state officials who will also be elected include lieutenant governor, secretary of state, attorney general, two members of the State Board of Education, two members of the Board of Regents of the U. of M., and two members of the Michigan State University Board of Trustees and two members of Wayne State University Board of Governors.

Halloween Festivities Set For Thursday

Area spooks, witches and goblins will be a bit confused this year, as local adults change the date of the "real" Halloween—the trick-or-treating activities for the children—to suit their convenience. Halloween, which falls on Saturday this year, will not be celebrated on that day, at least not in Chelsea, according to Dr. Borton, the Kiwanis representative in charge of the festivities.

Originally scheduled for Friday evening, Oct. 30, the Halloween parade committee had changed the date, not to Saturday, but to Thursday evening, so that village residents and the band may attend the football game.

It is hoped that parents who read in last week's issue of The Standard that the parade and treats would be on Friday night, will be able to move their plans around to accommodate the new schedule.

Trick or treats will be from 5:30 to 6:30 p.m. Thursday evening, with the costume judging and the noise-makers being handed out at the village parking lot shortly after that time.

Parade through the streets will commence at 7 p.m., after which there will be cider and donuts back at the parking lot.

Washington Report by Congressman MARVIN L. ESCH

Those who chronicle events in our nation's capital have noticed several interesting events lately that exhibit a common thread. At the Department of Agriculture, a yearbook was published with the title "Consumers All." Over in the halls of Congress, a bill to establish an office of Consumer Affairs awaits the urgent attention of the House and Senate. And the Federal Trade Commission has issued edicts on credit billing that are destined to win popular support. In short, and at long last after many years of "benign neglect," the interests of consumers have assumed national importance and attention.

This progress is being made through a broad combination of governmental action and responsible leadership. Efforts to improve the lot of the consumer are by no means anti-business; indeed responsible businesses benefit tremendously from the uncovering of unscrupulous operators.

Two recent governmental actions are of particular interest. The FTC announced regulations which would assure that consum-

ers with questions regarding the charges on their accounts will have those questions responded to without irritating and unresponsive "untouched by human hands" computer dunning. The FTC also adopted my recent proposal requiring that bills be mailed at least 21 days before the due date so that the consumer has a reasonable opportunity to pay his bill without accumulating late charges and interest payments.

Second, the House Committee on Government Operations has reported legislation which would establish an independent, cabinet-level Consumer Affairs office which would represent the consumer in decision-making throughout the government. Additionally, it would test products and make the results available so consumers could make intelligent purchase decisions. Although there are some controversies about specific provisions of the proposed agency, it is clear that the consumer will soon take his place as an important factor in government operations. Congress is expected to consider this bill soon after it returns to Washington in mid-November, and I will give it my support at that time.

The millennium has not come. There still will be problems as might be imagined in such a vast economy as our nation enjoys. But we are nearing that time when the consumer—you and I—can journey to the market place secure in the knowledge that our interests have powerful protectors.

Maroon Returns

Anyone sighting a commercial vehicle with maroon and white license plates these days shouldn't be too quick to assume the plates are old ones.

Maroon and white, the color combination used on Michigan's 1969 license plates, is also the color assigned to the 1971 plates. And commercial vehicle plates went on sale Oct. 1.

Passenger car plates will go on sale Nov. 15. The return to last year's colors has caused some confusion with several overseas policemen and/or women ticketing vehicles who bought the new plates as soon as they were available, according to Secretary of State James M. Hare.

The colors were picked because the state goes into the reflectorized plate business this year. They were the only colors on which tests had been run by the state when it was finally determined at a late date that the 1971 plates would be reflectorized and thus they had to be used.

The white lettering will be reflectorized by a "beading" process. In the process the paint used for the white will be an adhesive substance. As soon as it is put on the plate, the plate is covered with tiny, perfectly round, glass beads which stick only to the letters.

The legislature decided to convert to reflectorized plates in 1968, but then reconsidered the decision early this year.

It was decided to go ahead with the beading just barely in time to give officials the time they needed to reflectorize the 1971 plates.

Actually, the legislature first decided to reflectorize plates in 1969, but then didn't appropriate enough money to pay for the additional cost. The plates weren't reflectorized since Attorney General ruled they did not have to be if the money wasn't there.

Reflectorized plates were adopted for a number of reasons, with safety one of the most important.

The plates are supposed to be visible from one half mile away at night when the high beams of a car are shining on them. One result of this, in states where the plates are now in use, has been a cutback in the number of rear end collisions at night.

Law enforcement officials also approve of the plates, saying they make it easier to identify a car at night.

The new plates will be a huge improvement over this year's "paleface" plates. Law enforcement officials have complained all year that the white on gold coloring makes it just about impossible to read plates at night.

Uncle Lew from Lima Says:

Dear Mister Editor:

Politics is pretty hot all over the country right now, so the fellows give up trying to keep the subject off the agenda during the session at the country store Saturday night. Furthermore, some of em decided to join Clem Webster and Ed Doolittle, since they shore couldn't lick em talking.

Josh Clodhopper, that don't speak up too often at our little get-togethers, said if all the promises of all the politicians was to come to pass, we'd have heaven right here on earth overnight. Josh said listening to all the ins and them that wants to git in make up all the statics on ever side of life to suit themselves, he was reminded of the rich old man that was on his deathbed.

He called for his lawyer and his doctor, and they was mighty touched by the honor. One stood on one side of the bed and the other on the other, each one holding the old man's hand. "Is there anything you want us to do?" ask one of them. "No," the old feller mumbled, "just stand where you are. I want to die like Christ—between two thieves."

Josh allowed they is a heap of honorable politicians, but this time of year ain't the time to put none of them to no real tests of honesty. Josh allowed he had saw where a Democrat in South Carolina promises that if the folks elect him, all the farmers will git white wall tires on

their tractors. Frankly, went on Josh, he couldn't see how the loyal opposition could top that unless he took a page from the Democrat book and offered the farmers more pay fer not farming at all.

Isaac Cornfodder got the floor to give one of his longest speeches the fellows could remember. Isaac went on record as being in favor of not asking much of any of the candidates and not expecting nothing. All he wants is fer folks to be well off enuff to live without borrowing, and pore enuff not to git uppity, was Isaac's words.

Afore Clem or Ed could git started, Bug Hookum said all the political hollering and hoopin' reminds him of hounds barking at night. One will think he hears somepon and he'll bark, then the rest will hear him and start. By this time the first one has to help the others out, and pritty soon they're all jest barking and they fergot what about.

General speaking, Mister Editor, I think folks running fer office is jest trying to figger how the winds of public opinion blows. Fer this reason, I think we ought to name hurricanes after politicians. You recall, I reckon, where that last one took three days deciding which way to go.

Yours truly,
Uncle Lew.

Food Information Must Keep Pace

East Lansing—It is becoming increasingly difficult for a person to know what he's eating. Dr. Dana Cederquist of Michigan State University says so many food items are introduced each year, and data on the nutrient content of those items so often lags, that the consumer is hard-pressed to stay abreast of his diet.

There are 10,000 different products on grocery shelves today compared to 1,500 only 20 years ago, she said.

Paul Miller blocked a punt towards the end of the game. Other outstanding defense plays were made by Bruce Guster, with an interception in the first quarter. Mark Grambeau and Mike Robbins together blocked a punt. Rob Elliott recovered a blocked punt.

Mike Merkel led the defense with 10 tackles. He was followed by Jeff Daniels, Steve Worden and Tim Lancaster.

4-H Clubs

FREER ACRES

Freer Acres 4-H club met for their first meeting Tuesday, Oct. 6 at the home of their leader, Mrs. Robert Daniels.

Officers were elected for the coming year. They are Darlene Robbins, president, Stephanie Aldrich, vice-president, Jodi Daniels, secretary, and Diane Robbins, newspaper representative.

Vice-president elected a cookie committee, the 4-H pledge was given and new members were introduced.

It was discovered that there are representatives from all four schools this year.

To date, the 4-Hers have learned about making a muslin, different kinds of waistbands on skirts, using a tracing wheel, and stay stitching.

The girls were asked to have their patterns and materials ready by the meeting on Nov. 3.

GINGHAM BELLES

Gingham Belles 4-H club costume party was held Tuesday night, Oct. 27, at 7 p.m. at the home of Lou Ann Harker. Games were played for candy prizes, and there was dunking for apples and dancing to records.

Karen Romine won the prize for the funniest costume, while Christine Boyer had the prettiest. Beth Clark's costume was most original, and Lori Klink won the prize for the "best all around" costume.

17 girls, two leaders, Grace Penhallegon, and Barbara Clark, and one visitor, Mrs. Blanchard, who was helping out in the absence of Mrs. Boyer, attended the party.

the following drive set up Brighton's second touchdown. Extra point was good and Chelsea suddenly found the score 20-14 in their favor.

Bullpup defense finally dug in and stopped two desperate drives and held on until the clock ran out on Brighton, gaining their fourth by a narrow 20-14 count.

Chelsea played one of the poorest games of the season, but managed to hold on for the victory to increase their record to 4-2.

Freshmen are back to work now preparing for their final game of the season. They play a dangerous Saline team next Tuesday at home at 7 p.m.

Hornets have a reputation for toughness and would like to defeat Chelsea. It looks to be a very exciting game and is the fans last chance to see this year's freshmen in action. Chelsea fans are invited to come and give these young men their support. There is no charge for these games.

ers were by Sharon Schiller, Lou Ann Harker, Karen Tobin and supervised by Mrs. Harker. Refreshments of cider, decorated cupcakes, candy and apples were served by committee of Jenny Clark, Penny Wood, and Lori Klink.

Gingham Belles 4-H club had a five-mile hike Sunday afternoon, Oct. 25, at the home of Martha Blanchard at Crooked Lake. Seventeen 4-H girls and three guests, accompanied by Mrs. Blanchard, and Mrs. Penhallegon, and leaders Barbara Clark and Grace Penhallegon, attended the event.

Following a walk to a Christmas tree farm and back, the girls had a campfire and roasted hot dogs and marshmallows over the fire. They also had cider and cocoa.

AGRICULTURE IN ACTION

by GARY A. KLEINHENN

Michigan Farm Bureau

★ The Big Cover Up

People think the English economist Malthus may have been a little loony when he promoted the idea that eventually the world's population would starve itself to death as folks would become too numerous and food would become too scarce. That was more than 150 years ago.

Modern philosophers have discounted Malthusian theories because we're pretty sure we won't eat ourselves out of existence. On the other hand... we could build ourselves out of existence if we don't protect the land.

It may sound a little far-fetched until we consider that in Michigan alone more than 50,000 acres of good earth each year is sealed under a coffin lid of buildings and highways. Nationally, more than one million acres a year is the estimate of newly entrapped land. Combined with this fact, the bystanding land and water which bears the brunt of resulting soil erosion and water pollution also becomes the victim of the nation's growth.

With this "progress" perhaps the Malthusian theory could come true—not because of man's inability to produce adequate supplies of healthy foods, but because of his ability to fortify the earth from nature's gifts.

Man began farming thousands of years ago. The difference today is that the fast pace of destruction we now live gives man the foresight to see that we don't have thousands of more years left—but understanding the problem is no guarantee that action will be taken.

So, protection of agriculture as a natural resource, just like the forests, waterways and wildlife, becomes an issue of serious magnitude.

A root cause of this waste is the value of the dollar. Simply stated, geographic location determines a land's desirability, therefore, property tax on farm land skyrockets as the city sprawl draws nearer. Meanwhile, farmers, through economic pressures are forced to sell and more fertile land becomes buried.

A proposal to solve this dilemma is now in the Michigan legislature. House Bill 2553 is designed to "duly" retard the disappearance of land by a reduction of high property taxes on agriculture land. At any time of voluntary sale, a special roll-back tax to make the sale equitable to non-farm land sales would be imposed. The action would permit the farmer to continue his food supply to the nation and would promote positive maintenance of one of our priceless natural resources.

TEACHER TOPICS

By Edward Lathon

The sixth grade Unified Studies program is unique among courses offered to Beach school students. Two broad fields of study, language arts and geography, are brought together in one 2 1/2-hour block of time each day. Language arts include the communication skills of listening, speaking, reading, and writing. Geography has to do with understanding and appreciating the world's varied natural and cultural environments.

Goal of the Unified Studies program is twofold:

1. To develop among students an appreciation of different cultures and how they have adapted to their natural surroundings;
2. To develop communication skills which enable students to express fluently their questions, hypotheses, and conclusions about experience which occur inside and outside the classroom.

Achieving this goal depends in part upon methods of teaching. The teaching methods might involve the use of a variety of activities. It is not uncommon for example, to find field trips, outside speakers, films, discussions, and construction projects going on within unified studies classrooms. If students decided they were interested in learning how to grow rice, they might begin by listing questions they have about rice farming.

A visit to the library might reveal that a film on growing rice is available through the University of Michigan. After viewing the film, students could review the film by writing a paragraph explaining how methods of rice farming are influenced by climate and landforms.

Other reading material from the library might yield enough information to stimulate construction of a terraced hillside. Once the methods of farming rice become clearer, it might prove interesting to learn more about different preparations of rice. An outside speaker, perhaps someone from Java, might be invited to visit and discuss ways of preparing rice. Finally, a visit to a Chinese restaurant to watch the cooks' prepare meals might conclude the investigation.

Each of the activities provide students with an opportunity to develop understanding, attitudes, and skills. They learn how rice is grown and why it is so important to the people who grow it. In addition, students gain experience in communication by listening to the film, writing film reviews, reading library materials, and discussing their projects.

Each year a new dimension has been added to the Unified Studies

program. Initially, extensive time and research was devoted to developing a repertoire of films that might be used in conjunction with the study of the world's climate regions. This was followed by an attempt to secure speakers from countries all over the world. Many of the speakers show slides, answer questions, and show numerous artifacts of their country. Some speakers live in the Chelsea community and freely offer their time and experience. Mrs. Sweet was one such person who held students spellbound with her exotic apparel and slides of Korea.

The sixth grade Unified Studies department has recently added another dimension to their program. Every other week, there now appears in The Chelsea Standard a column entitled, "Sixth Grade Hotline." This column is written by students in co-operation with The Standard. Students receive tours of The Standard's offices and printing shop when they take their articles to The Standard for proof-reading.

Another exciting event growing out of the Unified Studies concept will occur during National Book Week, Nov. 15-21. Through the energies of Mrs. Paulin, Beach school librarian, Mrs. Parker, a Beach school art instructor, and the Unified Studies department, a book fair and an art fair will be held. Profits from book sales will go towards enlarging Beach school library collections.

Spaulding Agency Christmas Cards Now on Display

Spaulding for Children Auxiliary is planning their third annual Christmas card sale, it was announced this past week. Efforts of the Auxiliary last Christmas, time resulted in the printing and selling of 20,000 cards. Proceeds of this sale enabled four children with special needs to be placed in permanent adoptive homes.

Seven new designs have been introduced to this year's collection of cards, including one card which was designed and contributed by Mrs. Robert (Marjorie) Daniels, of Chelsea.

Order blanks are available by writing to Spaulding for Children, or phoning 475-2500 or Mrs. Elmer Lindow at 475-7233.

Cards will also be available at the Chelsea Art Center.

The padding, also called "cushion" or "underlay," will increase the life of your carpet or rug by as much as 30 to 50 percent.

VITAMIN LOSS

It is estimated that 50 percent of the American population starts the day with an inadequate breakfast. By skipping or skimping on this important meal, individuals can miss 25 to 33 percent of their daily allowances of a variety of nutrients.

When a homemaker sees 1.5 pounds registered on a meat package at the supermarket, she should not take this to mean one pound and five ounces of meat. It means one and one-half pounds or one pound, eight ounces. Automatic weighing and pricing machinery computes these in intervals of 10.

Blending of fibers is done before spinning a yarn from exact proportions of different fibers. A blend may consist of synthetic and natural fibers, combinations of synthetics, or combinations of natural fibers. A fiber mixture is

achieved after spinning by twisting together two or more strands of spun yarn or continuous filament. A fiber mixture may consist of a mixture of yarns or warp yarns of one fiber and filling yarns of another fiber.

College Nights Scheduled at Area Schools

With college admissions deadlines fast approaching, several College nights have been scheduled by area schools to help unscramble the confusion propagated by many admission booklets college-bound juniors and seniors pour over this time of year.

George Bergman, counselor at Chelsea High school, announced this week that the first College Night will be Thursday evening, Nov. 5 at Stockbridge High school. Chelsea students and their parents are invited to attend this program.

Following week, Thursday, Nov. 12, a similar program, one in which Chelsea schools had an active part in the planning, will be held at Manchester High school for college-bound juniors and seniors and their parents, from Saline, Whitmore Lake, Dexter, Manchester, and Chelsea.

Both programs are scheduled to begin at 7:30 p.m. Students and parents are urged, however, to be at the high schools by 7 or 7:15 p.m. in order to look over the roster of schools which will be giving presentations.

At both programs there will be three classes, or sessions, conducted by the participating colleges. Students and parents are free to attend any session which interests them. Each meeting will last from 25 to 30 minutes, in which the representative of the school will explain admission standards, program of the schools, procedures of admission, and be on hand to answer questions.

At each of the above College Nights, approximately 30 schools will be represented. They will be colleges, universities, technical institutes, and nursing and business schools. Major emphasis will be placed on those colleges and universities and other schools which Chelsea students have tended to attend over the years.

On the same night, Oct. 12, Michigan State University is sponsoring a career night at Saline High school entitled "Explore 70." This program is sponsored by the College of Agriculture and Natural Resources, and the major emphasis of the evening will be on agricultural technical careers.

"Explore 70" will feature discussion concerning employment in the agricultural and technical fields, and answer questions concerning what careers in agriculture and natural resources are available, what kinds of high school preparation is needed for these careers, what kinds of jobs are available following graduation from college or technical school. Meetings begin at 7 p.m.

Questions concerning "Explore 70" may be directed to the Washtenaw County Extension agent.

Letters to the Editor

To the Editor:

On Nov. 3, Michigan voters will be faced with a proposed amendment to our state constitution which will ultimately determine the existence of non-public schools in this state. Passage of "Proposal C" will not only deprive 274,000 children now attending non-public schools this freedom of choice but it will also cost the taxpayers 12 times more than the cost of Parochial aid to educate these students in our public schools which are already filled to capacity.

Many public officials, including Gov. William Milliken, State Attorney General Frank Kelley, and Superintendent of Public Instruction Dr. John W. Porter agree that passage of "Proposal C" will make it extremely difficult for most of the 800 non-public schools to remain open for another school year. In addition, the health programs, library and driver education services and special aid for mentally and physically handicapped children would be terminated.

It is also agreed that besides denying these services to our non-public schools, \$60 million in federal education funds used for public schools will be in jeopardy. Are we willing to pay the cost of "Proposal C"? I am sure that we are not. Vote "No" on "C." Lynn Degener.

To the Editor:

I have been reading the letters to the editor for the past two weeks, about Michigan Livestock, and I am just mad!!!

From my understanding there will only be a sale two or three times a week. Therefore, the traffic that is being complained about will not be any worse than what Chrysler has already created. The noise will not be any worse than could be expected in an A-1 agricultural zone. So as far as it upsets the usual residential routine they had better build in a residential area if they don't want to hear the sound of a cow or pig.

In other words, I don't know why the residents don't just kick the farmers out, so they won't upset their kind of peace and serenity. Maybe the farmers should just quit, that way when people go to the supermarket the meat counter will be empty (but we don't need meat).

There will be no milk, cheese, ice cream or eggs (but we don't need or enjoy eating these foods.)

Maybe we just better take a good look at what is on our table, then think back to where it all comes from.

I think we are very fortunate that we can eat as we do, and let's stop complaining about every little thing. Our food has to come from some place, and we should feel proud that we could be a

small part of feeding this great nation of ours.

Let's stop thinking of just ourselves and think of others for a change.

David and Barbara Wolfgang.

The dangers of Proposal C

Our State Supt. of Public Instruction and Attorney General agree Proposal C would have the following effects:

IT WOULD REPEAL

the following services to 274,000 children attending non-public schools:

- Remedial reading and speech correction
- Counseling services for physically and mentally handicapped and emotionally disturbed children
- Visiting teachers for delinquent children
- School diagnostic services

IT COULD REPEAL

- Health and nursing services
- Street crossing guards

IT WOULD TERMINATE

the following services now being provided non-public school children through public schools:

- Driver training and vocational education courses
- Shared time classes in such academic courses as math and science

IT JEOPARDIZES

- \$60 million in federal funds to educationally deprived children in public schools due to the discriminatory nature of the proposal language.

If Michigan's top educational and legal authorities both agree Proposal C would have these effects, why take a chance?

Letters to the Editor

To the Editor:

I'd like to correct some wrong ideas about Proposal C.

The Auxiliary Services Statute 340.622 empowers Boards of Education to provide services to the handicapped, even after Proposal C passes.

The same statute protects the parochial student from losing the benefits of remedial services, health services, street crossing guards, driver training, vocational education.

Rule 7 of the "Michigan School District Accounting Procedures for the Distribution of State Aid," Bulletin 1008, revised 1965 permits the continuing of shared time programs. They would not be outlawed.

The U. S. Department of Health, Education, and Welfare reports that Title I funds for disadvantaged children are available in all 5 states. These federal funds would not be cut off by passage of Proposal C.

The obvious financial troubles which public schools already face will only be compounded by permitting Parochialism to increase.

If we fail to pass this amendment, the floodgates will be open. We will support, whether we want to or not, two full-blown (or 3 or 4) school systems with all the waste, duplication, sectarian tea-

ching and controls within a very few years.

Vote YES on Proposal C, which stops Parochialism.

Jim Haffmeyer

To the Editor:

Would you please make a statement in the paper clarifying the date our little goblins will be out trick or treating?

I live outside of the village several miles but do get children to our door from the village, by way of automobile. I find no objection to this but I understand there is to be Halloween on Thursday night when actually by the calendar it is Saturday night.

On a limited income I cannot afford to treat both nights. So could you clarify this for me and many others and also the little ones and those not so little.

A neighbor who wants only one Halloween.

Taxpayers of Chelsea:

Through the years the private schools, religious as well as secular, have played an important part in the education of Michigan children.

Because they are independently financed, private schools save taxpayers money.

In recent years many private schools have been forced to close because of higher costs of operation. To help ease the burden the Michigan State Legislature passed a bill this year which will pay a portion of private school teachers salaries, as long as they do not teach religious subjects. This bill was declared constitutional by the State Supreme Court.

On Nov. 3 Michigan voters will be asked to amend the State Constitution by Proposal "C." If passed this amendment will not only forbid payment of any portion of a private school teacher's salary, but it will also cancel many basic services that have been in existence for years, such as, hearing and eye tests, speech therapy, remedial reading, counseling for the physically and emotionally handicapped.

Loss of these services plus the very real possibility that private school may be subject to real estate taxes will bankrupt most private schools.

Think of the impact on the lives of the boys at St. Louis Boys School, if that school is forced to close, just when there is some hope that the boys can be trained to live a somewhat normal life.

Also consider St. Mary's School. It has had to drop 6, 7 and 8th grades because of lack of money. If Proposal "C" is passed it will almost certainly be forced to close. The 106 children now attending will have to be enrolled in Chelsea Public Schools. This will require 4 or 5 additional teachers and the same number of classrooms plus books and supplies for the 106 children. The additional cost will be in excess of \$60,000 per year plus cost of any additional classrooms.

Guess who will pay the additional costs. You are right, the taxpayers.

If you favor allowing St. Louis and St. Mary's schools to continue as they are at present and save tax dollars as well, vote "No" on Proposal "C" on Nov. 3.

Sincerely,
Clarence Wood.

To the Editor:

A discussion at our Young Farmers Farm Bureau meeting was held on the proposed Michigan Livestock building site. The group was unanimously in favor of the project. They felt that the letters in "The Standard" and Ann Arbor News were not based on all the facts presented. They felt that some of the people that owned small acreages of land in the county feel that they can have county living with residential zoning.

Also, the question was raised of the fact that N. H. Miles is against the Michigan Livestock building, yet he had contacted the Exchange and wanted to sell them his land for their building site.

Agricultural products that are produced for all people have to be produced and marketed someplace. The group felt that this would be an asset to the community in many ways, and it wouldn't matter where the site was located, that some people would object.

Never Rest Farm Bureau.

The Editor:

It is not surprising that John Cardinal Dearden of the Roman Catholic Church is asking the voters of Michigan to vote against Proposal C next Tuesday. Who ever heard a Roman bishop defending the principle of separation of church and state? But then, how could one ask a cardinal of a church which is both church and state, to espouse the separation theme of the Bill of Rights?

John Dearden is the highest authority in the Michigan Catholic school system. He and his fellow bishops control these schools. Dearden and all other bishops are named by the pope, and the pope is obviously not an American citizen. He is in fact the head of a foreign state.

When Dearden secured passage of parochialism, which is the American version of the religion tax, he established a beachhead on American soil for a philosophy historically accepted and applied by the Vatican.

Significantly, the legislature's decision, by a slim majority, to promote the withdrawal of students from the public school system came at a time when Catholics themselves were beginning to repudiate the parochial school and asking for a reordering of priorities. Even teaching nuns were defying Rome and leaving the classrooms. Cardinal Dearden and his elite committee are not telling you the truth. They want you to accept their despicable tax measure.

Will Dearden tell you that in 1967 the people of New York State, 41 percent Roman Catholic, voted three to one against parochialism—two to one against it in the New York City area and four to one against it in the rest of the state?

Is he telling you that on July 7, 1968, exactly eight months after the New York Constitutional referendum, the voters of Germany's largest state, Bavaria, voted by an almost identical plurality—74.8 percent—to end the separate tax-supported sectarian school systems of that overwhelmingly Roman Catholic state?

Did Dearden tell you that the National Association of Catholic Laymen at the close of their Cleveland convention on June 22, 1969, passed a resolution calling for the phasing out of Catholic schools, and for the election of bishops?

The Committee on Social Involvement of the Catholic Diocese of Tucson, Arizona announced its opposition to a state-aid-to-parochial-schools bill being prepared

for presentation to the state legislature in the fall of 1969. The Committee has asked that the diocese close all its schools and school related buildings. (Arizona Daily Star, Sept. 12, 1969).

The Notre Dame Study of Catholic education revealed that an astoundingly high percentage of Catholic elementary teachers did not graduate from college: 69 percent of the laywomen; 48 percent of the laymen; 44 percent of the sisters; 38 percent of the brothers; 25 percent of the priests. Approximately one-third of the brothers, sisters, and laymen, and one-half of the laywomen had only two years of college education.

It should be noted that the very first recommendation of this comprehensive study of the whole Catholic parochial school system is that all elementary schools should be abandoned. This means shutting down 10,757 of the 13,032 Catholic parochial schools in the United States.

Does Cardinal Dearden believe that it is morally right to compel everyone, including Catholics, to support the private schools of the Black Muslims, a religio-political movement worshipping Allah and advocating a separatist Muslim church-state carved out of the southern portion of the United States?

Is Dearden surprised that Rabbi Sherwin Wine, who teaches a God is dead type of theology, is now going all the way and joining conservative Catholics who favor the voucher type of parochialism where the state pays the parent and the student attends school where he wishes. Rabbi Wine advocates closing public schools and rushing them for libraries and science centers.

As for me, I'll stick with the public schools and the Bill of Rights. I'm voting YES on C. Tuesday.

Walter Brauningner.

To the Editor:

What has happened to the old-fashioned observance of Halloween? I don't mean the pranks or the tomfoolery connected with Halloween, I mean the Halloween we USED to celebrate on Oct. 31. I'm not old enough to be called old-fashioned, but I do belong to the "un-enlightened" over 30 group.

This year's Halloween celebration was moved from Friday, Oct. 30 to Thursday, Oct. 29 because—and this reason was stated three or four times by the people in charge when I called to find out why the date changed—because "the parents can't be bothered taking their children out on a Friday or a Saturday night."

Is this really true? Have we degenerated so from our parents' time that we now "can't be bothered"? I was under the impression that Halloween was for the children and was celebrated on Oct. 31 whether it was "convenient" or not.

The celebration was changed this year because Friday and Saturday were inconvenient. What will happen next year when Oct. 31 is Sunday? Will Chelsea again be out of step with the calendar and the surrounding communities and celebrate Halloween on Thursday, Oct. 28 because it is convenient or will Chelsea finally agree to celebrate Halloween on Oct. 31, regardless of the weekday it occurs.

With all the date changing for "convenience," I think the original intent of the Halloween party—to keep the children off the streets and out-of-trouble on Halloween—has been overlooked.

By observing Halloween on Oct. 31, the purpose of the children's party could again be fulfilled.

Yours for the return of Halloween on Oct. 31.

Mrs. Robert J. Updegraff.

Chelsea Junior Achievement Companies Now in Production

Thirty-five Chelsea High school students are participating in this year's Junior Achievement program according to Phil Boham, JA volunteer advisor from Dana Corp. Two companies have been formed, one at Dana, and one at Chrysler Proving Grounds.

JA held its organization meeting in Chelsea the week of Oct. 12, and since that time, busy little achievers have been making plans for their corporations, electing officers, and producing their products.

Dana Corp. has five employees who have volunteered to be advisors of this year's project at the Dana plant. They are Janet Schultz, Larry Bentley, Ted Kuzon, Ted Pickelsimer, and Phil Boham.

Officers at the Dana JA Corp. for this year are Molly Foster, president; Janice Schramm, treasurer; Mike Bristle, purchasing director; Ken McCalla, personnel director; Sue Cobb, corporate secretary; Duane Bycraft, vice-president of sales; and Art Grissom, vice-president of manufacturing.

Project of this year's business is a bulletin board for a kitchen with a grocery list and telephone list attached.

At the Chrysler Proving Grounds, Woodrow Griffith and John Van Orsdel are the sponsoring volunteers. Their company is named "Demaco," in which there are 11 people. Night light dolls are on the company's agenda, although their first project will be picture plaques.

Officers for this year's corporation are Ann Marie Lewandowski, president; Karen Sullivan, secretary; Theresa Bassett, treasurer; Richard Egeler, president of manufacturing; Mike Merkel, purchasing manager; Mark Schulze, vice-president of sales; and Cheryl Cameron, personnel director. Their items should be on the market this week, according to President Lewandowski.

JA is a real business. Stocks are sold in the corporation at \$1 a share. Last year, stockholders received \$1.01 for their support of JA as a return on their shares.

A product is designed by the corporation's R & D department, it is advertised and manufactured, and ultimately sold to the public.

Officers receive salaries of from \$4 to \$6 per month, while workers receive 35 cents per hour. Salesmen receive incentive commissions.

The JA program runs for 30 weeks, with meetings one night per week. At the end of the year, a balance statement is worked out, and a copy of the statement is sent to all stockholders with any dividends the company may have accrued.

During the course of the year, is an annual Junior Achievement meeting in Columbus, O., and monthly meetings in Detroit. A national meeting will be held in Bloomington, Ind. At that time, JA achievers will be given opportunities for scholarships, travelships, and trips abroad at a reduced rate.

JA in Chelsea should be bigger and better than last year, according to Phil Boham, for their initial turnout has been bigger than last year's, and the two girls who placed second and fourth in the district sales in Ann Arbor area are back again this year. They are Sue Cobb and Anne Marie Lewandowski.

EARLY WEDNESDAY MORNING fire ripped through a vacation cottage totally destroying it. Because the cottage was on an island between Blind Lake and Halfmoon Lake, fire trucks were unable to reach the dwelling. No one was injured in the blaze. Officials are still investigating for evidence of arson.

Fire Destroys Lake Cottage

A lake home belonging to Grant Withby of Detroit burned to the ground in the early morning hours of Wednesday, Oct. 28. The cottage, which was located on an island between Blind Lake and Halfmoon Lake, was unoccupied at the time of the blaze, according to

Keith Hostlin, Dexter Fire Chief. Fire call came in at 1:58 a.m., Chief Gaken indicated, and three trucks and 12 men from the Chelsea Fire Department were dispatched. "Dexter Fire Department sent four trucks and 18 men to assist with the blaze.

Because the cottage was on an island, and because there wasn't any way the big fire trucks could cross the bridge, Dexter firemen loaded a portable pump and hoses on a pickup truck and crossed the flimsy bridge to get to the scene. The cottage was burned to the ground when firemen arrived and the blaze was out by 4:30 a.m.

The building was totally destroyed. There were no injuries reported.

Washtenaw County Sheriff's Department is investigating the fire for evidence of arson.

Frosh Grid Team Downed By Tecumseh

Chelsea freshmen gridders found the going a bit rough this past week. Wednesday, Oct. 21, they met a tough Tecumseh team and were soundly defeated by a score of 40-8.

Tecumseh jumped off to a 6-0 lead early in the quarter but Chelsea took the ensuing kick-off and marched 75 yards in nine plays with John Tandy powering in from the one-yard line for the TD. John Houle passed to Tim Treado for the extra points, giving Chelsea a momentary 8-6 lead.

From that point, the game belonged to the Tecumseh Indians. They scored twice more in the first half on a 60-yard run and a 30-yard pass, leading 18-8 at the half-time.

They scored on runs of 19, 60 and 70 yards in the second half to give them their game total of 40 points.

Young Bullpups fought up to the end, but never managed the big play when needed. They moved the ball very well, with a strong passing attack, but could never mount a running threat.

Chelsea completed 13 of 26 passes, which is very good for a freshman team. They were led by John Houle, who completed 11 out of 22 passes, most of which were received by Tim Treado and fullback John Tandy. Defense was not able to stop the powerful Tecumseh offense.

Personal Notes

Mr. and Mrs. Duane L. Gentner, and daughter Lisa, of Hanover Park, Ill., were week-end guests of his parents, Mr. and Mrs. Floyd Gentner, 316 Jackson St., Sunday, Oct. 25. Mr. and Mrs. Ronald F. Gentner and daughter, Tracy, of Ypsilanti, were also dinner guests.

Troop 476 Members Earn Advancement

As the end of October approaches, it is time for Boy Scout Troop 476 to recount their accomplishments.

Oct. 9-11, 25 boys and four adults attended the Iroquois District Trail Camporee with approximately 300 area scouts. All four patrols rated well in their campsites, and problems which were designed to test their scouting skills. The troop brought home a blue ribbon from this outing.

Oct. 19 a Court of Awards was held. Eight new boys received the tenderfoot investiture, David Wetzel, Donald Hall, Douglas Beaumont, Doug Eisele, Larry Hafner, Dean Thompson, Robert Burgess, and Jeff Peterson.

James Stahl and Roger Policht received their Second Class badges. Robert Burgess, Peter Plizen, and Mike Schantz were assigned Chiefs.

Merit Badges went to Ron Keil, John Coley, Donald Bollinger, Peter Stahl, Mike Stoner, Tom Hepburn, Donald Oesterle, and Steve Worden. Robert Heydlauff was made an instructor.

New Patrol leaders are: Tony Hafner, assisted by Doug Kalmbach; Mike Stoner, assisted by Danny Cobby; Ron Keil assisted by John Coley; and Steve Schanz, assisted by Lee Hafner.

Troop flag, which had long been with Troop 476 was presented to Robert Daniels, who had been on the Troop Committee since its inception. A new flag was received by Bill Kalmbach, senior patrol leader. The flag was presented by Walter Zeeb, representing the Chelsea Kiwanis Club. Colors were retired.

Announcements included a camp-out planned for November, and a cabin camp-out planned for December. Refreshments followed the meeting.

As a general rule, products such as canned goods which supermarkets carry under their own name are as good as nationally advertised brands. Private labels are generally packed or produced under contract by a large supplier.

**Some Doctors and Dentists
Are Using Hypnosis**

Once hypnosis was only an entertainment medium. But today it is being used medically more and more in the treatment of many conditions. There are actually physicians who are just specializing in the use of hypnosis. It has proven effective in such situations as stopping thumb-sucking, nail-biting, and excessive drinking. And, recently it was proved to be a valuable aid in treating musculo-skeletal disorders such as arthritis.

Hypnosis for medical conditions should always be in the hands of trained experts. The amateur hypnotist could potentially cause harm, for there is still a great deal to learn about how it actually works and its possible side effects. Do not expose yourself to hypnosis unless your physician advises it.

Sand-Filled Barrels Debut As Safety Item

Lansing—Plastic barrels containing sand, designed to turn hard traffic accidents into soft ones, have made their first appearance in Michigan, the Department of State Highways announced.

A cluster of 12 such barrels replaced guard rail in front of a bridge pier at northbound Interstate 96 and Interstate 496, west of Lansing. The cluster of barrels can stop a car safely at 60 miles an hour at impact.

Max N. Clyde, Highway Department design engineer, explained that it is not the barrels that cushion impact, but the sand that is sprayed into the air, creating a heavy blanket.

When struck by a fast-moving vehicle, the barrels disintegrate, fanning the sand in all directions. The lower portion of each barrel contains a frame supporting a seal so that sand fills only the upper portion of the barrel.

The 12 barrels forming the safety barricade at I-96 and I-496 contain amounts of sand varying from 200 pounds to 2,100 pounds. The barrels are 36 inches in diameter with varying height of 30 or 36 inches.

Clyde said the Highway Department has purchased 200 barrels which will be used as safety devices at highway danger spots elsewhere in Michigan. The "Fitch" barrels already are in use in several other states and in Canada.

We think our Second Grade room is bigger than the one we were in last year. We are drawing pictures about Halloween. We think our pictures are pretty. We are counting the days to Halloween. We have flowers and plants in our room. We are working hard. Some of us have been bird hunting.

Jon Riemenschneider, Larry Cameron, Andy Ahrens, Ben Schneider, Mark Steinway, Richard Robards, Robbie Shears and Dennis Sindlinger are Cub Scouts.

Elaine Meyer, Susan Scatterthwaite, Shari Weber, Donna Finkbeiner, Joanne Vanderwaard, Whitney Jones and Jill Weinert are Brownies.

Mrs. Morgan, teacher

Our room looks like Fall because we have pretty colored leaves brought in by Alicia Noah, Tensel Caudill, John Haydock, Christine Johnson, Todd Sprague and Jill Updegraff.

We have gourd brought by Gina Van Riper and Tim Blough. We also have Indian corn brought by John Haydock and Tim Blough.

NORTH ELEMENTARY SCHOOL NOTES

KINDERGARTEN—Mrs. Packard, teacher

We have been hard at work trying to learn everyone's name and making new friends. There are still many names we forget.

There have been many interesting items brought in by the children for us to see. A few items are a puff ball by Nancy, funny gourds by many different people, a tiny pumpkin by Kimberly B. guppies for the room by Judy and horse teeth by Duane. Everyday there is something new and exciting.

We've taken a trip to the fire station during Fire Prevention Week and learned many things, then each one got to squirt the hose.

Colors and shapes are what we are working on and most of the children have learned them all ready.

Our birthdays for September and October are Rodney, Steven, Christopher, Tamara, Paul, Kim G. Kristin, Wendy, Felicia, Jackie and Kim B.

Our room is a mixture of bright fall colors and Halloween with funny pumpkins hanging everywhere.

FIRST GRADE

Mrs. Coelius, teacher

To commemorate the month of October, we've been studying about apples. It all started by listing the many uses we have for apples.

Among the suggested list, Chris Harr, chose apple crisp; Traci Fletcher, apple pie; Karen Kiel, apple sauce; Paul Haydock, apple cider; Monica Vanderwaard, apple then plain; Melissa Arnett, caramel apples; and Nancy Pax, red candy apples.

We began our list of uses by visiting the Dexter Cider Mill and seeing how apples are turned into cider. After our tour of the mill, we stopped at Huron Park with mothers of Brian Fargher, Mike Gipson, Steve Gran, Kirk Dettling and Bobby Cianciolo, for cider and donuts. While there, we took note of the beautiful changes of fall.

Continuing with the uses of apples, we decided to make applesauce and red candy apples. For this project, we brought in the ingredients from home. Apples, sugar, red food coloring, skewers and wax paper.

Mothers of Bobby Cianciolo and Brian Fargher are planning a fun Halloween party for the 30th.

In science, we've been learning how things use energy. We put a bulletin board using two pictures, one child and choosing which one used the most energy to be moved.

In numbers, we've learned about sets and are beginning our addition combinations.

Jeff Cox brought in a salamander. He and Doug Carpenter found in an encyclopedia that it eats worms and insects and if his legs or tail are cut off, they can be regrown.

We're learning to read more and more each day. It's really exciting to know what so many words are.

Mrs. Stein, teacher

Our First Grade class has been learning to listen and enjoy each other from the experiences and things we bring to share at share time from our summer happenings to frogs, hamsters, and a laughing boy.

Our unit on our homes is about finished helping us to learn that everyone is different, not only in all our own homes but all over the world. We want to say that we are very excited to have Halloween coming but it seems to take so long.

Sand-Filled Barrels Debut As Safety Item

Lansing—Plastic barrels containing sand, designed to turn hard traffic accidents into soft ones, have made their first appearance in Michigan, the Department of State Highways announced.

A cluster of 12 such barrels replaced guard rail in front of a bridge pier at northbound Interstate 96 and Interstate 496, west of Lansing. The cluster of barrels can stop a car safely at 60 miles an hour at impact.

Max N. Clyde, Highway Department design engineer, explained that it is not the barrels that cushion impact, but the sand that is sprayed into the air, creating a heavy blanket.

When struck by a fast-moving vehicle, the barrels disintegrate, fanning the sand in all directions. The lower portion of each barrel contains a frame supporting a seal so that sand fills only the upper portion of the barrel.

The 12 barrels forming the safety barricade at I-96 and I-496 contain amounts of sand varying from 200 pounds to 2,100 pounds. The barrels are 36 inches in diameter with varying height of 30 or 36 inches.

Clyde said the Highway Department has purchased 200 barrels which will be used as safety devices at highway danger spots elsewhere in Michigan. The "Fitch" barrels already are in use in several other states and in Canada.

Robert J. Runstrom, 27, Plymouth, pledged utility to driving a motorcycle off roadway. He paid \$15 fine and costs.

Conservation Law Violations

Dennis Beaupre, 22, Ypsilanti, and his brother, Michael C. Beaupre, 25, of St. Clair Shores, pled guilty to late shooting of migratory water fowl. Each paid \$21 fine and costs.

Robert J. Runstrom, 27, Plymouth, pledged utility to driving a motorcycle off roadway. He paid \$15 fine and costs.

Pork can become an economical gourmet food with the help of seasonings, accompaniments and careful cooking methods. Herbs and spices have an affinity for pork. Fruits and vegetables, perhaps as a salad, served with richly browned pork enhance its flavor. Pork roasts will be juicy, flavorful and safe when cooked slowly to 170 degrees internal temperature.

SUNDAY'S SERMON

★ The Lonely

No man is ever alone until he ceases to have faith. Where there is faith, there is hope. One has to forget about God to accept an attitude of utter defeat and helplessness. One elects to be forlorn, to be destitute, through a rejection of faith and purpose.

One must choose to walk alone, to be friendless, to ignore the sunshine and the rain. One must withdraw from the reality of life to accept the dark world of indifference.

There can be no situation so hopeless, no hour so dark, no day so long, that as simple expression of faith will not make things better, brighter and more worthwhile. Have faith and you will have strength. Remember God and you will seek a better destiny, knowing that you will never be alone.

Wheat Research To Be Aided By Export Certificate Funds

Washtenaw county wheat growers are directly involved in the new Wheat Research and Promotion Act, according to Raymond Girbach, chairman of the County Agricultural Stabilization and Conservation (ASC) Committee. Secretary of Agriculture Clifford M. Hardin has said, "Domestic utilization of wheat in human nutrition and industry may be encouraged by the recently enacted Wheat Research and Promotion Act. The prospect is quite promising that research can develop new products and greater utilization of wheat."

Financing of the program under the new law is to come from proceeds of the 1968 wheat export certificate pool not claimed by eligible farmers.

"Local wheat growers whose share of the export certificate pool amounts to \$3 or more will receive notice directly from our Washtenaw County ASCS Office telling them what their share of the pool is and explaining the options each grower has," Girbach said.

A producer may choose to receive his share of the export certificate pool or he may leave it in the pool to finance the research and promotion program.

Wheat growers in Washtenaw county, entitled to receive less than \$3, will not receive a special notice, but they can nevertheless claim their share of export certificates by filing a written request with the county ASCS office. Each producer's share of for payment with the county ASCS the export certificate pool will amount to about 56 cents for each \$100 of 1968 domestic wheat certificates earned.

FAMILY POT LUCK

For tasty dip, blend an 8-ounce roll of braunschweiger, 1 cup dairy sour cream and 1/2 cup package blue cheese salad dressing mix. Chill. Serve surrounded with green onions, celery, carrot strips and zucchini slices.

Spoon canned rice pudding and Dutch chocolate pudding into dessert dishes; garnish with whipped topping and chocolate sprinkles. If you wish to cut beef into thin slices for sukiyaki or narrow strips for beef burgundy, wrap the meat and quick freeze until firm, but not solid. Uniform carving is then easy.

Wash and remove stems from large mushrooms and fill with bacon-cheese mixture. Bake in oven until heated through and use as a hot appetizer, garnish for roast beef or steak.

RICY MEATBALLS

1 can (10 1/2 ounces) condensed tomato soup
1 pound ground beef
1 and one-third cups packaged pre-cooked rice
1 egg, slightly beaten
1/2 cup finely chopped onion
1 teaspoon salt
1 small clove garlic, minced
2 tablespoons shortening
1/4 cup can water
1 teaspoon prepared mustard
Mix 1/2 cup soup with beef, rice, egg, onion and salt. Shape into 16 meatballs. Brown meatballs and garlic in shortening; pour off fat. Blend in remaining soup, water and mustard. Cover; simmer for 20 minutes or until done. Stir now and then. Serves 4.

September Traffic Death Toll Down From Last Year

September traffic deaths in Michigan numbered 196, down by 24, or about 15 percent compared with the record high of 230 for that month set last year, according to State Police traffic division figures.

The toll marked the eighth month in a row to show road death reductions this year compared with corresponding months in 1969.

September's average was 211 in the five years 1965-69. Low for the month was 68 recorded in 1944, a wartime year.

The deaths brought Michigan's accumulated traffic toll for the first nine months to 1,626, a decrease of 186 or 10 percent compared with 1,812 in the same period last year.

Reports of delayed deaths charged to accidents in September will increase somewhat the counts for that month and the accumulated period.
