## Vacation Bible Schools Start

Summertime activities at the local churches are just getting started across the community. Vacation Bible schools are tops on the list of many special activities that the local churches have designed to help fill the gap left with the coming of the end of school.

St. Paul United Church of Christ has planned a Vacation Bible school which is currently underway. Registration was Monday morning, at which time 73 youngsters between the ages of three and the sixth grade showed up. Staff members at the school number close to 33, including teenage helpers on the program.

Running for two weeks, 9:30 to 11:30 a.m., this year's program is centered on the theme "Created by God," and will place emphasis on nature. Kindergartners will learn about the five senses, while first and second graders will study how things grow, and the meaning of growth. In the third and fourth grade classes, the emphasis will be on the fact that each person is a special person. This theme will be developed further in the fifth and sixth grade level, when the students will learn of their own personal worth—to themselves and others.

There is also a child care nursery for children under three years old. Currently there are 11 of the teachers' children in the nursery.

Mrs. Alice Tite is providing special music instruction at the school, while Mrs. Warner Siebert is in charge of Recreation. Mrs. Koch is the school's "refreshment lady." Director of this year's school is Mrs. Irma O'Connor.

A Vacation Bible school is also being offered this week and next at Zion Lutheran church. Opening Monday, the school numbers 108, with 20 teachers. Most of the children (49) are of pre-school age, while the second highest number (29) are in the first and second grades. There are 18 third and fourth graders, and 12 fifth and sixth graders.

## Swim Program Filling Fast For Summer

Jim Tallman, director of the summer swimming program, sponsored by the Chelsea Recreation Department, announced that registration for the three swimming sessions offered this year will be on a first come, first serve basis, as the programs are filling up fast.

This summer's program will be organized into three sessions of two weeks each. Sessions will be held from 9:30 to 11:30 a.m. June 21, through July 2, July 6 to 16, and July 19 to 30.

Supervised recreational swimming will also be offered weekday afternoons June 21 through July 30. Buses will leave from the high school each day at 12:30 p.m., returning at 2:30 p.m. A 35-cent charge per child will be charged to defer program expenses.

Swimming will be at the Half Moon Beach in the Pinckney Recreation Area this summer, Tallman stated.

Children may be registered by phoning Tallman, at 475-7068. Although registrations may be placed up until the starting date of each session, the classes are filling up fast, and Tallman has asked that parents phone as soon as possible to assure their child a chance to learn to swim this summer.

25 YEARS IN BUSINESS: Chewing on his fabled corn cob pipe, and reminiscing over events of the past 25 years, Anton Nielsen, owner of Farmers' Supply Co. feed mill, has greeted customers all week with coffee and donuts in celebration of the mill's "Silver Anniversary" under his ownership. When referring to his pipe, Nielsen

claims that in his business he comes across so many corn cobs, that one has to use them somehow! Resourceful Nielsen maintains a large "herd" of cats at his mill—for color, as well as to "mouse" the place. He must feed them several times a day, though, as "there aren't many rats or mice around here any more."

## Farmers' Supply Co. Feed Mill Marks 25th Anniversary

Farmers' Supply Co., the quaint feed mill by the railroad tracks, located at 122 Jackson St., is celebrating their 25th year of ownership by Anton Nielsen, this week.

Nielsen, who lives at 404 Garfield, assumed ownership of the outfit June 15, 1946. He purchased the business from Ron Lindsey, who had only owned it for six months. Prior to that time the business was owned and operated by Roy Ives.

The actual building is close to 150 years old, Nielsen claims. In fact, it was originally a ho-

tel. The mill, and most of the machinery at the mill is not so antiquated, however, as most of it was added later.

One of the more noticeable aspects of the mill is the presence of a large number of cats in the area. Nielsen claimed that when he purchased the mill, it was overrun with rats and mice. "There were no cats in the building," and the problem was like something out of "Dick Whittington." He tried to keep cats around, but the noise of the machines always drove them away. At one time he moved

in newly-weaned kittens, and a mother cat with her litter—all in vain.

At last they secured a number of small kittens, and kept them closed up in the office until they were used to the noise—and they stayed. Present cat population at the feed mill is 12, Nielsen estimates. At least, he says that's how many he counted once at a recent feeding. The cats are fed at least once a day—as presently there aren't many mice in the mill.

Although pigeons are not so useful to the mill owners, they also receive hand-outs, and the men at the mill often feed the large flock of birds which roost on the southern side of The Standard, and the Central Fibre Products plant. "Oh yeah," Nielsen claimed, "we gotta feed them every once in awhile." "People can get fed at the mill, too, this week, as they are celebrating their anniversary with free coffee and donuts every day. A drawing will be held Friday, June 18, in honor of the occasion.

Ronald Sparks, son of Mr. and Mrs. Henry Sparks, Adrian, will serve as assistant pastor at the First Assembly of God church, 14000 Old US-12, this summer. The Rev. T. B. Thodeson announced this week. An added feature at the evening service will be a Teen Male Trio from Bethany Assembly of God, Adrian. This trio is a part of the group of the Bethany Singers who will compete in the semifinals of the Teen Talent Search to be held soon in Lexington, Ky.

The Rev. Thodeson added that Sunday, June 20, which is Father's Day, the church will sponsor a contest in honor of the occasion to award a week at camp to some worthy child. Special honors are planned for dads in the morning service, also.

## 'New' Postal Service Will Start July 1

Inauguration of the new United States Postal Service on July 1 will be celebrated in post offices across the country. Special ceremonies have been planned in Washington, D. C., and by local post offices to mark the official opening of a "new" kind of postal service in America.

Chelsea Postmaster Schaules has announced that all members of the community are invited to visit their local post office July 1, and meet some of the men and women who comprise the U. S. postal service.

Visitors to the post office will be given a souvenir envelope imprinted with the old and the new insignia of the postal service. This envelope will also be made available in limited numbers as a first day cancellation—for the cost of an 8-cent stamp. The post office will stamp and cancel half of the souvenir envelopes in advance. This will be the first time (Continued on page three)

## Schafer, Straub Named to Positions On School Board

Local voters chose Bob Schafer and Gerald Straub to represent them on the Chelsea School District Board of Education Monday, June 14. A total of 454 ballots were cast, nine of which were spoiled.

Official results of Monday's election granted a total of 389 votes to Straub in his bid for the four-year vacant term on the board. One write-in vote was cast for N. N. Fahrner, while one write-in vote was cast for Robert Postor.

For the vacant one year term, Robert Schafer received 256 votes, defeating Donald Baldwin, his contestant, who received 189 votes. Norman Wenk received one write-in vote.

Meeting immediately following the election, the board certified the results. New board members will be sworn in at the first meeting in July, to be held Monday, July 6. Election of new board officers will be at the second meeting in July, Business Manager Mills stated.

## Baseball Team Loses in Finals Of Regional

### Defeat Flat Rock, 5-0, Before Being Shut Out 7-0 By Detroit Lutheran

In the second of two games competing for the Class B Regional Championship, Chelsea's baseball team was defeated Saturday, June 12 as they faced the team from Detroit Lutheran West, at Northville.

The Bulldogs who took the District championship last week by defeating Dexter, met Flat Rock Saturday morning, winning, 5-0. Ron Sweeny, pitcher of that game, was "star performer" for the day, as he showed excellent control, walking none, and striking out five.

According to Coach Carl Genske, Sweeny has pitched 12 innings in the last two games, and has given up only four hits, walked one man, and struck out 11.

Sweeny also was leading batter for the Chelsea team, as he was three for three at the plate in the Flat Rock game.

Most of Chelsea's five runs were tallied on walks, stolen bases and wild pitches, Coach Genske said. Wayne Welton drove the second Bulldog run home in the first inning.

Flat Rock committed only three errors during the game, Genske claimed, and gave up only three runs. He added, however, that they all came at crucial moments in the game, which helped Chelsea

to defeat the team, and enter the final play-offs against Detroit Lutheran West.

Bulldog batters were silenced fast by the powerful pitching strength of the DLW pitcher John Paloni. Paloni is a 6-3, 185-pound junior who is already attracting interest of numerous major league scouts.

Final score for the afternoon was 7-0, and Coach Genske claimed that Paloni was the cause of most of the damage, as he succeeded in striking out 15 of the 21 batters he faced and allowing only one hit.

Chelsea pitcher Wayne Welton pitched what his coach termed a very fine ball game, but Genske said the Bulldog defenses collapsed in the first inning, when they tallied two errors, a walk, and a single to score two runs.

DLW came back in the sixth inning to hit a solo home run, and wrapped up the game in the seventh inning on three hits, including a grand slam home run.

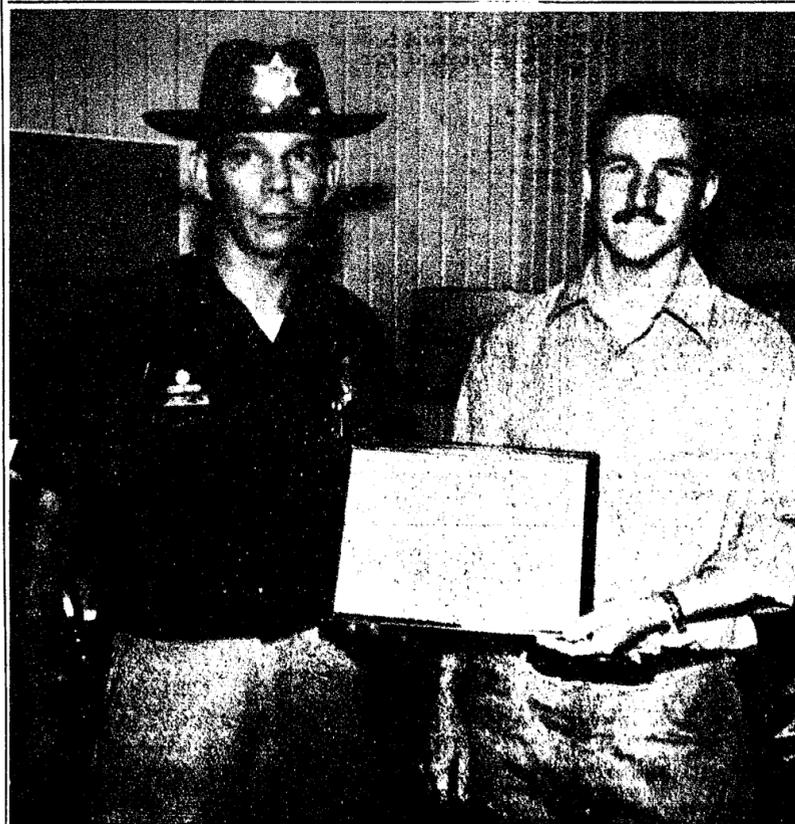

The Chelsea ball club is not disbanding for the summer, however, with the end of their regular season. The team plans to participate in Ann Arbor this summer, playing a total of 14 games. First game for the Bulldogs was Tuesday evening, June 15.

## Village Tax Bills Delayed

Local taxpayers will have a "breather" this summer, according to Village Administrator Frederick Weber. Weber stated that the village received a notice Tuesday from the County Clerk's office, acting on the orders of the State Tax Commission advising that the village halt taxing until the suit over the County Equalization policy is decided. The letter read "All units that customarily spread summer taxes due July 1 are hereby ordered to cease and desist from the levy of taxes until you are notified by proper authority to again proceed with same."

The County Equalization suit was rejected by a local judge recently, and the case has been appealed to the State Tax Commission. Hence all local taxing units may not levy any taxes which are based upon local property tax assessments, until the fairness of the assessments is decided by the Commission.

Village Council members met to discuss the issue Tuesday evening at their regular meeting. It was (Continued on page six)

**Year of the Budget**

Each session of the legislature is a unique affair which, no matter how similar things may seem at times to the past, is unlike any session before.

As a result, each session develops a few issues which it concentrates on and disposes of in one fashion or another. Last year there was parochialism and a flurry of environmental proposals were passed and put into law, along with such new programs as direct aid to Detroit. It was a year of innovation in several fields.

When the history of this year's meeting is written, however, it will have to be entitled, "The Year of the Budget."

Ever since legislators arrived in Lansing in January, the primary topic of conversation and worry on their part has been the budget—including the tax increase it is going to take to finance next year's spending program, which will total, when all things have been settled, around \$2 billion.

The immediate problem has been getting out of the current fiscal year which ends June 30 with the state's ledgers showing a surplus. No matter whether the surplus is only a few dollars plus change, the prime object is not to have the books showing red.

In an attempt to balance things, Gov. William G. Milliken cut back some spending, rearranged tax payment schedules and juggled around figures to erase what would have been a \$200 million deficit had nothing been done.

While all the short term rearranging was underway, the prime reality staring each legislator in the face is the fact that sooner or later the state income tax must be raised.

The final amount raised will depend on the budget. Every item added to the budget means a little bit higher income tax.

The Governor started out asking for an increase from 2.6 percent to 3.6 percent, effective next Jan. 1. Now he is asking for a temporary increase to 3.9 percent Jan. 1 through June 30 of next year with a drop back to 3.6 percent July 1. The betting is that it's going to take more than that before it's all over.

That is why the various gambling bills have been so well received. They are a "painless" way of taxing people and, if staying in office depends on keeping voters happy, this is preferable to taking an increased chunk out of the take-home pay.

The search for a "painless" form of taxation also has led to the move to make the tax increase effective Oct. 1 this year.

The thinking behind that is that many salaried employees stop having social security deductions taken out around Oct. 1, so there is a net increase in take-home pay for a few months even if a couple of extra dollars per week are taken out for the state income tax.

There is still a lot of talking and worrying to be done between now and the time the final form of the income tax is decided.

And while it's little consolation to the taxpayer who ends up footing the bill, the guys who will increase the tax have been doing a lot of sweating over it.

**Studded Tires Opposed**

War is declared on studded tires by the State Highway Department.

While the department never did like them, it says it has new information which makes its case against them much stronger. If studded tire usage continues to grow at the present rate, it will cost at least \$28 million a year to repair all the damage they do to state highways, according to Highway Director Henrik Stafsteth.

"This might be justified if studded tires provided motorists with an extra margin of safety," he says, "but this is not the case."

"They are safer on glare-ice, but less safe than standard tires on wet or dry pavement, and that is the condition that exists about 99 percent of the time on state highways," he says.

Stafsteth says about 15.2 percent of the vehicles in Michigan were equipped with studs last winter, compared to 12 percent the winter before. At that rate of increase, about 45 percent will use studded tires by 1974-75, he said.

He says the studs wear pavement 100 times as fast as regular snow tires and are wearing ruts in the state's main highways.

It can be expected we'll be hearing more from him in the future about the subject.

**Nancy Cox Becomes Bride of John Niehaus**

Nancy Cox, daughter of Mr. and Mrs. Ralph Cox, 540 Lakeside St., Michigan Center, became the bride of John Niehaus, son of Mr. and Mrs. Robert Niehaus, Grass Lake, Saturday, June 12, at the Federated Church of Grass Lake.

Following a wedding trip of two weeks to the East coast, the newlyweds will reside at 3097 Mack Island Rd., Grass Lake, where Mrs. Niehaus will work at Mercy Hospital in Jackson. Her husband is a graduate of Cleary College, and is employed by the Dairy Queen in Chelsea. The new Mrs. Niehaus graduated Friday evening, June 11 from Foote Hospital in Jackson, receiving her RN degree in nursing.

### Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

If there's one thing the fellers ain't full up on, it's college. None of em were blessed with too much upstairs to start with, and they didn't make the best use of what education they got. But the fellers was agreed at the country store Saturday night that the biggest thing wrong with college today is what's at the end that they call the commencing.

Clem Webster went so far as to say he could understand why so many younguns don't finish college. Clem said they git to thinkin' about the commencing and they figger learning jest ain't worth the sufferin'. The puzzle to him is, Clem allowed, that grown men will stand up in front of them college graduates and tell them stuff that would embarrass a youngun in the sixth grade.

"Zeke Grubb" sided with Clem. Zeke said it takes him the best part of ever summer to git over some of the commencing addresses he sees in the papers. If they don't tell the graduates that "the world is a challenge," Zeke said, they is telling em that "our civilization has come to a crossroads."

And if them younguns ain't figgered both of them pearls of wisdom out in four years of college they got no business setting there sufferin' through the commencing, was Zeke's words.

Jest about ever year, Mister Editor, the fellers git off on this subject, and without fail the commencing speakers go through the same riggermerole the next spring. It could be that the fellers ain't got much pull on the college level, but that don't keep em from wantin' a law passed to make commencing speeches obscene, illegal, unlawful and in bad taste. Clem was of a mind that this year particular the schools would've of done better to turn out the graduates a hour early and skip the commencing so's to give em a head start on lookin' for a job.

The way things is looking, went on Clem, the graduates need more help and less talk at the end of their college. The more schooling a feller's got, the less chance he's got of landin' a job, Clem went on. Clem said he saw by the paper where them railroad signalmen that flagged down the country a few weeks back wanted wages that would put em up there with the \$11-a-hour plumbers, and college performers ain't even close.

Ed Doolittle said he was worried about jobs. He had saw where they is 27,931 ways to make a living in this country, and welfare is growing 18 times faster than any of em.

On top of that, Ed said, the poverty level went up five per cent last year, so the only ones coming out ahead in the poverty war is them gitting paid to fight it.

Yours truly,  
Uncle Lew.

### Tired of carry-outs?

Here's what you need—a Gas incinerator. It takes all the bother out of garbage and trash disposal. And it does it without smoke, odor, noise or polluting the air you breathe.

A Gas incinerator gobble up all the combustible things you wouldn't dare put in a garbage disposal and can't burn outside. It makes short work of bones, boxes and boots—in fact anything that's combustible. And it does the job conveniently and completely.

So put an end to your carry-out service. Promise yourself you'll see your appliance dealer about having a Gas incinerator installed in your home. Or, visit your Michigan Consolidated Gas Company showroom for all the particulars. And remember, there's more than enough Gas for all your appliances.

**Firemen Help  
Dexter With  
Two Blazes**

Aside from assisting at two fires which occurred in Dexter this past week, Chelsea firemen have been kept moderately busy.

Thursday, June 10, firemen were summoned to extinguish a grass fire on land owned by Bob Fitzsimmons, 800 Wild Goose Lake. The fire was caused by shorts in electric wires which had fallen into the grass.

Saturday, June 12, a lint fire behind the cooking stove of Barbara Weir, 121 Orchard St., brought firemen to that address. There was no damage done to the building and the fire had burned itself out by the time firefighters arrived.

Tuesday afternoon, at 2:15 a fire in a tractor belonging to Bert Forner, 1153 Pierce Rd., brought firemen on the run. Forner had been working on the tractor's wiring at the time, when sparks from the wiring set the gasoline tank afire. According to Fire Chief James Gaken, "quite a bit" of damage was done to the machine.

**TODAY'S THOUGHT**  
By LOUIS BURGHARDT

The physical fact of fatherhood does not automatically entitle a father with love, respect or loyalty of his children. A circumstance of birth provides a father with a child; it does not necessarily provide a child with a worthy father.

On Father's Day, we salute and honor the overwhelming majority of fathers, who deserve the name of father or dad. We salute and honor the overwhelming majority who encouraged attitudes, developed qualities of decency and clean morals. We salute and honor the overwhelming majority for their patience and understanding. We salute and honor the overwhelming majority for giving of themselves in effort, time and love—the spiritual benefits as well as materialistic gifts. We salute and honor them for having taught their children right from wrong—and for having children who unashamedly show and express their love in deeds and thoughts. And—we repeat—the men we salute and honor ARE an overwhelming majority of fathers. Let no one dispute—or forget it. . . . BURGHARDT FUNERAL HOME, 214 East Middle St., Chelsea, Mich. Phone GR 5-4141.

**Youth Arrested Following Wild Police Chase**

A 22-year-old Manchester man has been charged with fleeing a police vehicle, and driving while his license was suspended following a series of events culminating in a high-speed chase that occurred Wednesday evening, June 9.

While on routine road patrol Chelsea police officer Leonard McDougall, and auxiliary policeman Richard Harvey spotted Raymond Steven Hone, 17991 Windgate, Manchester, zipping through town on a Harley-Davidson motorcycle. Passenger on his cycle was his wife, Barbara Jo Hone, 10850 Bettis Rd., Brooklyn.

McDougall pursued the pair, and stopped Hone for speeding. Hone explained that his gasoline cable had become stuck, and that the problem had caused the speeding.

McDougall ran a LEIN check on the man, and found that he was wanted by the Sheriff's department on three outstanding traffic warrants. Hone asked to leave his cycle at a friend's gas station, prior to his arrest, as he was to be taken into the County Jail.

Mrs. Hone entered the police car, which followed her husband on his cycle to the station. At the station, the man stopped, and when Patrolman McDougall advised him that he would be taken to jail, he stepped on the gas, and tore out of the station.

McDougall followed in the police car, and eventually overtook Hone on M-52 near Scio Church Rd. He was traveling at speeds between 100 and 115 mph when he overtook Hone, and tried to stop the cyclist by driving down the center line of the road. Hone eventually hit the rear of the car, and in an attempt to pass the police vehicle hit the left side of the car, eventually losing his balance, and going into a ditch. The driver was thrown from his cycle, but was uninjured. He then tried to escape police officials, running off through a field.

Following a warning shot from McDougall's gun, Hone dropped to the ground and gave himself up to the authorities.

He was placed under arrest, and transported to the County Jail. The charge of fleeing a police officer was added to the charges against him.

### Village Tax Billing Held Up By Suit

(Continued from page one)

decided to halt all preparation of tax statements which were scheduled to be sent out July 1, until the case is decided.

According to Village Clerk, Richard Harvey, any time which the village may gain by collecting taxes through the advance make-up of tax statements could cost the village as much as \$600 if the case is decided in favor of lower assessments. Village officials had originally planned to make up the statements to be sent out as soon as the case was settled, assuming that the assessment would remain unchanged. Council member decided against the proposition, however, at Tuesday's meeting.

Deadline for payment of taxes is Sept. 20, although Weber claimed that the tax money would normally begin to come in as soon as the statements were mailed.

Presently the village coffers are empty, Clerk Harvey claimed. The village has been using money from the Village Light & Water Dept. Funds to operate for the past several months, counting on paying the money back after taxes are received.

When asked if any changes would be made due to the temporary fiscal condition, Clerk Harvey answered, "We'll have to make provisions."

### Police, Fire Dept. Officials Complete First Aid Course

Chelsea police and fire officials have just completed a basic course in First Aid, sponsored by the Red Cross. The course, which was taught at Chelsea, was a voluntary program for members of the police and fire force. Red Cross officials announced that 26 certificates were issued to local fire and policemen at the conclusion of the course.

Arranged through the efforts of Chelsea police chief, George Meranuck, the course was taught by Red Cross instructors Don Haywood of Chelsea and Duke Purchase of Ann Arbor.

Representatives from the Michigan Heart Association were on hand to demonstrate the principles of the heart massage, while a Red Cross nurse, working in cooperation with the County Health Association, showed a film and discussed emergency childbirth.

### Sylvan Zoning Change Sought for Construction of New Grinding Plant

Sylvan Township Planning Commission will meet Monday evening, June 24 at the township hall to consider re-zoning a parcel of land located on the north side of I-94, extending north to the new service road from "AA-1 Agriculture" to "I-1 Industrial District."

The area is bordered on the east by the property formerly known as "Blondie's Restaurant," and on the west by lands occupied by Albert Hafley.

Ann Arbor Centerless & Tool Co. has applied for the special zoning to build a new plant in this area. They hope to relocate their six-man shop in the new plant and close out their Ann Arbor operation.

Paul Fite, president of Ann Arbor Centerless, indicated that his outfit does grinding, honing, and cold sawing, as well as automatic cold sawing. He claims that at present, approximately 50 percent of the company's volume is centered on work with special metals, and the development of new special metals for the University of Michigan, and other large corporations.

Ann Arbor Centerless hopes to begin construction of their new facility within two weeks of their zoning approval. They hope to move in within 60 days.

THE LANSING REPORT FROM senator GIL BURSLEY

This week is officially "Export Week" in Michigan, designated by both a proclamation from Governor William Milliken and a legislative resolution I introduced and sponsored.

As I mentioned in a previous column, Michigan has the highest per-capita rating for exports of any state and is a close second to California in total export sales, having surpassed New York, Illinois and Ohio in this highly competitive field in the years since 1966.

So what does this mean for the so-called "average" citizen — for those of us who are not directly engaged in any facet of foreign trade?

First, we have to remember that "foreign trade" is far more than a remote, romantic-sounding phrase suggesting trade winds, tramp steamers and trans-oceanic gold shipments.

Foreign trade means dollars and jobs here at home! According to U.S. Department of Labor statistics, fully 7.4 percent of our manufacturing employment can be credited to exporting.

This means, very simply and directly, that 3 percent of our manufacturing employees owe their jobs to the dramatic gains Michigan made in exporting in one short three-year period.

Suppose those gains hadn't been made? The figure 3 percent may not sound high when regarded as a portion of employment. But employment that doesn't exist is unemployment, and 3 percent becomes a major and alarming figure when unemployment levels are discussed.

If Michigan's outstanding export-total rise just prior to 1969 hadn't occurred, think what an added 3 percent unemployment might have meant in the subsequent year of 1970 — when the combination of a national economic slump and a prolonged automobile strike brought on a financial crisis for our state!

Think how many more welfare applications we might have been processing, and how much more severe the emergency cut-backs in state services might have been! As it was, we were forced to make cuts in school aid equal to 3 percent of every school district's budget, in addition to other cuts in state funds for schools.

With education accounting for over half of our state budget, there was simply no way of meeting the crisis without affecting both K-12 and higher education. The cuts made in other areas simply couldn't be made substantial enough to maintain Michigan's fiscal integrity.

It's no exaggeration to say that, without the sizeable boost and added stability brought to Michigan's economy by increased exporting, the fiscal crisis we endured would have been a fiscal disaster.

To my mind, this gives special significance to Export Week in Michigan.

THE CULPRIT
About 65 percent of all atmospheric pollution in this country is caused by the automobile.

### Lumber Standard Dimensions Changed

Lumber shrinking? Not really. But most lumber dimensions are smaller than they were a year ago because of changes in U.S. lumber standards.

For example, a 2 x 4 used to be 1 7/8 x 3 7/8 inches. Now it's 1 3/4 x 3 1/2. But it's still called a 2 x 4. The old 8 x 12 used to be 7 1/2 x 11 1/4. Now it's 7 1/4 x 11 1/4.

"For a while, lumber yards will have lumber in both dimensions," comments James Boyd, Michigan State University agricultural engineer. "If you bought lumber at two different times, better check its measurements."

"Be especially careful with lumber for trusses, if particular pieces are to be used for wall studs or sheathing will be used on both sides of the wall."

"For remodeling, lumber graded according to the old system will be much easier to use," says Boyd.

### SUNDAY'S SERMON

**★ Time and Money**

Today may be the most important day in your life. It has value because it is NOW, because you have the opportunity to decide—and to do.

Yesterday belongs to history. It cannot be called back, changed or altered in any way. But, it has left something worthwhile—the value of experience.

What we accomplish this day can be greater because of yesterday. If we have brought something forward in the way of knowledge, we can guide the efforts of now and gear proper plans for tomorrow. We can do better; we can plan wisely.

Therefore, consider today for what it is worth; tomorrow for what it can be. Use time as if it was money, as if it was limited, as indeed it is. Don't spend it foolishly, once gone it never returns again.

## Much Confusion, Misunderstanding Created by Tornado Warning Terms

In response to inquiries from many new residents in this area, the local Civil Defense office has issued a clarification of the often confusing and scary terms used when referring to tornadoes. "Tornado watch" is a term used to explain weather conditions in which a tornado MAY develop. "Tornado warning" means that an actual tornado funnel has been sighted.

Residents are urged to keep radios and televisions tuned to their local stations for the latest information regarding severe weather. Free information and folders

are available in the lobby of the Chelsea Municipal Building. Any further information or assistance may be gained by contacting Elwyn Beach, civil defense director for this area, at 479-6031.

Visitors traveling from San Diego, California to Tijuana, Mexico, can beat the traffic by taking the Baja Coaster, an air cushion vehicle that skims over the water at speeds up to 60 mph, and makes the trip in 15 minutes. Inaugurated last May, the service provides nine daily roundtrips with additional trips on weekends and holidays.

## New Camp Buildings at Camp Linden To Be Dedicated Sunday

Members and friends of the Huron Valley Girl Scout Council will hold an open house at Camp Linden in northern Livingston county Sunday, June 20 from 2 to 5 p.m. Highlight of the event will be the formal dedication of the new camp buildings constructed with the donations from the 1970 Camp Development Fund Drive. Total pledges to the drive amount to nearly \$450,000 with \$250,000 collected thus far and the remainder to be paid over the next two years.

Buildings to be dedicated include the Baird Boat House, named in appreciation of the work of Charles Baird of Ann Arbor. Three winterized troop houses to be dedicated are: Ruth's House, named for Mrs. Charles Howe of Ann Arbor, in recognition of long service to the council in camping; Edith's House, named for Miss Edith Steere of Ann Arbor in appreciation of her assistance in the counselor-in-training program for many years; and Esther's House, named for Mrs. Kenneth Hulsing of Plymouth in recognition of her service to the council as president from 1964-1970 during which time Camp Linden Development took place.

In addition, ground-breaking ceremonies will be held for the Laurin C. Hunter Lodge, dedicated to the memory of the late Mr. Hunter of Ann Arbor, a long-time friend of the Girl Scout organization. Construction of the Hunter Lodge is scheduled to begin in September. Ground will also be broken for the Allen Administration Building named in recognition of the work of Mr. and Mrs. Wyeth Allen of Ann Arbor, both active volunteers in the Huron Valley Girl Scout Council.

Girl Scouts from Dexter, Westland, Wayne and Ann Arbor have planned dedication ceremonies for all these buildings. Members and

## TEACHER TOPICS

By Miss Virginia Rust  
 Public Health Nurse  
 Chelsea Schools

Most people think of nurses in relation to care of the sick but in schools nurses work primarily with well people and spend most of their time trying to keep well people healthy. This should not be too surprising if we understand what health really is. According to the World Health Organization, health is "a state of complete physical, mental, and emotional well being and not merely the absence of disease or infirmity."

In recent years, the concept of mental health has become almost a topic of daily conversation. Our understanding of human behavior has expanded at an amazing rate and we are just beginning to put that knowledge to practical use. Mental health centers are forming, crisis clinics are opening, child study groups are meeting, and people are talking about the importance of communication. Small wonder that nurses too should be looking at what is happening and making decisions about where to focus their attention.

Education for living is the real goal of our schools and the young people have been the ones to remind us of our purpose. This task seems to be getting more difficult as more and more knowledge accumulates and as social patterns change more rapidly. Alvin Toffler talks about the "run away acceleration of change" in his book Future Shock and points out that man is not well prepared biologically, psychologically or culturally to cope with this rapid change. If we are going to educate young people for living fulfilling lives, we have to teach them how to deal effectively with problems they encounter in their daily living. They need to develop a firm foundation in critical thinking as well as the motivation and skills for continuing self education.

Health services to schools are divided roughly into three interrelated areas—Health counseling, health education and environmental health. In all of these areas nurses are recognizing the need to focus on prevention rather than spending all of their time on the health problems that already exist. This is very clearly the goal in maternal and child health programs.

Health education starts at birth. Public health nurses visit pregnant women in their homes to help them learn about their pregnancy and prepare for labor and delivery. We continue to visit after the arrival of the baby for as long as possible to help new parents learn to care for their baby.

We discuss the growth and development of the child, what can be expected, and how to cope with a variety of problems that can arise as the child grows. This is preventive nursing. If some of

Calories in beef cuts such as round steak, sirloin tip roast and T-bone steak, and in pork cuts such as loin roast, chops, tenderloin and baked ham, total under 250 calories per 3 1/2-ounce serving of cooked lean meat.

USE 'HAPPY' COLORS Introduce happy colors into the children's room by converting oversized beach towels into bedspreads. These look especially good on bunk beds; they won't wrinkle and are easy to wash.

Stating that young kids have never really been asked how they feel about milk, third graders in Miss Jeanine Keeney's class, Charlevoix, Michigan, took matters into their own hands and sent us some of their ideas. Over 85 percent of the water in the U.S. is hard enough to require treatment. The best way is with an automatic softener that conditions the water before it enters the piping system. In the modern unit, the water flows through a tank containing a chemical that removes minerals such as iron and calcium. As the chemical is saturated, it's automatically regenerated. The unit requires almost no maintenance.

### Expect Charge Of Murder Against Drifter

Washenaw County Sheriff's Department expects to charge Paul Taylor, a 24-year-old man who has been "drifting" from address to address within the Pinckney-Gregory-Unadilla area, with murder later this week.

Taylor, who is presently in University Hospital, with multiple gunshot wounds, will be charged in the stabbing death of Robert M. Williams, Jr., 25, of 1014 Watling St., Ypsilanti.

According to Sheriff's Department Detective Captain Stanton L. Bordine, the incident occurred Saturday morning in a field near Hubbard St., off E. Huron River Dr., in Ypsilanti township.

The two men were allegedly engaged in argument stemming from a proposed drug deal.

A hunting knife and a .22 caliber pistol were found at the scene by deputies. Bordine said the knife was apparently wielded by Taylor, and the gun was apparently used by Williams.

Deputies investigating the crime are still seeking a man and a woman who were seen driving away from the death scene after the fight began. Bordine said it is believed the couple witnessed the incident.

## Now, a Chrysler priced \$112\* less than a Chrysler.

# Royal.

Every inch a Chrysler. Yet with Royal, the deal starts \$112 less than Newport, previously our lowest-priced series.

The Royal is just as big as our most luxurious New Yorker. And bigger than its competition — Buick LeSabre and Olds Delta 88. Outside and in.

Royal's 360 V-8 delivers more power, too. Power for freeway cruising without strain. Power for safe passing. All on regular gas.

Royal also gives you a better suspension system: torsion bars instead of coil springs. The ride is firmer. More controlled. On a trip to the supermarket, you might not notice the difference. On a quick expressway lane change or a tight turn, you surely will.

Outside of Chrysler products, only two American cars have torsion bars — Cadillac Eldorado and Oldsmobile Toronado.

Another difference: Royal's body is welded into a single solid Unibody. It's the strongest way to build a car. And there are no body bolts to work free and rattle.

Buick and Olds use the old body-bolted-to-frame technique.

**A Chrysler priced to introduce you to Chrysler.**

Yet for all this extra value, Royal is priced just about the same as LeSabre and Delta 88. Royal. With everything you expect of a Chrysler. At a price you don't.

**Coming Through with more car, and more kinds of cars, within your price.**
