HELP WANTED-Young man to

Arbor, 662-5667.

American ingenuity and technology opened a new frontier in space. Unlike the explorations of Columbus, our courageous astroauts knew where they were going, knew how to get there, knew what to do when they got there - and knew how to get home. Their marvelous lunar landing and unforgettable return to earth proved that God has endowed man with remarkable intelligence. He has endowed man with the means, minds and machines - discipline and dedication to do great things; to establish stimulating goals and reach them in rigorous manner.

It seems obvious questions should now be asked. What does God expect us to do; what does He anticipate we will do? Has the time come for us to check our conquest of space and devote equal time, the same endless effort, and the same extravagant billions to establish new bonds of brotherhood, new concepts of human concern? Since man has the intelligence to face and solve problems in step by step procedure, should we not now determine how to make the deserts fertile, cultivate the oceans to provide plentiful food to insure that no man ever starves? What are your views; what do you think? . . . BURGHARDT FUNERAL HOME, 214 East Middle St., Chelsea, Mich. Phone 475-1551.

Most policies provide the coverages you expect—fire, lightning, storms, riots, vandalism and the like. They cover the cost of repairs due to these losses. But have you thought about the cost of living elsewhere if your home has to be repaired or rebuilt? It could run into hundreds of dollars. Or, it could be covered in black and white in our Homeowners Policy, so we would pay those extra living expenses! Give us a call. We'll put your home insurance all together in one policy for convenience and saving's sake.
