World Day of Prayer Service Slated Friday

World Day of Prayer, an observance with a history that goes back to 1887, will be celebrated tomorrow, Friday, March 1, at the Congregational church under the sponsorship of World Women United.

Theme for World Day of Prayer 1974 is "Make Us Builders of Peace," which is designed locally to be a family search for ways in which all can be "builders of peace."

Activities for the evening will begin with an informal reception at 7 p.m., followed by a worship service at 7:30 p.m. Guest speaker will be Mrs. Ben Heimke from Ann Arbor, who will relate facts dealing with the world struggle for peace.

Children from the Congregational church have prepared a skit following the theme of building peace; a children's choir from the First United Methodist church will sing an anthem; and several adults from the community will participate in a choral reading.

FFA Teams Edged in Regional Meet

Chelsea Future Farmers of America Agriculture skill teams traveled to Jackson Parkside High school last Thursday in hopes of victory in the regional contests, but came up short.

A third place silver rating was won by the agriculture forum team, composed of Dave Frame, chairman, Nelson Bollinger, Jim Edick, Don Sullivan and Eric Prinzing.

Parliamentary procedure team was edged out of first place in competition by only one percent by a Bittion FFA chapter. The second-place gold award-winning Parli-pro team includes Nell Bolinger, chairman; Joe Lantis, vice-chairman; Tom Clemons, secretary; and Mark Staphis, Jerry Hueli, and Doug Welshans.

Next competition for the chapter will be in the April skills contest at Michigan State University.

During the guest speaker's presentation, nursery care will be available for young children, and school-aged children to 3rd grade will have special activities planned.

Observance of World Day of Prayer is under the auspices of an international committee composed of a liaison officer from each participating country. This committee annually chooses the theme for the day of prayer and appoints a group of women from a different part of the world each year to write worship materials relevant to the area of emphasis.

This year's peace theme is the product of efforts by a committee of Japanese women, who, having experienced the costs of World War II, have worked in the years following in the peace movement in their country.

Under the sponsorship of Church Women United in a program called Christian Causeways, a number of women from various parts of this country have traveled to Asia and explored the questions of justice and peace with women in six Asian countries. Together these women will climax their efforts as they worship with Japanese women on World Day of Prayer.

This annual World Day of Prayer has developed from the efforts of a group of women who decided in 1887 that the mission work for which they were responsible need.

JV Cagers Win Over New Boston Tuesday Evening

Chelsea's Junior Bulldogs took care of New Boston Huron Thursday night, 56-44, to raise their record to 10-9 for the season.

Olivet Choir Concert Set At St. Paul's

The Olivet College Choir, directed by Mel Larimer, will make the final stop of its March tour at St. Paul United Church of Christ on Sunday, March 10, aith concert time set for 7 p.m. The choir will be concluding a nine-concert tour, with stops in South Haven, Muskegon, Traverse City, Alpena, Wyandotte and Detroit in addition to Chelsea. A highlight of the five days will be an appearance at the famed Interlochen Arts Academy, near Traverse City.

The performance will be presented by several smaller groups within the larger choir, including the Chamber Choir, Collegium Musicum and Pops Chorale. The program will include sacred, spiritual and pops selections. A free will offering for the benefit of the Olivet choir will be taken.

The Pops Chorale is directed by Dr. Jeff Babcock and the Collegium Musicum will be led by Dan Byrnes, both of the Olivet faculty. Larimer, director of the Concert and Chamber Choirs, is the former director of vocal music at Traverse City High school, and is now serving as president of the Michigan Music Educators Assoc.

Food Stolen From Wedding Reception Site

Some thief with very little party spirit raided the refrigerator of the Chelsea Rod & Gun Club on Lingane Rd. early Saturday, leaving the Alvin Whitakers in a quandary before a wedding party planned for their son, Jerry Whitaker, that evening.

Five hams, two cheese dishes, potato salad, and assorted other food was removed from the refrigerator where it had been placed by the Whitaker family at approximately 11:30 Friday evening. They returned Saturday morning at 8 a.m. to find the door of the club kicked in and half their food gone.

"The funny thing was that they didn't take it all—they only took about half," said Alvin Whitaker. He said that sheriff's deputies had no suspects because, "with all the members out here, there are fingerprints all over the place. They could eat the evidence anyway."

He said 175 "give or take a few" attended the party Saturday evening. "I'm glad they didn't take all the food; we really had to scrape things together as it was," Whitaker noted.

Hockey Teams Lose 2 Games Sunday Night

With the end of the season rolling around for hockey action, Chelsea Medical Clinic dropped its final game to Fraser's Pub Sunday night, 4-2, in the Nordic Ice Arena.

Chelsea's goals were scored by Bill Lamb, with assists by Mark Clifton and Tom Vandervoort, and by Vandervoort, with assists from Mark Clifton, Doug Inglis, and Bill Lamb.

Goalie Peter Beaudoin chalked up 18 saves in the contest.

Also on Sunday evening, 3-D Sales & Service of Chelsea fell to Nordic Arena, 2-0. Goalie Dave Baldwin was good for 22 saves.

Plans are presently in the works for a final game pitting the hockey teams' participants against their fathers.

Stockbridge Wrestlers Hurt In Bus Crash

Two Stockbridge High school wrestlers and the driver of a car that collided with their team bus were injured last Monday at a Munith intersection.

State Police said that the driver of the car, Terry Baldwin, 17, of Munith, failed to yield to the bus at a stop sign at M-106 and Mann St. The car rammed the front fender of the bus, causing the driver to lose control of the bus, which then rolled over into a ditch.

Taken to Foote Hospital in Jackson were Baldwin and two students, Gordon Kunzelman, 16, of Gregory, and John Prescott, 16, also of Gregory. Kunzelman and Baldwin were treated and released, while Prescott was held for observation.

Other students who complained of minor injuries contacted family physicians.

Wrestlers Qualify For Regional Meet

Six Chelsea wrestlers qualified for this week's regional meet at Saline and Chelsea picked up the district championship all in last Saturday's action at Willow Run.

Winning qualifying medals for the Bulldogs were Dale Schoenberg at 115 pounds, who now holds a 15-5 record; Mike Agopian at 119 pounds, who has a 31-3 record; John Beeman at 129 pounds, 18-2 record; Dale Poertner, at 135 pounds, a 22-6-1 record; Darryl West at 148 pounds, a 23-4 record; and Dennis Bauer at 158 pounds, a 19-5-1 record.

Bulldog matmen finished overall with 22 1/2 points, only a one-point edge in front of second-place Dexter, which totalled 21 1/2. Trailing were Pinckney with 20; Grosse Ile, 20; Tecumseh, 20; Southgate Aquinas, 20; Brighton, 17 1/2; Saline, 16; Milan, 14 1/2; Willow Run, 13 1/2; New Boston Huron, 9; Riverview, 9; Monroe C. C., 8 1/2; Plymouth-Canton, 8; South Lyon, 8; Monroe Jefferson, 5; George G. Schafer, 5; Lincoln, 4; and Carleton Airport, 1.

Coach Richard Bareis noted that "in a qualifying tournament of this nature, it is very hard to win by much of a margin because you only wrestle twice and can only earn points for advancement and for pinning an opponent."

"Over-all strength was again the key to Chelsea's win," Coach Bareis continued. "We only failed to score in three weight classes. In addition to gaining 15 victories, Chelsea added six pins, one default victory and a superior win."

Wrestlers Lose Meet To Tecumseh

Coming from a big performance in the league meet two Saturdays ago, Chelsea was unprepared for a tough Tecumseh team, and lost, 25-23, Monday, Feb. 18.

"It was a bad time to have a match," explained Coach Richard Bareis. "As most of the wrestlers were off weight and not mentally ready."

Chelsea took the opportunity to use some of the less-experienced varsity wrestlers in the meet. Rick Haller started Chelsea off right at 101 pounds, gaining a five 4-0 decision win. At 108 pounds, Brian McGibney rolled up a 12-0 superior win. At 112 pounds, Chelsea had to forfeit because of the injury to Nick Keiser.

At 122 pounds, Dave Clouse wrestled well in a losing cause, 9-4. Mike Agopian, wrestling at 129 pounds, scored a 14-4 superior win. At 135 pounds, Bob Sawyer lost a tough match, 2-0.

Dave Keiser, wrestling at 141 pounds, came within a fraction of upsetting one of Tecumseh's outstanding wrestlers, but lost at the very end, 9-7. Darryl West scored a pin victory at 145 pounds.

At this point, Tecumseh's strength took over, as John Tandy lost, 7-0, Don Bollinger lost, 15-1, and Ken Keiser lost, 8-1. At heavyweight, Kermit Sharp came through with a pin victory in his finest performance to date.

"While it is never fun to lose," said Coach Bareis. "It was encouraging to see the fine work of some of the young wrestlers. Any time

Cagers Rally in Second Half To Defeat Dexter

Chelsea's Bulldogs made it seven consecutive wins in league competition with a 77-67 defeat of Dexter last Friday to remain lodged in a second-place tie with Milan in the Southeastern Conference.

The Dreadnaughts trailing 35-30 at the half, the Bulldogs came up with a big 47 points in the second half, led primarily by Rick Miller, who hit for 22 of his game total of 24 points after the intermission.

"In the second half, we really jelled," reported Coach Tom Balistrere. "The boys held their com-

posure and poise long enough and well enough to make a comeback." Pacing the local effort were Miller, with his 24 points and shooting percentage of 55 percent, a fine 11 for 20 attempts from the floor, and Dave Alber with 22 points, and shooting percentage of 69 percent, or nine for 13.

Other scorers included Tim Treado with 10, Ron Kiel with nine, Gary Wonders with eight, and Rick Sweeney and John Houle with two.

Coach Balistrere said that he is very pleased with the progress of his team, and is optimistic about the squad's chances in tournament play.

Coach Balistrere also noted with pride the "unselfishness and fine attitude" of players like Randy Musbach, Jack Hackworth, Paul Wood, Joe Muldoon, John Houle, Jeff Sprague, and Perry Johnson, who spend so much time preparing the starters for their weekly confrontations.

"These guys really hustle," Coach Balistrere said. "They've done a great deal for the whole team, just by their unselfishness and team spirit."

Chelsea meets league-leading (and undefeated) Saline in Hornet territory tomorrow night. Tournament play begins next Tuesday, March 5, for the Bulldogs, when they travel to Jackson Lumen Christi High school to battle Michigan Center.

Cagers Sweep New Boston in Late Surge

Jack Hackworth came off Chelsea's bench Tuesday night and hit for four straight buckets to spark the Bulldogs to a 67-53 victory over New Boston Huron.

Chelsea trailed at the half, 29-28, and the game remained close through the third and into the fourth quarters until Hackworth's eight points led the way to Chelsea's seventh consecutive win.

Leading scorers were Rick Miller with 20, Ron Kiel, 12; Gary Wonders, 10; Hackworth and Dave Alber, eight; Tim Treado, six; Merv Gaster, two; and Rick Sweeney, one.

Coach Tom Balistrere praised Rick Miller in particular for a "fine job," as he shot 50 percent from the floor, eight baskets for 16 shots.

Leading in rebounds were Miller with 13, Kiel with 12, and Alber with 10.

Coach Balistrere attributed the win in general to over-all balance of the team's scoring. "The boys won by keeping their poise and playing well under pressure," he reported.

"We definitely played a better game the second half," Coach Balistrere said. "I think the boys are looking ahead to Saline."

The Bulldogs travel to Saline Friday night for an encounter with the undefeated league-leaders.

JV Cagers Squeak Past Dexter, 36-34

Chelsea's Junior Bulldogs overcame a 36-34 deficit Friday night with two clutch baskets by Howard Salyer and a free throw by Randy Sweeney to defeat Dexter, 39-36.

The victory evened the JV record at 9-9.

Leading scorer for the squad was Salyer with 11, followed by Sweeney with seven, Jim Marshall, Randy Davis, and Randy Guenther, each with six, and Mike Fouty with three.

Sweeney paced rebounders with seven, followed by Davis with six and Guenther with four.

Basketball Tourney Play Starts Tuesday

Chelsea's Bulldogs have drawn a Tuesday, March 5, game with Michigan Center to open their tournament play. The game, scheduled for 6 p.m., will be played at Jackson Lumen Christi.

If Chelsea wins its first encounter, it will meet the winner of Tuesday night's 8:30 game between Lumen Christi and Jackson Northwest on Thursday evening.

Schedule for other area teams shows Parma Western with a bye for the first round. Monday at 7:30 p.m., Columbia Central will battle with Albion, and the winner will tangle with Parma Western on Wednesday.

Finals are scheduled for Saturday, March 9, at 7:30 p.m., between the Wednesday and Thursday winners.

All-Conference Honors Won By Three Bulldogs

Tim Treado and Dave Alber have been named to the second team of the Southeastern Conference all-league team. Coach Tom Balistrere reported Tuesday. Senior co-captain Treado missed playing on the first team by one vote.

Rick Miller received honorable mention in the balloting.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

With folks riding bicycles and learning how to walk all over agin on account of not having gas to run their cars, the fellers at the country store has decided that what this country needs besides more energy is a new look at traffic safety. They come out four square at the session Saturday night in favor of more safety devices on the outside of cars.

It was Bug Hookum that told how we got to git the safety thinking turned around. Right now, said Bug, all the safety equipment is to perfect folks inside the car. What we need is to look out fer them outside the car, cause they're more of this kind than ever. A heap of folks that use to think a pedestrian was somepun that made your car bump at street crossings now is getting bumped, was Bug's words.

The fellers studied the situation up one side and down the other, and they come up with a reserlution in support of padded bumpers and fenders, a pad up on the hood fer pedestrians to land on, and some kind of rig like a cow-catcher on the front to scoop up instead of run over the real slow-footed folks.

Fathermore, declared Clem Webster, the highway planners has got to consider the walking traffic. The way it is now, said Clem, they ain't no place on streets and roads where a car can't be drove, rolled, bounced, skidded, ricoshaded or knocked. What we need is guardrails on all roads like we got on bridges, so all the cars can hit is one another, Clem said.

General speaking, broke in Ed Doolittle, folks in this country is

to willing to give up their rights fer safety, security and services that they figger their Government owes em. Ed said he had saw where a lot of towns now are passing laws agin having more than 50 many gallons of gasoline stored at home. And some states already has got laws agin hauling extra gas around in cars. Ed said he was in favor of leaving them kind of decisions up to a man's common sense.

Clem was disagreed. The thing about common sense, he said, is that to many roiks ain't got any. Clem said the reasoning behind hauling gas is the same as having speed limits and laws about wearing helmets when you ride a motorcycle. Good laws, said Clem, is made to look after the innocent as well as punish the guilty. A motorcycle rider may have a right to bust his own head, declared Clem, but the car driver he runs into has a right not to get sued fer killing him. A feller may have a right to blow his house up with gasoline, but not to blow up his neighbor in the bargain, was Clem's words.

While the fellers was hashing out pedestrian safety, Mister Editor, I was trying to git in this report by the Commerce Department where the world is slowing down. It took a second longer to rotate last year than in 1972. If it runs out of gas, we're sunk.

Yours truly,
Uncle Lew.

What's Cooking In Michigan

By Larresline Trimm

Consumers wondering why fruit products are more costly and in somewhat limited supply this season can blame it on the weather.

Michigan is a national leader in fruit production, but unfavorable weather conditions last spring caused severe damage to some of the state's major fruit crops, according to marketing officials of the Michigan Department of Agriculture.

Crops most affected were apples, peaches, pears and grapes. Only the state's peach and plum crops were larger than in 1972.

Freezing temperatures from April 10-13 damaged fruit buds of cherries and early apple varieties. More frost on April 29 and record low temperatures May 18 seriously hurt grapes and caused additional damage to other crops.

Michigan flavorbest apples averaged about 440 million pounds, 40 percent less than in 1972. The quantity of apples for the fresh market was reduced because of processor demands. Michigan apples have widespread use in frozen pie and fruit products, applesauce, juice and cider.

The red-tart cherry crop was barely half the size of the 1972 crop. However, the short crop pushed price and value of production up sharply. The 1973 crop of 55,000 tons was worth nearly \$21.5 million to growers while the 1972 crop, totaling 79 percent of the nation's red tart cherries, was valued at only \$15.8 million.

In spite of frost damage, growers still had some praise for the weather. Experts say dry, sunny weather during August and September produced some of the finest grapes ever. About 90 percent of Michigan's grape crop is the Concord variety used for jellies, jams, juices and wines.

Although quantity was limited, MDA officials say over-all quality of the 1973 fruit crop was excellent and the fruit products you buy will taste as good as ever but cost a few cents more.

Lots of Shots

What an increase! Ninety-one percent for measles vaccine, 83 percent for rubella vaccine and 58 percent for polio vaccine.

That's the report from the Michigan Department of Public Health after an all-out campaign to acquaint citizens with the benefits of vaccine.

John A. Orris, chief of the Department's immunization program, released the final figures for the October, 1973 antigen (vaccine) doses, comparing them with doses for October, 1972.

The figures show 27,335 doses of measles vaccine dispensed last October, compared with 14,340 doses for October, 1972; 26,383 rubella vaccine doses compared with 15,688 for the previous October; and 59,101 polio vaccine doses, compared with 37,962 doses for October, 1972.

Orris says that in each of the months compared, private doctors used about 40 percent of the total, while health departments dispensed the remainder.

Thanks go to many folks for helping increase the totals.

Among others was a group of medical students from Wayne State University, who helped man vaccination points in the inner city areas of Detroit. The Michigan State Medical Society as well as media representatives throughout the state, also helped wage the continuing war against measles, German measles and polio.

Orris says that a small ongoing committee will continue to review progress and problems in the field of vaccinations.

Department Director, Dr. Maurice Reizen, stressed immunization against these three diseases in a recent speech before local health officers.

Reizen said immunization was among a number of "sensitive issues related to organization, funding, and performance which must be addressed in individual programs right now."

Picking Apples

Mechanical picking of some Michigan crops has been common in the past few years. Not so for apples—but that will all change, predicts the secretary of the Michigan Horticultural Society, Jerome Hull.

He says a lack of pickers is leading to increasing dependence on machines to harvest Michigan's apple crop.

In fact, Hull says that the major portion of the state's apple crop used for pies and applesauce will be harvested by machine within the next five years.

The automatic apple pickers are far from perfect at this point. They move up a tree, shake it and wait for the show of fruit to tumble down. In this process, some of the fruit—up to 10 percent—is bound to be bruised and even lost, some processors say.

But when apples are cut up for pies and sauce, as are some 60 percent of Michigan's crop, the bruises don't make that much difference.

Open the Meetings

Open meeting legislation awaiting action in the legislature will in most cases, assure Michigan citizens of being able to hear who says what and votes how on a myriad of issues now in a sort of grey area.

With few exceptions—discussions of legislative bargaining, lawsuits, employee personnel matters, etc.—public bodies would be required to hold open meetings.

An offshoot of that legislation, assuming another exception isn't written into the bill before it becomes law, would directly affect the legislature itself.

Legislative committees now occasionally "round robin" bills out for action by the entire House or Senate. That means simply that no formal meeting is called. Instead a piece of paper is sent around to committee members, who sign the paper if they want to vote the bill out of committee.

According to a Senate backer of the open meeting bill, Patrick McCollough, that practice would become a thing of the past if the bill became law.

Which Party?

Michigan is a Democratic state. When President Nixon swept the state from Sen. George McGovern.

There's a little bit of ecology in every electric bill you pay.

Detroit Edison

Every time you pay your electric bill, you help pay for the millions of dollars we spend each year at our power plants to help clean up the air and water.

We're all for a clean environment. And we'll all have to help pay the cost. This is one more reason the cost of electricity is going up.

You can't take electricity for granted anymore, but we'll continue to do our best to provide reliable electric service now and in the future.

St. Louis School Notes

At the school's special luncheon for Valentine's Day, the boys and the staff all ate together, and Father Louis, on behalf of the boys presented the ladies and sisters at the school with boxes of candy.

The boys have celebrated one birthday, that of Kevin Darley, whose mother provided cupcakes for the occasion.

Sunday a number of parents turned out for a parents' meeting and open house in the classrooms at the school.

Tuesday the boys enjoyed a pizza party planned by students from the University of Michigan and Girl Scouts from Ann Arbor.

The Chelsea Child Study Club has donated some money to be used at the school.

Letters to the Editor

To the Editor:

In regard to the article concerning the natural, home delivery of the son of a local chiropractor, his article would leave one to believe that M.D.'s and D.O.'s don't let anyone have a natural or un-medicated delivery in or out of the hospital. This is very untrue. All of the doctors we have known encourage the 'natural way' whenever possible. One of the doctors we know told us it was much easier for her to deliver a baby to a mother who knows what is happening and is helping in every way possible.

There are two groups in Ann Arbor that teach childbirth preparation classes. One is co-sponsored by the Family Life Forum and the Continuing Education Department of the Ann Arbor Public Schools. (789-3020) The other is offered by L.A.M.A. 2^e Childbirth Preparation Association of Ann Arbor, (781-4402).

The information a couple learns from these classes (mainly concerning pregnancy and childbirth) is most helpful, even if some form of medication during labor or delivery is decided upon. (There are most certainly times when medications have aided in childbirth and even saved lives.) We had had no such classes when our first son was born. Our second son was born by natural childbirth. We are expecting twins in about 10 weeks and again our choice is birth without medication.

As for home deliveries, we admit it is difficult to find an M.D. who will plan ahead of time to come to your home to deliver a baby. But it is possible. We have found both an obstetrician and a general practitioner (who will be the babies' doctor), who will come to our home. They have explained to us that if they feel there is any medical complication indicated they will want us to go to the hospital for delivery. No one should risk their child's life by not receiving the best pre-natal care and delivery attendance possible.

We don't know about the divorce rate factor in fathers being present at the birth of their children, but from experience we know being together when your baby is born is the most wonderful event of a couple's life.

Marvin and Shirrell Fischer.

IMPORTED FROM CALIFORNIA
Monterey pine, imported to Chelsea from its native California, thrives so successfully that it now accounts for more than 60 percent of Chile's lumber.

1 OUT OF 3
Almost 60 million Americans go to school in classes ranging from nursery school to postgraduate college, a number equal to one out of three counted in the 1970 Census, or totaling the entire population of the United States in 1890.

Chelsea Friends:
It was nice to be invited to the Congregational church 125th Anniversary and we are sorry we were not able to attend. Congratulations on 125 years of ministry in His name. May you redouble your efforts in the next 125 years to serve Him through serving "the least of these, my brethren."

Helen and I are enjoying New Hampshire, she as a media technician at the Junior High, and I as art supervisor (teacher) grades 1 through 4. After 20 years in four pulpits I am delighted with the work with the children and their teachers and principals.

Church work? I miss the chaplaincy at Cassidy Lake Technical School (prison) as much as any of it, but find a real satisfaction in being a layman in the local church. Helen is chairman of the Social Services Commission and I of the Public Relations Commission. I was on the successful EMC committee and did the art work and shared planning for enclosed pamphlet, "Good Things Are Happening." This year is our 150th year and I am on the committee to plan special events all year and a special week-long celebration in July. For the annual meeting of the Junior High group and I prepared a 30-ft. long paper banner. I have preached here several times, served as DRE before the second minister arrived, and have supplied in nearby churches on occasion, and have my ministerial standing in the local Association.

Our children, Judy, Jay, and Kent are all doing interesting things in Ann Arbor where we saw them last year, and they seem to enjoy coming here to enjoy the like in the summer.

Thanks again,
Bob Livingston.

TRUTH IN ADVERTISING?

It seems like there is a lot more truth in advertising than there used to be. Last summer I bought a collapsible swimming pool for the kids and two weeks later it collapsed.

BUYING NUTS?

If you are buying nuts in the shell for munching, avoid nuts with oil-stained and moldy shells. These are signs that the kernels may be rancid or decayed.

Store canned products in a cool dry place—not in a cabinet above the range. Any unused product may be left in the can, covered and refrigerated.

4-H Clubs

THINK & DO—

In January, a new 4-H club was formed, called the "Think & Do Club." Our new officers are, president, Cinda Thornton; vice-president, Amy Eisenbeiser; secretary, Carol Hosler; and treasurer, Linda Hamilton. There are 13 members. We divided into two project areas, woodworking and sewing. Mr. Boyd is our woodworking leader, and Mrs. Thornton, Mrs. Boyd, and Mrs. Hamilton are the sewing leaders. We meet twice a month and are getting ready for Spring Achievement in March.

On Feb. 21, at the Think & Do 4-H meeting, we wrote letters to exchange with pen pals in South America. After that we played a game where you put a bowl on your head. We then tried to get as many cotton balls into the bowl with a spoon as we could.

He's only 30 and he just bought a \$50,000 life policy.

Sure, a \$50,000 life policy could cost a lot of money... but it doesn't when it's "altogether!" When we say "altogether" we mean Perma-Term — permanent and term insurance combined to avoid those big premiums, but still deliver the big protection young family men need. It means you could have a \$50,000 policy which lets you build up a retirement income at the same time! Yes, Perma-Term's easier on the budget, but please remember that costs go up as you grow older. So give us a call now — before another birthday gets past you altogether!

Woman's Club Program Centers On Health Care

Mrs. Marjorie Travis was in charge of the program, which followed a theme of "Current issues in Health Care." Speaker for the evening was Edward Rocella of the University of Michigan School of Public Health.

Rocella provided a discussion of the University's new concept in health care maintenance, called "The Primary Care Community Health Organization."

Under this plan, members would receive their medical care under a pre-payment system. Rocella indicated the many benefits to a program such as this, and stated that more than nine million people in this country are now participating in similar types of health care plans.

Some of the benefits which he cited were, lowering the costs of medical care, improving the quality, and making health care more easily accessible to people.

What's Cooking In Michigan

By Larrestine Trimm Michigan Dept. of Agriculture Marketing Information Specialist

Add vigor and flavor to main dishes with Michigan onions. They're in good supply, so now's the time to buy. Mainly of the yellow globe variety, Michigan onions are grown in late summer, stored after harvest and marketed in fall, winter and spring, according to marketing officials of the Michigan Department of Agriculture.

It's sometimes good to review cooking and shopping tips for staple foods like onions to make sure you're getting the best quality and flavor. Michigan onions are hard or firm, dry with small necks, covered with papery outer scales and reasonably free from blemishes and green sunburn spots.

High heat and too long a cooking period bring out the worst in onions. If scorched, they taste bitter. For milk onions, saute until translucent and tender. For a penetrating flavor, saute until golden; if you want an all-pervasive flavor, brown very slowly as for onion soup.

French onion soup might be just the thing to help your family fight the chill of winter. To prepare, saute until well-browned 1 1/2 cups thinly sliced onions in 3 tablespoons

of butter. Add 6 cups of beef broth, 1/4 teaspoon freshly ground black pepper. Cover and cook over low heat or in a 275 degree oven for 30 minutes.

Then put the soup in a casserole and cover with 6 slices of toasted French bread. Sprinkle over the toast 1 cup of Parmesan cheese. Heat in the oven for about 10 minutes or until the cheese is melted. Add a dash of cognac or dry sherry and serve. Recipe makes six cups.

VA BROADENS FIELD IN EDUCATIONAL ASSISTANCE

An undetermined number of veterans, wives, widows and children eligible for VA educational assistance now have greater latitude in working toward standard college degrees. New regulations allow trainees to pursue, along with regular college curricula, independent courses or other external study programs away from parent campuses. Under the program the trainee proceeds at his own pace returning to the parent school campus only periodically for required workshops or seminars. Courses must lead to, or be creditable toward, standard college degrees. Students will be paid actual cost of courses, not to exceed \$110 monthly.

WITH ONLY SECONDS REMAINING, Rick Miller and Drednaught Jim Johnson scrap it out for a jump ball as Chelsea leads 77-65 in last Friday's Chelsea-Dexter game, an encounter big on traditional rivalry. The Bulldogs, down 35-30 at the half, came back after intermission with 24 points in the third quarter and 23 points in the final one, to record their sixth straight victory.

SEC ROUND-UP:

Chelsea, Milan Continue Battle For Second Place in League

With the title all wrapped up in the hands of the Saline Hornets, only the race for second place between Chelsea and Milan keeps things alive in the Southeastern Conference. Both team rolled over their opponents Friday night.

Chelsea 77, Dexter 67—

Chelsea, running and pressing in the second half, took a half-time lead away from traditional rival Dexter and pulled out its 10th victory to retain a share of second place.

The Bulldogs, down 35-30 at the half, came back in the second half primarily on the scoring of Rick Miller, who hit for 22 of his game high of 24 in the second half.

High scorer for Dexter was Gary Winchester with 18.

Milan 89, Novi 44—

This time it was Milan's turn to take advantage of still-winless novi, and they nearly finished the game as soon as it began, zooming to a 30-6 first quarter lead. Leading scorers for the Big Reds were Greg Armstrong with 17 and Jim Dutton with 14.

Saline 71, Lincoln 68—

Lincoln led at the half, but Saline took over in the third period,

outscored the Railsplitters, 23-13, to gain their 13th consecutive victory.

Free throws aided the Saline cause immensely, as they were outscored in total field goals by nine, but hit for 27 of 36 in foul shooting.

Leading Saline scorers were Tim Slepisky and Dan Scotton, both with 22.

South Lyon 59, Brighton 55—

Brighton led at half-time but South Lyon's defense took over in the second half to turn the tables on the Bulldogs, 59-55.

The Lions, once again over the 500 mark at 7-6 in the SEC, were led in scoring by Tony Kern with 19 points.

Dave Lew Allen hit for 20 for the once-respectable Bulldogs.

TODAY'S THOUGHT
 By LOUIS BUNCH, 137

Life can be a merry road, or it can be a merry-go-round. The merry road heads toward a purpose, a defined direction. Those who ride through life in merry-go-round fashion head in no direction at all. The round and round merry-go-round is terribly boring, especially if it lasts any length of time. Usually, it seems some who take the merry-go-round do so because they think the ride won't last long.
 The merry road requires putting into words of the sage who wrote, "I expect to pass through this world but once. Any good therefore that I can do, or any evil that I can show to any fellow creature, let me do it now or never. I shall not pass this way again."
 The merry road may be a short one. It doesn't matter. It is a road that measures deeds, not time. It measures breadth of performance, not breath of profanity. It measures feelings, not figures. The merry road or the merry-go-round. The choice is ours. Which shall it be? . . . BUENOS AIRES FUNERAL HOME, 214 East Middle St., Chelsea 475-1551.

New Supplemental Security Income Program Offered

There's a new look to some of the federal government checks circulating around the county since the first of the year.

Robert A. Kehoe, district manager in Ann Arbor, announced that the new SSI checks, although resembling other federal government checks such as income tax refunds and Social Security checks in shape and format, are a bright gold in color.

Some 1,770 former state assistance recipients were automatically converted to the new Federal Supplemental Security Income program, which replaced the state program, and the Social Security office is now accepting applications from new individuals over 65, or disabled or blind, who were not receiving state assistance.

Actually, a portion of the total check is an amount added to the basic federal payment from state funds. However, eligibility for the state portion is exactly the same as for the federal portion.

Applications and information about Supplemental Security Income may be obtained at the Social Security office at 2929 Plymouth Rd., Ann Arbor, telephone 769-7100.

Assessment Tests Procedure Changes Help Teachers, Pupils

Test, a lot of people would unhesitatingly testify, are good for students.

The idea behind such a seemingly absurd (to those so subjected) assessment is, of course, that a good test will act as something of a checklist of what the student has learned and what drifted away.

And a checklist is exactly what Chelsea School District teachers of 4th and 7th graders have in their hands right now—a checklist provided by the results of the Michigan Assessment Test.

For four years prior to this one, however, the Michigan Assessment Tests, administered to 4th and 7th graders in Michigan school districts, were virtually valueless as checklists to both students and teachers.

The primary reason for the tests' uselessness was that scores of the various school districts were reported in percentiles, showing districts only how they stood against each other, and ranking students from highest to lowest. Results therefore reported only that a particular district was weak or strong in a given area, but not exactly what that area was, to enable teachers to correct it.

In addition, in previous years, the tests were administered in January, and the results were unavailable until the end of the school year was at hand. Such timing obviously did little to promote corrective curriculum changes in the classroom.

This year's tests were administered in late September and the results available in November. The change in the manner of reporting results is the most significant change in the procedure, however.

Instead of percentiles, which add up to little more than standings for the state's school districts, and

students, Chelsea's teachers now possess not only group reports of how well each grade performed in each area, but also individual reports of students' answers to each question.

"The advantages of this new test are numerous," says Mrs. Susan Harding, Beach Middle school counselor. "For example, a student may have missed questions relating to temperature problems. Knowing that the student is weak in this area, the teacher can work with this student to make sure he gains this information."

"Also, if many students in the school system have missed similar questions," she adds, "perhaps some school-wide curriculum changes can be made."

Mrs. Harding reports that when the test results were received in November. Meetings were held with department chairmen, regarding students' performances in their particular areas to determine possible curriculum change in response to these needs indicated.

Encouragingly for the Chelsea School District, students scored 100 percent in a number of the objectives included in the tests. "There were, however, some objectives that we would have liked tested that weren't included in the tests, but 100 percent attaining the state's objectives is quite impressive," Mrs. Harding says.

"We're really pleased with this information we've received," she adds, noting that the state's accountability model eventually calls for similar tests to be administered early in the school years and late in high school in addition to the two present grades.

In addition to indicating the results of tests in the academic areas, each school district was assigned a percentile for such non-

academic factors as the school's drop-out rate, amount of local support, teacher-pupil ratio, and others.

Chelsea public schools ranked at the 74th percentile when counting the number of professional instructional staff per 1,000. The average school in the state has 47.8.

The district ranked in the 77th percentile for the number of teachers per 1,000 pupils with 45 teachers per 1,000 pupils.

Chelsea teachers rank about average as to salaries. Their educational level is very high, as 37.3 percent have MA degrees. Chelsea teachers also have an average of 7.1 years of teaching experience.

The Chelsea school district with the current operating expense per pupil of \$786, according to the data, ranked Chelsea at the 60th percentile for expenditures per pupil. Chelsea also had a total operating millage of 21.20 as compared to 22.23 state-wide.

As to Chelsea students, about 1 percent are composed of racial/ethnic minorities as compared to the state average of 1.5 percent.

Chelsea's school drop-out rate is extremely low. Only 2.7 percent do not complete high school, placing Chelsea at the 19th percentile.

CONSUMERS CORNER

WALLCOVERING BACK "IN"
Washable wallcoverings are attractive as well as practical. And with sofas and comfortable chairs taking a back seat in decorator's eyes, accessories and interesting rugs and wallcoverings are gaining favor.

In fact, people who previously had only the bathroom and kitchen walls papered are choosing prints and stripes for the dining room bedrooms and living room, bedrooms and living room. Newest on the wallpaper scene are handsome phonies that simulate marble, stone, leather, wood and fabric, but are far easier to care for than their real counterparts. Many of these wallpapers come with pre-pasted backing—a boon for do-it-yourselfers. Other types are stripable for those who redecorate often.

Polyvinyl chloride is the most scrubbable of the vinyls, while plastic coating over ordinary wallpaper is the most fragile. Since all vinyls can be wiped with soap or detergent and water, a homeowner should consider where the covering will be used to determine the degree of durability needed.

If the particular pattern you like is not washable, look into wallpaper protective coatings. These are applied with a roller after the wallpaper is installed and make the wallpaper completely washable. Check the effect on a small sample of paper first, because these coatings will occasionally darken a paper slightly.

AGRICULTURE IN ACTION

A Valentine for Future Farmers

February is a red, white and blue month, filled with cherry trees and hatchets, log cabins, hearts and flowers. It's a time when Americans pause to reflect on their heritage and use manufactured verses to express their emotions.

Sharing February honors with leaders past and loves present are youth who hold the promise of the future. They are the young men and women of some 8,000 Future Farmers of America chapters throughout the nation—our "insurance" that tomorrow's agriculture will be able to meet the needs of tomorrow's consumers.

Feb. 18-23 is National FFA Week, with the theme: "FFA—For Tomorrow's Agriculture"—a simple slogan, considering what it means to all citizens.

The farm community may have shrunk over the years, but its economic stability, ultimately, portance has not. The nation's hinges upon the success of our agricultural industry. As the world leans evermore heavily upon American farmers to supply the food and fiber vital to human life and well-being, the importance of FFA becomes more evident.

"Involvement" is the key word in FFA activities, not just during the week, but throughout the year—involvement in preparing for future careers in agriculture, involvement in leadership training, and involvement in working together co-operatively. FFA means much more than just developing individual skills in agriculture; it provides opportunities for leadership development, learning individual enterprise and good citizenship.

These future farmers, when they pursue their careers, will make up a very small percentage of the total U. S. work force, but they will be among the most highly productive people in the world. Today one American farmer produces enough food for 52 people, while in Russia the ratio is 1 to 7. Because this fantastic productivity has freed the major portion of our population for other fields of endeavor, "the good life" which has eluded so many other countries of the world, is taken for granted here.

Producing agricultural leaders, capable of maintaining the excellence of U.S. agriculture, and developing community leaders who are contributing and responsible citizens—these FFA goals are vitally important to our future.

FFA chapters are an asset to every community, and their Week offers an opportunity for citizens to tell them so.

"I REMEMBER" BY THE OLD TIMER

From Herman Scherf, St. Elmo, Ill.: I remember, way back, I started plowing with a 14" walking plow. Later my father got a 2-1/4" bottom plow with which we used four horses. Boy, we were getting up in the world.

My folks sold eggs for 12 and 15 cents a dozen. Father sold hogs for \$3.00 per hundred. Compare with prices today!

In the winter, we were not so busy, so I got a job in a printing shop at 50 cents per day. In six months I was due a raise to 60 cents, but I went back on the farm.

Everything was done by hand. This column would not hold all the things I could tell about those good old days. But, from my time with a walking plow to now—with a 4-bottom all rubber tractor, with closed cab, I could plow with a white shirt on and not get it dirty.

I remember I slept in an old log house. Mother washed on a washboard, carried water five or six hundred feet. She made her own washing soap.

From Ruth Ann Clark, Metamora, Ill.: I remember when I was quite young, the cold house in winter, warmed by the crackling wood fire of sassafras and oak wood. Winter treats were hot cocoa simmered on the stove, snow cream made from clean snow. We sat around the fire, listening to my dad tell stories of different things. Sister and I baked sweet potatoes in the wood stove. How nice they browned, how puffy inside.

Bids Sought on Resurfacing Portions of M-52

Bids will be taken Feb. 20 in Lansing on more than \$500,000 worth of highway improvement projects in the Chelsea and Man-chester areas, Sen. William S. Bal-nounced.

To be bid upon is the resur-facing of six miles of M-52, from lenger (R-Lansing), has an- center of the village of Chelsea north to Roepke Rd. Estimated cost of the project is \$240,000 and completion is scheduled for June, Ballenger said.

Also scheduled for resurfacing is nearly six and one-half miles of M-52 from north of US-12 to near Dunton St., in Manchester. This project is also scheduled for completion in June, and would cost \$280,000.

LAUNDRY PLANNING

A laundry area should be plan- ned to include space for collect- ing and sorting clothes, washing them by hand and machine, wash- ing and drying. Space for ironing, folding and hanging clothes is useful, too.

JAPAN'S BEEF
Beef consumption in Japan is only five pounds per person annually, contrasted with 114 pounds eaten by the average American. Japan produces excellent beef from deer-fed, hand-massaged cattle, but it is prohibitively expensive.

SOUTH ELEMENTARY SCHOOL NOTES

MUSIC
The fourth graders are going to Ann Arbor to play a gamelan, an orchestra from the island of Java, made up of gongs and brass xylophones. They have learned a Java-style piece of music and will be able to play the instruments.

KINDERGARTEN
Room 1
Teacher—Mrs. Bower
A new month is here and we are very busy working and thinking of new, fresh, interesting ideas. Tooth brushing and dental care are very necessary for us to do each day. Our teeth play a big part in daily growth and learning. We are all going to remember to brush at least three times a day.

Mrs. McGoon, our school nurse, talked to us about how important it is to keep well and fight germs, especially during the cold winter months. If we eat the right food, sleep enough, play in the fresh air and keep clean, we should all be well and happy.

Our telephone number and house number is very important for us to learn and understand. Very soon we are going to be working very hard with many of the necessary numbers we use in life.

Our room mothers are bringing in a Valentine party on Feb. 14. It will be much fun to try to read some of the words on our Valentines.

We had fun cutting a fresh pineapple. Everyone in class enjoyed a sample.

Don't forget to feed the birds. This cold weather is very hard on our bird friends.

Room 1
Teacher—Mrs. Van Bjaricum
January went by very quickly, which will help us be healthy. We talked about our five senses—seeing, hearing, touching, tasting, and smelling. We even made up a song about them.

Our stew, crackers and pudding turned out to be good! Most of us tasted everything and among us we ate everything.

February means Valentine parties. Each child will bring one card for each of his classmates on the 14th. We will pass them out during our party. The room mothers are planning our treats.

We will celebrate the birthdays of Lincoln and Washington and talk about presidents. Our birth-

day people in February are: Christina DeFanti, Danny Degener, Lori Ayers and Erik Owens.

FIRST GRADE

Room 19
Teacher—Mrs. Schaller
February is going to be a very busy month for us. We had fun potato printing a winter scene and are going to print our own valentine cards for our family. We started work on a valentine poem. If it is not out very best handwriting, we will have to do it over.

Did you know this is the birthday month of two very famous men? We are going to learn about Abraham Lincoln and how he lived. We are even going to make his log cabin from milk cartons and pretend logs—wait until you see what we are using for logs! We are also going to make butter the way George Washington did.

In science we are learning about animal hibernation, and in health we are beginning to realize how important different parts of our body are. Most of us can count to 100 by tens and can recognize any numeral through 50. Michael brought in a wasp nest he found in his attic. It felt funny and smelled funny too. When Philip sniffed he had to cough and cough.

Happy Valentine's day birthday, Debbie.

Room 4

Teacher—Miss DeVries
We are getting excited about Valentine's day. We made love bug valentines, and decorated boxes for the special day.

February is a super month for school fun with Lincoln's and Washington's birthdays and Valentine's day.

SECOND GRADE

Room 8
Teacher—Mrs. Hamilton

The boys and girls are busy getting ready for Valentine's day. They have been making hearts for the valentine tree, and they are covering cereal boxes to carry their valentines home.

In math they are learning how to measure and tell time. Everyone was measured and a chart was made. The chart compares what they measured last year to this year's measurement.

For Dental Health Week all the boys and girls made tooth brushes. Stars are given every morning for those who have remembered to brush their teeth and use dental floss. These stars are put on the tooth brushes. Also, the boys and girls have learned what happens to a tooth when we have too much food with acid in it. An egg was placed in vinegar, to show that acid can dissolve calcium.

Another experiment was to show what happens to a tooth when decay starts. A hole was poked into the apple and later the apple was cut in half.

Birthdays this month: Maria Staphish and Bernice Marshall.

THIRD GRADE

Room 11
Teacher: Mrs. Richardson

Reporters: Jane Musbach, Doug Pagliarini, Margaret Merkel
We're working on the solar system. Jon, Frank, Matt, Shane, and Craig are doing a report and bulletin board about landings on the moon. Jeanette, Jana, and Mike are making pictures of constellations. De Ann, Kathy, Doug and Amy are making a Space Dictionary for the whole class. Robby, David Harbaugh and David Weber are working on the phases of the moon. Annette, Susan and Sally are going to show us how the moon travels around the sun.

CONSUMERS' CORNER

GOOD WIRING IMPORTANT

Good wiring prevents electrical starvation of appliances. Serviced appliances have definite symptoms. The motor driven appliances may heat up excessively or turn sluggishly while the heating appliance may heat slowly.

Providing enough circuits, properly fused, will help solve the problem. Remember that a 110 volt circuit wired with No. 12 wire will safely carry about 2,000 watts. This circuit should be protected by a fuse or circuit breaker not larger than 20 amperes.

Separate circuits for fixed equipment such as washer, dryer, range, water heater, freezer, room air conditioners will lessen the chance of overloaded circuits.

A residential wiring system that has been installed more than 10 years without additions is likely to need updating. It is also possible that a new wiring system has become overloaded if major additions in electrical equipment have been made.

Don't add additional circuits without checking with a qualified electrician to be sure you have a sufficient service entrance, which includes the main entrance switch and lead in wires.

David Wojcicki, Tim, Mark and Shawn did a bulletin board showing the solar system. Vicki, Jane, Margaret and Mary made a bar graph showing everyone's Martian weight. We visited the planetarium in Ann Arbor.

Matt, Jana, Susan and David H. gave a report on Texas to the whole class. Come in and see their bulletin board on Texas. It's great!

We have a new girl whose name is Cheryl Fisher. We celebrated Lincoln's and Washington's birthdays.

FOURTH GRADE

Room 24

Our class has a giant USA crossword puzzle which anyone can do at spare time. The puzzle has 138 questions. When we're finished we are going to outline it in black ink.

We have a new club called, Night-Time Readers. Each night we read silently or aloud, then have a parent sign the reading slips telling how much time we read. Gold stars are placed on the reading chart. Certificates of achievement will be awarded to those who remain in the club.

We have six machines called Flashers. You put a round card in the machine, push the lever and try to say the word when it flashes in front of you. There are twenty words on each card, so this gives us practice in speed ur geography classes are studying.

Room 22

Teacher: Mr. Ticknor

Our geography classes are studying the country of India. We are going about studying this country in a different way than at any time this year. The students are learning about taking notes. Mr. Ticknor is reading the information to them and emphasizing and re-emphasizing the main points about India. It helps the children develop their listening skills; and it is a new way of learning for them. The students are doing very well with this, and Mr. Ticknor is very pleased.

March Is Filled With Events Heraldng Approach of Spring

March is the month of Spring's arrival according to the Gregorian calendar, but according to the Michigan Calendar of Events, March winter has a few more frosty frolics to fling before she takes her leave.

Topping the list is the International Ski Jumping Championships at Pine Mountain, the world's highest artificial ski jump, near Iron Mountain, March 2-3. Approximately 75 champion jumpers from the U.S., Canada and Europe are expected for the annual competition. From the top of the 156-foot scaffold to the end of the out-run, the jumpers travel 932 feet (about three city blocks), leaving the out-run at approximately 70 miles per hour.

Other snow coated activities include: a Snowmobile Safari from Sand Lake, the Brockway Mountain Cross Country Ski Race at Copper Harbor and the State Indoor Skating Championships in Yack Arena, Wyandotte, all on March 2. The Copper Country Relay Ski Races are set for March 3 at Mandan near Copper Harbor and on March 16, a Cross Country Ski Touring Race at Twin Peaks Resort, Frederic.

Outdoorama, March 2-10, looks on the "sunnier" side of the month and ahead to warm weather fun. This year's show will be held at the Artillery Armory in Southfield and features more than 30 separate fishing displays alone. Miss Donna Monty, international fly and bait casting champion, is this year's very special guest. The list of exhibits, exhibitions and displays seems to go on and on and on, and includes an archery range, champion Arabian horses, a variety of hunting exhibits, roller skating and directions to some inviting vacation destinations in Michigan.

When spring cometh, so cometh the urge to remodel or redecorate the old homestead, or even build a new one. If you're feeling the urge and looking for ideas, chances are you'll find some good ones at the Builder's Home Show, IMA Auditorium, Flint, March 5-10; Home Builder's and Furnishings Show, Park Place Motor Inn, Traverse City, March 7-10; and the Home Show, Civic Center, Holland, March 12-16. Also in keeping with the "budding" season is the Flower Show, March 7-9, at the County Center Building, Kalamazoo.

As the snow starts to melt, the sap starts to rise in Michigan's sugar maples and the tempting aroma of maple sugaring fills the air. Maple Sugaring Week-end at the Nature Center, Kalamazoo, March 2-3.

DOGS FOR ALLIES?

The Yanomamo tribes of Venezuela never openly admit a need for allies, because this implies a weakness. To foster an alliance, they deal in trade items—dogs, pots, baskets—and rely on them to create bonds between giver and recipient.

FROZEN VEGETABLES
Shopping for frozen vegetables? Only buy packages that are frozen solid. Thawing and refreezing will lower the quality of frozen vegetables.
