School Bands Preparing for May Concerts

Next week appears to be quite a week for music in Chelsea if local school bands are any indication.

Tuesday night, Chelsea High school bands will present a spring concert in two segments—one of concert band performances and one with symphony band numbers—in what band director Warren Mayer promises will be "an evening of light music for everyone's enjoyment."

Among the selections to be played by the concert band are selections from the best of "Bread" and Carole King's "Tapestry" album; a rendition of "People" from the musical "Funny Girl," and "Jungle Drums," a big finale.

Symphony band will present its interpretations of Wagner's "Elsa's Procession to the Cathedral," "The Golden Ear, Paso Doble," and selections from the musical, "My Fair Lady." Also included will be a special trio of Duane Luick, Phyllis Jedele, and Dale Heydlauff performing "Bugler's Holiday," with band accompaniment.

Featured at Thursday evening's Beach Middle school bands concert will be the Beach stage band, in its first appearance anywhere. The stage band, according to Ronald Harris, is a band composed of selected musicians from 6th, 7th, and 8th grades. In its premier performance, the stage band will present a series

of contemporary songs, including "Joy to the World," "I'd Like to Teach the World to Sing," Paul Simon's "Bridge Over Troubled Waters," "Sunrise, Sunset," and "Proud Mary."

The Beach concert will also boast a little out-of-the-ordinary presentation by the 7th grade band, "Little 'Bop' Riding Hood," featuring characters with intriguing names like "Little Bop" (Kathy Villemure), "Hot Lips Harry," (Mark Snyder), and "Horace High Note" (John Whitaker), not to mention a grandmother (Michelle Kamyszek) and a narrator (Bill Kilpatrick). Band director Mayer calls the presentation, a work by Guy Foreman, "A spoof, a take-off, of the '50's."

More typically concert material will also include Ted Mesang's "Little Champ," James Ploynam's "Legend of Jesse James" and "Norland Overture," and Erich Osterling's "Cake Walk for Band."

Eighth grade band members will begin with a John Philip Sousa rouser, "The Thunder March," progress to George F. Handel's "Air and Finale" from "Water Music," "Blue Tango," by Leroy Anderson, "Deep River Suite," by Frank Erickson, including "Swing Low, Sweet Chariot," "Deep River," and "Joshua Fit de Battle Oh Jericho," to "Tijuana Taxi," by Bud Coleman, and "cruise" to a big ending, "This is My Country."

TWO NEW TENNIS COURTS were dedicated last Friday at North Elementary school by these assorted interested parties from the area: from left, Mrs. James Sprague, a member of the Chelsea Child Study Club, which contributed \$600 to construction of the courts and also a community member of the new tennis commission; Robert Schafer, secretary of the Chelsea Board of Education, which

donated the land and some \$2,500; Village Council President Hal Pennington, cutting the necessary ribbon to open the courts; Mrs. Jon Schaffner, Chelsea Recreation Council member and current chairman of Recreation Council's Tennis Commission; and Tony Bowen, president of Chelsea Recreation Council.

School Board Seeks Increase Of Only 1 Mill

Next Wednesday, Chelsea School District voters will consider a two-year operational millage request for 13.5 mills, an amount termed "absolutely necessary to continue the present program with no frills or additions" by Board of Education president Howard Haselschwardt.

Of that figure, 10.98 mills will be renewal of the levy authorized for the past five years. The requested millage will be reduced by 1.52-mill reduction in the debt retirement authorization of six mills, making the total increase in millage for the taxpayer one mill.

The millage situation as of 1973 and projected for 1974 stands like this:

	1973 Millage	Requested Millage
County-allocated	11.22 mills	11.22 mills
Voted millage	10.98	13.50 (proposed)
Total operational millage	22.20	24.72
Bond issues, 1956 & 1965 (3 mills)	6.0	4.48
Bond issue, Dec. 1973 (3 mills)	6.0	4.48
Total millage	28.20	29.20

The addition of one mill to the current levy by the School District means a total of one dollar more in taxes per thousand dollars of state equalized valuation of property. Thus, property currently having market value of \$25,000 (the average for the Chelsea School District) and assessed for tax purposes at \$12,500, would be levied an additional \$12.50 per year in taxes with passage of this operational millage request.

Less than two months ago, another operational millage request, for 14.78 mills, with a one-half mill reduction in the debt retirement levy attached, was rejected by Chelsea School District voters by more than a two-to-one margin.

The current request of 13.5 mills represents a reduction of 1.28 mills and a further reduction in the debt retirement levy by 1.02 mills, to a total of 2.3 mills less than the first operational request.

Primarily the Board of Education's problem in setting an operational millage figure that is both adequate for the program and acceptable to voters has been with adjustment to the current State Aid Act. Under this act, the income of all school districts in the state has been equalized so that regardless of how much total assessments are raised within a given district, income per student does not increase.

The recent rise in local township assessments, then, in previous years would have provided more funds for the school district for the same millage levied, but this year the amount available to the school district from a given millage figure will remain stable.

Board of Education president Howard Haselschwardt has stated that the board believed its original request was "a reasonable amount of money to cover the expenses of continuing the program and making some very desirable additions to the curriculum. However, the voters saw fit to say no and this was a disappointment to us."

The current operational request for 13.5 mills is "absolutely necessary," Haselschwardt says.

Breakdown of the 1973-74 operational budget shows the largest percentage, 72 percent, or \$1,878,637 is allotted for instructional purposes. Other expenditures go toward operation of the plant (8.6 percent); pupil transportation (8.1 percent); insurances (3.9 percent); administration (3.7 percent); maintenance (2.5 percent); and equipment (1.0 percent).

Polls in the large group instruction room at Beach Middle school will be open from 7 a.m. to 8 p.m. on Wednesday, May 15. Any registered elector is eligible to vote.

Pair Nabbed as B&E Suspects At Schumm's

Some "slick police work" may have captured a pair of burglars who entered Schumm's restaurant early Tuesday morning, Chelsea Police believe.

Suspects in the case are Arthur D. Wells, 28, of Parma, who also used the alias Kipp L. Wells, and a 16-year-old juvenile, of Jackson. Both have been released, Wells pending a warrant for his arrest, on charges of breaking and entering and contributing to the delinquency of a minor, and the minor, now in custody of his parents with knowledge that he may appear in Juvenile Court.

Officers Peebles and Dettling re- (Continued on page eight)

Robert Schuelke Arraigned in Fatal Accident

Robert J. Schuelke, 18, of 17718 Old US-12, stood mute to two counts of manslaughter this week at arraignment in Circuit Court in the collision deaths of an Ann Arbor couple.

Judge Edward D. Deake entered pleas of not guilty on Schuelke's behalf, and a pretrial hearing was scheduled for May 23. Schuelke is currently free on \$2,500 bond.

Killed in the accident were Joseph W. Simler, Jr., 56, of Ann Arbor, and his wife, Virginia, 52. The collision in which the couple died occurred on the evening of March 23, when Schuelke, according to Sheriff's deputies' reports of the incident, rammed into the (Continued on page three)

Trackmen Win Over Brighton For 4-0 Record

Face South Lyon This Afternoon In Conference Lead Tie-Breaker

Chelsea's varsity track squad made it six consecutive dual meet victories last Thursday, trouncing Brighton by a lopsided score of 96-27. The win puts the Bulldogs record at 4-0 in the Southeastern Conference, where they are lodged in a two-way tie for first place with South Lyon.

The Bulldogs meet the Lions for a crucial tie-breaker this afternoon at South Lyon.

In the defeat of Brighton, Chelsea won 14 out of 15 events, as well as placing one-two in seven events, which leaves no doubt about who dominated.

Coach Bert Kruse typically charitable to the opposition, noted of the overwhelming Bulldog victory: "The score was somewhat deceptive, as Brighton was close in many of the events, but on the other hand, that doesn't score points."

Once again the squad was led by winning performances by Craig Coltre and Karl Gauss: Coltre took long jump, low and high hurdles, and participated in the 440 relay team, to lead all point-getters; Gauss took the 100- and 220-yard dashes and ran on the 440 relay team.

A new field record in 440 relay of :46.4 was set by Coltre, Gauss, Don Pierson, and Dale Poertner.

Winners and placers in the Brighton meet were:

Shot put: 1st, Ishmael Picklesimer, 44 ft., 1 in.; 2nd, Howard Salyer, 17 ft., 4 3/4 in.

High jump: 1st, Rick Sweeney, 6 ft., 2nd, Randy Sweeney, 5 ft., 8 in.

Pole vault: 1st, Don Pierson, 12 ft., 2nd, Randy Sweeney, 10 ft., 6 in.

880-relay: 1st, Chelsea (Howard Salyer, Dale Poertner, Kevin Kelly, Dennis Bauer), 1:38.3.

880-yard run: 1st, Tim Prout (Brighton), 2:09.1; 2nd, Jeff Marshall, 2:09.5

CHS Art Show Slated Tuesday

Some 178 Chelsea High school art students have reportedly been creating their teen-aged hearts out in preparation for the high school's annual spring art show and sale, scheduled for next Tuesday, May 13.

"Students have been doing fantastic work this year," claims senior high art instructor Laurise LaZebnik, "and I fully expect this will be the best show ever."

Mrs. LaZebnik mentions as an example that 40 students were provided with wooden boxes to use somehow as a sculptured design problem.

"Their ideas and resulting end products are amazing," Mrs. LaZebnik exclaims, "Each is totally different."

Other students worked in clay, acrylic paintings, pastels, pencil drawings, and pen and ink drawings. Each student frames or somehow presents his own work.

Mrs. LaZebnik also notes proudly, "Most of the girls in my classes know how to hammer, saw, drill, and use the common house-

hold tools normally used only by boys. My male students can sew a pretty mean stitch and have had experience ironing."

The show is scheduled for 7 to 9 p.m. in the high school library.

Building Trades Vocational Class Completes Modern Ranch Home

A lot of people who aren't interested in actually buying a new house will be out looking at one this Sunday.

On a street of substantial-looking homes, the new one near the end of Flanders St. isn't a mansion, or a shack, or anything else abnormal that would generally attract crowds of laymen inspectors.

It is, instead, a relatively typical three-bedroom ranch home, ideal for the typical American family of 2.4 typical children, but with one major dif-

ference—it was built entirely by Chelsea High school students.

"The building trades house" will be open for public inspection this Sunday, May 12, from 2 to 5 p.m. to enable parents and the community to see exactly what kind of foolery their young men have been up to out at this house during a large part of every school day.

As part of an activist set of vocational education programs at Chelsea High school, building trades is designed in particular to provide career stimulation for

students whom educators have been wont to call "sit-ins"—students who attend college-oriented high schools until graduation, learning little that is useful to their lives, simply because a high school diploma is "expected" of them.

They leave high school with few actual skills that will aid them in the job market, and must seek either relatively unskilled jobs or further their educations through various training schools.

(Continued on page three)

ON THE MARKET as of Sunday, May 12, is this home, the product of work by Chelsea High school's building trades class. Open house will be held at the house at 761 Flanders St. Sunday

from 2 to 5 p.m. Students have been involved in all phases of construction of the building from excavation for the basement to landscaping of the site.

Brenda Shadoan Scores 6th in State Forensics Finals

Chelsea High school sophomore Brenda Shadoan earned a sixth place in women's extemporaneous speaking last week in State Forensics finals at the Frieze Building on the University of Michigan campus in Ann Arbor.

Brenda, who is competing in her first year of forensics, was also a member of Coach William Coelius' Chelsea debate squad. She earned the honor in competition with 24 other high school students, after qualifying for state finals by taking first in the same category in regional competition two weeks ago.

Chelsea's other contestant in the state finals, junior Brad Glazier, was eliminated in the preliminary round of competition. He had earned a third place in men's oratory in the regional meet.

Home Meal Service Needs More Drivers

Home Meal Service of Chelsea needs help to continue to serve the community.

"We desperately need drivers," reports Mary Ann Merkel of the Service. "We're preparing from 13 to 18 meals daily, which means three routes, seven days a week, and we just don't have the drivers to take these meals out."

Drivers are the cogs in the wheel of volunteer work that deal directly with the elderly and shut-in who receive the Service's meals. "Drivers only transport the food to the homes, and they can volunteer for as little as one hour per week," Mrs. Merkel explains.

She urges senior citizens as well as younger people to volunteer for the program. "And if people feel like they would like (Continued on page eight)

New Zoning Ordinance Published This Week

Chelsea's new village zoning ordinance which was approved by the Village Council at its meeting Tuesday night, appears in this issue of The Standard.

Honors Banquet Slated Wednesday At High School

A banquet for senior Chelsea High school honor students and their parents is planned for Wednesday, May 15, at 6:30 p.m. at the high school.

Ralph E. Gilden, dean of admissions and financial aid at Eastern Michigan University, will be guest speaker. Entertainment and presentation of awards are also on the program.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

I see by the papers where the U. S. Forest Service is thinking of suing the folks that boy they say started a woods fire in New Mexico last month. The Forest Service figners it was the parents fault that the youngun was playing with matches and set the fire that burned over \$38 million worth of timber, homes and other buildings.

In another item I see where no-fault car insurance ain't catching on with the states for some reason. It ain't no wonder, Mister Editor. Th way folks figner things nowadays, everthing has got to be somebody's fault, and if it ain't it ought to be.

Actual, I don't dnw nothing about insurance and I git that mixed up, but I know folks will slap a lawsuit on you quicker than they'll say good morning. Some people set up nights working on ways to sue somebody. If we got insurance that pays whutiver you or the other feller is at fault in a car wreck, this idee might spread to forest fires and even politics.

The way these things work is, the Forest Service will sue to recover the \$38 million in damages caused by the fire. The parents of the boy will see that some kind of case can be made agin them, would take them at least 380 year to pay off the claim. They're git them a lawyer that will show they were showing "adequate parental guidance and control" over their youngun, ipso facto e pluribus unum. The Government will agree to settle for \$3,000 and the lawyer for the defendants will get 25 percent of the difference between what his clints was sued fer and what

they had to pay, and the green grass will keep growing round and round.

General speaking, at least two thirds of the laws in this country is wrote by lawyers and passed by lawyers, and 100 percent of the lawyers use the laws in their daily work. No fault insurance would cut down on a lawyer's work, it looks like to me, so I ain't surprised that all the states has took up the matter at least onct, 20 state legislatures has made at least three tries at giting no-fault passed, but they ain't but 12 that has passed laws that don't allow lawsuits in traffic accidents until the damage gits to a certain level.

I reckon doctors has got the best system of perctecting agin lawsuits, and probably they need it the most. Them fancy specialists has got other doctors to go the cutting open and the sewing up, and they jest do the fixing, and some of an even have "stand-ins" fer the fixing, but you can bet yore bottom dollar the feller under the knife will sue the hole lot of em if he thinks he's got a case.

No way I figner, Mister Editor, the fault insurance would be a dangerous, example. We got to have somebody to blame in this country or else what is elections all about?

Yours truly,
Uncle Lew.

By Elmer B. White, Secretary, Michigan Press Association

Buzzzzzz

Don't joke about making the bee Michigan's official state insect.

A proposal to do just that currently is awaiting action in the Senate, after having been approved by the House, 94-5.

And of course there were the expected stinging remarks.

Michigan State University's honeybee expert, Bert Martin, suggests that there's nothing funny about what the bee does for Michigan agriculture.

"About 6,000 beekeepers, keeping about 120,000 colonies of bees, make possible the economic production of over \$100 million worth of Michigan crops," Martin says. He explains that many of the crops Michigan is most proud of are pollinated by bees.

"Growers of highbush blueberries, for instance, rent two colonies to an acre from beekeepers," Martin continues. "If we screen bees away from a mature blueberry bush, total yield won't exceed three pounds of small berries."

If bees are put under the screen, we can get over 50 pounds of large, plump berries."

Although beekeeping is "a relatively small industry," Martin says it makes "an indispensable contribution to our welfare."

"Recognition of such services is neither a joke nor a waste of the legislators' time."

Michigan already has: a state bird, the robin; a state stone, the Petoskey; a state gem, the greenstone; a state flower, the apple blossom; and a state fish, the trout.

Who Asked Whom?

"The President got a bum rap out of that one," says Michigan Republican Chairman William McLaughlin.

The comment refers to reports that President Nixon invited himself to Michigan to campaign in the Thumb earlier this month.

McLaughlin says that just isn't true, that the invitation really did originate with Michigan folks.

McLaughlin thinks so — despite the fact that Democrat J. Bob Traxler defeated Republican James Sparling by some 3,000 votes.

"The Thumb was soft," McLaughlin says, referring to a poll taken a month before the election. It showed that 63 percent of Thumb-area voters still were undecided about which candidate they'd support. "It just wasn't happening."

But a look at election results, with Sparling running generally ahead of Traxler in the Thumb, leads McLaughlin to say he believes the presidential visit "had a positive effect."

McLaughlin says he thinks the Republicans can retake the 8th Congressional District come November.

Traxler, of course, says otherwise. On a recent national news interview television show, the Congressman-elect said he plans to work hard in Washington and in his district from now through fall and win voter support for a full term in Congress.

Selling Tickets

Who buys lottery tickets most frequently? A working man or woman with an above-average family income, living on the fringe of a metropolitan area.

Otherwise unexplainable errors such as mistaking similar sounding words, mispronunciations and mannerisms such as continually turning the head to hear what is being said and complaining everyone is muttering often are among the first danger signals exhibited by persons suffering undetected hearing loss, hearing specialists report.

What's Cooking In Michigan

By Larrestine Trimm
Michigan Dept. of Agriculture
Marketing Information Specialist

It's International Hamburger and Pickle month. Area supermarkets are featuring ground beef and hamburger at bargain prices for consumers, and many of them are using standardized meat labels which makes it easier for you to tell the difference between the two.

Michigan law specifies that packages labeled ground beef may contain not more than 20 percent fat, according to Michigan Department of Agriculture officials, while those labeled hamburger may contain up to 30 percent fat.

When was the last time you served hamburgers with all the trimmings? At 88 cents a pound, for example, a quarter pound serving of hamburger costs only 22 cents.

For variation, serve open-faced hamburger patties on toasted buns with a choice of piquant sauces, a variety of Michigan pickles, crisp onion slices, cheese strips and a topping of tasty baked beans.

You've probably discovered a great many ways to prepare ground beef since the upsurge in food prices, but here's one you may not have thought about.

For a flavorful, economical dish, prepare stuffed meat loaf. Combine your favorite meat loaf ingredients and place one-third of it in a greased baking dish, pat 3/4 inch thick. Cover with a mound of any crumb, vegetable or fruit stuffing. Or, use mashed Michigan potatoes. Cover with remaining meat loaf ingredients. Bake in a moderate oven at about 350 degrees for an hour or until done.

Food experts recommend using ground beef for meat loaf because it contains less fat. Two pounds of ground beef used in stuffed meat loaf will make 8-10 generous servings.

What's Cooking In Michigan

CONSUMERS' CORNER

MEALTIME, BREAKTIME

The family meal deserves a time all its own; it shouldn't be like the other hectic parts of your day.

Instead, look at the evening meal as a time when your family can share good food and good company. That doesn't always mean fancy food. But it does mean setting problems aside temporarily.

Though work has been confusing, car pools have gone a hundred miles, and the basement is piled high with dirty clothes, the people at your table deserve each other's attention.

Some families have ground rules. These include "No fault-finding." Otherwise these sometimes automatic habits could ruin appetites and moods.

Family mealtime is a good time to encourage everyone to join in the conversation. Unless you make a special effort, one member of the family may chronically dominate the conversation. Though small talk comes easy, it might be a good time to talk about opinions and dreams, instead.

When the dinner bell sounds, turn off your worries and enjoy yourself.

TONGUE-TWISTERS

Add variety to snacks and meals with tongue-fresh, smoked, pickled, or canned. For your next party, slice cooked tongue thinly, spread with favorite filling, twist slices into cornucopias and secure with small round wooden picks. A piece of pickle will go nicely in the center of each.

Thursday, May 7, 1970—
Chosen Nickel Carnival Queen of Chelsea High school was Pat Poertner. Her attendants included Freshman Eileen Evans, senior Pat Czarnicki and Junior, Ann Thomson.

Cattle rustlers have hit the Hans Skjaerlund farm on Strawberry Lake Rd. for the fourth time in the past three years. Livingston County sheriff's deputies and the Skjaerlund family report possible danger to people who eat the stolen meat, since the slaughtered animals had recently been injected with hormones.

Chelsea High school's track record has been changed by administrative decision of the State Athletic Commission from 4-0 in the league to 1-4. The change was due to the discovery that a member of the team, is in his ninth semester of high school and is therefore ineligible for competition. The Bulldog squad was forced to forfeit any meet in which he had competed.

Winners of Ecology Day Poster awards at Beach Middle school Denise Nutt, Mike Keller, Collette Wright, and Julie Tite.

24 Years Ago...
Thursday, May 11, 1950—
Ned Stults, Chelsea High school football coach who has been promoting a summer recreation program for all age groups in Chelsea, presented his program to representatives of organizations, industries, schools, and the village at a meeting at the high school Wednesday evening. Estimated costs of the program would be from \$1,200 to \$1,500. Stults expects that if the project could be funded this year through financial backing of interested organizations, passage of financial backing by the village in next year's election would be no problem.

The Leland twins, Eleanor and Richard, children of Mr. and Mrs. Andrew Leland, were honored with separate celebrations on their 11th birthday, which occurred last Saturday. Richard chose a theater party; Eleanor had a birthday party at the family home.

Thursday, May 12, 1960—
Catcher Alton Nixon led the Bulldog attack last Thursday with a home run and two doubles, as the bats of the Bulldogs spoke loud and clear in a 12-6 victory over Pinckney.

Chelsea Jaycees will canvass the village next Thursday to distribute the new 50-star United States flag which comes complete with flag pole and mounting bracket, in hopes of a prominent display of flags on Memorial Day, May 20. Jaycee president Merle Leach reports that profits gained from the sale will be used for the purchase of a large new flag for the village.

Diane Gary, daughter of Mr. and Mrs. Gordon Gary, and James Collins, son of Mr. and Mrs. William Collins have been awarded Regents-Alumni scholarships to the University of Michigan. It was announced this week. Miss Gary will attend the School of Nursing at the University; Collins will enroll in the College of Engineering.

Marlene Howe, daughter of Mr. and Mrs. Arthur Kuhl, 11131 Scio Church Rd., was one of 12 home economics students to receive special home economics awards this spring at Michigan State University. Mrs. Howe received the Marantha Judson award of \$40, which is presented annually to the student attaining the highest and best standing in foods and nutrition courses at the close of the sophomore year.

Charles Linn Waller of 211 Cavanaugh Lake Rd., and Edward Brown, 20098 Old US-12 have been selected to attend the American Legion-Sponsored 1960 Wolverine Boys' State. During the eight-day session, the youths "learn by doing" the mechanics and operation of city, county and state government.

Track Team in Tie-Breaker Meet Today...

(Continued from page one)

180-yard low hurdles: 1st, Craig Coltre, :21.5; 2nd, Curt Winans, :22.6.

Two-mile run: 1st, John Tandy, 10:46.4.

220-yard dash: 1st, Karl Gauss, :24.0; 3rd, Kevin Kelly, :25.1.

Mile relay: 1st, Chelsea (Jeff Marshall, Curt Winans, Mark Burnett, John Storey), 3:46.6.

440 relay: 1st, Chelsea (Don Pierson, Dale Poertner, Karl Gauss, Craig Coltre), :46.4.

In Lake Orion Relays this past week-end, Bulldog trackmen ran into some heavy competition in the form of seven Class A schools from a 10-team field. Chelsea managed a fifth, however, ranking above the other two Class B entries, Oxford and Pontiac Catholic.

Final standings saw Lake Orion on top with 37 points, followed closely by Troy with 35, then Clarkston, Grosse Pointe South and Chelsea.

Coach Bert Kruse reported that, "We had some good performances, but also some sub-par performances in the field events, where we had expected to pick up double the points we actually did earn. Also, a missed baton exchange in the 880 relay brought us from first to fifth and cost the relay a possible first or second place."

Top performances were turned in by the shuttle hurdle relay team of Howard Salyer, Rick Sweeny, Curt Winans, and Craig Coltre, who won the event with a time of :61.6. Also a winner was the sprint medley team of Howard Salyer, Dale Poertner, Craig Coltre, and Karl Gauss, running 220-110-110-220 yds in 1:09.6.

Other placings were:

Shot put relay: 3rd, Ishmael Picklesimer, Rex Miles, Mark Smyth.

440 relay: 4th, Don Pierson, Dale Poertner, Karl Gauss, Craig Coltre, :46.0.

Long jump relay: 4th, Dennis Bauer, Howard Salyer, Craig Coltre.

880 relay: 5th, Howard Salyer, Dale Poertner, Dennis Bauer, Karl Gauss, 1:36.6.

High jump relay: 5th, Rick Sweeny, Randy Sweeny, John Collins.

Pole vault: Don Pierson, Mark Burnett, Randy Sweeny.

Coach Kruse noted of the relays "Although we felt we could have scored more points and finished higher, we found out that we can compete with the larger schools and that they are not that much stronger."

Saturday Chelsea will run in the Cardinal Relays at Michigan Center. All events, including field events, will be in relays with field events starting at 3 p.m., and running events at 7 p.m.

Chelsea will compete in Section I, with Mason, Hoyt, Northville, St. Johns, Jackson Lumen Christi, and Jackson Northwest.

Building Trades Class Project

(Continued from page one)

"Actual skills" are the whole point of the building trades program. Curtis Farley, a carpenter and one-time social studies teacher who instructs the program, runs through the list of building skills his class has learned to a "T" through their work on the house.

First, there was the decision for a particular blueprint, which had to be considered with respect to the amount and layout of land available for the house; so, class members have learned the techniques of plotting a building on a given piece of land.

From there, the group progressed to pouring foundation, basement, and walls, and then to rough framing of the house, including installation of roof shingles.

Once the house was closed in with the onslaught of winter, the students concentrated on interior work of the house—dry wall installation, interior finishing, painting. Later they affixed aluminum siding, and recently poured the driveway and finished landscaping, which amounted mainly to leveling the area.

Obviously the boys did not do everything on their own. Local contractors installed the furnace and much of the plumbing and electrical work that was too specialized for either their own or Farley's knowledge.

Farley has big plans for next year's building trades project—if he is again associated with it. He intends to read up on plumbing and electricity, he says, "so next year we can do the whole works."

He would also like to get the matter of buying land for the project out of the way this spring, so that necessary excavating can be done and work on the house can start immediately when school begins in the fall.

This year's house will be listed with local real estate companies—although rumors have surfaced about a potential buyer clamoring for it already—with any profit going toward the purchase of land for next year's house.

Farley, whom at least one School Board member has referred to as "the whole program" is well-known locally for his carpentry work—"when you get to be my age, you have to have yourself established"—and for his part in the construction of the free-hanging staircases (reportedly the only ones anywhere) in the lobby of the Power Center for the Performing Arts in Ann Arbor on the University of Michigan campus.

He would rather steer conversations away from his own accomplishments and contributions to the building trades program, however. "The boys in the program did everything," he maintains. "Everything except for a few things we had to have people come in and do, of course."

From 15 to 18 of the members of the class—from 29 enrolled in the fall and 23 this term, Farley says—are actively and enthusiastically involved in the program.

One of the boys, he says, recently had an operation on his foot, but showed up at the house the next day, complete with bandages. "He said he wanted to be here when we poured the driveway," Farley says, obviously pleased. "Most of them are really interested like that."

"We don't have a book or anything," he continues, "but I've been keeping a record of what we've done, so next year we'll be able to do some things at better times. For a long time, I was just keeping busy trying to keep them busy, but then things really started rolling along."

Fairly well completed at this point, the house sports yellow facing, three bedrooms, two baths, a living room, family room, dining area, fireplace, full

Poppy Day Slated May 17

Chelsea's American Legion Auxiliary will sponsor the 53rd annual Poppy Day next Friday, May 17.

Poppies distributed that day are made by disabled war veterans in government hospitals and special convalescent work shops maintained by the American Legion Auxiliary in various parts of the country. Materials are supplied by the Auxiliary and the organization pays men weekly through this program, which begins annually in summer or fall.

"The money you donate for poppies is used for needy veterans and their families," says Mrs. Merle Barr, an Auxiliary member. "So wear a poppy proudly to honor the war dead and assist the living."

Headquarters will be at Korner House. Legion men will assist in the poppy drive.

Three School Board Posts To Be Filled

Chelsea School District Business Manager Fred Mills reminds residents that petitions for June 10 election of three Board of Education members are available in the superintendent's office in the Administration building of Chelsea High school, and must be turned in to Secretary Robert Schafer on or before Monday, May 13, at 4 p.m.

Expiring are the terms of Robert Daniels, Thomas Hodgson, and Herman Koenn. Both Daniels and Hodgson have announced that they have obtained petitions with intent to seek one of the two-four terms to be decided. The other board membership is for a one-year term.

To appear on the ballot, signatures of at least 20 qualified and registered school electors of the Chelsea School District must be obtained for each nominee.

Any qualified voter of the school district is eligible to run for the Board of Education, which means that the petitioner must be 18 years of age, a citizen of this country, a resident of the state for six months, and a resident of the district for 30 days.

Mushrooms, Tulips, Bagpipes, Highlight May in Michigan

Lansing—Buds burst into bloom, the waters welcome fishermen and canoes and spring time festivities get underway in a big way, according to the Michigan Tourist Council.

May is traditionally mushroom month in Michigan and there should be "good hunting" in the Gaylord area May 6-20. Morels—the tastiest of mushroom morsels—are the main attraction at the National Mushroom Festival May 11-12 at Boyne City. In addition to prizes for the sharpest eyed pickers, there will be a mushroom dinner, carnival and ball.

Some mighty fine horseflesh will be exhibited at the Michigan Springs-Horse Show May 9-12 and again May 16-19 in the Coliseum at the Michigan State Fairgrounds, Detroit.

Rock hounds and pebble pups everywhere will enjoy the Blue Water Lapidary Show, May 4-5 in Port Huron and the Rock and Mineral Show May 1-12 in the County Center Building, Kalamazoo.

May is also Tulip Time in Holland, and this year (May 15-18) marks the 45th edition of this famous festival. Windmill Island, Baker Furniture Museum, Dutch Village, the Wooden Shoe Factory, and Poll Museum are just a few of the very interesting places to visit. The Volksparade, Windmill DeZwaan, the street scrubbing ritual and Klompen Dancers are a few of the delightful things to see. And of course, the highlight of the whole affair, leisurely strolls through tens of thousands of tulip gardens and one of the largest selections of tulip varieties to be seen anywhere in the world.

Greenfield Village, Dearborn, comes to life May 16-18 to recreate the rural fairs of a century and more ago. Country Fair of Yesteryear is a festive family occasion complete with daily parades, marching bands, variety show and children's midway and more.

Michigan Week "kicks-off" May 18 in Sturgis with the Governor's luncheon and official Kickoff Parade, which has become one of the most colorful processions in the state. The theme of Michigan Week 1974 is "Michigan, A State for All Seasons" and the remainder of the week (through May 25) local observances and celebrations will be taking place in communities throughout the upper and lower peninsulas. Picking up where Michigan Week leaves off comes the Highland Festival and Games and the Fort Michilimackinac Pageant.

The Highland Festival, May 25-26 at Alma, has grown into the second largest event of its kind outside Scotland itself. Kilted pipers and drummers from all over the United States and Canada compete for the U.S. Open Pipe Band Championship trophy while other tartaned Scotsmen match their brawn in the centuries old games of tossing the caber sheath, putting the stone and other field events. Then there are the exact, quick steps and precise movements of the Highland dances performed by the nimble lads and lassies.

The Fort Michilimackinac Pageant, May 25-27, at Mackinac City is a popular annual Memorial Day week-end event. The Pageant is an impressive enactment of

Chief Pontiac's military victory over the British garrison in 1783. Detroit's Ethnic Festival program opens its 1974 season with the Greek Festival May 24-27 followed by the Irish May 31-June 2. This year's program includes 19 different ethnic groups who invite you to share the costumes, customs, crafts and flavors of their heritage each weekend through September 22. The Festivals are held on the waterfront behind Co-Bo Hall in Detroit.

Some of the "specialized" events this month include: the Holiday on Water Boat Show at Grand Haven, May 16-19; Father Marquette Pilgrimage at Ludington, May 18; the German-American Festival, Yack Recreation Center, Wyandotte and the Iris Society Show at Westmain Mall, Kalamazoo, May 31-June 2.

If you're an outdoor "sport" you might want to try one or two of these: The Little Muskegon Canoe Race at Morley, May 5; Canoe Races at Lansing, May 11; Shawassie River Canoe Races, Holly, May 19; and Greater Muskegon River Canoe Race from Evert to Big Rapids, May 25. For the Douglas Fishing Derby, May 15-June 15 and the South Haven Fishing Safari, May 31-June 2. And for "three strikes and your out fans" the statewide invitational Memorial Softball Tournament, May 24-27 in Scottville.

The Greenfield Village Players present J. M. Barrie's fantasy, "Peter Pan" May 4, 11 and 25 in the Henry Ford Museum Theatre, Dearborn. Antique Shows are scheduled May 16-19 at the Maple Hill Mall, Kalamazoo and May 17-19 at the Youth Center, Dearborn. And the annual Heritage Hill Tour of Historical Homes is set for May 18 in Grand Rapids.

May is a "come alive" month in Michigan filled with lively things to do. For a complete list of them all, write the Michigan Tourist Council, Lansing 48976 for a free copy of the Michigan Calendar of Travel Events. Residents of Wisconsin, Iowa, Illinois, Indiana, Kentucky, Ohio, West Virginia and Pennsylvania can call, toll free, for Michigan vacation information by dialing 800-24-9610.

Winter Injured Trees Need Special Attention

Michigan's winter temperatures may have caused considerable damage to the flower buds of peach and apricot trees, say a Michigan State University fruit specialists. In some cases, the wood may also have been damaged.

Specialists offer these suggestions for caring for your damaged fruit trees: —Delay pruning until growth starts. Remove only dead wood. —Do not use oil sprays on injured stone fruit trees. —Use the leaf-curl spray to protect foliage from disease. —Keep weeds away from young trees. —If the bark has split, tack it down and paint it with a tree paint. Clean out dead areas and cover them with tree paint. —Don't be too quick to remove injured trees. With good care they may be able to revive themselves.

DID YOU KNOW?

FAMED ESCAPE-ARTIST/MAGICIAN **HARRY HOUDINI**

WAS BORN IN BUDAPEST IN 1874. HIS REAL NAME WAS HARRY WEISZ. A TRAPEZE PERFORMER AS A BOY, HE SWITCHED TO MAGIC AND HAD SO-SO SUCCESS. THEN HE MASTERED ESCAPE-TYPE MAGIC, AND HIS FAME GREW.

PERITONITIS GOT THE BEST OF HIM IN 1926, AND HE DIED. HIS BROTHER THEO TOOK UP HARRY'S TRICKS, WHICH WERE LATER SOLD TO OTHER MAGICIANS.

HE THRILLED AUDIENCES HOUDINI WAS PUT IN A STRAIGHT JACKET AND SUSPENDED 100' ABOVE A BUSY WASHINGTON STREET IN 1922. WHILE THOUSANDS WATCHED, HE SQUIRMED FREE!

CHAINED, LOCKED, BOXED AND TOSSED OVERBOARD, HOUDINI ALWAYS ESCAPED! AMAZING!

Extension Service Broadens Service Through New Educational Programs

What is the extension service? That's not a question answerable in a few sentences.

Planned co-operatively by the Extension Service staff and local people, Extension home economics, through its educational programs, seeks to:

- improve the quality of family and individual decisions.
- provide the competencies needed to carry out those decisions.
- help individuals increase their ability to interact effectively with others.
- develop the potential that exists for better individual, family, and community living.

Extension home economics is a part of the Co-operative Extension Service, established by an act of Congress in 1914 to help the people of the United States improve their homes, farms, and communities. The U.S. Department of Agriculture, state and local governments, and land-grant colleges and universities share in financing and supporting this national out-of-school education program for adults and youth in cities, small towns, and rural areas.

Cultural arts committees of the Washtenaw County Extension is one of the Services' newer committees. Recent tours have been to Meadowbrook Hall, Detroit Flower and Builders Show, Toledo Museum where Irish masterpieces were viewed, and Detroit Institute of Arts, where the Medici exhibit, was displayed. A number of other tours are planned for the future. Annual segments of each year's

program included a food and people lesson, which will deal this year with Australia, college day and week, Christmas open house, and a number of special interest lessons.

This year's special interest lessons will cover effective parenting, estate planning, an air tour over Washtenaw county, men's wear sewing, and a food consumer panel.

Special topics for the coming year are scheduled to be: how to avoid heart attack, coping with stress, self-help weight control, women's rights under the law, no-fault insurance, the metric system, putting together your interior housing repairs, eating lower on the food chain, and labels at the supermarket.

To provide area families with educational programs, Extension home economists not only provide information through the mass media, newsletters, and publications, discussion groups, homemaker groups co-operative teaching efforts with other agencies and organizations, and volunteers trained by Extension to teach others. In addition, Extension program aides are employed to teach low-income families on an individual and small group basis.

For further information on Extension services, call Helen Weiss at 663-9160.

Goodness may be the chief end of human endeavor, but it has to be mixed with brains to mean anything to the world.

DEXTER GOSPEL CHURCH SCHOOL winners in the Academic Spring Meet held at Flint Christian School on Saturday, May 4 were, from left, front row, Kelly Reames, who won a blue ribbon award singing "Jesus Has the Keys to My Heart;" Brenda Hogan, a red ribbon for an original talk on John the Baptist; and Darroll Trinkle, a green ribbon in 5th grade mathematics. Back row, from left, are Sheri Hogan, white ribbon, for reciting James 3 and 4; Tonja Williamson, of Chelsea, a green ribbon in spelling, and Miss Edna Conklin, teacher at the school.

Dexter Gospel School Students Win Awards at Academic Meet

Kelly Reames, third grader at Dexter Gospel Church school, won a blue ribbon award at the Academic Spring Meet held at Flint Christian School on Saturday, May 4. Kelly, whose parents are Mr. and Mrs. Michael Reames of Marshall Rd., sang "Jesus Has the Keys to My Heart." Thelma Reames, school and church pianist, was her accompanist.

Brenda Hogan received a red ribbon for her original speech about John the Baptist. Sheri Hogan memorized James 3 and 4, talked on "The Tongue," and has a white ribbon. Darroll Trinkle, son of Mr. and Mrs. Charles Trinkle, competed in math, while Tonja Williamson of Chelsea entered the spelling contest. They each have green ribbons.

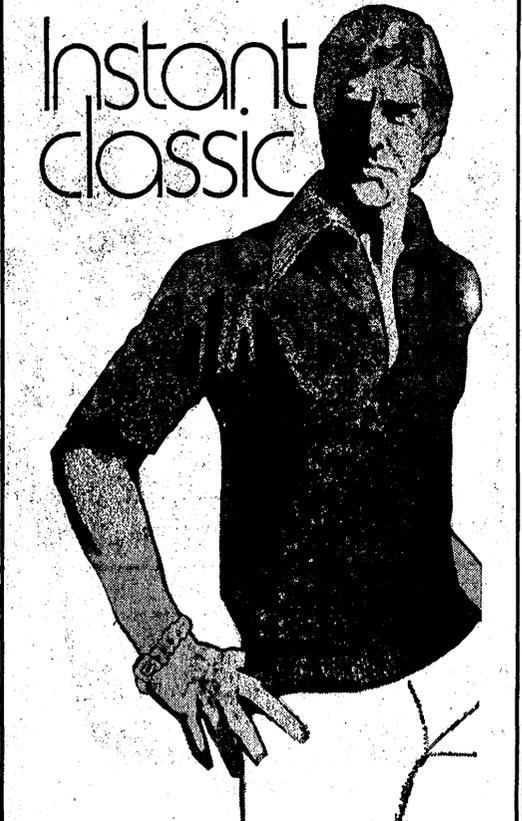

The Midwest Association of Teachers of Christian Schools sponsors an annual Academic Spring Meet for children in grades 3 through 9. In addition to music, spelling, and math, entries are in science, scripture memory, patriotism, and biographical sketches. Area schools meeting at Flint last Saturday were Midland Christian school, Flint Christian school, Peo-

ple's Christian school, Toronto, and Dexter Gospel Church school. Dexter Gospel Church school is an A.C.E. school with enrollment in grades kindergarten through 8. Miss Edna Conklin is teacher.

Free Home Heating Hints Booklet Available from Federal Agency

Shortages of some of the fuel used for home heating are threatened this winter. Whether you live in a house or an apartment, there are steps you can take to help conserve fuel supplies, keep your home warm, and save money.

Seven simple, relatively inexpensive and effective measures for conserving energy and reducing utility bills are outlined in a National Bureau of Standard fact sheet, **Hints for Home Heating**. Copies of the fact sheet are available free from Consumer Information, Pueblo, Colo. 81009.

Here are some of the suggestions from **Hints for Home Heating**:

1. Install weather-stripping at moveable joints and openings of windows and doors, then caulk the frames. You may have to apply caulking material several times before a good seal is achieved, but effective caulking and weather-stripping can prevent up to 30 percent of the heat in your home from escaping.

2. Install storm windows or insulating glass to reduce heat loss through the windows. An investment in storm windows can pay for itself in seven to 10 years, and thereafter return a 13 percent or more saving on fuel bills.

3. Close your draperies at night to further reduce both the heat loss and the chill from window glass.

4. If you live in a house, be sure there are at least six inches of good thermal insulation above the top floor ceiling. To install or add insulation in an unheated attic, place batted insulating material on the ceiling, or spread "loose insulation" over it. If the attic is floored, raise a few boards and blow or rake in loose insulation.

Insulation of the exterior walls of the house is also desirable, but it's best accomplished during construction. If you're thinking of adding sidewall insulation, get expert advice first. In some cases, the sidewall insulation leads to moisture condensation within the walls.

The fact sheet also advises that you:

—Keep your heating unit in good working order to avoid using more fuel than is necessary.

—Lower the thermostat setting when you go to bed at night. Lowering the setting by only four degrees for eight hours each night can save you three percent on your monthly fuel bill.

—Repair leaking hot water faucets and insulate hot water pipes, especially if they pass along outside walls or through cold areas.

Hints for Home Heating (free) is just one of the publications made available through the Consumer Product Information Center of the General Services Administration. More than 200 Federal consumer-oriented publications are listed in the Fall Edition of the Consumer Information Index. Published quarterly, the Index is available free from Consumer Information, Pueblo, Colo. 81009 and at Federal Information Centers located throughout the country.

your week ahead BY DR. A.W. DAMIS

Forecast Period: May 12 to May 18

ARIES Mar. 21 - Apr. 19 Many under your sign will tamper with thoughts of a new romance. Warning! If so, prepare for an emotional explosion. Also, you face hazards in affairs of the heart.

TAURUS Apr. 20 - May 20 It's likely, very likely, that you will, unknowingly, betray the confidence of an associate. The point? Guard your words, especially, when discussing personalities at large.

GEMINI May 21 - June 20 Hold a tight rein on reason. It seems as though a fast talker, who will promise you the whole world - is heading your way.

MOONCHILD June 21 - July 22 According to your chart, someone who doesn't care much about what you think... is going to challenge your veracity. Keep facts and data in order.

LEO July 23 - Aug. 22 Trouble with persons in authority is on the wing. It seems as though most members of your sign have become a little too "pushy." Try diplomacy, this week.

VIRGO Aug. 23 - Sept. 22 No question about it, you are entering a most favorable cycle. An affluent group is now working in your behalf. That's not all - an enemy is now a friend!

LIBRA Sept. 23 - Oct. 22 Whatever you want to say to a member of the opposite sex... say it now! Your ability to persuade is at an all year high! It's up to you, however!

SCORPIO Oct. 23 - Nov. 21 A personality, now much stronger than yourself, is going to lead you ever so gently into a new experience. Advice? Avoid the bizarre with the other sex.

SAGITTARIUS Nov. 22 - Dec. 21 Take care of minor obligations, during this cosmic cycle. Your chart shows a neglect of responsibilities, which incidentally, could carry into a major reversal.

CAPRICORN Dec. 22 - Jan. 19 A clash of opinions, casts a shadow over your chart. Actually, you have been working on an opposite viewpoint - simply, for the sake of being noticed.

AQUARIUS Jan. 20 - Feb. 18 Hold it Aquarius! You are coming on much too strong. As a matter of fact, you are out to hurt someone's feelings. You'll need friends, remember!

PISCES Feb. 19 - Mar. 20 You are wide open for soft lights and sweet music. There will be overtures from the opposite sex, for some Pisceans; a few are heading toward the "eternal triangle."

Special Ed Students Score In 'Olympics'

A group of 11 students from Chelsea School District's special education class, taught (and coached, in this case) by Nancy Oswald, earned a big total of 34 ribbons in last week-end's regional Special Olympics in Milan.

The youngsters, in competition with more than 300 students from Monroe, Lenawee, and Washtenaw counties, earned 10 first places, 14 seconds, and 10 thirds, and are preparing for state finals in Mt. Pleasant, May 24 and 25.

Events scheduled in the Special Olympics, which is sponsored nationally by the Kennedy Foundation, are bowling, swimming, track and field, volleyball, gymnastics, and basketball.

In the first event of the day, bowling winners for Chelsea in various age categories were, first places, Ron Miller and Glenn Pasow; second places, Wally Steina-way (plus a second for highest-scoring game, 147), John Winans, and Ricky Guenther; third places, Mary Landwehr, Kathy Young, and Leona Stewart.

In 25-yard free-style swimming event, Chelsea contestants earning high ratings were, in first places, Ron Miller (19.1 seconds) and Kathy Buck (24.1); in second Wally Steina-way (13.8), John Winans (28.3), and Ricky Guenther (20.9); and in third place, Bill Moore (19.5).

Chelsea's track and field performances were led by a record-setting standing long jump of 7 ft., 4 in., by Ron Miller, who also earned second in the 50-yard dash. Other winners in this category were Wally Steina-way, second in the 220-yard run and first in 50-yard dash; Glenn Pasow, second in the 220 and first in the 50-yard dash; Patty Brady, third in the 50-yard dash; Bill Moore, second in the 220; Mary Landwehr, second in the 220 and third in the 50-yard dash; Kathy Young, third in 50-yard dash; Leona Stewart, first in 50-yard dash; and Kathy Buck, second in 50-yard dash.

In softball throw, Chelsea earned five ribbons: a first from Patty Brady; two seconds from Ricky Guenther and Kathy Young; and two thirds from Leona Stewart and Bill Moore.

Now in training for the state finals—and hopefully, competition in the nationals—Nancy Oswald and her class extend their thanks to Ed Greenleaf of Chelsea Lanes, Chelsea Jaycees, Mr. and Mrs. Gladys Buck, Mr. and Mrs. Steve Bergman, Debbie Bergman, Pat Brier, Mr. and Mrs. George Winans, and David Porath for the encouragement and help that aided in the group's participation.

Because the human ear cannot shut out harsh noise as the eyes do, light, the ear is perhaps man's most vulnerable sensory organ. Health and government officials estimate the number of individuals already affected by hearing handicaps exceeds the combined total number of persons afflicted with cancer, tuberculosis, blindness and multiple sclerosis.

Ethnic Festivals Offer Fun for Everyone

In the mid 1800's German immigrants seeking a life of freedom came to sow their fields in the fertile "thumb region" of Michigan's mitten with the Rev. August Creamer and his flock establishing the town of Frankenmuth. About the same time, Rev. Albertus Van Raalte selected a site where the Black River emptied to the Macatawa Bay as the new homeland for his group of Dutch settlers. It was during these same years that the rich copper deposits of the Keweenaw were attracting miners from the worn out tin and copper mines of Cornwall, England, with rugged Scandinavians following close behind.

The mines, the "tall timber" and the automobile factories of Mr. Ford and Mr. Olds brought new citizens to Michigan from all parts of Europe and the mid-East. These early Michiganians, in turn, brought with them the customs and traditions that would sustain their heritage.

The rich legacy of these variegated cultures is reflected in the numerous festivals of ethnic origin from early spring through early fall.

Perhaps the most famous is Tulip Time in Holland. It begins every year on the Wednesday nearest May 15 and lasts for four days (May 15-18). The festival resulted from a high school biology teacher's idea to beautify the city by planting tulips back in 1927. Today, the fields and gardens of tulips in bloom at Tulip Time seem to be endless.

During the festival, it's difficult to remember that this is Michigan and not the Netherlands. Townspeople in colorful costumes and armed with willow brooms, perform the ceremonial chore of washing the streets, using shoulder yokes to carry pails of water. The "Klompjen" (wooden shoes) dancers, a favorite attraction, use stepping "klomp and kick" maneuvers. Dutch craftsmen will carve a pair of wooden shoes in any size to wear to take home as a souvenir. No visit to Holland is complete without crossing the drawbridge to Windmill Island to stroll the dykes and garden paths, browse the Dutch memorabilia displayed in the post-house while the children ride the Dutch carousel. Here too is the windmill DeZwaan, moved from its home in the Netherlands; rebuilt and restored on Windmill Island and now in its third century of useful life.

One of Michigan's younger festivals, but recognized as one of the nation's most colorful, and popular, is the Highland Festival and Games held the latter part of May at Alma (May 25-26). It is also one of the largest Scottish gatherings in the world. The idea originated with David E. MacKenzie, an alumnus of Alma College. He felt that the College's Scottish traditions, stemming from its affiliation with the Presbyterian Church, provided a natural nucleus for a festival.

The pageantry of the Pipe Band Championship competition is a festival favorite. The first bagpipe made its appearance in the Crimean War in 1854. At the 1973 Highland Festival, 35 tartaned and tam-shantered pipe bands from all parts of the United States and Canada came to Alma to vie for honors. Hundreds of kilned dancers from the U. S. and Canada display their prowess in performing the Ghillie Callum (Sword Dance), the Strathspey and Reel, Shean Trews and Fling. On the athletic field, brawny Scots compete in centuries old, traditional tests of strength such as tossing the caber, putting the stone, tossing the sheath, throwing the hammer, pole vaulting and other track and field events.

The idea of the Bavarian Festival at Frankenmuth originated in 1859. Since that time, a warm "Willkommen" is extended to the nation's public each June to share in the community's Bavarian heritage. The air fills with the happy sound of Bavarian music played by costumed German Bands. Men don their lederhosen and twirl

dirndl-clad fraulines to energetic polkas. Appetites are treated to plump bratwurst, knackwurst and home-made German Bread, golden barbecued chicken and hot, home-made pretzels topped off by foamy steins of Frankenmuth brewed beer.

To Frankenmuthers, festival time is a happy mood exemplifying "Old World" fun and charm and the spirit of friendship.

The Greek Festival has been an annual event in Detroit for many years. When Roman S. Gribbs took office as mayor of Detroit in 1970, he appointed a committee to encourage other groups to organize and share their culture and customs with the public. An ethnic festival program developed and currently encompasses 50 nationalities represented by 20 festivals. The festivals are held every weekend from the first of June through mid-September on the riverfront behind Cobo Hall. Festival patrons enjoy the music, songs and dances of the ethnic group in residence, free of charge. Up to 50 booths display items representative of the group's culture such as mosaics, silk saris, shillilags and Florentine wood carvings. During Festival season, visitors sample such enticing foods as gelato, kielbasa, dolmades, tortes and strudels and numerous varieties of beers and wines. The festivals present the sights, sounds, crafts and flavors of the world for all to enjoy.

Records indicate that in 1892 the Polish population in Detroit was estimated at 35,000. In the early 1900's the influx into the Hamtramck area swelled as a result of industrial development and the growth of the Dodge plant. Many of the Polish immigrants, however, had been farmers and they were attracted to the farmlands of Presque Isle county. Potatoes were, and are, the major crop in the predominantly Polish communities of Posen and Metz. In 1899, the people celebrated the potato harvest with the first Posen Potato Festival.

Today, although it is still called the Potato Festival, it has become more ethnic in character, held annually the second week-end in September. Lively strains of Polish music compel you to dance the Mazurka and the aroma of fresh potato pancakes is irresistible.

The Polish heritage is also celebrated at Bronson the first part of August with Polish Festival Days. Bronson's celebration includes a mock Polish wedding, polka band contest and Polish potpourri contest.

The Danish Immigrants were also potato growers, settling primarily in west Michigan where the sandy soil of Montcalm, Manistee, Newaygo and Oceana counties was especially suited to the crop. The population of Greenville, Montcalm county's largest city, is 75 percent Danish. Potatoes are still the major crop, with apples running a close second.

In recognition of their Danish heritage, the people of Greenville organized their first Danish Festival in 1969. The festival is held the third week-end in August, complete with costumes, Danish bands and dancers providing a delightful atmosphere for a Velkommen toast of dark Danish beer. Smorgasbords and Aebleskiver booths destroy diets, but give taste buds a treat to remember.

Maybe you can't be a world traveler, but you can get the feeling and the flavor of the world's cultures by visiting Michigan's ethnic festivals. Include at least one, or more, in your vacation plan this year. For additional information and exact dates, write the Michigan Tourist Council, Lansing 48928.

ENCOURAGE QUESTIONS
By the time your child reaches his second birthday, you'll realize that he's an extremely curious little individual. But, his incessant questions shouldn't annoy you. His eagerness to know is healthy and natural and you should encourage it.

Two Band Instruments Are Stolen

Two band instruments that disappeared from the Beach Middle school band room two weeks ago are now presumed to have been stolen, Chelsea police say.

Missing from the band room, according to band director Warren Mayer, are one Noblet clarinet, serial number A 11548, wood, with blue case, valued at \$265; and one DeFord flute, serial number 12890, with black case, valued at \$178.50.

Band director Mayer told police that the instruments had been missing from the band room since April 25, but that he had assumed they had been misplaced by the owners or accidentally taken by another student.

There were no signs of forced entry to the band room. Police have no suspects in the case.

Beach Track Team Pounces On Brighton

Beach Middle school's track squad defeated Brighton last Wednesday, 84-48, to extend their winning streak to 19.

Placings in the meet were:
Shot put: 1st, Tim Welshans, 44 ft., 11 1/2 in.; 2nd, Leon Brown, 42 ft., 10 1/2 in.

High jump: 1st, Chris Smyth, 5 ft., 2 in.
Long jump: 2nd, Pat Stevenson, 14 ft., 3 in.; 3rd, Scott Stafford, 14 ft., 1 in.

Pole vault: 2nd, tie, Greg Reed, 8 ft.

880-relay: 1st, Beach (B. Lewis, T. Welshans, P. Stevenson, C. Smyth), 1:50.

800-run: 1st, Todd Weber, 2:22; 3rd, Scott Beyer, 2:31.

60-yard high hurdles: 2nd, Matt Fischer, :10.1; 3rd, Jason Lindauer, :10.6.

1-mile run: 1st, David Dawson, 5:15; 2nd, Chris Munick, 5:38.

100-yard dash: 2nd, Scott Stafford, :12.1; 3rd, George Bentley, :12.2.

440-dash: 1st, Chris Smyth, :60.5; 3rd, Ricky Beeman, :64.

100-yard low hurdles: 2nd, Matt Fischer, :13.5; 3rd, Greg Reed, :14.0.

60-yard dash: 2nd, Brian Lewis, :07.3; Greg Ringe, :07.6.

75-yard dash: 1st, Scott Stafford, :08.9; 2nd, Carolyn Schardein, :09.2.

120-yard dash: 1st, Pat Stevenson, :28.2; 2nd, Jason Lindauer, :29.4.

1-mile relay: 1st, Beach (T. Weber, R. Beeman, S. Pennington, S. Dawson), 4:11.1, new school record.

440 relay: 1st, Beach (G. Bentley, P. Huston, T. Welshans, G. Ringe), :53.8.

Friday Beach will travel to Tecumseh to participate in the Tecumseh Relays. Next Wednesday the team will tangle with Pinckney.

Argumentative souls, short of facts, are very argumentative.

Traffic Death Toll For April Shows Sharp Reduction

Traffic accidents in Michigan during April claimed 99 lives, which was 41 or about 29 percent less than the toll of 140 charged to that month a year ago, according to State Police traffic division provisional figures.

The provisional April death count is the lowest for that month since 1958 when the toll was 99 after all chargeable accident reports were in.

The April count also was 50 percent below the average of 149 for that month in the five-year period 1969-73. High April mark was 169 in 1965 while the low was 44 set in wartime 1943.

The accumulated deaths for the first four months numbered 422, which was 234 or about 35 percent less than the total of 656 charged to the same period in 1973.

Michigan traffic deaths have shown decreases for each of the last nine months compared with the same months a year earlier. Factors figuring in these reductions have included the economic slow down, the lowered speed limits, fuel conservation and fuel shortages.

Reports of delayed deaths are expected to increase somewhat the death counts for April and the accumulated period.

JC Rummage Sale Slated For June 29

"What is one person's junk is another person's treasure" sounds either like an ancient Chinese proverb or something someone's mother might say.

What it really is, is the motivation behind Chelsea Jaycees' annual rummage auction, which is scheduled for Saturday, June 29, at Chelsea Fairgrounds.

Jaycees annually announce their rummage auction several weeks in advance, to make certain that the community has sufficient time to uncover, unearth, sort, and change its mind on exactly what usable rummage it wants to donate to the sale.

Under auctioneer Art Steina-way, this year's rummage will include sporting goods, shoes, clothing, bikes, hardware, furniture, housewares, and you-name-it.

To arrange for Jaycee members to pick up usable rummage, call Norm Colby (475-7321) or Dick Call (475-2593) or, evenings, Jerry Kraus, (475-1686) or Mitch Zink (475-7812).

Proceeds from the sale will go toward funding of Jaycee community projects.

School Board Briefs

Present at the Chelsea Board of Education meeting Monday, May 6, were President Haselschwardt, Trustees Stirling, Hodgson, Daniels, and Irwin, Superintendent Cameron, Business Manager Mills, Principals Conklin, Wojcicki, and Benedict, and attorney Peter Flin-toff.

Guests present were Bert Kruse, Mrs. Lillian Conklin, Mrs. Margaret Nance, Mr. and Mrs. Gene Thornton, Leonard Solomon, and Tony Bowen.

Meeting was called to order at 8 p.m. by President Haselschwardt. Minutes of the April 22 meeting were approved as presented.

The board approved and ratified the selection of City National Bank of Detroit as the paying agent for the 1974 bonds as selected by John Nuveen Co., purchaser of the bonds of April 22.

Chelsea State Bank was designated the depository for tax collections for the 1974 debt retirement fund.

President Haselschwardt called a special Board of Education meeting for Wednesday, May 15, at 7:30 p.m., in the Board of Education room at Chelsea High school's administration building.

Tony Bowen, president of Chelsea Recreation Council, reported that the new tennis courts at North Elementary school have been completed. Bowen requested permission for Recreation Council to construct an additional softball field at the high school. The board approved this request.

A hearing was conducted on grievance No. 2-M regarding agency shop and the grandfather

clause of the agency shop provision of the master contract. Leonard Solomon represented the Chelsea Education Association at the hearing. After a lengthy discussion of the issues and counsel from attorney Flintoff, the board denied grievance No. 2-M.

The board adopted a resolution regarding the proposed Mill Creek Metropark proposed by Huron Clinton Metropolitan Authority, listing as objections to the park: the removal of property from the tax rolls, the loss to the school district of operating and debt retirement revenues as a result of such removal, the cutting of several roads in the township and the additional millage thereby needed to transport pupils, and the creation of "strip" housing along boundary roads that is out of character with the historical quality of the township.

Copies of the resolution will be forwarded to HCMA, the Michigan Department of Natural Resources, the Washtenaw County Planning Commission, the Washtenaw County Board of Commissioners, and the school district's state representatives and senators and federal representative and senators.

SUN'S STREAMERS

The solar corona, the white-hot halo of luminous gas that is most visible when the moon blocks the sun's dazzling face during an eclipse, thrusts streamers more than 5,000,000 miles into space.

LATE, LATE SHOW

It's bad enough they show old American movies on the Late, Late Show—but now they're showing British movies from way back when. In one movie I saw last night, Henry the Eighth was played by Henry the Ninth!

PVT-2 MARK BLOUGH of Grass Lake has entered the Military Police School at Ft. Gordon, Ga. He joined the U. S. Army Feb. 28 and graduated from training at Fort Knox, Ky., April 25, with promotion to PVT-2. His present address is Pvt.-2 Mark Blough, 364581247, Co. D, 11th MP BDE, USAMPS, Ft. Gordon, Ga. 30905. He is the son of Mr. and Mrs. Phil Blough.

Tennis Team Splits Pair Of Matches

Chelsea netters split a pair of matches this week, losing to Haslett, "one of the better Class C teams," according to Coach Sam Vogel, and edging out Novi.

Thursday's match with Haslett featured the play of John Gillette, who was rated fourth in the state last year. Gillette defeated Debbie Bertke 6-2, 6-1 in first singles.

Other scores included: Tom Youatt, Haslett, defeated Jane Belsler, 6-4, 6-3. Dan Hagen, Chelsea, defeated Lynn Braun, 2-6, 6-4, 3-1 (final set called due to weather conditions).

Dan Kavanaugh, Haslett, defeated Duane Luick, 8-6, 6-0. Mary Verchereau and Curt Umstead, Chelsea, defeated Roger Howell and Glenn Gillespie, 6-2, 6-0.

Chris Pendell and Chuck Klepac, Haslett, defeated Mark Heydlauff and Andy Quackenbush, 6-2, 11-9.

Dan Durke and Mike Decess, Haslett, defeated Tom Boylan and Per Gellstrom, 2-6, 6-3, 6-1.

Results from Tuesday's defeat of Novi were: Duane Luick, Chelsea, defeated Debbie Bertke, 6-4, 7-5.

Tom Kelly, Novi, defeated Jane Belsler, 4-6, 6-4, 6-4.

Dan Hagen, Chelsea, defeated Rick Marchetti, 6-2, 6-3.

Duane Luick, Chelsea, defeated Tim Kelly, 6-4, 6-4.

Mary Verchereau and Curt Umstead, Chelsea, defeated Pat Bellinger and Greg Alkema, 12-10, 6-2.

Mark Heydlauff and Andy Quackenbush, Chelsea, defeated Spielman and McGahey, 6-3, 6-2.

Banks and Parks, Novi, defeated Pete Feeney and Doug Beaumont, 6-8, 6-2, 6-0.

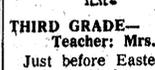

Chelsea's tennis squad will take on Brighton this afternoon on the home courts.

BB Gun Confiscated For Shooting Pigeon

A 17-year-old Chelsea youth was taken into custody by Chelsea police officers Sunday for unlawful discharge of a pellet pistol, when a witness notified them that he had shot a pigeon on the lawn of the First United Methodist church.

The youth, who stated that "pigeons are a nuisance to the congregation of the church," had his Crosman 16-shot semi-automatic BB pistol confiscated by the officers. They said that the youth had a "good attitude," and probably would not be petitioned to go to Juvenile Court for the offense.

NORTH ELEMENTARY SCHOOL NOTES

THIRD GRADE—Teacher: Mrs. Lawver

Just before Easter, Brent Martin entertained us with a magic show. Chris Seltz assisted.

The class has been busy assembling a newspaper. Most of it seems to be cartoons. But it should be a few "hot news" articles, and some interviews.

We will be visiting The Chelsea Standard as a culmination of our newspaper study. Mrs. William Frame, Paul's mother, has arranged the trip. Thank you, Mrs. Frame.

The class has been very busy studying birds, reptiles and amphibians. We plan on studying mammals, fish and insects before ending our study.

We have had John Seyfried's chameleons visiting all week.

Teacher: Mrs. Peet

Our class has been busy during the last few weeks. We have been busy writing stories because a lot of us entered a contest for Dexter's Young Authors Conference. The winners, who will take their stories to Bates school in Dexter on May 18 are Chris Martin from our room and Cathy Doll from Miss Sanders' room.

We have also been busy putting our classroom newspaper together. It is called Peet's New News Free Press. It hit the press after lots of hard work on Thursday, May 2. On May 10, we will go to The Chelsea Standard to see how they print their newspaper.

Teacher: Miss Sanders

We have been quite busy during the past month. We planted some flowers which should be ready to transplant and take home for Mothers' Day.

In science, we have been studying about the five different classes of animals. Each week we study one kind. We have had some excellent reports on birds and reptiles so far. We have also had quite a few pets visiting our classroom, including a snake, a rabbit, some chicks, a guinea pig and two turtles.

We discussed how a newspaper is made in English class. Sandra Frame's mother talked to us about an old type of printing and we are planning a trip to The Chelsea Standard. The 3rd and 4th grades are taking part in a Young Author's Conference. Two authors were chosen from each grade to go to the conference on May 18. Cathy Doll, from our class, was one of the third graders chosen to go. Chris Martin from Mrs. Peet's class was also selected.

At the conference they will share the stories they have written with young authors from other schools.

Entry to the Young Author's Conference May 18 at Dexter.

MY TRIP TO JUPITER

By Chris Martin

It was 7:45 at Cape Kennedy. As I got into the rocket, I had a strange feeling. I sat down and buckled my seat belt. Oh, by the way, my fellow passengers are: Radar the Radarman, Andy the doctor and Butch the pilot, and my name is Steve Austin. They sat down and buckled their seatbelts, then the countdown began 10-9-8-7-6-5-4-3-2-1-0 lift off. Then I fell asleep.

We were going past Venus when I woke up. "Are we there yet?" I asked.

"Yes sir" was the answer. "Activate the landing gear" I said. "Radar and I are going out to look around."

"You guys always get the good jobs" Andy snickered. We got out and saw a light so we walked toward it. All of a sudden every thing went black. When we woke up, Andy and Butch were firing ray guns outside.

"What's going on?" I asked. "Aliens are attacking us" they said.

We are going back to Earth in 10 seconds 10-9-8-7-6-5-4-3-2-1-0 lift off. We got back to Earth in 3 hours. When we landed we went to the White House and were

awarded a billion dollars and 52,000 acres, a home in Alaska, Florida, California, Hawaii, Mexico, Washington and Maine.

The End.

Entry to the Young Author's Conference May 18 at Dexter

THE SCARY NIGHT

By Cathy Doll

Once in my house my family went away for dinner and the light went out and I was in the dark. I heard some noises. I went to see what they were. I opened the closet and I saw a skeleton. I ran to my room and I saw a "ghost." Then I ran to the door and I saw a vampire, and then I ran to the basement and I saw a werewolf and I ran. Then I saw some bats and they chased me and the skeleton chased me and the ghost chased me and the vampire chased me and the werewolf chased me. And then the lights went on and the skeleton went and the ghost went and the vampire went and the werewolf went and all the bats went. And my family came home.

THE END.

FOURTH GRADE

Teacher: Mrs. Hafer

Reporters: Nancy Ford, Karen Keil, Dawn Moore, and Cheryl Wurster.

In social studies we are studying the British Isles. We just finished studying the Netherlands. Mrs. Hafer is going to bring in different Dutch cheeses so we can taste them.

We had a creative writing contest. Karen Keil and Laura Hines won. They will get to go to Dexter, May 18. They will be there all day and will share their stories and poems with students from many other schools.

We have just finished making a 32-page bird booklet. We have had lots of fun learning about the birds. And now we are getting ready to make our rice birds.

We have one bulletin board with optical illusions. Some of them are really hard to see.

On May 21 we are having our music program. We hope all the parents can come.

Chris Harr brought in her pet rabbit. Its name is "Foxy Lady."

Two of our reading groups have finished their reading tests this week.

We have three softball teams in the 4th grade. We play a game each day at noon, and then trade players like the Big Leagues do.

Teacher: Mrs. Pietila

In Mrs. Pietila's room we are planting things. Some children have brought in seeds and some have brought in fruit pits and pineapple tops to grow.

In social studies we are studying Britain. Andy Castle brought in a paper castle we are making.

We have started long division in math. In science we are going to study birds. We have completed our health books.

We were in a creative writing contest and Laura Hines from our room was one of the two winners. She will be going to a Young Author's workshop in Dexter on May 18.

We had an art show on April 30, and on May 21 we will have our music program.

Jeff Fahey had a birthday April 25. Jeff has a new baby sister. Her name is Anne Marie and she was born on March 20.

Teacher: Mrs. Schmidt

Reporters: Kathy Ingram, Anita Bycraft and Deanna Ramey

We have been doing long division in math. In English we have been learning to do book reports. Everyone has been telling about their favorite books in hopes that others will enjoy reading them.

We have made posters for Earth Week and we put them on the bulletin board to remind everyone to keep things neat and tidy and stop pollution. Some of the rhymes on the posters were "I'll be bitter if you litter," "Hey, man, use the trash can," and "Give a hoot, don't pollute."

We have a new boy in our class and his name is Robert Bentley, and we are happy he is with us. We have had three birthdays in April and May. The people who had birthdays are Deanna Ramey, Cinda Thornton and Brian Cooper.

CONSUMERS' CORNER

HOUSE PLANTS

Here are some tips for keeping plants alive longer:

First, there is no such thing as a house plant—that is, one that is supposed to be grown inside a home, building or office.

When plants are grown indoors several restrictions are imposed on them. Lack of sufficient light and low humidity are probably the most severe restrictions, but temperatures can also be a problem.

Second, many foliage plants prefer a relatively strong, filtered or diffused light. Places near windows or light fixtures are usually suitable but avoid direct sunlight or very dark areas of the home.

Flowering plants such as mums and poinsettias will stand more light than foliage plants and should be placed in bright areas.

Watering is one of the chief causes of failure with plants in the home, especially for containers without drainage holes. Generally speaking, most plants kept indoors require a thorough soaking once a week. But, water only when necessary. Don't let plants stand in water.

Avoid drafty locations and don't place plants near heaters or air conditioners. Most plants grow well in temperatures of 60 to 70 degrees.

Proper fertilization is another important part of growing healthy plants. Follow all the directions on the container so that you don't over-fertilize your plants. Too much might kill them.

BEEN NOTICING THE TOO MANY INSTANCES OF PEOPLE WHO ARE PLANNING TO MUCH FOR THE FUTURE AND MISSING A LOT OF FUN IN THE PRESENT.

Dogs Running Loose Create Local Problem

Last fall, a number of letters appeared in The Standard's Letters to the Editor column regarding dogs running at large in the community and doing what dogs do while they were stopped.

After several weeks of bantering, however, the number of letters tapered off. But a local woman, Mrs. Rosemary Harook, claims that the problem currently is just as bad, if not worse, than it ever was, and intends to go to Village Council May 21, at 7:30 p.m., to present her complaints.

"It's a big problem," Mrs. Harook says, "All these dogs running loose, breaking into garbage bags . . . I know of six people in particular who say that they have problems with dogs around their homes. I want to let the community know that we're going to Village Council, so people can bring their complaints and present them."

As Mrs. Harook readily points out, Chelsea does have a dog-at-large ordinance. What she is talking about, basically, is enforcement of the current ordinance, which from the statements of Chief of Police George Meranuck, seems easier said than done.

Chief Meranuck says that an officer from the Chelsea Police Department goes out to every call that comes to the station regarding an at-large or otherwise unruly dog. If they find that said dog is the property of a resident, the resident is ticketed, and usually pays a \$10 fine.

If the dog is a stray, however, the department's activities have just begun. First officers must take the dog into custody, which is a trick since Chelsea has no dog-catcher. Later a truck from the Huron Valley Humane Society will take the dog to the county society; however, if the dog is captured on a week-end, it may have to be boarded at a

local veterinarian's office, a service that occasionally runs the village up to \$24 per month.

The specifics of the village's dog ordinance, adopted Oct. 15, 1956, make it clear that in any number of ways, a dog can be considered a nuisance—whether running at large, or taking at-large-like liberties while on its leash, or barking consistently, or being considered "of ugly disposition," or being rabid.

The ordinance states that it is the duty of village police officers to "investigate all complaints relating to violation of any provision" of the ordinance, and to enforce all provisions.

In addition to the authorization to seize and impound any at-large dog, violators may be fined up to \$50 in fines or sentenced to up to 30 days in Washtenaw County Jail, or both, by the court's discretion.

The problem, Chief Meranuck says, is that "we have to catch the dog loose. If we can't find it, we can't give anybody a ticket."

Mrs. Harook, while admitting that, "I know we don't pay Chief Meranuck just to chase dogs," contends also that "this is a problem—if we all work together, we can do something about it. We live here; this is our concern."

Mother-Daughter Banquet Features Original Hats

"Hats off to Spring" was the theme of the Mother-Daughter banquet held April 26 for 180 mothers and daughters of the North Sharon Bible church. The ladies were encouraged to make and wear hats.

Roberta Kemp wore the largest hat—a huge Mexican sombrero; Phyllis Passow wore the most unusual, a large exotic bird; Sandy Fletcher wore the prettiest, a wide-brimmed bonnet covered with tawny orange and green feather. Lorella Rouser wore the oldest, a delapidated old felt hat decorated with egg carton flowers. Other unusual hats were a beehive, worn by Jean Rudd, a huge basket of fruit, a mock wedding cake worn by Carol Marr and a light bulb hat worn by Paula Payne.

The women were served by 32 men from the church, who also judged the hats. They enjoyed special music by the McAtee sisters trio and by Jane Lantis and Carol Marsh. Mrs. Gladys Johnson and her daughter, Liz, gave tributes to mothers and daughters. Mrs. Mary Michaels, wife of the late Uncle Chuck of Rural Bible Mission, addressed the women on the subject, "That your daughters may be like pillars of marble." Mrs. Ricky Lantis was Mistress of Ceremonies.

Golf Team 1-2-1 in Week's Competition

Chelsea golfers earned a disappointing record of 1-2-1 in competition in the past week, as their overall record drooped to 6-2-1.

Thursday against Brighton and Saline, at Saline, Bulldog linksmen edged the other Bulldogs, 167-171, then fell to Saline, 162-167. In that match, Mike Fouty had a 41, Chris Rabbit, a 38, Dan Shirilla, 47, and Roger Policht, 40.

Monday at South Lyon, Chelsea tied with the Lions at 191-all, but lost to Milan, 189-191. In this match, Chris Rabbit recorded a 51, Mike Fouty a 42, Jeff Policht a 49, and Dan Shirilla, a 49.

Junior varsity golfers tied with Milan Monday and defeated South Lyon to put their record also at 6-2-1.

Friday Chelsea will meet Lincoln and Novi, at Novi.

SCHOOL LUNCH MENU

Week of May 13-17

Monday—Sloppy joes on buns, slice cheese, buttered carrots, potato sticks, pudding, and milk.

Tuesday—Creamed chicken omelet, mashed potatoes, buttered peas, bread and butter, apple sauce, and milk.

Wednesday—Hot dogs on buns with trimmings, baked beans, cherry cobbler, and milk.

Thursday—Submarines, soup of the day with crackers, celery strips, pineapple cake, and milk.

Friday—Pizza, buttered green beans, juice, bread with peanut butter, peach crisp, and milk.

FFA Team Wins First in State Meet

Two of four Chelsea Future Farmers of America teams that competed in the annual Skills Contest at Michigan State University April 18 earned first and second places.

Placing first in the state was the poultry team of Mark Stapish, Tim Edick, and Brad Smith, which will travel to Kansas City in October for the national poultry judging. Tim Edick is number one in the state in poultry judging.

Earning a second place in the state was the dairy products team of Tom Clemons, Eric Prinzing, and Mike Stapish.

Chelsea teams participating unsuccessfully in the competition were the dairy judging team of Nelson Bollinger, Jerry Huehl, and Doug Welshans, and the livestock judging team of Dave Frame, Don Sullivan, and Greg Heltner.

Girls JV Softball Team Roms Over Lincoln, 39-5

Chelsea's junior varsity girls softball squad literally rampaged over Lincoln Tuesday night, downing them by a merciless score of 39-5.

Karen Keiser led the attack with a grand slam home run, three singles, and a total of 10 RBIs.

Penny Kincer contributed three hits to the Bulldog cause, while Leslie Clark and Dana Clifton were good for two each.

Others who managed one hit were Dawn Bucholz, Apache Huting, Teri Lutovskf, Karen Milliken, Kyle Parker, Diana Pletcher, Pat Salyer, and Sue Schulze.

JV girls currently boast a 3-0 record. They will travel to Novi Friday afternoon.

Girls Track Team Downed By Grass Lake

Chelsea's girls track squad gamely battled cold and wind and Linda Arnold but still fell to the Grass Lake opposition Monday afternoon, 59-32.

Grass Lake's Arnold chalked up four first places—in long jump, hurdles, 100 and 200.

Leading Chelsea's attack once again was Sue Frisbie, who earned a pair of seconds, a third, and ran in the winning 440-yard relay team.

Placing for Chelsea were: 80 yard low hurdles: 2nd, Nancy Wonders, 12.5.

880-run: 2nd, Judy Powers, 2:52.4; 3rd, Julie Proctor, 3:22.5.

100-yard dash: 2nd, Sue Frisbie, 12.1; 3rd, Nancy Wonders, Lou Ann Hanker, 12.4.

220-yard dash: 2nd, Sue Frisbie, 2:48.3; 3rd, Kathy Treado, 3:14.

440-yard run: 2nd, Judy Powers, 1:14.3.

440-yard relay: 1st, Chelsea (Nancy Wonders, Annette Gaken, Kathy Treado, Sue Frisbie).

Long jump: 3rd, Sue Frisbie.

High jump: 2nd, Kathy Treado.

Shot put: 2nd, Annette Gaken; 3rd, Monica Hanna.

Girls Softball Team Edges Lincoln, 13-11

In their league opener, Chelsea's girls softball squad defeated Lincoln, 13-11, at Lincoln Tuesday afternoon.

Chelsea's hitting was led by Lori Fritz, who pounded out four hits, followed by Loraine Clark, Char Steinaway, and Kathy Schmitke, who each were good for two hits.

After relinquishing an early eight-run lead, Chelsea held Lincoln scoreless for the final two innings, while scoring two runs in the top of the seventh to record the win.

The team's record now stands at 3-0. Friday they will travel to Novi for a meeting with the Wildcats.

The temporary hearing loss suffered by individuals exposed to intense noise may become permanent after long or repeated exposure, hearing specialists report.

Beach Track Team Edges Saline, 67-65

Beach Middle school's track team continued its winning ways Tuesday night with a 67-65 edging of Saline.

Winners in the meet were: Shot put: 1st, Leon Brown, 47 ft. 5 in.; 2nd, Tim Welshans, 45 ft. 1/2 in.

High jump: 2nd, Chris Smyth, 5 ft. 2 in.

Long jump: 2nd, Pat Stevenson, 14 ft. 11 in.

Pole vault: 1st, Steve Pennington, 7 ft. 6 in.; 2nd, Greg Reed, 7 ft. 6 in.

880 relay: 1st, Beach (Brian Lewis, Randy Harris, Pat Stevenson, Chris Smyth), 1:49.3.

880-run: 2nd, Todd Weber, 2:14.2 (new school record).

60-yard high hurdles: 2nd, Matt Fischer, :09.8; 3rd, Jason Lindauer, :10.6.

Mile run: 1st, David Dawson, 4:59.9 (new school record).

100-yard dash: 1st, Scott Stafford, :11.6.

440-dash: 1st, Chris Smyth, :61.1.

100-yard low hurdles: 2nd, M. Fischer, :13.9; 3rd, Greg Reed, :14.4.

80-yard dash: 1st, Brian Lewis, :07.4.

75-yard dash: 1st, Scott Stafford, :08.7; 3rd, Tim Welshans, :09.2.

220-dash: 2nd, Pat Stevenson, :29.0.

Senior Citizen Activities

On May 2, a social evening was held at the Korner House with 14 members present. The committee for refreshments was Nine Mathews and Vera Heim.

May 10 at 1 p.m., the kindergarten children of both North and South schools will entertain the Senior Citizens with songs and skits. Afterwards, they will be treated to punch and home-made cookies. Not only the children but the Senior Citizens look forward to this every year.

After this month there will be no more Korner House, as the building has been rented to the Secretary of State for an office. As yet, the Senior Citizens have no place to go. Have you any ideas? Call Norman Eismann if you do.

Club and Social Activities

LYNDON FARM BUREAU Lyndon Farm Bureau Discussion Group held its May 1 meeting with 22 members present for a pot-luck supper and business meeting.

The business meeting included discussion on the amendment, which all members signed.

This will be the last meeting until Sept. 7. A group picnic will be held in August.

AMERICAN LEGION AUXILIARY PAST PRESIDENTS CLUB Past Presidents of the American Legion Auxiliary held a meeting on Tuesday, April 30 at the home of Mrs. Duane Hall.

The meeting was preceded by a pot-luck dinner.

Next meeting will be in July and will be held at Tom's in Jackson.

Young things who race automobiles usually don't pay the repair bills.

Pairings Made For Baseball Tournament

Schedule for qualifying and pre-district rounds for District Baseball Tournament No. 19, which will be held at Chelsea High school, have been announced.

Both Chelsea and Dexter, along with Saline, Tecumseh, Parma Western, and Michigan Center, drew byes in the qualifying rounds, scheduled for May 13-23.

In pre-district games on May 25, pairings will be Chelsea vs. Dexter, Saline vs. Tecumseh, Michigan Center vs. winner of Jackson Northwest-Jackson Lumen Christi game, and Parma Western vs. winner of Columbia Central-Milan game. Rain date for pre-district games is Monday, May 27, Memorial Day.

Semi-finals for the districts are set for 10 a.m. and 1 p.m. June 1, with final district competition following at 4 p.m.

Regional competition is scheduled for June 8; finals for June 15.

Mothers To Be Honored At North Sharon Church

"Mothers have the most important job in all the world, and the most far reaching influence." Pastor Bill Enslin told the congregation at North Sharon Bible church in preparation for Mother's Day. Therefore, every mother will be an honored guest at North Sharon Bible church Sunday. Each will receive an orchid as a token of the church's esteem. Special gifts will be given to the oldest and newest mothers and the one with the most children present in church.

Pastor Enslin has urged each of the congregation to invite their mothers. Mothers of bus children are especially welcome.

Prepare for Garden When Soil Dries

When can I start my garden? Horticulturists at Michigan State University say that warm temperatures and sunshine are not enough. The soil must have time to dry out before it can be worked.

If the soil crumbles in your hand it is ready for planting. If it clings together it is still wet and will remain hard if worked.

When the soil is ready to be worked, spread your fertilizer over the area. Turn the soil under about six inches deep with a garden spade, plow or rototiller. Then finish leveling and smoothing with a rake.

ROASTING TIP Since roasts do continue to cook after removal from the oven, it is best to remove them when the thermometer registers about 5 degrees F. below the temperature desired. Remove strings and with a sharp knife remove backbone from roast before carving.

If everyone thought alike this would be a stagnant world.

Four CHS Debaters Awarded Certificates By Detroit Free Press

Four Chelsea debaters have been awarded Certificates of Merit by the Detroit Free Press for having distinguished themselves as outstanding debaters.

The four are Brian Smith, Keith Cockerline, Dale Koch, and Steven Bennett.

The four participated during the 1973-74 season in the Michigan High School Forensic Association debate series sponsored by the Free Press and the University of Michigan Bureau of School Services.

The topic debated was: "Resolved That the Federal Government should provide a program to employ all employable United States citizens living in poverty."

People who never make mistakes are poor companions.

Beach Middle school art show, Tuesday, May 14, 7 to 9 p.m., Beach art rooms. On show and for sale: pottery, paintings, plaster sculptures, water colors, op and pop art, still life sketches and more!

DEATHS

Julius S. Eder

Limestone Trucking Firm Owner Dies Suddenly Friday
Julius S. Eder, 7745 Forest St., Dexter, died Friday, May 3, at the age of 70.
Born Dec. 31, 1903 in Chelsea, he was the son of Jacob and Mary Eder. He was a member of St. Andrew's United Church of Christ of Dexter and the Elks Lodge No. 325 of Ann Arbor. He was owner and operator of Eder & Son Agricultural Limestone Trucking from 1944 until his retirement in 1959.

In his younger days he played guard for the St. Mary Reserves basketball team, which gained much attention during the early 1920s for compiling a record of 94-4 over four years. In the team's 100th and final game, in 1923, they captured the State Class C title.

Surviving are his widow, Dorothy; a son, Frederick A. White of Ann Arbor; a brother, Leonard of Phoenix, Ariz.; a sister, Mrs. Stanley (Mary) Beal of Chelsea; and several nieces and nephews.
He was preceded in death by a brother, I. J. Eder and a sister, Celia Feilder.

Funeral services were conducted Monday, May 6, at 10:30 a.m. at the Hosmer Funeral Home in Dexter by the Rev. Kenyon Edwards. Burial followed in St. Andrew's Cemetery.

Memorial contributions may be made to St. Andrew's United Church of Christ building fund in Mr. Eder's name. Envelopes are available at the Hosmer Funeral Home.

Herman O. Gross

Life-Long Area Farmer Dies at Veterans Hospital

Herman O. Gross, of 12990 E. Old US-12, died Sunday, May 5, at Veterans Administration Hospital in Ann Arbor at the age of 87.
Born April 22, 1887 at Whitmore Lake, he was the son of Frederick and Wilhelmina Frey Gross. He married Lela May Burnham June 3, 1939. She survives.

He farmed all of his life in the Chelsea area. He was a member of the Ann Arbor Seventh Day Adventist church and a veteran of World War I.

Surviving besides his widow are a brother, Frank Gross of Manchester; two sisters, Mrs. Clarence (Amanda) Eschelbach of Grass Lake and Mrs. Leigh (Bertha) Luick of Chelsea; and one step-grandson, R. C. Anderson of Bradenton, Fla.

Funeral services were conducted Wednesday, May 8, at 2 p.m. at the Staffan Funeral Home by the Rev. Roy Lemon. Burial followed in Oak Grove Cemetery.

Mrs. Benjamin Speer

Former Pontiac Resident Dies at Methodist Home

Mrs. Benjamin (Vera) Speer of Chelsea United Methodist home, died Thursday, May 2, at the age of 66.

Born July 17, 1907, in Athens, Ala., she was the daughter of Job and Phoebe Tucker Lee. She was married to Benjamin Speer Nov. 1, 1947. He preceded her in death Sept. 20, 1970. She came to the Home from Pontiac, May 9, 1973. She was a member of the Central United Methodist church in Pontiac. She is survived by one brother, Leslie Lee, of Northville; one sister, Mrs. Ora (Gladys) Wolfe, of Norwalk, O.; and several nieces and nephews.

Funeral services were conducted Saturday, May 4, at 11 a.m. at the Chelsea United Methodist Home Chapel by Dr. Milton Bank of Ann Arbor. Burial followed at Perry Mount Park Cemetery in Pontiac. Arrangements were by Staffan Funeral Home.

Baseball Team Drops Pair As Hitters Slump

(Continued from page one)
Chelsea hits were supplied by Jeff Sprague, Joel Sprague, Doug Reed, and Tres McCollum.

Pair Nabbed as B&E Suspects At Schumm's

(Continued from page one)

port that at approximately 3:40 a.m. Tuesday, they discovered that the southeast door of Schumm's had been pried open. Discovering no suspects in the building, they encountered minutes later a car driving slowly down M-52.

Upon investigation, they found that the juvenile was driving the vehicle. He said that he had no driver's license and that the car, a 1967 dark green Pontiac, belonged to Wells, whom he had dropped at Tower Shell minutes before to use the bathroom. Police noted that Tower Shell is but 90 feet from Schumm's.

Officer Detting joined the youth in the car waiting for Wells, while the Chelsea Police patrol car and the auxiliary unit from the Washtenaw County Sheriff's Department left the scene. Officer Detting notified the other officers within five minutes that he had taken Wells into custody.

Fritz Schumm, of the restaurant reported that nothing had been taken from his establishment, and police have thus far been unable to locate either a pry bar or gloves used in the break-in.

Richard Fletcher is currently staying in room 105 of the Chelsea Community Hospital.

JOE DOERING receives a tag from National Honor Society members for his contribution to Chelsea Scholarship Committee buckets. The more than \$400 raised in the tag day drive Saturday will go toward providing scholarships for deserving CHS seniors. NHS members with buckets and tags in hand are, from left, Steve Bennett, Keith Cock-erline, and Shelly Porath.

Home Meal Service Needs More Volunteer Drivers

(Continued from page one)
to do it with a partner, that's fine, too," she adds.
An orientation program is provided to acquaint drivers with their duties as well as the functioning of the Home Meal Service Program.
Those interested in volunteering for the driving phase of the Home Meal Service Program should contact Mrs. Jerald Kraus at 475-1689, or Mrs. Art Steinaway at 475-2923.

AGRICULTURE IN ACTION

MICHIGAN FARM BUREAU
Where Has All The Green Gone?
Food is an international language and because of the amazing productivity of U. S. agriculture, farmers have contributed much toward world peace. Peace follows the shipping lanes, and freedom and dignity follow the full stomach.

Cooler Temperatures Good for House Plants

East Lansing—By dialing down your thermostat, you are not only helping alleviate the energy shortage but you are also providing a better atmosphere for your indoor plants, say Michigan State University horticulturists.
The cooler temperatures benefit indoor plants because lower temperatures mean higher humidity. The warm, dry atmosphere, due to artificial heat, found in most homes during the winter is a major problem for indoor plants. This problem is lessened as the heat goes down.

Tree Planting Booklet Available

East Lansing—With spring arriving, now is the time to start thinking about tree planting. Michigan State University's new bulletin, "Tree Planting in Michigan," can be an important asset throughout this important process. Authored by Dr. Melvin R. Koelling, extension specialist in MSU's Department of Forestry, the new publication offers helpful suggestions on things to consider before planting, what kind of trees to plant, and when to plant. It also tells the reader how to prepare the soil for planting, what methods of planting he might try, and outlines a number of suggestions for tree care after planting.

Cards of Thanks

CARD OF THANKS
The family of Gertrude Elkins wishes to extend its thanks and appreciation for the beautiful floral offerings and words of sympathy from her friends and relatives during our recent bereavement. We also wish to thank the Rev. Keller for his words of comfort and thanks also to Mr. and Mrs. Burghardt, for their kindness and consideration.

Washtenaw 4-H Team Wins State Horse Bowl

A team of four Washtenaw county 4-H'ers won the Horse Bowl during the second annual state 4-H Horse Jamboree the week-end of April 6, at Michigan State University.
Competing in the junior division, team members (Lori Lichlyter, Gail Howard, Liz Clark) all of Willis, and Tammy Rhodes of Manchester received a gold medal. Clinton Fisk, a Washtenaw county 4-H leader, was their coach.

Sand Cushions Spraying Lives At Test Sites

Lansing—"Crash cushions" are saving lives and preventing injuries in Michigan freeway accidents, the Department of State Highways and Transportation reports.
During a three-year (1970-73) experiment involving the placement of "crash cushions" at 29 locations where errant drivers could collide with a fixed object, 57 collisions have occurred.

Birthday Gift For Ann Arbor

Lansing—More than four miles of landscaping along M-14 Freeway north and east of Ann Arbor will be done this spring and summer as part of that city's 150th birthday, the State Commission has announced.
The project involves the planting of 930 shrubs, 631 shade and flowering trees and 122 Australian pine trees. They will be planted in highway right-of-way, as on M-14 from the Huron River north and east to the M-14 and US-23 interchange at the northeast corner of Ann Arbor.

Rutherford Reappointed to HCMA Board of Commissioners

Jesse A. Rutherford, former recreation director for the City of Ypsilanti, now starts a new six-year term on the Board of Commissioners of the Huron-Clinton Metropolitan Authority where he continues to represent Washtenaw county.

The appointment was made by the Washtenaw County Board of Commissioners at its (evening) meeting of Wednesday, May 1. Rutherford's term expires on May 1, 1980.

Rutherford has served on the Authority Board since Oct. 12, 1971, when he was appointed to fill an unexpired term which started in 1968.

The Huron-Clinton Metropolitan Authority has nine parks serving the citizens of Washtenaw, Livingston, Macomb, Oakland and Wayne counties. The three HCMA parks in Washtenaw county are Delhi, Dexter-Huron and Hudson Mills Metroparks, each northwest of Ann Arbor.

After 30 years with the department and its director since 1968, Rutherford retired as recreation director of the City of Ypsilanti in February of this year (1974). Rutherford serves on the Board of Trustees of the National Recreation and Park Association and is also a member of the National Recreation and Park Association, the Michigan Park and Recreation Association, the Ypsilanti Kiwanis Club and the Ypsilanti-Ann Arbor Business and Professional League. He earned a Bachelor of Science degree in 1939 from Wilberforce University, Wilberforce, O.

JESSE A. RUTHERFORD

He and his family reside at 330 Wilson St., Ypsilanti.

Long supermarket checkout lines may soon be a thing of the past, if computerized checkout systems become a reality. Government test show that the computer can speed checkout time by 19 percent, cut errors by 57 percent and save food stores around the country about a billion dollars each year.

There are over one billion appliances in 64 million homes in the United States. That's an average of 16 appliances per home.

MISSIONARIES TO FRANCE: The Rev. Henry Linderman, newly approved Assemblies of God missionary to France, will be Mother's Day guest speaker at the First Assembly of God this Sunday. Shown with the Rev. Linderman is his wife, Karen, and daughter Renee.

Newly-Approved Missionary Will Speak at Assembly of God

The Rev. Henry Linderman, a newly-approved Assemblies of God missionary to France, will be Mother's Day guest speaker this Sunday, May 12, at the 11 a.m. service at the First Assembly of God, 14900 Old US-12.

During their first term of missionary service, the Rev. Linderman and his wife, Karen, will be active in literature distribution, evangelism, and the establishment of churches as an outflow of the center of evangelism, which is now under organization in the Latin Quarter of Paris. This center will house the headquarters for a nation-wide Teen Challenge outreach, offices for the International Correspondence Institute, a coffee house and chapel, and a Bible bookstore.

The Rev. Linderman is an alumnus of Central Bible College in Springfield, Mo., and received his bachelor of arts degree in psychology from Wayne State University. He has served as associate pastor in Walled Lake and recently as pastor in Marshall.

In addition, he is an accomplished clarinetist and the musical ministry of the Lindermans will be featured during the special mission service.

M. Wackenhut Earn Personal Sales Plaque
Mike and Carma Wackenhut, 11285 Pleasant Lake Rd., Manchester were recently announced as winners of a personal sales plaque, which can be earned annually by any of the 200,000 Amway distributors in the United States and Canada by achieving a high personal sales goal.

The award was presented to the Wackenhuts by Ray and Lois Niles, 2921 S. Fletcher Rd., Chelsea, who are distributors of Amway Products.

SUNDAY'S SERMON

★ Life ...

The great miracle of life only concerns most of us when birth or death calls it to our attention. Until we have some reason to do so, we do not consider the wonderful workings of the heart and the vital organs which enable us to function as thinking, acting human beings.

Some who are familiar with the workings of the human body say that we begin to die the moment we are born. Others say we are growing in some way until the moment when we breathe our last. For some of us, the latter interpretation is preferable. If we cut a finger, we treat it, keep it clean, and know that soon it will heal. But when it doesn't heal properly, we become concerned. Something is wrong—what we have always taken for granted is not taking place.

So consider life for what it is, a wonderful experience. Make friends with God and enjoy life to the fullest. Wherever you stand in life, at the beginning or near the end, make the most of today.

Helen Lancaster Attends U-M Real Estate Classes

Helen Lancaster of Chelsea was among the 75 persons attending Real Estate Institute II held at Holiday Inn, Farmington, April 29, to May 3.

The Institute is one of a series presented during the year throughout the state by the Real Estate Program of the University of Michigan Extension Service and Graduate School of Business Administration.

Courses in the program lead to a Certificate in Real Estate which is approved by the National Association of Realtors and the Michigan Association of Realtors as meeting the academic qualification toward the Graduate, Realtors Institute (G.R.I.) designation. These courses also provide preparation for the licensing examinations for salesmen and brokers administered by the Michigan Department of Licensing and Regulation.

SPECIAL SCHOOL ELECTION

NOTICE OF SPECIAL ELECTION OF THE QUALIFIED ELECTORS OF Chelsea School District

WASHTENAW AND JACKSON COUNTIES, MICHIGAN TO BE HELD

Wednesday, May 15, 1974
TO THE QUALIFIED ELECTORS OF SAID SCHOOL DISTRICT:

Please Take Notice that a special election of the qualified electors of Chelsea School District, Washtenaw and Jackson Counties, Michigan, will be held in the Large Group Instruction Room of the Dwight E. Beach School on Wednesday, May 15, 1974.

THE POLLS OF ELECTION WILL OPEN AT 7:00 O'CLOCK, A.M., AND CLOSE AT 8:00 O'CLOCK, P.M.

The following proposition will be submitted to the vote of the electors qualified to vote thereon at said special election.

TAX RATE LIMITATION INCREASE PROPOSITION FOR OPERATING PURPOSES

Shall the limitation on the amount of taxes which may be assessed against all property in Chelsea School District, Washtenaw and Jackson Counties, Michigan, be increased by 13.5 mills for a period of two (2) years, 1974 and 1975, for the purpose of providing additional funds for operating expenses (10.98 mills of the above increase is a renewal of 10.98 mills for operating purposes which expired with the 1973 tax levy and 2.52 mills is additional operating millage)?

All school electors who are registered with the township clerk or the township in which they reside are eligible to vote at this election.

COUNTY TREASURER'S STATEMENT

(As required by Act 293, Public Act of Michigan 1947)
I, Hilary E. L. Goddard, County Treasurer of the County of Washtenaw, State of Michigan, do hereby certify that, according to the records of this office, as of April 22, 1974, the total of all voted increases over and above the tax rate limitation established by the constitution of Michigan, in local units of government, affecting the taxable property in Washtenaw County, State of Michigan, in said County, is as follows:

By Washtenaw County	NONE	
By Sylvan Township	NONE	
By Sharon Township	NONE	
By Freedom Township	NONE	
By Lima Township	NONE	
By Dexter Township	NONE	
By Lyndon Township	NONE	
By the School District	NONE	

HILARY E. L. GODDARD
Washtenaw County Treasurer

COUNTY TREASURER'S STATEMENT

I, Merlyn E. Johnson, Treasurer of Jackson County, Michigan, hereby certify that, as of April 17, 1974, the records of this Office indicate that the total of all voted increases over and above the tax rate limitation established by the Constitution of Michigan, in any local units of government affecting the taxable property located in Chelsea School District, Washtenaw and Jackson Counties, Michigan, is as follows:

By Jackson County	NONE	1973
By Great Lake Township	NONE	1973
By Waterloo Township	NONE	1973
By the School District	2.16 Mills	1973 unlimited
By Jackson Intermediate Special Education	1.50 Mills	1973 unlimited
By Jackson Intermediate Vocational Tech.	2.50 Mills	1973 limited

Merlyn E. Johnson, Treasurer
Jackson County, Michigan

This Notice is given by order of the Board of Education of Chelsea School District, Washtenaw and Jackson Counties, Michigan.

You're looking at one of the best investments you can make.

The fact is that the longer you wait to buy that home you've wanted, the more that home is probably going to cost. The two things which determine the cost of housing, supply and demand, aren't improving. The supply is getting smaller and demand is growing.

And... mortgage interest rates are still one of the best bargains around. To prove it to yourself, just take a look at interest rates for other types of loans. Just compare the cost of auto loans, personal loans, vacation loans, and the interest charged on "credit purchases" to our current mortgage interest rates. You'll realize the bargain your home loan really is.

So don't put off buying that home you want... let one of our mortgage experts work out the details or ask your Realtor or Builder about AAFS Gold Key Mortgages.

 Greg McMillan pled guilty to a reduced charge of speeding and was fined \$21.
 James Drine was found guilty of assault and battery and fined \$50.

Charles Bell was fined \$200 and ordered to participate in the Alcohol Safety Program for impaired driving.
 James Glyson was charged with driving without an operator's permit on his person. The charge was dismissed on \$6 costs.
 Roy Richards was found guilty of a reduced charge of impaired driving and will be sentenced June 14.
 Gordon Seoman was fined \$200 for impaired driving.
 Sandra Downey was fined \$25 for allowing her dog to run at large.
 Charles Gray pled guilty to drunk and disorderly and was fined \$50.
 Robert Doolin pled guilty to speeding and was fined \$32.
 Daniel Skodak pled guilty to careless driving and was fined \$34.
 Terrence Schuler was found guilty of driving the wrong way on a road and was fined \$100 and placed on one year probation.
 Charles Watkins was bound over to circuit court for arraignment on a charge of breaking and entering.

Letters to the Editor

To All Voters and Parents of the Chelsea School District:
 Once again the Board of Education is asking that a millage issue be passed for the operating expenses of the school system.
 On March 26, 1974 the request of 14.78 mills was turned down.
 At that time we members of the board thought we were asking for a reasonable amount of money to cover the expenses of continuing the present program and making some very desirable additions to the curriculum. However the voters saw fit to say no and this was a disappointment to us.
 After many hours of re-evaluation and study of the budget, the board is asking that the voted operating millage be set at 13.5 which we feel is absolutely necessary to continue the present program with no frills or additions.
 I was concerned to note that only about 30 percent of the eligible voters of the district exercised their franchise to vote on the millage issue—the last of our fast disappearing local options. Most of our other taxes are set for us, like them or not.
 We need the operating millage for the Chelsea School District so let's everyone express our concern by getting to the polls on Wednesday, May 15.
 Sincerely,
 Howard Haselschwardt,
 President
 Board of Education

March of Dimes Walkathon Earns Nearly \$24,000

An hour-long rain shower failed to dampen the spirits of the 800 participants in the second Washenaw County March of Dimes Walkathon on Sunday, April 28. According to Mrs. Edward Salowitz, chairman of the event, almost 95 percent of the walkers finished the 16-mile course and sponsors of the individual walkers had pledged totaling nearly \$24,000.

Walkers will begin contacting their sponsors for the pledged contributions. To be eligible for the prize drawings on May 17, each walker should turn in his pledge money by May 15. A prize will be awarded to the walker turning in the most money and another awarded to the walker having the largest number of sponsors. Many other prizes, all donated by local merchants and businessmen, will be awarded on a name-drawn basis.

All proceeds from the Walkathon will go to help the March of Dimes continue its fight to prevent birth defects through research and education.

Inquiries regarding items lost during the Walkathon may be made by phoning 761-6331.

Synthetic hair need almost as much washing as real hair. Hairpieces, falls, and wigs should be shampooed after every eight to twelve wearings — more if hairspray is used.

Softball Teams Organized at Sharon Church

Two softball teams have formed at North Sharon Bible church for both men and women (teens and older children included). The teams practice each Monday night at 6:30 at Grass Lake High school, and will compete with other churches in the Fundamental Pastor's Fellowship of Jackson county.

Those participating on the men's team are: Bob Riggs and Lynn Fletcher, captains, Pastor Bill Enns, Assistant Pastor Gerald Proctor, Dalrous Wolff, Art Haab, Joe Lantis, Nelson Jones, Jay Lantis, Ralph Fletcher, Larry McKeever, Jim Mahan, Bill Esch, Bob Weirich, Buff Pollard, Doug Strong, Steve Kime, and Gary Kime.

Those participating on the ladies team are: Mara Riggs, Sandy Fletcher, Carol Sundberg, Lois McAtee, Nancy McAtee, Dorothy Wenzel, Doyleene Sharlow, Cindy Kraz, Liz Johnson, Becky Proctor, Brenda Proctor, Tonja Williamson, Brenda Lantis, Joyce Radke, Lisa Radke, Sandy Patrick, Gwen Patrick, Robin Clark, Sherry Conley, Julie Gear, Holly Jones, Maro Ann Petsch, Sharon Decoster, Michelle Kime and Jane Lantis.

Ultrasuede, a fake leather, is a non-woven blend of 60 percent polyester and 40 percent non-fibrous polyurethane. It sometimes exceeds the price of real suede.

Padre Rio Films Will Be Shown in Nearby Churches

A film documenting the life of Francesco Forgione, known after death as Padre Pio, will be presented in near-by churches through the efforts of a number of Catholic organizations.

Padre Pio, who died in 1968, was the first priest to bear the stigmata, the wounds of Christ.

The film will be presented May 19 in St. Joseph Catholic church in Jackson at 1 p.m.; at St. Francis of Assisi church in Ann Arbor at 5 p.m.; and at St. Alexis Catholic church in Ypsilanti at 8 p.m.

Earns WMU Degree

Among more than 2,000 Western Michigan University students who received their diplomas at Western Michigan University's winter commencement exercises was Jane Oesterle of Chelsea, who received a bachelor of science degree. She is the daughter of Mr. and Mrs. Ralph Oesterle.

ADOPTED MAY 7, 1974.

SIGNED: H. L. Pennington
VILLAGE PRESIDENT

ATTESTED: Loren Keel
VILLAGE CLERK

ORDINANCE NO. 79

An ordinance relative to the designation, regulation and restriction of the location and use of buildings, structures and land for agricultural, residential, commercial, trade industry or other purposes; the regulation and limitation of the height, number of stories and size of buildings and other structures, hereinafter erected or altered; the regulation and determination of the size of yards and other open spaces; the regulation and limitation of the density of population; and pursuant to the aforesaid purposes, to divide the Village of Chelsea into zoning districts of such number, shape and area as may be deemed best suited to carry out the provisions of this ordinance and provide for the enforcement thereof pursuant to Act 207 of the Public Acts of 1927, as amended, known as the Zoning and Enabling Act of Michigan.

THE VILLAGE OF CHELSEA ORDAINS:

ARTICLE I ENACTING CLAUSE, TITLE, PURPOSES

Section 1.1—Enacting Clause

An Ordinance adopted under the authority of, and in accordance with the provisions of the City and Village Zoning Act of 1927, Public Acts of Michigan, to establish comprehensive zoning regulations for the Village of Chelsea, Washtenaw County, Michigan, and to provide for the administration, enforcement and amendment thereof, and the repeal of all ordinances in conflict herewith.

Section 1.2—Title

This Ordinance shall be known and may be cited as "The Zoning Ordinance of The Village of Chelsea". The Zoning Map referred to herein is entitled "Zoning Map, Village of Chelsea".

Section 1.3—Purposes

This Ordinance has been established for the purpose of:

- A. Promoting and protecting the public health, safety, and general welfare;
B. Protecting the character and stability of the agricultural, recreational, residential, commercial, and industrial areas, and promoting the orderly and beneficial development of such areas;
C. Preventing the overcrowding of land and undue concentration of population by regulating the intensity of use of land and the area of open spaces surrounding buildings and structures necessary to provide adequate light, air, and privacy to protect the public health;
D. Lessening and avoiding congestion on public highways and streets;
E. Providing for the needs of agriculture, recreation, residence, commerce, and industry in future growth to conform with the most advantageous uses of land, resources, and properties, with reasonable consideration of other things, the general and appropriate trend and character of land, building, and population development as studies and recommended by the Planning Commission and the Village of Chelsea;
F. Encouraging the most appropriate use of lands in accordance with their character and adaptability, and prohibiting uses which are incompatible with the character of development permitted within specified zoning districts;
G. Conserving the taxable value of land and structures;
H. Conserving the expenditure of funds for public improvements and services;
I. Protecting against fire, explosion, noxious fumes and odors, heat, dust, smoke, noise, vibration, radioactivity, and other nuisances and hazards in the interest of the people;

ARTICLE II GENERAL PROVISIONS

Section 2.1—Scope

Every building and structure erected, every use of any lot, building, or structure established, every structural alteration or relocation of an existing building or structure occurring, and every enlargement or addition to an existing use, building, or structure occurring, after the effective date of this Ordinance shall be subject to all regulations of this Ordinance, which are applicable in the zoning district in which such building, or structure, or lot is located.

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change in the plans, construction, or designated use of any building or structure on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Ordinance, provided that construction shall be completed within three hundred sixty-five (365) days of such effective date and be subject thereafter to the provisions of Section 5.8 of this Ordinance.

The adoption of this Ordinance shall not limit the construction of any building or structure for which a zoning permit had been obtained prior to the effective date of adoption or amendment of this Ordinance, even though such building or structure does not conform to the provisions of this Ordinance, provided that work shall commence and be carried on within thirty (30) days of obtaining such permit and be subject thereafter to the provisions of Section 5.8 of this Ordinance.

Section 2.2—Definitions

For the purpose of this Ordinance certain terms are hereby defined. When not inconsistent with the context, the present tense includes the future; the words used in the singular number include the plural number; and the plural, the singular. The word "shall" is always mandatory and not merely suggestive. The word "person" includes a firm, association, organization, partnership, trust, company or corporation as well as an individual. The words "used" or "occupied" include the words "intended", "designed" or "arranged" to be used or occupied.

2.2.1 Accessory Structure, Building or Use

A detached structure, building or use on the same lot with, and of a nature customarily incidental and subordinate to the principal structure, building or use.

2.2.2 Alley

A public or private way not more than thirty-three (33) feet wide which affords only a secondary means of access to abutting property.

2.2.3 Alter

Any structural change in the supporting or load bearing member of a building, such as bearing walls, columns, beams, girders, or floor joists.

2.2.4 Apartment

A dwelling unit in an apartment house arranged, designed, or occupied as a residence by a single family, individual, or group of individuals.

2.2.5 Automobile Service Station

Structures and premises used or designed to be used for the retail sale of fuels, lubricants or greases, and other operating commodities for motor vehicles, including the customary space and facilities for the installation of such commodities, and including space for servicing, such as polishing, washing, cleaning, greasing, but not including bumping, painting, or refinishing thereof.

2.2.6 Automobile Wrecking

The dismantling or disassembling of used motor vehicles or trailers, or the storage, sale or dumping of dismantled, obsolete, or wrecked vehicles, or their parts.

2.2.7 Basement

A story of a building having part but not more than one-half its height above grade.

2.2.8 Boarding House or Rooming House

A dwelling where meals and/or lodging are provided for compensation to persons by pre-arrangement for definite periods of time.

2.2.9 Building

An enclosed structure having a roof supported by columns, walls, or other devices and used for housing, shelter, or enclosure of persons, animals, or chattels.

2.2.10 Building Height

The vertical distance measured from grade to the highest point of the roof for flat roofs, to the deck line of mansard roofs, and to the average height between eaves and ridges for gable, hip, or gambrel roofs.

2.2.11 Building Setback Line

A line parallel to or concentric with property lines delineating the minimum allowable distance between the street right-of-way and the front of any building.

2.2.12 Central Sanitary Sewerage System

Any person, firm, corporation, municipal department, or board duly authorized to furnish and furnish under federal, state, or municipal regulations to the public a sanitary sewerage disposal system from a central location or plant, but not including septic tanks.

2.2.13 Central Water System

Any person, firm, corporation, municipal department, or board duly authorized to furnish and furnish under federal, state, or municipal regulations to the public a central water system from a central location or plant.

2.2.14 District

A portion of the Village of Chelsea within which certain uniform regulations and requirements apply under the provisions of this Ordinance.

2.2.15 Drive-In Establishment

A business establishment so developed that its retail or service character is primarily dependent on providing a driveway approach or parking spaces for motor vehicles so as to serve patrons while in the motor vehicles as well as within the building.

2.2.16 Dwelling Unit

One or more rooms with independent cooking facilities designed as a unit for residence by only one family.

2.2.17 Dwelling—Single Family

A detached building other than mobile home, designed for or occupied by one (1) family only.

2.2.18 Dwelling—Two Family

A detached building designed for or occupied by two (2) families only, with separate housekeeping and cooking facilities for each.

2.2.19 Dwelling—Multiple Family

A building designed for or occupied by three (3) or more families living independently of each other with separate housekeeping and cooking facilities for each.

2.2.20 Easement

Any private or dedicated public right over, under, across, or along a parcel of land for any purpose.

2.2.21 Essential Services

The erection, construction, alteration, or maintenance by public utilities or municipal departments, commissions, or boards, of underground, surface, or overhead gas, electric, steam or water transmission or distribution systems, collection, communication, supply or disposal systems, including poles, wires, drains, sewers, pipes, conduits, cables, fire alarm boxes, police call boxes, traffic signals or signs and fire hydrants, and other similar equipment and accessories in connection therewith, for the general public health, safety, convenience, or welfare, but not including buildings, towers, or maintenance depots.

2.2.22 Family

One or more persons living together in a room or rooms comprising a single housekeeping unit and related by blood, marriage, or adoption and including the domestic employees thereof. A family is distinguished from a group occupying a rooming-house, boarding-house, lodging-house, club, fraternity-house, hotel, motel, or tourist home.

2.2.23 Home Occupation

An occupation that is traditionally and customarily carried on in the home being primarily incidental to the principal residential use.

2.2.24 Hotel

A building containing guest rooms in which lodging is provided, with or without meals, for compensation and which is open to transient or permanent guests, or both, and where no provision is made for cooking in any guest room.

2.2.25 Junk Yard

A structure or parcel of land where junk, waste, discard, salvage, or similar materials such as old iron or other metal, wood, lumber, paper, rags, cloth, leather, rubber, bagging, cordage, barrels, containers, etc., are bought, sold, exchanged, stored, baled, packed, disassembled, or handled, including a utility wrecking yard, inoperative machines, used lumber, yard, house wrecking, and structural steel materials, and equipment and including establishments for sale, purchase, or storage of salvage and machinery and the processing of used, discarded, or salvaged materials, for any thirty (30) consecutive days.

2.2.26 Kennel

Any lot or premises on which three (3) or more dogs, four (4) months old or more are confined either permanently or temporarily.

2.2.27 Lot

A parcel of land of at least sufficient size to meet minimum zoning requirements for use, coverage, and area; and to provide such yards and other open spaces as herein required; a portion of a lot of record; a combination of contiguous lots of record; contiguous portions of lots of record; or a parcel of land described by metes and bounds.

2.2.28 Lot Area

The area within the lot lines, but excluding that portion in a road or street right-of-way.

2.2.29 Lot Corner

A parcel of land at the junction of and fronting or abutting on two or more intersecting streets.

2.2.30 Lot Depth

The average distance between the front and rear line of a lot measured in the general direction of its side lot lines.

2.2.31 Lot Coverage

The part or percent of the lot occupied by buildings or structures, including accessory buildings or structures.

2.2.32 Lot of Record

A lot which is part of a subdivision and is shown on a map hereof which has been recorded in the Office of the Register of Deeds of Washtenaw County, or a lot described by metes and bounds, the deed to which has been recorded in said office.

2.2.33 Lot Through (Double Frontage)

An interior lot having frontage on two parallel or approximately parallel streets.

2.2.34 Lot Width

The average width measured at right angles to the lot's depth.

2.2.35 Mobile Home

A detached portable residential dwelling unit with a floor area of at least four hundred (400) square feet, prefabricated on its own chassis and intended for long-term occupancy. The unit shall contain sleeping accommodations, a flush toilet, tub or shower, and eating and living quarters. It is designed to be transported on its own wheels or on a flatbed arriving at the site where it is to be occupied as a complete dwelling without permanent foundation and shall be connected to existing utilities. A travel trailer is not to be considered a mobile home.

2.2.36 Mobile Home Park

A tract of land prepared and approved according to the procedures in this Ordinance to accommodate mobile homes on rented or leased lots.

2.2.37 Motel

Any establishment in which individual cabins, courts, or similar structures or units are let or rented to transients for periods of less than thirty days. The term "motel" shall include tourist cabins and motor court. A motor court or motel shall not be considered a multiple dwelling, a hotel, or a mobile home.

2.2.38 Off-Street Parking

A facility providing vehicular parking spaces with adequate drives and aisles for maneuvering so as to provide access for entrance and exit for the parking of automobiles.

2.2.39 Parking Space, Area, Lot

An off-street open area, the principal use of which is for parking of automobiles, whether for compensation or not, or as an accommodation to clients, customers, visitors, or employees.

2.2.40 Roadside Stand

A structure temporarily operated for the purpose of selling only produce raised or produced on the premises where situated, and its use shall not make a commercial district, nor shall its use be deemed a commercial activity.

2.2.41 Sign

Any device designed to inform, or attract the attention of persons not on the premises on which the sign is located; except, however, the following which shall not be included within this definition:

- a. Signs not exceeding one (1) square foot in area and bearing only property numbers, post box numbers, names of occupants of premises, or other identification of premises not having commercial connotations;
b. Flags and insignias of any government, except when displayed in connection with commercial promotion;
c. Legal notices, identification information, or directional signs erected or required by governmental bodies;
d. Integral decorative or architectural features of buildings, except letters, trademarks, moving parts, or moving lights;
e. Signs directing and guiding traffic and parking to private property, but bearing no advertising matter.

2.2.42 Sign Area

The area of a sign consisting of the entire surface or any regular geometric form or combinations of regular geometric forms, comprising all of the display area of the sign and including all of the elements of the matter displayed. Frames and structural members not bearing advertising matter shall not be included in computation of such area.

2.2.43 Sign, On-Site

A sign advertising a product for sale or a service to be rendered on the immediate premises where the sign is located.

2.2.44 Site Plan Review

A review by the Planning Commission and the Village of Chelsea of certain buildings and structures that can be expected to have a significant impact on natural resources, traffic patterns, and on adjacent land uses.

2.2.45 Story

That portion of a building included between the surface of any floor and the surface of the floor above it, or if there is no floor above it, then the space between the floor and the ceiling above it.

2.2.46 Street

A public or private thoroughfare which affords the principal means of access to abutting property having a right-of-way not less than sixty-six (66) feet width.

2.2.47 Structures

Anything constructed, erected or placed with a fixed location on the surface of the ground.

2.2.48 Travel Trailer

A vehicle designed as a travel unit for occupancy as a temporary or seasonal living unit, capable of being towed by a passenger automobile and not exceeding eight (8) feet in width.

2.2.49 Yard, Front

An open, unoccupied space extending the full width of the lot between the front lot line and the nearest line of the principal building on the lot.

2.2.50 Yard, Rear

An open, unoccupied space extending the full width of the lot between the rear line of the lot and the rear line of the principal building on the lot.

2.2.51 Yard, Side

An open, unoccupied space on the same lot with the principal building, between the side line of the principal building and the adjacent side line of the lot and extending from the rear line of the front yard to the front line of the rear yard, and if no front yard is required, the front boundary of the side yard shall be the rear line of the lot.

Section 2.3—Undefined Terms

Any term not defined herein shall have the meaning of common or standard uses.

Section 2.4—Application of Regulations

The regulations established by this Ordinance within each zoning district shall be the minimum regulations for promoting and protecting the public health, safety, and general welfare and shall not preclude the establishment of higher or more restrictive standards or requirements for the authorization of any conditional use permit, where such higher or more restrictive standards or requirements are found necessary by the Planning Commission to attain the purpose of this Ordinance.

ARTICLE III ESTABLISHMENT OF ZONING DISTRICTS

Section 3.1—Establishment of Zoning Districts

The Village of Chelsea is hereby divided into the following zoning districts:

AG-1—Agricultural District

AG-1—Agricultural District

RS-1—Single-Family Residential District—Low Density

RS-2—Single-Family Residential District—Moderate Density

RS-3—Two-Family Residential District—Moderate Density

RM-1—Multiple-Family Residential District—Moderate Density

RM-2—Multiple-Family Residential District—High Density

MH-1—Mobile Home Residential District

C-1—Office District

C-2—General Commercial District

C-3—Highway Service Commercial District

C-4—Restricted Commercial District

I-1—Industrial District

Section 3.2—Official Zoning Map

The zoning districts as provided in Section 3.1 of this Ordinance are bounded and defined on a map entitled "Official Zoning Map, Village of Chelsea, Washtenaw County, Michigan, dated May 7, 1974", which map, with all explanatory matter thereon, is hereby adopted as a part of this Ordinance.

A. Identification of Official Zoning Map

The Official Zoning Map shall be identified by the signature of the Village President, attested by the Clerk. The Official Zoning Map shall be located in the office of the Village Manager and available for examination.

Section 3.3—Interpretation of District Boundaries

Except where specifically designated on the Official Zoning Map, the zoning district boundary lines are intended to follow lot lines, the center lines of streets or alleys, the center lines of creeks, streams, or rivers, the center lines of streets or alleys projected, center lines of railroad rights-of-way lines, section lines, one-quarter section lines, one-eighth section lines, or a corporate limit line all as they existed at the time of the enactment of this Ordinance, as subsequently modified and designated as such boundary line. Where a district boundary does not coincide with any of the above lines, the district boundary shall be dimensioned on the Official Zoning Map.

When the location of a district boundary is uncertain, the Board of Appeals shall interpret the exact location of the district boundary.

ARTICLE IV ZONING DISTRICTS AND REGULATIONS

Section 4.1—Agricultural District (AG-1)

The intent of this district is to set aside land suitable for agricultural development and agricultural related uses.

A. Permitted Uses:

- 1. General and specialized farming and agricultural activities except feedlots, but including the raising or growing and storage or preservation of crops, sod, livestock, poultry, rabbits, fur-bearing animals, and other farm animals, and plants, trees, shrubs, and nursery stock.
2. Sale of agricultural products raised or grown on the farm premises including roadside stands for sale.
3. Single-family detached dwellings.
4. Home occupations only in accordance with the regulations specified in Article V, Section 5.9.
5. On site signs only in accordance with the regulations specified in Article V, Section 5.2.
6. Essential services and structures of a non-industrial character, but not including maintenance depots and warehouses.

B. Conditional Uses:

- 1. Golf Courses.
2. Churches and other buildings for religious worship.
3. Cemeteries.
4. Animal Hospitals.

C. Regulations and Standards:

- 1. Lot Area and Width.
a. No building or structure shall be established on any lot or parcel less than two (2) acres with a minimum width of four hundred (400) feet.
2. Yards.
a. Front Yard. Every lot or parcel shall be provided with a front yard not less than sixty (60) feet.
b. Side Yard. Every lot or parcel shall be provided with side yards each of which shall be not less than thirty (30) feet.
c. Rear Yard. Every lot or parcel shall be provided with a rear yard not less than sixty (60) feet.

Section 4.2—Residential Districts

The Single-Family Residential Districts, Multiple-Family Residential Districts and the Mobile Home Residential Districts are designated principally for residential use and are limited to dwellings and uses normally associated with residential neighborhoods in order to encourage a suitable and healthy environment for family life. The residential districts are designed to regulate the location of residential uses and dwellings according to a well-considered plan which reflects the different types of residential uses and dwellings, the different densities of population and the intensity of land use desired; potential nuisances and hazards which may cause unhealthy conditions; and the relationship of residential uses and dwellings to other areas devoted to agricultural, commercial or industrial use and to streets. The purpose of each residential district is further stated below.

Section 4.2.1—Single-Family Residential District—Low Density (RS-1)

This district is designed to provide residential areas principally for low densities where necessary

urban services and facilities, including central sewerage and water supply systems, can be feasibly provided.

A. Permitted Uses:

- 1. Single-Family detached dwellings.
2. Home occupations only in accordance with the regulations specified in Article V, Section 5.9.
3. On site signs, only in accordance with the regulations in Article V, Section 5.2.
4. Essential services.
5. Accessory uses or structures.
6. Conditional Uses:
a. Planned unit residential developments.
b. Country clubs, recreation centers, public swimming pools, parks, playgrounds, and playfields.
c. Churches and other buildings for religious worship.
d. Public and private nurseries, primary and secondary non-profit schools.
e. Essential service structures of a non-industrial character.
f. Government or community-owned buildings.
g. Golf courses, but not including golf driving ranges and miniature golf courses.
7. Regulations and Standards:
a. Lot area and width.
b. No buildings or structure shall be established on any lot or parcel less than ten thousand (10,000) square feet with a minimum width of eighty (80) feet.
2. Yards.
a. Front Yard. Every lot or parcel shall be provided with a front yard of not less than thirty (30) feet.
b. Side Yard. Every lot or parcel shall be provided with a side yard neither of which shall be less than ten (10) feet.
c. Rear Yard. Every lot or parcel shall be provided with a rear yard of not less than thirty (30) feet.

Section 4.2.2—Single-Family Residential District—Moderate Density (RS-2)

This district is designed to provide moderate density single-family residential dwellings principally in older areas of the Village and where necessary urban services and facilities can be feasibly provided, including central sanitary sewerage and central water systems.

A. Permitted Uses:

- 1. Single-family detached dwellings.
2. On-site signs in accordance with regulations specified in Article V, Section 5.2.
3. Essential services.
4. Home occupations in accordance with regulations specified in Article V, Section 5.9.
5. Conditional Uses:
a. Planned-unit residential developments.
b. Recreation centers, public swimming pools, park, playgrounds, and playfields.
c. Churches and other buildings for religious worship.
d. Public and private nurseries, primary and secondary non-profit schools.
e. Essential service structures of a non-industrial character.
f. Government or community-owned buildings.

C. Regulations and Standards:

- 1. Lot area and width.
a. No building or structure shall be established on any lot or parcel less than twenty thousand (20,000) square feet. There shall be provided twenty thousand (20,000) square feet of land area for the first three (3) units and four thousand (4,000) square feet of land area for each additional unit. This district permits 8.9 multiple dwellings per acre.
2. Yards.
a. Front Yard. Every lot or parcel shall be provided with a front yard of not less than twenty-five (25) feet.
b. Side Yards. Every lot or parcel shall be provided with side yards which total twenty-five (25) feet one of which shall be not less than fifteen (15) feet.
c. Rear Yard. Every lot or parcel shall be provided with a rear yard of not less than twenty-five (25) feet.

Section 4.2.3—Two-Family Residential District (RS-3)

This district is designed to provide moderate density single-family and two-family residential dwellings principally in older areas of the Village which were developed on smaller lots and where necessary urban services and facilities can be feasibly provided, including central sanitary sewerage and central water systems.

A. Permitted Uses:

- 1. Planned-unit residential developments.
2. Recreation centers, public swimming pools, park, playgrounds, and playfields.
3. Churches and other buildings for religious worship.
4. Public and private nurseries, primary and secondary non-profit schools.
5. Essential service structures of a non-industrial character.
6. Government or community-owned buildings.

C. Regulations and Standards:

- 1. Lot area and width.
a. No building or structure shall be established on any lot or parcel less than seventy-five hundred (7500) square feet with a minimum width of sixty (60) feet.
2. Yards.
a. Front yard. Every lot or parcel shall be provided with a front yard of twenty (20) feet.
b. Side Yards. Every lot or parcel shall be provided with side yards which total not less than fifteen (15) feet one of which shall be not less than ten (10) feet.
c. Rear Yard. Every lot or parcel shall be provided with a rear yard of not less than twenty (20) feet.

Section 4.2.4—Multiple-Family Residential District—Moderate Density (RM-1)

This district is designed to permit a moderate density of population and a moderate intensity of land use in those areas which are served by a central water supply system and a central sanitary sewerage system and which abut or are adjacent to such other uses or amenities which support, complement, or serve such a density and intensity.

A. Permitted Uses:

- 1. Multiple-family dwellings.
2. Two-family dwellings.
3. On site signs in accordance with regulations specified in Article V, Section 5.2.
4. Essential services.
5. Accessory uses or structures.
6. Conditional Uses:
a. Planned-unit residential developments.
b. Public swimming pools, recreation centers, parks, playgrounds, and playfields.
c. Churches and other buildings for religious worship.
d. Public and private nurseries, primary and secondary non-profit schools, and colleges and universities.
e. Essential service structures of a non-industrial character.
f. Boarding and rooming houses.
g. Government or community-owned buildings.
h. Funeral establishments.

C. Regulations and Standards:

from creating any type of nuisance or health hazard. Running water from a state-tested and approved supply, designed adequate from a minimum flow of two hundred (200) gallons per day per mobile home site shall be piped to each trailer. Sewer connections shall not exceed ten (10) feet in length above ground.

b. Storm drainage facilities shall be so constructed as to protect those that will reside in the mobile home park, as well as the property owner adjacent to the park.

18. Disposal of garbage and trash.

a. Any method used shall be approved by the State and inspected periodically by the Washnetaw County Health Department.

b. Adequate incinerators, if provided, shall be conveniently located so as not to create a nuisance and be designed so that combustible materials will be reduced to an odorless gas and inorganic ash under any weather condition.

c. Trash not burned shall be stored in a conveniently located similarly designed enclosed structure(s). The removal of non-combustible trash shall take place not less than once a week.

19. All electric, telephone and other lines from supply poles or other sources to each mobile home site shall be underground. The electrical systems shall be of such voltage and of such capacity to adequately serve all users in the park at peak periods. When separate meters are installed, they shall be located in a uniform manner.

20. Any fuel oil and gas storage shall be centrally located in underground tanks, at a distance away from any mobile home site as it is found to be safe. All fuel lines leading to mobile home sites shall be underground and so designed as to conform with the Village of Chelsea Building Code and any State Code that is found to be applicable. When separate meters are installed, each shall be located in a uniform manner.

21. A buffer of trees and shrubs not less than twenty (20) feet in depth shall be located and maintained along all boundaries of such park excepting at established entrances and exits serving such park. When necessary for health, safety, and welfare, a fence shall be required. No fence shall be higher than six (6) feet in height to separate park from an adjacent property.

22. A recreation space of at least three hundred (300) square feet per mobile home site in the park shall be developed and maintained by the management. This area shall not be less than one hundred (100) feet in its smallest dimension and its boundary no further than five hundred (500) feet from any mobile home site served. Streets, parking areas, and laundry rooms are not to be included as recreation space in computing the necessary area.

23. All driveways, motor vehicle parking spaces and walkways within such park shall be hard surfaced and adequately drained and lighted for safety and ease of movement.

24. Minimum widths of roadways within park shall be as follows:

Motor Vehicle Parking	Traffic Use	Minimum Pavement Width
Parking prohibited	2-way road	22 feet
Parallel parking, 1 side only	1-way road	21 feet
Parallel parking, 2 sides	1-way road	31 feet
Parallel parking, 2 sides	2-way road	42 feet

25. Walkways shall not be less than four (4) feet in width excepting that walkways designed for common use of not more than three (3) mobile home sites shall not be less than three (3) feet in width.

26. When exterior television antenna installation is necessary, a master antenna shall be installed and extended to individual stands by underground lines. Such master antenna shall be so placed as not to be a nuisance to park residents or surrounding areas.

27. One (1) automobile parking space shall be provided within one hundred fifty (150) feet of each mobile home site. The mobile home park shall provide one additional automobile parking space for every two (2) mobile home stands.

28. No trailer designed for temporary or seasonal living shall be occupied in a mobile home park.

Section 4.3—Office District (O-1)

The Office District is designed principally for office use and those uses which are customarily associated with offices.

A. Permitted Uses:

1. Medical and dental clinics.
2. Laboratory, dental or medical.
3. Studio for professional work.
4. Office of architects, engineers, surveyors, community planners and other professions of similar nature.
5. Offices of executives, administrative, legal, accounting, insurance, real estate and uses of similar nature.
6. Essential services.
7. On-site signs in accordance with the regulations specified in Article V, Section 5.2.

B. Conditional Uses:

1. Hospitals, convalescent or nursing homes and sanatoriums.
2. Funeral homes.
3. Planned unit development.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than ten thousand (10,000) square feet with a minimum width of eighty (80) feet.
2. Yards.
- a. Front Yard. Every lot or parcel shall be provided with a front yard of not less than thirty (30) feet.

b. Side yards. Every lot or parcel shall be provided with side yards neither of which shall be less than ten (10) feet.

c. Rear yard. Every lot or parcel shall be provided with a rear yard of not less than thirty (30) feet.

Section 4.4—Commercial Districts

The Neighborhood Commercial District, General Commercial District, Restricted Commercial District and Highway Commercial District are designed to limit compatible commercial enterprises at appropriate locations to encourage efficient traffic movement, parking, and utility service; advance public safety; and protect surrounding property. The commercial districts are designed to regulate the location of these businesses according to a well-considered plan which determined the types of such uses and the intensity of land, street and highway use in each such district; potential nuisances and hazards which may cause unsafe conditions; and the relationship of commercial uses to each other and to other areas devoted to agricultural, residential, or industrial use and to streets and highways. The purpose of each commercial district is further stated below.

Section 4.4.1—Neighborhood Commercial District (C-1)

This district is designed to encourage planned and integrated groupings of stores that will retail convenience goods and provide personal services to meet regular and recurring needs of the neighborhood resident population. To these ends, certain uses, which would function more effectively in other districts and would interfere with the operation of these business activities and the purpose of this district, have been excluded.

A. Permitted Uses:

1. Personal service, including barber shops and beauty salons; medical and dental clinics; dry cleaners and self-service laundromats; and sale and repair shops for watches, shoes, radios, and televisions.
2. Business services including banks, loan offices, real estate offices, and insurance offices.
3. Offices of an executive, administrative, or professional nature.
4. Retail sale of foods, drugs, hardware, notions, books and similar convenience goods.
5. On-site signs, only in accordance with the regulations as specified in Article V, Section 5.2.
6. Essential services and structures of an non-industrial character.
7. Accessory uses or structures.

B. Conditional Uses:

1. Planned unit development.
2. Churches and other buildings for religious worship.
3. Government or community-owned buildings, but not including schools.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than ten thousand (10,000) square feet with a minimum width of eighty (80) feet.
2. Yards.
- a. Front yard. Every lot or parcel shall be provided with a front yard of not less than thirty (30) feet.

Section 4.4.2—General Commercial District (C-2)

This district is intended to encourage planned and integrated groupings of retail, service, and administrative establishments which will retail convenience and comparison goods and provide personal and professional services for the entire area and to accommodate commercial establishments which cannot be practically provided in a neighborhood commercial area.

A. Permitted Uses:

1. Any use permitted in the Neighborhood Commercial District.
2. Business schools, including dance schools, music schools, and art schools.
3. Indoor retail sales establishments.
4. Indoor commercial amusements and recreation services, including theaters, bowling alleys, and roller and ice skating rinks.
5. Establishments serving food and/or alcoholic beverages, but not including drive-in types.
6. Clubs and lodges.
7. Funeral homes.
8. Printing establishments.
9. On-site signs in accordance with the regulations as specified in Article V, Section 5.2.
10. Accessory uses or structures.

B. Conditional Uses:

1. Essential services and structures of a non-industrial character.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than fifteen thousand (15,000) square feet with a minimum width of one hundred (100) feet.
2. Yards.
- a. Front yard. Every lot or parcel shall be provided with a front yard of not less than thirty (30) feet.

Section 4.4.3—Restricted Commercial District (C-3)

This district is intended to provide for various commercial establishments offering accommodations, supplies and services to local as well as through automobile and truck traffic. These districts should be provided at locations along major thoroughfares or adjacent to the interchange ramps of a limited access highway facility and should encourage grouping of various facilities into centers and discourage dispersion of these activities.

A. Permitted Uses:

1. Automobile service stations.
2. Sales, rentals, and services of motor vehicles, trailers, and boats.
3. Drive-in retail and service establishments, except drive-in theaters.
4. On-site and off-site signs, only in accordance with regulations as specified in Article V, Section 5.2.
5. Motels and hotels.
6. Establishments serving food or alcoholic beverages.
7. Essential services and structures of a non-industrial character.
8. Accessory uses or structures.
9. Indoor and outdoor commercial amusements.

B. Conditional Uses:

1. Automobile repair garages.
2. Drive-in theaters.
3. Car wash.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than fifteen thousand (15,000) square feet with a minimum width of one hundred (100) feet.
2. Yards.
- a. Front yard. Every lot or parcel shall be provided with a front yard of not less than thirty-five (35) feet.
- b. Side Yards. Every lot or parcel shall be provided with side yards neither of which shall be less than twenty (20) feet.
- c. Rear yard. Every lot or parcel shall be provided with a rear yard of not less than thirty-five (35) feet.

C. Regulations and Standards:

1. No minimum lot size or front, side or rear yards are required in this district providing that no building or structure shall occupy more than ninety (90) percent of any lot or parcel.

Section 4.4.3—Highway Service Commercial District (C-3)

This district is intended to provide for various commercial establishments offering accommodations, supplies and services to local as well as through automobile and truck traffic. These districts should be provided at locations along major thoroughfares or adjacent to the interchange ramps of a limited access highway facility and should encourage grouping of various facilities into centers and discourage dispersion of these activities.

A. Permitted Uses:

1. Automobile service stations.
2. Sales, rentals, and services of motor vehicles, trailers, and boats.
3. Drive-in retail and service establishments, except drive-in theaters.
4. On-site and off-site signs, only in accordance with regulations as specified in Article V, Section 5.2.
5. Motels and hotels.
6. Establishments serving food or alcoholic beverages.
7. Essential services and structures of a non-industrial character.
8. Accessory uses or structures.
9. Indoor and outdoor commercial amusements.

B. Conditional Uses:

1. Automobile repair garages.
2. Drive-in theaters.
3. Car wash.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than fifteen thousand (15,000) square feet with a minimum width of one hundred (100) feet.
2. Yards.
- a. Front yard. Every lot or parcel shall be provided with a front yard of not less than thirty-five (35) feet.
- b. Side Yards. Every lot or parcel shall be provided with side yards neither of which shall be less than twenty (20) feet.
- c. Rear yard. Every lot or parcel shall be provided with a rear yard of not less than thirty-five (35) feet.

Section 4.4.4—Restricted Commercial District (C-4)

The purpose of this district is to provide commercial service to the community which are most suitable along portions of major arteries entering the Village.

A. Permitted Uses:

1. Offices such as banks, loan, professional, executive, administrative, real estate and uses of a similar nature.
2. Stores and shops conducting retail business which do not involve the outdoor storage of materials.
3. Restaurants and other establishments serving food and/or beverages when conducted wholly within a fully enclosed building but not including drive-in types.
4. Indoor commercial recreation facilities including bowling alleys and uses of a similar nature.
5. On-site signs in accordance with regulations specified in Article V, Section 5.2.

B. Conditional Uses:

1. Automotive sales and services, wherein the outdoor display of new and used equipment is confined to rear or side yards.

C. Regulations and Standards:

1. Lot area and width.
- a. No minimum lot area will be required but no lot or parcel shall be less than sixty-six (66) feet in width.
2. Yards.
- a. Front Yard. Every lot or parcel shall be provided with a front yard of not less than seventy-six (76) feet. The front yard may be used for the parking of automobiles to depth of sixty-six (66) feet measured from the building front.
- b. Side Yards. Every lot or parcel shall be provided with side yards totaling twenty-one (21) feet in width and no side yard shall be less in width than six (6) feet.
- c. Rear Yard. Every lot or parcel shall be provided with a rear yard of not less than twenty-five (25) feet.

Section 4.4.5—Industrial District (I-1)

This district is designed to provide suitable space for industrial operations of all types that can comply with all provisions of this Ordinance and can assure protection of the public interest and surrounding property and persons.

A. Permitted Uses:

1. All industrial uses not in conflict with any enacted state or local laws or any provision of this Ordinance which meet the requirements of Article V, Section 5.2 except junk yards and sanitary landfills.
2. On-site and off-site signs only in accordance with the regulations specified in Article V, Section 5.2.
3. Essential services and structures.

B. Conditional Uses:

1. Bulk oil storage.

C. Regulations and Standards:

1. Lot area and width.
- a. No building or structure shall be established on any lot or parcel less than fifteen thousand (15,000) square feet with a minimum width of one hundred (100) feet.
2. Yards.
- a. Front yard. Every lot or parcel shall be provided with a front yard of not less than thirty-five (35) feet.
- b. Side yards. Every lot or parcel shall be provided with side yards neither of which shall be less than twenty-five (25) feet.
- c. Rear yard. Every lot or parcel shall be provided with a rear yard of not less than thirty-five (35) feet.

yards neither of which shall be less than twenty-five (25) feet.

c. Rear yard. Every lot or parcel shall be provided with a rear yard of not less than thirty-five (35) feet.

d. Where a lot abuts a railroad there shall be no required yard setbacks on that portion of the lot.

3. Transition strips.

a. A use, building or structure on any lot in any Industrial District abutting a lot in any residential or commercial district shall provide a transition strip of at least fifty (50) feet; the inner twenty (20) feet of which may be used for parking.

b. Except for landscape improvements and necessary drives and walks, the front yard shall remain clear and shall not be used for parking, loading-unloading, storage, or accessory buildings and structures.

ARTICLE V SUPPLEMENTAL REGULATIONS

Section 5.1—Purpose

It is the purpose of this Article of this Ordinance to provide regulations and requirements that supplement the provisions contained under the respective district regulations in Article IV, and may or may not apply in all zoning districts.

Section 5.2—Sign Regulations

A. General Sign Regulations:

1. No sign shall be erected at any location, where by reason of the position, size, shape, color, movement, or illumination, may interfere with or obstruct the view of traffic, nor shall any sign be confused with any authorized traffic sign, signal, or device.
2. All signs shall be designed, constructed, and maintained so as to be appropriate in appearance with the existing or intended character of their vicinity so as not to change the esthetic character of such area.
3. In the Agricultural District, all Residential districts, Neighborhood Commercial District, and the Office District, signs may be illuminated only by non-flashing, reflected light. Any light used to illuminate such signs shall be so arranged as to reflect light away from adjoining premises and streets. All signs must conform to the yard requirements for the district in which they are located.
4. In the General Commercial, Highway Service Commercial, Restricted Commercial, and General Industrial Districts, all signs may be illuminated internally or by reflected light provided the source of light is not directly visible and is so arranged to reflect away from the adjoining premises and streets. No illumination involving movement or flashing by reason of the lighting arrangement or other devices shall be permitted.
5. Unless otherwise specifically stated, all signs shall conform to the yard and height requirements of the district in which said sign is located.
6. Signs in the Highway Service District may be placed up to ten (10) feet from the front property line and shall conform to all other provisions of the District.

B. Permitted On-Site Signs in Agricultural District:

The following on-site signs are permitted on any lot in the Agricultural District:

1. One on-site sign advertising the sale or lease of the lot, chalets, or building, not exceeding six (6) square feet in area.
2. One on-site sign announcing a home occupation not to exceed three (3) square feet in area.
3. One on-site sign identifying a park, school building, or other authorized use not to exceed eighteen (18) square feet in area.
4. One on-site sign advertising the type of farm products grown on the farmstead not to exceed twelve (12) square feet in area.

C. Permitted On-Site Signs in Residential Districts:

The following on-site signs are permitted on any lot in residential districts:

1. One on-site sign advertising the sale or lease of the lot, chalets, or building, not exceeding six (6) square feet in area.
2. One on-site sign announcing a home occupation, boarding home, or professional service, not to exceed three (3) square feet in area and it shall be attached flat against the front wall of the building.
3. One on-site sign advertising a recorded subdivision or development not to exceed thirty-two (32) square feet in area. Such sign shall be removed within one year after the sale of ninety (90%) percent of all lots or units within said subdivision or development.
4. One on-site sign not having commercial connotations identifying a multiple-family building or development or mobile home park not to exceed eighteen (18) square feet in area.
5. One on-site sign identifying a school, church, public building, or other authorized use, not to exceed eighteen (18) square feet in area.

D. Permitted On-Site Signs in Neighborhood Commercial, Office and Restricted Commercial Districts:

The following on-site signs are permitted on any lot in the Neighborhood Commercial, and Office Districts:

1. One on-site identification sign may be affixed flat against the wall of a building. The total sign area shall not exceed one-quarter (1/4) square foot for each foot in length or height of the wall, whichever is greater. No such sign shall extend above the wall to which it is affixed.
2. One on-site free-standing identification sign may be erected for a neighborhood shopping center. Such sign shall not exceed twenty-four (24) square feet in area.

3. One on-site free-standing identification sign may be erected for a shopping center or other integrated group of stores or commercial buildings. The area of said sign shall be based on one (1) square foot for each front foot of building, or buildings, for which it is established; however, it shall not exceed two hundred (200) square feet in area, nor be closer to the front, side, or rear property line, than one-half the distance of the required building setback.

4. In the Central Business District, which is defined as that area along Main Street between Summit Street and the railroad tracks and all contiguous commercial zoned land east and west of Main Street, all signs shall be affixed flat against the wall of the building.

F. Off-Site Signs:

Off-site signs, sign advertising a product for sale or a service to be rendered at a location other than the premises, shall be permitted in the Highway Service Commercial, and all Industrial Districts under the following conditions:

1. Off-site signs are required to conform to yard and height requirements as other principal structures or buildings in the zone in which they are situated.
2. Where two (2) or more off-site signs are along the frontage of a single street or highway they shall not be less than one thousand (1,000) feet apart. A double face (back to back) or a V-type structure shall be considered a single sign.
3. The total surface area, facing in the same direction of any off-site sign, shall not exceed three hundred (300) square feet in area.
4. No off-site sign shall be erected on the roof of any building, nor have one sign above another sign.
5. Off-site signs may be illuminated by reflected light only, provided the source of light is not directly visible and is so arranged to reflect away from the adjoining premises and provided that such illumination shall not be so placed as to cause confusion or a hazard to traffic or conflict with traffic control signs or lights. No illumination involving movement by reason of lighting arrangement or other devices shall be permitted.

G. Signs for Automobile Service Stations:

Notwithstanding other provisions of this Ordinance, one (1) permanently installed sign shall be permitted on each street frontage, so installed so that a clear view of street traffic by motorists or pedestrians may not be obstructed in any way to a height of sixteen (16) feet other than necessary supports, and not exceeding twenty-five (25) square feet in area. A sign or legend may also be placed flat on the main building or fuel pump canopies.

H. Portable Signs:

Portable signs shall be prohibited in all districts.

I. Elimination of Nonconforming Signs:

Nonconforming signs shall be eliminated or made to conform by the owner within five (5) years after the date of the enactment of this Ordinance.

Section 5.3—Off Street Parking Requirements

In all districts, there shall be provided at the time any building, structure, or use is established, enlarged, or increased in capacity, off-street parking spaces for motor vehicles with the requirements herein specified. Such off-street parking spaces shall be maintained and shall not be encroached upon by structures or other uses so long as the principal building, structure, or use remains, unless an equivalent number of such spaces are provided elsewhere in conformance with this Ordinance.

A. Plans:

Plans and specifications showing required off-street parking spaces, including the means of access and interior circulation, shall be submitted to the Zoning Inspector for review at the time of application for a zoning compliance permit for the erection or enlargement of a building.

B. Location of Off-Street Parking Areas:

Required off-street parking facilities shall be located on the same lot as the principal building or on a lot within three hundred (300) feet thereof except that this distance shall not exceed one hundred fifty (150) feet for single family and two-family dwellings.

This distance specified shall be measured from the nearest point of the parking facility to the nearest point of the lot occupied by the building or use that such facility is required to serve.

C. Parking in Residential Areas:

Parking of motor vehicles in residential districts shall be limited to passenger vehicles, and not more than one (1) commercial vehicle of the light delivery type not to exceed one (1) ton shall be permitted per dwelling unit. The parking of any other type of commercial vehicle, except those parked on school or church property, is prohibited in a residential zone. Parking of not more than one (1) recreation vehicle or travel trailer shall be permitted providing it is parked behind the front line of the dwelling and is not occupied at any time in any single-family district. Parking of a recreational vehicle or travel trailer in multiple-family district shall be permitted in areas which are specifically designated as such, and further provided that these trailers and vehicles shall not be occupied.

D. Off-Street Parking Area Design:

1. Each off-street parking space for automobiles shall be not less than two hundred (200) square feet in area, exclusive of access drives or aisles, and shall be of usable shape and condition.
2. There shall be provided a minimum access drive of ten (10) feet in width, and where a turning radius is necessary, it will be of such an arc as to reasonably allow unobstructed flow of vehicles.
3. Parking aisles for automobiles shall be of sufficient width to allow a minimum turning movement in and out of parking space. The minimum width of such aisles shall be:
 - a. For ninety (90) degree or perpendicular parking, the aisle shall be not less than twenty-two (22) feet in width.
 - b. For sixty (60) degree parking, the aisle shall not be less than eighteen (18) feet.
 - c. For forty-five (45) degree parking, the aisle shall not be less than thirteen (13) feet in width.
 - d. For parallel parking, the aisle shall not be less than ten (10) feet in width.
4. All off-street parking spaces shall not be closer than five (5) feet to any property line, except where a wall, fence, or compact planting strip exists as a parking barrier along the property line.
5. All off-street parking areas shall be drained so as to prevent drainage to abutting properties and shall be constructed of materials which will have a dust-free surface resistant to erosion.
6. Any lighting fixtures used to illuminate any off-street parking area shall be so arranged as to reflect the light away from any adjoining residential lot or institutional premises.
7. Any off-street parking area providing space for five (5) or more vehicles shall be effectively screened on any side which adjoins or faces property adjoining a residential lot or institution, by a wall, fence or compact planting not less than four (4) feet in height. Planting shall be maintained in good condition and not encroach on adjoining property.
8. All off-street parking areas that make it necessary for vehicles to back out directly into a public road are prohibited, provided that this prohibition shall not apply to off-street areas of one-two or two-family dwellings.

E. Collective Parking:

Requirements for the provision of parking facilities with respect to two or more property uses of the same or different types may be satisfied if the permanent allocation of the requisite number of spaces designated is not less than the sum of individual requirements.

F. Determining Requirements:

For the purpose of determining off-street parking requirements the following units of measurement shall apply:

1. Floor Area:

In the case where floor area is the unit for determining the required number of off-street parking spaces, said unit shall mean the gross floor area, except that such floor area need not include any area used for parking within the principal building and need not include any area used for incidental service storage, installations of mechanical equipment, penthouse housing ventilators and heating systems, and similar uses.

2. Places of Assembly:

In stadiums, sports arenas, churches, and other places of assembly in which those in attendance occupy benches, pews, or other similar seating facilities, each eighteen (18) inches of such seating facilities shall be counted as one (1) seat. In cases where a place of assembly has both fixed seats and open assembly area, requirements shall be computed separately for each type and added together.

3. Fractions:

When units of measurement determining the number of required parking spaces result in requirement of a fractional space, any fraction up to and including one-half (1/2) shall be disregarded and fractions over one-half (1/2) shall require one (1) parking space.

4. Schedule of Off-Street Parking Spaces:

The minimum required off-street parking spaces shall be set forth in the following Schedule of Off-Street Parking Spaces. Where a use is not specifically mentioned, the parking requirements of a similar or related use shall apply.

Use

Use	Parking Space Requirements
Automobile or Machinery Sales and Service Garages	One (1) space for each two hundred (200) square feet of show-room floor area plus two (2) spaces for each service bay plus one (1) space for each two (2) employees.
Bank, Business, and Professional Offices	One (1) space for each two hundred (200) square feet of gross floor area.
Barber Shops and Beauty Parlors	One (1) space for each chair plus one (1) space for each employee.
Bowling Alleys	Seven (7) spaces for each alley.
Churches, Auditoriums, Stadiums, Sports Arenas, Theaters, Dance Halls, Assembly Halls other than Schools.	One (1) space for each four (4) seats.
Dwelling Unit	Two (2) spaces for each family or dwelling unit.
Funeral Homes and Mortuaries	Four (4) spaces for each parlor or one (1) space for each fifty (50) square feet of floor area plus one (1) space for each fleet vehicle, whichever is greater.
Furniture, Appliance Stores, Household Equipment and Furniture Repair Shops	One (1) space for each four hundred (400) square feet of floor area.
Hospitals	One (1) space for each bed excluding bassinets plus one (1) space for each two (2) employees.
Hotel, Motels, Lodging Houses, Boarding Homes	One (1) space for each living unit plus one (1) space for each two (2) employees.
Automobile Service Stations	One (1) space for each eight hundred (800) square feet of floor area plus one (1) space for each four (4) employees.
Manufacturing, Fabricating, Processing and Bottling Plants, Research and Testing Laboratories	One (1) space for each two (2) employees on maximum shift.
Medical and Dental Clinics	One (1) space for each two hundred (200) square feet of floor area plus one (1) space for each employee.
Restaurants, Beer Parlors, Taverns, and Night Clubs	One (1) space for each two (2) patrons of maximum seating capacity plus one (1) space for each two (2) employees.
Self-Service Laundry or Dry Cleaning Stores	One (1) space for each two (2) washing and/or dry cleaning machines.
Elementary and Junior High Schools, Private or Public	One (1) space for each employee normally engaged in or about the building or grounds plus one (1) space for each thirty (30) students enrolled.
Senior High School and Institutions of Higher Learning, Private or Public	One (1) space for each employee in or about the building or grounds plus one (1) space for each four (4) students.
Super Market, Self-Service Food and Discount Stores	One (1) space for each two hundred (200) square feet of floor area plus one (1) space for each two (2) employees.
Wholesale Establishments and Warehouses	One (1) space for each four hundred (400) square feet of floor area plus one (1) space for each two (2) employees.

H. Exception:

The parking requirements for all uses proposed on a lot shall be cumulative, unless the Planning Commission shall find that the parking requirements of a particular land use occur at different hours from those of other contiguous land uses, such that particular land use parking areas can be advantageously used during non-conflicting hours by other contiguous land use, in which event the required parking spaces for such particular land use may be reduced by the Planning Commission to a minimum of the greatest number of spaces required for any of such contiguous land uses.

Section 5.4—Off-Street Loading and Unloading Requirements

In connection with every building, structure, or use hereafter erected, except single- and two-family dwelling unit structures, which customarily receive or distribute material or merchandise by vehicle, there shall be provided on the same lot with such buildings, off-street loading and unloading space.

A. Plans:

Plans and specifications showing required loading and unloading spaces including the means of ingress and egress and interior circulation shall be submitted to the Zoning Inspector for review at the time of application for a zoning compliance permit.

B. Off-Street Loading Area Design:

1. Each off-street loading and unloading space shall not be less than ten (10) feet in width and fifty-five (55) feet in length with not less than fifteen (15) foot in height clearance.
2. Any loading-unloading space shall not be closer than fifty (50) feet to any other lot located in any residential district unless wholly within a completely enclosed building or unless enclosed on all sides by a wall, fence, or compact planting not less than six (6) feet in height.
3. All off-street loading and unloading facilities that make it necessary to back out directly into a public road shall be prohibited.

C. Off-Street Loading Area Space Requirements:

1. In the case of mixed uses on one lot or parcel, the total requirements for off-street loading-unloading facilities shall be the sum of the various uses computed separately.
2. All retail sales facilities having over five thousand (5,000) square feet of gross floor area shall be provided with at least one (1) off-street loading-unloading space, and for every additional twenty thousand (20,000) square feet of gross floor space, or frac-

Section 5.5—Conditional Uses

The formulation and enactment of this Ordinance is based upon the division of the Village of Chelsea into districts in each of which are permitted specified uses which are mutually compatible. In addition to such permitted compatible uses however, there are certain other uses which may be necessary or desirable to allow in certain locations in certain districts, but because of their actual or potential impact on neighboring uses or public facilities, need to be carefully regulated with respect to their location for the protection of the Village of Chelsea. Such cases, on account of their peculiar locational need or the nature of the service offered, may have to be established in a district in which they cannot be reasonably allowed as a permitted use.

A. Authority to Grant Permits:

The Planning Commission, as hereinafter provided, shall have the authority to recommend to the Village Council to grant conditional use permits, subject to such conditions of design, operation, and safeguards as the Village Council may determine for all conditional uses specified in the various district provisions of this Ordinance.

B. Application and Fee:

Application for any conditional use permit permissible under the provisions of this Ordinance shall be made to the Village of Chelsea Clerk by filling in an official conditional use permit application form; submitting required data, exhibits, and information; and depositing the required fee as established by resolution of the Village Council except that no fee shall be required of any governmental body or agency. No part of such fee shall be returnable to the applicant.

C. Data, Exhibits, and Information Required in Application:

An application for a conditional use permit shall contain the applicant's name and address in full, a statement that the applicant is the owner involved or is acting on the owner's behalf, the address of the property involved; an accurate survey drawing of said property showing the existing and proposed location of all structures thereon, the types thereof, and their uses; and a statement of supporting data, exhibits, information thereof, one (1) additional loading-unloading space.

3. All industrial and wholesale commercial land uses shall provide one (1) loading space for each ten thousand (10,000) square feet of floor space, with a minimum of not less than two (2) loading spaces.

ation, and evidence regarding the required findings set forth in this Ordinance.

D. Public Hearings:
The Planning Commission shall hold a public hearing upon any application for a conditional use permit, notice of which shall be given by one (1) publication in a newspaper of general circulation in the Village of Chelsea, within fifteen (15) days but not less than three (3) days next preceding the date of said hearing.

E. Required Standards and Findings for Making Determinations:

The Planning Commission shall review the particular circumstances and facts of each proposed use in terms of the following standards and required findings, and shall find a and evidence adequate data, information, and evidence showing that such a use on the proposed site, lot, or parcel meets the following requirements:

1. Will be harmonious with and in accordance with the general objectives, intent, and purposes of this Ordinance.

2. Will be designed, constructed, operated, maintained, and managed so as to be harmonious and appropriate in appearance with existing or intended character of the general vicinity.

3. Will be served adequately by essential public facilities and services, such as: highway, streets, police and fire protection, drainage structures, refuse disposal, or that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such service.

4. Will not be hazardous or disturbing to existing or future neighboring uses.

5. Will not create excessive additional requirements at public costs for public facilities and services.

F. Determination and Imposition of Conditions:

If the facts in the case do not establish that the findings and standards set forth in this Ordinance will apply to the proposed use, the Planning Commission shall not recommend to the Village of Chelsea that said Village of Chelsea should grant a conditional use permit. In recommending that a conditional use permit should be granted by the Village of Chelsea, the Planning Commission shall recommend such conditions of use as it deems necessary to protect the best interest of the Village of Chelsea and to achieve the objectives of this Ordinance.

G. Approval, Grant or Permit:

Upon holding a public hearing and the finding that the requirements of subsections B. through F. of this Ordinance have been satisfactorily met by the applicant, the Planning Commission shall within thirty (30) days recommend approval or disapproval to the Village Council. When the Village Council gives final approval, a conditional use permit shall be issued to the applicant. The Village Clerk shall forward a copy of the permit to the applicant, Zoning Inspector, and Planning Commission. The Zoning Inspector shall not issue a zoning compliance permit until he has received a copy of the conditional use permit approved by the Village Council.

H. Voiding of Conditional Use Permit:

Any conditional use permit granted under this Ordinance shall become null and void and fees forfeited unless construction and/or use is commenced within six (6) months and completed within one (1) year of the date of issuance. If the Zoning Inspector finds that the applicant has failed to comply with all conditions imposed by the conditional use permit, the Board of Appeals shall hold a public hearing giving at least fifteen days notice prior to said hearing to the applicant and all property owners within three hundred (300) feet of the property for which the conditional use permit was issued. If the Board of Appeals determines that the applicant has not complied with all conditions of the conditional use permit it shall take action to see that the conditions are complied with or void the conditional use permit.

Section 5.6—Planned-Unit Development

The purpose of this section is to permit flexibility for residential, commercial, and industrial development where large tracts of land are planned with integrated and harmonious design, and where the overall design of such units is so outstanding as to warrant modification by the Planning Commission of the regulations.

A. Requirements for Planned-Unit Development:

1. The tract of land to be developed shall have a minimum area of not less than five (5) acres.

2. The owner of the property shall submit to the Planning Commission a plan for the use development of the total tract of land as a planned-unit development in accordance with the provisions of SECTION 5.7, SITE PLAN REVIEW AND APPROVAL.

In addition to the site plan data described in SECTION 5.7, the application shall contain such other pertinent information as may be necessary to make a determination as to whether the proposed use meets the requirements of this Ordinance.

3. The site plan shall show the scale; north point; boundary dimensions; topography (at least two foot contour intervals); and

The plan shall contain such proposed covenants, easements, and other provisions relating to the bulk, location, and density of structures, accessory uses thereof, and public facilities as may be necessary for the welfare of the planned-unit development and not inconsistent with the best interests of the entire Village of Chelsea.

3. The average density of structures of the tract shall not be greater than the density requirements in the district in which the planned-unit development is located.

4. The use of land shall be in conformance with the permitted uses of the district in which the proposed plan is to be located.

5. The proposed development shall be served by adequate public facilities and service, such as: highways, streets, police and fire protection, drainage, structures, and refuse disposal. These facilities may be provided by a governmental or private organization.

6. The proposed unit shall be of such size, composition, and arrangement that its construction, marketing, and operation is feasible as an complete unit, without dependence on any subsequent unit or development.

7. The common open-space, common properties, individual properties, and all other elements of the planned-unit development shall be so planned that they will achieve a unified environmental scheme, with open spaces and all other elements in appropriate locations, suitably related to each other, the site, and surrounding land.

8. The applicant may be required to dedicate land for street and park purposes by appropriate covenants to restricting areas perpetually for the duration of the Planning Development as open space for common use. The development as authorized shall be subject to all conditions so imposed, and shall be exempt from other provisions of this Ordinance only to the extent specified in the authorization.

Section 5.7—Site Plan Review and Approval

It is recognized by this Ordinance that there is a value to the public in establishing safe and convenient traffic movement to higher density sites, both within the site and relation to access streets; that there is value in encouraging a harmonious relationship of buildings and uses both within a site and in relation to adjacent uses; further that there are benefits to the public in conserving natural resources. Toward this end, this Ordinance requires site plan review by the Planning Commission for certain buildings and structures that can be expected to have a significant impact on natural resources, traffic patterns, and on adjacent land usage.

A. Buildings, Structures, and Uses Requiring Site Plan:

The Zoning Inspector shall not issue a zoning compliance permit for the construction of the buildings and structures identified in this section unless a detailed site plan has been reviewed and approved by the Planning Commission and such approval is in effect.

1. A multiple-family building containing six (6) or more dwelling units.

2. More than one multiple-family building on a lot, parcel, or tract of land, or on a combination of lots under one ownership.

3. A mobile home park.

4. Any commercial structure.

5. Any industrial structure.

6. Any Planned-Unit Development.

B. Application and Fee for Site Plan Review:

Any person may file a request for a site plan review by the Planning Commission by filing with the Clerk the completed application upon the forms furnished by the Clerk and payment of a fee established by resolution of the Village of Chelsea. As an integral part of said application, the applicant shall file at least four (4) copies of a site plan.

C. Planning Commission Review of Site Plan:

Upon receipt of such application from the Clerk, the Planning Commission shall undertake a study of the same and shall approve or disapprove such site plan, advising the applicant in writing of the recommendation, including any changes or modifications in the proposed site plan as are needed to achieve conformity to the standards specified in this Ordinance.

D. Required Data for Detailed Site Plan:

Every site plan submitted to the Planning Commission shall be in accordance with the following requirements except that the Planning Commission may exempt those requirements it deems unnecessary.

1. The site plan shall be of a scale not to be greater than one (1) inch equals twenty (20) feet nor less than one (1) inch equals two hundred (200) feet, and of such accuracy that the Planning Commission can readily interpret the site plan, and shall include more than one drawing where required for clarity.

2. The property shall be identified by lot lines and location, including dimensions, angles and size, and correlated with the buildings, structures; high tension lines, drains, and easements, and shall identify adjacent properties and their existing uses.

3. The site plan shall show the scale; north point; boundary dimensions; topography (at least two foot contour intervals); and

natural features, such as, wood lots, streams, rivers, lakes, drains, and similar features.

4. The site plan shall show existing man-made features, such as buildings; structures; high tension towers; pipe lines; and existing utilities, such as, water and sewer lines, excavations, bridges, culverts, drains, and easements, and shall identify adjacent properties and their existing uses.

5. The site plan shall show the location, proposed finished floor and grade line elevations, size of proposed principal and accessory buildings, their relation one to another and to any existing structure on the site, the height of all buildings, and square footage of floor space. Site plans for residential development shall include a density schedule showing the number of dwelling units per net acre, including a dwelling schedule showing the unit type and number of each unit type.

6. The site plan shall show the proposed streets, driveways, sidewalks, and other vehicular and pedestrian circulation features within and adjacent to the site; also, the location, size and number of parking spaces in the off-street parking area, and the identification of service lanes and service parking.

7. The site plan shall show the proposed location, use, and size of open spaces; and the location of any landscaping, fences, or walls on the site. Any proposed alterations to the topography and other natural features shall be indicated. The site plan shall further show any proposed location of connections to existing utilities and proposed extensions thereof.

8. A vicinity map shall be submitted showing the location of the site in relation to the surrounding street system.

E. Standards for Site Plan Review:

In reviewing the site plan, the Planning Commission shall ascertain whether the proposed site plan is consistent with all regulations of this Ordinance. Further, in consideration of each site plan, the Planning Commission shall find that provisions of subsections C. and D. of this Ordinance as well as the provisions of the zoning district in which said buildings, structures and uses as indicated in the proposed site plan have been satisfactorily demonstrated and met by the applicant.

F. Approval of Site Plan:

Upon the Planning Commission recommending approval of a site plan, the applicant shall file with the Village Clerk one (1) copy thereof. The Clerk shall within ten (10) days transmit to the Zoning Inspector one (1) copy with the Clerk's certificate affixed thereto, certifying that said approved site plan conforms to the provisions of this Ordinance as determined. If the site plan is disapproved by the Planning Commission, notification of such disapproval shall be given to the applicant within ten (10) days after such action. The Zoning Inspector shall not issue a zoning compliance permit until he has received a certified approved site plan.

G. Expiration of Site Plan Certificate:

The site plan certificate shall expire, and be of no effect, three hundred sixty-five (365) days after the date of issuance thereof, unless within such time the Zoning Inspector has issued a zoning compliance permit for any proposed work authorized under a said site plan certificate.

H. Amendment, Revision of Site Plan:

A site plan, and site plan certificate, issued thereon, may be amended by the Planning Commission upon request of the applicant. Such amendment shall be made upon application and in accordance with the procedure provided in Section 5.7 of this Ordinance. Any fees paid in connection with such application may be waived or refunded at the discretion of the Planning Commission.

Section 5.8—Nonconformities

Where within the districts established by this Ordinance, or by amendments, there exists lots, structures, and uses of land and structures which were lawful before this Ordinance was adopted or amended and which would be prohibited, regulated, or restricted under the terms of this Ordinance, or future amendments; it is the intent of this Ordinance, to permit these nonconformities to continue until they are discontinued, damaged, or removed but not to encourage their survival. These nonconformities are declared by this Ordinance to be incompatible with the lots, structures, and uses permitted by this Ordinance in certain districts. It is further the intent of this Ordinance that such nonconformities shall not be enlarged, expanded or extended except as provided herein, nor to be used as ground for adding other lots, structures, or uses prohibited elsewhere in the same district.

A. Nonconforming Uses of Land:

Where, on the date of adoption or amendment of this Ordinance, a lawful use of land exists that is no longer permissible under the provisions of this Ordinance, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming use of land shall be enlarged, expanded, or extended to occupy a greater area of land than was occupied on the effective date of adoption or amendment of this Ordinance; and no accessory use or structure shall be established therewith.

2. No such nonconforming use of land shall be moved in whole or in part to any other portion of such land not occupied on the effective

date of adoption or amendment of this Ordinance.

3. If such nonconforming use of land ceases for any reason for a period of more than one hundred and eighty (180) consecutive days, the subsequent use of such land shall conform to the regulations and provisions set by this Ordinance for the district in which such land is located.

B. Nonconforming Structures:

Where, on the effective date of adoption or amendment of this Ordinance, a lawful structure exists that could not be built under the regulations of this Ordinance by reason of restrictions upon lot area, lot width, lot coverage, height, open spaces, or other characteristics of such structure or its location upon a lot, such structure may be continued so long as it remains otherwise lawful subject to the following provisions:

1. No such structure shall be enlarged, expanded, extended, or altered in a way which increases its nonconformities.

2. Should any such structure be destroyed by any means to an extent of more than fifty (50) percent of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this Ordinance.

3. Should any such structure be moved for any reason, of any distance, it shall thereafter conform to the regulations of the district in which it is located after it is moved.

C. Nonconforming Uses of Structures:

Where, on the date of adoption or amendment of this Ordinance, a lawful use of a structure exists that is no longer permissible under the regulations of this Ordinance, such use may be continued so long as it remains otherwise lawful subject to the following provisions:

1. No nonconforming use of a structure shall be enlarged, expanded, extended, or altered except in changing the use of such structure to a use permitted in the district in which such structure is located.

2. When a nonconforming use of a structure is discontinued or abandoned for more than one hundred and eighty (180) consecutive days, the structure shall not thereafter be used except in conformance with the regulations of the district in which it is located.

3. Any structure devoted in whole or in part to any nonconforming use, work may be done in any period of twelve (12) consecutive months on ordinary repairs or on repair or replacement of non-bearing walls, fixtures, wiring or plumbing to an extent not to exceed ten (10) percent of the then current replacement value of the structure, provided that the volume of such structure or the number of families housed therein as it existed on the date of adoption or amendment of this Ordinance shall not be increased. Nothing in this Ordinance shall be deemed to prevent the strengthening or repair thereof declared to be unsafe by any official charged with protecting the public safety upon order of such official.

4. Should any structure containing a nonconforming use be moved, for any reason of any distance, it shall thereafter conform to the regulations of the district in which it is located after it moved.

5. Should any structure devoted in whole or in part to any nonconforming use be destroyed by any means to an extent of more than fifty (50) percent of its replacement cost at the time of destruction, it shall not be reconstructed and again be devoted to any use except in conformity with the regulations of the district in which it is located.

D. Change of Tenancy or Ownership:

There may be a change of tenancy, ownership, or management of an existing nonconforming use, building, or structure; provided, there is no change in the nature or character of such nonconforming use, building, or structure.

E. Nonconforming Lots:

Any lot which was lawful at the time of the effective date of adoption or amendment of this Ordinance, but does not comply with all the provisions of this Ordinance may be continued in use; provided however, the change in use, or the location, modification, or construction of any structure on such lot shall not be permitted; except upon a variance approved by the Board of Zoning Appeals based upon finding that such a variance is warranted, and subject to such conditions as the Board of Zoning Appeals may find necessary to provide for the public health, safety, morals, and general welfare.

Section 5.9—Home Occupations

A home occupation shall be clearly incidental and secondary to the use of the dwelling unit for residential purposes. The following additional conditions shall be observed:

A. Such home occupation shall be carried on within the dwelling or within a building accessory thereto and entirely by the inhabitants thereof.

B. No article shall be sold or offered for sale on the premises except such as is produced within the dwelling or accessory building or service or profession conducted within the dwelling or accessory building.

C. There shall be no exterior storage of materials or equipment.

Section 5.10—Materials of Materials

The location or storage of abandoned, discarded, unused, unusable, or inoperative vehicles, appliances,

furniture, equipment, or materials, shall be regulated as follows:

A. On any lot in any agricultural district, residential district, or commercial district, the owner or tenant, but not for hire or for business, shall locate and store such materials within a completely enclosed building.

B. On any lot in any industrial district, the owner or tenant, but not for hire or for business, shall locate and store such materials within a completely enclosed building or within an area surrounded by a solid, unpierced fence or wall at least seven (7) feet in height and not less in height than the materials located or stored therein, and not closer to the lot lines than the minimum yard requirements for buildings permitted in said districts.

C. Nothing in this Ordinance shall permit the storage or parking of any vehicles or non-permanent structure of any lot within a residential district, except that a parking of a passenger vehicle on a driveway located on private property shall not be prohibited.

D. Nothing in this Ordinance shall permit the storage of materials in any vehicle or non-permanent structure.

Section 5.11—Mobile Homes

No mobile home shall be used other than a single-family dwelling and in a duly licensed Mobile Home Park, except a mobile home may be used as a temporary field office provided it is certified, as such by the Zoning Inspector. In cases of emergency the Village Council may authorize the use of a mobile home for a temporary dwelling not to exceed one (1) year.

Section 5.12—Visibility at Intersections

On any corner lot in any zoning district requiring front and side yards, no fence, wall, hedge, screen, sign, structure, vegetation, or planting shall be allowed to impede vision between a height of three (3) feet and eight (8) feet above the centerline grades within the triangular area formed by the intersecting street right-of-way lines and a straight line joining the two (2) street lines at points which are thirty (30) feet distant from the point of intersection, measured along the street right-of-way line.

Section 5.13—Access to Public Streets

A. In any residential district, office district, commercial district, and industrial district, every use, building or structure established after the effective date of this Ordinance shall be on a lot or parcel which adjoins a public or private street.

B. In any agricultural district every use, building, or structure established after the effective date of this Ordinance shall be on a lot or parcel which adjoins a public or private easement of access to a public street.

Section 5.14—Fences

Fences shall meet the following requirements:

A. No fence shall hereafter be erected along the line dividing lots or parcels of land or located within any required side of rear yard in excess of six (6) feet, or less than three (3) feet in height above the grade of the surrounding land or along any line which lies in the front yard.

B. No fence shall hereafter be located in the front yard of any lot or parcel.

C. Fences which enclose public or institutional parks, playgrounds or public landscaped areas shall not exceed seven (7) feet in height above the grade of the surrounding land and shall not obstruct vision to an extent greater than twenty-five (25) percent of the total area.

D. All fences hereafter erected shall be of an ornamental nature. Barbed wire, spikes, nails or any other sharp point or instrument of any kind on top or on the sides of any fence, or electrical current or charge in said fences is prohibited. Barbed wire cradles may be placed on top of fences whenever deemed necessary in the interest of public safety by the Village Council.

Section 5.15—Essential Services

A. Nothing in this Ordinance shall prohibit the provision of essential services, provided the installation of such service does not violate any other applicable provision of this Ordinance.

B. Nothing in this Section shall be construed to permit the erection, construction, or enlargement of any building, tower, or maintenance depot for provision of an essential service except as otherwise permitted in this Ordinance.

Section 5.16—Curb Cuts and Driveways

Curb cuts and driveways may be located only upon approval by the Zoning Inspector and such other county and state authorities as required by law; provided however, such approval shall not be given where such curb cuts and driveways shall unnecessarily increase traffic hazards.

Section 5.17—Corner Lots

A corner lot shall maintain front yard requirements for each street frontage.

Section 5.18—Yard Requirements—Where Lot Adjoins More Restricted Zone

Where a lot or parcel adjoins a lot or parcel in a more restricted zone any adjoining front, side or rear yard of such lot shall have a minimum yard equal to the required yard in the more restricted zone.

ply to the following appurtenant appendages and structures provided they comply with all other provisions of this or any other applicable Ordinances: Parapet walls, chimneys, smokestacks, church spires, flag poles, radio and television towers, penthouse for mechanical equipment and water-tanks.

Section 5.20—Compliance With Regulations

A. No building or structure shall hereafter be erected or altered to exceed the height; to occupy a greater percentage of lot area; to have a narrower or smaller rear yards, front yards, side yards, or other open spaces than prescribed for the district in which the building or structure is located.

B. No yard or lot existing at the time of passage of this Ordinance shall be reduced in dimension or area below the minimum requirements set forth for the district in which the yard is located. Yards or lots created after the effective date of this Ordinance shall meet at least the minimum requirements established by this Ordinance.

C. No part of a yard or other open space required for or in connection with, any structure for the purpose of complying with this Ordinance, shall be included as part of a yard or open space similarly required for any other structure.

Section 5.21—Yard Requirements

All front, side, and rear yards shall be the minimum perpendicular distance measured from the principal structure, excluding all projections not exceeding three (3) feet in length from the structure wall.

Section 5.22—Lot Width

Width of a lot shall be considered to be the distance between straight lines connecting front and rear lot lines at each side of the lot, measured across the rear of the required front yard; provided however, that width between side lot lines at their foremost points (where they intersect with the street line) shall not be less than eighty (80) percent of the required lot width, except in the case of lots on the turning circle of cul-de-sacs, where the eighty (80) percent requirements shall not apply.

Section 5.23—Accessory Structures

A. No detached accessory building or structure shall be located closer than ten (10) feet to any other building or structure.

B. All detached accessory structures in any residential district shall be subject to the same dimensional requirements affecting the principal structure except, however, such accessory structure may be placed not less than three (3) feet from any rear lot line or the rear yard portion of any side lot line; and shall not exceed twelve (12) feet in height.

C. All accessory structures in non-residential districts shall be subject to the same standards and requirements as are required for all principal structures within such districts.

Section 5.24—Distance Between Grouped Buildings

In addition to the required setback lines provided elsewhere in this Ordinance, in group dwellings (including semi-detached and multiple dwellings) the following minimum distances shall be required between each said dwelling:

A. Where buildings are front to front or rear to rear, three (3) times the height of the taller building, but not less than seventy (70) feet.

B. Where buildings are side to side, one (1) times the height of taller building but not less than twenty (20) feet.

C. Where buildings are front to side, rear to side, or rear to rear, two (2) times the height of the taller building but not less than forty-five feet.

Section 5.25—Performance Standards

A. Requirements:
No lot, building, or structure in any district shall be used in any manner so as to create any dangerous, injurious, noxious, or otherwise objectionable element or condition so as to adversely affect the surrounding area or adjoining premises. Uses in all districts, where permitted, shall comply with the following performance requirements:

1. Noise:
Noise which is objectionable due to volume, frequency, or beat shall be muffled or otherwise controlled so that there is no production of sound discernible at lot lines in excess of the average intensity of street and traffic noise at the lot lines. Air raid sirens and related apparatus used solely for public purposes are exempt from this requirement.

2. Vibration:
No vibration shall be permitted which is discernible without instruments on any adjoining lot or property.

3. Smoke:
Smoke shall not be emitted with a density greater than No. 1 on the Ringelman Chart as issued by the U.S. Bureau of Mines except for blow-off periods of ten (10) minutes duration of one (1) per hour when a density of not more than No. 2 is permitted.

4. Odor:
No malodorous gas or matter shall be permitted which is offensive or as to produce a public nuisance or hazard on any adjoining lot or property.

5. Air Pollution:
No pollution of air by fly-ash, dust, vapors, or other substances shall be permitted which is harmful to health, animals, vegetation, or other property, or which can cause excessive soiling.

6. Glare:
No direct or reflected glare shall be permitted which is visible from

any property or from any public street, road, or highway.

7. Erosion

No erosion, by either wind or water, shall be permitted which will carry objectionable substances onto neighboring properties, lakes, ponds, rivers, or streams.

B. Plans:

The application for a zoning compliance permit for a use subject to performance requirements shall be accompanied by a description of the machinery, process, and products; and specifications for the mechanisms and techniques to be used in meeting the performance standards.

C. Enforcement:

The Zoning Inspector may refer the application to one or more expert consultants qualified to advise as to whether a proposed use will conform to the performance standards.

Section 5.26—Temporary Use

Circuses, carnivals, or other transient enterprises may be permitted in any district, upon approval by the Board of Appeals based upon finding that the location of such activity will not adversely affect adjoining properties, adversely affect public health, safety, morals, and the general welfare.

ARTICLE VI

ADMINISTRATION AND ENFORCEMENT

Section 6.1—Enforcement

It shall be the duty of the Zoning Inspector, as authorized, to enforce the provisions of this Ordinance and to make such orders and decisions as may be necessary to carry out the intent thereof. The Zoning Inspector in the Village of Chelsea shall be the Building Inspector, or such other person designated by the Village Council who shall have all the powers, duties and responsibilities assigned to the Zoning Inspector in this Ordinance.

Section 6.2—Applications and Permits

The Zoning Inspector shall require that the application for a building permit and the accompanying plot plan shall contain all the information necessary to enable him to ascertain whether the proposed building complies with the provisions of this Ordinance. No building permit shall be issued until the Zoning Inspector has certified that the proposed building or alteration complies with all provisions of this Ordinance.

Section 6.3—Pending Applications for Building Permits

Nothing in this Ordinance shall require any change in the plan, construction, size or designated use of a building for which a building permit has been granted before the effective date of this Ordinance and the construction of which from such plans shall have been started within six (6) months of such date.

Section 6.4—Certificate of Occupancy

No land shall be occupied or used and no building hereafter erected or altered shall be occupied or used in whole or part for any purpose, until a certificate of occupancy shall have been issued by the Zoning Inspector stating that the premises or building complies with all the provisions of this Ordinance. A certificate of occupancy shall be applied for at the same time that the building permit is applied for and if approved by the Zoning Inspector shall be issued within (10) days after notification from the permittee that the premises are ready for occupancy.

Section 6.5—Zoning Compliance Permit

No building permit shall be issued by the Building Inspector until a zoning compliance permit has been issued by the Zoning Inspector. Any zoning compliance permit granted under this Ordinance shall become null and void unless constructed and/or use completed within one and one-half (1 1/2) years of the date of issuance.

Section 6.6—Violations and Penalties

A. Any building upon which construction is started, or which is altered, enlarged or repaired, or in any use of premises which is begun or changed subsequent to the time of passage of this Ordinance and in violation of any of the provisions thereof is hereby declared a nuisance per se. Any court of competent jurisdiction shall order such nuisance abated and the owner or agent in charge of such building or premises shall be adjudged

Section 7.5—Appeals to the Board of Appeals

A. Appeals, How Taken:

Appeal from the ruling of the Zoning Inspector or the Village of Chelsea concerning the enforcement of the provisions of this Ordinance may be made to the Board of Appeals within such time as shall be prescribed by the Board of Appeals by general rule, by the filing with the officer from whom the appeal is taken. This officer shall forthwith transmit to the Board of Appeals all the papers constituting the record upon which the action appealed was taken.

B. Who May Appeal:

Appeals to the Board of Appeals may be taken by any person aggrieved or by any officer, department, board, agency, or bureau of the Township, Village, City, County, or State.

C. Fee for Appeal:

A fee prescribed by the Village of Chelsea shall be paid to the Board of Appeals at the time of filing the notice of appeal which the Board of Appeals shall pay over, within thirty (30) days after deciding any appeal, to the General Fund of the Village of Chelsea.

D. Effect of Appeal; Restraining Order:

An appeal stays all proceedings in furtherance of the action appealed unless the officer from whom the appeal is taken certifies to the Board of Appeals, after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Appeals or by the Circuit Court, on application, of notice to the officer from whom the appeal is taken and on due cause shown.

E. Notice of Hearing:

When a request for an appeal has been filed in proper form with the Board of Appeals, the Board of Appeals' Secretary or the Chelsea Village Clerk shall immediately place the said request for appeal upon the calendar for hearing, and cause notice, stating the time, place, and object of the hearing to be served personally or by regis-

tered return receipt mail at least ten (10) days prior to the date of such hearing, upon the party or parties making the request for appeal, and all owners of record of property and occupants of property located within three hundred (300) feet of such premises in question.

F. Representation of Hearing:

Upon the hearing, any party or parties may appear in person or by agent or by attorney.

G. Decisions of the Board of Appeals and Appeals to the Circuit Court:

The Board of Appeals shall decide upon all matters within a reasonable time and may reverse or affirm wholly or partly, or may modify the order, requirement, decision or determination appealed from and shall make such order, requirement, decision or determination as in its opinion ought to be made in the premises and to that end shall have all the powers of the Zoning Inspector or the Village of Chelsea from whom the appeal is taken. The Board of Appeals' decision of such appeals shall be in the form of a resolution containing a full record of the findings and determination of the Board of Appeals in each particular case. Any person having an interest affected by such resolution shall have the right to appeal to the Circuit Court or question of law and fact.

ARTICLE VIII AMENDMENT PROCEDURES

Section 8.1—Initiating Amendments and Fee

The Village of Chelsea may, from time to time, amend, modify, supplement, or revise the district boundaries of the provisions and regulations, hereinafter established whenever the public necessity and convenience and the general welfare require such amendment. Said amendment may be initiated by resolution of the Village of Chelsea, the Planning Commission, or by petition of one or more owners of property to be affected by the proposed amendment. Except for the Village of Chelsea or the Planning Commission, the petitioner requesting an amendment shall at the time of application pay the fee established by resolution of the Village of Chelsea, no part of which shall be returnable to the petitioner.

Section 8.2—Amendment Procedures

The procedure for making amendments to this Ordinance shall be in accordance with Act 207 of the Public Acts of 1921 for Villages and Cities.

Section 8.3—Conformance to Court Decree

Any amendment for the purpose of conforming a provision thereof to the decree of a court of competent jurisdiction shall be adopted by the Village of Chelsea and the amendments published without referring the same to any other board or agency.

Section 8.4—Re-Hearing on Amendments

Whenever a proposed amendment, supplement or change has not been approved by the Village Council, such amendment, supplement or change shall not be re-submitted to the Village of Chelsea for at least one (1) year from the effective date of final action thereon, excepting when it is established that there has been a material change in circumstances and attested thereto.

ARTICLE IX LEGAL STATUS

Section 9.1—Conflict with Other Laws

Conflicting laws of more restrictive nature are not affected or repealed by this Ordinance. The provisions of this Ordinance shall be considered as minimum. Conflicting laws of a less restrictive nature, or those conflicting in other ways than degrees of restrictiveness, are hereby repealed.

This Ordinance is not intended to abrogate or annul any easement, covenant, or other private agreement provided that where any provision of this Ordinance is more restrictive or imposes a higher standard or requirement than such easement, covenant, or other private agreement, the provision of this Ordinance shall govern.

Section 9.2—Validity and Severability Clause

If any court of competent jurisdiction shall declare any part of this Ordinance to be invalid, such ruling shall not affect any other provisions of this Ordinance not included in said ruling. If any court of competent jurisdiction shall declare invalid that application of any provision of this Ordinance to a particular land, parcel, lot, district, use, building, or structure, such ruling shall not effect the application of said provision to any other land, parcel, lot, district, use, building, or structure not specifically included in said ruling.

Section 9.3—Period of Effectiveness

This Ordinance shall remain in full force and effect henceforth unless repealed.

Section 9.4—Effective Date

This Ordinance shall take effect twenty (20) days after date of adoption.

Section 9.5—Date of Adoption

This Ordinance was adopted by the Council of the Village of Chelsea, Washtenaw County, Michigan, at a meeting held on May 7, 1974, and notice ordered published in The Chelsea Standard, a newspaper having general circulation in said Village of Chelsea.

VILLAGE OF CHELSEA
Harold Pennington,
President.
Loren Keezer,
Clerk.

Date: May 7, 1974.

Billboards Coming Down on State's Highways

Some of the more scenic stretches of highway in Michigan are nearly billboard-free for the first time in many years.

The State Highway Commission reports that more than 12,000 signs and billboards have been removed from along state highways since enactment of the Michigan Billboard Control Act in March, 1972. More than 2,500 are targeted for removal this year in the continuing program to beautify the countryside for Michigan motorists.

Assault on Prison Staffers To Bring Longer Sentence

Prisoners who are convicted of assaults on prison employees would begin serving sentences for this offense after they complete their original sentence under a bill which has passed the House and Senate and been forwarded to the Governor for his signature.

The bill's sponsor, State Representative Hal W. Ziegler (R-Jackson) said by making the sentence for assault of a prison employee an add-on sentence, he feels prisoners would be discouraged from criminal actions against their jailers.

Present law provides for sentences for this offense, but under the existing system the prisoner serves this sentence concurrently with his existing sentence.

A prisoner who commits such an offense while awaiting court action, but who is not convicted of the original crime, would be sentenced in accordance with the provisions of the Ziegler bill.

The penalties covered in the bill range from a maximum penalty of three months in jail and a maximum fine of \$100 for a simple assault to life imprisonment for assault with intent to commit murder.

"Because sentences for assaults on prison employees by prisoners are now served concurrently, the prisoner really has nothing to lose if he commits such an assault," Ziegler said.

"By adding additional time to their sentence for such a crime, I'm sure prisoners will think twice about assaulting a prison employee and we will see a reduction in these types of offenses," Ziegler concluded.

SUMMER CAMP

Here's a letter I received from my son last summer when he was in summer camp. He wrote: "Dad, I'm worried about you. Please send a check so I'll know you are O.K."

The law covers nearly 30,000 signs and billboards along 7,000 miles of interstate and primary highways in Michigan—more than three-fourths of the state highway system. Under the law, signs fall into one of three categories:

1. Illegal and subject to removal without compensation to the owner;
2. Formerly legal but non-conforming to the new provisions and subject to removal, with compensation paid by the state to the owners of the signs as well as owners of the sites on which signs were located; and,
3. Legal and conforming, permitted to remain but subject to an annual \$3 permit fee.

As of April, 12,024 signs and billboards had been removed by owners, or the Department of State Highways and Transportation, or by private contractor under contract with the Department. In the last two years, an estimated 500 signs have gone up in legal locations along highways covered by the control act.

Almost all the signs removed were declared illegal and removed without compensation to the owners.

An additional 10,000 are subject to removal with compensation paid to both the site and sign owners. Of these, the Department's Right-of-Way Division has completed compensation negotiations for 779 signs, at an average cost of \$1,450. The federal government pays 75 percent of compensation costs, with the state paying the remaining 25 percent. More than \$6 million already has been allocated to Michigan by the federal government for billboard compensation.

John P. Woodford, director of State Highways and Transportation, said the Department's Right-of-Way personnel are scheduled to complete compensation negotiations for another 2,000 signs and billboards during the remainder of 1974. Woodford reminded all sign-owners that present billboard permits expire June 30. Permits for 1974-75 must be obtained by July 1, 1974, or billboards, otherwise legal and conforming, are declared "abandoned" and subject to removal.

To simplify renewal of billboard permits, the Department will send form-cards to owners of billboards which have current permits. Permit form-cards will be mailed by the Department in the first week in May. The cards must be completed by the sign owners and returned to Lansing Central Office of the Department by June 1. Upon receipt of the completed form, and \$3 for each sign or billboard, the Department will return an approved permit for the 1974-75 year.

CONSUMERS CORNER

FAT ANALYZER

A fat analyzer is not a chubby psychiatrist, but an instrument designed to aid your butcher.

The U.S. Department of Agriculture's Agricultural Research Service has developed a portable device that can quickly and accurately measure fat content in ground beef, just by placing it atop a package of the meat.

Although fat content largely determines ground beef quality, there has never been an easy way for butchers to measure it. And now, laws limiting fat content and requiring accurate labeling have made the amount of fat in ground beef a critical factor.

Some supermarkets use chemical tests as guides. But most butchers have relied on experience to judge the amount of fat.

This new analyzer, accurate to within one percent, will provide them with an easy method. It's hoped that the tester can be adapted to measure fat in other ground meats, such as pork, lamb and chicken.

What's Cooking in Michigan

By Larrestine Trimm

Michigan Dept. of Agriculture Marketing Information Specialist
There are ways to save money on milk depending on the way you buy it, according to Marketing officials of the Michigan Department of Agriculture.

When buying fresh fluid whole milk, the size and type of container you choose is reflected in the price. Paper cartons are generally less expensive than plastic type containers and the larger the container, usually the cheaper the price per quart.

For example, two half-gallon cartons of milk at 80 cents each averages 10 cents per eight-ounce serving. But you may save a nickel by buying the gallon carton at \$1.55 (97 cents per serving). Or, if you have been purchasing plastic-type containers of milk, you may save a few pennies more (two to five cents) by switching to paper cartons.

Best buy for your money is non-fat dry milk in bulk packages. Evaporated milk is also inexpensive when it is reconstituted by adding an equal amount of water. Next cheapest in price is fluid low-fat, skim or buttermilk, depending on the demand for these products in the area in which you live.

An eight-ounce glass of reconstituted nonfat dry milk would cost you about four cents per serving; reconstituted evaporated milk, 6.5 cents; fluid low-fat, skim or buttermilk, eight cents per serving.

If your family will drink these products, it could mean a tremendous savings in terms of your weekly milk bill. For a family of four with two children, the recommended daily milk needs, according to nutritionists, are two glasses or more per adult and two to three

glasses or more per child for an average of 10 servings of milk daily. At 10 cents per glass, the milk bill equals \$1 a day or \$7 a week. For a family of four who drink reconstituted non-fat dry milk, the same amount of milk would average about \$2.80 per week.

If your family refuses to drink reconstituted non-fat dry milk, you might try the fool 'em plan by mixing equal parts of fluid whole milk and reconstituted non-fat dry milk at a cost of about \$4.90 a week, a savings of about \$2.10 per week.

Estimated figures, based on Detroit area prices, do not reflect the amount of milk used in cooking and baking because this varies with each household. But you can save by using condensed milk and dry milk solids for cooking and baking. Nutritionists say you can increase the calcium content by doubling the amount of dry milk solids called muffins, French toast, and scramble in recipes such as pancakes, bread eggs.

LUNCH BOX BLUES

Brighten lunchtime sandwiches with a new idea or two. Mash with a fork a 12-ounce can of luncheon meat and a ripe banana. Moisten with 1/4 cup mayonnaise blended with one teaspoon lemon juice.

Any of the ground leftover meats or ready-to-serve meats are peppered with 1/2 cup chopped celery and one teaspoon prepared horseradish to one cup of the ground meat. Moisten with two or more tablespoons of mayonnaise.

IN GAS-SAVING ECONOMY CARS, THE DODGE BOYS ARE RIGHT ON TARGET.

DART SWINGER
AUTOMATIC GOT 23.6 MILES PER GALLON

IN THE USAC "MILES-PER-GALLON SHOWDOWN."

Dodge AUTHORIZED DEALERS

Our Darts feature USAC-proven economy.

Our popular little six-cylinder Dart Swinger (with an automatic transmission, no less) got 23.6 mpg, and that was better gas mileage than that of both the Chevy Nova and Ford Maverick Sixes equipped with standard transmissions.

Our economy-minded Dodge 318 V8 got 19.6 mpg in the same USAC test. As a matter of fact, that Dart Sport with the 318 V8 got better gas mileage than the Nova Six in all three phases of the "Showdown." Now, that's economy.

The USAC "Miles-Per-Gallon Showdown" was a three-phase test using nonprofessional drivers. Mileage figures appearing in this ad are from the light city traffic phase of that test which covered a distance of 108 miles at an average speed of 25 mph. For complete results and more surprising facts, see your nearby Dodge Dealer.

March Traffic Volume Down From Last Year

Lansing—March traffic on state highways dropped 5.9 percent from the same month a year ago, the Department of State Highways and Transportation reports.

Average weekday traffic on state highways in March was down by 4.3 percent from last year. Friday traffic was down 4.4 percent; Saturday traffic was down 7.6 percent and Sunday's was down by 11.7 percent.

Traffic volumes were computed on the basis of actual counts from department counting machines, strategically placed around the state.

Traffic in February was 15.2 percent below the same month a year ago, and January traffic was down by 16.7 percent from the same month in 1973.

The traffic decline is attributed to the motoring public's effort to conserve gasoline by driving less or finding other modes of transportation.

If properly cooked, a half cup of broccoli may furnish most of the vitamin C and about half the vitamin A recommended for the day.

ROOKIE OF THE YEAR BY BASEBALL WRITERS IN 1970—FAST START, SINCE HE JOINED YANKEES AFTER ONLY 100 GAMES' MINOR LEAGUE EXPERIENCE. AT KENT STATE, MUNSON WAS ALL-AMERICAN IN BASEBALL, PLAYED HANDBALL & FOOTBALL.

TEAMMATES CALL HIM "TUG."

Vehicle Driver Responsible for Tossed Litter

Lansing—Hey, Dad! State law now says you're "presumed to be responsible" for any litter the kids toss out of the car while you're at the wheel. Same with Mom if she's the driver.

That's one result of amendments to Michigan's anti-litter law which went into effect March 28. All are designed to deter the litter-bugs who dirty the Michigan landscape, and its lakes and rivers.

State police now are enforcing the new law and it's expected to enable them to increase the number of arrests and convictions for littering. Last year, state troopers made 378 arrests for littering, resulting in 236 convictions. Local lawmen also made many arrests, but the total is small in comparison to the millions of unreported acts of littering.

The new law raises the maximum fine for littering from \$100 to \$400. It retains the maximum 90-day jail sentence.

Another new provision declares that "the driver of a vehicle or vessel is presumed to be responsible for litter which is thrown, dropped, dumped, deposited, placed or left from the vehicle or vessel on public or private property, or waters."

Further, in any proceeding for a littering violation, the registered owner of the vehicle or boat from which littering is shown to have taken place is presumed to have been the driver.

Michigan's anti-litter law still empowers judges, in lieu of a fine and/or jail sentence, to sentence pick-up.

The Department of State Highways and Transportation expects to spend approximately \$1.25 million the 9,250 miles of state highways this year.

Maintenance engineers estimate that less than 40 percent of the total is spent to pick up loose stones, tree limbs and other debris that might be a hazard to traffic. The other 60 percent will be spent to pick up paper containers, bottles, cans and other trash tossed or dumped beside state highways by litter-bugs.

SHOPPING SUGGESTIONS
Some tips for the wise shoppers at the grocery store: take note of food ads in local media, plan menus in advance to avoid waste and extra trips to the store, observe which days are best for shopping, make a list to save steps and time, and be flexible enough to consider quality and available alternatives.

Girl Scout Leaders Attend Association Spring Meeting

The spring meeting of the Western Washtenaw Area Association of the Huron Valley Girl Scouts was held April 23 at Saline High school. Appreciation was shown to the leaders, assistant leaders and troop service directors with a pot-luck supper served by the mothers.

A total of 179 persons from the entire area attended with 59 from Dexter and 22 from Chelsea.

Cadet Troop 143 of Saline led the grace before meals. Special guests included exchange students from many countries for the program "International Girl Scouting."

Exchange students from Dexter were Agnetha Winberg, Sweden, and Rita Nehring, Germany. From Chelsea were Carol Agishay, Argentina, and Maria Kovacevich, Argentina.

Other guests were Mrs. Jean Galan, president of Dexter, Mrs. John Thornbury of Chelsea, and Mrs. Robert Merchant of Saline.

A flag ceremony was performed by Cadette Troop 143 of Saline with Dexter Cadette Troop 125 helping serve dinner. After group singing, led by Ann Arbor Cadette Troop 40, two Girl Guides, Cynthia Dawson from Ireland and Hilary Pitch from England, presented a talk and slides about scouting in their countries.

Delegate Mrs. Elsie Heller gave a report of the Huron Valley Girl Scout Council meeting held in March in Chelsea. The Western Washtenaw Area Association won a banner as an attendance award which was shown to the group.

Year pins were awarded to the adult volunteers for five, 10 and 15 years service to scouting. The four cookie chairmen for the area who were presented gifts were Mrs. Markeita Satterthwaite, Chelsea, (612 cases); Mrs. Emmett Ulrich, Dexter (812 cases); Mrs. Sylvia Coleman, Saline, (845 cases); and

Mrs. Judy Denhoff, Manchester, (299 cases).

The TSD's, Mrs. Lucy Crosseby and Mrs. Vicki Hicks of Saline and Mrs. Sandy Schmunk of Chelsea, also received a gift. A box of several patches was presented to each of the Girl Guides as a gift from the Council to add to their camp blankets.

Special Appreciation Awards were given for outstanding service to scouting to Mrs. Lucy Crosseby, Mrs. Anne Waggoner, Mrs. Yvonne Fisher Gould, all of Saline, Mrs. Lil Vaughan and Wendell Young of Dexter.

A whistle was presented to encampment Advisor, Mrs. Kay Koch, who announced that Chelsea, Dexter and Manchester Girl Scouts will join in week-end camping at Bruin Lake, May 3, 4 and 5.

Mrs. Grete Skjaerlund of Dexter was in charge of the evening, assisted by Mrs. Lois Harsh of Saline, Mrs. Elsie Heller of Chelsea, Mrs. Lillie Burby of Dexter and Mrs. Beverly Knickerbacker of Manchester.

Duster vs. Pinto & Vega? Don't sell yourself short.

Nowadays, everyone is concerned about economy. And properly so. But if economy was all you wanted in your transportation, you might do better on a bus. Or even a motorcycle. The point is, why settle for only economy when you can have a lot more. You get it in a Plymouth Duster. Economy? In recent U.S. Auto Club tests, Duster's Slant 6

delivered 26.6 mpg at 55 mph on the open road. But that's not all: Duster seats five people, not four like Pinto and Vega. And Duster has a family-sized trunk in back. So if you're going to a small car this year, don't sell yourself short. Let us help you sell yourself on a Duster. That way, everyone's happy.

	Duster	Vega	Pinto
Passenger Capacity	Five	Four	Four
Front Shoulder Room	55.4"	51.6"	52.5"
Rear Shoulder Room	55.0"	49.5"	51.0"
Front Hip Room	57.2"	49.2"	51.8"
Rear Hip Room	57.2"	42.5"	41.6"
Trunk Size (cu. ft.)	19.8	8.7	6.3
Ignition System	Electronic Ignition	Points & Condenser	Points & Condenser
