Class of '60 Holds 15-Year Reunion

The ninth fairway of the Ann Arbor Country Club was the setting for the 15-year reunion of the Chelsea High school class of 1960 held Aug. 22. The fairway backs up to the home of Chuck and Karen Koengert who held the party. Of the 73 husbands, wives and children who attended the affair, 28 were former CHS 1960 graduates. According to Dave Rowe, class president for 1960, there were a total of 61 graduates in the class. Rowe said that some of the out of state class members visited the area either the week before or the week after the reunion and were unable to attend the actual day set aside. Rec. Council Being Cited In Washington

The Chelsea Recreation Council will receive a certificate of appreciation at the International Literacy Day Conference in Washington, D. C. Recreation director, Tom Ballistrere, received word of the award from the Department of Health, Education and Welfare. Purpose of the award is to recognize the Recreation Council's summer reading program instituted in their Earn, Learn and Play program this summer. Children who needed or desired special assistance in reading, were tutored daily throughout the program. The award is symbolic of the HEW department's appreciation for the participation and leadership shown in Chelsea in the Right To Read Summer 1975.

ELP staffers who instructed children in the reading program were Sharon Heydlauff and Pat Clark. Ballistrere said that the council hopes to provide this service to the youngsters of the community again next year in an expanded remedial program. The presentation will be made in Washington at the Department of Health, Education and Welfare, Sept. 8. Ballistrere will not attend.

Salyer, Bauer To Co-Captain Football Team

Howard Salyer and Dennis Bauer have been named co-captains of the 1975 Chelsea High school varsity football team, according to their coach, Phil Bareis. Bareis said the entire team elected the two seniors last week while spending five days at Camp Tyrone (located south of Linden) conditioning for the fall football season. The season officially started Monday, Aug. 25 with the players working out in complete dress. The varsity team is composed of 40 junior and senior boys, said Bareis. The J.V. team, coached by Jon Schaffner and Tom Neumeyer has a roster of 29 names, all sophomores. Freshman coach Bill Bainton has 20 candidates for the freshman team and according to Bareis would like to see the number swell to 25 or 30. Freshman boys interested in football should contact Bainton if they wish to play on the 1975 team. In total the three Chelsea High school football teams will number 89 players, "a good nucleus" Bareis remarked. "However, we are working under a hardship this year because of the construction going on at the high school." According to Bareis, there will only be one locker room available to all football players, two girls' basketball teams and the physical education classes. Bareis said he doesn't expect this to affect the boys' play, however it will make for crowded conditions. The first game of the 1975 season is scheduled for Sept. 12 with Tecumseh on the home field. The JV team will meet with Tecumseh Sept. 11, there. Prior to the opening games, the teams will play pre-season scrimmages. (Continued on page five)

Phil Bareis Named CHS Athletic Director

Phil Bareis has been named to the position of athletic director at Chelsea High school. Bareis is replacing the position left open by the resignation of Richard Lapanowski who served the high school as assistant principal as well. In the past the position of athletic director and assistant principal were consolidated. Bareis who will be in his 10th year with the Chelsea school system has taught physical education and coached both football and baseball. Bareis said he will continue to coach varsity football and teach two physical education courses; however, because of his newly acquired responsibilities he does not know if he will coach varsity baseball this spring. Bareis' formal responsibilities as athletic director include administration of the total athletic programs at Chelsea High school and the Beach Middle school.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR: As you go thru this life you pick up a heap of things. Most of em you drop and fergit, some you save and fergit and a few you actual put to use. I reckon that's why they say a feller with average sense don't use but 15 per cent of his brain power even when he's trying to think, not to mention how much of that power he's wasting when he's talking. Not many of us ever learn the trick of engaging the brain before starting the mouth. If you don't think so, you listen close to any politician when the campaign gets in the short rows. Then listen to the folks that listen to the politicians.

night when my old lady fixed some corn on the cob, which is certainly one of the finest items put on this earth for man's enjoyment. I would like to see whoever thought up eating with one hand go after corn on the cob, cause it would serve her right. I say her cause I can't believe a man would come up with a drawback like that, not even to keep other folks at the boarding house from grabbing with both hands faster than he could. But it was bound to be a man that made them little handles you stick in each end of the ear so you can get at it better, and it was a man that ruled on whether you move your mouth along the corn or the ear across your mouth. He said move both to best advantage.

Practical speaking, Mister Editor, I won't go as far as the feller that said anything a fork can do the fingers can do better, and leave less to wash. But I will claim that table manners has gone downhill ever since we were told we ought to put one hand in our lap when we eat, and that we couldn't tuck our napkins in the front of our shirts where they were made to go. I saw this piece the other day where The National Institute of Drycleaners said that half the stains on ties, shirts and coats is from food. They can't use our free hand to catch the stuff we drop, and we can't put our napkins where they ought to be to perfect us.

As for clothes, I allus said if you wait long enuff whatever you got to wear will be in style. The best news along this line since the going of the celloid collar is the coming of the open collar. It looks like that men final have come around to doing away with the necktie, a move that as far as I'm concerned would be a cure fer the cold. A cold won't kill you either, but you're jest as uncomfortable with one.

There's a right way fer everything. I see where a feller from Houston won an international belching contest, and I reckon they're holding that bull droppings throwing event agin this summer. And you can allus tell a level headed snuff dipper cause it runs out of both corners of his mouth.

Protect the Witches Ghosts and goblins traipsing through the streets, trick-or-treating on Halloween, generally end up with goodies. But a few run into what Rep. Casmer Ogonowski, D-Detroit, calls "sick, misguided, twisted minds," the people who'd stash a razor blade in an apple or put poison on a lollypop.

The maximum penalty for sabotaging Halloween treats would be 10 years in jail and a \$10,000 fine. "The penalty is a stiff one, but it has to be if we are to deter this malicious practice," the representative says. "If we are going to have Halloween, we are going to leave young children in a position to be victimized by this type of person. For the safety of our children, we must have a law that can effectively crack down on this form of criminal."

Half Cents at Work What can half a penny do these days? Not much, you say? Gov. William Milliken sees it otherwise. Pointing to funds from the state gasoline tax that have been earmarked for transportation, one-half cent on each gallon of gas—the governor says: "We have used limited financial resources to tackle the broadest range of public transportation needs in a short time."

Restored bus service in Bay County, Marquette and Muskegon through 100 percent state grants for one year. Started Dial-A-Ride programs in 24 small towns and three rural counties. Milliken says Michigan's Dial-A-Ride program is "the most economical and efficient in the nation."

Our National Anthem

Francis Scott Key wrote the words to "The Star Spangled Banner" on Sept. 14, 1814. While visiting the admiral of the British fleet to effect the release of a friend being held prisoner in Baltimore Harbor, Key was detained for 25 hours during the fleet's shelling of nearby Ft. M'Henry. At dawn, relieved to see the American flag still flying over the fort, he was inspired to write the words to the poem that later became our National Anthem. On the flag mall in front of Henry Ford Museum, a 15-star flag like the one that inspired the song flies proudly today. It is among nine other flags which trace our banner's history from 1607.

CALL ME MIKE!

When Dr. A. Michael Ramsey, the Archbishop of Canterbury, was in New York a photographer, trying to get his attention for a picture, couldn't think of how to address him. In desperation he called, "Er-uh, Archie, would you please turn your head this way?" His Grace turned his head and with his usual affability replied, "My name, sir, is not Archie. It's Mike."

GALLUP POLLS

Twenty-five years ago, 51 percent of Americans (53 million adults), believed public funds should be used to give free bus service and free books to children in religious schools. Today, a similar poll reveals that 48 percent (58 million adults), favor such support.

Girl Scouts Seek Leader Volunteers

Interested adults, particularly young working men and women, are being sought as Girl Scout volunteers in the third annual recruitment drive of the Huron Valley Girl Scout Council which begins Sunday and continues through Sept. 15.

According to Council President, Mrs. Jean Galan of Dexter, a growing number of Girl Scout troop leaders are single adults, ages 22 to 37, who work full-time. Of the 120 volunteers recruited in last year's drive, the majority were from this age group, she stated. "These adults seem to care deeply about their communities and about growing girls," Mrs. Galan said. "Moreover, they enjoy traditional Girl Scout activities, such as hiking, camping, crafts, ecology projects and community service. And, of course, the Girl Scouts themselves love having leaders who are just a little older than themselves, and, therefore, rather glamorous."

"Of course, we count on mothers and fathers of Girl Scouts to make up the core of our volunteer group," she added. "Committed parents add both love and continuity to our program." The need for volunteers in the Huron Valley Council is growing, even though the number of Girl Scout troops is already at an all-time high, 599 this fall, compared with 563 a year ago. Growing enrollment accounts for this, with seven percent more girls in the Council this month than a year ago.

"Girl Scouting allows men and women of any age to combine service to the community with the fun of making friends with neighborhood children and adults, and exploring the out-of-doors," Mrs. Galan reported.

The Huron Valley Council currently has four types of openings for volunteers: troop leaders, assistant troop leaders, troop committee members, and program resource persons. Troop leaders are responsible for helping girls select and organize troop objectives and projects, as well as coordinating the efforts of volunteer assistants. Each leader has a volunteer supervisor who counsels on all phases of the position.

Assistant troop leaders attend troop meetings with the leader to help with individual girls or groups on special projects. Troop committee members provide a broad base of community support for the troop as well as transportation, chaperones and other assistance for troop activities. Program resource persons meet with any number of troops sharing expertise in such fields as ecology, photography, crafts, dancing, and career planning. The Huron Valley Girl Scout Council is a United Way Agency.

Interested individuals are invited to get further information by contacting the Huron Valley Girl Scout Council by mail at Box 539, Ypsilanti, or by phone at 485-2370.

From Mrs. Rosa L. Stewart, Urbana, Ill.: I was born in Indiana and remember walking 1 1/2 miles to school. There were 11 children in my family. Mother made her own soap and often I had the job of putting water in the ash hopper for her.

We picked blackberries on the farm, made sorghum, syrup from the maple trees, raised tobacco. We lived in a two-room home in the hollow. Brother made homemade sleds for the younger children. We would climb the hill and run clear down to the back door.

From Mrs. O. Tolleson, Spartanburg, S.C.: I remember growing up on a farm in South Carolina. We walked four miles to school over muddy roads. When it was rainy and bad, daddy would hitch up the team to the wagon. When school was out, everyone going our way climbed aboard.

We had box suppers and cake walks on the school lawn, parties in the fall, picnics in the summer. The boys would go fishing the night before and we brought well-filled baskets of food, cooked fish on the stove. Teachers were chaperones and we had great times.

One afternoon a small boy stepped up to the box office of a movie theatre to buy a ticket. "Why aren't you in school, asked the girl. "I don't have to go," he replied. "I've got the measles!"

FURNITURE NEEDS TAILORED LOOK

Tailoring is as important to a chair or sofa as it is to a well-made suit.

Whether the covering is a woven fabric or a plastic, how well it is tailored to the chair or sofa should be carefully observed.

The covering should fit smoothly and evenly, and patterned fabrics should be carefully matched. It is important to check for straight seams.

Button tufting is a bit more expensive but sometimes helps secure the filling and prevents wrinkles. Coverings on foam upholstery tend to wrinkle if not securely attached.

Look for these details: fabric cut and placed so the weave or grainline will look even; self decking with the fabric beneath the seat cushions the same as that used on the rest of the piece; straight hanging skirts that are lined; zippered cushions and reversible cushions so wear can be distributed; and arm caps to protect chair and sofa arms from soil.

SUNDAY'S SERMON

★ Our World of Plenty

In a world of plenty in which we live, we should not let ourselves forget from whence the blessings came. Sure, there might be shortages of certain things, but still we live in a world of plenty.

When the richness of life surrounds us, we should remember God and give thanks. It is all too often that we speak to God only in time of dire need and supplication. But now is the time—this very moment—to praise God and thank Him for the many blessings, bounties and joys He has given us.

Any time, any season we can see all around us the beauty of God's creation and the happiness and the peace God has sent into the lives of those who believe in Him.

We might have shortages of material things from time to time, but there are never any shortages as far as God's love for us is concerned. Speak to God and thank Him, He will bestow many blessings upon you. Now's the time.

What's Cooking In Michigan

By Larrestine Trimm
Michigan Dept. of Agriculture
Marketing Information Specialist

Convenient slush packs of fresh, frozen tart cherries are on the market for sale to consumers. Availability of the institutional size packages indicates another successful year of tart cherry production in Michigan, according to Marketing officials of the Michigan Department of Agriculture.

Michigan is first among the states in tart cherries, producing 78.7 percent of the nation's total crop in 1974. Estimate for the 1975 crop is 115,000 tons, 73 percent of the U. S. total.

Slush packs are available in 10 to 30-pound tins. In the 30-pound tins, cherries are cleaned, pitted and usually packed in proportion of five parts cherries to one part sugar. But this may vary, so it's best to read the label or check with the store manager before buying them. In some areas a straight pack is available, which means no sugar has been added.

You can divide the cherries into recipe-size portions and repack in smaller freezer containers for storage in your freezer. To repack, let cherries thaw just until each one can be separated individually. Or if you want to can them, thaw completely and process the same as fresh cherries.

Use tart cherries for delightful homemade jams and jellies, cobblers and other tempting dishes. Serve cheese souffle with piquant cherry sauce for a tasty treat. Make cherry puree for use in molded salads and desserts like luscious cherry milk shakes, frozen parfaits and homemade cherry ice cream. For a delicious entree, serve cherry-glazed spare ribs with cherry-riche stuffing.

Minerals Important To Human Diet

Zinc, manganese, chromium, cobalt and selenium are words that may soon become familiar to you, even if you've never had a chemistry course in your life.

For scientists are finding that these trace elements are needed nutrients, important in your diet.

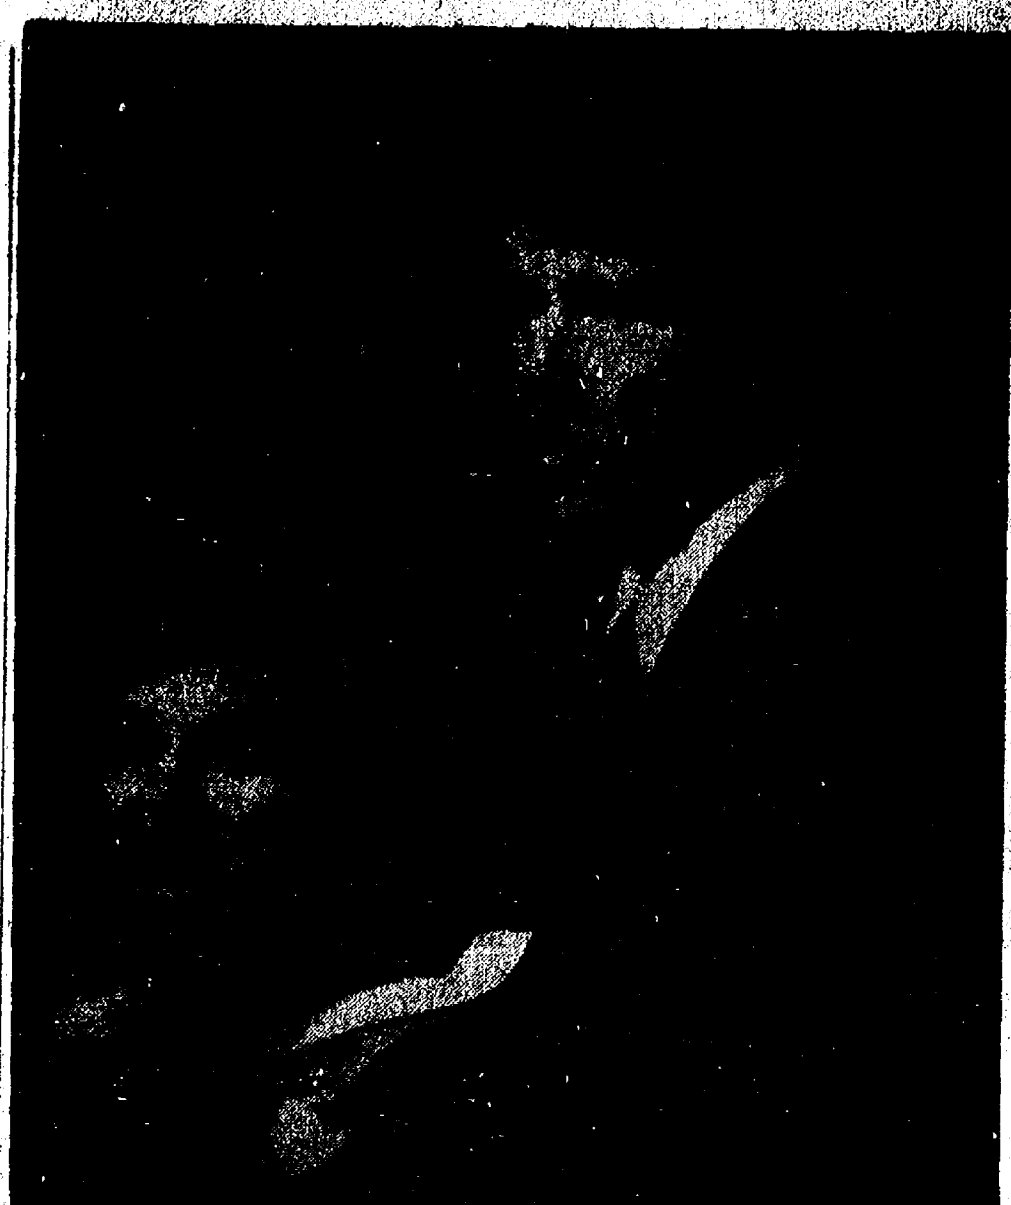

By choosing foods from the Four Food Groups, you can be reasonably sure of getting adequate amounts of these elements. Green leafy vegetables, fresh fruits, whole grains and organ and lean meats all contain generous amounts. With a well-balanced diet, the risk of deficiency is slight.

However, all the trace elements are known to cause injury at high levels of intake. Don't take food supplements to supply any of these elements without the recommendation of a physician.

Palmer Taking Registrations For PP&K

Local youngsters will be "dusting off" their footballs and loosening up their throwing arms soon for the 1975 Punt, Pass & Kick competition.

This year the local level of PP&K will be co-sponsored by the Chelsea Jaycees in conjunction with Palmer Ford.

Nationally PP&K is celebrating its 15th anniversary. It is sponsored by the Ford Dealers of America in co-operation with the National Football League. Since it was started in 1961, the program has attracted more than 11.5 million youngsters—and participation this year is expected to top the 1,200,000 mark.

Participants in the Punt, Pass & Kick program compete only against others their own age. Any youngster 8 through 13 years of age, accompanied by a parent or guardian, may register to compete in PP&K at any participating Ford Dealer. There is no entrance fee and no body contact during competition. No special equipment is needed and participating does not impair a youngster's amateur standing.

Scoring is based on accuracy and range with one point added for every foot of punting, passing and kicking distance, and a point subtracted for every foot off a center line.

Ron Haarer Has Top Steer at State Fair

A 14-year State Fair livestock veteran, won the top animal prize at the 1975 Michigan Fair. Eighteen-year-old Ronald Haarer, of Perry, showed the Michigan State Fair Grand Champion Market Steer.

The winning steer is an 1,130-pound black angus, and received the Michigan State Fair's Blue-Ribbon.

Ron, who lives with his parents, Mr. and Mrs. C. Gerald Haarer, also won top prize as the Junior Division Sweepstake Showman Champion. He has been raising and showing animals at the Michigan State Fair, since he was four years old. He recently graduated from Perry High school, and he is entering Michigan State University to study veterinary medicine. At the 1974 Michigan State Fair, Ron took the prize for the Reserve Grand Champion.

Haarer's grandparents are Mr. and Mrs. Irwin Young of 2317

Chelsea - Manchester Rd. Mrs. Young upon learning of her grandson's achievement remarked that the entire Haarer family is "good at that."

The 1975 Reserve Grand Champion was shown by 13-year-old Lisa Bohlen, of Fowlerville. This year's Reserve Grand Champion is an 1,155-pound Chinina steer.

This is Lisa's third year of competition at the Michigan State Fair. She lives with her parents, Mr. and Mrs. Robert Bohlen. Lisa attends the Fowlerville Middle school. She received her trophy from Ernest Girbach of Saline, a long-standing member of the State Fair Authority.

Both market steer animals went on the auction block at 1:30 p.m. Tuesday, Aug. 26 in the Coliseum Grove, along with other junior division steers, swine and lambs at the Michigan State Fair Livestock Auction. More than 80 animals are expected to be available on sale.

Chelsea Runners Place In Cavanaugh Lake Race

Four Chelsea runners placed in a road race held Sunday, Aug. 24 at Cavanaugh Lake. The race was sponsored by the Jackson Track Club; members of the club hope to make it an annual event.

Placing third in the high school division for the three mile run (once around the lake) was Rick Heller. Heller's time for the race was 16:30.

In the three-mile prediction race, a race in which one predicts his finish time prior to running, Jim Daniels placed second with a time of 21:41. Daniels' time was approximately one minute off his predicted time. In the prediction race, those closest to their prediction time are the prize winners.

Jim Storey who ran track during his years at Chelsea High school, ran the Open Six Mile Race (twice around Cavanaugh Lake) in a time of 33:27, placing sixth in the event. According to John Bauer, a member of the Jackson Track Club and longtime local runner, Storey's time was faster than those marked up during his high school career.

Bauer, who ran in the 40-and-over division, ran what he calls a "rotten" time for the six miles. He placed third in a time of 38 minutes.

According to Bauer 60 persons ran Sunday, the youngest being

five year old Thad Littlebrant of Grass Lake. Little Thad was not officially entered in the 13-and-under category, but wanted to start off with the other runners. Much to the surprise of Bauer and Thad's mother, the little tyke finished the three mile race in a time of 38:18. Bauer told that Thad's mother became worried and sent a car after him to bring him back; however, the boy refused to turn around, saying he intended to finish. As he came in smiling, Bauer said the entire race was worth holding just for that.

Bauer added for those who would like to know an excellent time for running the six miles would be that run by Dave Hines of Jackson. Hines, a student and member of the Cross County Team at Central Michigan University, ran the Open Six Mile Race in 28:14. His time was approximately two minutes faster than those who entered officially. "I don't think anyone will ever run around that lake that fast again," Bauer finished.

MIXED AND MISCELLANEOUS: This group of children were lumped together as prize winners in the 1975 Chelsea Community Fair Kiddies Parade under the title of "Mixed and Miscellaneous." The kids stood for a picture with U. S. Congressman Bob Carr before stepping off for the fairgrounds. Pictured from left to right are Randy Sabo, Dick Merkel, Carr, Kraig Leach, Tim Greenleaf, Kipp Bertke, Patty Blem and Beth Katz.

International Women's Year Symbol Chosen

Recognized throughout history for its qualities of peace, the dove has been chosen, along with the female symbol and the equality sign to symbolize the three themes of International Women's Year: Equality, Development and Peace.

Designed by Valerie Pettis as the official UN symbol for IWY,

it has been made into a pin and other items for the U. S. Center for IWY 1975. Ms. Pettis hoped that the wearing of it would create a heightened world of awareness of women's worth.

Just because a man is a good sport does not necessarily mean he is a good man.

TEACHING THIRD GRADE at South Elementary school for the first semester will be Mrs. Lexa Knight. Mrs. Knight will replace Sue Yager who is on temporary leave. Unlike certain other parts of the human body, the ear does not have a built-in defense mechanism that can protect it, according to hearing specialists. This fact, they point out, is a prime reason why hearing ability may be harried by exposure to excessive sound levels.

JUST MISSED: Three large limbs were torn from the trunk of two maple trees on the Cowell property located at 193 Glazier Rd., during last Thursday's storm. The two limbs in the foreground just missed the Cowell home. The home did not suffer any damage as a result of the storm.

NOT QUITE UPROOTED: This maple tree located on the Cowell property at Cavanaugh Lake was partially uprooted during storms last Thursday which caused numerous trees in the area to be uprooted or lose large limbs.

UPROOTED: This large weeping willow tree that used to grace the home of Judy Eubanks on Pierce Rd. was uprooted during last Thursday's storm. The tree fell within inches of the swimming pool.

House Bill 5250 regulates campaign financing, ethics, lobbying and related activities; provides for public funding of gubernatorial campaigns; and creates an ethics commission. This was a bill that was needed and which I first supported, even with serious reservations about several of its sections. The final version of the bill, however, was just too much to swallow and I had to vote against it. Special interest groups and the Democratic leadership in Lansing made a shambles and a farce of this political reform bill which the Governor is about to sign into law. The filing and disclosure statements and wasteful bureaucratic paperwork required from thousands of elected and appointed officials, both paid and unpaid, at township, city, village and county levels is going to discourage good people from running for public office. A loophole was tacked on by special interest groups which will let Big Labor avoid the strict campaign contribution limits by shoveling dollars from one union local to another.

I have worked for and supported strong campaign and political reform legislation because I believe in it. When this bill was first brought to a vote in the House of Representatives, I voted for it. After the union leaders and the special interest groups had their way, the scales tipped to the other side. I could not, and did not, support the bill because it is no longer a reform bill but simply a legislative branch of state sham. Big Labor now controls government and this provision will help them to increase that control. This bill, as it finally passed, will allow many special interest groups to conduct business as usual while at the same time it will discourage many good and qualified people from running for office at the local level. Sadly, the results of this bill may be chaos and confusion. I hope not. But it will never be too soon for us to begin to reform the reform bill.

PENALTY FOR POVERTY
Rich families spend less for food and transportation than poorer families. Families with after-tax income of \$5-6,000 spend 24.7 percent for food, 16.5 percent for transportation. Families with after-tax income of \$15,000 spend 19.2 percent for food, 14.1 percent for transportation. Housing takes almost 30 percent of income, regardless of take-home pay, however.

Ear aches and severe headaches, if allowed to continue untreated, may result in hearing loss, warn hearing specialists. For this reason, it is important to seek proper medical treatment to alleviate such maladies.

AGRICULTURE IN ACTION

MICHIGAN FARM BUREAU

★ Long Arm of Federal Government

It may sound far-fetched, but the day could come when farmers will need a permit to plow, to widen a ditch, to enlarge or drain a pond down on the farm!

This may not mean much to the urban dweller, but to farmers—who are the most independent businessmen in America—the idea is appalling!

But it could happen if a proposed federal regulation to expand the authority of the Army Corps of Engineers goes into effect. Early this year, in response to a lawsuit filed by a group of environmentalists, the U.S. District Court of the District of Columbia ordered the Corps to examine the disposal of dredged or fill material in the waters of the United States.

Up until the lawsuit, the Corps of Engineers exercised authority only over navigable waters under the Federal Water Pollution Control Act of 1972. The proposed regulations would put the Corps' smack in the middle of every pond and puddle in the country.

Perhaps not intended, the result of the regulation would keep a weather eye on anyone contributing to drainage water flowing into a stream. The theory is probably good, but the result is too far-reaching, according to agriculturalists who have examined the proposal.

Farmers say the court has misinterpreted the meaning of the Water Act. When the lawsuit indicated a lack of vigilance in regulating the developers and builders use of wetlands, contained in the Act, the Corps responded by announcing "federal permits may be required by the rancher who wants to enlarge his stock pond or the farmer who wants to deepen an irrigation ditch or plow a field."

Violation of the Act carries a fine of up to \$25,000 per day and imprisonment.

Secretary of Agriculture Earl Butz called the action "a dangerous extension of the long hand of the federal government into the affairs of private citizens."

This is just another example of over-zealous application, the limit-

SYLVAN HILLS ESTATES: It doesn't look like much but farm land now, but this 200-acre piece of property will soon become dotted with homes on 10-, 12- and 14-acre lots. The property was the former Peter Liebeck farm located on Old US-12 about one mile west of Sylvan Center. This photo taken from Old US-12 shows what will become a blacktopped road which will project one mile back to the development. Land developer for the site is Walter Cordin of Dearborn.

Motor Vehicle Fund Quarterly Receipts Drop

Fuel tax revenues increased slightly but weight tax proceeds were down in the three-month period ended June 30, the State Highway Commission reported today.

Net receipts for the second quarter of 1975 amounted to \$124,183,521, a decrease of \$2,352,428, or 1.9 percent, compared to the same period of 1974.

Second quarter distribution amounts to area counties compared to the same period of 1974 are as follows.

In Jackson county the distribution amounts for the second quarter of 1975 is \$851,887. In 1974 the amount was \$869,478. In Washtenaw county the amount for 1975 totals \$954,686. For 1974 the total was \$975,344.

SIMPLE LOGIC
A newspaper publisher received a form letter from a loan company that began, "Because you are a publisher you can borrow from \$100 to \$1,000 for Christmas by mail." His reply began, "Perhaps I can borrow this money because I am a publisher, but I couldn't pay it back for the same reason."

Wanted Girl Scout Leaders

Assistant Leaders Wanted, Too.

Why be a Girl Scout Leader?
Because you care about girls, and girls care about you. You want to share good things with them.

If you are a Leader, what do you do? You work with girls—little girls and big girls. You show them the many things you know. They learn from you, and you learn from them.

You have ideas. The girls have ideas. You make plans, and the girls make plans. The plans turn into action. You work on projects. You go places and see things. You have troop meetings and meetings with other Leaders. You make friends. And you receive help whenever you need it.

Thousands of men and women have brightened their lives as well as the lives of others by becoming Girl Scout Leaders. Be a Leader, and make some girls happy. It will make you happy, too.

Leaders. Be a Leader, and make some girls happy. It will make you happy, too.

About the Girl Scout Movement
The Girl Scouts of the U.S.A. is the largest voluntary organization for girls in the world. It is open to all girls 7 through 17 who subscribe to its ideals as expressed in the Girl Scout Promise and Law. Founded in 1912 and incorporated in Washington, D.C., in 1915, it was chartered by the Congress of the United States in 1950. Girl Scouts is a growing organization. But in order to continue to grow, it needs Leaders—like YOU.

If you can spare the time, you can become a Girl Scout Leader or an Assistant Leader. Helpers are also needed. To find out more, just mail the coupon below.

September in Michigan Brings Harvest Activities

Suddenly it's September in Michigan! The days get a little shorter, the nights a little more balmy and favorite vacation spots become a little less crowded. September in Michigan also brings an abundant harvest of things to do—just for the fun of it—according to the Michigan Travel Commission.

It has become a tradition with a "goody number" of Michiganians (and non-Michiganians as well) to "walk" into September across the Mackinac Bridge from St. Ignace to Mackinaw City. The Labor Day bridge walk is not only one of the state's major events, but also the only day of the year that pedestrian traffic is allowed on the magnificent five-mile span which connects Michigan's two peninsulas. The first Labor Day walk was held in 1939 and has increased phenomenally in popularity and participation every year since.

Since its origination in 1970, Detroit's Ethnic Festival Program has also climbed to a high place on the popularity list of enjoyable things to do on summer weekends in Michigan. This month's offerings of other cultures, customs, and charms are the Mexican Festival, Sept. 5-7; the Arab World Festival, Sept. 12-14; and the Latin American Festival, Sept. 19-21 which will close the 1975 season.

Fair-goers have several opportunities to follow their favorite pursuit north, east, south and west. September's schedule begins with the Saline Community Fair, Saline, Sept. 2-6 and after that: the Allegan County Fair, Allegan, Sept. 5-13; Saginaw Fair, Saginaw, Sept. 6-13; St. Joseph County Fair, Centerville, Sept. 15-20; Hillsdale County Agricultural Fair, Hillsdale, Sept. 21-27; and the Marquette County Harvest Festival, Marquette, Sept. 24-27.

Horse power of the buckin' bronc variety along with a frontier saloon, arts and crafts and a big parade are all ingredients that will be mixed together for good times during Frontier Days and Rodeo at Charlotte, Sept. 4-7.

Vintage horse power of the motorized type will be the attraction of the 25th annual Old Car Festival, Sept. 6-7 at Greenfield Village, Dearborn. Some 300 pre-1925 autos are expected including electric, steamers and gas buggies. Along with the cars and their costumed drivers, over 50 high-wheel bike riders will demonstrate some of the skills it required to manipulate the early day two-wheelers. And, right before your very eyes, a pile of Model T parts will be assembled into a running machine, in a matter of minutes.

More of yesterday's way of life will be recalled Sept. 13-14 at the Folk Life Festival at Charlton Park near Hastings. Early American arts and crafts, sausage, soap and "Likker" makin', blacksmithing and music too are just a small sampling of the pioneer spirit that will be brought back to life during this charming festival.

Sailing enthusiasts are sure to be interested in the first Canada Cup Race scheduled for Sept. 10-13 between Sarina and Port Huron. This is the fresh water equivalent to the America's Cup race.

On the festival front, September has several tasty offerings. The Harvest Festival at Scottville, Sept. 11-13, will feature a free Ox Roast plus two parades, carnival, farm displays and some great Michigan salmon fishing.

You might say that the Michigan Honey Festival, Sept. 11-14 at Chesaning, gives credit where credit is due. It's a fact that bees are extremely important in pollinating Michigan fruits, melons, cucumbers and other crops resulting in high quality and production. Of course, the high quality honey produced by the bees is also significant. Matter of fact, Michigan ranks 13th among the 50 states in honey production. The Honey Festival will feature a grand parade, carnival, interesting and informative displays about the business of bees and honey.

Michigan wine is fine and getting better all the time. You can prove it to yourself Sept. 18-21 during

the 8th annual Grape and Wine Festival at Paw Paw. The Festival honors the ripening of the grape and offers the visitor a wide variety of attractions not the least of which is the opportunity to sample the fermented nectar. One of the favorite features of the festival is the grape stomping contest and everyone is welcome to "have a foot in it." Other "goings on" will include a magic show, turtle derby art show, dance and grand parade.

Apples are the star Sept. 19-22 at the Apple Festival in Freeland. And in case you were not aware Michigan ranks first in the nation in the production of Spies, Johnathans and Wealthy apples. An antique car parade, art show, beet tent, golf tournament and apple orchard tours are just a few of the scheduled events during the Apple Festival.

On the art front, an Art-Crafts Festival at Powers Park, Portland, Sept. 5-6; Art Show in the Civic Art Center, Battle Creek, Sept. 7-30; Hobby, Arts and Craft Show, East 8 Mile Armory, Detroit, Sept. 12-14; Lafayette Park Art Fair, Lafayette Shopping Plaza, Detroit, Sept. 13-14; and the Arts and Crafts Festival, Fallasburg Park, Lowell, Sept. 26-28.

Some dates for rock hounders to check are: the Rock and Mineral Swap, Pioneer Park, Muskegon, Sept. 13-14; Tulip City Gem and Mineral Show, Civic Center, Holland, Sept. 19-20; and the Gem and Mineral Show, Sept. 20-21 in the American Legion Hall, St. Louis.

A number of other events highlight September's calendar including the unique Historic Home Tour in Marshall, Sept. 6-7. For a complete list of them all, write for a free copy of the Michigan Calendar of Travel Events to the Michigan Travel Commission, 300 South Capitol Avenue, Lansing 48913.

Ex-Dexterite's Restaurant in Mio Guttered By Fire

Friends of Mrs. Virginia Danner, formerly of Dexter, will be interested to learn that her restaurant, Lob Cabin Inn, and apartment upstairs in Mio was gutted by fire last week-end.

After her husband's death last spring, Mrs. Danner moved to Mio and was completing the sale of the restaurant and planning to move back to Dexter when the tragedy occurred.

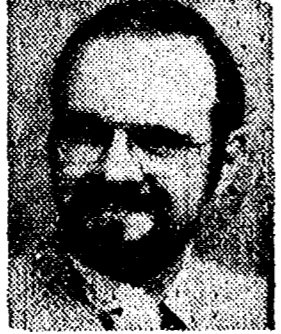

Mrs. Danner and children, Carmen, Colleen and Lon, are now in Livonia with a daughter and are still making plans to return to Dexter.

AGE OF MAN
If the two billion years of life are represented by a 200-foot pillar, the million years of man make a one-inch block on top of the pillar; the 20,000 years of agriculture make a thick postage stamp on top of that, and the 400 years of science make the ink on top of the postage stamp!

Today's hectic pace was emphasized when a small boy shouted to his brothers, "Hey kids—Mom and Dad are going to be our sitters tonight."

APPRENTICE BUS BOYS: Charles Cameron and Wallace Wood were kept busy Tuesday evening at the fair clearing tables and washing trays. The pair worked slowly, but methodically and very professionally. By the end of the fair they should be ready to drop their apprenticeships, and take on the job full time.

Boxes, Crates Can Be Made into Useable Furniture

A stack of cardboard boxes in your storage area may not "turn you on," but you can turn them into furniture that is a boon to budget and decor.

The cube shape remains popular in ready-made house furnishings. What better way to acquire needed furniture than to make it from what you already have?

Take a sturdy box and cover it with fabric, paint or paper. Doesn't it look like an end table, coffee table or a good place to serve snacks?

You might do up several boxes at a time and let your children use them in their rooms. They're so easy to move that they can be used for chairs, tables or dividers—all in the same day.

Fruit and vegetable crates are another kind of box that can have a future. Imagine them as doll cupboards, as noons for art supplies or even as a small chest of drawers.

There's no end to the useful furniture you can design from boxes. And every material you reuse not only saves money, but helps unclutter the family storage area and the landfills.

On Aug. 19, 1779, 300 American soldiers, under the direction of "Light Horse Harry" Lee, overran in a surprise attack—the British post located in what is now Jersey City, N.J.
