## School Millage Renewed for 5-Year Period

A total of 880 Chelsea voters decided by an almost 2-to-1 vote to renew the 13.5 mills for a five-year period for school operating expense. There were 574 "yes" votes, 305 "no" votes and one spoiled ballot.

Howard Haselschwardt, president of the Chelsea School Board, stated last week that the five-year renewal will make for much better long-range planning. He added, however, that if the state aid formula should change and Chelsea

doesn't receive what it is now getting, it may be necessary to ask for some additional millage in the future.

The 13.5 mills is the same amount levied in Chelsea for the past two years. Total millage for Chelsea schools is 30.47 with 24.72 going for operations and 5.75 for debt retirement, according to Fred Mills, business manager.

The School Board also noted their appreciation for the continued support of the voters to the school system.

## Hockey Team Suffers Loss In Title Bid

Hanover-Horton, the regular season Toland Division hockey champion, easily shut out Chelsea, 6-0, Sunday, March 21, which all but ended Chelsea's quest for a play-off championship.

Chelsea would have to make a complete turn around on Sunday, March 28 at 3 p.m. and win by six goals in order to win the championship.

The two-game, total goal play-off makes it necessary that Chelsea stay close in total goals the first game, but Hanover-Horton scored early and often and seems assured that they can hold on in the second game Sunday to gain the championship.

Chelsea's hockey team disappointment was shared as Jackson Northwest upset unbeaten Parkside, 6-2, in the Banner Division play-off.

## SEASON PREVIEW:

## Track Squad Has Potential for Developing into Successful Team

The Chelsea High school track team has been officially working out since March 1 in preparation for their 1976 season. According to varsity track coach Bert Kruse, many of the athletes have been working out on their own prior to the state's official team starting date.

A total of 35 men, 19 of whom are returning lettermen, are limbering up for the season which will begin tomorrow, Friday, March 26 with the annual Huron Relays, held at the Bowen Fieldhouse on the campus of Eastern Michigan University.

Kruse said the team is composed of 10 seniors, 10 juniors, eight sophomores and seven freshmen. "For the first time in a number of years we have an upper-class squad which hopefully is a good sign," he remarked.

Approximately 75 schools from Michigan and Ohio will be represented at the Huron Relays March 26. The following week the Bulldogs will travel to East Lansing for another indoor extravaganza, the Spartan Relays.

The first outdoor meet will be held on the home track, Friday, April 9. This one is reportedly a "toughie" according to Kruse as the team will go against Tecumseh and Jackson Northwest, both favored to win their respective conference races.

April 15 is the date slated for the first conference dual meet when the Bulldogs will go against Lincoln. "Even at this early date, it could go a long way toward determining the conference champion," Kruse said.

At this point, according to Kruse, the SEC conference looks to be a three-team fight for the title. Kruse reported that Lincoln has a large nucleus of lettermen, South Lyon has six or seven outstanding individuals and the Bulldogs have good depth.

However, the fate of South Lyon's team will remain in the air until an April 12 millage election determines whether or not South Lyon can field a track team.

Kruse said the rest of the league teams look evenly balanced and should not be a real challenge unless some unforeseen development occurs.

Among the returning lettermen who are expected to contribute heavily toward a strong Chelsea team are seniors Howard Salter who will run the dashes, low hurdles, relays and high jumping; Dennis Bauer running in the relays, 220 and throwing the discus; John Storey who will run middle distance events and the mile relay; Mark Burnett, pole vaulter and mile relay runner; John Collins running the 100-yard dash and some relays; Russ Weiner running the 440 and relay events; Bill Rademacher running the mile or two mile and Rex Miles throwing the discus.

Junior lettermen returning to the field are Randy Sweeney who will be high jumping, pole vaulting and running hurdles; Phil

Frame in the two mile; Rick Haller, the mile; Mark Smyth putting the shot and throwing the discus, and Morris Johnson running the half mile and mile relay.

Returning sophomore lettermen include Tim Welshans in the shot put and discus; Todd Weber running the half mile and mile relay; Matt Fisher in the relays, hurdles and 220; Scott Stafford running the dashes, relays and long jump; Pat Stevenson in the 440-yard dash, relays, long and high jumps, and Steve Pennington in the 440 and mile relay.

Newcomers who hopefully will contribute are seniors Don Sullivan in the discus, and exchange student Harry Prill who is expected to enter the long jump events.

Juniors out for the first time are Matt Heydlauff in the pole vault, Jeff Sweet, hurdles and (Continued on page eight)

## Scholarship Application Time Arrives for Seniors

Now is the time for students and parents of seniors to consider applications for scholarships for college and other advanced education, notes George Bergman, counselor at Chelsea High school. Counselors are always willing to talk to students and parents about future plans and they are urged to contact the counseling office with any questions.

Chelsea Scholarship Committee again urges any interested graduating senior to pick up applications for scholarships at the counseling office.

Bergman also reminds parents who are members of any UAW Local that the union also has scholarships which will be awarded, but an application must be made. The applications may be picked up at the school counseling office or from a union steward. Deadline for return of the appli-

cations is May 1.

On Tuesday, April 6 the school will offer to any seriously interested senior the opportunity to take the Armed Service Vocational Test Battery. This can be an aptitude test whereby the student may learn his ability in fields of electronics, clerical and vocational areas. Details will be posted in the school.

All seniors may learn of the variety of jobs and training opportunities at a special career presentation on Thursday, April 8 when Karl Riemschneider, former Chelsea student, who now represents Bell & Howell Co., will present a film entitled "Career Preparation and Career Confusion." The informational program will center on industrial arts careers, especially the electronic field. (Continued on page eight)

CENTENNIAL FARM: Paul (left) and Eugene Seitz stand beside the metal marker which designates the farm owned by their mother and grandmother, Emma Seitz, as a Centennial Farm by the Division of Michigan history. The farm, at 475 N. Fletcher Rd., has been in the possession of the family since 1875 when it was purchased by Philip Seitz, the father-in-law of the present owner, Emma Seitz.

## E. Seitz Fletcher Rd. Home Becomes 'Centennial Farm'

Farmland covering 180 acres, a white home built in two sections—grapevines—close to 100 years old that still produce a fine sweet wine, outbuildings and an irreplaceable red barn dominate the property at 475 Fletcher Rd. Owned by Emma Seitz of 304 E. Middle St., the property has recently been designated as a Centennial Farm by the Division of Michigan History.

The farm, located in Lima Township, has been in the possession of the Seitz family since February 1875 when Philip Seitz, father-in-law of the present owner purchased it from Charles and Rachel B. Easton. The original parcel included 68½ acres and sold for \$14.50 an acre. A remarkable difference from land values today that can run into thousands of dollars.

Questioned about her memories of the farm and her life there, Mrs. Seitz, who was married to Fred Seitz (he died in 1950), sat by the window of her home on E. Middle and said, "I can think of so very many things. You could make a whole book out of it. Fred was born there, you know." As was Mrs. Seitz's sister-in-law, Emma Mast, who is alive and well at the age of 94. "I think Mrs. Mast would

like to be mentioned," Mrs. Seitz stressed. "She lives alone in Ann Arbor and does all her own cooking and takes care of herself."

Recalling her move to the farm as a bride in 1915, Mrs. Seitz told that she and her husband lived with Grandma Seitz until she died in 1938. On the property which has expanded over the years to 180 acres, she and her husband raised their two sons and daughter. "We worked the farm until 1950," Mrs. Seitz fondly remembers. Then, the major crops were wheat, oats and corn for feeding livestock. "Farming is a headache nowadays. The taxes are so high, cost of machinery is so high. Why we could spend \$10,000 just fixing it up and never get it back."

Today the farm is worked by Mrs. Seitz's grandson, Eugene, who confirms her statement. Pointing to the red barn on the property, Eugene said to repair the roof alone would cost thousands of dollars. His father, Paul, a retired carpenter who lives with his wife and Eugene on the property, nods in agreement. "They just don't make barns like that anymore."

Like all centennial farms in the state the Seitz farm is mark-

ed by a large metal sign provided by the Detroit Edison and Consumers Power Companies to designate the property as being the possession of the same family for at least 100 years.

The Centennial Farm Program, inaugurated in 1948, is administered by the Secretary of State's department.

Applications for Centennial Farm recognition are obtainable from Centennial Farm Program, Division of Michigan History, Michigan Department of State, Lansing 48918.

## Crime Spree Ends Here for Wayne Man

A bizarre abduction ended in Chelsea last Friday morning, March 19, with the arrest of Melvin Davis, a 24-year-old man from Wayne, on charges of armed robbery and attempted murder.

According to Chelsea police, it all started in the early morning hours, when Davis went to the Detroit apartment of an acquaintance, 34-year-old Ronald Stacks. Davis woke Stacks up, and invited him to go out looking for his girl friend, but Stacks refused because of the late hour.

Davis then pulled out a nickel plated pistol, and ordered Stacks to come along or else, police say. Once in Davis' car, he allegedly threatened to kill Stacks if he didn't co-operate, and ordered him to break into a party store on Michigan Ave., in Detroit.

Once in the store, Davis allegedly made Stacks steal beer and wine, and bring them out to the car. After drinking several bottles of the stolen beer, the pair headed west on the I-94 expressway.

While passing through Dearborn on I-94, Davis said he became irritated with another motorist, and leaned out of the window and shot several of the motorist's tires.

The two continued their journey, and shortly after 8 a.m., arrived at Brayton's Mobil Station in Chelsea. Davis went into the station to get a map, and, as he did, Stacks drove off in his captor's car, north on M-52 towards Chelsea.

Seeing his captive escaping, Davis ran across the street to the Tower Shell Service Station, and commandeered a 1975 Ford belonging to three nuns, Sister Mary Joel Robbins, Sister Francis Manor and Sister Rita Archambeau of Gabriel Richard Convent in Riverview.

Davis pointed his pistol at Sister Robbins' head, and announced, "This is a hold-up, move over." All three sisters jumped out of the passenger side of the car, leaving their purses behind.

Davis then began to drive away in the sisters' car, police said, but he saw his captive, Stacks, returning south on M-52. Davis drove his

car onto M-52 and rammed the rear end of Stacks' car, blowing out a rear tire. Stacks continued south over the I-94 bridge, but had to abandon his car because of the flat tire. Davis caught up with Stacks, and began striking him with his pistol, knocking him to the ground. Stacks scuffled with Davis, and was able to get up and run away, with Davis firing his pistol at him as he ran.

Davis then fled in his stolen car east on I-94, where he got off at the Fletcher Rd. exit. In his haste to get away, Davis lost control of the Ford, and it slid into a ditch. Davis then went to a farm home, and solicited a ride back to Chelsea under the pretense of catching a bus back to Detroit.

In the meantime, Sgt. Lenard McDougall of the Chelsea police answered a radio call informing him of the robbery. Sgt. McDougall went to the Shell Station and immediately requested a road block to be set up in an effort to locate Davis, who was considered armed and dangerous.

At about 9:30 a.m., Michigan State Trooper Don Hiskins of the Jackson Post, spotted Davis entering the Wolverine Bar on Old US-12. Trooper Hiskins requested assistance on his police radio, and several officers responded, including Sgt. McDougall and Sgt. Nuel Schneider of the Washtenaw County Sheriff Department, Dexter office. In an apparent effort to escape, Davis hid his pistol in the men's washroom, and tried walking out the front door of the bar, where he was immediately arrested without a struggle by the waiting officers.

Davis is being held in the Washtenaw County Jail, where he faces the charges of armed robbery and attempted murder. His bond was set at \$50,000, and he is to have a preliminary examination in the 14th District Court in Chelsea on March 30.

Davis' first victim, Ronald Stacks, also spent some time in jail, when it was discovered that he was wanted in Detroit for a violation of his probation.

STATE FARM DEGREES: Four Chelsea members of Future Farmers of America (FFA) received the highest FFA award when they were named State Farmers this week in East Lansing. They are, left to right, front row, Dave Frame, Nelson Bollinger; back row, Jerry Huehl and Doug Welshans.

## Four FFA Chapter Members Receiving State Farmer Award

At this year's State Future Farmer's of America (FFA) convention, four senior members of the Chelsea FFA will receive the State Farmer Degree. These four members are Nelson Bollinger, Doug Welshans, Jerry Huehl and Dave Frame.

To receive this degree the FFA members had to meet some basic requirements. Among these were: earn at least \$500 by a supervised project; demonstrate leadership ability; participate in local FFA activities and be in the top three percent of all the Michigan FFA-ers.

The current president of the Chelsea FFA and recipient of the State Degree is Nelson Bollinger. Nelson lives on a dairy farm and

has received the Dairy Productivity Award. He has attended the National FFA Convention and is presently working on a dairy farm. Besides FFA, Doug is active in 4-H, Junior Polled Hereford Association and the American Yorkshire Club.

The third member for the State Farmer Degree is Jerry Huehl. Jerry has been active in FFA and has been on the parliamentary procedure team, dairy judging team and ag mechanics team. Jerry has also attended the National FFA Convention.

Dave Frame is also receiving the State Farmer Degree this year. Dave has done much in FFA as president and treasurer of the chapter and by serving as dele-

gate. The fourth member for the State Farmer Degree is Doug Welshans. Doug has been active in FFA and has been on the parliamentary procedure team, dairy judging team and ag mechanics team. Doug has also attended the National FFA Convention.

## Swim Pool Construction Continues with New Firm

Construction of the swimming pool at Beach Middle school is back on schedule, following the bankruptcy of the mechanical contractor and the hiring of a new mechanical firm.

The Ohio Casualty Insurance Co., bonding company for the mechanical contractor, has contracted with Boone & Darr, Inc., of Ann Arbor, to complete the mechanical work. They have also contacted all suppliers and subcontractors to pay any unpaid bills incurred by the original contractor. The repre-

sentatives of Ohio Casualty spent several days in the Chelsea-Ann Arbor area to assure the continued progress of the project. The bonding company is paying the unpaid bills and has hired the new contractor at no additional cost to the Chelsea School District beyond the original contract amount. Electrical and mechanical work is nearing completion as is the painting. The ceramic tile installers are to start work on the floors and pool area this week. The pool is scheduled for completion for use in the summer of 1976.

## Brothers of the Brigade Form for Bicentennial

The organizational meeting of the Brothers of the Brigade held March 16 was a resounding success. There were 50 persons attending and they set May 1 as the deadline for submitting chapter names to the committee. Highlight of the evening was a surprise parade by future "Brigadesmen" led by Ralph McCalla. Each man was sporting a full beard and mustache. It turned out that these men gained minor

prominence by organizing the first official chapter of the "Brothers," known as the "Royal Rural Roosters, R.F.D." The membership includes Ralph McCalla, chairman, Don Beeman, Paul Bollinger, Richard Bollinger, Archie Bradbury, Elmer Dibble, Lloyd Grant, Richard Haist, Bob Heller, E. Jay Hopkins, Chuck Koenig, Bob Kushmaul, Ruben Lesser, Duane Noah, Rod Powers, and Edson Whitaker. (Continued on page eight)

## Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

The fellers wound up talking about women and politics a little early Saturday night at the country store, so Ed Doolittle threw in some short subjects to fill out the time. Ed had two leftover clippings that he said had the same message in em. One told about dentists having the highest suicide rate of any professional group in the country, and the other was on neurotic dogs.

What it is, dear Ed, is that folks pile their fears and worries on our dogs and dentists till we drive both of em crazy. This piece Ed had pointed out that a psychiatrist said the reason so many den-

tists kill themselves is that they get burdened with the fear and hatred of their patients. A feller natural can hate someone that hurts him, Ed declared, which means that a dentist looks right in the face of hate all day every day. It's enuff to warp a feller's outlook on life, was Ed's words, even if the patient is hating and fearing the work and not the man doing it.

Actual, broke in Zeke Grubb, that tells us why barbers don't rate on the suicide scale. He can talk and the dentist can't, or at least the dentist can't get talked back to. The barber is working on the same head the dentist works on, allowed Zeke, but he can talk to it while he works on it. There's somepon about a human being's voice that dries up fear and hate, Zeke said, and the barber soaks his customers in talk. Most of what he says goes right on by, Zeke declared, but a feller sitting in that chair reading the "Haircut \$4" sign and recalling when a haircut and a shave was a quarter needs words as relaxing as a hot towel on his beard. Even with all his pain killers and modern equipment, a talking dentist can't get much rise out of a feller with his mouth numb or full of drills and assorted picks and shovels, Zeke allowed.

As for the dogs, Ed reported where a clinic in England is treating 5,000 mentally ill dogs a year. The piece said most of the mutts is put on tranquilizers so they can sleep nights, but some has to be counseled by psychiatrists. Ed said that was an encouraging report. With all the dogs trying to keep a stiff upper lip in a country where inflation is hitting 30 per cent a year and taxes go up to 98 per cent, the wonder is that more dogs don't crack up, was Ed's words.

The piece didn't go into it, but Bug Hookum wondered who counted all the dogs in England that was treated last year for busted ribs. Bug said he figured the neurotic dogs was the ones that yelled at by neurotic people, but what about the ones that got a swift kick in the side ever time their owners come home from buying the week's groceries.

Mister Editor, I've heard about scapegoats, and I reckon there's somepon to this scapegoat idee, but the jury's still out on scapegoats. A feller usual goes to the dentist cause he's hurting, so I figger he ought to love whoever eases the pain.

Yours truly,  
Uncle Lew.

### Heritage: Agriculture

Well over 100 years ago this July, Manley Miles introduced the first haymower and students at Michigan Agricultural College cut 40 acres.

Five years later, A. J. Cook discovered that London purple was successful against the codling moth.

And in 1941—still at the East Lansing college—scientists patented the continuous injection of measured amounts of fruit and nuts into a stream of frozen ice cream. Such are the accomplishments of "Spartan Science," as documented in a special Agricultural Experiment Station calendar for 1976—a fitting topic as the University prepared for its 52nd annual Farmers Week.

More than 20,000 visitors are expected on the MSU campus the week of March 22-24 for Farmers Week sessions that deal with such diverse subjects as dairy nutrition and recreational skiing. "Spirit with a Purpose" is the

theme, emphasizing the Co-operative Extension Service help to Michigan farmers over the past 61 years. The service now has 80 county offices serving residents of all 83 Michigan counties, especially through educational programs.

The aim: translate the fruits of agricultural research into terms the average person can understand and put to use.

Touted as the second largest source of income in Michigan, agriculture brought sales of \$1.7 billion in 1974.

That year, the Agriculture Department reports, Michigan ranked first in the nation in production of six different crops: red tart cherries, dry edible beans, pickling cucumbers, fine Eastern soft white winter wheat, rhubarb and blueberries.

Predicting Power Needs  
Flicking on the lights today is a taken-for-granted action.

To keep it that way 10 years from now, experts need to know

how much electric power they should plan to provide.

That, in a nutshell, outlines one task of the Governor's Advisory Commission on Electric Power Alternatives, chaired by former Lt. Gov. James H. Brickley, now president of Eastern Michigan University.

While projections of power needs have proved deficient in some ways in the past, the commission is convinced that it may have the answer in a new forecasting system that uses complicated computer calculations.

The new system projects that if Michigan's economy runs at average speed over the next 10 years, Detroit Edison's electric load would grow at 4.17 percent a year, and Consumers Power's load would grow at 5.28 percent a year. Detroit Edison and Consumers Power together supply about 90 percent of Michigan's electricity, and their sales grew consistently at over 7 percent a year until 1974.

### Race Warning Up

Help me—or one of my competitors for that matter. Just get involved and help.

That's the plea from Republican Congressman Marvin Esh of Ann Arbor, who's a candidate for the GOP nomination for the U. S. Senate seat being vacated by Phil Hart.

Esh has announced plans to pass out stamped envelopes at his campaign rallies so citizens can mail him contributions for his political campaign. And he says envelopes with names and addresses of all the U. S. Senate nomination candidates will also be available at his rallies on request.

Meanwhile, yet another hat appears in the ring. Former Michigan Supreme Court Justice Thomas Brennan, now dean of Cooley Law School in Lansing, says he also is running for the Republican nomination.

Brennan's entry into the race brings the total of GOP candidates to five. Others are: Deane Baker of Ann Arbor, a University of Michigan regent; former Congressman Robert Huber of Troy; and Lewis Engman of Grand Rapids, former chairman of the Federal Trade Commission.

Democrats seeking their party's nomination are: State Sen. John Otterbacher of Grand Rapids, Congressman Don Riegle of Flint, Congressman James O'Hara of Utica and Birmingham attorney James Elmsan.

### Adoption Conference

Slated Saturday on Michigan State Campus

"Beyond the Frontiers in Adoption," a conference for parents and professionals, sponsored by the Council on Adoptable Children of Michigan and Spaulding for Children, in co-operation with the University of Michigan and Michigan State University Schools of Social Work, will be held Saturday, April 3.

The conference, which will begin with registration at 11:30 a.m. and continue until 6 p.m., will be held at Anthony Hall on the MSU campus, East Lansing.

Such questions as the rights of the adoptee, original parents and adoptive parents to information in the adoption files, exploring the problems of adopted children during adolescence, issues in adopting children from overseas, parenting the abused child, and separation and dealing with their (the adoptive child) past will be explored and discussed.

Panels of parents and professionals will be in the conference. Interested families will be invited to meet informally to discuss school placement for multiply handicapped children and the formation of a respite care exchange for families with handicapped children in these topics and parents of adopted children are encouraged to attend "Beyond Frontiers."

## Bake Sale Scheduled For Guatemala Relief

The First Congregational church of Chelsea has been sponsoring a child in Guatemala for more than a year through the Christian Children's Fund, Inc. This aid is used for an entire project involving schooling, medical care, nourishment, family education and Christian teaching.

We are happy to report that the project where our Juana attends school in northwestern Guatemala was not badly damaged by the recent earthquake. As sponsors, we receive information from Verent J. Mills, founder and executive director of the CCF.

There is great need in Guatemala now and the CCF people are there working in the most devastated earthquake areas. By sending money through this organization we can be effective in doing something to help the people rebuild their country and their lives. We would like to share with you a letter recently received from Mills.

Dear Friend, I grieved as I read or listened to Jim Hostetter's reports from Guatemala which has experienced the worst disaster (in injuries and numbers of homeless) in the recorded history of the Western Hemisphere—and is the most catastrophic single event in the 38 years that CCF has been assisting children worldwide. I am enclosing some of Jim's narrative and photographs.

I am no stranger to tragedy. For nearly four decades I have labored through natural and man-made calamities on the front lines of human suffering—and it is always the children who suffer the most.

But I have seldom seen such despair as is now going on in Guatemala. Even as you read this hurriedly-put-together letter, I will be in that tiny country which even before the earthquake was one of the most impoverished in the world—trying with little means at hand to assist in the emergency relief, and to structure the massive rebuilding programs that will be required. Not only for the nearly 10,000 children we have been helping, but for the entire villages and "barrios" that have been utterly

destroyed, and the hundreds of thousands of other children desperately requiring short and long-term assistance.

The statistics alone are staggering. More than 25,000 dead. Nearly 100,000 injured. Fully 1.2 million people—a quarter of the country's population—homeless. And an estimated billion dollars in damages.

I think of the Guatemala we knew before the earthquake. The incredible poverty. Malnutrition to the point that half the population was almost always hungry. Two-thirds of the children receiving little or no education, and unable even to speak Spanish. I never dreamed that conditions there could possibly get any worse. But they have.

I am writing to you because I know you will want to do all you possibly can to help. My appeal—Guatemala's appeal—is as simple as that.

Your gift, no matter how small, will help us to assist families through survival programs, furnish food for hungry mothers and babies, help provide water and housing, keep children warm through the cold nights, help pay for medical care, or enable reconstruction to begin.

What do we say to Guatemala? The answer is, we say we care. It makes all the difference in the world.

Thank you for your faithfulness. Sincerely yours, Verent J. Mills, Executive Director

We know that many of you want to help the suffering people there and as a beginning our church is holding a bake sale on Friday, April 2 and Saturday, April 3 at Gamble's Store on Main St. in Chelsea. We invite you to help make this a successful effort by donating baked goods if you wish. This is an opportunity for the entire community to show our concern. Please call the church, 475-1844 or Pat Tompkins, 475-2862 for further information.

Telephone Your Club News To 475-1371.

## Historical Society Memberships Now Accepted

The members drive of the Chelsea Area Historical Society opened for new members and renewals in February.

New members will be accepted throughout the year but renewals of present members has a deadline of April, 1976.

If present members want to

continue to receive newsletters, take part in future events such as the May House Tour and Bicentennial activities of the society, they should send in their renewal right away. It is a year you don't want to miss and the society does need you.

Applications are available at the McKune Library and the Chelsea

Methodist Home or contact Hazel Dittmar, Box 334, or call 475-8963.

#### GAS-SAVING TIPS

Break gas-wasting habits. Don't pump the accelerator or race the engine when your car is not moving. And use the brake pedal rather than the accelerator to hold the car in place on a hill.

### PREP Screens 92 Pre-Schoolers

Ninety-two pre-schoolers were involved in a pre-school screening by the staff of the Parent Readiness Education Project (PREP) on March 11 and 12 at North and South Elementary schools. The children were seen individually by trained teachers for about one-half hour to determine their learning strengths and weaknesses. Parents whose children participated in the screening received the "Let's Play and Learn" book which includes enjoyable learning activities for pre-schoolers and their parents to do at home.

Parents who wish the results of their child's screening may request them by sending a stamped, self-addressed envelope to the PREP office, in care of Chelsea High School, Washington St. Specific activities for parents and children to do together to strengthen the child's weak areas will be included in the results.

Parents of 3½- to 5-year-old children whose birthdates are between Dec. 1, 1970 and July 31, 1972, and who have not participated in the screening, may make an appointment by calling 475-9131, ext. 60, this week.

On the basis of the results of the screening, approximately 12 children and parents will be invited to participate in the PREP program this spring.

**This spring, do something about next winter's heating costs.**

# Insulate!

More than 100,000 Michigan Consolidated Gas Company heating customers have taken advantage of our low-cost ceiling insulation program in the past two years.

Originated under the direction of the Michigan Public Service Commission, we are presenting the program again this spring.

Why Insulate? Because it helps hold down home heating costs. With the cost of gas continuing to rise, installing ceiling insulation has never made more sense than it does right now. Many Michigan Consolidated customers have already reduced their gas consumption for home heating by as much as 17%. And you can save just as much by installing six inches of ceiling insulation in your home this spring.

How much does it cost? Many homeowners can install insulation themselves for about \$125. That's a smart investment when the money you save on heating can repay the insulation cost in just a few years. We have a free

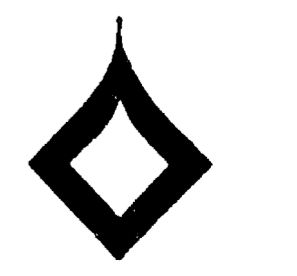

handbook that shows you just how to do the job, whether you'll be insulating for the first time or adding to insulation that's been there for many years. You can get a copy at any Michigan Consolidated Gas Company Business Office, most building supply dealers, or write or call us.

If you'd rather not do the job yourself, one of our participating subcontractors can. Total cost is about \$250 for homes with less than 1000 sq. ft. of ceiling area. You can pay cash. You can pay 20% down and pay the balance without interest over your next three gas bills. Or you can make extended payments at the interest rate of 1% per month on the unpaid balance (ANNUAL PERCENTAGE RATE OF 12%).

So why not insulate this spring? You'll make next winter's heating costs less than they might be without it. And if you have air conditioning, you'll save on this summer's cooling costs, too.

# 'Pop Culture' Grows in Academic Acceptance

College study of "pop culture"—comics, cartoons, books and films—is growing in academic acceptance and is a valid and useful way of studying America and its people, says Dr. Russel Nye, distinguished professor of English at Michigan State University.

He believes that Superman, Peanuts and Orphan Annie, like rock music, drive-ins, dragstrips, sci-fi, and McDonalds, tell something about American life. "Its artifacts become imbedded in our vocabulary and serve as symbols of our times," contends the MSU English professor.

Just as the person who wants to understand the 18th century must study the ballads, cartoons, songs, tales and jokes of that era, so the person who would understand the 1970s must examine today's popular culture, Dr. Nye explains.

CLIFF TAYLOR, Republican congressional candidate, right, discusses his campaign with Gerry Staub at a reception last week at Staub home.

## Cliff Taylor Enters Congressional Race

A reception for Republican congressional candidate Cliff Taylor was held last week at the home of Gerry and Carol Staub recognizing Taylor's formal entry into the Sixth District race.

More than 50 supporters attended the event hosted by the Washington District and his wife. Politics was the principal topic of conversation during the evening, and the anti-administration voting record of incumbent M. Robert Carr was the subject of much discussion.

In his announcement of candidacy, Taylor promised to make the creation of jobs through stimulation to the private sector a prime campaign issue.

The Lansing attorney, who carried the county by a substantial margin in his 1974 race against Carr, said he intended to press his familiar theme of opposition to an entrenched and expensive

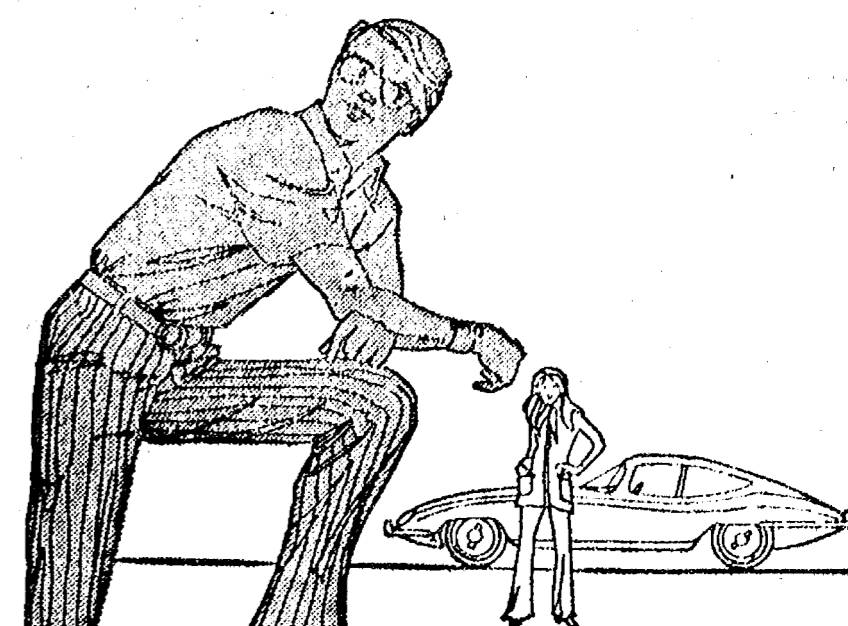

federal bureaucracy during many future visits to the county.

### FIRST PHONOGRAPH

Thomas Alva Edison was granted a patent for his phonograph in February, 1878. The idea for the talking machine came from Edison's work with the telegraph, and later the telephone. By late 1877, his experiments more than justified the making of the first machine and, just a few months later, on Feb. 19, 1878, he was granted a patent on the phonograph. Edison's Menlo Park laboratory in which the phonograph was invented is now among the historic buildings in Greenfield Village, Dearborn. Here, visitors may see a demonstration of an early Edison phonograph and even hear Edison himself recite "Mary Had a Little Lamb," the first sound ever recorded clearly on the talking machine.

He's only 30 and he just bought a \$50,000 life policy.

Sure, a \$50,000 life policy could cost a lot of money...but it doesn't when it's "altogether"! When we say "altogether" we mean Perma-Term—permanent and term insurance combined to avoid those big premiums, but still deliver the big protection young family men need. It means you could have a \$50,000 policy which lets you build up a retirement income at the same time! Yes, Perma-Term's easier on the budget, but please remember that costs go up as you grow older. So give us a call now—before another birthday gets past you altogether!

## J. Drolett Seeking GOP Nomination for Sheriff

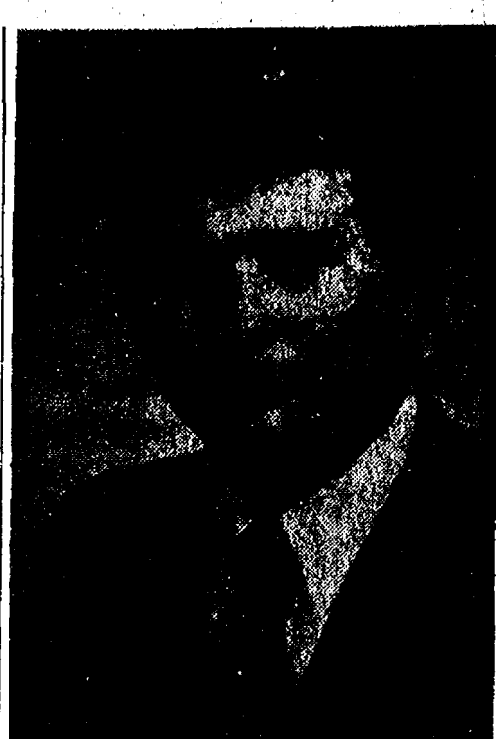

James Drolett, senior probation officer of Washtenaw county, is announcing his Republican candidacy for sheriff. Drolett says he intends to re-establish basic, sound fair and intelligent enforcement of the law for all of Washtenaw county. In making the announcement Drolett gave the following statement:

"One of the most pressing problems in our county today is crime, crime that is touching more people and leaving more victims than ever before. The only effective way to fight that rising tide is through an all-out co-operative effort by every police agency in the county, working as a team. The sheriff should be the leader of that effort, instead, the current sheriff has not only stilled that co-operative spirit but has attempted blatant power grabs and takeovers of other law enforcement agencies to the detriment of the crime-fighting effort. I intend to re-establish a relationship of co-operation and mutual respect between the Sheriff's Department and state and local police agencies."

"All citizens of Washtenaw county are entitled to equal police protection. The Sheriff's Department has a moral obligation to provide that protection in all the unincorporated areas of the county. The Sheriff's Department must also get back to the basics, which are providing police protection, operating the jail, and serving the courts."

"While the Sheriff's Department has more than doubled in size in the last three years, the level of police protection has remained static and failed to keep pace with the rising crime rate. Money is being spent for many things which are not a part of the basic functions of a Sheriff's Department while the necessities are being neglected. The department budget amounts to over \$3 million annually and includes over 200 personnel, this demands a sheriff who will make a professional career commitment to this county—I will make that commitment."

Drolett moved to Washtenaw county in 1968 after receiving a bachelor's degree from Michigan State University in Police Administration. He has been employed by the Washtenaw County Probation Department for eight years and is presently a senior agent for

JAMES DROLETT

that department, in charge of District Court Probation services throughout the county. Jim received a master's degree in Guidance and Counseling from Eastern Michigan University in 1974.

Drolett has experience in dealing with all facets and agencies of law enforcement throughout Washtenaw county on a professional level, from the courts to the criminal, and including the victims of crime.

As a former member of the Washtenaw County Sheriff's auxiliary, he gained three years of on-the-job police experience adding to his knowledge of the total picture of law enforcement in the county. He is a member of the Michigan Corrections Association, National Sheriff's Association, and the Southern Michigan Law Enforcement Association. Drolett is a member of the Ann Arbor Republican Party City Committee and has served as precinct leader since 1974.

"In a county where five colleges or universities are located, I feel that it is imperative that any sheriff candidate have the educational background, as well as the experience in order to deal with all the demands of the job."

Jim and his wife, Gail and their two children, Kimberly 6 and Tyler 2, reside in Ann Arbor, at 3491 Charing Cross.

## SOUTH ELEMENTARY SCHOOL NOTES

### FROM MR. WOJCICKI—

Our 5th grade volleyball tournaments for the boys and girls are finished. Both the boys and girls teams from Mrs. Moore's room were champions. The girls from Mrs. Nance's room were the runners-up, and the runners-up of the boys were from Mr. Bullock's room. The games were exciting, and the children had a lot of fun. In May we will have a softball tournament.

South school Open House will be Thursday, April 8 from 6 to 7:30 p.m. Please come and visit your children's rooms and the art displays.

### KINDERGARTEN—

Teacher: Mrs. Bower

Our March birthday people are Robby Finch and David Kyarberg. Meredith Johnson had her real birthday. It is always fun to celebrate a birthday at school. Every birthday child has a special birthday hat and we all enjoy the cup cakes and goodies that mother sends.

Many of the parents have come in to tell us about their jobs and interests. Mrs. Myers is a practical nurse; Mr. Myers is a surveyor; Mr. Anderson is a detective; Mr. Satterthwaite runs a wrecker business; Doctor Waldyke takes care of us when we are sick; and Mrs. Finch is a nurse. Also, Mrs. Colombo came and showed us many interesting decorative stitches.

We were sorry to have Jennifer Rossi move, but we know she will enjoy her new friends at North school.

Our seeds are up in our Mother's Day gardens. By May we hope to have them blooming.

Soon we plan to learn our addresses and see the differences in our living locations. Some of us live close to school and some live farther in the country.

The pussy-willows in our room have gone to seed and are rooted. We plan to plant them when the weather is better.

Spring is coming, and we are all being very careful crossing the streets.

### Teacher: Mrs. Van Blaricum

March has been a busy month for us. We have been talking about the many different jobs people have, and some of our parents have come in to tell us what they do. Many thanks to Mr. and Mrs. Myers, Mr. Satterthwaite, Mr. Anderson and Mrs. Colombo. Their demonstrations were great and so much better than just having a teacher try and explain. We welcome anyone else who could come!

For St. Patrick's Day we were green (if we remembered), we made green finger Jell-O, had green cupcakes (thanks to Mrs. Donkin), got some green candy (thanks to Mrs. Satterthwaite), and made leprechauns with Mrs. Bower. Surely was a green day!

We have finished our number books which we worked very hard on. Now we are doing our alphabet books. We need much practice writing numbers and lower case letters.

The signs of spring are many. Pussywillows, robins, kites and the crocus tell us that winter is almost over. We will be talking about these things and more before spring vacation.

### FIRST GRADE—

Teacher: Mrs. Thornton  
Reporters: Cherie Alexander,  
Jill Harvey, Robby McDowell,  
Valerie Stoker

What a busy month we've had! Casey Murphy had a birthday treat for us. We celebrated Japanese Doll Festival Day. Some of us brought in Japanese things—Robby McDowell and Cindy Gaken brought in fans; Karen Weber had a tea cup; Kelly Burke had a kimono and a doll which was very beautiful; Robby also brought in a hat and some material that his sister had. We had a great time eating and learned many things about Japan.

Mrs. Foley brought in a St. Patrick's Day surprise for us. We enjoyed the cookies and green Jell-O. Miss Dotts came in and talked about taking care of our teeth and how important it is to eat the right foods.

We hope our eggs hatch next week. We are working with vowels now. We are really learning to be good readers. We are almost finished with our math books. Last fall they seemed so big and hard to do!

Our space unit is interesting. Vicki is helping us make the planets. We also made our volcano erupt. It was fun to watch it.

Mrs. Smith has written some good rabbit stories for us to read. Have a nice spring!

### SECOND GRADE—

Teacher: Mrs. Lopez

March winds and changes in temperature help us to learn about the weather. We have made pictures showing various types of weather and learned about the weather charts found in the newspaper. Each of us is keeping a daily weather record.

We are learning the foods we need to eat to keep healthy. Everyone made a food poster showing the variety of foods we need each day. Now we are learning about eating healthy snack foods.

In mathematics we are reviewing all of the addition facts. After we are sure of these we will learn some of the multiplication facts.

Everyone enjoyed St. Patrick's Day, and we all wore shamrocks. Happy birthday to Kurt Roberts, our March birthday boy!

## Agricultural Day Plans Slated for Bicentennial

The Agricultural Day committee has been meeting monthly to formulate activities for the Chelsea Bicentennial Celebration. Agricultural Day will be Friday, Aug. 20 and will provide activities for the entire community from noon to sunset.

Starting off Bicentennial Week on Friday, Aug. 13 will be an old-fashioned square dance featuring Luke Schable's Band. The dance will be held in the merchants' building at the fairgrounds and refreshments will be served. Tickets will sell for \$2 and this should be a fun activity to get the week rolling.

Agricultural Day will begin with a parade of antique and new agricultural machinery and equipment that will begin at 1:30 in Chelsea and travel out to the fairgrounds. After the parade, various displays of antique farm equipment will be in operation at the fairgrounds as well as

displays relating to the history and contributions of agriculture to the area.

In the afternoon, also at the fairgrounds, will be a series of fun events such as a horseshoe pitching contest, a tug-of-war, a hog-calling contest and other very exciting opportunities to display one's agricultural know-how. Entry forms and details of these events will appear in future editions of The Standard.

In the early evening an old-fashioned farm meal will be served in the fair cafeteria and rounding out the day will be a pre-pageant recognition ceremony to pay tribute to local citizens who have distinguished themselves in the field of agriculture.

These events are designed for the entire community and surrounding area and there should be something for everyone to view, participate and indulge in. Up-to-date details will appear later.

## Second Show Scheduled For Joe Adair Travelogue

"Kentucky-Tennessee Experience," the fifth in a series of six travelogues in the Chelsea Kiwanis Club Travel and Adventure Series, is expected to be so popular with local audiences, that Kiwanis has decided to offer two showings of the program.

According to George Palmer, the April 3 travelogue will be presented at both 6 and 8:30 p.m. in the Chelsea High school auditorium. Tickets for each showing will be available at the door.

The film-maker, Joe Adair, will bring the Great Smokey Mountains, Cades Cove, Gatlinburg, Lookout Mountain, the Cumberland Gap and Cumberland Falls to Chelsea.

This land of natural bridges and lazy rivers, Daniel Boone and Davy Crockett, horse races and horse places will come alive for the viewer. Adair will show the beautiful Blue Grass region and the heritage of Abraham Lincoln and Jefferson Davis. Viewers will be treated to Nashville and Opryland. At every stop Adair and his camera will focus on people, acting naturally, at work on Mountain crafts and at play, enjoying that good old country music. The film is billed as one of "warmth, humor and fun."

Joe Adair has lived, worked, or traveled in nearly 50 countries in a relentless quest to know this earth and its peoples. He brings several lifetime's worth of experience to the lecture stage. From these he draws his accounts of life as it is lived around the world.

Adair grew up in the Midwest. Waterloo, Ia., is still home to him and his wife, Mary Liz. He completed his undergraduate work at the University of Northern Iowa and Georgetown University, Washington, D.C. He holds a Master's Degree in Education. But his education has scarcely been limited to the campus. He has followed the midnight sun across Iceland; traced and retraced Africa's grasslands to photograph her people and game at home; signed and sailed aboard whaling expeditions to the Arctic; and been made to feel equally at home living with Moslems in Kuwait, Hindus in India, and Kikuyus in Kenya. The hinterlands of Thailand, typhoons on Mindanao, the vastness of Africa—each has etched itself on his consciousness.

He was a member of America's first Peace Corps contingent sent to Haile Selassie's mountainous kingdom of Ethiopia. While there he adopted a young Ethiopian orphan who has traveled much of the world with him as his protégé, and who today is in America in University in preparation for returning to his own land to work in Ethiopia's developmental programs.

The American Junior Chamber of Commerce has included Joe Adair in its annual volume "Outstanding Young Men of America." He is relentlessly active. For relaxation he has flown his own plane to the farthest corners of America. On the lecture tour he travels in a self-contained motor coach where he is always "at home." He pursues skiing, music, painting, hiking, and soaring with a passion becoming his youthful vigor.

Joe Adair has high regard for

JOE ADAIR

the inhabitants of the lands he visits and records. To him the country alone conveys little without including the story of the people who have shaped, or been shaped, by that land. In his presentations the land becomes a backdrop for the lives of people—their daily work and activities, their fun and festivities, their dreams and aspirations.

## Change in Name Sought For Ypsilanti State Hospital

Senator Gilbert E. Bursley (R-Ann Arbor) has introduced a bill to rename the Ypsilanti State Hospital as the Southern Michigan State Hospital.

Bursley indicated that his efforts were prompted by various civic leaders including the Mayor's office and citizens in the Greater Ypsilanti Area.

Senator Bursley stated, "Numerous people have been puzzled by the name of Ypsilanti State Hospital because the facility lies outside the city and township boundaries and has no operational connection with Ypsilanti."

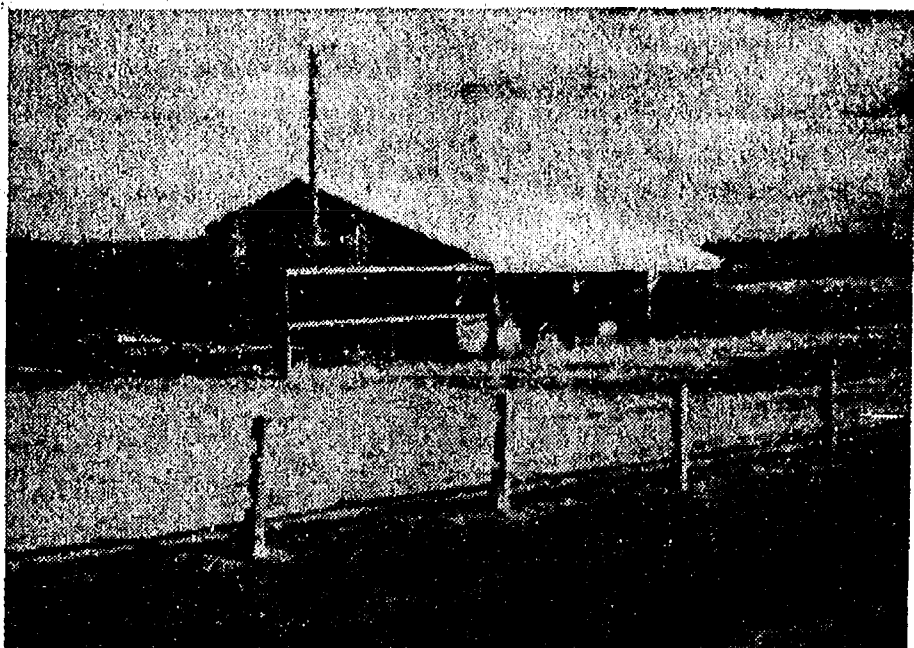

"The controversy over premature releases from the Hospital and Forensic Center has created a good deal of negative publicity for these institutions. This negative image has been attached in some degree to Ypsilanti simply because of the name of the hospital."

"Ypsilanti has been most cooperative in any necessary assistance these facilities have required

and, thus, in no way deserves the negative image it may acquire from the problems arising at Ypsilanti State Hospital. I am sure a more appropriate name can be found and would be welcome by all."

Other names besides Southern Michigan State Hospital may be considered. Senator Bursley noted, "In my contact with Dr. Vernon Stehman, director of the Ypsilanti State Hospital, I find him in complete sympathy with the request for a name change and he, in fact, has already begun seeking suggestions for alternative names."

Even though hearing loss victims are suffering from a very real physical disability, they seldom are shown the concern extended to individuals with other types of handicaps, point out hearing specialists. This is because there are no visible impairments connected with a hearing loss.

## 120 Shop Owners Can't Be Wrong

The Old World Village Mall is proving to be the chance of a lifetime for 120 Ann Arbor area people. The Old World Village Mini-Mall concept of retail merchandising has provided these successful shop owners with advantages most could never enjoy by going it alone.

**Low Rent** For as low as \$160 a month, including all utilities, an individual can actually own his or her business. Compare that with regular commercial rents.

**High Traffic** The Old World Village Mall, serving the Ann Arbor area, generates a tremendous flow of buyer traffic. Don't take our word. Pay us a visit. See for yourself.

**Mass Advertising** The average, individually located, retail shop owner simply couldn't afford to mass advertise with the impact and regularity of Old World Village.

**Peak Hour Performance** The Old World Village Mall is open only during peak retail hours... Wednesday through Friday evenings. All day Saturday and Sunday. You can still enjoy the many benefits of owning your own business without interfering with your present job. It's a great opportunity for retirees to get into business, too.

**The Sky's The Limit** If you're into clothing or crafts, home decorating items or just the unusual, Old World Village Mall is the place for you. It's the proven, successful way to be your own boss at the lowest possible cost.

**THERE ARE A FEW LOCATIONS STILL OPEN. BUT YOU BETTER ACT NOW!**
