Replace Your Old Oil Furnace and Get FOUR YEARS OF FREE HEATING

Blueray: Slashes oil bills 20% • Is non-polluting • Runs quietly • Requires half the space of ordinary furnaces • Conserves energy

Blueray is the first blue flame oil-fired furnace for the home. It's the result of a 14-year, million dollar research program to develop a quieter, more efficient and reliable, compact, non-polluting heating system. Only Blueray's unique blue flame advanced re-circulation system provides better combustion efficiency than ordinary furnaces. FOUR YEARS OF FREE HEATING* With Blueray, the equivalent of four years worth of heating bills will be saved over the average system lifetime! It's easy to estimate this savings. Just add

up your oil bills for one year and multiply the total by four. That amount would be your Blueray savings. The development of the Blueray

marks such a significant breakthrough that even owners of recently installed equipment can realize savings from a Blueray. That's why I've made exclusive arrangements to offer the Blueray oil furnace in this area.

Stop burning money. Start saving money. Install the revolutionary Blueray heating system now!

For four years of free heating.

*Using average efficiency improvement of 20%, based on installation test data and field service records. Blueray blue flame furnace performance predicated on compliance with manufacturer's installation and service instructions. Lifetime of furnace is assumed to be 20 years.

PROCLAMATION

- WHEREAS the Congress of the United States passed a Joint Resolution authorizing and requesting the President to designate the seven-day period beginning on May 28, 1979, as "Vietnam Veterans Week;" (PL 95-513)
- WHEREAS the Nation has never fully expressed its gratitude to those who gave a substantial portion of their lives at their Government's request and in the name of the people of the United States to serve;
- WHEREAS an adverse image has often been unfairly attached to the Victnam veteran as an individual because of the controversial nature of the Vietnam conflict:
- WHEREAS all Americans are indebted to those more than 8 million who answered their country's call in a time of emergency;
- THEREFORE, I as Village President proudly proclaim the week of May 28 to June 3, 1979, as VIETNAM VETERANS WEEK and urge all citizens of Chelsea to join in expressing our deep appreciation and heartfelt gratitude to all Vietnam veterans.

Don D. Wood, President, Vil'age of Chelsea.

Come Help Us Celebrate!

FREE DRAWING-

Ann Arbor Trust wants to share the work of two very talented local artists with you. During our Grand Opening Celebration we will have two drawings; one for a Ben Bower painting, and another for a Dale Fisher photograph. You don't have to be a customer or open an account to enter. Just visit our Chelsea Banking Office between May 18 and June 2 and fill out an entry form for either or both drawings. That's all there is to it. The drawings will take place June 2, and you need not be present to win. Be sure to stop in soon and fill out your entry form.

BEN BOWER

We've just opened our beautiful new Chelsea Banking Office and you're invited to help us celebrate. Please join us for our Grand Opening festivities May 18 through June 2. We'll be serving refreshments to all visitors, and you can register for two free drawings. Take advantage of this opportunity to meet our staff and get acquainted with Chelsea's newest full-service bank. We're open 9 a.m. to 4 p.m. Monday through Thursday, 9 a.m. to 6 p.m. Friday, and 9 a.m. to 12 noon on Saturday.

Iginal watercolor paintings of Chelsea area scenes to adom the walls of our Chelsea Banking Office. Ben studied art at the Applied Art Academy and Michigan State University and has lived in the Chelsea area since 1952. For 25 years Ben served as Office Manager at the Waterloo Recreation Area Headquarters during which time he pursued art primarily as a hobby and made custom picture frames. In 1975 Ben retired and began devoting full-time to his art and picture frame business at his home on Chandler Street in Chelsea,

fortunate to acquire several of Dale's beautiful photographs of Chelsea area scenes. A well-known photographer and lifelong resident of Washtenaw County. Dale began his photographic training in the U.S. Navy. For the past 15 years Dale has been involved strictly in helicopter photography. His clients include industrial. commercial, and real estate firms. both local and out-of-state. Dale's work has been featured in the Detroit Free Press and on WXYZ TV. Channel 7, in Detroit. Dale and his family have lived on Notten Road in Sylvan Township for the past seven years.

BICYCLE SAFETY WEEK: As part of Bicycle receiving from Chelsea Lions Dave Scriven, left, Safety Week proclaimed by Village President Don- and Jim Nicola. Children were also tested on safety Wood last week, a bicycle rodeo was held at South knowledge by Officer Weber of the Jackson State school for the children of Chelsea last Saturday, Police Post. McDonald's Corp. helped sponsor the May 19. Part of the affair, attended by about 100 event by providing reflectors for the bikes, and bike owners, was a safety check performed on workers Kathy Van Buren, Judy Norris and Susan bicycles, like the one Tuck Steele, above center, is Kester.

The Tie That Binds Never Became Popular

Ĩ,

While it never made it big in the fashion world, patent No. 79,063, issued June 23, 1868, certainly was utilitarian. Pegged as an "improved neck-tie and watchguard," the device was a complicated piece of fabric with a knot and a loop at each end. One end went around the neck and became a tie while the other end, slipped ciency Task Force was a commitonto a pocket watch, kept the companies and organizations timepiece from falling to the throughout the state which was

Like any other business, we have to make money choices at Rampy Chevrolet. Sometimes, spending a little more can mean saving a lot. So before one of our new cars goes off the lot and into your garage, we spend time and money to make sure it's ready for you.

★ Impatiens

* Stotice

We put our best mechanic in charge of new car preparation. When he says a car is ready to go, it really is. He has a check-list, an ear for rattles and a lot of patience. And he knows that every time we sell a new car, his reputation is on the line.

So is Rampy's.

Rampy knows that a reputation for trouble-free new cars is his best form of advertising. And no new car warranty covers being inconvenienced and irritated.

You're both when you have to bring a new car into the shop for adjustments: Rampy doesn't want to see that happen. So we spend more on new cars, before they're sold, than most other dealers.

When your car doesn't come back... except for regular warranty checks and service, our investment in time and money pays off. You're pleased because everything operates properly. We're pleased because, if you're satisfied, you'll come back to Rampy for your next car.

We don't want you back because a job was done wrong. We want you back because the job was done right.

CHELSEA FIREMEN pour water on the alternoon, ignited, Smith speculates, by faulty wircharred remains of Wallace Smith's barn at 12845 ing in a heater for baby chicks. The frame in the Dexter-Chelsea Rd. The barn burned last Thursday picture above later collapsed in on itself.

Large Barn Destroyed By Blaze

Using Solar Energy...

Come see how Detroit Edison is using the sun's energy to heat space and water in its experimental Jubilee Solar Home.

Visit the Jubilee Solar Home and see how Detroit Edison is experimenting with the sun's natural energy to help keep your future bright.

Fortunately, Detroit Edison customers have plenty of electric. power available. Today, and many years into the future. It's a result of a lot of planning, development and investment and the fact that more than 84 percent of Detroit Edison's power is generated from coal, our nation's most abundant fuel. The balance 'is generated by other fossil fuels. Looking far ahead, Detroit Edison is conducting research on other energy sources that may prove to be practical in our geographic area. While it may be some time before solar energy developments make possible economical applications for people's homes, the Jubilee Solar Home already will have begun to determine if the sun's energy may someday be a useful replacement for the oil and natural gas now used for heating so that these fuels may be saved for other uses where only they will do.

The Jubilee Solar Home looks like a traditional house. But if you walk around to the back you'll see the solar collectors on the roof. Heat from the sun is captured by the collectors, stored in the water, then distributed by air to heat the home. Solar-heated water also warms water for bathing, laundering and cleaning. Solar energy is expected to fulfill 20 to 30 percent of the space heating requirements and

NILE BOAD

610

& MILE ROAD

80 to 90 percent of the water heating requirements.

On days when the sun doesn't shine or when more heat is needed, an energy-efficient heat pump moves the natural heat, always present in the outdoor air, inside the home. Electric elements provide additional heat as required. In warm weather, the heat pump reverses automatically for energy-efficient air conditioning.

The Jubilee Solar Home is exceptionally well insulated to keep heat inside in winter and to make air conditioning more efficient in summer. All doors and windows, and even the fireplace, are designed to be energy efficient.

When you visit the Jubilee Solar Home, be sure to examine some of the new ideas in electric appliances and lighting selected for energy efficiency, convenience and safety. And note the interior lighting and outdoor security lighting system, designed to use little electricity.

Detroit Edison's Jubilee Solar Home was built by Fred Greenspan Development Corporation in cooperation with the Builders Association of Southeastern Michigan.

Keeping plenty of power in your hands.
