> OLIVES .- Of the olive harvest of 1880 a Naples correspondent of the London Daily News writes: "According to the last reports the olives in the provinces of Puglia and Calabria are of unusually good quality. The temperature could not have been better than it was during the last six weeks, a period essential for the definitive ripening of the fruit, which in consequence is so firmly attached to the branches that none falls, and it can be plucked at leisure. In Calabria especially not an olive has fallen, a thing that has not been noticed for many years, and if the frost there is a certainty that the fruit quantity. The markets at Gora and Galipoli are calm, with little business doing, and if no further reduction inprice is verified, it is only because the actual price of oil is already low enough for an abundant harvest, from which foreign countries have still to lay in their large stores. Reports from Spain. the Ionian Islands, Greece and Tunis are also excellent; the last named place will yield a harvest three times more than the average quality.

The north jetty, which will be 11,000 feet in length, has been completed to a height of about seven feet for two thirds of the distance, and the south jetty, which will have a total length of 8,000 feet, has received the first courses of stone for about onethird that distance. The work is under the direction of Capt. J. C. Post, U. S. A., who is hopeful that when completed it will give a channel of at least twenty-six feet across the bar. So far, over half a million of dollars have been appropriated for the work, and if no delay occurs in future appropriations, the entire work can be finished within the next two years, and at a cost of something less than the original estimate of \$1,800,000.

The morrow dawned, anspicious, bright—
The harbinger of joys untold;
The willing soul had taken flight,
Leaving earth's casket—still and cold.
Three stricken daughters mourn her loss,

A Barber's Good Bargain.

For some time past there has been considerable speculation in Michigan pine lands, and all pine lands offered for sale have been quickly bought up by speculators and lumbermen. Some persons who bought at government prices have made fortunes. The following is a case which happened a week ago: A barber who lives near Williamsport, Pa., bought half a section of pine for \$4 per acre, about two years ago, in Lake county, just west of Reed City, and held it for a speculation. It is now valuable, and parties in Reed City recently opened negotiations for the purchase of the with him parties from Manistee went Advance sheets of the Auditor General's redrews (Rep., Ks.) to retire the vational bank barber, sound him at work in a little shop, busy shaving a man. "Hi! I see! That's good! Capital! Now let's see! And he repeated it until he was sure he had it right. On the following day, over the des sert, Phil announced;

"Ho, boys! I've got a conundrum for you, and there ain't one of you that can answer it." "Go ahead, old fellow. Let us have

it. Propound." "Well, here it is: It is my father's child and my mother's child, yet it is not my sister nor my brother."

They thought a few moments, and then one of them cried out, and the rest immediately followed suit: "Why, it's yourself, of course." "No" said Phil, shaking his head.

That ain't it, You wont guess it." "But that is it. It can't be anything else. Look at it for yourself." "I don't care. 'Taint right. You haven't got it."

July 21, 1851, at the age of 18 he secured a position as fireman on the Syracuse & Auburn Railroad. That was before the Central was built, and when the old wooden strap rails were in use. Connecting roads ran from Utica to Buffalo, and each had a president and superintendent. One division was from Utica to Syracuse, another from Syracuse to Auburn, a third from Auburn to Rochester, and a fourth from Rochester to Buffalo.
