If you have any business at the Probate Office, make the request that the notice be published in the HERALD. Such a request will always be granted.

WHISPERINGS.

Election passed off quiet! Save your hen fruit, Easter is coming! Dr. Shaw had the largest majority—49. Read the Commissioners notice in the legal column.

Both the republican and union caucuses were well attended.

Two hundred and eighty-six votes were cast at the election last Monday.

Fifty-five straight Union, and forty-five straight republican tickets, were cast.

Twenty persons have united with the Methodist church during the revivals.

Confirmation services will take place in the German Lutheran church next Sunday.

Dexterites elected a temperance ticket and now hopes to have an orderly place.

Thanks to our new correspondent in Lyndon. Trust to hear from you every week.

Mr. Hale, of Hale & Telford, took a trip to Detroit after goods, the fore part of the week.

Most of the men elected are indebted to Geo. W. Turnbull, for he made the nominations.

John C. Taylor's case, against the village of Chelsea, will come up in the March term of court.

M. J. Noyes of this place, now owns the John Beam farm, of 270 acres. Consideration \$15,000.

Owing to the long financial report, a lot of good correspondence is laid over. We beg pardon this time.

Considerable "slipping" was done at the election, the most on the treasurer's office, between Kempf and Babcock.

The examination of school teachers in this vicinity, will be held at the union school building, April fourth.

Mr. H. H. Noble and wife of Elk Rapids, Mich., spent several days of the past week with Thos. S. Sears, of this place.

We hope Prof. Wiggins will continue to predict storms, if the nice weather we have had, is the result of the predictions.

The HERALD will keep its many readers informed of the work of the new board, which will go into power next Monday.

A six-light chandelier, in the M. E. church, was entirely destroyed last week, by the plaster work, on the ceiling above it, falling.

The jubilee at the M. E. church was well attended, but owing to the breaking of the chandelier, the forenoon services were held in the basement.

That eminent man, John B. Gough will lecture in Ann Arbor, Tuesday, April 3. All will have an opportunity to hear a first class temperance lecture.

All the parties elected stand high in the estimation of the people, as citizens, and we hope their actions, during their term of office, will win the approval of all.

Work on Third Degree at the next regular meeting F. & A. M. No. 156. A full attendance of the brethren is desired. J. D. Schnaitman.

S. B. Thompson will lecture at the Congregational church, next Monday evening, on "Moral and Mental Elevation of the Colored Race!" This lecture is free!

If any of our readers can favor us with the printing of tickets for the spring election, we will consider it a personal favor. We are in the best of shape to turn them out on very short notice.

The fifth and last lecture will be delivered at the M. E. church, next Tuesday, March 20. SUBJECT: "Vacation Views, in Foreign Fields." It will be delivered by Rev. Pope, of Ann Arbor.

By the calendar of the March term of court, we see that Geo. W. Turnbull has three cases, and M. J. Lehman, D. B. Taylor and Wm. B. Gildart, each, have one case to try during the term.

Mr. Dudley Vosburg will close a very successful term of school in the district, about three miles south of here to-morrow. The average attendance has been 19. Miss Mensing will teach the spring term.

There are but two counties in the state that have more newspapers than has Washtenaw. They are Kent and Wayne. Register. Yes and if it were not for the legal printing, there would soon be two less in this county.

A donation will be held in the M. E. church, to-morrow (Friday) evening. Refreshments will be served from 5:30 until 10 o'clock. It is to be hoped a large gathering will be present, and make this an occasion to be long remembered.

J. G. Hoover's work is being appreciated. Last week he took a contract for a new school house to be built in district No. 2, of Sylvan. The building will be 26x36 feet, and will cost about \$300.00. Mr. Hoover will furnish everything except the stone, sand and seats.

The case of The People vs. John Dolan, for selling liquor on election day, tried at Chelsea on Tuesday, was won by The People, the first ballot of the jury being unanimous. Fine \$33, and about \$26 costs.—Dexter Leader. Yes, and if you want justice done, send all your cases up this way—good men here!

I. M. Whitaker, of Lima, left two Plymouth Rock eggs, at our office last Saturday, which measure 7¼ inches each, in circumference the largest way. Mr. Whitaker takes pains to raise only "full bloods" of this variety, and during the season, disposes of many settings. We are going to make an "Easter feast" of the eggs, and can then judge as to quality.

We are informed that the Washtenaw Journal, a new German paper, will make its appearance in about two weeks. Mr. Christain J. Reul will be the publisher and proprietor.—Register. About three months ago a report of this kind was circulated, is there any more truth in this than there was in that? Washtenaw county would support another German paper.

To the young lady who will send us the first correct answer to the following, we will give a nice pack of cards, with the name nicely printed thereon.

The fly wheel to our Gordon press is 31½ inches in diameter and makes four revolutions while the press makes one impression. How many miles did the rim of the wheel travel while the press made 14,000 impressions, that being the number made in one week.

We would call the attention of our farmer readers, to the following:

On Wednesday, March 28, at 10 o'clock, A. M., a Pomona Grange will be organized in the Sylvan town hall, and all grangers and others, are invited to be present. Cyrus G. Luce, of Coldwater, will be present, and in the evening, at 7 o'clock, sharp, will be delivered an interesting address. Farmers' wives and daughters are especially invited to attend.

Our friend Thomas Jewett—and daughter—had a narrow escape last Thursday. While returning home in a carriage, a white cat suddenly sprang in front of the horse. The horse took a side jump, upsetting the carriage, throwing Mr. Jewett out in a snow bank. Mrs. Watrous remained in the carriage. Mr. Jewett held the horse down until assistance could be summoned, when it was found that but little damage had been done. The parties sustained bruises, but no serious injuries.

Probably no county office is in as good shape to do brief and record work as is the HERALD office, and we would invite lawyers who have such work, to call on us or write us whenever they have such work to do.

Miss Delia Kork closed a successful term of school, in the Savage district, on Saturday last. The afternoon exercises consisted of recitations and dialogues, which were well rendered. The school closed with a "spelling down." Miss Minnie Savage (a little girl of 10 years) standing some time after the rest had been seated.

Pioneer Meeting.

Owing to the pleasant weather last Wednesday, the Pioneer meeting, held at the Congregational church, was largely attended, numbers coming from Ann Arbor, Ypsilanti, Scio, Delhi, Dexter, Waterloo, and other parts of the county.

President Depew called the meeting to order, and numerous obituaries of Pioneers, who had departed in the past three months, were read, and deaths of others of whom no notice had been received, were made known. It is remarkable, with what rapidity, the pioneers are passing away for during the past year, no less than sixty of these daring and good citizens, have gone to their reward. During the past three months, some twenty-five have departed this life. The oldest pioneer, who died, during that time, was Mrs. Rhoda Fuller, aged 93 years, and a resident in the county, 53 years.

Just before dinner, the fact was announced, that Mr. Doty's house, near Ann Arbor, was burned the Friday night previous, together with all the relics, pictures and works of art, most of them the handy-work of his daughters. Among the relics burned, was a life he was intending to present to the Pioneer Society, which was given him by Capt. _____, who told him to keep it until he called for it! But Mr. _____, was lost on the ERIE in 1842, and so the life was never called for. The life had made music every fourth of July, for the past twenty-five years, and on many other occasions.

At 12:30, dinner was announced by C. H. Wines, and soon the tables were filled with the jovial "boys and girls," and a good meal enjoyed. About 250 persons sat down to dinner, and the supply of vituals was not exhausted, so well had the Pioneers of Chelsea prepared for their guests. The tables were waited on by the young ladies of Chelsea, who deserve thanks for their courtesy.

After dinner, the meeting indulged in, and listened, to five minute speeches, and essays, of great interest to the Pioneers and young people present. At a little before four o'clock, the meeting adjourned, to meet at Manchester the 8th of June next. It is hoped the name of the Society will be changed from the Washtenaw Pioneer Society, to the Washtenaw Historical Society.

NEWS OF THE WEEK.

WASHINGTON.

WHAT THE FORTY-SEVENTH CONGRESS DID.

The forty-seventh congress and its acts have become a thing of the past, and a brief summary of its legislative may be of general interest. The record, so far as it can be readily made up, shows that 8,015 bills and joint resolutions have been introduced in the House and 3,652 in the Senate, making a total of 10,670, during the two sessions that the forty-seventh congress has been in existence. Of these only about one-eighth—1,286—were introduced at the session just closed, and of this small number only about one-eighth—163—have passed both houses and become laws. The one which has occupied by far the greatest part of the session, and which is perhaps the most important and far reaching in its effects is the bill reducing the internal revenue tax on certain manufactures, notably on tobacco and cigars, and changing the duties on a long list of important articles. According to the statement attached to the bill it will effect an aggregate reduction of taxation to the extent of \$207,000,000, but the opponents of the measure dispute the statement. The bill takes effect July 1, 1888. Next to the tariff bill in importance are several appropriation bills, which call in the aggregate for \$229,327,511. They are as follows:

Pensions.....	\$6,575,000
Military academy.....	3,118,657
Fortification.....	670,000
Consular and diplomatic.....	1,206,755
Navy.....	15,894,434
Army.....	24,681,350
Postoffice.....	44,489,520
Indian.....	5,382,655
Legislative.....	20,464,296
Sundry civil.....	23,906,147
District of Columbia.....	1,699,867
Deficiency.....	2,813,187
Agricultural.....	405,645
Miscellaneous bills involving ap- propriation of money.....	750,000

The following are the more important general bills passed during the last session: The civil service bill; Japanese indemnity fund bill; to provide for a new mixed commission in accordance with the treaty of April 25, 1866, with Venezuela; to modify the postal money order system and for other purposes; to readjust salaries of postmasters; to prevent the importation of adulterated tea; to encourage the holding of a world's industrial and cotton centennial exhibition in 1884; joint resolution to adjudicate claims of New York brokers for a rebate of taxes; to allow Canadian grain to be brought over the border to be ground; to refund to the state of Georgia money expended for common defense in 1777; to reimburse the states of Oregon and California for moneys paid in the suppression of the Modoc war; extending the time for filing claims for horses lost by officers and enlisted men; to admit free of duty a monument to Gen. Washington; authorizing the examination and auditing of certain claims against the Freedman's savings bank and the payment of certain dividends barred by the act of February 21, 1881; to increase the fees of witnesses in star route cases from west of Mississippi river; to regulate the construction of bridges across the Ohio river; to regulate the export of tobacco in bond; and the tax and tariff bill to reduce the revenue.

SENSIBLE INSTRUCTIONS.

Secretary Folger has given instructions that the word "cents" be placed on the new five cent piece in order to meet the requirements of law.

TOO MANY ERRORS.

According to Mr. McPherson, clerk of the House of Representatives, there are a good many clerical and typographical errors in the new tariff bill. As the bill appears in the Congressional Record, tobacco is taxed at 80 instead of eight cents, and there are numerous other errors of a similar character—several of the most glaring mistakes being in regard to the iron schedule. Mr. McPherson is of the opinion that when the bill shall be accurately printed in full it will be found more satisfactory than it now seems to be to representatives of the iron industry.

STAMPS TO BE REDEEMED.

The comptroller of the currency is constantly in receipt of letters, in reference to the redemption of two cent check stamps, not required by law after July next. There is a law providing for the redemption of all unused stamps if presented for payment within three years from the time they are purchased from the government.

ANOTHER FRAUD.

B. F. Pritchard of Washington, has been placed upon the postal fraud list. The inspector's report shows that he advertised himself as a pension and patent attorney, when in fact he had been debarred from practice before all the executive departments.

MORE HELP WANTED.

Forty additional clerks are wanted in the treasury department. This demand is created by the recent postal legislation. The new money order system alone calls for 22 new clerks.

HE WAS FINED.

When the defense in the star route farce began their testimony, quite a scene was enacted in the court room. Congressman Belford had been on the stand, and while giving his testimony became so agitated as to make statements for which he was fined \$100. In spite of all his protestations the court refused to remit the fine. At this juncture the facetious Robert G. Ingersoll promptly offered his check for the amount; and the unhappy congressman was released.

THE CHIPPEWAS COMPLAIN.

A delegation of Chippewa Indians are in Washington for the purpose of asking the department of the interior to prevent white invaders from cutting timber on their reservation. These depredations are becoming too frequent, and if not prohibited will soon ruin that part of the reservation which is still wooded. The Chippewas are perfectly satisfied with their present land and have no desire to be moved.

WILL CUT HIM.

Society people in Washington flatly refuse to recognize the wife of Senator Tabor, and a number of Senators have given the perplexed bridegroom the "cut direct."

A MONEY STATEMENT.

A statement by the United States Treasurer shows gold, silver and United States notes in the Treasury as follows: Gold coin and bullion, \$178,761,784; silver dollars and bullion, \$104,920,939; fractional silver coin, \$27,758,523; United States notes, \$47,236,446; total, \$358,517,920. Certificates outstanding—gold, \$43,122,800; silver, \$68,624,320; currency, \$10,805,000.

TRIED TO "REMOVE" HIM.

A report is current that a short time before the adjournment of congress an attempt was made by some person unknown to assassinate ex-Secretary Blaine by shooting into the carriage in which he was seated while returning from one of the night sessions at the capitol. Mr. Blaine treats the matter lightly and says the hole through the windows of the landau in which he rode was probably made by a pebble thrown by some boy with a "devil's sling." His family, however, are said to take a more serious view of the occurrence.

DORSEY'S DEVILTRY.

Stephen W. Dorsey of star route fame is charged with knocking down and kicking in a brutal manner Judge Lilly, who made a friendly call on Dorsey and was accused by him of causing Redell to become a government witness. Lilly is quite old and is confined to his room by his injuries.

A PUBLIC LAND DECISION.

The Secretary of the Interior has decided a case involving a claim of the State of California

to a tract of land of about 100,000 acres lying upon the borders of Lake Tulare. The decision approves the Creighton survey and awards the land to the State of California under the Swamp Land Grant act of September 28, 1850.

A CONUNDRUM ANSWERED.

It is stated upon authority that none of the questions in regard to proper construction of the new tariff bill will be passed upon until the new law becomes operative.

THE SHERIDAN EXTRADITION CASE.

The State Department has received no intimation as to the intentions of the British government relative to the execution of the warrant for the arrest of P. J. Sheridan. Inquiry at the British Legation elicits the information that while no further steps had been taken in the matter no instructions from the home government have been received to abandon further proceedings, the steps thus far taken being merely preliminary to a hearing upon the merits of the case, with the reserved right on the part of our government to pass upon the evidence adduced and grant or refuse the extradition of Sheridan. The action of her Majesty's government in pressing or abandoning the case will be influenced by the weight and character of the evidence which it may be possible to furnish in support of a requisition for extradition. There is reason to believe that the matter will not be pressed unless the British government feels assured it can make out a case which will satisfy the State Department that extradition should be granted.

TWO CENT POSTAGE.

In view of the reduction in letter postage, which takes effect Oct. 1, the postoffice department will soon issue a circular calling the attention of postmasters and the public generally to the fact, and admonishing the former to cut down the stock of stamps kept on hand. No steps have yet been taken toward the issuing of a new stamp other than the head of Washington, which now ornaments the three-cent stamp. The color and design for the new stamp have not yet been determined, but will be ere long, so that in the intervening six months everything may be made ready for the change. In the department it is generally believed that a design similar to the new five-cent issue, or "Garfield stamp," will be chosen. The design will not be approved until it is carefully considered and criticized.

THE PANAMA CANAL.

A government official just from Panama says work on the canal is being pushed. The route has been surveyed and cleared. American, Belgian and French steam excavators are at work. The American machines are the best. At the Atlantic entrance four or five dredging machines are at work making a basin. The laborers are mostly Jamaica negroes. There is much sickness, and the death rate is high.

SETTLED FOR THE PRESENT.

Collector Bell will continue to act as Collector of Customs at Detroit at least till the next session of Congress, unless suspended for cause during that time. He has been so assured by the President and Secretary Folger. This understanding has virtually settled the controversy over the Collectorship until next winter.

REBATE ON TOBACCO.

Rogers, Deputy Commissioner of Internal Revenue, says there will be no serious trouble on account of the failure of Congress to make an appropriation for the payment of the rebate to tobacco dealers. The necessary routine through which the great number of claims must go before payment, would in any event delay payment till late next fall. Soon after the assembling of Congress an appropriation would probably be made for the reduction of tobacco taxes was not fixed at July 1, instead of May 1, for the latter date is the beginning of the license year and the office at that time will be overwhelmed with business.

HAS THE GOVERNMENT THE RIGHT?

The question whether the Treasury Department can legally withhold the pay of members of Congress who are indebted to the government is exciting considerable attention just now. The First Comptroller of the Treasury assumes that it can, and so informed the Treasurer in the case of Representative Ochsleider. The Solicitor of the Treasury is inclined to doubt the legality of such decision. He makes the point that it might be considered wrong as a matter of public policy to withhold the salary of a representative of the people as tending to interfere with his constitutional prerogatives. Secretary Folger now has the question under consideration.

OUR NATIONAL PARK.

Secretary Teller representing the party of the first part, has signed a lease to 10 acres of ground in the Yellowstone national park with Carroll T. Hobart, of Fargo, H. T. Douglass, of Fort Yates, Dakota, and Rufus Hatch, of New York as the party of the second part. By the terms of the lease Messrs. Hobart & Co. have leased for 10 years 10 acres of ground in seven separate parcels in as many different parts of the park at an annual rental of \$2 per acre. They agree to erect the following hotels: One hotel at Mammoth hot spring to contain 250 rooms and to cost \$15,000; one near the Geysers; one at Burwick; one at Soda Butte springs; one at Tower Falls; one at Great Falls, and one on the bank of the Yellowstone lake. At the expiration of the lease all the buildings are to be appraised and the government has the option to purchase them at such valuation. It is not bound by the lease to purchase them. The natural beauty of the park is protected by the following article: "It is expressly understood that nothing contained in the lease shall be construed as to include any geysers or other objects of curiosity or interest in the park, or exclude the public from a free and convenient approach thereto. It is understood that the work of constructing hotels, etc., will be commenced at once."

CHARGES AGAINST ARCHITECT HILL.

Charges of a most serious though mysterious nature have been made against Supervising Architect Hill, and filed with the Secretary of the Treasury. Hill denies all knowledge of the nature of the charges, and is willing to submit his case to the most rigid examination.

NEWS NOTES.

GEORGIA'S GOVERNOR DEAD.

Gov. Stephens of Georgia, died at Atlanta, on Sunday morning, the 4th inst., passing quietly away, exhaustion rather than disease, seemingly causing his death. His death created a profound sensation throughout the entire state, and the loss of this statesman, patriot, and philanthropist, is regarded as a great calamity. Alexander Hamilton Stephens was born at Tallahassee, Georgia, February 11, 1812. He graduated at the university of Georgia in 1832, was admitted to the bar in 1835, and entered political life in 1836 as a member of the state house of representatives. In 1842 he was chosen state senator, and the following year was elected a member of congress, which office he continued to hold for 16 consecutive years, or until 1859, when he voluntarily retired to private life. After the nomination of General Scott for the presidency Mr. Stephens, who had been a prominent whig leader, became a supporter of the democrats. He was placed at the head of the Douglass-Johnson electoral ticket in 1860, and in 1861 was a member of the convention which passed the ordinance of secession. That measure he earnestly opposed by vote and speech, but whilst he advised against the policy of secession for exalting grievances, he maintained the right of a state to peacefully secede for sufficient cause. When a rupture became inevitable, however, he acquiesced in the decision of the convention, and on the formal organization of the Confederate government he was elected vice president. In February, 1865, he was placed at the head of the commission on the part of the confederacy in the famous Hampton Roads conference. At the close of the war he was ar-

rested and confined a prisoner of state in Fort Warren, but was released on his parole in Oct. 1865. In February, 1866, the general assembly elected him to the office of United States senator, but congress ignored the restoration of Georgia to the Union under the proclamation of Andrew Johnson, so Mr. Stephens was not allowed to take his seat. His legal disabilities having been removed, he was elected a member of the 43rd congress and re-elected to the 44th, 45th and 46th. In a speech, Feb. 13, 1878, upon the occasion of the reception by congress of a painting representing the signing of the proclamation of emancipation, he said that in advocating secession in 1861 he never supposed the dissolution would be permanent. He was elected governor of Georgia last fall. A volume of his speeches and letters was issued in 1867, and he has also published "A History of the War between the States" (1868) and "A Constitutional View of the late War between the States" (1869).

A SUNKEN STEAMER.

The steamer Yazoo sunk near Gypsy Point, 23 miles above New Orleans, on the night of Sunday, March 4. The boat was heavily loaded with miscellaneous freight. Seventeen lives are known to have been lost.

A TELEGRAPH SUIT.

The Mutual Union Telegraph Company has begun action in the United States Court against the city of Chicago asking an injunction to restrain its officers from interfering with the company in reconnecting its wires, which were cut by order of the Mayor some days ago.

GEORGIA'S NEW GOVERNOR.

Lieut.-Gov. Boynton was sworn in as Governor of Georgia on Monday, March 5, by Chief Justice Jackson.

THE SAINTS' PROTEST.

The non-polygamous branch of the Mormons—the reorganized church of Jesus Christ of the latter day saints—claiming to have between 20,000 and 30,000 communicants, with their central organization at Lamoni, Iowa, protest against the state department circular to all foreign governments asking that emigration of Mormons to the United States be prevented on the ground that they come to this country to practice a crime against its laws. Their memorial recites that the reorganized church has its missionaries in various parts of Europe, Australia and the Society Islands in the Pacific, and that justice demands that it should be relieved from the odium and shame of classification with a body practicing a crime against the laws of the country in which the great body of its communicants live, and from the disability under which its missionaries labor in spreading their faith.

THEY DON'T LIKE THE CHINAMAN.

About 100 ornamental painters employed in the Pullman Car Works at St. Louis, Mo., struck a few days ago. It appears that a Chinese youth who was brought to this country six years ago by R. M. Johnson, of St. Louis, then Consul to Hankow, was placed in the shop by the superintendent to work, preparatory to a course of study at the School of Mines, to which he will be sent a year hence. This was fully explained to the men, but they objected and quit work. The superintendent of the works says the matter has now become one of principle; that he intends to conduct the business in his own way and he will not yield to the men.

A RECEIVER WANTED.

The Lake Superior and Jackson iron companies of Michigan have made application at Pittsburg, Pa., for the appointment of a receiver to take charge of the mills of Brown, Bonnell & Co., the suspended iron firm of Youngstown, Ohio. The plaintiffs claim that unless a receiver is appointed the property will depreciate in value, the mills stop running and cause great damage to all the creditors.

A DISTINGUISHED GUEST.

Lord Coleridge, lord chief justice of England, has accepted an invitation to visit the United States sometime in the ensuing summer as the guest of the New York state bar association. Lord Coleridge is a grand nephew of the illustrious poet and philosopher, and the son of the late Jno. Taylor Coleridge, recorder of Exeter and a judge of the court of queen's bench. His visit to this country will prove a memorable event in legal circles as he will be able to speak on the common origin of the two countries. This eminent English jurist will be cordially welcomed.

HARD TO FIND.

The republicans of Connecticut are greatly troubled to find anything like a suitable successor to the late Marshall Jewell as the party leader in the state. There seems to be no man who has shown his fitness to fill the situation. Not only was Jewell's acquaintance with the men, and business, and politics of the state complete, but he possessed active working powers and diplomatic executive ability possessed by none that are left.

RESIGNED.

United States Treasurer Gillfillan has tendered his resignation, to take effect April 1, having accepted the position of treasurer and manager of the Mutual trust company of New York.

MOORING MARINERS.

The cold at Bangor, Maine, on the 7th inst. was the most intense known in 20 years. Mariners are completely discouraged, as the bay is frozen solid for the third time this winter, and this is the hardest freeze of all.

DAVID APPRECIATED.

David Davis has been presented by the officers and employees of the U. S. Senate with a silver water pitcher and goblets, to show their regard for him as one of the most considerate men who ever presided over the Senate.

FOR THE BENEFIT OF THE CARELESS READER.

It may be well to remind the hasty reader that some of the recent legislation of congress does not go into effect at once. The change in letter postage will not go into effect until October next, and bank checks must be stamped until July 1. The tax on bank capital and deposits ceased on the third of March, and changes in the taxes on tobacco begin the first day of May.

WITHOUT WARNING.

Jacob Halm, proprietor of the Fountain City brewery at Bryan, Ohio, was recently caught by a revolving shaft in his brewery and swung into eternity without warning.

SUFFOCATED.

A recent fire in New York did \$70,000 damage to the five-story brown stone building No. 48 East 64th street, known as "Cambridge flats." The fourth floor was occupied by Abraham Wakeman, lawyer, who was survivor of that port during President Lincoln's administration, with his wife and daughter, and the two ladies were badly burned and suffocated by smoke in attempting to escape. Mr. Wakeman was absent in Albany, and returned to find his family dead. Mrs. W. was 50 years old and a confirmed invalid carefully watched over by her daughter Rosa.

STILL HOLD OUT.

The strike at the rolling mills in Springfield, Ill., still continues. The President refuses to accede to the demands of the union men, and will forfeit every order taken by the firm rather than do it.

PARDONED.

Gov. Crittenden of Missouri, has pardoned Clarence Hite, a noted member of the James gang, who pleaded guilty of train robbery in February, 1882, and was sentenced to twenty-five years' imprisonment. The pardon was issued on recommendation of the penitentiary physician and board of inspectors. Hite is in the last stages of consumption. Since his incarceration he has been in the hospital two-thirds of the time. He is weak, emaciated and his voice is nearly gone. Accompanied by his brother-in-law he has started for his father's

home in Logan Co., Ky. There is speculation as to the effect of Hite's pardon upon Frank James' prospects. It is believed if he went on the witness stand, and made a deposition, he could send James to the penitentiary.

HE SHOULD BE PARDONED.

The New York Truth of recent date demands that the president shall pardon Sergeant Mason for his shot at Giltspur, saying that every end of justice has been fully served and that there are crimes, growing out of a just resentment or an outbreak of passion at a cowardly act, with which justice deals in a merciful way. "Such was Mason's crime."

MASKED MURDERERS.

Four masked men, heavily armed boarded a mail train bound from Van Buren Ark., to Little Rock, and when the train was 12 miles out the gang ordered the conductor, who was collecting fares, to stop the train. He refused to do so, when his brains were blown out by two revolvers. The gang then began firing indiscriminately, killing the brakeman, named Lester, and severely injuring several passengers.

BACK TO THE WORLD.

A sensation was created in Philadelphia over the announcement of the withdrawal of Sister Lorenzo from the Convent of the Visitation, where she has been a nun for the past 20 years. She renounced her vows and is now reported as living in Reading, Pa., her former home. She has entered society, has fallen heir to \$30,000, and it is thought will marry soon. She is a lady of much personal beauty and intelligence.

A STRANGE MALADY.

A young man in Concord, N. C., is afflicted with an extraordinary malady. An ordinary bathing tub can be filled with cold water and his feet placed in it, and in eight minutes the water will be made so hot that the heat can be felt through the staves of the tub.

DANGEROUS WORK.

The machinery of the Diamond mine collapsed again a few days ago, and it is not probable that any bodies will be reached before the end of another week. Volunteer searchers are scarce, as foul air makes hazardous work of the digging for the dead.

ROBBER ARRESTED.

One of the men who attempted to rob the west bound train on the Little Rock & Fort Smith road has been captured. He had been wounded in the face and arm, and being unable to keep up with his companions, took refuge in a farm house, where he was found by the officers. The wounded robber was locked up. Conductor Cain and brakeman Lester have died of wounds received at the time the train was boarded by the robbers.

TOO MUCH DYNAMITE.

A terrible accident occurred in the quarry of Geo. Fleming, 15 miles from Pittsburg, Pa. A blast was prepared with dynamite, but it was found to be frozen, and a cartridge was placed near the fire to thaw, when it exploded, killing David Heminger and his brother George. A negro laborer, whose name is not known, was fatally hurt, another man, named Noble Gilkey, was badly injured.

RAILROAD ACCIDENT.

A broken axle caused the wreck of an accommodation train near Pleasant Point, on the Cincinnati, Van Wert & Michigan Railroad. Three hundred yards of track were torn up, a coach and baggage car ditched, but no one seriously hurt.

FRAUD SOMEWHERE.

More light weight gold coins have been detected in the New Orleans mint. Col. Snowden, superintendent of the Philadelphia mint, will investigate. The New Orleans assayer and coiner will probably be dismissed.

CRIME.

AN INSANE URCORIDE.

Mr. Williams, a prominent farmer living near Dubuque, Iowa, suddenly went violently insane a short time ago, and beat his wife to a jelly with a club. He was promptly arrested.

HORRIBLE BUTCHERY.

A double murder has just been discovered at Royalston, 14 miles northwest from Indianapolis, Ind. An aged lady, Luenda Forman, and her daughter, a maiden lady, 51 years old, lived together on an eighty acre farm which they owned. The body of the daughter was found in the orchard covered with straw. It had a deep cut on the head, as if inflicted with an ax, and had been dead some days. The body of the mother was found in a pool of blood in the kitchen. She had evidently been cut to death with an ax. No cause for the deed can be thought of but robbery. The women lived alone, but were not known to have much money or valuables.

FOREIGN AFFAIRS.

AFTER THE EVOLUTIONISTS.

There is a society in London, Eng., known as the "Society for the Suppression of Blasphemous Literature," and this body of wise men propose to get up cases against Prof. Huxley and Tyndall, Herbert Spencer, the publishers of John Stuart Mill's works, John Morley and others who, by their writings, have sown wide spread unbelief, and in some cases rank atheism.

FERRY WILL NOT.

In the French Chamber of Deputies on the question of taking into consideration the proposals for a revision of the Constitution, Prime Minister Ferry formally refused to court repute by presenting any such proposals to the Senate. The government, he said, would energetically bring the matter before the Chambers when it believed revision possible. The present moment was inopportune. The people would withdraw their support from the republic if they saw it meant instability and agitation. The question was one for friendly compromise and should not be raised as a means of revenge against the Senate. An attempt might be made before the elections of 1885 to induce the Senate to accept revision.

PROTECTION OF PATENTS.

A movement is on foot in Paris, the principal object of which is to secure to citizens of certain states of Europe the same advantages in regard to patents, trademarks and commercial names that are accorded by other countries to their own subjects. At a conference recently held for that purpose nineteen states were represented, including the United States.

NO TRUTH IN IT.

It has been ascertained that there is no foundation for the statement that Parnell intends to resign his seat in Parliament and proceed to America in the event of his land reform bill being rejected.

LADY DIXIE'S CHARGES.

Lady Florence Dixie says there are £152,000 of the land league fund unaccounted for, and that until Parnell and his followers can give an account for the same they have no right to talk about the suffering in Ireland.

HE RISES TO EXPLAIN.

Carey, the Dublin informer, having testified that one John McCafferty, a Californian, furnished the "Invincibles" money, and taught them how to use the knife in "Californian style," a man named McCafferty writes thus to the Associated Press: "Inasmuch as for many years past I have been actively engaged in mining operations in the Territory of Arizona and elsewhere and am well known on the Pacific slope, throughout the Atlantic states, especially in London in connection with mining operations, I desire simply to inform my friends that I am not the person sought for as 'number one,' said to be implicated in the tragedy enacted in Dublin May 6 last. Since my discharge from imprisonment by the British government in 1871, I have not been connected with any Irish organization or with any movement of

Irish affairs. In fact, I have applied my efforts diligently, and to some extent successfully, in advancing my business interests, and if I take note, shall continue so doing until I have accumulated sufficient to enable a constitution shattered by cruel imprisonment in British dungeons to survive peacefully many bitter disappointments of the past, and any calamity of the present. If such can be necessary I totally deny any threat, act, or participation in the affair referred to as 'Cary,' or any connection therewith."

FOUNDERED AT SEA.

The steamer Navarre, bound from Copenhagen to Leith, foundered during a gale. There were about 31 persons on board, mostly emigrants. Of this number 16 were saved.

PREVENTED.

The socialistic demonstration which was expected to shake France to its foundations, not come off, owing to the vigilance of the lice.

VIRGINIA BONDS.

Twelve thousand pounds have been raised in London, Eng., to defray the cost of repaying the holders of Virginia bonds and vindicating their rights before tribunals in the United States. It is believed the council of foreign bondholders is quite ready to test the consequences of the decision of the Supreme Court at Washington, rendered recently, in regard to Virginia bonds by vigorous action through suits against Virginia. The consequences are ample funds.

MORE EVIDENCE.

Public attention is again fixed on the Phoenix park murders and the trial of the conspirators at Kilmainham jail by a discovery made by the police. Eight dagger knives of the description sworn to by Kavanagh, the informer, have been found in Ringsend canal basin. The knives have been placed in the custody of the police who were in charge of the divers.

FROM LIBERIA.

Letters have been received in Washington announcing the safe arrival of the emigrants from Liberia, who sailed for that country under auspices of the American colonization society. The letter states that the company of emigrants are of the right kind, and that they have gone cheerfully at work to cultivate the lands granted them.

GERMANY'S DEFENDERS.

The magnitude of Germany's military establishment may be inferred from the number of soldiers stationed in the different cities even time of peace. The garrison of Berlin numbers 17,812 men; Metz, 14,411; Strasburg, 8,600; Mayence, 7,712; Cologne, 7,655; Potsdam, 5,900. Seventy other towns have garrisons over 2,000, and there are 266 garrisons of less than 2,000.

HOW WATCHES ARE MADE

In a SOLID GOLD WATCH, aside from the necessary thickness for engraving and polishing, a large proportion of metal is needed only to stiffen and hold the engraved portions in place, and supply strength. The surplus gold is actually needless. In James Doos' Patent Gold Watch Cases this WASTE is saved, and SOLIDITY and STRENGTH increased by a simple process, at one-half the cost. A plate of SOLID GOLD is soldered on each side of a plate of hard nickel composition metal, and the three are then passed between polished steel rollers. From this the cases, backs, centers, bezels, etc., are cut and shaped by dies and formers. The gold is thick enough to admit of all kinds of chasing, engraving and engine turning. These cases have been worn perfectly smooth by use without removing the gold. This is the only case made under this process. Each case is accompanied with a valid guarantee signed by the manufacturers warranting it to wear 20 years. 150,000 of these Cases now carried in the United States and Canada. Largest and Oldest Factory. Established 1854. Ask your Jeweler.

A Familiar Expression.

"I wish I could find something that would cure galls and prevent the hair coming in white," is an expression frequently heard. Cole's Veterinary Carbolic Salve will cure wounds, galls and sores quicker than any other remedy, and will always bring the hair in its original color. W. H. Taylor, Macomb, Ill., says: "I find Cole's Veterinary Carbolic Salve a splendid remedy for collar-boils, sore back, sore necks, cuts and any abrasions of the skin whatever. As a cure for scratches it is unequalled. I keep it in my stables all the while, and could not get along without it." Pound cans, \$1.00; small cans, 50 cents.

Half and Half.

The Democrats of Michigan met in convention in Lansing on the 7th inst., for the purpose of nominating candidates for the offices of judges of the supreme court and regents of the university. The usual convention preliminaries were attended to, after which the nomination of candidates was in order. For judge of the supreme court the names of John W. Champlin of Grand Rapids, Judge Hawes of Kalamazoo, Judge Huntington of Ingham, O'Brien J. Atkinson of St. Clair, Thomas M.

Crocker of Macomb and Alfred L. Millard of Lenawee were presented. The presentation of each name was accompanied with laudatory remarks. However, when the vote was taken the nomination of John W. Champlin of Grand Rapids was declared unanimous.

Nominations for regent followed, the names of A. I. Sawyer, of Monroe, Wm. A. Moore, of Wayne, H. H. Riley, of St. Joseph, and Arthur M. Clark, of Sanilac being presented. There was but one ballot, resulting in the unanimous nomination of Mr. Clark of Sanilac. The remainder of the ticket was provided for by the resolution below, after which the usual thanks were tendered and the convention adjourned. The resolution was as follows: Resolved, That the chairman of the convention, in connection with the state central committee, be authorized to notify the greenback convention of the action taken by this convention, and in case no union be effected they be authorized to fill the ticket in accordance with the call of the committee.

This resolution was presented to the Greenback convention, which was in session at the same time, and accepted, and as their half of the ticket nominated Thos. R. Sherwood of Kalamazoo as candidate for supreme judge for the short term, and C. J. Willets of Gratiot as second regent of the university.

He Would Have Shot Grant.

I met a man the other day called "Soldier Sam," an honest fellow, and one of the true-blue boys of the late war. He had served under Grant, and could tell reminiscences of the great general by the hour. The best of it was that his stories were always authentic. I remember, said he, that while we were down on the Mississippi a big barge loaded with bombs and gunpowder was lying alongside the wharf. Grant had given orders that no one should smoke on board that barge. I suppose the old tub had thousands of dollars' worth of powder under her decks. So the corporal set a guard there, and ordered him to shoot the first man who should cross the plank with a lighted pipe or cigar. Well, when the word got abroad we kept away, for we knew that the order meant business. One day when I was off duty Gen. Grant rode up on his horse. He wore a big blouse and a slouch hat. He had no star, no side-arms. We all knew him without the aid of trinkets. "I told him it was."

He looked at me sharply over a red-hot cigar, and said, "I'll go on board, then."

I knew he'd never take that cigar out of his mouth except to eat or sleep, so I said, "General, if you walk across that plank smoking, the sentry will shoot you."

He saw that I was in earnest, but he said, "Don't you suppose he knows me?"

"Of course he does, General," I replied; "but he's been ordered to shoot the first man caught smoking on that barge, and he'll do it. That's the kind of chap he is."

Grant looked rather amused. I reckon he never intended to go near the barge. He just wheeled his horse and away he went.

That evening I told the sentry all about the talk. The next morning he and the Corporal were ordered up to the General's headquarters. The sentry was a black man, but when he heard that Grant wanted to see him he was rather white. He went up.

"Can you read?" asked Grant.

"No, sah; I nebber had no chance to l'a'n."

"Do you always know me when you see me?"

"Yes, sah."

"Suppose I had gone on board that powder-boat with a lighted cigar, what would you have done?"

"Shot you, sah."

"But I'm your General!" exclaimed Grant.

"Yes, sah, and we jes' obeys yo' orders," said the sentry.

Grant looked the man all over. The corporal was trembling, and the sentry was actually pale, both were as firm as rocks. At last the general relaxed. "Well, sir," he said to the negro, "we'll make you a corporal, and this other man shall be a sergeant. I promote these men!"

"I tell you we didn't forget that," said Soldier Sam.—Chicago Inter-Ocean.

"On the day after my arrival in Victoria," writes a tourist in Spain, "I went to a shoemaker's to get some repairs done to my boots. There was nobody in the shop; the master was on the opposite side of the street smoking his cigarette. His shoulders were covered with a mantle full of holes, and he looked like a beggar—but a Spanish beggar, appearing rather proud than ashamed of his poverty. He came to me, and I explained my business. 'Wait a moment,' said he, and immediately called his wife. 'How much money is there in the purse?' 'Twelve pesetas.' 'Then I shall not work.' 'But, I said, 'twelve pesetas will not last forever.' 'Who has seen to-morrow?' said he, turning his back on me."

A Substitute for Coffee.

About eight years ago the kola nut was introduced into England. It has been analyzed and found to contain more of the active principles of coffee, which is caffeine, than the best coffee, and has also the active principles of cocoa, but not so much fatty matter. If the taste be an agreeable one, here is material for a drink which would combine the qualities of two of our most esteemed household beverages. The kola nut is a product of Africa, and throughout a tropical portion of that continent the nuts are used by the natives to form a refreshing drink, the use of which is said to sustain the strength, diminish excessive appetite, check thirst, and aid digestion. Like the leaf of the cocoa of South America, the kola nut enables those who eat it to perform long journeys without fatigue. The natives prefer their favorite nut to coffee, and when they travel to foreign countries they take the nut with them.

A business man in Joliet lost the combination to his safe, and sent to the manufacturers for experts to drill it open. They worked for three days and gave it up. He then got a couple of professional burglars from the penitentiary, who opened it inside of an hour.

Misses (to new cook). "On Wednesdays and Saturdays I shall go to market with you." New Cook. "Very well, mum; but who's a-goin' to carry the basket, mum?"
