CONDEMNED LAND.

Village Has Settled Differences With Detroit Trust Co.

In Justice Walker's court Wednesday, a jury composed of A. M. Freer, A. E. Winans, Frank Leach, W. R. Reed, Edward Vogel, C. Klein, James Taylor, Conrad Lehman, James Buchanan, H. H. Fenn, Martin Howe and Geo. A. Runciman, listened to the testimony and viewed the property under discussion, and brought in a verdict that it was necessary that the village acquire the property described in the petition which was filed in the cause. The property consists of a parcel of land immediately in the rear of the municipal plant, a rod of the right of way on the south of the plant, also the land in and around the new reservoir.

The proceedings were entirely friendly and mutual between the attorneys for the Detroit Trust Co., and the village. Stipulations have been filed and entered in the cause, that the compensation be awarded and entered at the normal sum of \$1, in consideration of the village council having passed a resolution proposing to close, vacate and abolish that portion of Railroad street lying between Main and East streets occupied by buildings. The Michigan Central has agreed to surrender what rights they might have as abutting land owners.

The Detroit Trust Co. was represented by C. F. Delbridge, of Detroit, and the village by Tura Bull & Witherell.

STOVE WORKS

ORDERED SOLD

JUDGE KINNE SIGNED DECREE
LAST TUESDAY.

MECHANICS' LIENS \$19,004

Claims of \$403,161.36 are Recognized Against the Company—Sale Will Decide the Future Prosperity of Village of Chelsea.

Upon the result of the foreclosure sale of the Glazier Stove Company, for which sale Judge Kinne has signed the decree, depends the future of Chelsea. If the wreck-lands in the hands of the right parties it may mean the making of Chelsea as a progressive village.

There were two decrees granted and though apparently in different cases, yet concerned the one matter, the Glazier Stove Company, which was the defendant in each case.

The first decree granted was in the case of Evans, Almiral & Co. vs. Glazier Stove Company. This established the mechanics' liens on the stove plant, amounting to \$19,004.48. As follows:

Evans, Almiral & Co. \$2,895.61; Geo. Rickman's Sons Co., \$4,061.73; Seth Thomas Clock Co., \$2,419.86; Claire Allen, \$591.20; Jeremiah Mahoney, \$2,247; Frank L. Davidson, \$435.11; Philip Carey Mfg. Co., \$289.50; Charles L. Weil, \$532.15; Mfrs Automatic Sprinkler Co., \$2,932.32; Koch Bros., \$1,575; F. L. Davidson, sub contractor under Koch Bros., \$425.

The second decree granted was in the

MACCABEE PICNIC.

Washtenaw 'Bees At Whitmore Lake Saturday, August 1st.

Ann Arbor News: All of the Tents and Hives of Washtenaw county are expected to participate in the Maccabee picnic, which will be held at Whitmore Lake, on Saturday of next week, August 1st. Whitmore Lake Tent made the initial move and the members of the tent are urging all of the other organizations to send large delegations. It is to be a basket picnic, each one looking out for his own lunch. There will be music by a band and several speeches, by Mrs. Frances E. Burns of St. Louis, great commander of the Lady Maccabees Great Commander Lovelace of the sir knights, Frank E. Jones, commander of Arbor tent, District Deputy John Young and others. Two ball games will be played, the participants not yet having been chosen. A program of sports will include several races. It is expected that the ladies from Ann Arbor and Brighton will put on drills. Besides the Tents and Hives of the county, Hamburg, Howell and New Hudson have been invited.

Paid Up the Costs.

Ann Arbor News: George Beeman, a prosperous Lyndon farmer, was arrested this week on complaint of his neighbor, Thos. Fleming, who has not spoken to him for years, and who charged him with the larceny of a quantity of wood. Mr. Beeman came before Justice Gibson this morning and explained the affair. He said that he had sent his hired man around the place to take off the bare limbs of the trees and pile them in piles about the woods. One of these trees was near the line and Mr. Beeman supposed it to be upon his side and when he himself went to gather up the poles he took this pile lying under this particular tree. The first thing he knew Fleming had him arrested. As it would be very difficult for Mr. Beeman to prove just where the line between the two farms is without a survey, as someone sometime ago removed the big stone which marked it, he pleaded guilty and settled the costs, \$8.75.

Farmers Wanted.

Wanted—3,000 practical farmers who would like to own homes of their own. The Government has nearly 200,000 acres of land lying under the various irrigation projects throughout the west for which water will be available next season. The farm unit on these projects varies in most cases from 40 to 80 acres of irrigable land, depending upon location. In many sections a tract of grazing land has been included in the farm unit wherever practicable, bringing the total up to 160 acres.

The only charge for these farms, besides the regular land office fee for filing, is the actual cost of getting water to them, and payment may be made in ten annual instalments, without interest.

The irrigation projects are scattered over the entire arid region, from Canada to the Mexican line. In consequence, every variety of crop grown in the temperate zone can be raised under them. If you would like a fruit or dairy farm, a garden or market truck, a tract for diversified farming, hogs or poultry raising, just write to the Stationer of the U. S. Reclamation Service, Washington, D. C., for particulars.

West Side Wins Game.

The ball game between the east and west sides of Main street Monday afternoon, resulted in an overwhelming victory for the side of the setting sun. The score was a regular Bryan 1896 platform one, 16 to 1. The battery for the west side was Holmes and Harris, and that of the east side Barbour and Dillon, the famous "barber" battery, although on this occasion the "close shaver" was on the other side. The east side were extremely grateful to Dr. Gulde for bringing in the score in the last innings, which saved them from the ignominy of a shutout.

Compensation for Artists.

A correspondent writes to the London Times to suggest that the compensation of artists should be increased. He says that the Royal Academy, but not being through lack of funds, might have their names placed on the backs of the catalogue as a slight indication of their hard work.

The Coding Moth.

About one-fifth of the first laying of eggs by the coding moth is on the first of the leaves and the rest on the second. The young larvae that hatch from the egg is able to feed on the leaves to some extent and may come to maturity without entering the pupa, although it rarely does so. About 50 per cent of the first brood finds its way into the pupa of the caterpillar, while the rest of the caterpillars, principally in the pupa. Only about 28 per cent of the second brood enters at the caterpillar, the others eating in where the caterpillar touch each other, or a leaf at the stem end. The average life of the adult insect or moth is about four days.

Stamp Language.

"I wouldn't do that if I were you," suggested the former soldier, as he caught his pretty niece carelessly at a stamp, upside down on a letter he was about to post.

"Why not?" she asked, as she hastily inverted it to its correct position.

"When I was young that was accepted as a sign," he meant. "You need not reply to this letter." During the war many a friendship was terminated by that silent message. When the time came that everybody had to take a final stand on one side or the other in the great contest and the families were divided in the stamp, the turning of a stamp up or down on a letter often saved words and long explanations which perhaps aching hearts felt hardly prepared to give.

"I doubt if many people now know I ever had such a meaning, but I never have been able to overcome my unconscious when I see anybody do it."

The sleeping in-the-open cure for nervousness and insomnia is becoming more popular in England, the London Daily Mail reports. A medical correspondent from the south coast writes to the Mail: "For that form of insomnia which takes the shape of nervous twitches and restlessness immediately on going to bed I have found sleeping outdoors works marvels. With several of my consumptive patients I found that, besides improving the lung condition, sleeping in the open air did away with the restlessness and constant waking which so often makes the consumptive's night a torment. Two precautions, however, must be taken. The bed or couch should be on a compact wooden flooring, and it is best to spread a large rubber sheet on this. A shed with a good roof and three sides open is best, as the bed when placed against the one wall is sufficiently protected from drafts. The other precaution necessary is to have plenty of woollen coverings over the body, so that only the head is exposed to the variations in temperature."

SYNOPSIS

CHAPTER XV.—Continued

"Ah well! Come, Sally, it's bedtime."
"Yes."

"Shut your eyes!"
The light of the fire flooded her face now and made it too wonderful to close his eyes upon.
"Sally—for the Lord's sake—"
pleaded the old man.

"Seffy," asked his father, while his arm went about his shoulders with the unconsciousness of what seemed yesterday, "how did you ever get president of that sing?—what is it?"

"I fought for it, pappy."

"You? Gosh-a-mighty!"

They both laughed happily.

"Yes—you and Sally were right—"

"Not a bit—you ain't changed!" repeated the father, as if saying it must make it so.

"Yes, I am," laughed Sefy.

"You ain't!" said his father.

"To-morrow, Sefy," said his father briskly, "you better let Sally marry you. Remember she bought you."

He gave Sally time to blush, and Sefy time to find both her hands and her lips, and then he finished:

"And make it early—mebby the first thing in the morning. In the afternoon will take down the fence. All these

BREVITIES

Nearly 100 of Ann Arbor's resi-
dents are touring Europe.

The 28th Michigan infantry will
hold its annual reunion at Man-
chester in September.

Albert Chamberlain of Jackson
and James M. Hutchinson of Lan-
sing have started to walk from Jack-
son to the Yellowstone National
park and the Indian reservations of
North Dakota.

Brooklyn business men are dis-
cussing a grand picnic, by which
they propose to shut up shop for a
day and with families and friends
hike themselves to some nearby lake
for a good time.—Brooklyn Expo-
nent.

Don't hitch your horse to an iron
trolley post. One tied to a post in
front of Hahn's restaurant Wednes-
day placed his feet in a mill of water
in the gutter and received an electric
shock which sent him sprawling
over the sidewalk.—Jackson Star.

State Game Warden Pierce has
been advised that fish in many lakes
and streams of the state are dying,
those in Lake Michigan being affect-
ed. G. C. Lydell, of the fish hatch-
ery at Grand Rapids, is of opinion
that the fish are suffering from lack
of food as no other cause can be
found. Warden Pierce says that he
recently found large numbers of
small perch along the shores of Lake
Michigan.

U. of M. students each year read
4,000 dime novels of the blood-and-
thunder-wildwest kind. An Ann
Arbor dealer in magazines confesses
that he orders yearly over 3,500 of
these books. These 3,500 volumes
are about equally divided among
eleven publications, Dick Carter,
Wide Awake, Pluck and Luck,
Diamond Dick, Brave and Bold,
Buffalo Bill, Boys of '76, Tip Top,
Work and Win, Wild West and
Secret Service. A strange point is
that the greatest number is drawn
out at examination time, probably
for relief from "boreing."

William H. Deubel, who died sud-
denly from a stroke of paralysis
while on a business trip to Saginaw
last week was a widely known Ypsi-
lanti capitalist and mill owner. He
was born in Plymouth in 1846. His
father owned several flour mills and
the son followed him in business.
With his brother, James, he oper-
ated mills in Scio, Norvell and Belle-
ville as well as the Huron and Ypsi-
lanti mills in Ypsilanti. He had
large interests in Detroit and Clare
county and was a director of the
Ypsilanti Savings bank. He was
also a former alderman. A widow,
two sons and two daughters survive
him.

Charles Crittendon, 63 years old,
a farmer living four miles west of
Milan, was struck by a Wabash pas-
senger train running between Mont-
pelier and Detroit, about 8:30 o'clock
Saturday night, and instantly killed.
The body was not found till 10
o'clock Sunday morning. Crittendon
had been in town all day Saturday,
and was returning to his home,
walking along the railroad tracks.
When about a mile west of here the
train bore down on him and tossed
him into the ditch. The train crew
knew they had struck someone and
made a search along the tracks, but
in the darkness the body was not
found. Sunday morning section
hands found the corpse, horribly
mangled, lying in the ditch. Crit-
tendon was a prosperous farmer.

The Fosket Bros., former pro-
prietors of the Rubert House are set-
ting up their steam dredge on the
Cedar, at David Smith's saw mill in
Marion, and will extend the Cedar
Lake drain to the Big Cedar south
of Fowlerville. The distance yet to
be dredged is about eight miles.
Livingston county has had a mania
along this line and have redeemed
many acres of valuable lands by this
method, but in exchange there has
been many dry wells in consequence
and it is claimed that the under-
ground currents have settled or in
other words gone dry to the depth of
twenty-five feet below their former
level. What the final result will be
of the enormous drainage of our

Wm. A. Boland of Grass Lake,
the well known electric railroad
financier, was in the city yesterday
on his way to his offices in New
York city. He is now engaged in

terprise.—Ann Arbor News.

Russian thistles, a worse pest than
the Canadian thistle, are reported to
be very numerous south of the city,
along the line of the Cincinnati
Northern railroad. Frank Crocker

which he pulled up have roots two
feet long. The seed is believed to
have been imported from Russia in
grain used for seed.—Jackson

Thomas Atkins, an insurance
agent, died of lockjaw at Ann Arbor
in the Homeopathic hospital. While
returning on a bicycle July 4, from a
cherry gathering expedition he fell
from the wheel and tore his
thumb. His wife was away and he
cannet the cherries. He casually
mentioned his symptoms to Dr.
Copeland, who was treating his eyes,
and was sent at once to the hospital
with a well developed case of lock-
jaw. Mr. Atkins was 42 years old,
and leaves a widow and two children.

At a conference between the Jack-

State Labor Commissioner Malcolm
J. McLeod, Tuesday, it was de-
cided to open a free employment
agency in Jackson, under the act of
the legislature making an appropri-
ation for similar agencies in Detroit,
Grand Rapids, Kalamazoo and Sagin-
aw. Mr. McLeod has ascertained
that the appropriation was sufficient
for the maintenance of a fifth agency
and, after consultation with Gov.
Warner, decided to establish it in
Jackson. The agency will be open-
ed by August 1.

Nearly 1,000 Pianos at a Bargain.

Lyon & Healy, of Chicago, known
everywhere as the world's largest music
house, have just done a remarkable
thing. They have bought for cash the
entire stocks of three large Chicago
piano houses, i. e., The Thompson Music
Co., the Healy Music Co., and the big
F. G. Thearle Piano Co. In these stocks
are fine new pianos of the highest
quality, including such well and favor-
ably known pianos as the Henry P. Miller,
Hardman, Ivers & Pond, Smith & Nixon,
etc. Lyon & Healy secured all these
pianos on such extraordinary terms that
they are able to turn around and offer
them to the public at 20 to 40 per cent
discount. So here is a chance to get a
much better piano for any sum you have
in mind than you could ordinarily obtain.
Write today for the list of pianos in
this great triple piano sale, which is an
event entirely unprecedented in the
history of piano-selling. Address Lyon
& Healy, 77 Adams street, Chicago.

35,000 CHILDREN.

Children's Day at the Michigan State
Fair.

It is estimated that at least 35,000
children will avail themselves of the
invitation of the Michigan State Fair
to be their guests Friday, Sept. 4th.
This day has been set aside as Chil-
dren's Day, and every child in Michi-
gan under the age of twelve years who
comes to the gate that day will be
admitted free, no ticket being required.
Most of the schools open the following
Tuesday, and this will be the last gala
day for the young people before they
settle down to hard school work.

A program, prepared expressly for
the little folks, will be announced
later which provides for one contin-
uous round of pleasure from morning
until night. The little folks are not
interested in horse racing, so there
will be no racing on that day, and in
order that they will be home in the
evening, there will be no fireworks
display that night, but there will be
enough going on to make it a happy,
busy day for the children. Jack Dal-
las, the most daring airship navigator
in the country, will make two flights
in his big airship, sailing about the
grounds, high in the air, though al-
ways within view.

This is the first time since the loca-
tion of the state fair in Detroit that
children have been admitted free, and
no doubt it will be one of the liveliest,
merriest days of the big fair, because
they will be on pleasure bent, and
there will be something doing every
minute.

IMPLEMENT DEPARTMENT LOOKS

V. V. Green, superintendent of the
implement and machinery department
of the Michigan State Fair, reports
that space which has been assigned to
his department is well taken, and
present indications are that every foot
of available space will be gone be-
fore the fair opens. The 1907 machin-
ery exhibit was very large, in fact it
was supposed to be as extensive as
could ever be made; but this year it is
very apparent that the number of ex-
hibits will be greatly increased, and
there are a number of new things
never before shown which will be seen
at the coming fair. There is no de-
partment of the state fair that is of
such educational interest to the farm-
er as the machinery department. Su-
perintendent Green, who is secretary
and treasurer of the Union Transfer
and Storage company of Detroit, is
thoroughly versed in the handling of
all kinds of machinery, having spent
the greater portion of his life at that
business, and it may be depended
upon that he will maintain the highest
possible standard in his department,
which will be appreciated by the
farmers of the state.

GREAT CHANGE IN FOUR YEARS.

Four years have brought about great
changes in the state fair grounds at
Detroit. Where this beautiful white
city now stands was only a barren
space of farm lands. The great trans-
formation scene has certainly been
wonderful. To all appearances one
would think the great improvements
had been going on for years. The
grounds are covered with large and
commodious buildings, which have
been built with permanency in view.
The grounds have been graded, walks
and roads built, and shrubbery, which
was planted four years ago, has since
done much toward beautifying the
grounds, making them a credit to the
state. The work of making improve-
ments still progresses, a large num-
ber of men being employed at this
time and will be until the opening of
the great show, that the grounds may
be in the holiday attire.

The grounds lie just west of the De-
troit, Grand Haven & Milwaukee
road and the Pontiac and Flint Inter-
urban railway and attract great atten-
tion from the thousands of passengers
who pass the grounds daily, and who
can form only a favorable opinion of
this great enterprise which is doing so
much along educational lines for the
people of Michigan.

\$5,000 WORTH OF CEMENT WALKS.

The Michigan State Fair association
is building \$5,000 worth of cement
walks, leading from the entrance near
Woodward avenue to the grand stand,
and also about the grounds. These
walks are broad and will accommo-
date many people. In case of damp
weather they will be a great con-
venience for the visitors who travel
from one part of the grounds to an-
other.

MAKING A WHITE CITY.

The state fair buildings are under-
going a great transformation scene this
year. All the buildings are receiving
a coat of white paint, which adds very
materially to their attractiveness. To
cover these buildings with paint re-
quires a large force of men and many
barrels of paint. While the work was
commenced early in the season, it
will not be completed before Sept. 1st.

STATE FAIR VISITORS.

Those who contemplate attending
the state fair from out in the state
will be interested in knowing that
they can check their wraps, umbre-
llas, lunches, packages, etc., just in-
side the gate of the main entrance.
This year this will be in direct con-
trol of the state fair, and every pat-
ron may depend upon fair treatment.
Packages will be absolutely safe and
carefully handled.

Ample provisions have been made
for the accommodation of thousands
of visitors who will visit the fair from
Sept. 3rd to 11th. All hotels and board-
ing houses are preparing to take in
extra people.

the office of Sheriff on the Republican
ticket this fall. Subject to the Repub-
lican primaries September 1st and asks

ing up an appetite.

CRYING FOR HELP.

Lots of it in Chelsea But Daily Grow-
ing Less.

The kidneys cry for help.
Not an organ in the whole body so
delicately constructed.
Not one so important to health.
The kidneys are the filters of the
blood.
When they fail the blood becomes
fool and poisonous.
There can be no health where there is
poisoned blood.
Backache is one of the first indications
of kidney trouble.
It is the kidney's cry for help. Heed
it.

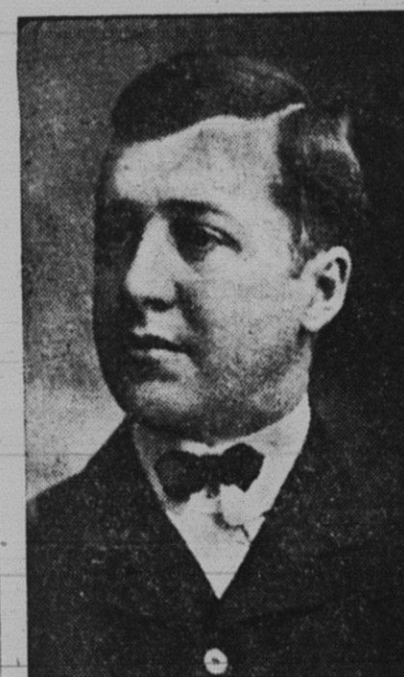

Doan's Kidney Pills are what is want-
ed.

Are just what overworked kidneys
need.
They strengthen and invigorate the
kidneys; help them to do their work;
never fail to cure any case of kidney dis-
ease.

Mrs. Chas. Klager, 408 Hill St., Ann
Arbor, Mich., says: "About eight years
ago I was a victim of kidney trouble the
result of no doubt, of heavy lifting. The
pains in my back were so severe at
times that I could hardly get about and
though I doctored with several physi-
cians, none of them seemed to help me
in the least. When I first arose in the
morning, I would often be seized with
dizzy spells and a general languid feel-
ing. Seeing Doan's Kidney Pills ad-
vertised, I decided to try them and pro-
ceeded to buy a box. They brought me promp-
tly relief and I continued taking them until
cured. I will always speak a good word
for them."
