The Secret of Success In Home Pickling

Fruit and vegetables contain a large proportion of water. To preserve them requires a Vinegar of sufficient strength to neutralize the water and prevent decay. It is advisable to buy the best Vinegar you can for Pickling or Preservin. If an inferior Vinegar fails to keep the fruit or vegetables, you lose not only its cost but their value and your labor. We have the best Vinegar we can buy, which is absolutely pure, a healthful white Vinegar, which we recommend for pickling purposes. It has ample strength and a fine delicate flavor and aroma, which it imparts to fruits and vegetables preserved in it. It is also desirable for table use. Also Berdan's Pure Spices of all kinds in air tight packrges with full

MANCHESTER-Rev. C. A. Wilkie of Howell, former pastor of the Evangelical church of this village, was married Wednesday, August 24,

donia township, Calhoun county, Rev. Koehler of this village officiating. DEXTER-Miss Nellie Keal, daughter of Mrs. Jennie Keal, one of the most popular young ladies of Dexter, was quietly married to George Francisco, the Dexter Savings bank

cashier, Thursday evening, August 25, at the Baptist parsonage in De. troit, by Rev. Herman Burns. JACKSON-Charles Roberts, a car inspector for the Michigan Central, was struck by a switch engine near the Michigan Central freight house about 9 o'clock Friday night, and, after being carried about fifty feet,

the city hospital. JACKSON-The census department announced the population of Jackson county and of the state of Michigan Saturday. The county has a population of 53,426. The census of 1900 gave Jackson county a population of 48,222. As the percent of increase of Jackson city in the past ten years was nearly 25 per cent, Jackson city has

grown faster than the state. JACKSON-Suit has been begun in circuit court by Barney Thomas to recover \$15,000 from the Jackson Drop Forge Company for alleged damages. Nearly two years ago he fell from a ladder while at work for the company and so injured himself that he says disabled himself permanently, and he claims the company's negligence was responsible for

the accident.-Evening Star. MH AN-Edward C. Dennis, who was arrested here July 10 for desertgeneral courtmartial at the navy yard, Norfolk, Va., on July 28. He was convicted of desertion and sentenced to confinement for one year, with corresponding loss of pay, then less 2 and 1 per cent...... \$ 136 03 to be dishonorably discharged from Beardslee Chandelier Mfg. Co. the naval service. The department approved the sentence on August 2, and designated the naval prison at Portsmouth, N. H., as the place of confinement.-Leader.

GRASS LAKE-Clarence Lockwood who lives four miles southwest of Grass Lake, not long ago lost three cows, three hogs and a horse from the bites of a mad dog, and now another valuable cow has just died from the same cause. In handling the latter, which manifested an unusual degree of violence, the rope by which the animal was held occasioned an abraision of the skin of one of Mr. Lockwood's hands. As infection was feared, he has gone to Ann Arbor to take Pasteur treatment.

JACKSON-William K. Sagendorph a member of the Jackson county bar. was on Saturday afternoon suspended from the practice of law for six months by Judge North of Calhoun county. Sagendorph was charged with changing the date on a legal notice and making and swearing to a false affidavit. He was suspended following a recommendation made by Attorneys Thomas A. Wilson and John E. Shekell, a committee appointed by Judge James A. Parkinson to investigate the charges of professional misconduct. The committee recommend-

ed that he be disbarred or suspended. GRASS LAKE-Burglars got in Detroit 85c their work here last Thursday night, and the stores of the Foster-Babcock Company and E. J. Foster, hardware. were entered. Ten or twelve suits of lothes were taken and \$60 in money from the clothing store, but the only things missing from the hardware store is a couple of razors. The thieves had gobbled a revolver out of the show case, loaded it with cartridges, but went away and left it there. Entrance to both stores was made by way of cellar windows, and when once in the basement, stairways and unlocked doors admitted them to

where the goods were stored. ANN ARBOR-William Scheve, 23. caused excitement around the Scheve nome Sunday when he took a notion to end his life. Scheve was asked by sister to get a pail of water and refused to do so. This caused a row, Their father intervened, and then Scheve tried to shoot himself with a shotgun, but the weapon was wrested from him. He then attempted to eat iome paris green, but was unable properly to masticate the powder; he compromised by mixing it with water and drank a good-sized dose. Neighsors, who heard him groaning, called a physician. An antidote was administered, and he was later removed to University hospital, where, it is said, he will probably recover.

Council Proceedings. [OFFICIAL.]

TERRIFYING EXPERIENCE.

Ship Rolls Over on Capt. Sorcho and He Burrows His Way Through the Mud.

The most terrifying experience that ever befell Captain Louis Sorcho, the deep sea diver who will appear on the Midway at the coming Michigan state fair, happened while he was working on the wreck of a large pas-

senger steamer off Barnegat, N. J. He was searching for the bodies of the passengers and while in the cabin of the steamer, the vessel rolled over, making him a prisoner. Luckily his air hose was not broken or checked and while he was unable to answer the signals of his tenders on the surface, the latter continued to send him appoint a special meeting of the com- the life-giving air through the hose. For nearly two hours he was busily engaged in burrowing his way out in the council rooms, on Monday even- through the mud in which the vessel ing, August 29, 1910, at the hour of lay.

His life lines and air hose were hopelessly entangled in the wreckage so he saved himself by cutting them free, casting off his weighted belt and shoes. The air inside his armor State of Michigan, County of Wash- brought him to the top with a rush, and there he was fished out by his men more dead than alive

It is in telling about and describing village, being duly sworn, deposes and such experiences and then showing says, that on the 29th day of August, how they happen under water that 1910, before the hour of 10 o'clock a. Captain Sorcho has achieved his repum., of said day he served a true copy tation as an entertainer shown his none. Everywhere he has shown his of the attached appointment of a spec- diving act it has made a great hit ial meeting of the council of said and the state fair management convillage, upon all the persons therein siders itself fortunate in the extreme named, by delivering personally a true in being able to present Sorcho to Michigan people. BIG INTEREST IN HORSE SHOW.

Nightly Display of Equine Performers at State Fair Will Be Sensational.

Perhaps no other single feature of 16 21 the many good things being arranged 7 62 for at the Michigan State Fair, which takes place in Detroit, Sept. 19-24th, has attracted so much interest as the nightly horse show, in the big show ring in front of the grand stand. Interest in horses in Michigan, and

Detroit especially, has not wanted in the past few years, and W. C. Mor-69 75 gan, superintendent of the horse 9 62 show, has met with flattering success in interesting the big stables in Michigan, Illinois, Ohio and Kentucky in

this nightly feature. The best the breeders have produced will be shown in a large num-1 00 ber of classes, while celebrated men and women drivers and riders will 2 50 also appear to show their favorites. Moved by Hummel, seconded by All manner of horses will be included Dancer, that the bills be allowed as the gaited saddlers, high-stepping read and orders drawn on the treasurer harness horses, roadsters, the business horses, the high school horsesall will be given their chance to please and the many special ribbons and prizes will be fought for in a spirited manner.

Those who follow the breeding game as applied to horses will be pleased at the class of stables rep-The undersigned will sell the fol- resented in the entries thus far, and owing goods at public auction on the the nightly horse show will in itself premises, Railroad street, on Septem- draw thousands to the grand stands

> IMPORTED GYMNASTS IN DARING STUNTS

> "Flying Banvards" Will Please Many During State Fair Week.

Many teams of acrobats appearing before the public claim to have "been caught while very young and trained for years under expert European The public can rarely ever, if at all, tell if this is so, but when the thousands of State Fair Let wonderful Washwax do your "Flying Banvards," one of the free saves the clothes; makes them clean, the State Fair, they will recognize sweet and snowy white. Washwax is unusual skill and considerable merit

and thrilling form of entertainment for State Fair visitors. The "Flying Banvards," since coming over from England years ago, have returned on several occasions to their own country to meet with unstinted applause Your village taxes for 1910 are now and great success. They have apdue, and can be paid at my office in peared on all the big circuits in the John Farrell & Co.'s store. United States and are known in the amusement world as the best aerial

THE ETERNAL **FEMININE**

Suddenly the front screen door pened with a crash and shut with bang. Above these sounds rose a bel-

low like that of a wounded bull. "Mother, mother, mother!" The bellow resolved itself into words as the bellower stumbled up the stairs, tumbling down at every other step and had to pick himself up again before he could proceed.

Mrs. Burton rushed from her room and halw-way down the stairs. There she sat upon a step and pulled Jimmy into her lap, anxiously examining the round face and feeling the soft fat body for possible broken bones. "Oh, my darling!" she cried. "Tell

mother what's the matter, my precious. Did you fall? Where are you hurt?" Renewed bellows threatened to raise the roof. "I'm not hurt-anywhere—outside. It's—it's my feelings!" The last words were nearly lost in a yell, which tapered down eventually into a mournful sniffle. "She said-she said-"

"What did she say, dear?" urger Mrs. Burton. "And who said it?" "She said—she said—it was Helen's "She said—she said—it was Helen' mother. She said-oh mother-she said she didn't-she didn't love me any more."

Mrs. Burton buried her head on her son's heaving shoulder and shook with suppressed laughter. Then she rose to her feet and took his hot, damp little hand in hers and led him up to her own room, where she sat down in the big rocker and cuddled him in her lap, rocking back and forth and patting the forlorn, crumpled little back. Presently the little boy sat up on her knees and she wiped the tears from the red cheeks.

"She didn't mean it, precious," she said, trying to console him. "Oh, yes, mother, she did," he in-

sisted choking with another sob. "She -said it and I know she meant it." "Did she say why she didn't love you? Maybe you did something to hurt her feelings."

A little gulp followed quickly on the heels of a small, pathetic snort. "No, mother, I didn't, not a thing. I was just as nice to her as I could be. We were playing house and we had just had supper. Helen's mother gave her have half of one of my cookies. and, it was lovely, and then right in the middle she jumped up and said she wouldn't play, and when I asoked her why she said she didn't love me any more. Oh, mother, mother, you don't

know how it hurt my feelings!" "Perhaps Helen was tired, Jimmy, dear," suggested his mother. "After lunch you can go and ask her to come over here and play and-"

"Oh, no, no!" wailed the tearful voice. "She said she didn't want me ever to come again. She said she was sick and tired of me. She said she didn't ever want to see me again. Oh. mother, how could she say that, when I love her so? Why, all summer I've gone into the deepest grass every day where the snakes are, to get flowers for her. I've done everything to make her love me and she always told me she did, and now she says she doesn't

love me." "Poor little man!" said his mother. "You have yet to learn that the abject lover is never the most successful one. But I don't think she really meant it."

"Well, then, I wish-I wish she had not said it," Jimmy quavered, "because I love her and I want her to love

Directly after luncheon the doorbell rang. When Mrs. Burton opened the door she found a crisp little damsel with a huge hair bow, an extremely clean, fluffy white dress, and a general atmosphere of sanctimoniousness enveloping her. "Is Jimmy at home?" she inquired

politely. "I wanted to ask him if he didn't want to come over to my house and play. I guess he didn't have a very nice time this morning. He came home right in the middle of the tea party we were having." Helen sat down primly upon the

front steps and waited while Jimmy underwent the inevitable scrubbing process. When he was thoroughly polished and ready to start, he threw his arms around his mother's neck "I guess Helen does love me after all, mother, or she wouldn't want me

and whispered: to come and play with her, but aren't girls funny?"

"Yes, ma'am," said the seedy wanderer, "I used to be an actor." "And you had to give it up?" "I did. I wasn't what you would

PRESERVING OF MANUSCRIPTS

Eilk of Extreme Thinness and Transparency Settles Question of Life of Old Documents.

The original manuscripts of old books and old records are exceeding ly valuable and are preserved with great care, for if destroyed of course they cannot be replaced. They can be guarded from fire and from overmuch handling, and now an additional safeguard has been found in Japanese

Its use has removed a fear existing in the minds of librarians that there was no way out of it, and that the rare and return to their original elements. Happily the use of a silk of extreme the question of the life of these manuscripts for the next two or three hundred years at least. By that time | Theodore Roosevelt. some other method may be discovered. This silk is thinner than the thinnest tissue paper, the threads being finer than spider webs. It is pasted over the manuscript so firmly that it keeps off all dust and air, and yet is so transparent that it does not interfere any more with the appearance of the manuscript than would any ordinary plate of glass. It strengthens the manuscript so that the danger of handling is reduced to a minimum.

The Library of Congress is now engaged in examining and protecting all of its old manuscripts with this it will probably be completed before long. This silk is by no means costly, and unless a person is somewhat expert in the matter of old manuscripts he would be unable to recognize the fact that silk had been used.

Black Death Centuries Ago.

In what spirit did the superstitious people of the Middle Dark Ages meet the Great Plague when it came like a black thunder cloud over Europe? Many, many committed suicide in the first frenzies of fear. Merchants and the rich, seeking to divert the wrath of heaven, carried their treasures to the churches and the monasteries, where often the monks, fearing to receive the infection with them, shut their gates against any such offering. Then it was in mad desperation heaved over the walls and forced on the monks: thus the panic-stricken hoped to have monks save life and soul. Even sound, well men, consumed and corroded by fear and anxiety, wan-Houses were shunned and molded and tumbled, for the plague lasted for years. Many villages and towns were actually deserts of houses. empty, silent as woods and fields, or "antres vast!" This is speaking of the Black Death that began in England in 1348.

A Mystery.

Asked what sight represented to his mind the extreme of desolation, the man who was a renting agent said:

"An unfinished card game with the cards lying just where the players left them. This morning I came across an interrupted game of hearts in a furnished flat that was vacated suddenly. The tenants simply packed their clothes and moved out without a word of explanation to anybody, and as they didn't owe me a cent it wasn't my place to run them down. In fact, I wouldn't have thought much about their sudden departure if I hadn't seen those cards. They had been playing on a dining room table and the game was about half finished. Four hands of the cards thrown down when the game was anybody's that knew how to turn a trick works on the imagination. Why did they stop playing in such a hurry? Why didn't they stay to finish the game, or if they couldn't do that, why didn't they scrape the cards together and take them along? Interesting questions those, and I'd like to have them answered."

Shepherd Dog a Hero.

There was a fire in an Allegheny stable the other day. A shepherd dog and her five pupples were in a vacant stall, and a half-dozen small boys were strying to look through a knot-hole at The interesting family. To get a bet ter view they held lighted matches the knot gote, and one of the matches fell through and fired the straw. The boys then ran away and the engines came. When the fire broke out, the mother of the puppies seized one of them in her mouth, leaped over a high barrier to get out of the stall and carried the little fellow to a place of safety. This action she repeated until all were saved but one, which was burned. Her grief at not being able to rescue the last was eviident, and she had to be chained to mames for it.

That's Different.

Redd-Thought you told me that was a ten-horse power machine of wours.

Greene So it is. "Well, I noticed it took only one horse to pull it home!"

Willing to Prove.

The Chelsea Standard JOHN BROWN PARK **GIVEN TO KANSAS**

Address by Theodore Roosevelt Closes the Ceremonies.

GREAT DAY FOR OSAWATOMIE

Standing Where Battle of Osawatomie Was Fought, Ex-President Gives His Ideas of Freedom and Good Government.

Osawatomie, Kan., Aug. 31.—This was Osawatomie's great day, for which the citizens have been preparold manuscripts would simply have ing for months-the closing day of the to have their day, and then dry up dedication ceremonies at John Brown park. Today the park of 22 acres, on the site of the battle of Osawatothinness and transparency has settled mie, fought on Aug. 30, 1856, was formally presented to the state, and the dedicatory oration was delivered by

Preliminary exercises were held yesterday, and the program was resumed at 10:30 this morning with a concert by the Thirteenth Regiment band followed by a drill by troops of the Kansas National guard and the regular army. Meanwhile Col. Roosevelt's train had arrived and all the thousands of people assembled here went to the station to greet him.

After dinner all gathered in the new park, where there was a parade by the soldiery, the Grand Army Woman's Relief corps and civic societies and another band concert. silk, and while it is an immense task Then, after a vocal solo by Miss Elizabeth Uhls and an invocation, the president of the board of trustees, Cora M. Deputy, formally presented the park to the state on behalf of the Woman's Relief corps of Kansas. which bought the ground. Governor Stubbs responded gracefully for the state, and then the chairman, J. B. Remington, introduced the distinguished orator of the day, former President Roosevelt.

Oration by Colonel Roosevelt.

There have been two great crises in

our country's history: first when it was

formed, and then again when it was per-

petuated. The formative period included

not merely the Revolutionary war, but

Col. Roosevelt stood silent and smiling until the storm of applause had died down, and then spoke as follows:

the creation and adoption of the Constiunder it. Then came sixty years during which we spread across the continentyears of vital growth, but of growth without rather than growth within. Then came the time of stress and strain which culminated in the Civil war, the period of terrible struggle upon the issue of hich depended the justification of all had done earlier, and which marked the second great period of growth and development within. The name of John Brown will be forever associated with this second period of the Nation's history; and Kansas was the theater upon which the first act of the second of our great National life dramas was played. It was the result of the struggle in Kansas which determined that our country should be in deed as as well as in name devoted to both union and freedom, that the great experiment of democratic government on a National scale should succeed and not fail. It was a heroic struggle; and, as is inevitable with all such struggles, it had also a dark and terrible side. Very much was done of good, and much also of evil: and, as was inevitable in such a period of revolution. often the same man did both good and evil. For our great good fortune as Nation, we, the people of the United States as a whole, can now afford to forget the evil, or at least to remember it without bitterness, and to fix our eyes with pride on the good that was accomplished. Even in ordinary times there are very few of us who do not see the problems of life as through a glass, darkly; and when the glass is clouded by the murk of furious popular passion, the vision of the best and the bravest is dimmed. Looking back, we are all of usnow able to do fustice to the valor and the disinterestedness and the love of the right as to each it was given to see the right, shown both by the men of the north and the men of the south in that contest which was finally declared by the attitude of the west. We can admire the heroic valor, the sincerity, the self-devotion shown alike by the men who wore the blue and the men who wore the gray; and our sadness that such men should have had to fight one another is tempered by the glad knowledge that ever hereafter their descendants shall be found fighting side by side, struggling in peace as well as in war for the uplift of their common country, all alike resolute to raise to the highest pitch of honor and usefulness the Nation to which they all belong. As for the veterans of the Grand Army of the Republic, they deserve honor and recognition such as is paid to no other citizens of the Republic; for to them the Republic owes its all, for to iem it owes its very existence,

Application of the Lesson.

I do not speak of this struggle of the past merely from the historic standpoint. Our interest is primarily in the application today of the lessons taught by the contest of half a century ago. It is of little use for us to pay lip loyalty to the mighty men of the past unless we sincerely endeavor to apply to the problems of the present precisely the qualities which in other crises enabled the men of that day to meet those crises. It is half melancholy and half amusing to see the way in which well-meaning people gather to do honor to the men who, in company with John Brown, and under the lead of Abraham Lincoln, faced and solved the great problems of the nineteenth century, while at the same time these same keep her from rushing back into the good people nervously shrink from or frantically denounce those who are trying to meet the problems of the twentieth in the spirit which was accountable for the successful solution of the problems of Lincoln's time.

Of that generation of men, to whom we owe so much, the man to whom we owe the most is, of course, Lincoln. Part of our debt to him is because he forecast our present struggle and saw the way out.

"I hold that while man exists it is his duty to improve not only his own condition but to assist in ameliorating mankind." And again, "Labor is prior o and independent of capital; capital is only the fruit of labor, and could never have existed but for labor. Labor is the superior of capital and deserves much the higher consideration. Capital has its rights which are as worthy of protection of why other rights. . . Nor should this

lead to a war upon the owners of property. Property is the fruit of labor; property is desirable; is a positive good in the world. Let not him who is houseless crty is desirable; is a positive good in the world. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example showing that his own shall be safe from violence when It seems to me that in these words Lincoln took substantially the atti-tude that we ought to take; he showed the proper sense of proportion in his relative estimates of capital and labor, of human rights and property rights. Above all, in this speech, as in many others, he taught a lesson in wise kindliness and charity; an indispensable lesson to us of today. But this wise kindliness and charity never weakened his arm or numbed his heart. We cannot afford weakly to blind ourselves to the actual conflict which faces us today. The issue is joined, and we must fight or fail.

Equality of Opportunity. In every wise struggle for human betterment one of the main objects, and often the only object, has been to achieve in larger measure equality of opportunity. In the struggle for this great end, na tions rise from barbarism to civilization and through it peoples press forward from one stage of enlightenment to the next One of the chief factors in progress in the destruction of special privilege. The essence of any struggle for healthy lib erty has always been and must always to take from some one man or class of men the right to enjoy power, or wealth, or position, or immunity, which

has not been earned by service to his or their fellows. At many stages in the advance of hu manity this conflict between the men who possess more than they have earned and the men who have earned more than they possess is the central condition of progress. In our day it appears as the struggle of free men to gain and hold the right of self-government as against the special interests, who twist the methods of free government into machinery for defeating the popular will. At every stage and under all circumstances the essence of the struggle is to equalize opportunity, destroy privilege, and give to the life and citizenship of every individual the highest possible value both to himself and to the commonwealth.

Practical equality of opportunity for all citizens, when we achieve it, will have two great results. First, every man will have a fair chance to make of himself all that in him lies, to reach the highest point to which his capacities, unassisted by special privilege of his own and unhampered by the special privileges of others. can carry him, and to get for himself and his family substantially what he has earned Second, equality of opportunity means that the commonwealth will get from every citizen the highest service of which he is capable. No man who carries the burden of the special privileges of another can give to the commonwealth that service to which it is fairly en--titled.

I stand for the square deal. But when say that I am for the square deal I mean not merely that I stand for fair play under the present rules of the game, but that I stand for having those rules changed so as to work for a more substantial equality of opportunity, and of reward for equally good service.

This means that our governments, National and State, must be freed from the sinister influence or control of special interests. Exactly as the special interests of cetton and slavery threatened our political integrity before the Civil war, so now the great special business interests too often control and corrupt the men and methods of government for their own profit. We must drive the special interests out of politics. That is one of our tasks today. Every special interest is entitled to justice-full, fair, and comone is entitled to a vote in congress, a voice on the bench, or to representation in any public office. The Constitution guarantees protection to property, and we must make that promise good But it does not give the right of suffrage

Property Should Re the Servant

The true friend of property, the true conservative, is he who insists that property shall be the servant and not the master of the commonwealth; who insists that the creature of man's making shall be the servant and not the master of the man who made it. The citizen of the United States must effectively control the mighty commercial forces which they have themselves called into being. There can be no effective control of corporations while their political activity remains. To put an end to it will be

We must have complete and effective publicity of corporate affairs, so that the people may know beyond peradventure whether the corporations obey the law and whether their management entitles them to the confidence of the public. It is necessary that laws should be passed · prohibit the use of corporate funds directly or indirectly for political purposes; it is still more necessary that such laws should be thoroughly enforced. Corporate expenditures for political purposes, and especially such expenditures by public service corporations, have supplied one of the principal sources of cor-

can be done.

ruption in our political affairs. It has become entirely clear that we must have government supervision of the capitalization not only of public service corporations, including particularly rail-ways, but of all corporations doing an Inter-state business. I do not wish to see the Nation forced into ownership of the railways if it can possibly be avoided. and the only alternative is thoroughgoing and effective regulation, which shall be based on a full knowledge of all the facts, including a physical valuation of the property. This physical valuation is not needed, or at least is very rarely needed, for fixing rates; but it is needed as the basis of honest capitalization.

We have scome is iecognize that franchises should hever be granted except for a limited time, and never without -proper provision for compensation to the It is my personal belief that the same kind and degree of control and supervision which should be exercised over public service corporations should be extended also to combinations which control necessaries of life, such as meat, oil, and coal, or which deal in them on an important scale.

I believe that the officers, and especially the directors, of corporations,

should be held personally responsible when any corporation breaks the law. Dealing With Combinations. Combinations in industry are the result of an imperative economic law which cannot be repealed by political legislation. The effort at prohibiting all combination has substantially falled. The way out lies not in attempting to prevent such combinations, but in completely controlling them in the interest of the public welfare. For that purpose the Federal Bu-reau of Corporations is an agency of the first importance. Its power and there-fore its efficiency, as well as that of the Inter-State Commerce Commission, should be largely increased. We have a right to expect from the Bureau of Corporations and from the Inter-State Comme mission a very high grade of public service. We should be as sure of the proper conduct of inter-state railways and the proper management of inter-state business as we are now sure of the conduct and management of the National banks, and we should have as effective supervision in one case as in the other. Hepburn act, and the amendment to that congress at the last session, represent a long step in advance and we must go yet further. act in the shape in which it finally passed

There is a widespread belief among tical training for daily life and work. We

our people that, under the methods of making tariffs which have hitherto obtained, the special interests are too influential. Probably, this is true of both the big interests and the little interests.

These methods have put a premium on selfishness, and naturally the selfish big interests have gotten more than the selfish small interests. The duty of congress is to provide a method by which the interest of the whole people shall be all that receives consideration. To this end there must be an expert tariff commis-sion, wholly removed from the possibility of political pressure or of improper business influence. Such a commission can find out the real difference between cost of production, which is mainly the difference of labor cost here and abroad. As fast as its recommendations are made, I believe in revising one schedule at a time. A general revision of the tariff almost inevitably leads to log-rolling, and the subordination of the general public interest to local and special interests. The absence of effective state, and

especially National, restraint upon unfair money-getting has tended to create a small class of enormously wealthy and economically powerful men, whose chief object is to hold and increase their power. The prime need is to change the conditions which enable these men to accumulate power which it is not for the general welfare that they should hold or exercise. We grudge no man a fortune which represents his own power and sagacity, when exercised with entire regard to the wel-fare of his fellows. But the fortune must be honorably obtained and well used. It is not even enough that it should have been gained without doing damage to the community. We should permit it to be gained only so long as the gaining represents benefit to the community. know, implies a policy of a far more active governmental interference with social and economic conditions in this country than we have yet had, but I think we have got to face the fact that such an increase in governmental control is now necessary:

Income and Inheritance Taxes.

No man should receive a dollar unless that dollar has been fairly earned. Every dollar received should represent a dollar's worth of service rendered. The really big fortune, the swollen fortune, by the mere fact of its size, acquires qualities which differentiate it in kind as well as in degree from what is possessed by men of relatively small means. Therefore I believe in a graduated income tax on big fortunes, and in another tax which is far more easily collected and far more effective-a graduated inheritance tax on big fortunes, properly safeguarded against evasion, and increasing rapidly amount with the size of the estate.

The people of the United States suffer from periodical financial panies to a degree substantially unknown among the other nations which approach us in financial strength. There is no reason we should suffer what they escape. It is of profound importance that our financial system should be promptly investigated, and so thoroughly and effectively revised as to make it certain that hereafter our currency will no longer fail at critical times to meet our needs.

It is hardly necessary for me to repeat that I believe in an efficient army and navy large enough to secure for us abroad that respect which is the surest guarantee of peace. Justice and fair dealng among nations rest on principles identical with those which control justice and fair dealing among the individuals of which nations are composed; with the vital exception that each nation must do ts own partire international police work. National friendships, like those between men, must be founded on respect as well as on liking, on forbearance as well as upon trust. In all this it is peculiarly the duty of the United States to set a good example

Of conservation I shall speak more at ength elsewhere. Conservation means development as much as it does protection. I recognize the right and the duty of this generation to develop and use the natural resources of our land, but I do not recognize the right to waste them, or to rob, by wasteful use, the generations that come after us. The natural resources must be used for the benefit of all our people and not monopolized for the beneit of the few. That is one of the fundamental reasons why the special interests must be driven out of politics. Of all the mestions which can come before this Nation, short of the actual preservation of its existence in a great war, there is none which compares in importance with the great central task of leaving this land even a better land for our descenneither a short nor an easy task, but it dants than it is for us, and training them nto a better race to inhabit the land and pass it on. Conservation is a great moral issue, for it involves the patriotic duty of insuring the safety and continuance of the Nation. Let me add that the health and vitality of our people are at east as well worth conserving as their forests, waters, lands, and minerals, and that in this great work the National government must bear a most important

I have spoken elsewhere also of the great task which lies before the farmers of the country to get for themselves and for their wives and children not only the benefits of better farming, but also those of better business methods and better conditions of life on the farm. The burden of this great task will fall, as it should, mainly upon the great organiza-tions of the farmers themselves. I am glad it will, for I believe the are well able to handle it. In particular, there are strong reasons why the departments of agriculture of the various states, the United States department of agricultura and the agricultural colleges and experiment stations should extend the work to cover all phases of life or the farm. instead of limiting laceselves, as they have far too often umited themselves in the past, solely to the question of the production of crops.

Human Welfare Comes First. Nothing is more true than that excess of every kind is followed by reaction: a fact which should be pondered by reformer and reactionary alike. We are face to face with new conceptions of the relations of property to human welfare, chiefly because certain advocates of the rights of property as against the rights of men have been pushing their claims too far. The man who wrongly holds that every human right is secondary to his profit must now give way to the advocate of human welfare, who rightly maintains that every man holds his property subject to the general right of the community to regulate its use to whatever degree the public welfare may require it. Bu I think we may go still further. The right to regulate the use of wealth in the public interest is universally admitted. Let us admit also the right to regulate the terms and conditions of labor, which is the chief element of wealth, directly in the interest of the common good. The fundamental thing to do for every man is to give him the chance to reach a place in which he will make the greatest possible contribution to the public welfare. No man can be a good citizen unless he has a wage more than sufficient to cover the bare cost of living, and hours of labor short enough so that after his day's work is done he will have time and energy to bear his share in the management of the community, to help in carrying the general load. We keep countless men from being good citizens by the conditions of life with which we surround hem: We need comprehensive workmen's compensation acts, both state and National laws to regulate child labor and the work of women, and especially we need in our common schools not merely education in book-learning but also prac-

need to enforce better sanitary cor for our workers, and to extend the use of safety appliances in industry and com-merce both within and between the states. Also, friends, in the interest of the workingmen himself we need to set our faces like flint against mob violence just as against corporate greed; against violence and injustice and lawlessness by wage-workers just as much as against lawless cunning and greed and selfish ar-rogance of employers.

National efficiency has many factors It is a necessary result of the principle of conservation widely applied. In the end A will determine our failure or success as a Nation. National efficiency has to do not only with natural respurces and with men. It is equally concerned with institutions. The state must be made efficient for the work which concerns only the people of the state; and the Nation for that which concerns all the people There must remain no neutral ground to serve as a refuge for lawbreakers, and especially for lawbreakers of great wealth, who can hire the culpine legal cunning which will teach them how to avoid both jurisdictions. It is a misfortune when the National legislature fails to do its duty in providing a National remedy, so that the only National activity is the purely negative activity of the judiciary in forbidding the state to exercise power in the promises.

Calls for Boad Nationalism.

I do not ask for over-centralization, but I do ask that we work in a spirit of broad and far-reaching Nationalism when we work for what concerns our people as a whole. We are all Americans. Our common interests are as broad as the continent. I speak to you here in Kansas exactly as I would speak in New York or Georgia, for the most vital problems are those which affect us all alike. The National government belongs to the whole American people, and where tho whole American people are interested, that interest can be guarded effectively only by the National government. The betterment which we seek must be act omplished, I believe, mainly through the National government.

The American people are right in demanding that new Nationalism without which we cannot hope to deal with new problems. The new Nationalism puts the National need before sectional or personal advantage. It is impatient of the utter confusion that results from local legislatures attempting to treat National issues as local issues. It is still more impatient of the impotence which springs from the over-division of government powers, the impotence which makes it possible for local selfishness or for legal cunning, hired by wealthy special interests, to bring National activities to a deadlock. This new Nationalism regards the executive power as the steward of the public welfare. It demands of the judiciary that it shall be interested primarily in human welfare rather than in property, just as it demands that the representative body shall represent all the people rather than any one class or section of the people.

I believe in shaping the ends of government to protect property as well as human welfare. Normally, and in the long run, the ends are the same, but whenever the alternative must be faced I am for men and not for property. I am far from underestimating the impor tance of dividends, but I rank dividends below human character. I know well that the reformers must not bring upon the people economic ruin, or the reforms themselves will go down in the ruin. But we must be ready to face temporary disaster, whether or not brought on by those who will war against us to the knife. Those who oppose all reform will do well to remember that ruin in its worst form is inevitable if our National life brings us nothing better than swollen fortunes for the few and the trium in both politics and business of a sordid and selfish materialism.

Honesty in Public Servants.

If our political institutions were perfect, they would absolutely prevent the political domination of money in any part of our affairs. We need to make our political representatives more quickly and sensitively responsive to the people whose servants they are. More direct action by the people in their own affairs under proper safeguards is vitally necessary. The direct primary is a step in this direction if it is associated with a corrupt practises act effective to prevent the advantage of the man willing recklessly and unscrupulously to spend money over his more honest competitor. It is particularly important that all moneys received or expended for campaign purposes should be publicly accounted for not only after election but before election as well. Political action must be made simpler, easier, and freer from confusion for every citizen. I believe that the prompt removal of unfaithful or incompetent public servants should be made easy and sure in whatever way experience shall show to be most expedient in any given class of cases.

One of the fundam ntal necessities in a representative government such as ours is to make certain that the men to whom the people delegate their power shall serve the people by whom they are elected, and not the special interests. I be-lieve that every National officer, elected once more at Deepwells spent the or appointed, should be forbidden to perform any service or receive any compensation directly or indirectly from iner-state corporations; and a similar procould not fail to be useful within

The object of government is the welfare of the people. The material progress and prosperity of a nation are desirable chiefly so far as they lead to the moral and material welfare of all good citizens. Just in proportion as the average man and woman are honest, capable of sound judgment and high ideals, active in pubic affairs-but first of all sound in their nome life, and the father and mother of healthy children-just so far and no farther we may count our civilization a sucess. We must have-I believe we have already-a genuine and permanent moral awakening, without which no wisdom of egislation or administration really means anything; and, on the other hand, we must try to secure the social and economic legislation without which any improvement due to purely moral agitation is necessarily evanescent. is good citizens. Good citizenship means progress; and therefore all good citizens should stand for progress, and must be progressive.

Gave Them Due Notice.

While a trial was in progress before Justice John J. Brady in his branch of the New York Supreme court the other day he astonished the lawyers and court attendants by reaching under the voluminous folds of his black gown and drawing forth a big red apple from one pocket and a knife from the other. As the lawyers went. on with their arguments he leisurely pared the apple and ate it.

The incident struck the reporters covering the trial as unusual, so they before the commission conducting wrote something about it, which appeared in the newspapers the next by direction of Gov. Hughes day. When the same trial was in progress the following day Justice Brady interrupted the proceedings and said, with a twinkle in his eye:

"If any of the gentlemen of the press desire to retire, they may do so. I am about to eat another apple."

TROOPS PURSUE COLUMBUS MOB MEMBERS INTO HOUSES AND FELL TWENTY.

NO MERCY WAS SHOWN THOSE WITHIN REACH OF THE OFFICERS' CLUBS.

No Cases Were Serious Injuries Sustained, Although the Soldiers Fired a Number of Shots.

Rioting broke out anew in Columbus, O., in the street car strike and police, soldiers and deputy sheriffs arrested 39 persons, Following an unsuccessful attempt to dynamite an east side car, a large crowd gathered, extending for several squares. They were stoning all passing cars when the police and a detachment of soldiers reached the scene.

The soldiers, with riot clubs, in a number of cases struck down men in the streets and they also entered houses in which refuge has been taken. No mercy was shown those within reach of their clubs. It is believed that 20 persons were struck by the clubs

A police chauffeur was hit by a brick thrown from the sidewalk. In no cases, so far as the police learned, were serious injuries sustained, although the soldiers fired a number of shots. This is the first time that the militia has used firearms. A deputy sheriff was mistaken for a loiterer and clubbed over the head

Among those arrested were several members of the Pennsylvania railroad car crews who, officials of the road say, were simply passing through the troubled district, going to their work when arrested. New crews for these trains had to be secured.

President Mahon and Chairman Pratt of the carmen's international union, are in for a conference with state labor leaders. The union officials say a resolution will be adopted asking Gov. Harmon to call upon the company in a formal public statement to arbitrate the strike differences.

Leprosy Cure Is Near. Experiments being made on Molokai, the leper island, are likely to lead to the discovery of a serum which will cure the malady.

Three surgeons of the United States public health and marine hospital service, after months of unremitting toil, have grown lepra bacilli in pure culture outside the human ody and in tiny glass tubes in the laboratory the loathsome germs are now growing in their third genera-

This achievement of the scientists at the government's leprosy investigation station is the first step in the production of a vaccine or a serum for the cure or prevention of leprosy. Dr. Donald H. Currie, director of the station; Dr. Walter R. Brinkerhoff and Dr. H. T. Hollmann are the men who have grown the cultures.

Mayor Gaynor Is Out Again. Mayor Gaynor was taken from St. Mary's hospital, in Hoboken, shortly after breakfast Sunday morning, to Deepwells, his country home in St. James, L. I., and spent a great deal of the afternoon sitting on the piazza of his home, receiving neighbors and fondling his favorite dogs.

The mayor's insistent plea to be allowed to walk unaided resulted in three distressing incidents.

Once he sank to his knees as he tried to enter an automobile, and in ascending the steps of his home, he fell on all fours from over-exertion. Despite his weakness, however, he maintained his cheerful mood, and afternoon reclining on a chair on the veranda.

The mayor left the hospital at 9:30 clock Sunday morning. He had been there since Tuesday, August 9, the day he was shot by James J. Gallagher, a discharged city employe, on the deck of the steamship Kaiser Wilhelm der Grosse, Drawn up in the court yard of the hospital to give him a final salute were 50 orphan children, cared for by the institution. Mayor Gaynor insisted on stopping to speak to each one, and several he patted on the head.

Joseph E Smith, president of the Mormon church, was a returning traveler on the steamer Vaderland, from Antwerp and Dover. President Smith went abroad early in July for rest and recreation.

Three thousand delegates from Ruthenian churches in western Canada met in convention at Winnipeg and decided to petition the Eucharistic congress to be held in Montreal soon, for married priests.

A clean towel and, wash rag for each patron, the elimination of the sponge, dread carrier of loathsome germs, and the enactment of laws to bring about these reforms are among the demands made at the gathering of the National League of Barbers, which opened a three days' convention at Pttsburg, Pa.

Timothy L. Woodruff, chairman of the Republican state committee, will have an opportunity to testify concerning Adirondack land purchases an investigation into forestry affairs

A new steamship service between San Francisco and New York via Panama will be inaugurated Oct. 1. competing with the Pacific Mail company, according to an announcement at San Francisco. On that date the Bates & Chesebrough company plans o dispatch its first boat from this

od Record Made by Women Through the activity of women is the anti-tuberculosis campaign, santoris and hospitals for the treatment of tuberculosis have been erected; traveling libraries have been circu lated, posters, circulars and other kinds of literature have been distrib. uted to the number of millions of pieces, thousands of lectures have been given, large sums of money have been secured, hundreds of needy cases, have been helped; tuberculosis work has been started in many com ties where no movement had existed and millions of women have learned the dangers and methods of prevention of tuberculosis. The work of the women extends from the drawing room of the rich to the homes of the poor, and embraces all classes, including the factory girl and millionaire. During the coming year a special campaign of lectures to women will be carried on in all parts of the United States.

OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness andotherannovin symptoms, and

and strength. I never forget totell my friends what Lydia E. Pinkham's regetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. Chas. Barclay, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other med. icine we know of has such a record of cures of female ills as has Lydia E.

For more than 80 years it has been curing female complaints such as inflammation, ulceration, local weak-nesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclaysays, it is "worth mountains of gold" to suffering women.

Hurry Ends in Indigestion

Use your teeth on your food or your stomach will suffer. Quick lunches, hurried eating, bolting food, are sure to end, sooner or later, in some form of indigestion, more or less. troublesome.

Beecham's

quickly relieve the distress caused by hurried eating. They act directly on the stomach nerves and actually help the food to digest and assimilate. They are particularly good for nervous dyspepsia, bloating, hiccoughs, bitter taste in the mouth, and flatulence. With reasonable care in eating, Beecham's Pills will soon

"To my surprise I did not miss cofwhen I began to drink Postum. Coffee had been steadily and sure killing me and I didn't fully realize hat was doing it until I quit and inged to Postum."

CON'S ATISM CURE Of TYTEXICO OF TYTEXICO

T IS indeed fitting that under the able administration of that Grand Old Man of Mexico, Gen. Porfirio Diaz, Mexico should celebrate her centennial of independence and her early struggles for freedom and liberty. He, whose forceful military policy, whose familiarity with the pulse of his people, and whose consummate statesmanship have given his country a sound government and placed her on a financial and commercial footing with the old world, will preside as chief executive over the commemoration of the man and events which made it possible

for Mexico to reach the present high state of civilization which she enjoys. As the human sacrifices of the Aztec king, Montezuma, gave way to the bloodless offerings on the altar of the Fair God who foretold the coming of the Spanish conquerors, so the spirit of independence finally subdued the successors of Cortez and his hardy band.

The law which excluded Spaniards born in Mexico from equal rights with those who were immigrants and the consequent repugnance and jealousy which arose between the two parties, together with the alienation of the clergy and the removal of their influence in the enforcement of government decrees, which necessitated the use of more forcible measures, the granting of commercial monopolies, and the severity exercised in dealing with cases of treason, all worked to the establishment of a feeling of discontent and the growth of revolutionary sentiments. But it was left to

one of the clergy, a priest of the city of Dolores, Father Miguel Hidalgo, to give these sentiments outward expression and to raise the flag of rebellion against the mother country. Father Hidalgo was the second son of Christobal Hidalgo y Costilla and Ana Maria de Gallaga, and was born on the Hacienda Corralejo in the state of Guanajuato on the eighth of May, 1753. His early years were spent on the farm of which his father was the manager. As he grew older he pursued his studies of philosophy and theology at the College of San Nicolas, and about 1778

he came to Mexico City to receive the sacred orders and the degree of bachelor of theology. He served as pastor of various parishes, and on the death of an older brother was transferred to the City of Dolores, where he worked for the enlightenment of his people in the arts and sciences and the encouragement of agricultural and industrial pursuits. He first introduced in that district the culti amulberry trees for the breeding of the silkworm. -He, moreover, established a crockery factory and a brickyard and constructed a tannery and other commercial institutions. All this, together with his generosity, made him much beloved by his parishioners and especially the Indians, whose language he was familiar with. Being fond of music he taught them to play and formed an orchestra

greater civilization and progress of his country. In 1809 there was formed in Valladolid a conspiracy which had for its object the assembling in Mexico City of a congress to govern New Spain in the name of Fernando VII., in the event that the mother country should fall to the arms of the French, which without serious intention might probably lead to the independence of the country. The uprising was planned to take place on December 21, but being discovered, all the conspirators were imprisoned. However, there being but little evidence against them, they were soon given their liberty.

among them, giving all his energy to the

The conspiracy being suppressed in Valladolid, sprang up in Queretaro with renewed strength. Here it received protection from the corregidor, or mayor, of that city, who furnished many recruits, pending the time when secret action would be no longer necessary. At this time Hidalgo became enlisted in the cause of the conspiracy; but it is not known by what motives he was influenced. He had had numerous discussions with his friend, Ignacio Allende, regarding independence, but with no more serious object on his part than pure argument and without thought of taking any active part in the movement. Allende, however, was quick to interest himself in the cause, although warned by Hidalgo that the originators of such enterprises seldom enjoyed the fruits of them. But in the month of September, 1810, Hidalgo received a letter from Allende at Queretaro : king him to come to that city on a matter of much importance. He went, but was little impressed by the people he met, as they were without resources and of small importance, and he returned to his home somewhat disgusted with his visit, However, another letter from Allende pictured the state of affairs in such encouraging words that he decided to give his time and energy to the cause. He had made in the town 25 lances and placed himself in communication with the drum major and two sergeants of the battalion of Guanajuato in order that they might secure some troop for the revolution. His efforts, considering the short time which he had, were most successful; but, unfortunately, the conspiracy reached the ears of the authorities and many were imprisoned. Hidalgo sent immediately for Allende, who arrived in Dolores on the night of September 14, and the whole of the next day was spent in conferences without any decision being reached as to the best course to pursue.

Meanwhile Joseft Ortiz, the wife of the corregiror of Queretaro, being an ardent believer in the revolutionary movement, sent a messenger to the town of San Miguel el Grande, so that Allende should be informed of the news. Not finding Allende, who had been summoned by Hidalgo, the message was delivered to another conspirator by the name of Aldama, who left immediately for Dolores, arriving there at two o'clock in the morning of the sixteenth. He found everybody asleep in the house of the -

CATHEDRAL OF THE CITY OF MEXICO priest, but awaking Allende, both sought the room of Hidalgo, who immediately arose and exclaimed: "Gentlemen, we are lost; there is now no other recourse but to attack the Spaniards." To which Aldama replied: "Sir, what are you going to do? For the love of God, what is to be done?" After this several hours were spent in vain discussion. Hidalgo now showed his greatness. He did not think of flight, although on account of his sacred profession he could easily have found safety. But he preferred to fight for his principles and his convictions. Knowing full well that his companions were in prison and the thread of the revolution had been snapped, without troops, without arms, he preferred to face almost certain death, remembering his warning to Allende, that seldom the originators of such undertakings enjoyed the fruits of their efforts. Hidalgo then, with his brother, Allende,

Aldama and eleven other men left his house fully armed and proceeded to the jail, and, threatening the mayor with his pistol, demanded the release of his fellow-conspirators. His demands having been compiled with, he now had 80 men, whom he armed with the swords of the soldiers of the regiment of the queen, which were delivered to Sergeant Martinez.

It was Sunday and earlier than the usual hour for mass. Hidalgo, however, summoned the people of the town and the farmers from the surrounding country, from whom he secured by his eloquent words about 300 followers. A march was made to Rincon, which was taken without resistance, and many Spaniards were made prisoners. Then proceeding to San Miguel el Grande, he surprised the garrison and obtained arms and money. Meanwhile his march through the villages had augmented his ranks with people of all classes, principally Indians with machetes. He had found at one place an image of the Virgin of Guadalupe, which was attached to a lance and borne aloft as the future banner of the revolution, while the battle cry became "Long live the Virgin of Guadalupe and death to the Spaniards!" And yearly General Diaz gives. this "grito" at eleven o'clock on the night of September 15, as he stands with his venerable head bared and rings the great bell of the National palace, to the enthusiastic applause of his people gathered in dense throngs in the public square, or zocalo.

On September 21 the insurgents marched through Chamacuero and entered Celaya, sacking the houses of the Spaniards and securing such money and arms as they could lay their hands on. Here Hidalgo was proclaimed general by a congress of the people, and Allende was placed second in command.

Hidalgo then set out for Guanajuato with about 50,000 men, and when he reached the city he found that the Spaniards had taken refuge in a large and strong building which had been used as a granary. Here the royalists had brought the government treasury and their private wealth, fortifying themselves as best they could. After a bloody conflict the place was finally stormed and taken and most

struction of property was general. Although Hidalgo issued an edict and attached grave penalties for the offenders, he was powerless to prevent the excesses committed by the undisciplined masses. After order had been finally restored Hidalgo turned his attention to the manufacture of cannon for his troops and the minting of the silver bars, from the many mines in that vicinity, which had been captured in the city.

Meanwhile the government prepared to combat the revolution and through the medium of the church sought to gain control over the minds of the lower classes, an edict of excommunication being issued by the the bishop of Michoacan against Hidalgo, Allende and Aldama. To counteract the effect of this on the minds of the people, Hidalgo published an answer, declaring his firm adherence to the doctrines of the Catholic faith and calling upon all to resist their oppressors.

On the eighth of October Hidalgo commenced his march to Valladolid, intending at first to attack Queretaro. Hearing of his coming, the authorities of Valladolid deserted the city and the army of insurgents was received by the citizens with great ovation.

On October 19 Hidalgo marched toward Mexico City and was met at Las Cruces by the royalist forces under command of Lieutenant Coloned Trujillo, who was surrounded by the insurgents and forced to cut his way through the enemy's rear and retreat to Mexico City. The battle cost Hidalgo about 2,000 in killed and wounded, and instead of advancing on the city he determined to retreat, being influenced in his decision by the news that General Calleja had left San Luis Potosi with reinforcements. The retreating insurgents and Calleja's forces met at Aculco; the former, however, with but little fighting, continued their retreat, leaving in the field their baggage and artillery. Hidalgo, with reduced forces, retired to Valladolid; while Allende posted himself at Guanajuato and was attacked and badly defeated by Calleja, with great loss in killed and wounded.

Hidalgo, meanwhile, repaired to Guadalajara with his reorganized army and was received with great pomp by the people of the city. Here he organized a form of government with Ignacio Lopez Rayon as secretary-general. In January, 1811, Hidalgo moved from Guadalajara with the largest army that was ever under his command, meeting the much smaller force of the enemy under Calleja at the bridge of Calderon, about 35 miles from the city. The defeat of the royalists was

turned into victory by a series of misfortunes,

which, by the explosion of their ammunition

ARE YOUR KIDNEYS WELLT.

The kidney secretions tell if disease is lurking in the system. Too frequent or scanty urination, discolored urine, lack of control at night indicate that

the kidneys are disordered. Doan's Kidney Pills cure sick kidneys.

8. E. Vaughan, 601 E. South St., Iola, Kan., says: "Diabetes had set in and I expected to live but a short time. Kidney secretions were milky white and back pains were terrible. I was

so dizzy my wife had to lead me. After trying everything else, I began with Doan's Kidney Pills and was soon helped. Continued use cured me." Remember the name—Doan's.

"Did he tell you it was a young chicken?" queried her husband. "No." replied Mrs. Newed. "But I'm sure he must have extracted its teeth before offering it for sale."

How Lightning Splits Trees. Lightning makes trees explode, like overcharged boilers. The flame of the Allende being shot as a traitor on May 26, 1811, and Hidalgo on July lightning does not burn them up, nor 31. And thus perished a noble does the electric flash split them like an ax. The bolt flows through into all the damp interstices of the trunk and into the hollows under its bark. All To celebrate these stirring the moisture at once is turned into steam, which by its immediate exploinstead of erecting temporary exsion rips open the tree. For centuries this simple theory puzzled scientists. but they have got in right at last. nent improvements throughout the

> It takes a strong-minded spinster to believe that the reason men don't propose to her is that she never gives them a chance.

Some men are self-made and some others are wife-made.

There Are Reasons

Why so many people have ready-at-hand a package of

Post **Toasties**

The DISTINCTIVE FLAVOUR delights the palate.

The quick, easy serving right from the package requiring only the addition of cream or good milk is an important consideration when breakfast must be ready "on time."

The sweet, crisp food is universally liked by children, and is a great help to Mothers who must give to the youngsters something wholesome that they relish:

The economical feature appeals to everyone particularly those who wish to keep living expenses within a limit.

Post Toasties are especially pleasing served with fresh sliced peaches.

IT'S WEDEMEYER'S TURN.

IT is now about five months since W. W. Wedemeyer announced his candidacy for congress upon the with drawal of Hon. Charles E. Townsend from the congressional race and his entry into the senatorial race. In these intervening months Mr. Wedemeyer has conducted a clean, active canvass, and in all human probability he will be nominated. He has made the fight as a loyal republican, in full sympathy with the great progressive movements in his party, championed by Theodore Roosevelt, and being enacted into law, also, under the ad ministration of President Taft.

"It's Washtenaw's turn; it's Wede meyer's turn," has been the slogan of the campaign, the sentiment coming spontaneously from the republicans of every county in the district. Not only does this slogan express the truth; but it is also true that Washtenaw's candidate is the right type of man for congressman, as we have repeatedly pointed out.

William W. Wedemeyer is a splen did representative of the newer spirit in American politics, call it the progressive spirit, Roosevelt, or whatever you will. When he entered political life, fresh from University walls, it was to champion the cause of reform in the matter of railroad taxation and along other lines. His record since, has always been consistently in accord with the great progressive movements both in state and nation.

Mr. Wedemeyer's life and acts; his own struggles and experiences; his closeness to the hearts and lives of the everyday man-all these things give the best and safest assurance that when nominated and elected to congress, William W. Wedemeyer will stand for the great progressive movements and will be found fighting always for the best interests of the great masses of our people.-Ann Arbor Times-News.

WOMEN'S DEBT TO ANCESTORS

Tragic Figures Were the Militant Members of the Sex in the '40's and '50's.

It was this attitude of the mass of of women, unsympathetic and ofter contemptuous as it was, toward the early agitators for woman's rights that made the position of the militant woman hardest in the '40's and '50's RENTS, REAL ESTATE, FOUND She was then, and always has been a tragic figure, this woman in front of the woman's movement—driven by a great unrest, sacrificing old ideals to attain new, losing herself in a frantic and frequently blind struggle, often putting back her cause by the sad illustration she was of the price that must be paid to attain a result. It was, and is, common to speak slight

ingly of her, but it is uncomprehend-

Certainly no woman who to-day takes it as a matter of course that she should study what she chooses, go and come as she will, support herself unquestioned by trade, profession or art, work in public or private, handle her own property, share her band, receive a respectful attention on platform or before legislature, lively freely in the world, should think Monday and Tuesday with her cousin with anything but reverence of these splendid early disturbers of convention and peace, for they were an essential element in the achievement. There is no home in the land which has not a better chance for happiness, no child which does not come into a better heritage, no woman who is not less narrow, no man who is not less bigoted because of the impetus their struggles and sacrifices gave to the emancipation of the sex."—Ida M. Tarbell, in the American Magazine.

MUSIC DEPARTMENT

For the school year beginning September, 1910, St. Mary's Music Department offers a complete course in the musical line, Piano, Violin, etc., including instruction in Theory of Music.

COMMERCIAL DEPARTMENT

For admission into this department the student must have, at least a high school entrance, or ninth grade standing. The fact is coming home more every day to business men, that the successful man or woman has to know many things besides the mere routine of business transactions. A commercial education is a very complete education and needs training not inferior to that required for a study of the liberal professions. It requires more than a knowledge of Book-keeping, Typewriting or Stenography. Every effort will be made to make the student advance rapidly, and diplomas will be given to successful students. The course includes Spelling, Practical English, Penmanship, Rapid Calculation, Arithmetic, Book-keeping and Business Practice;

Commercial Law, Stenography, and Typewriting. Present Rates-\$1.50 per month. Use of Typewriters, \$5.00 per year. For application and full particulars inquire at St.

Mary's Rectory or St. Mary's Convent, before August 20th.

HAVE SCHOOL FOR BRIDES

Great Deal to Be Sald in Its Favor.

A school for brides is the latest English educational enterprise and as the brides are taught domestic economy and housewifery there ought to be recooks and incompetent housekeepers.

The new school calls itself the College of Housecraft, and though it is founded in the hope that newly married young women and girls about to the various outdoor attractions. is open to other women. At present besides prospective brides there are ordinary middle class girls who have been well educated and are trained in sports and accomplishments but are lacking in rudimentary knowledge of If my friends and the men of the home making. In many cases they are and she, in turn, has gathered tohousewifery.

The college is arranged like a regular house and run without any servants. The pupils do all the work. Six workers or can attend special classes.

The students wear a plain uniform of brown linen with mob cap and linen apron in the morning and of brown cashmere with muslin cap and Wilbur Jarvis, who has filled the apron in the afternoon. They sleep

Beethoven's Beautiful Music Composed Under the Rays of the Queen of Night.

The story runs that Beethoven's Moonlight sonata-always so called. though he so rarely gave a descriptive name to any of his works-was composed on an occasion when he had been playing to some stranger folk by chance. Walking with a friend he one playing with much feeling a bit listen. In a moment the music ceased Two years ago he was called to the and a girl spoke longingly of her wish voice was so appealing that the composer stepped without hesitation to the door and knocked. Admitted to of that wonderful sonata, then the tricksy elf-like second part and the glory of the close.

The aged, worn, and guileless-looking individual sauntered up to the desk of the clerk in a southern hotel, and quavered, as he drew from his wallet a yellow bill, "Friend, will you calibre of Sig. A. Liberati, the fakindly give me five silver dollars in mous bandmaster, concerning the exchange for this memento of the good old confederate days?"

The clerk glanced quickly at the proffered bill, smiled to himself, tossed it into the drawer, and counted out the five dollars. When the guilelesslooking individual had gone, the clerk examined the bill he had just taken ment and desire better works musiin. He found that it was, or was not, cally than do crowds in the old couna good U. S. bill. Either way you try take it, it makes a story. It has never been decided which is the better way.

How Far Can You See? What is the farthest limit to which the human vision can reach? Power gives the ability to see the star. Alcor, situated at the tail of the Great ceptionable to be able to see Jupiter's satellites with the naked eye, though one or two cases are recorded, the third satellite being the most distinct. Peruvians are said to be the longest sighted race on earth. Humboldt records a case where these Indians perceived a human figure 18 miles away, being able to recognize that it was human and clad in white. This is probably the record for far sight.

WOMAN'S WORK.

Miss Zue McClary Has Charge of the Midway Features of the State Fair.

Visitors at the coming state fair this year when they see the wonders of the Midway with its many diversified attractions will marvel that this portion of the big show is under the direct supervision of a woman. Miss Zue McClary, associated with the United Booking offices of New York city, will be here in person to take charge of the Midway and the arranging of the shows and programs for

The managers of the Michigan fair this year, when first arranging their plans, were determined to present a Midway such as has never been seen in Michigan. They secured the services of Miss McClary, who is known throughout the east as an expert on attractions for fairs and exhibitions,

to be engaged in, but Miss McClary after having appeared publicly in lyceum work was attracted to the managerial end of the amusement business and became identified with the booking of entertainments. Her success has been phenomenal and she dents are allowed to come as day where she is accorded recognition as a Midway expert second to none.

ARCH HOXSEY, DARE DEVIL.

Hoxsey drove a Wright aeroplane at the State Fair grounds during the Elks' week exhibitions and made the crowds gasp time after time at his skill and daring. He will fly several times a day during the coming State Fair, Sept. 19-24th, and the appearaviators will be the biggest thing ever offered at any state fair.

LIBERATI'S BAND WILL

SURELY MAKE A HIT Celebrated Italian Leader -- Understands Tastes of American Crowds.

American musical tastes is interest ing, and more than usually so because of the fact that Liberati and his celebrated band will be one of the chief out-door attractions at the big Michigan State Fair, Sept. 19-24th.

Liberati says that in his opinion American crowds have a better judg-

arrange the same programs for American cities as I do for Berlin and Florence, and," he adds significally, 'I'm not so sure but that the American people care more for grand opera selections than do the Florentines-

themselves! This does not mean that Liberati's programs are what might be termed "heavy," for the best of the popular music is given. In fact, it is the arrangement of his programs as well

sion and achieves his success. Liberati's appearance at the State Fair is looked forward to by all music lovers, and the State Fair management feels that it has secured the best there is in the world for the Fair visitors this year.

D. U. R. MAKING PLANS. Railway Officials Figure on Hauling Immense Crowds During Fair Week.

Extraordinary arrangements are beand the D. U. R. to handle and care As the Fair management anticipates a rush such as never before seen, the

Many of the tracks at the Fair

grounds have been re-arranged, curves shortened, switches increased in numvast improvement over other years. programs for the week, and the nature of the attractions, it is thought the rush hours will be different than here-The Wright brothers' aero-

night performances by the Midway This indicates that the crowds will by some psychic resonance of basic stay right through and will mean a kindred chords in our respective be- heavy traffic throughout the afterings, that we would understand each noon and in the evening. No pains will be spared to take care of the Fair visitors, however, and this means are better service than has ever been enjeyed during Fair week.

THE OTHER **WAY ABOUT**

As Pilkins had persistently and rather tiresomely prided himself on the splendid condition of his teeth and the fact that he had never passed a minute in a dentist's chair except upon occasions when his molars were professionally cleaned and polished, it was with an air of bored toleration that he accompanied his wife to the dentist's office for one of the frequent examinations of her teeth.

"I suppose he'll find something new the matter with them," suggested Pilkins, with a grin, as they entered the elevator in the big office building. "That's his business, you know. You've cost, me a small fortune in gold and bridge work and amalgam and one thing and another in the last few years, and it's a cinch this doctor of yours isn't going to let go of a good

"Don't be absurd!" said Mrs. Pilkins. "Everything he has done for me has been absolutely necessary. If you begrudge the few dollars it has cost to keep your wife's teeth in good condition you ought to be ashamed of

Pilkins, properly squelched, followed his indignant better half into the waiting room of the dentist's office, and examined last year's magazines with idle interest during the few minutes the dentist consumed in scrutinizing Mrs. Pilkins' teeth and declar ing them safe and sound. When she rejoined him the dentist was at her

"You'd better get into the chair and let the doctor look over your teeth, Tom," she suggested. "One never can tell when one's teeth require at-

Pilkins laughed the suggestion to scorn. "Ah, my teeth are all right!" he insisted. "I never had a toothache in my life. There's no need of my

taking up the doctor's time." "It won't do any harm," advised the dentist. "As Mrs. Pilkins says, one never can tell."

"Go ahead, Tom!" commanded his "Don't be silly. That's one reason I wanted you to come with me today. I intended all along that you should have your teeth examined. You're always boasting about your good teeth-maybe they're not as good as you think."

The sporting instinct in Pilkins was aroused by his wife's covert challenge. He arose and strode to the chair. "All right, doctor!" he exclaimed.

'Go ahead and have a look. I'm betting on the teeth, though." The dentist jabbed his little mirror

into Pilkins' mouth and made a care-

"I'm afraid we can't do anything for you," he announced. "You ought to be ashamed to go around with such a good set of teeth. How do you expect us dentists to make a living?" Pilkins rose up and bestowed a su-

perior smile upon his wife while the dentist was walking around the chair to attack the grinders on the other side. "What did I tell you?" he asked

with a note of triumph. "I guess you'll have to keep on piling up the dentist's bills in our family!"

Then he laid his head back in the cushion to give the dentist another treat, winking covertly at Mrs. Pilkins in his self-satisfied glee.

"No, they're just as good as new," announced the dentist, peering into the mirror. "I don't see how we can do any business - hold on! Aha! a little cavity in an upper tooth-yes, sir, sure as you're alive!"

"A cavity!" yelled Pilkins, rising up in wrath. "What are you talking

"Come here, Mrs. Pilkins, and take look," urged the dentist. "See? Right there-see it?"

"Oh, yes, there is, Tom!" exclaimed his wife. "You'll have to have that attended to at once! Isn't it lucky we discovered it?"

The dentist pulled his little mirror away and whipped out his engagement book while Pilkins left the chair

in dense gloom. "When shall I put you down for?" asked the dentist. "Tuesday morning at ten? A'l right, sir. It won't hurt," he added, after a glance at Pilkins'

lowering face. "What if it does?" demanded the victim. "It's got to be done, anyhow,

hasn't it?" When they were alone in the hallway Pilkins turned to his wife indig-

"Well, I suppose you're tickled to death with your day's work!" he snapped. "I knew that fellow would find something out of whack before he got through!"

A Rose-Colored Statement. Miss Jane Addams, the head of the Hull house, said at a luncheon at the Chicago Civic club:

"We women have still much to fight for. Our battle will be long and difficult. Well, let us frankly admit it. There is nothing to be gained by such rose-colored phrases as William White employed. "William White's brother had killed

man in cold blood. "'Well, William, how about your brother?' a visitor to the town asked him one day after the trial. "'Well,' said William, 'they've put

him in jail for a month.' "'That's a rather light sentence for cold-blooded murder,' said the gen-

"'Yes, sir,' William admitted, 'but at the month's end they're going to

ADAM BEDE HAS NEW IDEA

Insists That a Society for the Suppression of Cruelty to Soil Is Needed.

A Society for the Suppression of Cruelty to Soil is advocated by J. Adam Bede, former congressman from Minnesota and humorist of national reputation, the St. Paul Dispatch says. Not only does he believe in such a society, but he says he expects to live long enough to see one organized under government supervision. "Stuff! This thing of increased cost

of living," Mr. Bede said. "It doesn't cost more unless you make it. If we'd live like our grandmothers did it wouldn't cost any more. The trouble is, we're living too fast and too luxuriously. I worked my way through school. I'm paying the way of my children. Grandma did her own housework. We're hiring ours done. It's just that kind of thing which causes us to spend money. And luxuries! Why, the farmers are getting so wealthy they want to ride in automobiles. Cows upstate are getting so they won't give down their milk unless you turn on the electric lights and have a Caruso to sing. It's the rust, not the trusts, which is hurting us. Traveling down through Kansas a short time ago, I saw all kinds of farm machinery, wagons, buggies and implements, standing out in the weather-rusting. We're too lazy to take care of the things we have. We're not making the ground produce as it should. We're neglecting it. We have not learned to rotate the crops. We plant wheat and more wheat until we have 'wheated' the ground to death. That's why I want to see a Society for the Prevention of Cruelty to

Palestine and California.

That the soil possibilities of Palestine and California are much the same is quite a revelation. Prof. A. Aaronsohn of Haifa, Palestine, has pointed out that each region has a range of low mountains near the coast, and bevond this a long interior valley with a range of higher mountains for the eastern wall, and, as the prevailing winds have the same direction, the distribution of rainfall corresponds closely. It is found that the very similar climatic and topographic conditions have produced similar plants. The languishing of agriculture in Palestine seems to be a result of poor government, not of sterile soil and arid climate, and it is believed that under better management the economic plants that flourish in Califorina will be successfully introduced. Among the plants discovered in Palestine is a wheat, growing wild in high altitudes on sterile soil, that is considered the prototype of our culivated variefies

Candidate on the Republican Ticket for Nomination for Sheriff is the right man for the office. His own town has honored him a great many times. He has held the office of Assessor two terms; Member of the Common Council three terms; President of the Village 'four terms; Member of the School Board two terms; Supervisor of the Township four times; and has held the office of County Auditor seven years, and in every instance has given public satisfaction.

Why Not Try Him For Sheriff?

Don't forget the Primary Election September 6, 1910

Geo. W. Sweet

City of Ann Arbor,

Republican Candidate for Nomination for

Register of Deeds.

X Before my name at the Primaries September 6, 1910, will be greatly appreciated.

One of the old Chelsea Boys, is a Candidate for the Republican Nomination for Sheriff at the Primaries to be held September 6,

The polls of said election will open at 7 o'clock in the forenoon and will remain open until 5 o'clock in the afternoon of said day ef election, uness the Board of Primary Election Inspectors shall in their discretion adjourn the polls at 12 o'clock, noon, for one hour

Dated this 15 day of August, 1910. PAUL O. BACON, Clerk of said Township.

WON BY SENTIMENTAL APPEAL

Clever Scheme Devised by Offending Police Officer to Get Out of Difficulty.

Prof. Scott Nearing of the University of Pennsylvania, delivered recently in Philadelphia a brilliant address upon the theme that "woman's function is not to bear many children,

A lady at a dinner in Locust street asked Prof. Nearing how he reconciled his lecture, which had aroused much interesting discussion in Philadelphia, with Mr. Roosevelt's "race suicide"

"The fact is," said Prof. Nearing, laughing, "these race suicide folk think sentimentally rather than analytically. They are deceived by sentiment, as a certain New York police commissioner once was.

"This commissioner, a fine young man, found it his unpleasant duty to sit in judgment on a police officer who sioner he had 14 children with him, children, neatly if plainly clad, quite crowding the commissioner's office, and looking up in the policeman's face with anxious, affectionate eyes.

"'You are charged with drunkenness. What have you got to say for yourself?" the commissioner said sternly to the guilty officer.

"The man gathered the 14 children

"Mr. Commissioner,' he answered proudly, from the midst of the group, these children have no mother-that is what I have to say.'

"Thereupon, touched to the heart, the young commissioner let the man off-for how was he, in his sentimental pity, to know that the policeman had borrowed the children from friends?"

INCIDENT THAT MADE A HIT

"Business" Not Included in Actor's Part Certainly Was Enjoyed by the Audience.

Before he arrived at stardom Wilton Lackaye once went on the road in a temperance play of the "Ten Nights

"We stopped one night in a town precinct forms a part.

State—One candidate for Governor from a huge barn and was shaky in where the theater had been evolved its timbers," said Mr. Lackaye. "In the third act my lines included a

"The audience was large and friendtree overhanging the stage. 'See his County—One candidate for each of bloodshot eyes. He is preparing to has dropped to the ground. The State Fair Will Show New Fea tures in Its Fireworks This Year.

In preparing the fireworks program for the coming state fair, Sept. 19th-24th, the Gregory Fireworks Co., of many new features which have never before been attempted in the field of pyrotechny. Fireworks experts will least so far as the Michigan fair program is concerned, will meet with a most decided success.

In all there will be seventy-two numbers to be seen during fair week, these to be seen in addition to the cle which is expected to create a thrilling interest.

One of the new numbers never be fore presented to the public will be "Halley's Comet." This feature is acinch shell high in the heavens, which sends forth an immense parachute bearing a beautiful magnesium light, representing the head of the comet. trailers of illuminating fires represent the tail of the comet. This is a most spectacular number and will be shown at the Michigan fair for the first time in the country.

"My Country, 'Tis of Thee" is the title of another elaborate figure to be presented in fireworks. It represents the facade of the White House at Washington with Old Glory floating from the dome.

The heroic figure of a Plowman is seen in the right foreground and that of a National Guardsman on the left. Brilliantly colored fires outline the picture and there is a mammoth battery discharging fires from the right and left, meeting in a canopy over the entire scene. This is also an exceedingly difficult presentation covering 2,500 square feet of space in the heavens.

"The Shower of Pearls," "The Star and Garter," "Michigan Peacock," and other special pieces will make up the diversified and highly interesting nightly programs of fireworks, "The Michigan Peacock," in particular, is described as more than an ordinary number. When the huge bird first appears, its tail is shown folded, but by a mechanical device the feathers spread out like a fan with a shower of sparks from the ends of the feathers. There will be an elaborate piece of illumination used each night with constantly changing colors which will light up the entire exhibition field in a weird and wonderful manner, forming a spectacular background for the set pieces which follow in rapid succes-

All in all, it is safe to say that the state fair fireworks program this year will be the most wonderful and elaborate fireworks display ever seen

FOR GOVERNOR AMOS S. MUSSELMAN.

If the Republicans of Michigan want to nominate a man for Governor who will surely be elected in November, they should vote for

AMOS S. MUSSELMAN.

have

If the Republicans of Michigan want to nominate a man who is not handicapped with "Warnerism,"-if the Republicans of Michigan want to nominate a man for Governor will not be handicapped in the campaign by a promise to veto a Tonnage Tax bill, should one be passed by the legislature, they should vote for

AMOS S. MUSSELMAN.

If the Republicans of Michigan want to nominate a man for Governor who belongs to no machine and to no faction, who has made a success of his own business, not accidently, but by industry and executive ability, they should vote for

AMOS S. MUSSELMAN.

If the Republicans of Michigan want to nominate a man for Governor who has been a life long, consistent Republican, who is a wheelhorse of the party without being a stand-patter, and a progressive Republican without being an insurgent,-if they want a conservative, logical, clean-cut, fearless executive in the chair in Lansing, they should vote for

AMOS S. MUSSELMAN.

That Mr. Musselman is to be the nominee of the Republican party is the logic of recent events. There has been a strong undercurren for him all summer, but it remained for Osborn and Kelly to open the way for a complete crystallization of sentiment favorable to Musselman. Kelley has been on the toboggan for the last three or four weeks and Osborn hit the chute at Big Rapids when he double crossed himself regarding his friendly relations with Governor Warner and his contributions to the Warner campaigns of two years ago.

AMOS S. MUSSELMAN

has declined to enter into any verbal controversy with Mr. Osborn and says "Slander and villification has seldom been a passport to public favor. Thank God, I do not want the office bad enough to destroy our party, with all its traditions, nor to slander its representatives to obtain it. Ambitious zealots should not be permitted to usurp the powers of government. It is just as important to curb the ultra-radical as to stimulate the halting conservative. Neither should be trusted with power. The mass of the people are honest intelligent and patriotic, and the public service should be thoroughly representative

Every Republican who desires to vote for a winner at the primaries, September 6th, and to have a candidate who will be a winner at the election in November, should vote for

AMOS S MUSSELMAN.

Political Advertisement.

EVERY REPUBLICAN SHOULD VOTE FOR SENATOR BURROWS

Republican Candidate for nation at the Primaries

E has been loyal to the Republican party and its principles. He has always championed the protective policy.

He helped establish the Sound Money System, and is devoting his energies to-its perfection.

His wise course in both branches of Congress entitles him to first consideration.

He is a progressive, un-compromising Republican. He was a loyal supporter of Lincoln, Grant, Garfield, McKinley and ROOSEVELT, and is now of WILLIAM HOWARD TAFT. He is a man of high ideals, unquestioned integrity and patriotic zeal.

He has always safeguarded the interests of the American farmer and workingman.

He served with honor in the Civil War and is the warm friend

He is a party builder—not a party destroyer. His record of achievement in Congress is not excelled by that

of any man Michigan has honored. He is at the threshold of his greatest usefulness. He will head the great Committee on Finance. He will be the Senate leader. Michigan cannot afford to lose this prestige and power.

Senator Burrows should have an overwhelming endorsement

WHY TURN DOWN A FAITHFUL SERVANT?

For Sheriff

William H. Stark

Democratic Ticket

Mr. William H. Stark, of Ann Arbor, is a candidate for Sheriff at the Democratic Primaries to be held Tuesday, September 6. 1910. Mr. Stark was born in York Township in 1873, and lived on the farm prior to entering the livery and sale stable business in Ann Arbor.

At present he is serving his second term as alderman of the first ward,

and is one of the best known democrats in the county. Your vote will

be greatly appreciated.

STRICT NEW ENGLISH LAW

Grins of Clown and Acrobat's Contortions May Be Copyrighted in the Future.

"All grimaces in Mr. So-and-So's performances are copyrighted."

This notice on the program may greet the eye of a spectator of the harlequinade of the future if effect is Died, Friday August 26, 1910, at his given to the recommendations of the home in Stockbridge, Carl Krebs, committee to consider the law of copysittings, says an English exchange. For in its report just published appears the recommendation that the protection of copyright should be extended to "entertainments in dumb show," and these Mr. Scrutton, K. C., a dissenting member of the committee, points out, must necessarily include

> But the clown will not be the only one to benefit. The contortionist who ties himself in a novel knot, the gymnast who invents some new feat, may equally copyright them, for their enin dumb show."

> Verbal contortionists, too, will have their need of protection, for the committee recommends that authors of lectures, speeches and sermons should have the sole right of delivering them, though newspapers may report them unless notice prohibiting publication

No longer will the author of a musical work groan at the thought of lost royalties when he hears his masterpiece ground out on a barrel organ, for he is to have the sole right of authorizing its "adaptation to instruments which can produce them mechanically."

And the artist who sees his picture reproduced by a cinematograph may be tempted to overlook the absence of some of its finer shades in reckoning the profits of the performance.

For, so the committee recommends. authors of literary, scientific or artisright of authorizing the reproduction and public presentation of their works.

THE POPULATION

STATE HAS 2,810,173; AN IN CREASE OF 16.1 PER CENT DURING PAST DECADE.

CENSUS FIGURES SHOW IN CREASE OF 389,191; 26 COUN-TIES SHOW DECREASE.

Manufacturing Cities Gained at the Expense of Agricultural Communities-Means One More Member of Congress.

Despite the fact that the census returns from 26 counties in the state of Michigan show a decrease during the last decade, the state has a population of 2,810,173 in 1910 as compared with 2,420,982 in 1900 and 2; 098,889 in 1890. The increase from 1900 to 1910 is 389,191, or 16.1 per cent, while the increase during the preceding decade was but 15.6 per cent, or 327,093.

Officials of the census bureau attribute the falling off in the population of so many counties in the state to the fact that those who have previously lived in the suburbs, attracted by the inducements held out to them by the manufacturing centers, have moved into the large cities. For instance, Wayne county, in which Detroit is situated, shows an increase in population during the past ten years of 182,797, while these counties not dependent upon more thickly populated centers all show decreases.

Those Which Decreased.

The 26 counties which show decreases are as follows: Antrim, Arenac, Branch, Cass, Clinton, Eaton, Gratiot, Hillsdale, Iona, Iosco, Lake, Lapeer, Lenawee, Livingston, Macomb, Manistee, Mecosta, Menominee, Midland, Montcalm, St. Clair, Sanilac. Shiawassee, Tuscola, Van Buren and

Most of these, it will be noticed, are the populous counties in the agriculture is the principal occupation, and the ones which would be most affected by the movement of the young men of the farms to the factories of the big cities.

The total losses of these 26 counties amount to but 27,482, which is hardly more than the gain of the city of Flint alone, 25,477. In eight of them, Antrim Arenac, losco, Lake, Manistee, Menominee, Midland and Mecosta, the decrease can be ascribed to the falling off in the lumber industry. The greatest decreases, however, are in the counties whose bulk of population is engaged in agricultural pursuits, as follows: Branch, 2.206; Clinton, 2.007; Eaton, 1,169; Gratiot, 1,069; Lapeer, 1,608; Living-1,125; Washtenaw, 3,047, All of these, it will be noticed, are within easy reach of the one other of the three automobile centers of the state, De-

It is also noticeable that only one of the upper neninsula counties, Menominee, shows a decrease, the others show substantial gains.

Michigan stood eighth among the states in the matter of population in 1900, and will probably maintain her relative rank in this year's census. Another Member of Congress.

Despite the annarent unfavorable showing of Michigan on the whole, the state will be entitled to an additional member of congress by the official population returns, no matter what apportionment may be agreed upon by the next house.

More Census Figures. The population of Lansing is 31,229.

an increase of 14,744, or 89.4 per cent as compared with 16,485 in 1900. The population of Saginaw is 50, 510, an increase of 8.185, or 19 per cent, as compared with 42,345 in

The population of Bay City is 45. 166, an increase of 17,538, or 63.5 per cent, as compared with 27,628 in, 1900.

Freight Trains in Crash.

Two freight trains on the Pere Marquette railroad, one a double header bound for Detroit, were in collision about a half mile east of Grand Blanc. Patrick Lawler of Flint was

The rear engine on the south bound train plowed through the forward engine. Two empty box cars and two flat cars loaded with coal took fire and were totally destroyed. The fireman and engineer on the south bound train jumped and escaped injury. The others of the crew were in the caboose and were uninjured,

Lawler, in company with George Quick, was returning home from Pontiac, and the two were riding between the cars. How the accident happened is not known. The fact that both trains were running slowly is responsible for the escape of the crews.

Mrs. George Bardeen, 68, wife of the millionaire paper manufacturer of Ostego, died suddenly on a Pere Marquette train en route from her summer home. Charlevoix, to a sanitarium in Flint. Her husband was called to Detroit on business just before the arrival of the train carrying the body of his wife.

Jack Winters, a farmer near Sebewaing, received a black hand letter demanding \$1,500 on penalty of having his entire familly slain. The officers were notified, but did not arrive until after a stranger had visited of fellow playmates has been organ- zling, even in the dullest light. One a mail box where William was told ized to canvass the city, asking for

to place his money. A plot to break jail at Muskegon was frustrated by the sheriff. Five prisoners converted a caseknife into a saw and sang as they worked at the bars of their cell. The officer, thinking they were making too much noise, investigated, and found one bar sawed in two and the prisoners making ready

SOME QUEER FOODS AS IT APPEARED TO HER way down to the waist line. At a gala

FASHIONS IN EDIBLES VARY WITH TASTE AND CONDITION.

What to One Race Will Seem Natural and Toothsome Article of Diet Might Seem to Others Repulsive.

Fashions in foods vary as do most of man's needs with taste and circum-"one man's meat is another man's poison." What to one race of people will seem a perfectly proper and natural and toothsome article of diet will to others seem repulsive, and even disgusting. The exigencies of climatic conditions will afford some explanation of the varying nature and amount required for human sustenance. Thus the intense cold of the Arctic regions will explain why the Esquimo are able not only to eat and drink substances as foreign to our tastes as walrus, frozen seal and trainoil, but to gorge themselves to a disgusting extent; Sir John Ross said that an Esquimo "perhaps eats 20 pounds of flesh and oil daily." But why some tribes in tropical regions or why others in Africa and Polynesia should indulge in the horrible and degrading practise of cannabilism. The flesh of the samel is eaten with

relish in some parts of Africa, but is alleged by Arabs to produce serious disorders of the stomach. One was Southern Michigan ended their camp eaten during the siege of Paris, and is meeting at Battle Creek with an at- said to have tasted like veal. tack on Christian Science and spirit- A camel's hump is considered some ualism, re-elected their old officers thing of a delicacy by many desert African tribes, as also their eggs. Dr. The appointment of R. S. Neely as Livingstone wrote: "To us the idea said: "In taste they resemble hen's eggs with perhaps a smack of custard, and would be as highly relished by whites as blacks were it not for their unsavory origin in man-eaters." The toad is also an article of diet with some negro races. The crested Basilisk, a reptile upwards of a yard in length, is eaten by the inhabitants of Amoboyna and the East Irdian arch-

The insect world is also called upon Locusts are eaten in great quantities, both fresh and salted, by Persians, Egyptians and Arabians. Diodorous till it was relieved another way." Lowhich they feed.

Hammond's Peculiar Preference.

John Hays Hammond, the mining engineer, who on his private car en le's comet was visible at 3:30 o'clock ing through the state of Texas when Hammond arose at that ungodly hour and went out to the observation platform of his car to see the comet.

They told him where they were going The Alma Sugar Co. Wednesday and thanked him for his politeness. "You fellows wait here a minute

good, they are at times mislead by false statements. Trust them when they have exact

truth to speak from Now for the story which should interest every one for we are all either receivers of wages or we pay to wage earners and the freedom of each individual is at issue.

In various papers the following statement has been printed. Read it carefully at least twice.

"Interest in Labor Sunday. "Labor Sunday-the Sunday prec'ding Labor day—will be observed generally this year and in future years throughout the United States. This garrison in India that was ready to because of the American Federation yield for want of provisions held out of Labor declaration for the observance of that day. The numerous letters recently received at American Federation of Labor headquarters from ministers is an assurance that interest in the idea of giving special attention to the cause of labor from the pulpit one day in the twelve months is widespread. Our readers are urged to try to bring about an understanding in their respective districts with represe tatives of the church so that ministers will make addresses that may attract trade unionists to the churches in large numbers they think on the occasion in order that their trade union hearers may put the right estimate as to where the church stands on the question of the organization of labor. The more the subject is discussed the better will it

be for labor. Union ethics are sound. -American Federationist." Observe that "Labor Union" mer "are urged" to induce ministers to make addresses that will attract trade unionists to the churches "for the "Ministers should say," etc.,

and winds up with "Union ethics are" sound;" observe the hidden threat. This is clipped from the American Federationist the organ of Sam Gompers, et al.

This clipping has been sent to papers throughout the country and the Typographical Union men in the newspaper offices instructed to "urge" that

it be printed. That is one of the ways of the "ma-

It looks harmless so the papers print

But! Let's lift the cover and look The hidden motive is as dangerous to the peace and liberty of the citizens as a colled rattlesnake in the

Organization by workmen to peace fully and successfully present their side is necessary and most commend-

rapidly winning their way to public confidence without strikes, dynamite or killing fellow workmen.

(Some facts on this matter further along in this article.) We see here a demand on the ministers of God, that they endorse and help build up the strike-producing. boycotting and violent American Fed-

eration of Labor. Think of the man of God who teaches brotherly love being covertly ordered to praise and help get new members for an organization with a record for violence, crime and murder done by its members the like of which the world has never seen.

Think of the thousands of women made widows and the increasing thousands of children left fatherless by the pistol, club, dynamite and boot heel of members of this Labor Trust. Any one who recalls the countless murders done in the multitude of

agree this is no exaggeration. Take just one as an illustration: There were some thirty men murdered and over 5000 brutsed and pay fees. maimed in the Chicago teamster's

strikes in the past few years will

ed or murdered by members of this

Then remember the homes blown up or burned. The families hounded, the rioting, burning of street cars, wrecking of trains and attempted or successful killing of passengers. The general disturbance of industry

and the thousands of dollars forced from tax payers to pay extra police. sheriffs and militia to protect, even in a feeble way, the citizens from the mobs of members of the American Federation of Labor. Then you will realize why the great peace-loving majority of over 80 mil-

lion Americans protest against the growth of this crime-tainted organization comprising perhaps one and onehalf million men, of which it is estimated at least seven-tenths are peaceloving citizens and are members by coercion and are not in sympathy with the three-tenths who have gained control and force their methods. We find that a few designing men

have seized control of the American Federation of Labor, just as some shrewd capitalists have secured control of some railroads and other interests and are now twisting and turning them into machi es for personal profit and fame.

These men cunningly plan to force workmen to join and pay 25 to 75 cents a month in fees. Various methods are used

duce" workmen to join. First, they talk of the "tyranny of

capital" making slaves of workmen. Then they work up enthusiasm about the "brotherhood of man" and other talk which experience has shown excites the emotions of workmen and they are induced to join and pay fees to the leaders.

The 5000 workmen in Battle Creek are, as a rule, free from the dictates of the great Labor Trust and still get the highest wages in Michigan. they had yielded to the smooth talk of the agents of the trust and joined, they would pay in fees from \$1250.00 to \$2000.00 a month to the big trust and be subject to strike orders any

Now they save that and put the money into homes and family com-But the managers of the American

Federation of Labor have worked hard and long to harness them. The trust has sent small bales of money and last winter 18 "organizers" to tie up Battle Creek. They hired halls, gave picture shows, smokers,

etc., as an investment, looking to rich returns when they succeeded in having them tied hand and foot. But they failed and the last of these "organizers" left Battle Creek

on May 1st saying "it's no use." The workmen knew the record of this great trust and formed their own association to protect their rights and also to protect them from the big Labor Trust

In Philadelphia some 4000 independent street car men, who mainly had families, had their own union and refused to join the big trust, preferring to be free to work or not as they

But the trust planned to force them into the fee-paying ranks, so a strike was ordered to compel the traction company to kick out these men and hire only Labor Trust members.

It was not a question of wages or hours but to push the free men out of their positions where they were earning good money to support their fami-The strike was ordered, not to raise wages or reduce hours, remember, but solely to t row out members of an independent union and make places only for Labor Trust members, and thus show the independent men they could not earn a living unless they first paid fees to the trust man-

Incidentally the people of Philadelphia must submit to no car service, rioting and bloodshed with millions in losses while these fee-hunting, notoriety seeking trust leaders were teaching the world that industry cannot be carried on except by workmen who first bend the knee, bow the head and

Then think of the lordly power, and don't forget the steady flow of money

squeezed from the workman's hard earned pay enevelope. But when these leaders "tie up" any industry no man can hold a job who refuses to pay fines even on trumped up charges, and steadily pay fees

whatever they are. The workman is absolutely at the mercy of this band of men who have secured and hold control.

Many and many an honest workman has raised his voice and appealed to his fellows to rise and throw off the yoke of Gompers, et al. But, as one writes, "At every convention of the American Federation of Labor, strong opposition comes up but at the critical moment the impassioned orator appears and most dramatically puts the spot light on the leader and covers him with a mawkish film of 'martyrdom' and the emotional delegates yell in delight, forgetting the instructions of the peaceful workingmen at home who desire to free themselves from the odium of membership under the great advocates of strike, boycott, vio-

lence and hate." So we see the unequalled insolence with which these trust leaders propose to "induce" ministers to pull their chestnuts from the fire preaching modern aggressive and vio-

lent labor trust methods. There is a better way to secure justice for workers, as will appear furth-

Just a little diversion here. I am charged with having first brought to the attention of the public some years ago, the name "Labor

A trust is a combination of men or organizations for the purpose of selling their product at a profit and restricting production to effect it.

We will say a large Oil Company gathers in smaller ones and thus controls production. The Labor Trust "gathers in" local trade organizations and thus has power to say how much work each man

shall do. The Oil Company then fixes prices. The Labor Trust does likewise. The Oil Company may "use methods" to force an unwilling dealer to

The Labor Trust men go further and slug the independent man if he tries to sell his labor without paying fees and "obeying orders." They are both exactly alike in purpose, which, in both cases is entirely selfish to gain power and money for the leaders. Certain Labor Trust members do not hesitate to use violence, dynamiting of property, burning homes of

force obedience. The Oil Company doesn't go so far. Both are extremely dangerous to the Postum business runs or not the welfare of people and communities, for power placed in the hands of a few men either representing Capital or Labor is almost always abused

and the public suffers. Remember, reader, that your safety lies in strenuous opposition to all trusts which try to ride over and dictate to the people. Only by opposing their growth can

you retain your personal liberty. The average congregation is made up of about 90 per cent. of free citizens and much less than 10 per cent.

of members of the Labor Trust. The free citizen wants to hear words defending the rights and independence of the common man, free from the arbitrary dictates of any self-seeking organization either of Capital or La-

The merchant, lawyer, school teacher, doctor, clerk, farmer and workman rebels against any forcible stopping of trains, boats, street cars, or factories, for the prosperity of the community is entirely dependent on steady continuance of these things.

Men don't like strikes, boycotts, injured workmen or burned cars and factories. A famous divine says: "These men may hate capitalists but their hate for other laboring men burns like a fiame, eats like nitric acid, is malignant be-

yond all description." How these men as strike leaders throwing, eyes gouged out, children love to see their nam a in the papers pursued, women stripped, homes de-

ong list of atrocities practised by Labor Trust members on other human beings who cannot agree with the trust methods. Now for the better way.

Workingmen are now organizing in the old fashioned trades union or "guild" way, affiliated with the National Trades and Workers Association whose constitution provides arbitration of differences with agree ment for no strikes, boycott, picket

ing or hateful coercion of any kind. This Trade Association has evolved from the experience of the past and is the highest order of Trades Unionism at the present day.

Under its laws it is not possible for the Hod Carriers Union or the Street Sweepers Union to order the school teachers or locomotive engineers to quit work in a "sympathetic strike." If any craft finds injustice, the case is presented to properly selected arbi-

presented to the public through the press. Thereupon public opinion, that greatest of all powers, makes itself telt and curiously enough a fair settlement is generally the result. There is no strike, no loss of wages,

trators, testimony taken and the case

no loss to the community and yet the faithful workers get their just treat-There are many details which have been worked out by men skilled in

labor matters. It will recompense any interested man to know these details which can be secured by a postal request for constitution and by-laws written to the National Trades and Workers Association, Kingman Block, Battle

Creek, Mich. Reader, look carefully into this great question of the relations of Capital and Labor and its successful solution. The new plan works and brings results for the members.

I became so favorably impressed with the trustworthiness and practicability of the leaders of this new isbor movement that I gave the Association a sanitorium at Battle Creek worth about \$400,000 and with about 300 rooms, to be used as a home for their old members and the helpless babies, sometimes made fatherless'by the pistol, club or boot heel of some

member of the violent "Labor Trust" Suppose you attend church Labor Sunday and hear what your minister has to say in defense of the safety and rights of the common, everyday

man. Let me ask you to read again a portion of one of my public articles print ed a few years ago.

"The people of the world have given me money enough to spend in independent men and even murder to these talks through the papers in try ing to make better and safer conditions for the common people, whether Scores of letters have come to me from work-people and others, som from union men recounting their suf-

Thomas Ardmore and Henry Maine Griswold stumble upon intrigue when the governors of North and South Carolina are reported to have quarreled. Griswold alles himself with Barbara' Osborne, daughter of the governor of South Carolina, while Ardmore espouses the cause of Jerry Dangerfield, daughter of the governor of North Carolina. These two ladies are trying to fill the shoes of their fathers, while the latter are missing. Both states are in a turmoll over one Appleweight, an outlaw with great political influence. Unaware of each other's position, both Griswold and Ardmore set out to make the other prosecute. Both have forces scouting the border. Griswold captures Appleweight, but Jerry finds him and takes him to Ardsley, her own prisoner. Ardmore arrests a man on his property who says he is Gov. Osborne. Meanwhile another man is arrested as Appleweight by the South Carolina militia. The North Carolina militia is called into action. When Col. Gillingwater, Jerry's flance, finds that real war is afoot, he flees. Appleweight is taken secretively Ardmore and lodged in a jail in South Carolina. Returning to Ardsley, Ardmore finds that Billings, the banker, and Foster, treasurer of North Carolina, have been arrested. Barbara Osborne arrives at Ardsley. Dispute as to who has the real Appleweight results in the identification of the man jailed by Ardmore in South Carolina as the outlaw.

CHAPTER XIX.-Continued.

"Any man," said Jerry, lifting her chin slightly, "who would impersonate the governor of South Carolina would. beyond question, be utterly insane and an object of compassion. Prof. Griswold, will you please produce your imaginary Appleweight, as at this hour Mrs. Atchison usually serves tea. Let us therefore make haste."

One of Griswold's retinue ran off to summon the prisoner, who was guarded by half a dozen soldiers near at

The company in the bungalow were all laughing heartily at some sally by the adjutant general of South Carolina who insisted upon giving a light note to the proceedings, when hurried footsteps sounded on the veranda and a sergeant appeared in the doorway and saluted.

The adjutant general, annoyed at being interrupted in the telling of a new story, frowned and bade the sergeant produce his prisoner. At once a man was thrust into the room, a tall man, with a short, dark beard and slightly stooping shoulders. The strong light at his back made it difficult for the people grouped about the table to see his face clearly, but the air somehow seemed charged with electricity, and all bent forward, straining for a sight of the captive. As he stood framed in the doorway his face was slowly disclosed to them, and there appeared to be a humorous twinkle in his eyes. Before any one spoke, he broke out in a hearty laugh. Then a cry rose piercingly in the quiet room-a cry of amazement from the lips of Jerry Dangerfield, who had taken a step forward.

"Oh, papa!" she cried. "The governor!" roared Col. Daubenspeck, leaping across the table. "lt's Gov. Dangerfield!" shouted

half a dozen men in chorus. and ranged themselves at the back of yours, Mr. Ardmore, down on the stand that you belong to the Virginia of the room.

daughter's hand

"Jerry, what part do you play in

these amateur theatricals?"

Jerry rose, thrusting her handkerchief into her sleeve, and her lips trembled slightly, though whether with mirth or some soberer emotion it would be difficult to say. The room at once gave her attention, seeing that she was about to speak.

"Papa, before these people I am not ashamed to confess that during your absence from the seat of government I took it upon myself to fill your of. ing." exile without leaving your address may I ask you, sir, what has become will pardon me for thrusting myself behind. NO CHANCE TO GO WRONG

Statement of Beauty Doctor May Have Been True, but It was Not Gallant.

William F. Oldham, bishop of Singsucceeded by his son. Later the eld-papore, talked at a dinner, on his last er Warner established a private bank, visit to New York, about missionary

"A certain type of man," he said, "goes about declaring that we dominant races civilize the savage out of existence—that we do them harm instead of good.

"Well, as a matter of fact, if these cavaliers knew what I know about some tribes, they would speak less confidently. Some tribes are so debased that to do them anything but good would hardly be possible. They are, in fact, just like the ugly woman who visited the beauty doctor.

"This woman was ugly in every feature, but her nose was particularly ugly. That, no doubt, was why she desired the beauty doctor to begin on it.

"'I am willing,' she said, 'to pay you liberally, doctor, but I demand inreturn substantial results. We will start with my nose. Can you guarantee to make it ideally beautiful?' "The doctor, after looking attentive-

ly at the woman's nose, replied: "'Well, madam, I can't say as to ideal beauty, but a nose like yours I couldn't help improving if I hit with a mallet."

IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the The New York North American Y. Cuticura Remedies, and I am so grate-M. C. A., with 2,017 associations, has ful I want the world to know, for passed the half million mark in mem- what helped me will help others. My bership. They have a total of \$67, body and face were covered with sores. One day it would seem to be Salt palace, a structure built out better, and then break out again with of salt and one of the scenic features the most terrible pain and itching. I of Salt Lake City, was destroyed by have been sick several times, but fective wiring was the cause. Salt never in my life did I experience such palace has been used for a number awful suffering as with this eczema. I of years as an amusement resort and had made up my mind that death was its bicycle saucer, track was one of near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of

Cuticura Ointment. "I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Altie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

The Stylish Fisherman.

One of the guests of a fashionable summer resort in West Virginia got himself up in his best fishing togs and started along a certain mountain

stream. Meeting a native, he asked: "Here, my good man! Kindly tell me whether it would be worth my while to try fishing in this vicinity."

The native regarded him scornfully. "The fishin' ain't good," he finally said. "but I ain't informed as to how you values your time."-Lippincott's.

Deafness Cannot Be Cured

by local applications, as they cannot reach the discased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, inne cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WESTERN CANADA'S **1910 CROPS**

Wheat Yield in Many Districts Will Be From 25 to 35 Bushels Per Acre

Land sales and homestead entries increasing. No cessation in numbers going from United States. Wonderful opportunities remain for those who intend making Canada their home. New districts being opened up for settlement. Many farmers will net, this year, \$10 to \$15 per acre from their wheat crop. All the advantages of old settled countries are there. Good schools, churches, splendid markets, excellent railway facilities. See the grain exhibit at the different State and some of the County fairs. different State and some of the County fairs.

Letters similar to the following are received every day, testifying to satisfactory conditions; other districts are as favorably spoken of:

THEY SENT FOR THEIR SON. Maidstone, Sask., Canada, Aug. 5th, 1910.
"My parents came here from Cedar Falls, Iowa, four years ago, and were so well pleased with this country they sent to Coeur d'Alene for me. I have taken up a homestead near them, and am perfectly satisfied to stop here."

Leonard Douglas.

WANTS SETTLER'S RATE FOR HIS STOCK. Stettler, Alberta, July Sist, 1910.
"Well I got up here from Forest City, Iowa, last
Spring in good shape with the stock and everything,
Now, I have got two boys back in lowa yet, and I Now, I have got two boys back in lowe yet, and am going back there now soon to get them and another car up here this fall. What I would like to know is, if there is any chance to get a cheap rate back again, and when we return to Canada I will call at your office for our certificates."

Yours truly, H. A. Wik.

WILL MAKE HIS HOME IN CANADA. "I am going to Canada a week fro: today and intend to make my home there. My husband has been there six weeks and is well pleased with the country; so he wants me to come as soon as possible. He filed on a claim near Landis, Sask. and by his description of it it must be a pretty place.

My orother-in-law, Mr. Frank J. Zimmer, lives there and it was through him that we decided to locate in Canada."

Yours truly,
Mrs. Hichard Henry Ebinger. TAKES HIS BROTHER-IN-LAW'S WORD FOR IT.

Taylors Falls, Minn., Aug. 7, 1910.

"I shall go to Camrose this Falls with my cattle and household goods. I got a poor crop here this year and my brother-in-law, Axel Nordstrom in Camrose, wants me to come there. He formerly lived in Wilton, North Dakots. I am going to buy or take homestead when I get there, but I do not want to travel two times there, for I take my brother-in-law's word shout the cupitrs and want to get your low.

WANTS TO RETURN TO CANADA.

Vants 10 lesters 10 data very vesta, Minn., July 3tth, 1919

"I went to Canada nine years ago and took up a guarter section of railroad land and a homestead, but my boys have never taken up any land yet. I still hold the railroad land. I had to come back to the states on account of my health. Please let me know at once if I can get the cheap rates to Pomoka, Alberta."
