STEEL FLAG POLE AND 12 x 24 FLAG

Pole Will Be Permanent Feature
And Will Cost About \$250;
Flag About \$50.

The flag and pole committees ap-
pointed at a meeting of patriotic citi-
zens about ten days ago relative to
the erection of a flag pole at Chel-
sea's main four corners, met last eve-
ning with the village council and as
the result of their reports the council
authorized them to purchase a steel
flag pole and a suitable flag.

The pole recommended will be
about 80 feet high above the pave-
ment. It will be of steel construc-
tion of tubular cross-section, about
10 inches in diameter at the base and
tapering to 3 1/2 inches at the top.
The approximate cost will be about
\$250 and it is estimated it will cost
at least \$25 to erect it.

A flag about 12x24 feet will be
purchased for the pole. Two sam-
ple flags were submitted last eve-
ning, but were considered too small,
the largest being about 10x18 feet.
The cost of the flag will be about
\$50.

HIS 78TH BIRTHDAY

George W. Richards Pleasantly Sur-
prised Friday.

Friday, April 13th, George W.
Richards celebrated his seventy-
eighth birthday.

In honor of the event, Mrs. Rich-
ards and her daughter, Mrs. Doud,
had planned a pleasant surprise for
him by inviting several of his rela-
tives residing in Chelsea, including
his sister, Mrs. M. H. Fyler, who is
in her ninety-second year; his
brother, F. E. Richards, who was
eighty-three years of age on Satur-
day; also a sister-in-law, Mrs. James
Richards, and a niece, Mrs. E. C.
Taylor.

A fine dinner was served and the
guests all united in wishing the
guest of honor many happy returns
of the day.

YOUNG BOY KILLED, DEATH AN ACCIDENT

Lawrence Ellis, Aged 7, of Tecumseh
Met Death at Home of
Grandmother.

Lawrence Ellis, aged 7 years is
dead as the result of an accident at
the home of his grandmother, Mrs.
Walters, three miles south of Grass
Lake.

The boy was alone in the house. A
grandson, Somers Weeks, aged about
12 years, was engaged in doing
chores and when he returned to the
house he found the dead body. He
ran to the next farm, and summoned
a physician who found that death
had been instantaneous.

It is believed the boy discovered a
shotgun, which was on a couch, and
attempting to lift it off, pulled the
trigger, receiving the entire charge
in the abdomen.

The boy was the son of Mr. and
Mrs. Thomas Ellis of Tecumseh.

AFFIDAVIT ALLEGES TREASONABLE TALK

Rev. Fred Thrun, Scio Pastor, Said
To Have Used Unwise
Language.

According to an affidavit filed with
Prosecuting Attorney Carl Lehman,
the Rev. Fred Thrun of Scio has been
guilty of utterances of a treasonable
nature.

He is credited with having said
that President Wilson was not elec-
ted by the money interests, but that
he had gone over to them when he
had caused war to be declared
against Germany. "He is sacrificing
good American blood for Wall
Street," the Rev. Mr. Thrun is al-
leged to have asserted and also to have
said: "President Wilson has no right
to declare war on Germany, if he
does not first declare it on England.
The American people should assert
their rights, and refuse to go to war,
or to allow their sons to enter this
war. None of my sons will fight."

Two of his sons, who were with him,
are understood to have backed up
their father's statements, and to
have declared they would not join
the army.

The affidavits filed, and there are
more than one, will be sent to the
federal authorities.—Times-News.

cers of that steamship recently ar-
rived from Cuba, who say that pota-

BURGLARY SUNDAY NIGHT

Schenk's and Fenn's Stores Are
Entered and Cash Register
Pillfered in Former.

Burglars Sunday night broke into
both the W. P. Schenk & Co. and the
Henry H. Fenn Co. stores, forcing a
rear window in each case to effect
entrance.

At Schenk's the cash register was
rifled, a total of about \$17 being
taken. As far as is known, the
stock was not molested.

The burglars were evidently after
money only as at Fenn's nothing at
all was taken, the cash drawer hav-
ing been emptied Saturday night.

Officers say they think the jobs
were both done by local talent.

HARTSUFF—MARSHALL

Popular Young People of Unadilla
Wedded April 11th.

The home of Mr. and Mrs. Charles
Hartsuff of Unadilla was the scene
of a pretty wedding Wednesday,
April 11, 1917, when their daughter,
Miss Una Pauline, was united in
marriage to Mr. Guy Marshall, also
of Unadilla.

The house was tastefully decorat-
ed for the occasion in pink, white
and myrtle. The bride and groom
stood beneath a canopy of pink and
white wedding bells, banked with
flowers, while Rev. Ellis read the
impressive ceremony, pronouncing
them man and wife.

The bride wore pink silk poplin
trimmed with silver lace and carried
a bouquet of white carnations and
pink roses, with orange blossoms
sent her from California, in her hair.
She was attended by Misses Lorna
Marshall and Eula Hopkins, who
wore gowns of pink crepe de chine
and carried pink carnations. The
groom was attended by Messrs. L. Z.
Hartsuff and Carl Griffith. Mrs.
Bruce Teachout, a bride of two
weeks, played the wedding march.

Following the ceremony and con-
gratulations, a bountiful two course
dinner was served to over 100 guests.

Mr. and Mrs. Marshall received
many useful and beautiful presents,
including silver ware, china, furni-
ture, rugs, a hundred piece dinner
set from the bride's parents and a
purse from the groom's parents.

Presents were also received from
California, Columbus, Ohio, and St.
Petersburg, Florida.

Out of town guests were Mr. and
Mrs. George Marsh of Fowlerville,
Mr. and Mrs. Frank J. Moore of
Chelsea, Mr. and Mrs. Sam Boyce
and Mr. and Mrs. Rose, of Lyndon,
and Mr. and Mrs. F. A. Howlett, who
came from Florida to attend the
wedding.

After a short honeymoon spent in
Lansing and Jackson they returned
to Gregory, where they are now at
home to their many friends on the
Thomas Howlett farm, where they
will reside in the future.

Some Good Advice.

"Don't think too much of your own
methods. Watch other people's ways
and learn from them." This is good
advice, especially when bilious or
constipated. You will find many
people who use Chamberlain's Tab-
lets for these ailments with the best
results, and will do well to follow
their example.—Adv.

Ontario Drill Features

It has anti-friction roller bearings throughout.

It has the most accurate, even-sowing, double-force feed dis-
tributor on the market, and will sow small grain, corn, peas, beets,
etc., with the same distributors. No special equipment to
bother with.

It is evenly balanced; no neck-weight and a very light draft,
owing to the proper balance and construction of driving
mechanism.

It has a direct gear drive, always in position. No loose
gears.

It has a double force feed grass seeder, same as grain drive
mechanism.

It has a strong wheel with spring hub ratchet, which takes
care of wear and lost motion in ratchet, and both wheels drive.

It is a strong, light, well built, well finished drill, and the
best to be had in drill construction.

Call and let us show you the Ontario. It will convince you
that it is the drill to buy.

"CASCARETS" ACT ON LIVER, BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

White Elephant No Jinx.

W. H. Boyd of Cleveland, O., received a letter from a friend in India saying he had sent him a white elephant as a gift, and to make preparations to receive it.

"My worry lest I have an elephant on my hands was relieved only when the gift came," says Boyd. It was an ivory carving made to wear as a watch charm.

THE 3 D'S IN DODD'S

Mr. Robert W. Ferguson, Hingham, Mass., writes: "I suffered from kidney disorder for years. Had incessant backache and trouble. Nearly died from it at one time while in Vancouver, but overcame it by a persistent use of Dodd's Kidney Pills. Finally I was completely cured. I occasionally use the remedy now in order to keep the kidneys regulated. I have the highest praise for Dodd's. Be sure to get 'DODD'S,' the name with the three D's for deranged, disordered, diseased kidneys, just as Mr. Ferguson did. No similar named article will do—Adv.

"But what's the good of the hay if the mare's gone?" asked the neighbor.

"Och, bedad," said Paddy, with glee. "Murphy promises to lead me the ould mare to ate it!"—London Answers.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hair cleanse." Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Dandarine from any store and just try it. Adv.

LENS IS TAKEN BY BRITISH TROOPS

HUB OF FRENCH COAL FIELDS WRESTED FROM FORCES OF VON HINDENBURG.

CANADIANS WIN LAURELS

Continued Losses of Teutons Will Prove Heavy Blow to Effectiveness of Imperial Troops.

London—According to a dispatch received from the correspondent of Lloyds news, British troops have wrested Lens from the Germans.

Canadian troops won new laurels by driving the Kaiser's veteran army out of the city and its defenses.

The capture of Lens, which is indicated by the Lloyds dispatch, gives back to the Allies the coal center of France, which was wrested from them in the historic rush of von Gluck's army toward Paris in the first months of the war.

The possession of the city and the surrounding coal and iron fields was believed to be a considerable part of the object of the lightning rush of the Germans into France.

The expulsion of the Teutons at this critical period, it is pointed out, will prove a heavy blow to the effectiveness of the imperial troops.

HOUSE PASSES BIG WAR LOAN

Seven Billion Dollars Appropriated to Wage War Against Kaiser.

Washington—Without a single dissenting vote (Meyer London, the lone socialist, dodging the issue by voting "present") the house of representatives voted \$7,000,000,000, the largest appropriation ever submitted to congress, to wage war against Germany.

The vote was 389 to 0. Of the total, it is specified that \$3,000,000,000 is to be lent to the nations now carrying the fight in Europe but the house took particular pains to emphasize the idea that they approved the loan as the best method of bringing about the early defeat of Germany, and not as a beneficent donation to anyone across the water.

The vote was immensely significant as showing that the representatives are absolutely united in the determination to spare no resource in the fight against Germany. It was the first poll on a vital measure, since war was declared, and it found all of the men and the one woman member, Jeannette Rankin, who voted against war, standing squarely with the government.

WILSON ASKS UNITED NATION

Appeals to All Citizens to Preserve Ideals of Democracy.

Washington—In a personal appeal addressed to his fellow countrymen, President Wilson calls upon every American citizen—man, woman and child—to join together to make the nation a unit for the preservation of its ideals and for triumph of democracy in the world war.

"The supreme test of the nation has come," says the address. "We must all speak, act and serve together." Putting the navy on a war footing and raising a great army are the simplest part of the great task ahead the president declares, and he urges all the people, with particular emphasis upon his words to the farmers, to concentrate their energies, practice economy, prove unselfishness and demonstrate efficiency.

BRAZIL TAKES GERMAN SHIPS

Seizure of Vessels Expected to Lead to Declaration of War.

Rio Janeiro—Marine forces have taken possession of German merchant vessels in Brazilian harbors to the accompaniment of manifestations of popular approval of the step.

The newspaper O Imparcial interprets the rupture of relations with Germany and the seizure of the interned ships as premonitory symptoms of a state of war.

In this connection, the public sees the eventuality of sending to Europe a contingent of 200,000 men, which would be formed exclusively of infantry. Brazil, it asserts, easily could organize such a contingent.

Benton Harbor—Members of the Malta commandery presented local members of the naval militia with 50 safety razors and assured financial assistance.

Flint—Forty American flags attached to a single rope were raised at a patriotic program at a manufacturing plant.

Detroit—Detroit may have a unit of state constabulary similar to the "Black Cavalry" of Pennsylvania. Plans are now being worked out by Roy C. Vandercook, an ex-military man. Three hundred men would be raised. The pay would be \$60.50 a month with a ration allowance of 70 cents a day. Horses, uniforms and arms would be furnished free. Only experienced men would be accepted.

STRONG INFLUENCE OF PETS

Manifestations of Love for Them Among Children First Signs of Growth of Sympathy.

Discussing the influence of pets on children in an article recently printed in the Michigan Farmer, N. A. Chapp says:

"Among the strongest inclinations and sentiments which we admire and highly esteem in men and women, is love, sympathy and a kindly feeling toward others. Those feelings are breathed into the lives of the children by the mothers, while the children are very young, and the first opportunity offered for the expression of those feelings is when they come in contact with their pets. The children love to fondle their pets and tenderly handle them just as they in turn have been handled by their loving parents. Their expressions of love for, and appreciation of, the pets, are sometimes amusing to older people, but it is the bud just forming of a beautiful flower in the character of the individual. Such manifestations of feelings are the first signs of the making of agreeable people and they should be encouraged, but never blighted by harsh and cutting remarks.

"Many men retain, as long as they live, pleasant memories of the days when they were given a puppy and allowed to play with it. Then when it grew up and became a companion and friend wherever they roamed, it was their faithful servant that never betrayed them. Later in life they have awakened to the fact that no matter if misfortune overtakes them there are two friends that will remain true to them and always manifest an unyielding love for, and faithfulness to them—they are the dog and the mother."

Bear Sent by Express

Expressmen are not familiar, as a rule with the delicate task of handling black bears, and to assure proper treatment for one that passed through Fort Worth, Texas, recently instructions were posted on the side of the cage. They read:

"A pan and sprinkling pot accompanies the shipment. See that the bear is watered as often as possible and given two loaves of bread daily. If the weather is warm, take a hose and sprinkle the bear."

"And this in big letters: 'Bears are wild and dangerous. Keep people away from the cage.'"

The bear was consigned from a government agent at Yellowstone park to Ray Lambert, commissioner of sanitation at San Antonio. It took eight expressmen to transfer the cage from one express car to another. All the while the bear was keeping up such a roar and fight that travelers risked missing their trains to watch the performance.

Wet and Weary.

"Twas somewhere in France, and the trenches looked like some river not on the map. Paddy was on guard in the communication trenches and was up to his chest in water. Along came a Tommy, who inquired of Paddy if he could direct him to a company of the First Blankshires.

Paddy was not in the best of humor, for he had had a long, watery guard and was not in form for being questioned.

"Holy smoke," he replied, viewing his surroundings, "chuck it! I'm not the bloomin' harbor master!"—Pittsburgh Chronicle-Telegraph.

Turning Out Helmets by Thousand.

By their "quantity production of helmets," the French are turning out 50,000 helmets daily. Practically every operation, from cutting to painting, is performed by machinery. Each helmet is made from four pieces stamped from sheet steel. After the pieces are riveted together, the helmets are sent to the painting room. Here machines are used to spray the paint on the helmets and in the crevices formed by the riveted pieces. Then the lining and chin straps are made and adjusted.—Popular Science Monthly.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

RELIABLE REMEDY RESTORES KIDNEYS

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is a physician's prescription. Swamp-Root is a strengthening medicine. Dr. Kilmer used it for years in his private practice. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it will help you. No other remedy can successfully take its place.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper—Adv.

"I say, miss, where's the bar?"

"What kind of a bar?" queried the waitress in return, and as idly as she could.

"Why, a liquor bar, of course," he drawled. "What sort of a bar did you suppose I meant?"

"Well," she said, and her eyebrows arched slightly, "I didn't know, but I thought you might mean a bar of soap."

GREEN'S AUGUST FLOWER

Used All Over the Civilized World for More Than 50 Years.

Stomach troubles seem to be almost universal the last few years; I mean indigestion in many forms, internal nervousness, caused by incompatible food fermentation, coming up of food, sour stomach, headache, apparent palpitation of the heart, habitual constipation, intestinal indigestion, caused by a torpid liver, and a general breakdown with low spirits and depressed feeling. Green's August Flower was introduced in this and foreign countries fifty years ago with wonderful success in relieving the above complaints. Sold by dealers everywhere at 25c trial bottles or 75c family size. Sole manufacturer, G. G. Green, Woodbury, N. J., U. S. A., Australia and Toronto, Canada.—Adv.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these blemishes. Simply get an ounce of ointment—double strength—from your druggist, and apply a little at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is so simple that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

BORDER MENACED BY MEXICAN ARMY

CARRANZA GOVERNMENT MASSES 100,000 SOLDIERS NEAR AMERICAN SOIL.

HAVE HEAVY ARTILLERY

Mexican Government Says Reason for Big Move Is Desire to Preserve Neutrality of Mexico.

El Paso, Tex.—One hundred thousand Mexican soldiers are being massed along the American border by the Carranza government. Every Mexican town on the border is to have a garrison stronger than any previously placed in it and artillery including several hundred new and large guns are being placed in each town.

This was learned by American army men through Mexican sources.

The Mexican government gives as a reason for the big military movement its desire to preserve neutrality of Mexico in the war between the United States and Germany. American army men see in the movement a menace to every American town on the border.

According to information obtained by Americans in Mexico, the Mexican government is carrying out in the troop concentration, a plan decided upon by the advice of German officers to put itself in readiness to strike the United States should opportunity offer, the expectations of the Mexicans and Germans being that the United States will need all of its trained forces in the German war and will be compelled to leave the American-Mexican border unprotected.

I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. Jos. O'Bryan, 1755 Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing down feeling, flatulency, indigestion, dizziness and nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

The Jeweler removed the dial of the clock, screwed his magnifying glass into his eye, and poked about in the clock's interior.

Sailors Need More Air.

The broad ocean is supposed to be about the likeliest place on earth to find fresh air, yet Dr. R. C. Holcomb, a naval surgeon who has been investigating conditions on shipboard, says that because more men per cubic foot of habitable air space are to be found in the navy than in almost any other occupation, there is insufficient air space in the sleeping quarters, exposure to extremes of temperature, and irregular sleeping hours, which condition, with the possibility of accidents during storms, may lead to an undue prevalence of injuries, diseases of the respiratory organs and other maladies.

Died of Premature Old Age!

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys the quicker will those noble organs be degenerated, and the sooner they decay.

It is thus the wisest policy, to prevent premature old age and promote long life, to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking Anuric, double strength, before meals. This can be obtained at almost any drug store. You will find Anuric more potent than lithia for it dissolves uric acid as water does sugar.

FOOD COMMITTEE TO URGE BIG CROPS

PROMINENT MEN OF STATE TO HELP SOLVE PROBLEMS OF FARMERS.

"PREPAREDNESS" BIG ISSUE

Conference in Governor's Office Attended By Leading Men From All Parts of State.

(From Our Special Correspondent.) Lansing.

Food preparedness continues to be a big issue with the governor and other state officers who are preparing Michigan for a period of war. At a conference in Governor Sleeper's office which was attended by fifty prominent farmers, food manufacturers and others from all parts of Michigan, a special food committee was decided upon to act as advisers to the governor along with the war preparedness board.

The following were appointed by Governor Sleeper:

Fred M. Warner, of Farmington, former governor of Michigan.

John S. Haggerty, Detroit manufacturer.

W. K. Prudden, Lansing manufacturer.

W. J. Orr, Saginaw, president of the Michigan Bean Growers' association.

N. P. Hull, Dimondale, former master of the Michigan State Grange.

Nathan F. Simpson, of Detroit, representing the State Grangers' association.

George W. McCormick, Menominee sugar manufacturer.

The food committee will do all in its power to urge increased production on Michigan farms this year and to solve as far as possible the problems of getting farm workers and seed.

Food Inspector Mickel sent in a communication telling that 120,000 calves of the age of four weeks had been slaughtered in Michigan last year, whose weight averaged 50 pounds. Were these calves allowed to attain the age of six months there would be an increase of 12,000,000 pounds of meat, he reported. The food committee will discourage the killing of calves only four weeks old.

Dry Legislation in Final Stages.

The prohibition bills have reached their final stage. After a flurry in the senate caused by the production of an entire new measure by Senator Wood which he wanted to substitute for the house bill, the prohibition program went through in a rush. The Wood substitute was rejected. The Wiley bill, providing the machinery for the obtaining of liquor for the five specified exemptions under the constitution and for search and seizure in case of violations of the law, was passed unanimously. So was the Damon bone dry bill, which the senate substituted for the McArthur bone dry bill. The Lewis bill, giving the enforcement of the prohibition laws to the food and drug department, was passed by a vote of 28 to 1.

Numerous Bills Killed.

The house has had a busy time recently killing off bills. Among those that have met defeat are the bill to establish county health boards; to name a special deputy highway commissioner who would have charge of all drains; to bar debts against unprobated estates; to appropriate \$50,000 for the agricultural fair commission; and to appropriate \$5,000 to erect a monument to Maj. Gen. Wm. R. Shafter, of Spanish war fame, in Galesburg, his native village. The two latter bills were defeated and several increases in other appropriation bills by the senate rejected, in a single session when the house members were in an economical mood after contemplating all the expenses the state may be put to because of war conditions.

Insurance Code Reported Out.

Insurance bills of wide interest continue to take up a good part of the legislature's attention. The house insurance committee has reported out the insurance code, which has passed the senate, and which is the biggest bill of the session in size, covering nearly 300 printed pages. It contains all of the laws of the state on insurance now in force. Only minor amendments were made by the house committee.

Election Bill Passes House.

The house has passed the Nelson election bill, the main feature of which is that it restores party enrollment.

Senate Congratulates Congressmen.

The senate adopted a resolution offered by Senator Planck congratulating the members of the Michigan delegation in congress on their votes for war when the issue was before congress.

Senate Passes TBC Bill.

The senate passed the Murtha bill to appropriate \$25,000 a year for the next two years to continue the state tuberculosis survey, on which \$50,000 a year was spent for the past two years.

Home Guard to Be Raised in State.

Michigan proposes to be in shape to handle her own affairs while the state troops are in the federal service, and to that end arrangements are about completed for the organization of a Home Guard to take the place of the Michigan National Guard while the latter is away in government service.

The Culver military bill, passed by both the house and the senate, is the means by which the organizations are to be raised. According to announcement from the governor, the recruiting of the men and their control is to be in the hands of Major Roy C. Vandercook, who commanded the battalion of Michigan artillery in the state service, but who was left out of a job when the troops went into the federal service.

To permit him to work in conjunction with the state officers, Vandercook's services have been borrowed by the state from the Pere Marquette railroad. In addition he is to be made the secretary of the war preparedness board as soon as it can legally organize and in addition will probably become press censor.

Back of all the preparedness for the protection of the state in case of riot, etc., is something which has been lurking in the shadow in the copper and iron countries for weeks. The Industrial Workers of the World at their last annual convention adopted a resolution announcing that in case this country went to war with Germany a general strike should be declared. Particular reference was made to the iron and copper counties of Michigan because both these sections are infested now with many members of that organization.

Requests for help were brought to Lansing from these two sections of the upper peninsula several weeks ago.

Adjutant-General Bersey, in drawing the Culver bill, fixed matters so that the state through the governor could raise almost any number of men wanted, in order to cope with riots, strikes, etc. According to the governor's announcement the force will number from 3,500 to 5,000 men, although he has never given any figures while in Lansing.

Economy Streak Short Lived.

The house, which had a fit of extra economy after the decision of the state to float a \$5,000,000 war loan, soon got over it. Two days after defeating bills for appropriating \$50,000 for the county fairs and for appropriating \$5,000 for a monument to General Shafter, the house took both off the table and passed them, also adopting a bill to appropriate \$4,500 for a monument to Michigan regiments on the Shiloh battlefield. However, the house voted down decisively the bill to raise salaries of justices of the supreme court from \$7,500 to \$12,000 a year.

Railroad Legislation.

The house adopted the bill to have the matter of railroad passenger rates investigated by a commission of three, to report to the legislature. The senate adopted the Tripp bill to have passenger fares of 3 cents a mile allowed on Pullman cars, the roads to pay the Pullman rates and furnish enough coaches for passengers riding at 2 cents a mile.

Delays Expected.

In the rush of bills which comes always in the closing days of a session, more delays than usual are looked for by reason of conferences being found necessary to smooth away the differences of the two houses on important legislation.

Asks Mobilization for Farm Work.

A boy farmer movement in Michigan to mobilize the youths too young for war to service in raising crops and to mobilize with them the old men, the infirm and those rejected from military duty was argued in a definite plan laid before Governor Sleeper by Judge Arthur G. Lacy, of Detroit, with the approval of many farm members of the legislature.

"At the outset of war we find perhaps only one-half of the tillable land of Michigan likely to be tilled," said Judge Lacy. "We are facing the probability of only a 40 per cent crop. Now I would have the state, if necessary, commander and pay for a reasonable rate, the seed necessary to sow every available acre of ground in the state."

"I would have the farmers arrange to pay back this seed in kind after harvest."

"It might be necessary also to have the state take charge of the crop at the end of the year. It is almost impossible to get enough laborers to till the fields for the sake of tilling them. But if the state took this up as a military necessity and the call for volunteers went forth as an appeal to men and boys to serve their country this way, I believe volunteers would rush forward from among the younger lads of the state and from among the men who cannot serve with the colors."

"I believe a good many boys of 14 or thereabouts would be improved even if they dropped their school work for one year and went to work in the fields."

The early departure of Governor Sleeper's personal staff to war duties was recognized in a bill introduced by Representative Peterman, of Houghton.

This bill would empower the governor to appoint five civilians as a personal staff, to serve without pay. None will have a higher rank than major.

STATE NEWS

Muskegon—Samples of Easter egg candy, which it is believed caused the death of Frances Rensma, 11 years old, have been sent the state chemist by Sheriff Stauffer.

Kalamazoo—Grief over the death of her husband, whom she married 57 years ago, proved fatal to Mrs. Hiram Hall, 78 years old. The family had lived here half a century.

Adrian—Lenawee county board of supervisors adopted resolutions favoring universal military training and asking Representative Mark R. Bacon to get into the war game and support the president.

Ann Arbor—Twenty Michigan chapters of the Daughters of the American Revolution have made nearly 50,000 hospital garments and dressings since the European war started. Of the 46 chapters in the state, only three have failed to do this work, but 23 chapters have not reported on the amount accomplished.

Jackson—William Neil, 70 years old, was burned to death when children playing with matches set fire to the home of Merle Wyant, with whom the old man lived. The old man was alone in the house with the children. He was asleep when Herbert Wyant, 5 years old, set fire to some paper, the blaze being communicated to a gasoline can.

Ann Arbor—The Ann Arbor Driving park will be presented to the United States government as a drill ground providing the plans of the Ann Arbor park board carry. Foreseeing a great response among the students at the university if called for war, the park commissioners believe this plan will give students an opportunity to continue while they are being trained.

Muskegon Heights—Although the population of this city is conservatively placed at 7,000, only one saloon is in operation here, that of the Ro-barge Brothers. The second saloon, formerly belonging to James P. Taylor, now dead, has been closed indefinitely. To handle the enormous business of the one saloon in this city it has been necessary to employ 16 bartenders.

Hudson—Edward Frensdorff, of Hudson, has been negotiating with the management of a life insurance company, for insurance protection for Hudson men who enlist. Mr. Frensdorff wants 25 policies of \$1,000 each payable to the dependents of the young men. He will pay the premiums during the actual service of the men and at the end of the war the policies will be the property of the men.

Kalamazoo—Sheriff Elton R. Eaton hastened to Vicksburg, eight miles from here, to the rescue of Dr. F. M. Lambek, a German, who refused to remove an inverted American flag from above the door of his residence. A vigilance committee was preparing to visit the physician's home and exert force in removing the inverted flag. Sheriff Eaton soon convinced the physician it would be best to place the flag in its proper position.

Richmond—Sugar beets and beans will be planted in this section in greatly increased acreage this season.

Traverse City—A week after Mike Nolan became a member of the Traverse City fire department his home was destroyed by fire.

Cadillac—The village of Mantion, near here, has been forced by the high cost of fuel to construct a \$20,000 dam to furnish power for light.

Grand Rapids—More than 600 students of the junior college and the Central high school will take up optional military training.

Jackson—Robert Harvey, serving two years for larceny, from Wexford county, disappeared from a prison farm. He had only 50 days to serve.

White Cloud—The faculty of the high school has announced that full credit will be given at the end of the school year to those students who enlist now.

Corunna—Mrs. Fred Warriner of this city has given up trying to get her son, Earl, 16, out of the Canadian army. The boy is now in the trenches somewhere in France.

Detroit—Residents of German nationality will be unable to take out final United States naturalization papers as the result of a ruling by the bureau of naturalization at Washington.

Gladstone—Announcement has been made by the Pioneer Iron company of a 10 per cent increase in wages for the men employed in the furnaces here and in Marquette, effective May 1.

Saginaw—John Williams, 42, an English coal miner, is one of the first victims of the German-American war. He was slashed with a knife by Martin Johnson, 60, in an argument over the war.

Mackinac Island—Mrs. Nellie O'Leary and her daughter, Frances, armed with hatchets, played "Carrie Nation" in the Sullivan saloon here. They smashed the plate-glass mirror and electric light bulbs. The damage is estimated at \$125.

Owosso—A plea for the intensive tilling of all vacant land in the county, including the strips along the roadside in the rural districts, to produce potatoes and corn in the war crisis, was made by Dr. B. G. Mattson, pastor of the Congregational church here before a large meeting of dairymen.

He's telling her that nothing he received from home brought more joy, longer-lasting pleasure, greater relief from thirst and fatigue, than

THE TRUTH ABOUT ECZEMA AND PILES

Thousands and thousands of people, says Peterson, are learning every week that one 25-cent box of Peterson's Ointment will abolish Eczema and banish piles, and the grateful letters I receive every day are worth more to me than money.

I had Eczema for many years on my head and could not get anything to do it any good. I saw your ad and got one box and I owe you many thanks for the good it has done me. There isn't a blotch on my head now and I couldn't help but thank Peterson for the cure I got. Mrs. Mary Hill, 420 Third Ave., Pittsburgh, Pa.

GOOD COMMON SENSE.
I think that good must come of good
And ill of evil, surely unto all
In every place or time, seeing sweet
Fruit
Growth from wholesome roots or
bitter things
From poison stocks—yea, seeing,
too, how spite
Breeds hate, and kindness friends,
or patience peace.
—Edwin Arnold.

Easter Eggs.
Eggs boiled in spinach water will become green. Onion skins will make beautiful yellow and brown eggs. Mauve comes from violet blossoms or purple ink, blue from washing blue and red from fruit basket tartaric. Eggs boiled with figured calico sewed on them will come out with gay colored decorations.

Pussy Willow.
Pussy Willow, are you ready
To herald forth the spring?
Do you feel too dreadful sleepy
To attempt so great a thing?
The balmy winds will soon be blowing;
Hurry up, you little things!
Open up your lazy eyelids,
Show us where the bluebird sings.

HE LET THE BULLET STAY.

How Garibaldi's Leg Was Saved and His Health Restored.

Half a century ago it was the belief of most surgeons that bullets lodged in any part of the body should be probed for and "extracted at all hazards." The modern surgeon, who is able to locate bullets with mathematical accuracy with the X-ray, often allows the bullet to remain where it has lodged unless there is some very special reason for digging it out. And results prove the wisdom of the modern surgeon's attitude.

It is an interesting bit of history that a famous Russian surgeon advocated and practiced the conservative method of letting impacted bullets alone more than fifty years ago and by this method undoubtedly saved the life of the Italian patriot Garibaldi. The great soldier, wounded in the right leg and captured at the battle of Aspromonte, was placed under the care of several European surgeons, who tried unsuccessfully to remove the bullet. At that time the Russian surgeon Pirogoff was stopping in Heidelberg, and the Russian students at that university raised the sum of 1,000 francs to induce the surgeon to examine Garibaldi. Pirogoff refused the fee, but he visited the patriot, examined his wound and, contrary to the opinions of all the other surgeons, advised letting the bullet alone. He suggested removal to a dry climate with plenty of fresh air and sunshine. The soldier took his advice, moved into a dry climate and recovered.—Exchange.

Food Value of Vegetables.
Potatoes and most of the other vegetables and fruits tend to make the body tissues and fluids alkaline, so correcting the tendency of meat, eggs, fish and similar foods to create acid conditions. Since the body performs its work best when it is neutral or slightly alkaline, this function of fruits and vegetables is important, especially to the hearty meat eater.

Grow Vegetables In Home Yards and Vacant Lots

Gardens will be a factor in overcoming the present food shortage. Recognizing the economic value of producing vegetables in home yards and vacant lots, the board of administration has approved the appointment of local leaders as temporary assistants in the boys and girls' club work of the Kansas State Agricultural college.

These leaders will work under the direction of the division of extension and in co-operation with county superintendents, schoolteachers and farm bureaus. They will not only promote garden clubs among boys and girls, but will interest women who would find real pleasure in growing vegetables for table use and some of the old people likewise who cannot stand the heavier work of the farm, but who prefer to be active.

The assistants will urge the canning of surplus products for home use.

Of course the three wise men of Gotham who went to sea in a bowl would be too wise to venture out unarmed under the conditions that exist today.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. KEMPF WILL CONTROVERSY.

Judge Leland Vacates Former Order; Sets Rehearing for April 24.

An order, vacating one admitting the purported will of the late Charles Henry Kempf, formerly of Chelsea, to probate in the Washtenaw county probate court last fall, was filed by Judge Leland yesterday.

At the same time, the judge directed the rehearing take place on April 24. This matter has been adjourned several times, but it is believed that the rehearing will take place this time.

PLAINT OF PESTERED MAN.

Tell me, ye winged winds that around my pathway roar, do ye not know some quiet spot where wives clean house no more; some lone, sequestered dale, some island, ocean-tinged, where life is not one ceaseless war with cobwebs and with dirt; where only nature's carpet spreads beneath their tired feet, and wretched men are ne'er compelled its emerald folds to beat? The spring breeze fanned my heated face and said: "Beat not! There's no such place."

TECUMSEH—Funeral services for the late George W. Jennings, pastor of the Tecumseh Methodist church, were held at the church Tuesday afternoon at 3 o'clock. The church was filled with friends from every denomination, for he was a friend to all. Many from former charges were also present to pay silent tribute to him whose memory they loved and cherished. No pastor ever occupied the pulpit of the Methodist church in Tecumseh, who was more universally loved and respected than the Rev. Jennings.—Herald.

Household Hints

A combination of vanilla and lemon is a pleasing flavoring for a hard sauce.

When next making fudge add just a few drops of molasses after it has boiled for five minutes. Another change in this delectable sweet meat is to season it with spices or to add a few chopped dates or figs.

Try a little scraped maple sugar on the dish of rice; it will be found delicious.

Cubes of cranberry jelly make a delightful garnish for salads or the plate of cold sliced meat.

If the ham that is to be roasted is rubbed well with brown sugar its color as well as its flavor will be improved.

Wet eggs before dropping them into boiling water and they are not so likely to crack as when put in dry.

Use a French salad dressing as usual, and add a small amount of grated Parmesan cheese before serving. This is excellent on vegetable salads.

Nature Cures, The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.—Adv.

Early Hatched Chickens The Most Profitable

Early hatched chickens grow more rapidly than those hatched late in the season and are much less likely to become sick, according to the United States department of agriculture. The late hatched chickens always are the first to catch cold and spread disease throughout the flock. Chickens hatched late in the year will not mature before cold weather and usually will not lay until well into the winter or even toward spring. This means that they will have to be fed and carried over for several months at a constant expense, with no return, and this at a time when feed is at its highest.

The early hatched pullets can be developed to a large extent on range, and a saving in grain feed is possible in this way.

The highest producing pullets are those which begin laying early. To get into the 200 egg class a pullet must lay sixty or more eggs before March 1. In order to do this pullets must be hatched before May 1, so that they will begin laying by the 1st of November.

Early hatching will produce more eggs in the fall and winter, while a larger proportion of hens will get broody early in the spring, thus completing the necessary circle for early fall egg production.

Early hatched chickens are by far the most profitable in every way.

FUTILITY OF CONTROVERSY.

Controversy never convinced any man. Men can be influenced by making them think for themselves, by seeming to doubt with them, by leading them as if by the hand without their perceiving it. A good book lent to them, which they read at leisure, produces upon them surer effects, because they do not then blush to be subjugated by the superior reason of an antagonist.—Voltaire.

Red Hands.

Red hands and prominent veins in the hands and arms are often the effect of poor circulation, the heart not carrying back the blood. The various exercises of deep breathing if practiced systematically and regularly will prove beneficial and in many cases effect a complete cure.
