Studebaker

Established 1852

Things You Forget

The Studebaker Series "18" car is an evolution and perfected piece of mechanism. That is why you can FORGET many little things about Studebaker that you have to REMEMBER and care for on other cars not so highly developed.

For instance: the cooling system of the Studebaker car will work in any climate, at any temperature, providing you keep water in the radiator.

The lubrication system of a Studebaker car will work unflinching in absolutely all conditions, if you will remember to put oil in the crank case occasionally.

The electric lights, and the electric starter will never fail you if a little distilled water is put in the battery from time to time.

You will not have to paint your body frequently to keep it looking nice, because Studebaker's finishing work is the sum of years of experience.

You won't have to renew the leather on your cushions, because experience has taught Studebaker how to select and buy the highest quality of leather.

You won't need to worry about making a grade with a Studebaker car, because the Studebaker motor has been perfected into the most powerful motor in the world in ratio to gasoline consumption.

You won't have to continually worry about lubrication, about oil and greasing parts of your car, because every part is equipped with ample capacity grease cups.

These are the things that make it a delight to own and run a Studebaker car, and cause you to say, "I never have any trouble with it."

NORTH LAKE PEOPLE BURNED BY GASOLINE

Ralph Deisenroth Victim Explosion;
Taken to Ann Arbor.

Irene and Ralph Deisenroth were badly burned Thursday afternoon when a dish-pan of gasoline, which the former was using to clean clothing, ignited.

Miss Deisenroth's burns are confined to her hands and forearms. Her brother Ralph grabbed the pan of flaming liquid and attempted to dash it out of doors, but the screen door was hooked and as a result he was obliged to hold the pan for an instant. He is burned on both hands and forearms, and also his left hip, and thigh, and was taken to Ann Arbor, Friday afternoon, for treatment at the university hospital.

The family recently moved to North Lake from Jackson and reside on the Dan Reilly farm.

THIRTEEN MORE MEN FOR ARMY SERVICE

Total of 247 Men Now Certified to
District Draft Board

The county draft board Friday certified 13 more men to the district board at Detroit as eligible for army service, making a total of 247 from this county.

The following persons filed claims of exemption which were disallowed: Bibbins, Laurence W., Ann Arbor. Johnston, Clarence, Saline. Lindemann, Elmer, Geo., Chelsea. Hesse, Walter G., Plymouth. Neff, Frank Martin, Milan. Marsh, Arthur Wm., Ann Arbor. Merz, William F., Manchester. Haab, Berthold, Carl, Ann Arbor. DeVerna, Chas. Leroy, Milan. Hutzel, Herman, Ann Arbor. Robtoy, Ennis, C., Ypsilanti. Calhoun, William L., Ann Arbor. Kobenakes, Frank J., Ann Arbor.

NEIGHBORHOOD BREVITIES

Interesting Items Clipped and Culled
From Our Exchanges.

SALINE—A new fire-proof safe, weighing about 1,200 pounds, has been placed in the council rooms, in which the village books and other valuable records will be stored.—Observer.

HOWELL—Livingston county's latest industry is a fox farm. Mr. and Mrs. A. F. Curtis of Detroit, former residents of Howell, operating the hotel at the Pere Marquette station, known as the Howell house, have purchased the 40-acre farm known as the Nelson Pettibone farm, about two miles east of this place, and will stock it with foxes which they will breed and raise for their value as fur bearing animals.

TECUMSEH—Last Friday, while working on a silo on the Waldron farm, Charles Richardson met with what may be a fatal accident. In some way he struck his elbow against a nail. The pain was so intense he fainted and fell about 40 feet into the silo, striking on his side on a 2 x 4. A severe hemorrhage of the bowels has since resulted doubtless caused by some internal injury. His condition is serious.—Herald.

ANN ARBOR—The marriage of Professor W. J. Hussey to Mrs. Mary N. Reed, widow of the late Dean J. O. Reed of the University of Michigan literary college, was solemnized here Saturday evening at six o'clock, Rev. L. A. Barrett, officiating. Professor Hussey is the head of the department of astronomy at the university, and director of the Detroit observatory. For several years past he has been exchange lecturer in astronomy at La Plata university, Argentina, and director of that observatory, dividing his time equally between the two universities.

MASON—While throwing hay from the mow in his barn a few days ago, Oliver F. Griffin had the misfortune to fall through to the basement floor, breaking three ribs and receiving other injuries. It was not thought at the time his injuries were serious, but after his death Friday it was found the broken ribs had penetrated his lungs. His father, Resolved Griffin, came to Michigan in 1834, the family stopping in Washtenaw county. In 1841 he came to Mason and "slashed" out a farm just south of this place. The son, Oliver, was the eldest of five children who grew up, and he had been engaged in the dairying business for many years.

VILLAGE TAXES.

Village taxes can now be paid at any time at my store on East Middle street.
88tf M. A. Shaver, Treasurer.

REPAIR BIG POWER BELT.

The village power plant was closed down yesterday morning about ten o'clock and the plant was not started again until nearly three o'clock. The shut-down was occasioned by the necessity of repairing the big main power belt, which has been in regular daily service for over twenty years and a large share of the time for twenty-four hours per day.

Several patches were placed on the old belt Sunday and yesterday and it is still good for some time. A new belt, at present prices, would cost \$500 or \$600.

PLEASANT FAMILY REUNION.

Mrs. F. G. Wolff entertained about twenty-five relatives at a pleasant family reunion at her home on Dewey avenue Sunday. Among those present were: Herman Schneckenberg and family of Port Huron, Mrs. Lucy Katz and family, of Waterloo, John Steinbach and family, Mr. and Mrs. Archie Coe and Mr. and Mrs. Theodore Wolff, of Lima.

SEVENTY COOPS FANCY CHICKS AND PIGEONS

James Geddes Will Make Big Exhibit of His Pets at Jackson County Fair.

James Geddes plans to exhibit at least 70 coops of his fancy pigeons and chickens at the Jackson county fair. The managers of the State fair were anxious to have him exhibit in Detroit, but Mr. Geddes was out on the road up until this week and could not take the time to prepare an exhibit.

His pens and lofts now include the following varieties:

Pigeons—White and Black Fantails, White and Colored Jacobins, English Pigny Pouters, Golden Pheasants, Turbuts, Black Swiss Mondanes, African Owl Pigeons, Carneux, Maltese, Albin and Bald-Headed Tumblers, Nuns, Dragons, Parlor Tumblers.
Chickens—Silver Bearded Polish, Golden Bearded Polish, White Crested Black Polish, Grand Champion Prize Winning White Leghorns, all kinds of bantams, including Japanese bantams.

NOTTEN FAMILY REUNION.

The sixth annual reunion of the Notten family was held August 25th, at the pleasant home of Mr. and Mrs. B. C. Whitaker. There were present 170 relatives.

It was about noon when all had arrived and a sumptuous dinner was thoroughly enjoyed, followed by a program, as follows:

Music—Notten band.

Welcome address—President P. Schweinfurth.

Remarks—Rev. G. W. Nothdurft.

Song—P. Schweinfurth, Theo. Reimenschneider, Louis Sager, Erle and Chester Notten, Clarence and William Lehman and Rev. Nothdurft.

Recitation—Mrs. Herman Hauer.

Song—Edna Waltz, Nadine Dancer, Vera Harvey, Thelma Loveland and Leona McCoy.

Paper—Mrs. D. B. McKenzie.

Recitation—Mrs. Nora Notten.

Song—Willard Harvey, Harley Loveland, Dorr Whitaker, Robert Fahrner.

Recitation—Harley Loveland.

Song—Mrs. Nora Notten.

Recitation—Edna Otis.

Song—Clarence, William, Augiet and Eva Lehman.

Recitation—Ora Miller.

Solo—Miss Kathryn Notten.

Recitation—Edna Waltz.

Recitation—Paul Notten.

Closing song, "America"—By all.

Relatives were present from Schultz, Woodland, Ionia, Jackson, Grass Lake, Pinckney, Munith, Chelsea, Stockbridge, Highland Park, Roots Station and Grand Rapids.

The next reunion will be held at the home of Mr. and Mrs. Phillip Reimenschneider.

The following officers were elected for the ensuing year:

President—Fred Notten.

Sec. and Treas.—Dorothy Notten.

Lunch committee—Emma Lehman, Mary Velte, Eva Dancer, Ella Wellhoff and Lura Notten.

Entertainment committee—P. Schweinfurth, Ehler Notten and Miss Kathryn Notten.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Williams, Stanley, N. Y.—Adv.

CHELSEA CAPITALIST SELLS MAPL-FLAKE

Armour Grain Company Purchases H. S. Holmes' Interest in Battle Creek Concern.

Negotiations extending over the past week came to a definite close Saturday and as a result the recently organized Armour Grain company has today taken over the big Mapl-Flake plant in Battle Creek, in which H. S. Holmes of this place has been a heavy stock-holder for a number of years.

The organization of the company will remain as heretofore, but the financing will be done by the Armour company and they plan extensive additions to the already mammoth plant.

The Armour Grain company is allied with the Armour Packing company and the products of both concerns will be marketed through the latter company's already established agencies.

PECULIAR ACCIDENT.

Mrs. A. Steger was called to Lansing the last of the week on account of an accident in that city in which her brother, Frank Nelson, well known in Chelsea, was seriously injured.

Mr. Nelson was passing the Reo plant in front of which there was an excavation about ten feet deep. Planks were laid across it for pedestrians to cross on and in some manner one of the planks tipped so that Mr. Nelson fell astride of it and only about eighteen inches outside the street car track. A car passing at the instant struck him also, resulting in very painful injuries.

He is recovering from the experience and no serious results are anticipated, although he had a very narrow escape from death.

Visiting cards, wedding invitations and announcements, either printed or engraved, at the Tribune office.

WANTED, FOR SALE, TO RENT

Advertising under this heading, 5 cents per line for first insertion, 2 cents per line for each additional consecutive insertion. Minimum charge for first insertion, 15 cents. Special rate, 3 lines or less, 3 consecutive times, 25 cents.

WANTED—Barn or storage for tents and equipment No. Am. Concert Co., until May 1, 1918. For particulars apply at show ground, Winters lot, West Middle St., Ed. F. Wiese. 1032

FILLING DIRT—About fifty yards good top soil may be had free if you haul it away. A. G. Hindelang, phone 66, Chelsea. 1033

LAUNDRY—Agent for White Swan laundry of Ann Arbor. Packages called for and delivered promptly. Leave orders at Fabers barbershop or with me. James Blackburn, Chelsea. 1033

Catch the Idea?

STATE HITS "OLEO" MANUFACTURERS

DAIRY AND FOOD DEPARTMENT
TO PROSECUTE MAKERS OF
BUTTER SUBSTITUTE.

PACKAGES ARE SHORT WEIGHT

Michigan Consumers Said to Be De-
frauded of \$50,000 a Year By
Oleo Makers.

Lansing.

Fred Woodworth, state dairy and food commissioner, has decided to prosecute manufacturers of oleomargarine, also exposed them by an exhibit of 14 brands of short-weight packages at the Michigan state fair, and plans a campaign of more publicity against them.

Practically all packages of butter substitutes were found to be from an ounce to two ounces under weight. The manufacturers claimed that this was shrinkage due to cold storage. The state then bought 30 pounds of "oleo" and put it in cold storage. The entire 30 pounds shrunk but two ounces, showing that claims of two ounces shrinkage a pound are untrue. Michigan consumers are defrauded of \$50,000 a year by oleomargarine manufacturers, according to Woodworth. He will not prosecute dealers, as they handle original packages.

Guards Anxious to Move.

Between 900 and 1,000 buildings are nearing completion at Camp MacArthur, Waco, Tex., where the Michigan units of the National Guard will train.

One of the most important places under construction is the camp hospital. It will cover approximately 90 acres and include 50 buildings.

More than 30,000 troops, together with two squadrons of aviators, will train at Waco.

A feature of the camp will be the aviation school. It will be one unit, or two squadrons, and cost about \$750,000. There will be a permanent staff of officers in charge and instructors and a constant stream of students. The wooden hangars are 60x120 feet. Twenty-four barracks will house 600 men. The aviation field covers 702 acres.

The men now encamped at Grayling are anxious to start the trip south.

Eager as these same men were while on the Mexican border to return home, they could have found more lucid arguments than now advanced for immediate return to the sunny southwest, especially since word has been received that Camp MacArthur is nearly ready for their reception.

The primary reason given for this attitude is the natural unrest and desire of all soldiers to be active and on the move.

Red Cross Makes "Comfort Kits."

When the boys from Michigan are called for service in the national army the American Red Cross will be preparing to see that each of them is equipped with a comfort kit.

The boys who leave behind them many relatives and particularly many women folks, no doubt will be well outfitted but there will be hundreds to go who will depend largely upon the volunteer work of some women whose generosity will extend beyond the comfort of her own kin and reach the men who are alone in the world.

The Red Cross has furnished or will furnish practically all of the national guard, ambulance companies and other military units of Michigan men with this kit, in addition to equipping the men drawn in the selective army.

Price of Red Rock Wheat Cut.

The association of farmers who have control of the Red Rock wheat and the rosen rye raised in Michigan this year, and which is wanted for seed next year, have agreed to a distinct drop in prices.

Red Rock wheat was dropped from \$4 a bushel to \$3.25 for the certified, and \$2.75 for the uncertified quality. Rosen rye will be sold at market price.

Army Shoes Are Uncomfortable.

General Crowder, provost marshal, has wired Governor Sleeper to advise all drafted Michigan men to take a pair of easy shoes with them to the Battle Creek cantonment. Army shoes, it is suggested, may prove troublesome until men are accustomed to them.

Phosphate Would Aid Wheat.

Inspection of wheat fields in all parts of the state has revealed that most Michigan soils are deficient in phosphorus, Dr. M. M. Cool, of the M. A. C., reports. Deficiency in phosphorus is noticeable by the fact that heads of wheat are not filled as they should be. This element can be supplied in the shape of acid phosphate and raw rock phosphate fertilizers.

To Safeguard Soldiers' Morals.

Mayor Sparks and Health Officer Parnell, of Jackson, have called a conference of mayors and health officers of all the cities of the state, to meet in Jackson, September 12, in the hope of strictly segregating the red light district in cities and towns which can be reached from the national army cantonment at Battle Creek.

Now for That Job Across the Pond

ENLISTED MEN CAN GET COMMISSIONS

SOLDIERS FROM RANKS WILL BE GIVEN OPPORTUNITY TO BECOME OFFICERS.

U.S. TO START SCHOOLS AT CAMPS

No More Civilians Can Become Officers When Present Series of Officers' Camps Are Completed.

Washington—Enlisted men of the national army, national guard and regular army will be given every opportunity to fit themselves for commissions.

This is in line with the fixed policy of the government to take no more officers or officer candidates from civil life after the second series of officers' training camps, now in progress, has been completed.

Thereafter all additional officers needed will be found in the ranks of the various branches of the war army. To carry out this plan, it has virtually been decided to establish an officers' school at each of the divisional encampments. Men from the ranks who show special qualifications will be sent to these schools.

With staffs of French and British officers of experience on the firing lines on duty at each camp as advisers, an unusual opportunity for lecture courses will be presented.

SOUTH TO RIVAL EAST IN EXPORT

Shipping Board Plans to Have Food Sent From Southern Ports.

Washington—Diversion to gulf and South Atlantic ports of virtually all movements of food-stuffs destined for export to Europe is planned as a government war measure to relieve traffic congestion in the east.

The plan will be worked out by the shipping board in co-operation with shippers, ship owners and the port authorities.

The shipping board hopes to have the plan working by winter before bad weather makes trans-continental freight traffic still harder to move. Officials who have given the subject thought declare the proposal will add 25 or 30 per cent to the efficiency of American railway systems.

The chief advantage claimed for the proposed arrangement is that export food, largely a western and middle western product, will get a shorter haul and that munitions and other manufactured products, turned out largely in the east, will not be delayed in shipment, while awaiting their turn with raw products.

Five ports in the south will be made the chief loading points. They are Galveston, Port Arthur, New Orleans, Savannah and Charleston.

GERMANS TO GET WILSON NOTE

U. S. to Make Certain People Understand Reason of Peace Rejection.

Washington—Unless there is evidence from that President Wilson's note rejecting the peace proposals of the Pope has been circulated in Germany, steps will be taken to make certain that the document reaches at least a large number of the German people to inform them why the United States cannot discuss a peace involving acceptance of the word of the present rulers at Berlin.

Secretary Lansing said it was assumed that within a reasonable time newspapers of the European neutrals would carry the note to Germany. If this should be prevented, he said, some other way would be found.

It was recalled that the president's war message was dropped behind the German lines by hundreds of Allied airmen.

Farms Seem Unhealthy.

Lansing—Francis Redfern, chairman of the district appeal board, said that judging from the large number of exemption claims for support of aged and infirm parents, farms must be unhealthy. He said that many claiming exemption admit their parents are not more than 45 and 50 years old.

Potato Crop in State Is Expected to Reach Forty Million Bushels.

Saginaw—C. W. Wade, M. A. C. potato disease expert, says that with fair weather during the next three weeks, Michigan's crop of potatoes will be at least 40,000,000 bushels.

Mr. Wade declares the price must not be allowed to drop below 75 cents, if the farmer is to be given fair treatment.

The farmer was urged to plant for a record yield with the promise of reasonable prices and if the people break faith with him, efforts will not be continued next year, says the expert.

MANY PRIVATES WED IN CAMP

Epidemic of Marriage Hits State Guardsmen.

Grayling, Mich.—That the epidemic of marriage which has fastened itself on the Michigan brigade will soon result in a condition not without a serious aspect is indicated in a request made by the war preparedness board to the commanding officers of regiments for a list of men who have dependents that are likely to need assistance.

It is estimated that 250 privates in the Michigan National Guard have married since July 1. And the end is not in sight in the opinion of Chaplains Atkinson and Dunigan, who are not taking well to the race into wedlock by many of the young men. Before they will perform ceremonies, they demand a letter from the captain of the company to which the groom is attached signifying his willingness that the event should occur.

When the war department ordered no men with dependents should be taken it was intended to avoid just such an exigency as is now arising. Many of the brides will perhaps call for help after their husbands leave for the front, and it is for the purpose of keeping informed on the number of such cases that the board is asking for the census.

ARGENTINA KEEPS OUT OF WAR

Germany Promises Indemnity for Ships Sunk and Avoids Break.

Washington—Any hope here that Argentina would support the allied nations in their war against Germany virtually has been abandoned as a result of the German government's success in satisfying the demands of the Buenos Aires foreign office in connection with the sinking of the little Argentine sailing craft Toro.

Germany's agreement to pay indemnities for ships sunk and her promise not to destroy other ships under the Argentine flag caused Secretary Lansing to point out that the Imperial government had made a greater promise to the United States and then had broken her word.

SOLDIER DROPS DEAD AT DRILL

South Haven Boy Stricken With Heart Disease on Parade Grounds.

Mobilization Camp, Grayling—While participating in company physical exercises Monday morning William Smith, 18 years old, of Grand Haven, a member of Company F, Thirty-second infantry, dropped dead on the parade ground. The cause of death was acute dilation of the heart. His brother Frank, a member of the same company, was drilling in the squad with him. Smith enlisted May 3, and was a son of Samuel Smith, a Civil war veteran.

Mail Bag Containing \$17,000 Stolen.

Hillsdale—Not until local banks were notified from Toledo that several drafts were cashed, did the theft of a mail sack containing \$17,000 in money and checks from a truck at the railway station here, come to light. One of the drafts for \$6,500, contained in the bag was cashed by a man at Toledo, who had been making savings deposits at the bank several days. He withdrew all but a few hundred dollars, disarming suspicion. The Toledo bank will have to stand the loss.

WHEAT PRICE SET AT \$2.20 A BUSHEL

GOVERNMENT COMMITTEE FIXES BASIC RATE U. S. WILL PAY FOR 1917 CROP.

U. S. MAY DO BUYING FOR MILLS

Through Its Wheat Corporation, Food Board Expects to Control Market Easily.

Washington—The price of No. 1 northern spring wheat was fixed at \$2.20 a bushel at Chicago for the 1917 crop by the wheat fair price committee, headed by H. A. Garfield.

Its findings were submitted to and approved by President Wilson. Labor representatives on the committee voted first for \$1.84 and the farmers for \$2.50. After long discussion, the compromise at \$2.20 was approved unanimously.

On the basis of \$2.20 at Chicago, the food administration worked out differentials for the various grades and classes and for the several terminals.

The price fixed is 20 cents higher than that named for the 1918 crop by congress in the food control bill. The \$2 price presented by congress was taken into consideration by the committee in considering a fair valuation for this year's crop.

The committee, in its report to the president, gave as the three chief considerations that entered into its deliberations, the following:

The fact that the United States is at war, the need of encouraging the producer, and the necessity of reducing the cost of living to the consumer.

All members agreed in their discussions that the price fixed will permit of a 14 ounce loaf of bread for 5 cents, allowing a fair profit both to the flour manufacturer and the baker.

Although the prices are fixed on government purchases only, the food administration, through its wheat corporation, recently organized, expects to control the market without difficulty. The corporation will make all government and allied purchases and has under consideration plans to buy for millers. If it serves as broker between the terminal and the flour mills, the corporation will become purchaser of virtually all of the country's wheat crop.

Millers say the government wheat price of \$2.20 a bushel means \$12.50 a barrel for flour in the middle west, and \$13 in the east.

ROBBER BALKS 300 POLICEMEN

Shoots Three in Singlehanded Fight for Liberty.

Chicago—One lone bandit, Edward Wheede, alias the "Ammunition Kid," wanted for participation in the Winslow payroll robbery and murders, stood off 300 police for an hour in a cottage, on Thomas street. Hundreds of shots were exchanged while a thousand citizens watched the battle.

The bandit emptied an automatic into the ranks of the bluecoats with such skill and rapidity that three of the attackers fell wounded and the police believed they had a band of robbers surrounded. Wheede fired from almost every window in the house.

At dusk the "Ammunition Kid" darted from the bullet-riddled house and made a wild dash for safety. A dozen police hurried themselves upon him as his revolver barked its last defiance.

Then cautiously the police closed in on the cottage and found it empty. In the bottom of a market basket the police found \$1,005, done up in parcels, untouched since they had been ripped from the hands of Barjon Allen, one of the two men killed when the Winslow Brothers company was robbed of \$8,100.

RUSS RE-ADOPT DEATH PENALTY

Korensky Restores Old Order to Force Discipline in Army.

London—At the conclusion of the Moscow conference Premier Korensky announced the partial re-establishment of the death penalty as a necessary measure of army discipline, according to the Central News Petrograd correspondent. The premier is quoted as saying:

"As minister of justice, I abolished the death penalty, but as minister of war, I decided it necessary partially to re-establish it. This re-establishment hurts to the very soul but for the salvation of the country we will kill with all our souls."

"The army must be organized and disciplined, each combatant occupying his proper place and each recognizing his duty as well as his right."

"The disciplinary tribunals will be conserved and will receive the authority indispensable for the maintenance of the army as an efficient organization."

Lets Hay Rot in Field.

Deckerville—August Kelch, farmer, left two stands of hay to rot because he feared if he harvested it he would be aiding the allies. He promised the sheriff he would put up the hay if released. He is a German by birth and sympathy, although he has lived here 35 years.

STATE NEWS

Bessemer—A special election for \$115,000 for water works extension, sewers and public improvements carried by a large majority.

Port Huron—The war department has offered to equip local schools with telegraph outfits if the subject will be taught at night. The board of education favors the project.

Port Huron—A new ferry dock and waiting room will be constructed on Black river by the Port Huron & Sarnia Ferry Co., as soon as plans submitted to the government are approved.

Saginaw—When the Michigan district miners meet in convention here September 11, they will ask for a general 20 per cent increase in wages, according to the district president, John Crutchfield.

Hillsdale—A gift of \$30,000 from Lewis Emery, Jr., of Bradford, Pa., has been received by Hillsdale college. The gift is in honor of Mrs. Emery, whom her husband met when she was a student here.

Iron Mountain—A telegram was received here by Peter Johnson that his son George had been killed in battle in France. He enlisted in the British artillery in Canada a month after the European war began.

Grand Rapids—Mrs. Jacob Ronda, of Chicago, was prevented from kidnapping her 12-year-old daughter by Deputy Sheriff Mattson, who served a writ of habeas corpus on the woman as she with the child were leaving for Chicago. The girl was taken before the United States commissioner, who ordered her into the custody of her grandfather. Mrs. Ronda has been divorced since 1912.

Hastings—With the biggest parade ever held in Barry county, residents of the county will honor the departure on September 19 of the men drafted for the national army. The parade will consist of the home guard companies of Hastings and Nashville, the clergy of the county, the Spanish-American and Civil war veterans, all fraternal and civic organizations and a long line of citizens.

Reed City—A bolt of lightning entered the home of Mrs. John Meister during the night without leaving a trace of its entrance through the roof. The bolt circled a picture on the wall, melted the picture wires and moulding, and then passed out of the home through a window. Only the melted picture frame and a small hole in the ceiling of the room remained to tell of the bolt's prank.

Grand Rapids—Incomplete affidavits, failure to attest affidavits and claims for exemption, and a general mixup in the draft is said to have been uncovered by the Second Michigan district appeal board in sifting cases from Ottawa, Montcalm and Leelanau counties. In all districts where work has been considered it appears that draft officials had hurried to get the matter out of the way regardless of fairness to the drafted men.

Manistee—The Northern Transportation Co. of Baltimore, has announced that its subsidiary organization, the Manistee Shipbuilding Co. will begin active operations in this city October 1. Over \$60,000 worth of new machinery and equipment has been ordered in addition to materials already on the grounds. The company will employ upwards of 100 men at the start, increasing the force as the yards are completed. The plant here will engage in the construction of government vessels and ocean going tugs for war use. Boats will be built up to the maximum size permitted passage through the Welland canal.

Traverse City—Milk producers increased the wholesale price to \$3 a hundred pounds.

Chief—Mrs. Harvey Davis, of East Lake, drove her pony from Springfield, Mo., to this city, a distance of 1,000 miles.

Potoskey—Gerald Martin Conway, 11, had his head crushed when he stepped in front of an automobile on a downtown street.

Port Huron—Orders from England cancelling munition contracts caused the dismissal of 400 employees of the Mueller Co., Sarnia.

Belding—Although the automobiles belonging to Joseph Fiske, Bert Ramsdell and Bert Partridge were badly damaged in a smashup here, 12 persons escaped injury.

Traverse City—Mrs. Joseph Oberlin, of this city, lost two fingers of her right hand at Cadillac in a peculiar accident. When leaving the home of C. F. Williams, a lumberman, she slipped on the steps. She caught the doorway for support and the door closed upon her hand, making amputation of the fingers necessary.

Muskegon—Public speaking has been prohibited on the public square. Pro-German utterances were made there.

Mason—The Mason booster club has not allowed war conditions to make any difference in their plans for a street fair this fall. There will be displays of livestock, grain and vegetables. Business men have pledged \$1,000 for cash prizes.

Anchorville—Fire destroyed the Catholic church, parochial school, rectory and sisters' home here. The damage is estimated at \$100,000. The cause is unknown. The rectory and school, which had not yet been completed, were of brick construction. The other buildings were frame.

STATE HITS "OLEO" MANUFACTURERS

DAIRY AND FOOD DEPARTMENT TO PROSECUTE MAKERS OF BUTTER SUBSTITUTE.

PACKAGES ARE SHORT WEIGHT

Michigan Consumers Said to Be Defrauded of \$50,000 a Year By Oleo Makers.

Lansing.

Fred Woodworth, state dairy and food commissioner, has decided to prosecute manufacturers of oleomargarine, also exposed them by an exhibit of 14 brands of short-weight packages at the Michigan state fair, and plans a campaign of more publicity against them.

Practically all packages of butter substitutes were found to be from an ounce to two ounces under weight. The manufacturers claimed that this was shrinkage due to cold storage. The state then bought 30 pounds of "oleo" and put it in cold storage. The entire 30 pounds shrunk but two ounces, showing that claims of two ounces shrinkage a pound are untrue.

Michigan consumers are defrauded of \$50,000 a year by oleomargarine manufacturers, according to Woodworth. He will not prosecute dealers, as they handle original packages.

Guards Anxious to Move.

Between 900 and 1,000 buildings are nearing completion at Camp MacArthur, Waco, Tex., where the Michigan units of the National Guard will train.

One of the most important places under construction is the camp hospital. It will cover approximately 90 acres and include 50 buildings.

More than 30,000 troops, together with two squadrons of aviators, will train at Waco.

A feature of the camp will be the aviation school. It will be one unit, or two squadrons, and cost about \$750,000. There will be a permanent staff of officers in charge and instructors and a constant stream of students. The wooden hangars are 60x120 feet. Twenty-four barracks will house 600 men. The aviation field covers 702 acres.

The men now encamped at Grayling are anxious to start the trip south.

Eager as these same men were while on the Mexican border to return home, they could have found more lucid arguments than now advanced for immediate return to the sunny southwest, especially since word has been received that Camp MacArthur is nearly ready for their reception.

The primary reason given for this attitude is the natural unrest and desire of all soldiers to be active and on the move.

Red Cross Makes "Comfort Kits."

When the boys from Michigan are called for service in the national army the American Red Cross will be preparing to see that each of them is equipped with a comfort kit.

The boys who leave behind them many relatives and particularly many women folks, no doubt will be well outfitted but there will be hundreds to go who will depend largely upon the volunteer work of some women whose generosity will extend beyond the comfort of her own kin and reach the men who are alone in the world.

The Red Cross has furnished or will furnish practically all of the national guard, ambulance companies and other military units of Michigan men with this kit, in addition to equipping the men drawn in the selective army.

Price of Red Rock Wheat Cut.

The association of farmers who have control of the Red Rock wheat and the rosen rye raised in Michigan this year, and which is wanted for seed next year, have agreed to a distinct drop in prices.

Red Rock wheat was dropped from \$4 a bushel to \$3.25 for the certified, and \$2.75 for the uncertified quality. Rosen rye will be sold at market price.

Army Shoes Are Uncomfortable.

General Crowder, provost marshal, has wired Governor Sleeper to advise all drafted Michigan men to take a pair of easy shoes with them to the Battle Creek cantonment. Army shoes, it is suggested, may prove troublesome until men are accustomed to them.

Phosphate Would Aid Wheat.

Inspection of wheat fields in all parts of the state has revealed that most Michigan soils are deficient in phosphorus, Dr. M. M. Cool, of the M. A. C., reports. Deficiency in phosphorus is noticeable by the fact that heads of wheat are not filled as they should be. This element can be supplied in the shape of acid phosphate and raw rock phosphate fertilizers.

To Safeguard Soldiers' Morals.

Mayor Sparks and Health Officer Parnell, of Jackson, have called a conference of mayors and health officers of all the cities of the state, to meet in Jackson, September 12, in the hope of strictly segregating the red light district in cities and towns which can be reached from the national army cantonment at Battle Creek.

PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. E. J. D. Kellogg, Ogdensburg, Wis. Physicians undoubtedly did their best, but with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

SMALL BOY HAD NOTICED

That He Knew Man in Khaki as Marine Did Credit to His Powers of Observation.

A group of youngsters was playing on Riverside drive, says the New York Times. A military man, dressed in khaki and accompanied by a young lady, approached the group. The boys stopped their playing and, with nudges and gesticulation, were evidently trying to identify the man in khaki.

As the young lady and her escort drew nearer, one youngster with an air of superior knowledge informed his companions: "He's a United States marine."

Overhearing the remark, the young lady questioned the small boy: "How do you know he is a marine?"

"Why, know," exclaimed the youngster, "he wears an ornament on his hat showing an eagle, globe and anchor, but doesn't wear any hat-cord."

The colored hat cords, yellow, blue and red, help many civilians to recognize at once a cavalryman, an infantryman or artilleryman. However, the United States marine dressed in khaki is still an enigma to many persons who lack the powers of observation displayed by the small boy on Riverside drive.

A New Excuse.

"James, you are a dollar short in your pay this week."

FOREMAN MYERS NOW TESTIFIES

Michigan Alkali Plant Man Lived
on Bread and Water for
Weeks.

SUFFERED 4 YEARS

Nothing Did Him Any Good Until He
Took Tanlac—Has Gained Seven
Pounds and All His
Troubles Gone.

"I had to live on nothing but bread and water for weeks at a time, but since taking Tanlac, I can eat anything I want and enjoy it as well as I ever did," said Fred W. Myers, of 17 Sullivan street, Ford City, the other day. Mr. Myers is the well-known foreman at the Ford City plant of the Michigan Alkali company.

"I suffered from stomach trouble and indigestion for four years," he explained. "Everything I ate formed gas on my stomach that seemed to press on my heart so I could hardly breathe. I belched up bits of sour, undigested food and had an awful, gnawing sensation in the pit of my stomach that at times burned like a coal of fire. Mucous was constantly dropping down my throat. My eyes were watery so at times I could hardly see. I slept poorly and felt tired and worn out all the time."

"I have tried many different medicines but nothing did the least good until I got Tanlac. Tanlac seems to be made especially for my case for I commenced picking up right from the start and improved every day. My appetite now is fine and everything I eat agrees with me. I have no more gas on the stomach, sleep like a log and wake up feeling fine as a fiddle. Have actually gained seven pounds and am relieved of my troubles."

There is a Tanlac dealer in your town.—Adv.

Matter-of-Fact Lovemaking.

For downright prose Doctor Johnson's offer of hand and heart to his second wife would be very hard to beat.

"My dear woman," said Johnson, "I am a hardworking man and withal something of a philosopher. I am, as you know, very poor. I have always been respectable myself, but I grieve to tell you that one of my uncles was hanged."

"I have less money than you, doctor," demurely answered the lady, "but I shall try to be philosophical, too. None of my relatives has even been hanged, but I have several who ought to be."

"Providence and philosophy have evidently mated us, my good woman," said the doctor as he pressed a chaste salute upon the lady's brow.—Rehoboth Sunday Herald.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati man tells how to dry
up a corn or callus so it lifts
off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoe that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted off, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house.—adv.

The Retort.

"Two wrongs don't make a right. Still—"

A senator was discussing the food control bill.

"While the bill has its drawbacks," he went on, "there would be worse drawbacks without it, and so we can face our opponents like the lady."

"My love," the husband said to this lady, "you spend all your money getting your palm read."

"And you, dear," she retorted, "spend all your getting your nose red."

Novelty Fabrics in Girls' Coats

Pile fabrics in dependable quality are winning a place for themselves that will make them a staple feature of all coat displays, and this is noticeable in new showings of coats for girls. It is one indication of an increasing demand for good quality in materials of all kind. Pile and fur fabrics are rich looking and warm and not excelled for durability by any other kinds of cloth.

Narrow fur bands or bands of fur fabrics figure prominently in the trimmings of coats for children. Styles are more simple than ever, with coats almost plain and cut long enough to cover the dress entirely. Small cape collars on many of them provide additional warmth and can be fastened up close about the throat.

Where lighter weight coats are needed

ed wool brocades with "boucle" or loop surface, and wool or silk matelasse, are available and make beautiful coats for little girls. The coat in the picture, of a regulation coat material, is a popular type in the fall display. It is plain, with belt across the back, fastened to the coat with one large button at each side. The collar is bordered with a narrow band of fur fabrics and the coat buttoned at the front.

Bollivia cloth and wool velours are fully established in coat styles for fall, and there are numbers of novelty wool materials that add variety to the showings. It is the business of coat fabrics to look soft and warm—to suggest comfort. Cloths and styles and trimmings all work together to give this impression in the new winter coats.

Dress Rehearsals of the Modes

In the heart of summer, when August inclines us to forget that there is such a season as winter, the curtain rises on millinery styles for fall. Milliners and merchants journey to the great fashion centers to view the dress rehearsals of the modes and to become acquainted with the headwear they are destined to sell when leaves and snow are falling. Their patrons will not welcome these winter things as rapturously as they do those that acknowledge that winter millinery is entitled to be called superb.

There are no radical changes in styles so far as size and shapes are concerned. We are not to be introduced to things so novel that we will have to be educated up to them. The same reserve is apparent in millinery that characterizes dresses and suits. Colors are quiet and rich, materials are excellent and styles refined.

Velvet is destined to dominate the winter season unless the unexpected

happens and three fine exponents of the new modes, shown above, are all made of it. An aristocrat in millinery wears a bulky crown, sponsored by a world-famed French house. It is of black velvet with brim-facing of white crepe with long stitches of heavy white silk, threaded about the crown. A collar of narrow white ribbon, with wired bow at the front, shows trimming reduced to simplest form.

A design, equally smart and simple, appears in a small tire-brimmed hat, of platinum gray velvet, with brim bound with a soft band of feathers. This model has proven wonderfully becoming to older women. The remaining hat is a familiar and graceful shape with drooping brim presenting an unexpected cut out portion at the front.

Julia B. B. B.

Economical Remnants for Negligee.

If you are in need of dainty negligee garments, be on the lookout for remnants of suitable sorts for making them. Very often at this time of year it is possible to find short lengths of lovely crepes or velvets or light-weight silks that can be made into decidedly attractive negligees.

Of course, the price of these remnants is less than that of the same material bought by the yard, and if you look about you can always find the color and fabric that are suited to your needs.

When looking for a remnant it is much better not to start on your shopping trip with a definite idea as to color, but rather have a firm memory of such colors as you have found becoming and an open mind as to the colors you will choose.

Oriental Silks.

There are evening gowns of rare Oriental silks lavishly trimmed with embroidery that in the long ago adorned the state robes of a mandarin or a prince of Japan.

Afternoon frocks of chiffon cloth in rich dark colors are ornamented with borders of embroidery or the material itself is embroidered in colored silks intermingled with gold or silver threads in a design copied from ancient Chinese porcelains or silks.

Skirts Are Practical.

The leading dressmakers are trying to advocate a longer skirt, but they have not made any great success, and it is not expected that this style will develop, as it is not practical, and the average separate skirt comes under the head of a practical garment.

USE ALL APPLES YOU CAN TO SAVE FOOD FOR ALLIES

Americans Should Eat Fruit and
Vegetables So Meat and
Wheat May Be Sent
Overseas.

Our allies in war against the Kaiser are very much in need of meat and wheat. If they are to pull through the fall and winter successfully, we must send them all of these staples we can. It will be necessary for Americans at home to eat more perishable food articles—like fruit and vegetables that cannot well be sent abroad.

For this reason Uncle Sam's food administration is taking the keenest interest in this year's apple crop. The government wants us to eat more apples than ever before so that the wheat and meat supplies may go to help win the war. A campaign of education along this line is soon to start.

This year's apple crop calls for intelligent handling. The latest government reports indicate a crop of about 190,000,000 bushels. That is a little below normal. Good prices are assured for all honestly packed, first quality apples, and also for honestly packed, selected second grades, which government experts say can be put into storage. When the crop is big it does not pay to store second grades, but this year, despite the fact that we cannot ship our usual 2,000,000 barrels of apples abroad, because shipping space is precious, we should be able to get fair prices for all good apples at home.

Careless packing of poor quality fruit has always been one of the chief causes of market instability and unsatisfactory prices to the growers. This year the whole apple industry is co-operating to remove this market handicap. There has never been an apple year such as this one is going to be. Growers have never been able to get together and engage and finance a national educational campaign among consumers to increase apple consumption. This year the situation makes it necessary for the United States government, through the food administration, to conduct a consumer's campaign of publicity on behalf of the apple. This campaign will begin while the crop is being sent to market, and will probably continue until the last apple is eaten up late next spring. So the grower has three great incentives for grading, packing and storing this crop with especial care.

1. It is a good crop and calls for care.
2. The government will encourage apple eating and apple storage and will discourage speculation that raises the price abnormally.
3. We must eat up at home more than two million barrels of apples, which would ordinarily be exported.

To get the best of the crop to the market in prime condition it must be picked carefully at the time of maturity and promptly cooled in temporary storage, and then skillfully graded and packed. Second-grade fruit should not go into barrels or boxes. If it cannot be marketed in bulk in near-by consuming centers, then it should be worked up into by-products along with the culls.

There has been a gratifying improvement in apple marketing the past two or three years. Western apples are boxed to strictly honest standards, by the great co-operative growers' organizations in Washington, Oregon, California, Idaho and Colorado. The eastern barrel apple has also been wonderfully improved in New York and other states. Because apples are honestly packed and give the best possible value for the money, there is an increase in the consumer demand. Retail merchants who were formerly almost afraid to buy apples in barrels, because they were not sure of getting marketable values for their money, are now buying freely and in confidence. This good work makes it possible for the government to go further and encourage the use of apples as a war-time food measure.

Because the bulk of the crop will be picked by volunteer workers this year, and put into common storage until the grower can find time to grade and pack, there will be an opportunity to give closer personal attention to the grading and packing than might be the case if the crop were handled as in peace times. For the grower who desires instructions in apple packing, the department of agriculture at Washington has information in bulletin form. These bulletins can be secured free by writing to the department. Growers will do well to obtain a few copies for their pickers and packers.

The Familiar Face.

"I suppose prohibition made a great difference in Crimmon Gulch."

"Not as much as you'd think," replied Broncho Bob. "The man who used to be boss bartender has gotten a job as teller in the bank and is takin' in all the money, just the same."

Delays in Congress.

"How will you explain to your constituents," we chidingly asked, "your action in delaying the business of this great nation by indulging in long-winded oratory while matters of tremendous importance wait?" "Of tremendous importance?" naively answered Senator Slush. "Why, what can possibly be of more importance than my speech?"—Kansas City Star.

Avoid the Hypocrite.

"A bad man is worse when he pretends to be a saint."—Bacon.

NEWLY RICH FLAUNT WEALTH

Japanese Press Criticizes Lavish
Expenditure That Marked Recent
Fete Held on River Sumida.

Several of the Tokyo Journals criticize the manner in which newly-rich Japanese are spending their money, says East and West. Especial mention is made of the annual celebration of the Kawabakki festival along the Sumida river, which separates the two parts of the capital. Jollity centers about the Ryogoku bridge over the Sumida, but both banks of the river are brightly illuminated and the stream is filled with boats, all decorated with bunting and lights.

The celebration this year, July 21, exceeded in brilliancy previous occasions. All rooms in the restaurants for miles along the river were engaged ten days ahead, which never has been the case before. The Japan Advertiser, describing the event, denounces the extravagance indulged in by the "narrakin" (get-rich-quick) at a time when the people of the country are complaining of the increased cost of living. "It merely attests the prosperity of a certain class," says the editor, "and is not a wholesome exhibition to the masses of the people. As it were an auction sale, one man of the 'narrakin' class secured a large number of rooms in several restaurants at a high price. Thereafter, another specimen of the newly rich offered better terms and the restaurant keepers closed with him. This led to controversy that was not pleasant for other patrons. Some of these persons had as many as seven or eight boats on the river, made very prominent by fireworks. Along the river banks, for miles on both sides of the historic bridge, an immense throng of men, women and children assembled to see the fireworks and the gayly-lighted barges, many having music aboard. Most of the people thought they were enjoying themselves; but when they got home, very late at night and dreadfully tired, they wondered why they had gone to the Kawabakki."

English Land Values Jump.

The effect of the corn production bill on the value of land throughout England is most marked and there are more inquiries for farms and small estates than can possibly be satisfied. The speculator and financier are said to be already operating, and instances are quoted of agricultural land changing ownership twice a week, each time at a profit.

A prominent auctioneer at Devizes, Wiltshire, said land was selling better now than for 25 years, and during the present month his firm disposed of over \$6,000,000 worth at from \$75 to \$400 an acre.

Many of the inquiries for estates of between five and six thousand acres are for the purpose of settling soldiers and sailors on after the war.

Queer Habits to Benefit Health.

Some years ago a book was published to prove that if you were nothing but wool, even down to your foot-laces, almost all the ills to which flesh is heir would disappear, and that people who were inclined to embonpoint would grow quite slim and become active enough to jump a five-barred gate. The fact had a good deal of success, and nobody denies it a certain amount of reason and truth, but the millennium will not be inaugurated by the wearing of blankets, and the dogdays still call loudly for something thin in the way of raiment.—London Tit-Bits.

Getting Through the Shell.

"A man may have a rough exterior, but a kindly heart."

"Yes," commented Senator Sorghum; "but that kind of man is usually like an oyster. He has to be handled rough to get any good out of him."

Its Class.

"This garden must belong to somebody connected with the zoo."

"Why?"

"I notice it has in it dogwood, catnip, horse chestnut, dandelions, elephant's ears and tiger lilies."

OLD SORES, ULCERS AND ECZEMA VANISH

Good, Old, Reliable Peterson's Ointment a Favorite Remedy.

"Had 51 ulcers on my legs. Doctors wanted to cut off leg. Peterson's Ointment cured me."—Wm. J. Nichols, 40 Wilder St., Rochester, N. Y.

Get a large box for 25 cents at any drug-gist, says Peterson, and money back if it isn't the best you ever used. Always keep Peterson's Ointment in the house. Fine for burns, scalds, bruises, sunburn, and the surest remedy for itching eczema and piles the world has ever known.

"Peterson's Ointment is the best for bleeding and itching piles I have ever found."—Major Charles E. Whitney, Vineyard Haven, Mass.

"Peterson's Ointment has given great satisfaction for Salt Rheum."—Mrs. J. L. Welas, Cuylerville, N. Y.

All druggists sell it. Recommend it. Adv.

Considering.

"Do you believe a wife is justified in taking money from her husband's pocket?"

"Certainly, if he is careless enough to leave any there."

Even if you were not born rich you can be an ice-man.

Feed the Fighters! Win the War!!

Harvest the Crops—Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Harvesters in America WILL Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoma, Kansas, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been harvested, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

HELP YOUR CANADIAN NEIGHBOURS WHEN YOUR OWN CROP IS HARVESTED!!!

Canada Wants 40 000 Harvest Hands to Take Care of Its 13,000,000 ACRE WHEAT FIELD.

One cent a mile railway fare from the International boundary line to destination and the same rate returning to the International Boundary.

High Wages, Good Board, Comfortable Lodgings.

An Identification Card issued at the boundary by a Canadian Immigration Officer will guarantee no trouble in returning to the United States.

AS SOON AS YOUR OWN HARVEST IS SAVED, move northward and assist your Canadian neighbour in harvesting his; in this way do your bit in helping "Win the War". For particulars as to routes, identification cards and where employment may be had, apply to Superintendent of Immigration, Ottawa, Canada, or to

M. V. MacINNES, 176 Jefferson Ave., Detroit, Mich.
Canadian Government Agent.

SMASHED ALL SPEED LIMITS

As Cal Sized Up the Situation, That

"Cyah" Certainly Must Have
Been Traveling Some.

H. C. Frick said in Birmingham, where he had come to attend a liberty loan meeting:

"The crack troops of the Kaiser—some call them cracked troops now—are hiding in caverns forty feet under ground. The man who now thinks German militarism a wonderful thing is as badly doped as Cal Clay or Nola Chucky."

"Cal was escorting some ladies from Nola Chucky to Paint Rock, and as they passed a planter's the planter was playing with a powerful searchlight he had just put on his water tower, and he happened to turn it down the road, where it streamed into the eyes of Cal and his two girls."

"Here comes one o' dem powerful racin' cyahs, to judge by dat 'ere head-light," said Cal. "We'll jest bustle to de side o' de road fo' safety till she's parst, ladies."

"So they hustled up against the hedge, and the planter, after playing the light along the road for about a minute, suddenly turned it off."

"Cal gave a grunt of astonishment. "Jee-rusalem!" he said. "Tlow fast dat cyah mustar been a-go'in! Here she's done parst us by, an' we didn't even see her!"

His Chief Desire.

General Pershing told in Paris a story about a young American soldier.

"He talked a lot on the voyage over," said the general, "of the delight he would take in sightseeing when on leave."

"Don't miss Notre Dame cathedral in Paris," said a French volunteer.

"You bet, I won't!" said he.

"Don't miss Westminster abbey in London," said a Scot.

"No, siree! But, say, fellows," the young soldier declared, "the thing I'm craziest of all to see is the Church of England."

Humor of Kultur.

"Here's a fruit tree, still standing. Why haven't you cut it down?" thundered the Teuton commander in France.

The young officer saluted stiffly and explained:

"We saved this tree to hang a pair of old peasants on. As it's their tree, we thought the joke too good to miss."

Her Mind on Money.

Patience—"Do you know the Latin Quarter in Paris?" Patrice—"No. Does it look anything like the frame piece?"

ON 'WHEATLESS DAYS' Eat POST TOASTIES (Made of Corn)

Getting Old Too Fast?

Late in life the body shows signs of wear and often the kidneys weaken first. The back is lame, bent and aching, and the kidney action distressing. This makes people feel older than they are. Don't wait for dropsy, gravel, hardening of the arteries or Bright's disease. Use a mild kidney stimulant. Try Doan's Kidney Pills. Thousands of elderly folks recommend them.

A Michigan Case

Mrs. Alice Miller, 463 Indiana Ave., South Haven, Mich., says: "I had a great deal of trouble with my kidneys and sharp catches in my back and sides. I also had bladder trouble and my kidneys acted irregularly. The kidney secretions were unnatural. Doan's Kidney Pills relieved me of all these ailments."

Feed the Fighters! Win the War!!

Harvest the Crops—Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Harvesters in America WILL Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoma, Kansas, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been harvested, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

HELP YOUR CANADIAN NEIGHBOURS WHEN YOUR OWN CROP IS HARVESTED!!!

Canada Wants 40 000 Harvest

Mack & Co
ANN ARBOR.

1857 Dry Goods, Furniture and Women's Fashions 1917

The Mack Beauty Shop

has been established to meet the needs of women of discriminating taste for a reliable service, which includes hair dressing, manicuring, massaging and special facial treatments.

LOCAL BREVITIES

Our Phone No. 190-W

Mrs. James Geddes visited in Toledo the past week.

Austin Palmer was home from Detroit over the week-end.

Mr. and Mrs. Ray Aldrich attended the state fair in Detroit, yesterday.

Mrs. Charles Hyzer visited friends in Detroit and St. Clair the past week.

Little Margaret Ryan has entered school at St. Joseph's academy in Adrian.

Mrs. Susan Canfield has been visiting her brother in Lansing the past week.

Misses Hilda and Marie Riedel were home from Jackson for Sunday and Monday.

Miss Affa Davis left Saturday morning for Cass City, where she will teach this year.

Mr. and Mrs. A. E. Winans spent the week-end at the home of their son, Elmer, in Detroit.

Mrs. A. Steger visited at the home of her brother, Frank Nelson of Lansing, over the week-end.

George English is preparing to erect a new barn, replacing the two recently destroyed by fire.

Private H. G. Shutes, Co. A Signal Corp., encamped at Grayling, has been promoted to be corporal.

Miss Margaret Young of Jackson visited her parents, Mr. and Mrs. Frank Young, Sunday and Monday.

Tom Hughes of Detroit joined his family here Saturday. They all returned to their home in the city yesterday.

The Helping Hand circle will meet with Mrs. Wm. Moore, Wednesday afternoon. Men especially invited. Scrub lunch.

Mr. and Mrs. W. F. Kandlehner and little daughter are expected home today from a visit with relatives in Collinswood, Ohio.

Miss Estella Guerin of Ann Arbor and Mr. and Mrs. Chris. Bauer and family of Albion were the guests of Mr. and Mrs. S. J. Guerin over the week-end.

The tile facing blocks of the Kempf bank block are being replaced, above the cornice, on account of the face of some of the blocks having chipped off.

Mr. and Mrs. C. Hoover of Rosebush and Mrs. D. Hammond of Bannister visited Robert Foster and daughter, Miss Lillian, several days of the past week.

Benjamin B. Eaton, formerly of Detroit, is the new Michigan Central freight clerk. Mr. and Mrs. Eaton are rooming at Mrs. Stephen's, East Middle street.

Mr. and Mrs. A. L. Steger, accompanied by the latter's sisters, Misses Eppie and Veronica Breitenbach of Jackson, are visiting in Cleveland, Ohio, for a few days.

Mrs. Elizabeth Walz has rented Mrs. E. E. Shaver's residence, 169 East Summit street. Mrs. Shaver has engaged rooms in the Van Tyne residence, Main and South streets.

Miss Charlotte Steinbach and her ward, Frieda Frohofer, who have been visiting the former's parents, Mr. and Mrs. C. Steinbach, for several weeks, returned to their home in Cleveland, Saturday.

Good news comes from Ann Arbor, the Times-News publishing the following item in Saturday's issue: "Jack Frost leaves tonight to join his family in Miami, Florida, after closing up his business affairs here." Fine! Now maybe the corn crop will get a chance to ripen.

William Moore has been appointed Michigan Central car-repairer, with stein cattle in the world, including headquarters in Chelsea. He cares for cars in the Chelsea yards, including Four Mile lake and Francisco stations. He has just purchased a motorcycle engine and soon will cover his territory on a motor-scooter.

How's This?

Mr. and Mrs. B. Steinbach visited Mr. and Mrs. Waterbor of Detroit and Dr. Maze and family of Rochester, Saturday and Sunday, and attended the fair in Detroit yesterday.

B. Steinbach has a fine field of beans just north of town on McKinley street. One plant, pulled at random, had a total of 47 pods which averaged five beans to the pod. They are nearly ready to harvest.

Mrs. W. W. Hendrick spent several days of the past week visiting in Hamburg. Mr. Hendrick joined her Saturday evening and they spent Saturday night and Sunday at the Bennett cottage at Silver lake.

Good news comes from Ann Arbor the Times-News publishing the item in Saturday's issue: "Jack Frost Miami, Florida, after closing up his business affairs here." Fine! Now maybe the corn crop will get a chance to ripen.

Mr. and Mrs. Charles Thatcher, Mr. and Mrs. Theo. Paul and Miss Norma Paul, of Lansing, spent the week-end with Mr. and Mrs. John Hauser. Miss Hilda Paul, who has been visiting here for the past two weeks, accompanied them to her home in Lansing.

Through the kindness of Earl Scouten of North Lake, the editor recently was permitted to read an interesting article in the Buffalo, New York, Times describing Oliver J. Cabana's wonderful summer home at Elma Center, N. Y. It is also the home of some of the greatest Holstein cattle in the world, including Rag Apple Korndyke, 8th, the greatest and most valuable bull in the world, and Segis Fayne Johanna, the only 50-lb. butter cow in the world. Lack of space prevents a further synopsis of the article.

Light as Chaff

Irish Wit.

An Irishman was sitting in the general waiting room at a railway station when a woman came in and, sitting down beside him, remarked:

"Sir, if you were a gentleman you would not smoke here."

"Mum," he said, "if you was a lady ye'd go to the ladies' waiting room."

"If I please to sit here I'll do it," the lady retorted angrily.

"All right, mum," said the Irishman quietly.

"If it pleases ye to sit wid me I'll put up wid ye."

"If you were my husband I'd give you poison!" cried the woman.

"If you was me wife I'd take it!"

Evils of Drink.

The big increase in the price of beer was milk and honey to the teetotal crank, and he was gloating over the discomfort of his friend who liked a drop, according to an English publication.

"But it is all for your own good," he impressed upon his friend. "No more morning headaches, no more shaky hands."

"Yes," agreed the impatient, "you can bet on no more shaky hands. I can't afford to spill any at the price."

NEW

AT THE HUTZEL SHOP

Main and Liberty Streets
Ann Arbor, Mich.

HUTZEL'S

Has a High Opinion of Chamberlain's Tablets.

"I have a high opinion of Chamberlain's Tablets for biliousness and as a laxative," writes Mrs. C. A. Barnes, Charleston, Ill. "I have never found anything so mild and pleasant to use. My brother has also used these tablets with satisfactory results."—Adv.

LINER ADS EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.
