### BOLD BANK ROBBERY FOILED IN DEXTER

Michigan Central Operator Puts  
Crimp in Robbers Plans.

A bank robbery of similar proportions to the recent robbery in Concord was frustrated in Dexter early this morning by the quick wit and nerve of the night operator at the Michigan Central depot in the neighboring town.

Operator Hart heard the robbers just outside the depot sawing through the wire cables and suspecting the reason, extinguished the lights in his office and set the order signal to stop train No. 19, just about to pass through Dexter.

The train came to a grinding stop and probably frightened the robbers away. Undoubtedly they presumed there had been a "leak" and that the train was a special carrying of officers.

The train crew, finding the depot deserted and the telegraph cables cut, came on to Chelsea to give the alarm, arriving at 2:10 a. m. Officer Evans and a posse responded at once and Sheriff Lindenschmidt and assistants were notified and hurried to Dexter from Ann Arbor. Michigan Central detectives were also hurried to Dexter, but the robbers had vanished, leaving no clues aside from the cut telephone and telegraph wires.

### TWO LETTERS FROM CHELSEA BOY IN FRANCE

Albert Steinbach Well But Says  
Rain and Mud Makes It  
Very Disagreeable.

Mr. and Mrs. Charles Steinbach received two letters from their son Albert, who is with the U. S. Railway engineers "somewhere in France," the past week.

One letter was dated October 15th and addressed to Albert's brother Henry of Dexter, the other was dated October 19th and written to his sisters, Charlotte and Helena of Cleveland, Ohio. Later the letters were forwarded to Chelsea.

Albert wrote that he felt fine but complains about heavy rains and resulting mud. Says he is very busy and working every day except Sunday or when the rain interferes.

His present address is Private Albert M. Steinbach, Co. F, 16th Reg. Eng. (Railway) A. E. F. in France, via New York City.

### RED CROSS NEWSLETS.

Thirteen sweaters and eleven pair of wristlets were sent to county headquarters in Ann Arbor, Monday. Chelsea chapter is fortunate in having so many volunteer knitters. A total of 520 skeins of yarn has been given out for Red Cross work.

Following is a list of suggested articles suitable for Christmas bags: Khaki-colored handkerchiefs, 27 inches square, for container; pad writing paper, about 7x10 inches; envelopes, pencil, postal cards; books in paper covers, pocket knife such as boy scouts use, steel mirror, neckties, mouth organ, mechanical puzzles, electric flash light, compass, playing cards, games, tobacco, pipe and pipe cleaners, cigarette papers, water-tight match box, chewing gum, sweet chocolate biscuits, fruit crackers, preserved ginger, prunes, figs, dates, raisins, hard candy, licorice, shaving soap, towels, toothpaste.

What is "industrial preparedness"? How does it effect the humblest citizen? What does it mean to the Nation? What is it all about? These and scores of other questions of vital concern to every citizen will be answered in the gripping photo-drama, "The Eagle's Wings," to be exhibited at the Princess theatre on Thursday. This gripping picture-drama is a non-political, non-partisan, patriotic inspiration—a lesson in loyalty for every citizen of the Union. The proceeds will be for the benefit of the Red Cross.

### ROEDEL—WALWORTH

Miss Rena Roedel and Mr. George Walworth, both popular Chelsea young people, were quietly married Friday evening, November 16, 1917, at seven o'clock at the home of the bride's mother, Mrs. Alice Roedel, 238 Harrison street. Rev. P. W. Dierberger officiating. Only a few of the immediate relatives of the bride and groom were present, including Mr. and Mrs. Clarence Fox of Leamington, Ontario, Don and Max Roedel of Detroit, Mr. and Mrs. O. J. Walworth and daughter, Miss Anne, Mr. and Mrs. Kent Walworth and family and Miss Maurine Wood, of Chelsea.

Following the ceremony and light refreshments, Mr. and Mrs. Walworth left for a brief trip to Jackson and Eaton Rapids, visiting the groom's grandparents, Mr. and Mrs. L. D. Jenne, in the latter place. Mr. Walworth left Sunday for Rock Island, Illinois, where he is in the ordnance department of the U. S. army and during his absence Mrs. Walworth will continue to reside in Chelsea with her mother.

### RUSHED "PLANE" CASTINGS.

The machinists in the aeroplane department of the Lewis Spring & Axle company worked all Saturday night finishing a number of castings for an eastern aeroplane manufacturer. The castings were delayed en route from the foundry and did not reach Chelsea until late Saturday afternoon. An emergency call was sent out to the "plane" department machinists and the castings were all completely machined and ready for shipment east early Sunday forenoon.

### ARMY Y. M. C. A. FUND OVER \$2,000

Hard Work by District Chairman  
Dierberger and Assistants  
is Liberally Rewarded.

Army Y. M. C. A. subscriptions in this district, which includes Lyndon, Sylvan and Lima townships, Chelsea village and parts of Sharon and Freedom townships, will exceed \$2,000. The quota for the district was \$1,200.

The most liberal donations came from Lyndon township and Chelsea village, while in some sections only a mere pittance was subscribed.

The Methodist home in this village subscribed \$50 and every workman at the Michigan Portland Cement plant contributed to the fund. There wasn't a "slacker" at the plant although many of the men are of foreign birth.

### ARRANGE TO PUBLISH MISS CHERRYBLOSSOM

This Dainty Musical Comedy Will Be  
Issued Soon By Cincinnati  
Musical Publishers.

Miss Cherryblossom, a delightful musical comedy of Japanese life which will be presented here at St. Mary's auditorium, November 28 and 29, will be published soon by a Cincinnati firm, on royalty. The piece is now on the press and will soon be on the market.

Miss Winifred Bacon will sing the title role of Miss Cherryblossom and she will be ably supported by a splendid cast and chorus of local singers.

Regarding Miss Cherryblossom, a Grand Rapids paper said: "The music is a fine achievement, containing solos, duets and choruses which would do credit to a professional comedy."

### MRS. ADAM SCHMID.

Mrs. Dorothy Barbara Schmid, wife of Adam Schmid, died at her home in Lima township Friday morning. Death came as the result of a stroke of apoplexy suffered by Mrs. Schmid nearly four months ago.

Mrs. Schmid was born in Freedom township on October 12, 1842, and had always lived in this county. She was a woman of very lovable character, and had a large number of friends.

Mrs. Schmid was a member of Scio church, at which her funeral services were held Monday morning, at 11 o'clock, following short services at the home, at 10:30 o'clock that morning. Rev. Thrun officiated at the services and also at the interment which followed in the church cemetery.

Surviving Mrs. Schmid are her husband, one daughter, Mrs. Frederic Eisenmann, of Freedom township, and one son Julius, living at home. There is also one brother surviving her, Charles Haas, of Freedom township.

MASON—The mayor of the city has sent out notice that consumers will do well to look out for water conservation, as with only about four days coal supply on hand, and no relief in sight, this is liable to be a waterless city before the engineers can complete the work of connecting the pumps with the electric power.

### Easy to Rid Home of Rats and Mice

There is no need of suffering from the depredations of rats and mice now that Stearns' Paste is readily obtainable at nearly every store. A small box of this effective exterminator costs only 25 cents and is usually sufficient to completely rid the house, store or barn of rats and mice. The U. S. Government has bought thousands of pounds of Stearns' Paste for use in cities where rats and mice are plentiful. The Paste is also efficient in destroying cockroaches and waterbugs. Adv.

### WIFE NAGGED HIM TOO MUCH

Jarvis Decided to Go Behind Big Cannons and Lose Hearing—Now in Peace.

Synopsis: Jason Jarvis is a home-loving man. He loves to sit about in his carpet slippers reading the papers, and he loves his wife, Croona, dearly, but hates to hear her complain of his shiftless habits, says the Detroit Free Press. Now, as she keeps complaining of them from morning till night, Jarvis finds it extremely difficult to keep his mind on his pipe and his paper. He thinks of spending his time at a club or at movies, but is inherently such a home-loving man that the very thought is repugnant to him. So he stands his wife's nagging flow of words until one day something he sees in the paper (while he is smoking his pipe) gives him a brilliant idea.

Conclusion: "It's true that we are badly in need of men to help fire these new 80-cylinder cannons," said Colonel Kimmel, in charge of the government proving grounds at Skiptington. "But it is my duty to inform you that the shock of the firing is extremely bad for the ears. In fact, 18 men in the past week have been deafened and honorably discharged with a pension."

"I want the job," said Jason Jarvis firmly.

In three days the drums of both his ears were shattered.

Returning home joyously he subscribed for a dozen extra papers, bought four more pipes and settled down to smoke and read contentedly on his pension, entirely unaware as to whether his wife was talking or not.

## STATE LOAN TOTAL IS \$106,045,050

MICHIGAN OVERSUBSCRIBED MINIMUM LIBERTY QUOTA BY \$31,495,050.

### PERE MARQUETTE UNDER FIRE

Cancellation of Trains Protested By a Number of Towns Hit By Curtailed Schedule.

Lansing.

Michigan's contribution to the nation's war fund through subscription to the second installment of the Liberty Loan was \$106,045,050 according to complete official tabulation.

This was \$31,495,050 in excess of the minimum allotment of \$74,550,000. The maximum allotment was \$124,250,000. The campaigners of the state did not stop to rest when they were assured that the minimum had been reached, but kept pegging away vigorously at the task of narrowing the distance to the maximum.

So far as the minimum quota was concerned, all but a few of the Michigan counties went "over the top," and it is a matter of record that the counties which made the most favorable showings had the most effective organizations in the field. Some of the counties failed to realize their early expectations and the members of the state organization will try to discover the why and wherefore before another campaign is launched.

In some of the districts which did not measure up to expectations, the weather proved a big drawback to the organizations' work; in others success was taken too much for granted, with the result that the fight was not carried on as vigorously as it might have been.

### Pere Marquette Service Under Fire.

Complaints are pouring into the state railroad commission's offices regarding abandoned service on the Pere Marquette.

Several villages and towns aver they are practically without communication to the outside world, except by motor routes, and ask relief. The Pere Marquette has abandoned service on many of its lines, due to lack of coal.

One letter received by the railroad commission from Elk Rapids reads in part as follows:

"When we were given notice that train service was to be discontinued, we were told it was because of a shortage of coal, and we believed the partial service we had would be restored, but we find that it is not the intention."

"Our village is ruined."

"Our mail service has been taken from us. One day last week our mail went out of here in the afternoon carrying \$9,000 of registered matter and that pouch lay in the freight house at Williamsport unwatched until 10 o'clock the next forenoon."

Numerous other complaints by wire, mail and delegations are received daily from towns where the service has been curtailed.

### Non-Coms. Will Train Rookies.

Training of the new contingent to arrive at Camp Custer will be left for a time almost entirely in the hands of the non-commissioned officers, most of whom are recruits of two months ago. The long delay in sending the third quota has given the new men a great deal of training ahead. Many of the brighter and better educated ones have made the most of their opportunities and progressed in remarkable fashion. To these men the recruits will be left for the school of the soldier, the school of the squad, all the early physical drill and preliminary instruction of every sort.

Two ends will be served by this. The companies will not be retarded so much and the non-coms. will get experience as instructors. The better ones will then be picked as candidates for commissions and get work in handling of recruits that will fit them to be officers.

When the recruits are within halting distance of the rest of the company, they will work with their comrades.

Two calls for men are already placed against the next increment. The largest is for Camp Pike, where 3,000 men will be sent to help make up a sort of a rainbow national army division. Most of these men, if not all, will come from the new increment because the men already here have been pretty well picked over.

Another small bunch, perhaps 250 will be assigned to the 49th supply train. These men will be truck drivers, mechanics and other specialists for the outfit.

### War Hurts M. A. C. Attendance.

Some tangible evidence of the extent to which the call to arms is being responded to by farm boys of the state is reported by Ashley M. Berridge, director of short courses at the Michigan Agricultural college. A few days ago, when the term for the two-year short course opened, only 25 of the 83 young men who were members of the second-year class returned. The 58 absentees, letters explained, are almost all in military service. The reduction in the freshman 2-year class was small.

### Artillery Firing Being Taught.

A school of fire for artillery officers and non-commissioned officers, based on the work given to officers at the government school of fire at Fort Sill, started last week at Camp Custer. As instructors, there are the experienced artillerymen of the brigade, some of whom have been instructors at Fort Sill, and the foreign artillery officers and non-commissioned officers who have been through the mill in Europe. Several commissioned officers and non-coms from each of the field artillery companies are the students, they will take a month's course and then give way to a new bunch.

The instruction given at first is entirely theoretical with daily lectures at brigade headquarters. Later actual work will be done on the new artillery range, 5,000 yards long, stretching south from Detroit Hill, paralleling the rifle range. Here practical instruction in the sheltering and hiding of guns, in observation and communication will be had.

Shots will fall in the swamp, will be observed from posts in trees, on ridges, in health, all concealed after the best manner of Europe. All this is for indirect fire, as a shorter range will be established for fire at visible objects.

For the range, two roads, the Territorial and the Reese, will be closed and guarded so that the shells which will fly next month may injure no one.

### Custer Men Cost U. S. \$13 Each.

It is costing the federal government considerably less money to obtain recruits for Camp Custer under the selective draft system than under the former scheme of operations.

Formerly men were obtained for the regular army by recruiting parties stationed in various cities throughout the state.

According to Federal Disbursing Officer W. J. Baker, the expense of registering a selected man, giving him his physical examination and allowing for exemption claims, is approximately \$13. This includes all expenses of office rent, clerk hire, etc., and covers everything up to the time the conscript boards the train for Camp Custer.

Under the old system of obtaining recruits the expense of recruiting stations, officers, advertising and all other items, made the initial cost approximately \$100 per man. In some instances it ran higher, as recruiting parties in peace times were often stationed in places for weeks at a time without sending a single man to Columbus barracks.

Provost Marshal General Crowder has asked for detailed information concerning the cost of the draft in Michigan.

### U. S. and State Trade Land.

Michigan has finally completed arrangements by which 43,972.92 acres of state land have been traded for an equal acreage of United States land. Deeds are expected in a few days which will put the state into possession of lands which have been sought for years.

Both state and national governments have owned tracts of land within parcels owned by the other. The trade now blocks out the holdings of each, doing away with conflicts.

The state acquires in Alcona, Oscoda, Alpena, Cheboygan, Crawford, Roscommon, Kalkaska, Luce, Montmorency, Ogemaw and Presque Isle counties.

Title to the biggest forest in the state, located in Luce county, will be vested in Michigan when the deed comes.

Final details of paying the tax on all state land to the county in which it is located were discussed at the meeting. Payments will be made January 1, and will add \$30,000 to the road funds of the counties, chiefly in the northern part of the state, where state lands are held.

### CAMP CUSTER NOTES

All maneuvers and drills must be carried on within the limits of the reservation. Every officer must secure and study a map so that he will not trespass on private property lying outside of Camp Custer.

Harris J. Rubenstein, a private soldier, has been detailed by Captain Tage to receive and sort all clothing donated for the relief of Belgians. A farmhouse has been made headquarters and several tons are stacked ready for the day when a carload shall have been received, when it will be shipped east.

Red Cross ladies of Battle Creek, working with army officers at Camp Custer, have perfected a comfort kit for soldiers with which, together with the standard Red Cross knitted articles, every Calhoun county man at Camp Custer will be supplied. The county Red Cross chapter will underwrite the enterprise and open the opportunity to neighborhoods, townships and civilian friends of soldiers to supply individual soldiers at the whole-sale cost of the equipment.

If the old saw, "a little knowledge is a dangerous thing" could be changed to "too much knowledge is a dangerous thing," it would apply to Detroit troops. There are so many expert automobile mechanics coming from there that company commanders are pestered at the rapid rate their companies are being depleted by orders sending their best men to other divisions which are lacking that sort of material. Automobile men and dynamite men from the copper country have a poor show to get much drilling—they are too valuable in their civilian line.

### Quess Got

Hugo Stennis, the Dutch publicist, said at a Holland society dinner in New York:

"The Germans are demonstrating in all sorts of ways that America's intervention in the war won't amount to anything. They're scared, you see."

"The Cologne Gazette said the other day that when the American armies arrive in France they'll be hampered by their ignorance of the various languages. Well, my wife laughed when she read that."

"I guess," she said, "the Americans can shoot in any language."

### WRINKLES ALL DRIVEN AWAY

A grandmother writes: "The bottle of Usit has completely cleared my face of the horrible wrinkles that were such an eyesore to my daughters, my grandchildren and to me. It is a godsend to wrinkle suffering humanity." When Usit is regularly applied for a reasonable time, wrinkles disappear, the skin regains its former smoothness, plumpness and color. Usit is such a splendid skin treatment that a bottle should always be on your dressing table. Rough skins made smooth; sallow, dry, faded complexions get back their natural freshness from its use, and it is also a fine treatment for freckles, blackheads, and many forms of eczema.

Usit is not a cream or paste, but a pure nut oil liquid, to be used at night before retiring. Try Usit Face Powder De Luxe, which is no ordinary face powder, but a preparation appealing to people of discriminating and refined taste. Four tints—flesh, white, pink and brunette. Delicately perfumed. For further distribution a bargain. Once only. One 50c bottle Usit and one 50c box Usit Face Powder De Luxe for 75c. Address Usit Mfg Co., 855 Main street, Buffalo, N. Y.

### A Quiet Week.

A man recently bereaved of his wife interviewed the minister about the arrangements for burial.

"When is the funeral?" asked the clergyman.

"Monday," was the reply.

"Monday?" ejaculated the minister. "That's a long time to keep the body; a whole week."

"Well, you see," said the bereft, "it's like this. When we got married, the wife and me made up our minds to live a quiet week at home the first chance we got. We're just livin' it now."

## OUR BOYS IN FRANCE AND HOME PROTECTION

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, rejected because of physical deficiency. Many times the kidneys were to blame. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N. Y., says that you should drink plenty of water daily between meals. Then procure at your nearest drug store Anuric (double strength). This Anuric drives the uric acid out and cures headache and rheumatism. If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. Step into the drug store and ask for a 60c package of Anuric, or send Dr. Pierce 10c for trial pkg. Anuric, many times more potent than lithia, often eliminates uric acid as hot water melts sugar. A short trial will convince you.

## OLD PRESCRIPTION FOR WEAK KIDNEYS

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that, so many people claim, it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

## EVERY REGISTRANT IS SUBJECT TO CALL

IF NOT FIT FOR DUTY AT FRONT CAN BE PUT TO WORK BEHIND LINES.

DEPENDENTS ARE MORE SECURE

Man With Family Must Get Consent of Dependents Before He Will Be Taken Into Army.

Washington—Drastic new regulations for the draft, making practically every one of the more than 9,000,000 registrants subject to war duty, if not at front, then behind the lines, have been approved by the president.

The regulations mobilize the war strength of the country to a point where only a word is necessary to take a man from his desk or plow or work bench and put him in a trench or armed motor car or munitions factory or shipbuilding plant.

Men of draft age with dependent relatives are placed in a more secure position.

Added protection for dependents is secured by the requirement in cases where the registrant seeks to waive his deferred classification status that waivers also must be obtained from those dependent on him before he can be taken into the military service. Local boards are constituted judges of all such cases.

Men physically unfitted for front line duty in the army and yet able to do some part of the work of a soldier may be called for limited military service behind the lines.

Where registrants are away from home districts or in other circumstances, application to the local board for a questionnaire is all that is required.

Local boards are granted virtually judicial powers to summon witnesses and obtaining information.

Authority is granted to form special classes of men highly skilled in particular trades or professions and summon them under this special heading, regardless of their grouping in the general classification plan except in dependency cases.

Men already certified by local boards will be sent forward as needed until such time as the new class 1 in each district is sufficiently organized to care for drafts from the district. All pending appeals will then be wiped off the slate and the new system will apply in full.

## GAS ATTACK MADE ON SAMMIES

Germans Shell American Sector—One Soldier Executed.

With the American Army in France—The first German gas attack on our troops to be made on a considerable scale has occurred.

Though the number of gas shells fired by the Germans was not larger than usual, the enemy concentrated his fire of a small portion of one sector, while in his previous "gasings" Americans entered the front line, the shells spread over a wide area.

A few casualties have occurred in the artillery section. A German shell struck an American gun recently causing the death of several and wounding others.

**American Soldier Executed.**  
Washington—An American soldier of Gen. Pershing's forces, found guilty by court-martial of an attack and the killing of a French woman, has been executed by a firing squad.

All details of this, the first death penalty imposed since the troops landed in Europe, are being withheld by the war department.

When a full report has been received from General Pershing, it probably will be published, as officials of the department want the world to know the American army deals with men who commit such crimes. Newton D. Baker, secretary of war, said that General Pershing had full power to carry out the sentence of the court-martial without referring the case to the president.

## TROOPS AT SO MUCH A MAN

Soldiers Furnished British Government by British States at Beginning of Revolutionary War.

At the beginning of the Revolutionary war the British government made treaties with several of the German states by which they were to furnish troops at so much a man to assist in subjugating the Americans. Applications for assistance made to Russia and Holland were rejected, but several of the German states responded favorably. There was no united Germany or imperial government, no kaiser with autocratic power, but each independent state had a separate government.

An English historian says:

"Finding it difficult or impossible to obtain the necessary recruits at home, and that the existing English and Irish regiments embarked with such reluctance that it was necessary to keep a guard upon the transports to keep them from deserting by wholesale, the ministry applied to Russia, the states-general (Holland), and finally to several of the German states for mercenaries. The infamy of filling up the British armament was reserved for the princes of three or four petty German states." Contracts were made with the rulers of seven German states under which an aggregate of thirty thousand troops were furnished at so much a head, cash down, and an annual sum to the rulers of the different states furnishing them.

"The subsidies," says the English historian, "were to be continued for one full year at least after the war ended and the troops had returned to their homes." The troops thus hired out by German rulers to fight against Americans were not raised easily. The American historian Bancroft says:

"The whole number of men furnished in the war by Brunswick was equal to one-twenty-seventh part of its total population; by the landgrave of Hesse, to one out of every twenty of his subjects, or one in four of the able-bodied men, a proportionate conscription in 1776 would have shipped to America from England and Wales alone an army of more than 400,000 men. Soldiers were impressed from the plow, the workshop, the highway; no man was safe from the inferior

agents of the princes, who kidnaped without scruple."

"Twas Easily Done.

Hypochondria was the topic that was being discussed at a social affair, says the Philadelphia Press, when Senator William A. Smith of Michigan recalled the following story:

A woman who was perfectly well, but imagined she had at least a dozen different diseases, called one day to consult an eminent specialist.

"I think I understand your case thoroughly, madam," said the doctor as the patient began to tell the story of her life. "Just sit quite still a moment and let me look at you."

The patient complied and after studying her intently for a little while the physician glanced at his watch.

"There is nothing the matter with you, madam," finally said the doctor. "You haven't the slightest indication of fever, and your heart beat is perfectly normal."

"Why, how do you know, doctor?" exclaimed the patient in surprise. "You didn't take my pulse."

"It wasn't necessary, madam," smiled the specialist. "I counted the vibrations of the ostrich feather on your hat."

## Method in His Madness.

A story brought from Camp Funston, says the Kansas City Star: A young draft soldier paced the parade ground alone. Stopping suddenly he picked up a small block of wood, studied it a moment, and cast it aside with the remark: "That ain't it." Walking farther, he stooped and brought up a scrap of paper, scanned it, and threw it away, again saying: "That ain't it." A third pause a minute later brought his attention to a cigarette stub, but closer scrutiny brought the same rejection, "That ain't it."

His captain stood within hearing, watching the draft soldier closely. It was apparent the young man's mentality was wavering. The guard was called, and the patient was sent to the hospital. The next day the captain went to the hospital with the patient's discharge papers. On their delivery the sufferer held the papers up to the light, examined them closely, and then announced:

"That's it."
