MADE BEST WHITE BREAD

Mrs. N. W. Laird of Sylvan Takes
Prize at Farmers' Festival.

At the Farmers' Thanksgiving
Festival in Ann Arbor, Friday and
Saturday, Mrs. N. W. Laird of Syl-
van was awarded first prize for the
best loaf of white bread. The bread
was judged by Misses McMillan and
Hayes, teachers in the domestic
science department of the Ann Ar-
bor high school. The prize was a
book on uses of gasoline, retail price
five dollars, donated by Staebler &
Co.

The Saline Farmers' club won the
banner for the finest society exhibit
of fruits and vegetables. The ban-
ner was awarded by Harry Douglass
of the Washtenaw Gas Co.

The prize for the best individual
exhibit was awarded to E. B. Man-
waring, who showed a choice collec-
tion of fruits and vegetables from
his farm. The prize was a beautiful
mahogany music cabinet given by
Mack & Co.

The prize for the best bushel of
potatoes went to F. H. Ticknor, an
automobile robe, given by Benz Bros.
For the best 12 cabbages J. O.
Ganzhorn was awarded the prize
donated by Hagen & Jodelle, a pair of
rubber boots.

E. B. Manwaring also won the
prize for the best exhibit of apples,
a five dollar grocery order, given by
Kyer & Whitker. Mr. Manwaring's
exhibit showed some very choice
specimens of this fruit, and it was
by far the finest exhibit.

The best ten ears of corn were
shown by Mrs. William Kern, who
was awarded the 100 pounds of flour
given by the Michigan Milling com-
pany.

The heaviest chicken was shown
by William Kilpatrick, who was
awarded the prize of a horse blanket
donated by Hertler Bros.

The total receipts of the Festival
will be about \$2,500.

ANN ARBOR CO-ED FOUND WANDERING IN MARSH

Suffered Greatly From Her Two
Days Exposure During Fit of
Mental Aberration.

Persis M. Groeschel, an Ann Ar-
bor co-ed, who had been missing
from her home at the Alpha Chi
Omega sorority house at 1004 Olivia
street for two days, was found
wandering in a marsh on the Steere
farm between State and Packard
streets, Ann Arbor, early Friday
morning. Although she seemed to
be rational when discovered, she had
apparently wandered away from
home when in a state of temporary
mental aberration.

Miss Groeschel was found by a
hunter who was tempted out in the
early morning by the prospect of
game on the first snow of the sea-
son. She was suffering severely
from exhaustion and exposure, and
was able to walk but a little way,
but her mind was clear enough to
inquire of the hunter if he could get
an ambulance to take her to a hospi-
tal. She was taken to the nearest
place of shelter and the ambulance
was sent for. She was taken to the
Homeopathic hospital, where she
now is lying, with a prospect of re-
covery, although suffering severely
from her long exposure.
Miss Groeschel's home is in Sagi-
naw.

ANN ARBOR—Traffic was tied up
on the Michigan Central railroad
early Friday morning for several
hours by a derailed freight car just
outside the Detroit street station,
and the trains due in Ann Arbor in
the early morning were delayed sev-
eral hours. The accident happened
just before the departure of the
train which arrives in this city at
1:47. The trouble was caused by a
freight car which left the rails on a
crossover between the east and west
bound tracks, placing the car in such
a position that traffic was held up on
both tracks.—Times-News.

SALINE—An accident occurred at
the Ann Arbor railroad crossing on
the electric line Thursday afternoon.
Arthur Sally, in attempting to cross
in front of an approaching train,
was struck and seriously injured.
His story is that the trainmen sig-
naled for him to cross, and eye wit-
nesses declare that the signals were
for him not to. He was hauling
gravel for repairing the road in the
vicinity of the track.—Observer.

to become rather serious owing to the
number of people who have uncon-
sciously been exposed. So far only
two cases have come to the attention
of Health Officer Saunders, but sev-
eral people who have been exposed
have been placed under quarantine
in an effort to stamp out the disease
before it has gained a foothold.—

THANKSGIVING DAY PROCLAMATION.

Thanksgiving Day is peculiarly
an American festival. For gener-
ations the American people have
observed it. The old New Eng-
land Thanksgiving Day dates
back, we are told, to 1622; and
we still delight in it. It is a joy-
ous home-coming for the scatter-
ed members of the family. They
gather under the old roof-tree to
feast and make merry. We go to
church and give thanks to Al-
mighty God for all his blessings
and mercies.

Today, we as a nation have to
face not only the problem of pre-
serving our own sacred liberties,
but of making the world a safe
place to live in for the small na-
tion as well as the great. We
have gone to war for this right-
eous purpose. It is a purpose
worthy of our history and our
best traditions. And may we not
be thankful for the sturdy man-
hood and the splendid womanhood
that are ready to make the sac-
rifice for the sake of the
human rights and human free-
dom?

May God strengthen our arm
and increase our courage, and
may He keep us constant and
steadfast until the victory shall
be won.

Therefore, I, Albert E. Sleeper,
Governor of the State of Michi-
gan, do hereby join the President
of the United States in designat-
ing "Thursday, the twenty-ninth
day of November next, as a day
of Thanksgiving and Prayer."

Given under my hand and the
Great Seal of the State, this fif-
teenth day of November, in the
year of our Lord one thousand
nine hundred and seventeen, and
of the Commonwealth the eighty-
first.

Albert E. Sleeper,
Governor.

WILLIAM HENRY BURKHART.

William Henry Burkhardt died
Tuesday, November 20, 1917, at the
University hospital, Ann Arbor,
where he had been a patient for sev-
eral weeks.

Mr. Burkhardt was born in Lyndon
township, near North Lake, Novem-
ber 28, 1878; his parents being
Francis and Eliza (Twamley) Burkh-
ardt. He attended the Chelsea high
school, graduating with the class of
1898, and following the death of his
father assumed the management of
the farm. He was also master of
North Lake grange and a member of
the North Lake band.

He leaves to mourn their loss, his
mother, Mrs. Ella Burkhardt, two sis-
ters, Mrs. Robert Hawley of Toledo,
Ohio, and Miss Flora Burkhardt at
home, and one brother, Claude of
Crystal Falls.

The funeral was held Saturday
afternoon at 1:30 o'clock from the
residence, Rev. Woodmansee officiat-
ing. Interment at North Lake.

quietly married Saturday morning,
November 24, 1917, at eleven o'clock,
in Ann Arbor. They were attended
by Miss Helen Hanselman, sister of
the groom, and Mr. Nathan Pierce,
brother of the bride. Following the
ceremony Mr. and Mrs. Hanselman
left for a brief honeymoon trip to
Kalamazoo. They will make their
home in Ann Arbor.

RED CROSS NEWS.

The Junior Musical club has do-
nated \$2.66 to the Red Cross.

The Red Cross entertainment at
the Princess theatre netted the soci-
ety \$13.25.

The Junior members have finished
and shipped to headquarters: Three
Belgian quilts and 12 trench candles.

Donations of outing flannel and
remnants of yarn are solicited to be
made into quilts and afghans for the
Belgian babies and convalescents.
Donations should be left with Miss
Nina Belle Wurster.

A consignment of yarn invoiced at
\$33 was received yesterday and will
be made into sweaters. Mrs. C. E.
Whitaker and Mrs. J. D. Colton have
charge of the yarn and needles. The
work is to be finished not later than
January 1st.

Old garments which can be ripped,
washed and pressed and made into
children's garments are needed for
Belgian children. Workers are also
needed to make and fashion such
garments. Mrs. L. T. Freeman is in
charge of this work.

BIBLE STUDY.

FINDS BAND ON DUCK'S LEG

Chelsea Hunter Gets Message From
Eccentric Canadian.

George Barth, one of Chelsea's
most expert and successful hunters,
recently was very much surprised to
find a metal leg band on one of the
wild ducks which he had bagged.
The band bore the inscription,
"Count It All Joy," on one side and
on the other the address, Box 48,
Kingsville, Ontario.

Mr. Barth wrote to the address
given, but has not received a reply
although several weeks have elapsed
since he mailed his letter.

In this connection it is interesting
to note that a Lansing hunter re-
cently had a similar experience near
Williamston, reported as follows in
the Enterprise:

A Lansing hunter shot a Mallard
duck near the Three Lakes about
four miles north of town, one day
last week. On examining it he found
a silver band on one of its legs. The
band bore the name of a person in
Toronto, Ontario, and the words
"Ambassador for Christ." There was
also a scripture reference on the
band.

PRO-GERMANS SPOTTED

Mason Grocer Ducked in Icy River;
Jackson Teacher Discharged.

When returning to his home about
7:30 Monday evening, Fred Greve, a
Mason grocer, who is strongly pro-
German, was suddenly seized by a
party of young men. He was quick-
ly taken to the city park and left on
the ice in Sycamore river. The ice
was thin and Greve broke through.
He succeeded in getting ashore,
however, after a short and undoubt-
edly most uncomfortable bath.
After escorting him to his home the
youths returned to Greve's store, a
grocery, and proceeded to decorate
it with an American flag. At this
point officers appeared and told the
party to answer the court's call in
the morning.

Greve has the reputation of being
disloyal to the American government
and flag. He is reported to have said
he hoped all the American soldiers
would be drowned before reaching
the eastern shores of the Atlantic.
Other unpatriotic remarks are at-
tributed to him. Sometime ago he
was forced, after he had protested
against use of the flag, to place one
in his store. Sentiment in Mason is
against him.

J. S. Josenhans, teacher of chem-
istry in the Jackson high school, was
discharged Monday morning by the
board of education after an investi-
gation of the charge of uttering
statements disloyal to the American
government and President Wilson.

The resignation of the teacher
was demanded by unanimous vote of
the board.

Josenhans, while a native of Ger-
many, is a naturalized American citi-
zen. He has been at the head of the
chemical laboratory at the Jackson
high school the past eight years.

RAPID PROGRESS MADE BY ROOKIES

FIRST CONTINGENTS AT CUSTER
HELP NEW MEN TO GRASP
INSTRUCTIONS.

BIG FOOD DEALERS FACE BAN

Although Orders to Get Licenses Were
Issued to All, Many Have
Failed to Apply.

Lansing.

The 12,000 men just added to Camp Custer, division officers say are making greater progress in learning soldierly than those who preceded them. Not that they possess greater intelligence or greater learning powers and adaptability, but where the camp of the first days had only a comparatively few instructors, the officers and regular army non-coms, now it has thousands potentially in the men who have been training here for the past two months.

Under the program each man in the first two contingents aids in teaching the "rookies."

In addition orders have gone forth that the program of the past eight weeks will be renewed for the benefit not only of the rookies, but for the older men themselves, and especially those who have shown that they had not grasped it thoroughly.

Division officers believe the camp's program will not be retarded by the new men more than a month or six weeks.

Big Dealers Must Get Licenses.

George A. Prescott, State food administrator, has received word from National Food Administrator Hoover that many Michigan elevator, canners, jobbers, commission men, brokers, wholesalers and retailers, doing a business of \$100,000 a year, have not applied to the government food administration for licenses as they should have done by November 1 and that proceedings will be started immediately to suspend trading operations of such firms unless applications are received at once.

Lists of licenses will be forwarded to the Michigan administrator soon. Complaints of violations of the above-named tradesmen should be reported to Michigan's food administrator and not to Washington.

Of the 2,900 restaurants and hotels in Michigan, Mr. Prescott says that 1,900 of them have signed pledges already to observe meatless and wheatless days and further cooperate with the food administration. Monthly reports will be made by restaurants and hotels to the food administrator on blanks, which will show the amount of meats and wheat saved each month.

Mr. Prescott says there are no "knockers" among the hotel or restaurant men and that co-operation exists along every line.

Small boarding houses are asking the food administrator for a menu that they can serve on meatless and wheatless days, as their patrons, many times workmen from factories, demand meat and bread. This situation has been taken care of, however, by sending out menus showing how to make various dishes from fish and substituting "Johnny cake" or fried mush for bread.

Many Marksmen at Waco.

Because a large percentage of the Michigan and Wisconsin soldiers have been accustomed, since their boyhood to hunting during the open season in their states, the division at Camp MacArthur, Waco, is going to produce a high standard of marksmanship, according to officers who acted as instructors at the rifle range.

"A recruit who has done any gunning generally knows the mechanism of a gun," said one of the range officers. "He is accustomed to recoil and can handle a rifle with safety to himself and others about him. He needs little instruction about aiming, is a good judge of range, and in a dozen minor ways finds his training as a hunter of value to him in the army."

State Bean Growers Are Hopeful.

The bean situation in Michigan is encouraging, said James N. McBride, state director of markets, on his return from Washington, where he went to intercede with the federal food administrator to give Michigan bean growers a chance.

Mr. McBride came back with the information that due consideration of the cost of growing beans would be given in the future. The prices which the government fixed for beans for the army and navy would mean 45 cents to Michigan growers, and Mr. McBride believes that it is imperative that a representative of Michigan growers be at Washington for the next 60 days at least.

Auto Deaths On the Increase.

Automobiles were responsible for 190 deaths in Michigan in 1915. The 1916 official figures, still incomplete, have reached 250, while the statistician of the state vital statistics department has already recorded 350 deaths due to motor cars this year. In 1912 there were 75 deaths, but the total has grown rapidly since then. Slayings and cases of self-destruction vary from year to year, despite the increase in population. Michigan averages 456 cases of self-destruction a year.

Compensation and Insurance.

Major Gen. Joseph T. Dickman, commander of Camp Custer, has requested the newspapers to assist in imparting information as to the soldiers' allotment, dependents, compensation and insurance measures adopted by the war department.

He declares the allotment, compensation and insurance system "the most philanthropic measure ever adopted by any country in the world to care for its soldiers and their dependents."

Compensation Compulsory.

The compensation system operates for the benefit of both the soldier and his dependents, particularly the latter. It is compulsory.

Every enlisted man with a wife is compelled to allot at least half his pay to her, whether she is dependent or not. To this amount, which is never lower than \$15, the government will add \$15 for the wife, \$25 for a wife and child, and \$32.50 for a wife and two children. An allowance of \$5 each will be made for other children.

In the event the soldier is a widower the government adds \$5 to his \$15 for one child, \$12.50 for two children, \$20 for three children, \$30 for four children, and \$5 additional for each additional child.

If the soldier is single the government adds to his \$15, \$10 for one parent, \$20 for both parents. Similar arrangements have been made when the allotment goes to a sister or brother with a child or children or to grand-children.

In the event of a soldier's death the government will give his childless widow \$25 per month; widow with one child, \$35; widow with two children, \$47.50, and \$5 additional for each additional child. If he leaves no widow the government will pay his one child \$20 per month, two children \$30, three children \$40 and \$5 additional for each additional child. The mother of a dead soldier receives \$20 per month.

The compensation to a widow or mother continues until their death or remarriage, that to a child until it is of age.

If a soldier is totally disabled he will be compensated monthly as follows: \$30 if without a wife and children; \$45, if with wife; \$55 if with wife and one child; \$65 if with wife and two children; \$75 if with wife and three or more children; if with no wife and but one child, \$40, and \$10 for each additional child. If he has a widowed mother dependent on him the government will add \$10 to the above sums. For loss of both eyes, both legs or both arms a soldier will receive a flat sum of \$100 per month; insurance is voluntary.

The insurance is voluntary and can be taken by any soldier or sailor in sums not less than \$1,000 nor greater than \$10,000. The premium rate is 60 cents per month per \$1,000 for men at 21 up to \$1.20 per month per \$1,000 for men at 51.

The insurance is payable to beneficiaries in 240 monthly installments, covering a period of 20 years.

One point army officers wish emphasized is that the insurance payments will be made in addition to the compensation allowed by the government as enumerated above.

In such event the widow of a soldier who had subscribed for \$10,000 insurance would receive monthly for 20 years \$41.57 in insurance payments and \$25 in compensation for herself, and from \$10 to \$5 additional for each child.

Guardsmen are being discharged at the rate of about 10 a day. A number of these are Michigan men.

Because of the tremendous task ahead of the medical board that examines each man up for a discharge, it is doubtful whether the selective soldiers receive consideration for several weeks, although it is known that more than 500 of the 3,000 that came down here from Camp Custer will be sent to the hospital as unfit for military service. That this many eventually will be discharged is almost certain.

In almost every case considered so far, the soldier discharged was afflicted long before he enlisted. Among the most common grounds given for certificates of disability are "mentally deficient," flat foot, goitre, defective eyes, rheumatism, joint trouble and the results of injuries received early in life.

CAMP CUSTER NOTES

Co. G, 337th infantry, has been made recipient of a present of \$100 from residents of the Soo, the company members' home town.

The most remarkable physique in camp is that of Lawrence Myers, Detroit negro. Cantonment medical officers declare his physique is perfect. Myers is 6 feet tall and weighs 197 pounds. He was a sparring partner of Jack Johnson.

The war department has placed up to cantonment commanders the authority to pass on claims for exemption on the ground of dependent relatives when such claims are made by men now in service. Such claims must be filed within seven days after arrival at camp.

RELIEF FROM COAL SHORTAGE NEAR

FEDERAL FUEL ADMINISTRATION
PROMISES TO HAVE COAL
SENT HERE AT ONCE.

PENNSY MINES TO FILL NEEDS

According to Dr. Garfield, Michigan's
Desperate Plight Will Be
Relieved Shortly.

Lansing—Michigan's coal famine will be ended within a few days. The promise was made by Dr. Garfield in person to John C. Hicks, president of the St. Johns National bank, of St. Johns, Mich., and a special assistant to W. K. Prudden, of Lansing, federal fuel administrator for Michigan.

Administrator Garfield's promise, which relates entirely to anthracite, or hard coal, means, according to Mr. Hicks, that a supply of coal entirely adequate to meet all of the state's needs will be sent here direct from the hard coal fields of Pennsylvania, which furnishes practically all of the anthracite coal used in the country.

No Strings on Pledge.

According to Mr. Hicks, Fuel Administrator Garfield in his promise made no stipulation or condition of any sort, save as to the method coal dealers are to employ in bringing about distribution of the coal, and this is simple.

Under details worked out by Mr. Hicks and the national fuel administration's anthracite division, Michigan's coal dealers, to obtain what coal they need, must apply to State Fuel Administrator Prudden, at Lansing, giving first the amount of coal needed, and then the name of their source of supply in 1916.

With this information in hand, Mr. Prudden, acting under authority from National Fuel Administrator Garfield, will see to it that the dealer is supplied through the same source from which he obtained his supply last year.

Railroads Will Co-operate.

When asked if the railroad companies and other distributors and sources of supply would comply with the national fuel administrator's directions, Mr. Hicks said:

"Yes, that phase of the matter is covered fully under Dr. Garfield's authority. Coal companies must obey his instructions. If they do not, Dr. Garfield is empowered to find a way to make them."

Mr. Hicks said that, following his conference with Dr. Garfield, he talked with many of the larger coal operators in the east, and found them, without exception, entirely willing to co-operate with the government.

RAILROADS MERGE FACILITIES

Equipment of All Lines Pooled to Get
Maximum Efficiency.

Washington—Face to face with a threat of complete government operation and the cutting of their profits to a minimum, the railroads of the country have taken drastic steps to avert these contingencies.

At the conference here the roads representatives were told that their services must be improved or the job turned over to the government.

The following plan is to be put into effect at once: Engines, rolling stock, machine tools and employees from railroads west of Chicago are to be transferred to the service of railways east of Chicago. The shops of the western roads are to be used for repair work on eastern road equipment. Train service west of Chicago is to be cut to the bone.

The government is to take full control of all the railway systems with the management of the roads executing the governmental orders.

U. S. NOT TO SEIZE STATE MINES

Prudden Says Action Is Not Likely If
Operators Continue Work.

Lansing—Although the government stands ready to take over the Michigan coal mines, if necessary, there is no likelihood of such action at this time.

One or two of the mines have been inclined lately to dispute some of the arrangements made for them by State Fuel Administrator Prudden, and the Washington order is the result. The federal authorities have simply told Mr. Prudden that if he says the word they will take over control of the mines.

The state administrator says that most of the Michigan operators are playing fair and if they continue to do so, action on his part will be withheld.

Slack Is Taken to Camp by Auto.

Pontiac—Two Pontiac draft men who, it is said, were not very anxious to go to Camp Custer with the contingent leaving here last week, missed the train and reported later to the military board. Rather than leave the men home after their alleged attempt to defeat the effort of the board to send them, an automobile tour was arranged. The two men were landed at Camp Custer not long after the special train bearing the others from Pontiac had arrived.

KEPT RICHELIEU'S HEAD; DIES

Late Deputy Armez Finally Consented
to the Burial of Ghastly
Relic.

Paris.—M. Armez, deputy from the department of the Cotes du Nord, who just died at Plourivo, was formerly custodian of the head of Cardinal Richelieu. This relic came into the possession of the Armez family during the revolution, following the desecration of the tomb of the great minister of Louis XIII.

The skull was preserved during three generations in a box bearing the label "Fate of Starsburg," to distract attention from its great importance. Inside were parchments establishing the identity of the relic.

M. Armez was relieved upon to part with his important deposit about 30 years ago in favor of the state, and Richelieu's skull was solemnly interred in the church of the Sorbonne, where it has since remained.

Engagement Closed.

Robinson—Hallow, old boy! How are you? Glad to see you. I heard you were engaged to Miss Bondclipper.

Jones—No, Robinson; I was engaged to her, but that is past.

"Well, Jones, between you and me, now, you are a lucky boy. She's rich, of course, but that is all she has to recommend her. And then her money is only prospective, you know. Her father might lose it all before the daughter got to handle it. But tell me how you managed to break the engagement?"

"I didn't break it off." "Oh, she did it herself, did she? But perhaps I ought not to say anything about it. I supposed, as she was so anxious to marry; everybody knows that."

"Oh, you needn't apologize. I'm not worrying about it." "That's good. I like to see a man keep up his spirits. Might I inquire what made her break it off?" "Oh, she didn't break it off, either." "Then how did you manage to get out of the engagement?" "I married her last week."—London Tit-Bits.

"Old House."

Lord Lucas' home in the New Forest—"Old House," it is called—is one of the strangest family residences in England. It lies seven miles from the little town of Ringwood, on the Hampshire Avon, in a lonely countryside, with no human dwelling within at least three miles. Originally a turf cutter's cottage stood on the site, and this the late Auberon Herbert, father of Lord Lucas, bought and pulled down, retaining only the old fireplace. In the clearing thus made he built a cottage, and as he thought he required them, he put up other buildings, until the "Old House" became a strange collection of scattered dwellings.

Our Town Names.

It is interesting to discover, from an examination of the United States Official Postal Guide, that among our public men after whom towns have been named, Franklin seems to lead in popularity, there being 31 Franklins in the country, as against 30 Clintons, 28 Washingtons, 26 Hamiltons, 25 Madisons and 25 Monroes, 23 Lincolns, 21 Jacksons, 20 Jeffersons, 18 Websters and 15 Roosevelts. The name which has appealed most to the town founders, however, is Union, which, with its congeners, Unionville, Uniontown, etc., is applied to 96 towns in the United States.—Outlook.

Bedouin Women Show Fortitude.

The fortitude of Bedouin women on the march is traditional. On the long "hajj," or march, to Mecca, over the hot sands their suffering is intense; yet they keep the pace, do all the work, bear children on the way, and arrive when the "brave" men do. So great is the physical courage of these women that they have often been known, as their hour for delivery approached, to halt beside the trail, bring a child into the world, and then overtake the marching caravan before daylight.

BUILT AN AIRPLANE IN 1848

Scotch Inventor Devised Machine With
Steam Boilers Which Was Sched-
uled to Fly to China.

An old handkerchief faded with age with a printed design showing a steam-propelled airplane in full career for China, has revived an old story which was recently brought to light.

In 1848 a Scotch inventor build an airplane with steam boilers. The old machine was a nine-days' wonder, but there is no record that it ever got beyond the experimental stage and a few unsteady "swoops" on the downs. It is recorded that it was deficient in equilibrium, "a puff of wind being sufficient to upset it." It was, of course, the butt of all the satirists. The handkerchief (which has preserved the outline of the old machine), pretends that the flying monster was capable of going to China "in 24 hours certain," passengers being landed by parachute at places en route. The steersman is crying, "Hello, Bill Jackson, keep your eye on Malta, and get ready to drop the parcels. Tell the Bombay agent in No. 5 to have his parachute in readiness tie his hat on, and shut his mouth, as it is blowing a stiff breeze."

Passengers are seen descending over the various countries of the earth, and at the journey's end the emperor of China, surrounded by the wise men, is awaiting with trepidation the arrival of the airplane.

"Why don't you try to manage that horse without profanity?" asked an officer of a cavalryman.

He was a slow young man, and she was despairing of him ever attempting to kiss her. But as they stood at the garden gate, holding each other's hand, a naughty, nasty bee alighted on his neck, and its sting made him suddenly lurch forward, with the result that he found his lips pressed against those of his sweetheart. So he sealed the accident with a kiss.

"George!" she exclaimed in amazement, as she turned her head to smile.

"It was—er—the bee's—er—fault," stammered George, blushing all over his countenance. "I hope you're not angry."

"Not at all," she remarked, with a twinkle in her eye. "I'm sorry there wasn't a hive full!"

Will Remember City of Clissen.

The ancient fortified city of Glessen in Hesse-Darmstadt, Germany, will for long be remembered among British especially among Canadians as the place where several thousands of their soldiers captured in battle were held as prisoners of war, notes a writer at the front. These fine men who held the way against the German advance at St. Julien in the spring of 1915, were so tenacious in holding the positions absolutely vital to the allied cause that they were absolutely without ammunition or food, when surrounded. A few survivors only of those regiments which in the words of the general commanding, "saved the day," were left, starved and stunned and worn out to be gathered in by the enemy's hordes. These were sent on by stages to Glessen, and there some of them remain to this day, having been joined by many other captives from various armies, until it is probable 10,000 or 12,000 men are held there.

WHERE GREATEST VICTORY WAS WON

Smashing forward on a 32-mile front, on Tuesday of last week, the British forces under General Byng won Britain's biggest single victory of the war. In the first two days' fighting, more ground was taken than was gained in 15 days in the original Somme drive in 1916.

Use of hundreds of tanks, and no artillery preparation previous to the assault, featured the attack. The tanks crumpled heavy barbed wire entanglements and reinforced concrete redoubts, or forts. Infantry keeping up with the land monsters "mopped up" the fleeing, panic-stricken enemy, and after two lines of defenses had been stormed and the open reached, three divisions of British cavalry, 45,000 men in all, swept through the gap to seize towns far behind the original German lines.

The battle line (1) extended from the River Scarpe to San Quentin. The entire German line from Bapaume Cambrai road (2) to the Canal du Nord (3) was captured. Noyelles (4) was one of the advanced positions reached by the English.

MAY CLASS RUSSIA AS ENEMY NATION

BOLSHEVIKI MOVE FOR PEACE THREATENS RELATIONS WITH AMERICA

FRANCIS CONFIRMS DISPATCHES

Ambassador Cables Washington That Armistice Has Been Proposed by New Government.

Washington.—Officials of this government regard the Bolshevik move for an armistice between Russia and her enemies and the opening of immediate peace negotiations as an act that would place Russia almost in the list of unfriendly nations.

Press dispatches telling of the peace movement have been confirmed by a cablegram from Ambassador Francis. It said that Leon Trotsky, national commissioner for foreign affairs in the Bolshevik government, had sent formal notification to diplomats at Petrograd that his government had proposed an armistice with a view to immediate peace negotiations.

Presents Grave Problem.

It was pointed out that should these negotiations be successful, it would be most difficult to deal with Russia as a neutral country, in view of the position she has held as an ally of the nations fighting Germany and the marked advantage in the war that such a course might give the latter country.

Ambassador Francis has been given no instructions to deal with the Bolshevik government. In reporting to the state department on the peace move, he made it clear that he had been advised that the Soviet congress had adopted a resolution instructing generals at the front to enter into negotiations at once with the German commanders relative to a three months' armistice, with instructions to report to the congress.

Ambassador Francis's dispatch, dated November 21, dispels any hope of a strengthening of Russia's resistance unless the Bolshevik government should be quickly overthrown by a counter revolution.

CAUCASUS FORMS NEW NATION

Breaks Away From Russia—Parliament of 40 Deputies Formed.

London.—The Caucasus has declared its separation from Russia, according to dispatches from Petrograd. A parliament of 40 deputies—members of the socialist parties and one bolshevik adherent—has been formed. The news was carried to Petrograd by Mr. Tsereteli, former minister in the Kerensky cabinet.

Scaffold Breaks, Three Men Hurt.

Detroit.—Three men were injured, one fatally, when a scaffold upon which they were piling cement blocks gave way, carrying the men to the basement four stories below, where they were buried beneath hundreds of pounds of building material. They had loaded the contents of three wheelbarrows containing the cement blocks on the scaffold when it broke under the strain, pulling out nearly 10 feet of the wall. The building is an apartment house under construction.

BRITISH STILL PUSH FORWARD

German Resistance Desperate—Italian Lines Hold Firm.

London.—Hard fighting continues in the battle of Cambrai with the British pushing determinedly northward on the Fontaine-Queant line, west of Cambrai.

The Germans are resisting desperately the British advance, which is being pressed most energetically on this east-to-west front. General Byng's evident intention is to drive in behind the main Hindenburg line, breached in last week's surprise attack and the Queant-Drocourt switch line, while still pushing his encircling movement of Cambrai to the north and east.

Italians Hold Firm.

Rome.—The Italians have now completed a successful two weeks' defense of their Piave line and the northern front protecting its flank. Although they have had to yield ground during this time on the front between the upper Piave and the Asiago plateau, their defensive line remains unbroken.

CUT USE OF ELECTRIC SIGNS

No Advertising Sign in State Must Burn After 11 P. M.

Lansing.—State Fuel Administrator W. K. Pruden has notified the managers of the power companies and municipal lighting plants that from now on the use of electricity for any signs used entirely for advertising purposes is prohibited except under the following conditions:

Electric signs over business places from one-half hour after sunset until the closing time of said business, but in no case later than 11 p. m.; theatres or places of amusement, where the signs must be darkened one-half hour after the performance begins, and the size of the sign may be regulated by the fuel administrator; porch lights on houses or hotels, railroad yards, location of fire escapes, or lights for similar purposes, when authorized by the fuel administrator.

Waterways to Be Protected—Michigan Ports Included in Order.

Washington.—Following Saturday's order by which the port of New York was declared a military district of the United States, all other ports in the country will be put under federal law as soon as possible.

Men of the regular army, fully armed, with strict orders to act if necessary, will patrol municipal waterfronts to exclude all persons having no real business there, principally alien enemies.

Several Michigan lake ports will come under this order.

Pontiac.—Miss Marie Kierm, the only accredited Red Cross nurse in Pontiac, and one of the two in Oakland county, received orders to report to Camp Shelby, Hattiesburg, Miss.

BOMB KILLS 11 IN POLICE STATION

FOUND IN CHURCH BASEMENT MISSILE EXPLODES WHILE BEING EXAMINED.

BRO'T TO STATION BY ITALIAN

In Addition to Those Killed, Five Are Injured By Blast—Lower Floor of Building Wrecked.

Milwaukee.—Eleven persons were killed and 5 injured Saturday night when a bomb, designed to destroy the Madonna del Pompeii church, in the heart of third ward, an Italian settlement, exploded in central police station, where it had been carried for examination.

Seven detectives, three policemen and one woman were killed. Three detectives, the station keeper and the desk lieutenant were injured. The bomb, evidently with a time fuse attached, was found in the basement of the church by an Italian, who took it to the police station.

While the Italian was being taken into the office of Lieutenant Flood for questioning, Desk Sergeant Henry Deckert took the bomb into the patrolmen's room.

Meanwhile detectives were answering roll call on the second floor and just before dismissal they were informed that the bomb had been found. On going down stairs they grouped about the missile. It was then that the bomb exploded, killing seven of the number instantly.

The lower floor of the building was shattered and every window throughout the structure was broken by the shock.

The bomb was intended for the Rev. August Giuliani, who several months ago caused the arrest of anarchist leaders. Since then the Rev. Giuliani has been threatened several times and was in seclusion at Madison.

U. S. DESTROYER SINKS U-BOAT

Officers and Crew Prisoners—Craft Disabled, Sunk by Treachery.

Washington.—The United States navy has strayed a submarine for all the world to see. This time there is no shadow of a doubt. Forty-five Germans, officers and crew, are prisoners aboard a destroyer or landed at an allied port under guard.

The news came first in an official bulletin from the secretary of the navy, Mr. Daniels. It told how a destroyer sighted a periscope and charged on the flash. An American depth bomb struck the sea viper. Viciously stricken she came to the surface.

While the crew was being rescued, one of them slipped back into the hold and opened the submerging valves, sending the craft to the bottom, thus depriving the Americans of their prize after a line had been fastened to tow her into port.

Another dispatch on the sinking of the U-boat said that all of the crew went down and were lost, but the first one seems to be authentic.

MEAT PACKERS PROFITS CUT

Government Regulation of Industry Aims to Reduce Retail Price.

Chicago.—Regulation of the packing industry, so that the price of meat to the retailer and consumer may be both stable and cheaper, was announced Saturday by Joseph P. Cotton, chief of the meat division of the United States food administration.

The annual earnings of the five big packing houses cannot exceed 9 per cent on the average capital used in the business. This applies to the sale of meats.

On the side lines developed by the packers, such as the making of soaps, leather, glue and fertilizers, they are to be allowed a profit not to exceed 15 per cent on their investment.

SUBWAY PROPOSED FOR DETROIT

Project, Costing \$75,000,000, Recommended by Traffic Experts.

Detroit.—Detroit must be ready when the war ends to build a joint subway and elevated rapid transit system, Barclay, Parsons & Klapp, New York traffic experts, have reported to Mayor Marx.

A complete unified surface, overhead and subway system, which they recommend, would cost \$75,000,000. A subway out Woodward avenue to the boulevard is the first advocated. This would mean a \$51,000,000 investment, including the car company cost. With an east and west system added it would be \$75,000,000.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

One Happy Thought.

A party of "Jocks" were partaking of bully beef and biscuits in the trenches. They sighed as they chewed and then one burst out:

"Just think o' boys, two eggs, fower slices o' bread, and a bowl o' tea for half a franc!"

There was a sudden silence, and when the little party had recovered from their dizziness one asked:

"Where can ye get all that?"

"Nae place," answered the first speaker sadly. Nae place. But just think o' it!"

ONLY A CASE OF BALDNESS

"Phalacrosta," as Described by Doctor to Jury in Assault Case, Gains Acquittal of the Accused.

The following example of a puzzled jury is taken from an American Journal, remarks a British exchange. A "leading citizen" in a certain town was taken before the magistrate charged with assault and battery. One of the witnesses was a local doctor, whom the prosecuting attorney proceeded to worry, suggesting that he was prejudiced in favor of the defendant and had therefore willfully distorted his evidence in his favor. The doctor denied this, and went on to say that the defendant was suffering from "phalacrosta."

"Th word caused a sensation in court, and asked to define the disease, the doctor described it as 'a sort of chronic disease of an inflammatory nature which affects certain cranial tissues.' Asked if it affected the mind, the doctor said he was not posing as an expert, but he had known some persons who were suffering from the disease become raving maniacs, others merely foolish; some showed destructive and pugilistic tendencies, while many others had suffered for years and had never shown any mental abnormalities. He refused to say anything further, and the jury promptly acquitted the 'leading citizen,' because, as the foreman explained, 'Duc said there was something the matter with his head.' When the case was over the prosecutor sought enlightenment as to the mysterious disease, and found that 'phalacrosta' meant—baldness.

THE NEW METHOD

(By L. W. Bower, M. D.)

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys; hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things.

The latest and most effective means of overcoming this trouble, is to eat sparingly of meat, drink plenty of water between meals and take a single An-uric tablet before each meal for a while.

Simply ask your favorite druggist for Anuric, double strength. If you have lumbago, rheumatism, gout, dropsy, begin immediately with this newest discovery of Dr. Pierce, who is Chief Medical Director of Invalids' Hotel and Surgical Institute in Buffalo, N. Y. Send 10 cents for trial pkg. Large package 60c.

A PROMINENT MICHIGAN RESIDENT SPEAKS

Osseo, Mich.—"I can recommend Anuric to anyone who is afflicted in the way I was. The Anuric Tablets have done wonders for me. I am still using them and I think another supply will perform a permanent cure. I have lived in this neighborhood for about 50 years and most people round here know me."—CHARLES WAKEMAN.

An Old Man's Stomach.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets for correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—Adv.

HUTZEL'S IS A CLOTHES SHOP For All of Washtenaw County

IT ISN'T MERELY A LOCAL AFFAIR—JUST FOR ANN ARBOR. INDEED IT PRIDES ITSELF UPON THE FACT THAT ITS HUNDREDS OF FRIENDS OUTSIDE OF ANN ARBOR THINK OF IT AT THE SAME MOMENT AS THEY THINK OF NEW CLOTHES.

Now this question of

COATS

is a very important one.

In a practical year, like this one, good, sturdy warmth is the first requirement. And then, too, it must be combined with attractive cut, with good tailoring.

We have such coats—burellas, bolivia cloths, meltons, broadcloths—Coats for every purpose and type of woman—And of every smart color.

PLUSHES

are especially fashionable this year—so we are featuring Plush Coats at \$25.00.

FURS

No woman is a competent enough judge of furs to be perfectly sure that she is getting her money's worth if she buys "just anywhere"? But Hutzel furs have a solid reputation for quality behind them—our guarantee goes with every piece!

Main and Liberty Streets
Ann Arbor

HUTZEL'S

Never Put Lye In Sink.

Never put lye in the kitchen sink. A great many misinformed people, when the drain becomes clogged with grease that never should have been poured into it in the beginning, immediately empty a lot of lye down the pipe. They wonder why the plumber has to be called then. Lye and grease make soap, and the misguided ones have simply tilted the drain with it.

For a Weak Stomach.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—Adv.

-Shoes and Repairing-

We have a line of good Work Shoes from \$2.50 to \$4.00. All leathers. Shoe repairing a specialty. The best oak leather used.
