CHELSEA HIGH TEAM DEFEATS MANCHESTER

Local Pig Skin Artists Piled Up the Largest Score of the Season: 42 to 0.

Manchester high school football team was defeated by the Chelsea high school team Friday afternoon at Alber field in this village by the largest score the Chelsea lads have been able to run up this season, the final count being 42 to 0.

Manchester won the toss and Chelsea kicked off to them. The visitors lost the ball on downs and Chelsea made a touchdown, E. Mohrlok carrying the ball over the line. Chelsea was able to tear up the visitor's line for 10 yards or more at will and Alber and Brooks also carried the ball over for touchdowns. Score at the end of the first half—Chelsea, 18; Manchester, 0.

The second half opened with Manchester kicking off to Chelsea and on the second down Brooks ran 35 yards for a touchdown. During this half Chelsea tried out many of her subs in the line and shifted the backfield around, but still Manchester was unable to make gains and E. Mohrlok and Brooks each made two touchdowns. Final score—Chelsea, 42; Manchester, 0.

Friday afternoon Chelsea and Clinton high school teams will meet on the local gridiron. Clinton has already defeated Manchester 59 to 0 and so the depositors expect a close and interesting contest. The game will be called at 2:30 at Alber field.

IN AUTO ACCIDENT NEAR JACKSON

Verne Mayette and Friend Injured And Former's Car Was Badly Damaged Saturday Night.

Verne Mayette of Chelsea and Miss Irene Radie of Jackson were painfully but not seriously injured Saturday night in an automobile accident near Jackson.

Mr. Mayette was driving east towards Chelsea and near the Roundtop school met several machines with dazzling lights. As a result he became confused and his machine was ditched and badly damaged. Fortunately, Mr. Mayette's injuries are no more than painful scalp wounds, while his companion suffered from severe bruises and nervous shock.

Following the accident, thieves stole many parts from the car, including the tires, spot-light, and several of the smaller tools.

The car was an Oakland-six recently purchased by Mr. Mayette from George Clark. The license had not been transferred to Mr. Mayette, which gave rise to the rumor that Mr. Clark had been injured in the crash.

CLAIMS HE WAS SHOT

Allen Hart of Lyndon Reiterates the Original "Hold-Up" Story.

Allen Hart, the young man who figured in the sensational shooting near Gregory on the night of October 18th, now reiterates that "hold-up" men wounded him, according to statements made by his mother to members of the American Legion here. That was the explanation the boy originally made, but later when the Livingston county officials started to investigate it is said Hart told the sheriff that he might have shot himself accidentally.

It is said that the articles which he was alleged to have taken from the Judson home before the shooting, including a revolver, have since been found about the house, which would give some credence to Hart's original story about being held-up and shot by unknown assailants near the Fulmer school house.

Hart is an ex-service man and served overseas. He is a member of Herbert J. McKune Post No. 31 American Legion of Chelsea.

WRECKING SCHOOL HOUSE.

Upon several occasions, of late, unknown persons have broken into the Barcis school house, 2½ miles southeast of Chelsea, and have done considerable damage to both building and contents.

At present, the district is not maintaining a school and is sending its boys and girls of school age into Chelsea, so that the building is seldom used. Also, its location in the corner of a wood-lot and at some distance from an occupied house make it particularly liable to the depredations of wanderers.

But the township board is investigating the matter and we are informed that Supervisor Russell Wheelock will see that the guilty parties are dealt with according to law.

PECULIAR ACCIDENT.

Claude Burkhart of North Lake, principal of the Crystal Falls school, recently had a peculiar accident, which is reported in the Crystal Falls Diamond Drill as follows:

"C. A. Burkhart met with a slight accident Tuesday evening. While returning in his "King Henry" with a party of friends from a little picnic at Mansfield dam he had tire trouble. He got out to examine the tire when it blew out in his face, temporarily blinding him. He was able, however, to attend school the following day."

LINER ADS EFFECTIVE.

One of the most effective forms of advertising is the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

WASTED WATER POWER?

In Manchester there is need for an all-day electric light and power service, says the Enterprise, and there is some talk of building a transmission line from Clinton and purchasing the power from that village.

Manchester already has an electric plant which furnishes lights for a limited time each evening, but the service is evidently inadequate. The village also owns a water power, but for some reason hesitates to develope it.

Possibly the water power is not sufficiently large to operate a hydro-electric plant, but if it is, or can be made efficient by the outlay of possibly $25,000 to $50,000, we'd say that Manchester has a little gold mine right at its doors.

Over in Sturgis, St. Joseph county, there is a municipally owned hydro-electric plant which cost that city over a quarter of million of dollars, the bulk of which was spent on a water power located 17 miles from the city, but it has been a good investment for Sturgis.

If we lived in Manchester we should be interested in seeing the development of its municipal water power if a survey should show the project at all practical.

RED CROSS NEED OF MONEY TOLD

Work Must Be Carried on Across the Waters and in the United States.

PEACE PROGRAM PLANNED

Enrollment Is a Vote of Confidence in the Future and an Appreciation of Tasks Accomplished.

The American Red Cross is preparing to launch its third Roll Call, to be held from Nov. 2 to 11, for 20,000,000 annual members and $15,000,000.

The first question that will arise is:

"Why does the Red Cross need money? The war is over."

National headquarters of the American Red Cross has answered this question, and has outlined graphically the reasons why it is necessary to raise $15,000,000 for its international, national and local work.

In brief the answer is as follows:

Because: The actual war work is not completed. The Red Cross cannot lay down its responsibilities to the American soldiers, sailors or marines until everyone of them has been released from service, recovered from illness or wounds or receiving proper care, or back in the place in the world from which the war snatched them.

Because: The American Red Cross is planning to launch a comprehensive program for peace times, designed to prevent the needless waste of human lives through preventable diseases and accidents in America; continue and broaden its home service work and public nursing, first aid, home hygiene and Junior Red Cross activities.

Because: By a recent act of Congress medical, surgical and dietary food supplies valued at $35,000,000 were turned over to the Red Cross by the government, the supplies having been purchased for use with the American forces. These supplies are scattered throughout Europe, many of them far from the places where they are most needed. The prompt and efficient distribution and handling of these supplies means the maintenance of a force of trained workers where the supplies are and where they are most needed.

Because: Pestilence and starvation have gripped many European countries because of the war. These countries are unable to cope with their own difficulties, and the only force organized with facilities capable of stepping into the breach and bringing order from chaos is the Red Cross. Typhus is sapping the man strength of many countries, and the American Red Cross is using every available power to check it.

Because: The Red Cross must be prepared to meet emergencies arising from disasters at home and abroad.

The Red Cross membership must be maintained at its present high standard. Every enrollment is a vote of confidence in the past performances of the American Red Cross and a reaffirmation of the belief in the principles for which it has stood in the past and its plans for the future.

The Red Cross, having committed itself to a definite and comprehensive program, cannot turn back, and to go forward it must have as general a membership as possible and ample funds to provide for any contingency.

MAKERS SET PRICE OF CLOTHES

Dealers Testify That Manufacturers Dictate Retail Price.

Lansing, Mich.—That retail prices for many standard brands of men's clothing and furnishings are practically fixed on uniform scale, thereby eliminating competition through price cutting, was the conclusion to be drawn from testimony in the high price investigation before Judge Wiest last week.

Manufacturers of certain well known makes of shirts, collars, suits and other wearing apparel set the price at which these goods are to be sold at retail and object to any diversion.

Testifying as to price advances in men's clothing, F. J. Clayton, a Detroit clothing dealer, declared that in the lines he handled a suit which retailed before the war at $45 is now $85. A $30 suit four years ago is now $52. A suit which before the war cost Mr. Clayton $12 now cost about $22. Boys' suits of $10 wholesale four years ago are now $22.50.

A gross profit of from 25 to 33 1-3 per cent on the selling price, or the equivalent of 33 1-3 to 50 per cent on the wholesale price, is the margin figured on by the Clayton company, according to Mr. Clayton.

ELECTION QUIZ UNDER WAY

Grand Jury Sifting Charges of Fraud in Newberry Case.

Grand Rapids, Mich.—About three weeks is Special Prosecutor Frank C. Dailey's estimate of the time that will be required by the federal grand jury to complete its probe of the last United States senatorial primary election.

That alleged connections between the Newberry organization and the labor union forces in several towns will be probed appeared to be on the cards.

There are also strong opinions that the results of the grand jury investigation may be used as an argument in the investigation of election by the United States senate. This investigation and recount were asked on behalf of Henry Ford, but no decisive steps have as yet been taken by the upper house.

NEW EXPRESS REGULATIONS

Shipments Weighing Over 25 Pounds Must Be More Securely Packed.

Detroit.—New regulations requiring special packing for all express shipments of more than 25 pounds weight have been adopted by the American Railway Express company, but will not go into effect until December 10. Under the new regulation all shipments sent by express weighing over 25 pounds, must be packed in wooden containers, or cartons of fiber-board, pulpboard, or corrugated strawboard material, of specified "test strengths."

The new order does not affect the movement of food products by express, which are ordinarily shipped in crates or barrels.

STRIKE ILLEGAL, MINERS ARE TOLD

WILSON WARNS COAL WORKERS THAT U. S. WILL ACT IF WORK IS SUSPENDED.

SAYS WAR IS NOT YET ENDED

Government Will Protect Interests of Nation He Says—Offers Mediation.

Washington.—President Wilson issued a formal statement last Saturday night, with the approval of the full membership of his cabinet, declaring the projected strike of bituminous coal miners under present circumstances "not only unjustifiable; it is unlawful."

The statement called upon officers of local unions to recall orders for the strike and added:

"I can do nothing less than to say that the law will be enforced and means will be found to protect the interests of the nation in any emergency that may arise out of this unhappy business."

The president's statement was issued after his cabinet had gone over the entire situation with Secretary Wilson of the labor department, whose efforts to bring the miners and operators together in negotiations had failed.

In his statement, the president reviewed the steps leading up to the strike call, including the Cleveland convention of the United Mine Workers of America one month ago, at which the demands for a 30-hour week, and a 60 per cent increase in wages were formulated.

The war in itself, the president asserted, still was a fact, peace negotiations still in suspense and the troops still being transported.

Because of these factors and the added consideration that victims of the strike would be among both the rich and the poor of the nation, the president said the proposed walk-out could only be considered as unlawful, and, as the nation's executive, intrusted with enforcement of the law, he would use the means at his disposal to prevent any stoppage of work.

The services of the government as mediator, were again held out, the president declaring, he held himself in readiness, at the request of either or both sides, to appoint a commission to investigate the situation, to effect an orderly settlement of disputed questions with due recognition of the rights of the miners, the operators and the public.

SHARP DEMAND SENT MEXICO

Carranza Told to Rescue American Consul From Bandits At Any Cost.

Washington.—Acting on instructions from the State Department, the American embassy at Mexico City has demanded of the Mexican government that it effect the release of William O. Jenkins, American consular agent at Puebla, who is held by bandits for $150,000 ransom. The American Government insisted that if necessary the ransom be paid by Mexico.

Coincident with this announcement today, Senator Myers (Dem.), Montana, introduced a resolution calling on President Wilson to use the armed forces of the United States if necessary to bring about the release of Jenkins and to punish his captors.

President Carranza has ordered the authorities at Mexico City to make every effort to bring about his release, and the Mexican foreign office has assured the American embassy that energetic action is being taken.

LABOR LEADERS DEFY CONGRESS

General Walkout Threatened If Anti-Strike Law Is Passed.

Washington.—Organized labor intends to preserve the right to strike, officials of the American Federation of Labor said in warning that passage in congress of anti-strike legislation proposed in the pending railroad bill would result in an immediate general walkout over the country. This is the concensus of opinion among labor leaders.

Timothy Shea, acting president of the Brotherhood of Locomotive Firemen and Engineers, issued a formal statement Sunday night, giving congress notice that his organization would not obey this proposed law.

He said it was a foregone conclusion that the railroads contemplate a general reduction in wages when the government surrenders control and desire such a measure to forestall a strike.

Luikart Children Taken Home.

Chicago.—Shirley and Edna Luikart, brought here from Detroit desperately ill, have so far recovered from the effects of mercurial poison that their father, Roy Luikart, has been permitted to take them home. Edna has entirely recovered and it is difficult to curb her exuberant spirits. Shirley, into whose tissues the poison bit more deeply, is now considered out of danger, although she is still weak. They continue to ask for their mother.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filterers of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning.

After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

Shorthorns in America 133 Years

The first purebred Shorthorn cattle were brought to the United States in 1783, a small shipment being imported from England. Its limits kept pace. The Shorthorn has had more to do with the improvement of cattle in this country than any other breed—probably than all other breeds. It is the combined beef and milking quality of the Shorthorn that has made the profits on the farms, plantations and ranches. It pays to use Shorthorn bulls. If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

Save the Babies

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. There can be no danger in the use of Castoria if it bears the signature of Chas. H. Fletcher as it contains no opiates or narcotics of any kind.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

MOVE TO REVISE CALENDAR

Advocates of Change Will Bring the Matter to Attention of League of Nations.

One of the first projects to be laid before the League of Nations, when it gets ready for new business, is one to revise the calendar and make it uniform throughout the world. Bureau officials of the United States, Switzerland and Great Britain got into touch with church officials before the war on the subject of calendar revision, and have kept up consideration of the matter since. Church leaders say an agreement has been reached and a uniform report is nearly ready to go to the league.

The calendar has not been revised before because of objections from the churches to dates for the great religious feasts. These objections are said to be removed. A fixed date for Easter, the adding of a thirteenth month, the making of every week begin with a Sunday and having exactly 28 days in each month—these are the main features agreed on. Church people favoring the revision say that if the league itself cannot act, it can designate a calendar congress to do so, to sit at Geneva.

Careless Driver Apparently Unable to See Wherein He Had Been Given Any Help.

—The horse had run away, and was tangled up in the wire fence at the side of a muddy road. Its half-witted owner had kicked and sworn and tried to lift the animal till he was out of sorts and covered with mud.

A well-groomed man came along, took in the situation, and suggested: "Spring the fence back, then he can get his feet free."

The owner of the horse did as he was told. "Now give him a cut with the whip and he'll get up himself."

This the owner also did. Then he looked at the horse, up and ready for travel, looked at himself, covered with mud, and looked at the immaculate gentleman in the road. Wrath filled his soul.

"Well, he grumbled, "thank you just as much as if you'd helped me."

Middle Aged Women

Are Here Told the Best Remedy for Their Troubles.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. FLORENCE ISELLA, Box 197, North Haven, Conn.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case. Adv.
