### COMMUNITY WILL CONTINUE TO USE HOLMES MEMORIAL FIELD

Individual Subscription. Contributions by School Board and Council Will Pay Expenses This Year.

Chelsea and vicinity will continue to have use of the Holmes Memorial Field during 1927, following action of the village council on Monday night, and the school board at a recent meeting, when these two bodies voted to contribute toward maintenance of the field as an athletic ground to be used by the entire community. A committee, acting under auspices of the golf club and other organizations has made a canvass of the village and secured more than fifty subscriptions of \$10 each which, added to amounts to be received from the village, school, baseball league and greens fees, is expected to be sufficient to meet the needs of the field for the year.

At the meeting of council Monday evening, it was voted to meet any deficit incurred up to \$250—if that amount be needed in operation of the field. The board of education will pay \$100 toward the fund so that the field may be used by the school for athletic sports. At least \$70 will be paid by the baseball league, and it is estimated that \$250 will be received in greens fees this summer. Operation of the field will be left in the hands of publicly elected officers and it is for this purpose that a meeting is called for Friday evening, 8 o'clock, at the Freeman's hall. It is earnestly hoped all who are interested, including the ladies, will attend this meeting.

### ROAD COMMISSION ACCEPTS HIGHWAY

The improved Waterloo road between M-42 out of Chelsea to the Washtenaw-Jackson county line, has been accepted by the county road commission following an inspection by A. R. Bailey, engineer-manager of the highway organization.

The Waterloo road, which is the first highway in Lyndon township to be improved, is gravel and is about four and a half miles in length. The Jackson county road commission constructed about a half mile of gravel highway in its district to connect the road with the village of Waterloo.

Improvement of the route was begun last fall but inclement weather forced the contractor to cease operations and renew them early this spring.

Besides being the only improved road in Lyndon township, the Waterloo route will open up the territory between the villages of Chelsea and Waterloo—residents of which heretofore have been forced to use indirect routes to reach one or the other village.

The road also is expected to have a beneficial effect on the surrounding lake country as it will be the only improved route over which motorists may travel to four different lakes in that region.

### JUNIOR PLAY WILL BE PRESENTED FRIDAY NIGHT

Ladies of the high school will present their annual play at the public school auditorium on Friday evening when "Cyclone Sally," a comedy in three acts, which promises to be one of the best attractions of the season will be given. Nine members of the cast take part in the play, the entire class of characters being given in an advertisement in another column. The program will start at 8 o'clock and admission is 30 and 40 cents.

Mrs. Alma Boyce.

### CONTRACTS LET ON TWO COUNTY ROADS

Contracts for the construction of two more highways in Washtenaw county have been let by the county road commission.

The Koch Building & Supply Co., Ann Arbor, has been awarded the contract for building the Macon-Britton route, a three-mile road south of Saline, and the work of constructing section 5 of the North Territorial road has been given to W. E. Bowler, Clark.

The Macon-Britton road runs from M-23 three miles south of Saline while section 5 of the North Territorial highway begins at the Portage Lake road and extends to the east end of North Lake. Mr. Bowler was the contractor on section 4 of the territorial road which adjoins the piece for which he just has been awarded the contract.

Otto D. Luick, Chelsea; George W. McCulla, Ypsilanti; and Forrest W. Roberts, Salem, members of the county road commission, and A. R. Bailey, engineer-manager of the organization, were in Pontiac Friday, where they conferred with the Oakland commission.

The conference concerned roads in each county which might be connected and made through routes. The Washtenaw commission is not contemplating the construction of any highways of this nature at present but the Oakland commission is considering plans for some and for this reason called the conference.

### PHILIP STEGER PASSED AWAY IN DETROIT, SUNDAY

Philip Steger, youngest son of August and Hattie Steger, was born in Chelsea, September 22, 1880, and died Sunday, May 1, 1927, in a hospital in Detroit, following an infection caused by a carbuncle on his neck.

He had been a resident of Detroit for the past 15 years, and during all that time had been employed by the Dodge-Brothers manufacturing concern.

He is survived by two brothers, Alvin Steger of Detroit, and Dr. A. L. Steger of Chelsea, two sisters, Mrs. Lula Spiegelberg of Ann Arbor, and Mrs. Mina Defendorf of Grand Blanc, four nephews and one niece.

The remains were brought here Monday to the home of Dr. and Mrs. A. L. Steger, where the funeral was held at 2 o'clock Tuesday afternoon. Rev. Walter Firth conducting the services. Interment in Oak Grove cemetery.

Flag Salute—By the Corps.

After the program they all went to the W. R. C. hall, where a social evening was enjoyed. Music was furnished during the evening by Fred Gontner and daughter, Lottie.

### CONGREGATIONALISTS TAKE NOTICE

Sunday, May 8th, is MOTHER'S DAY!

Between Easter and Children's Day how beautiful to observe a "Mother's Memorial Day," the white carnation, the memory flower, the emblem of the purity and fragrance in the lives of holy motherhood. Jesus, Home and Mother are the words that touch the heart of the world deeper than any others.

A friend once said to S. S. Prentice, "I congratulate the mother who has such a Son." He replied, "Rather congratulate the son who has such a mother." So say we all. To the man who has a good mother, all women are sacred.

On Sunday morning our church will hold a service in honor of our mothers. Your church respectfully draws special attention to this service and earnestly hopes to have the privilege of welcoming our future constituency.

Rev. Albert H. Butts, Pastor.

### CARD OF THANKS

We wish to thank those who attended the funeral for the late Mrs. Elvin Smith of Alma, Mich., and two grandsons, two brothers, and a sister, preceding him in death.

### LARGE CROWDS ATTRACTED BY LEAGUE BALL GAMES

Odd Fellows and Catholics Emerge Victors in Two Opening Games of Season; Masons - K. of P. Play Tonight.

Interest in opening games of the baseball league proved community-wide on Monday and Tuesday evenings when large crowds gathered at the golf grounds north of town to take stock of the caliber of players. On Monday evening the Catholics and Methodists did the grandstand stuff, giving fans the initial treat of the season and the Catholics won, 8-2. Tuesday evening the Odd Fellows and St. Paul's entertained the crowd with a good game in which the Odd Fellows won, 6-1.

The game this evening will be played between the K. of P. and Masons.

According to officials of the league there is need of several good, husky men out at the golf field most any evening to erect a substantial backstop and otherwise prepare the grounds for more effective playing.

As the teams stand:

### AUTOMOBILES COLLIDE AT ROGERS CORNERS

Serious injury to two automobile drivers was narrowly averted at Rogers Corners Sunday morning, when Elmer Wenk, driving a Reo touring car, ran into an Overland Whippet four coach, causing both cars to turn over. The Reo is said to be a complete wreck and the Whippet is a partial wreck as the result. Wenk was slightly cut and bruised and Buss was badly cut about the head and otherwise bruised. Buss was approaching the corners from the west and Wenk was coming from the south, church sheds obstructing the view of both drivers.

### MRS. MINNIE GAGE

Minnie Main, daughter of Henry and Zilla Main, was born in Waterloo township, Jackson county, Michigan, July 20, 1857, and died Tuesday, April 26, 1927. June 20, 1877 she was united in marriage with H. A. Howes, who died in 1895. The greater of their married life was spent in Jackson.

Later she was married to Clarence Gage, who passed away several years ago. As a young girl she united with the M. E. church at Francisco. While living in Jackson, she became an active member of the First M. E. church of that city. For several years she made her home with her brother, Gilbert of Sylvan township, where she passed to the home not made with hands eternal in the heavens.

### EUGENE SMITH DIES AT SYLVAN HOME SATURDAY

Eugene Smith was born in Stockbridge township, May 17, 1857, and departed this life Saturday, April 30, 1927. He was the son of Hiram and Ann Smith. He was united in marriage with Lefie M. Phelps, March 15, 1888. Two children were born to this union, Flossie M. Martin and George Phelps Smith. His entire life was spent in the vicinity of Stockbridge, Caynauagh Lake, and the present home at Sylvan.

He leaves to mourn their loss, his wife, one daughter at home, a son, of Ann Arbor, one brother, Elvin L. Smith of Alma, Mich., and two grandsons, two brothers, and a sister, preceding him in death.

A manly soul now passes Bravely thru the night, And gains eternities fair goal, Undaunted still, and spotless While the struggle's o'er, The setting sun-blazes a pathway to the west— The conqueror lays his armor down, The stamps of victory on his breast. ### When Good Cooks Get Together

There was a big party in New York the other night, given by notables in the hotel world. Oscar, the famous chef of the Waldorf, led the grand march, and when it came supper time, everybody was curious to see what the elite of the culinary world would serve to their own guests. Surely a world-famous chef would outdo himself on an occasion like this and devise dishes the like of which not even the gods enjoyed. But no! The menu cards read—"Chicken Salad, Assorted Sandwiches, Fancy Ice Cream, Small Cakes"—just the same old evening-party combination, but very nicely done, of course.

All of which emphasizes a great culinary truth—the old favorite dishes never fail to delight us when they're well prepared. ### MOTHER'S DAY

The saving tenderness of a feverish age is the immortality of the home ties, whose chief sentiment envelops the motherhood which cradles us. Ever since mankind discovered capacity for emotion the world's sons and daughters have striven to express something of the gentleness, something of the profound love and sacrifice, something of the great and noble symbolism embodied in the word "mother."

There is sentiment, and there is sentimentality, but the feeling which binds earth's children to bear thoughtful remembrance toward the genius of the home defies the straight boundaries of definition; it is the truest, purest, impulse, neither arguing nor explaining, but justified in love and duty. Searching the walls of art galleries and the verses of poets one may find ever some new compelling light on the loftiness of motherhood; but, for the most part it is not necessary to search beyond the walls of one's heart and within the verses of individual experience to know that the loveliest thing of creation is enshrined in the word "Mother."

If it be necessary to set aside a day to urge us to turn back and smile a message to those figures of sublimity, then let it be with quick, generous and lasting sincerity. For on "Mother's day," not only this happy little woman or that grave grey figure are to know that children do not forget, but all the mothers of all the years can share something of the spiritual benediction which springs from a universal tribute.

### SABBATH MADNESS

The Sabbath, once the day of rest, is now fast becoming known as the day of eternal rest. For more people now go to an untimely death on that day than any other day of the week. Mad-motoring is responsible for this ghastly charge.

The Sabbath was made for man, to be sure, but not for the exercise to his uttermost folly. Yet as surely as Monday rolls around we have the gruesome front page news of the dead, the dying and the injured who have apparently gone mad over Sunday and have paid the price.

This is not the full extent of the bad uses to which we are putting the Sabbath day, although they are the most spectacular. Add to this list the jangled nerves of many a good wife, the tired body of many a husband, the unnatural stimulation of many children of the families that rise early and start out on a quest of distance.

Fast and furious driving is likely to mark such a trip, with many near accidents. The mind, body and soul undergoes almost every experience and emotion except those of rest and repose and recreation. Then the home ward journey and the sleep of exhaustion or, what is more likely, the sleeplessness of exhausted nerves.

The pendulum swings from extreme to extreme. The deathly silence and stupor of the Sabbath of the past is gone and probably gone forever. But the deathly clamor of our Twentieth Century Sabbath is equally impossible. Wise motorists avoid Sunday travel as much as possible, or seek byways and unfrequented places. Or, what is best of all, use the care to take them a relatively short distance to a spot where they may make the most of the day in the rest and recreation of body and spirit which alone justify the Sabbath.

### DEGRADATION OF SHORTCAKE

A rural correspondent voices in a communication a thought which has been in the minds of thousands but until now has not found adequate expression. He gives utterance to a feeling of regret, bitter and poignant, at the passing of old-fashioned strawberry shortcake; for, as he truly states, the food which is now masquerading as that delectable confection is a fraud and delusion unworthy of the name it bears. It is a timely and dignified protest against the degradation of what was once and still should be the noblest offering that can grace the vernal festival board and delight the palate of man.

The false strawberry shortcake is a sponge cake affair and the berries are not numerous. The real thing, as the correspondent says, is made of soda biscuit, baked in bread pans, with plenty of "shortening" to make it light, and not too rich. A layer of the cake should be covered with berries crushed with sugar, on top of that another layer of cake and more berries; layers ad libitum, berries ad infinitum, "and on the top layer as many berries and as much juice as will stick." Compared with this, he says, "lotus eating is a piker's pastime." And those in whom recastile memories will be aroused by his description, and whose mouths will wat-

as they read it, no doubt will heartily endorse his opinion.

Three hundred years ago old Isaac Walton, seeking to extol the gentle art of angling, could think of no higher praise of it than to compare it to the strawberry. It ranked among sports, he said, as the strawberry ranks among berries, and quoted with approval the words of Dr. William Butler: "Doubtless God could have made a better berry, but doubtless God never did."

Mrs. Mattie Schultz of San Bernardino, California, arrived in Ann Arbor Friday. She will spend considerable time with her sister, Mrs. Bertha Noah.

### Keep Eliminative System Active

Good Health Requires Good Elimination

One can't feel well when there is a retention of poisonous waste in the blood. This is called a toxic condition, and is apt to make one tired, dull and languid. Other symptoms are sometimes toxic backaches and headaches. That the kidneys are not functioning properly is often shown by scanty or burning passage of secretions. Many people have learned the value of Doan's Pills, a stimulant diuretic, when the kidneys seem functionally inactive. Everywhere one finds enthusiastic Doan's users. Ask your neighbor!

The Governor's proposed new contract with the Grand Trunk railroad on the removal of its tracks through Birmingham territory came up for the consideration of the legislature Thursday afternoon.

The deficiency bill, announced some time ago, was introduced in the Senate Monday night by Senator C. Sulivan of Grand Rapids, chairman of the finance committee.

Governor Green, in vetoing the item providing for \$5.00 per day expense money for the state legislators, admitted that the pay was shamefully insufficient, but that the proposed method of raising was illegal.

Among the appropriation bills, which are slipping through on skids, is one which raises the restriction on the mill tax for maintenance and operation of State college from an even million to \$1,100,000.

The Okemos prison for women bobbed up again this week when Senator Thomas Read introduced a bill appropriating half a million for its construction.

The Pulver bill providing for establishment of a new psychopathic hospital at Ann Arbor was passed by the Senate.

Governor Green has signed the increased compensation bill, which has been a bone of contention all through the session.

The Wood bill, transferring regulation of finance companies from the state banking department to the state treasurer's office, passed the House by a vote of 70 to 18 and goes to the Governor.

Names of Central, Western and Northern normal schools are changed to "Teachers Colleges," under a bill which passed the House Monday.

Representative John Holland of Gogebic can take back home with him again this year his 8-hour bill, which has been his stock-in-trade for 10 of these many years.

The Senate passed the Pulver bill Wednesday night, and the representatives had to work day and night for a salary of \$400 a year, the 8-hour day was a dead issue, and they buried it by a vote of 64 to 12.

The Michigan State college appropriation bill for new buildings and improvements was passed by the House Thursday morning, the amount allowed being \$1,114,250.

Senator Calvin Campbell of Indian River introduced a bill this week renewing the proposition for a fifth normal school, to be located in the northern part of the lower peninsula.

Immediately Senator Gansser of Bay City introduced a counter bill, asking for the repeal of the action of the legislature of 1915, making such another normal possible.

Senator Gansser's proposition to repeal the whole business is said to have the approval of Governor Green, but almost every town north of Mt. Pleasant has hopes of landing the proposed school, hoping against hope, so there is likely to be some scrap over the two bills.

It is interesting to watch the incidental scraps occasionally stirred up in legislative circles and to discover howes mall a matter may cause a deuce of a row.

One hundred and thirty dinners were served at Inverness Country Club, North Lake, at their opening Sunday. According to Douglas A. Fraser, owner and developer of the club, the place was completely cleaned out by the diners at noon and the club was unable to feed patrons who

desired evening meals. An ideal day, beauty of surroundings, excellent condition of the golf course and the tempting menu offered in connection with a chicken dinner made the opening a complete success.

### SCHOOL NEWS

Our chapel period Tuesday was a very interesting one.

We enjoyed the privilege of listening to Mrs. Niehaus for the first time and we are looking forward to hearing her again. We were delightfully entertained by her singing "Rain", "Kitty" and "I Don't Know".

Mr. Ransom Armstrong spoke to us about the trip he took this winter. Starting from Michigan, the first places at which he stopped were Hobsonville, Ky., Lincoln's birthplace and Mammoth Cave, Ky. Here he saw the place in which Floyd Collins was imprisoned.

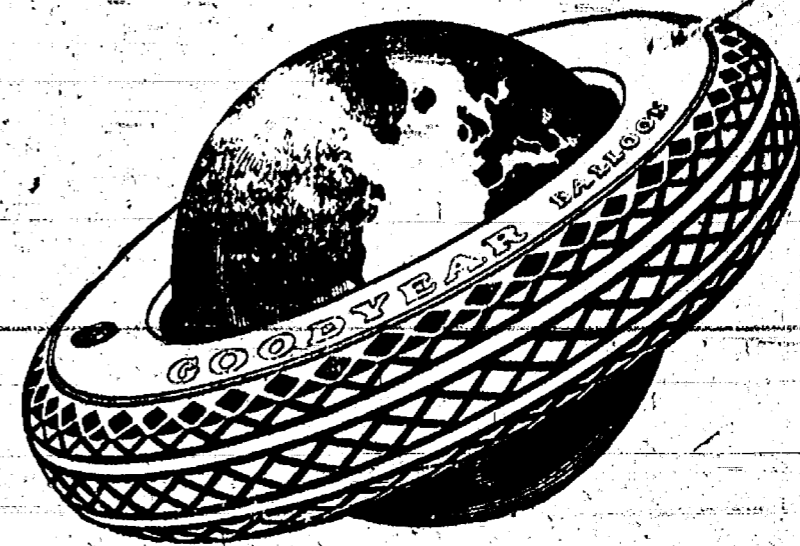

From there he traveled south to Louisiana and from New Orleans took a boat to Cuba, the island of tropical fruit and flowers. An interesting observation was related concerning a group of Cubans working in a cigar factory. While at work they listened to the reading of "Romeo and Juliet" by a man standing in a pulpit. Each worker gave the man a few cents a day for this.

The scene of the sinking of the Maine in Havana Harbor was also visited.

On the way from Cuba to Panama, Providence Island, made famous by Stevenson as "Treasure Island", was passed.

Mr. Armstrong told of the impression that the Panama Canal made on him, and how proud we should be of our United States because of this great achievement.

He traveled extensively in Central America, returning home by way of Cuba.

## Goodyear Tires

We used to sell another line of TIRES. And we believe they were good ones. But we were asked many times, "Do you think that Tire is as good as the Goodyear?"

So we figured if our customers made Goodyear their standard of value—why try to sell them any other kind.

And for that reason, we are now selling Goodyears exclusively.

#### BREVITIES.

**DEXTER**—The village authorities have awarded the contract for the new pump house to C. J. Hanselman.

**DEXTER**—Henry Koch has an ox shoe which he picked up in a corn field on what is known as the Stanton farm, Monday. The shoe shows that it has laid in the ground many years, as indeed it must have, for it is many years since the days of ox shoes.—Leader.

**TECUMSEH**—Joseph Satterthwaite arrived home Tuesday morning from Washington, D. C., and will spend a couple of weeks with his parents, Mr. and Mrs. J. N. Satterthwaite. He has been appointed U. S. Vice Consul and will be stationed at Guadalajara, Mexico, Port of Manzanillo, and will report for duty May 15.—Herald.

**BRIGHTON**—The Brighton fire department answered a call to Whitmore Lake, Monday forenoon when a blaze broke out in the residence of Mrs. Sallie Perry. They were not needed however as the flames were under control when they arrived. The damages of the fire which is thought to have been caused by a defective chimney, are estimated at \$200.—Argus.

**HOWELL**—Attorney Jay Sweeney who came to Howell some time ago, was Lieutenant in command when Howard Tesch was gassed, overseas, of which mention was made last week. As soon as he heard of the case he took an interest in arranging to have the young man cared for where he would be properly treated. The matter is already taking on form and will probably be arranged in the near future.—Republican.

**HOWELL**—Mr. Hooker, of the Westinghouse Co., called at W. O. Richards & Sons, last week. He had just been over Detroit, Grand Rapids air route for the purpose of furnishing flood lighting equipment for the air ports and said Howell was being considered as a landing field. Uncle Sam having recently ordered 60 Westinghouse light plants for airports.—Democrat.

**MANCHESTER**—At a meeting of Manchester Grange a resolution was passed protesting against defiling the waters of the Raisin river in any manner, especially by conducting sewers into it, thereby causing it to become a dangerous source from which to obtain ice for domestic use, an unsafe place to bathe, an unfit water supply for dairy cows and other stock, a poor harbor for our best fish, and eventually a menace to the public health in general.—Enterprise.

**PLYMOUTH**—Rev. Frank M. Field of Flint, and former pastor of the local Methodist church, will preach the anniversary sermon on the occasion of the tenth anniversary of the dedication of the present church. Rev. Field was pastor of the church at that time, and his many Plymouth friends will be glad of the opportunity to hear him again next Sunday. There will be special music selections under the direction of Wayne VanDyne.—Mail.

**BROOKLYN**—Frederick Hewitt, who opened the Walker Taverns last Sunday for the season had a larger number of visitors than ever before at this early date. A thousand or more new pieces of old glassware, china and furniture have lately been added to the stock of antiques. The old Springville Inn will be opened only on Sundays until after Decoration Day. It will again be in charge of Ila Louden.—Exponent.

**NORTHVILLE**—Details have been completed by members of the school board and village council for the organization of a Community Band, to be composed of Northville school students, and within the early part of next month the musical organization will be perfected. Under the arrangement made the village will purchase the instruments for the band, and a committee has been appointed by Mayor Smith, composed of Carl Bryan, Harry German and Conrad Langheld to select the instruments.—Record.

**SALINE**—The completed pavement of M-23, connecting Detroit and Chicago, is fast developing into one of the greatest highways of Southern Michigan. The route being much shorter than others, and fewer large cities where heavy traffic blocks the course of tourists, has sent a large percentage of travel this way. Many of the large bus lines are taking M-23 and some twenty of the big coaches pass through Saline daily, headed to and from Detroit, Toledo, Chicago, Kansas City, San Francisco and other points. It is rumored that the Detroit line will soon add more buses, to make the runs often.—Observer.

**UPWARD**  
From the lowest depths, there is a path to the loftiest heights.—Thomas Carlyle

#### FARM BRIEFS

The Washtenaw county Wool Growers' Clubs, led by Fred Reichert, was held at the home of John Haab on the Pleasant Lake road, Monday evening, May 2.

The new dairy calf club, led by Jay Boodbury, in Lima township, held their second regular meeting Thursday evening, April 28.

Plans are being made to keep the boys and girls constantly entertained at the county achievement day which will be held Saturday, May 21, at the fair grounds at Ann Arbor. All handicraft, clothing and hot lunch club members who finish their projects are invited to attend with their parents and friends. Several hundred people from the rural sections of Washtenaw county attended this meeting last year. The regular program will begin at 10:00 a. m. Definite announcements of the various contests and other events will be sent to all of the leaders and will be published in the papers next week.

The planting dates for the landscape project will be the 19th and 21st of May. The first day's planting will be made in the forenoon, May 19, at the farm of Jay Easton, Lima township, and in the afternoon at the Carl Braun place on the Whitmore Lake road.

Mrs. H. S. Malloy, O. I. Gregg, and Mrs. Louise Campbell will be speakers on the program at the achievement banquet which will be given at noon, May 18, at the Masonic Temple, by the ladies of the home management project. Mrs. O. M. Miles, president of the county federation of women's clubs met with the local leaders of this project last week and invited them to attend the meeting of the county federation at Saline on May 18. Women's clubs are cooperating and will send representatives to the achievement day program on May 18.

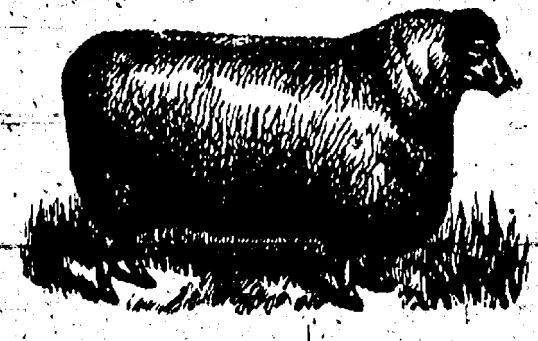

The smoke of battle in the corn borer war was a common sight in the corn fields of Washtenaw county last week. It is estimated that about 75 per cent of the corn stubble acreage in the county had been taken care of by the last of last week. Inspectors report that at the present progress 90 to 95 per cent will be cleaned up by the last of this week. Workers are still receiving splendid cooperation from the farmers in the county in the clean-up efforts.

**Exploring the World**

LIEUT. COL. E. ALEXANDER POWELL, noted war correspondent, traveling writer and globe trotter, is engaged in a tour of the world via America's most modern and popular means of travel—the automobile.

With this American car, and accompanied by his wife and daughter, Col. Powell spent the winter visiting the islands in the eastern Mediterranean. Material gathered there will be included in his book, "Mediterranean Moorings," which he is writing on route. He will proceed through Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia and others of the newer countries. The party will drive to Constantinople and thence, by ferry across the Bosphorus. The tour will then take them down through Turkey and

Spain to Damascus or Jerusalem, Arabia, Persia and India will be visited as the tour proceeds. Col. Powell will drive entirely across China and sail from there for California, completing a trip entirely around the world and traveling by automobile while on land.

The Buick brought used by the Powells on the trip is standard in every respect except for items of special equipment. It was chosen because of the world-wide Buick authorized service which is available wherever automobiles are used.

Col. Powell is one of the best equipped men in America to undertake this long tour. He holds the record of being the only man to drive from Paris to India, crossing the Sahara Desert. He is also the first man to drive a car from Mexico to Alaska, accomplishing this feat in 1913.

CHURCH CIRCLES

**METHODIST EPISCOPAL**  
Walter Firth, Pastor  
Mother's Day will be observed next Sunday morning. An interesting program is being arranged with features appropriate to the occasion. There will be special singing by the junior choir, and Mrs. Wheeler of the Old People's Home will give a reading. As this is the one service of the year given over to the interests of motherhood, the service will be largely in the hands of mothers. The oldest mother present will receive a bouquet of carnations. The sermon subject will be: "The Mother of Jesus and Her Abiding Benediction". Every boy and girl out of respect for mother should be present at the service, and if possible, they should wear a red flower as a token of respect if mother is living. Any mother too feeble to walk to the service, and who desires to be present will be brought by auto if reported to the pastor no later than Saturday evening.

**CONGREGATIONAL**

**Taken at His Word**  
The Junior partner had been on a visit to a distant branch office, and was giving his father a full account. "The manager there," he said, "is apt to take too much on himself. I gave him plenty to understand he must get authority from here instead of acting too much on his own." "Yes," said the senior, dryly. "So I gather. Here's a telegram from him."  
The telegram ran: "Had gas escape in the office. Please wire instructions."

**Worked Both Ways**  
"You know Percy Jones? I ten him \$10 about a year ago, and I simply couldn't get him to pay it back. Last week I heard he had started a debt-collecting agency, so I thought it would be a good job to write asking him to collect the \$10 he owes me." "Now I've got a letter from him saying that he's collected the \$10 but that it was such hard work that he's compelled to charge me a fee of \$12."

**Capernaum Holy City to Early Christians**  
Naturally, Capernaum was a place dear to the early Christians, who loved to plant their feet where Jesus had once trod. A church was built there which was enlarged as years went on. When Hadrian permitted Jews to re-enter the Holy Land (about 137 A. D.) Capernaum was one of the cities granted to them, though its name was changed from Kefar Nahum to Tell Hum, the Hill of Hum. Hadrian is said to have given some assistance to the rebuilding of parts of the city destroyed by the invading Romans. By the year 600 A. D. the church had been enlarged into a basilica, and was said to cover the site of the house where Peter enjoyed the felicities of family life.

But the city never recovered from the destruction that Moslemism brought up on the once fertile plain of Gennesareth, a strip of land on the northwestern side of the sea of Galilee (really a fresh-water lake) five miles wide by six miles long, on or about which were when Jesus lived on earth thriving cities. Chorazin, Bethsaida, Tiberias and Capernaum. To this day Moslems hold the sea and the district to be accursed, and it remains as does the city where once Jesus dwelt, a place of desolation as though literally it had been "brought down to hell."

**Indian Freak Barnum**  
**Must Have Overlooked**  
About the year 1800 Mohammed Bava, a celebrated dowsa, and the center of much interest and for many years later the pet of the districts round Calcutta, because of what was described as his audacious conduct and pleasing manner.  
Mohammed was born at Renares in 1780. At birth he gave no indication that he would be a dwarf. His parents and his brothers and sisters were all rather above the medium height, and he himself was not considered a small child. But soon it was discovered that, although his mental qualities were rather above the average he did not increase in size as other children did and never in his life stood more than 37 inches in his socks.

One of his English friends took him to England, where he was the subject of even greater interest than in India. He had very many unimpeachable manners, was able to discourse in English and was remarkable for his gentlemanly deportment.

**Odd Fellows Old Order**  
The "Odd Fellows," as such, were formed in the eighteenth century, but with the intermediate link of the trade guilds they stretch back to Roman times. From a marble monument found at Lanurum, near Rome, it is clear that the practice of combination for providing decent burial, and periodically spending a convivial time in each others' company, was a feature of the life of the ancient Roman, and those two objects (with others) have always been part of Odd Fellowship. Some, indeed, contend that the Roman legions founded lodges in Britain—London Mail.

**Comic Tragedies?**  
A boy came to the desk of one of the branch libraries with a request for "mystery stories" for his mother. On being asked by an assistant what type of author his mother preferred, the boy answered confidently: "Well, I think she might like something more light and cheerful than she has been getting. Those 'Sherlock Holmes' stories made her nervous. Haven't you got anything with a pleasant, snappy murder in it, that she can read without getting nervous when she is all alone in the house?"—Indianapolis News.

Woman's Confidence in Her Protege Justified

"At that time (1793), astonishing as it may seem, the cotton crop of the entire country could have been raised on a field comprising not more than 200 acres. The price of cotton was exceedingly high because of the cost of preparing it for the market. The chief expense was in cleansing it of dirt, leaves and the seeds which cling to the fibers. It appeared unlikely that cotton could ever be raised in large quantities in this country because of the cost of preparing it for the use of the spinner.

One evening Mrs. Greene was entertaining a distinguished gathering of southern gentry, and the conversation turned to this particular problem. "Surely Mr. Whitney can supply your needs," said Mrs. Greene, with confidence in her protege. Her guests regarded the remark as a pleasantry, but young Whitney took it in all seriousness. Never having seen a cotton plant, the next day he went into the country and obtained samples of the bolls. Ten days later he had a model of a cotton-cleaning machine. From "A Popular History of American Invention," by Waldemar Kaempffert.

**Perfect Behavior**  
The boys and girls of a congested neighborhood were invited by their teacher to write their own personal rules of life. The collection included the following:  
"You must always be obligent, clean your neck, stand erect, and swallow good fresh hair."  
"Don't get nosy or hit anybody with cross eyes because it gives you bad luck."  
"Never try to steal a dog's bone or you'll have no pants."  
"Always live fair and never use your father or uncle for money when they are drunk."  
"Don't steal from the Five and Ten and if you hit a girl you're a coward."  
"Every week you must have a bath and don't do no murderin'."—Collier's.

Defining "Christian"

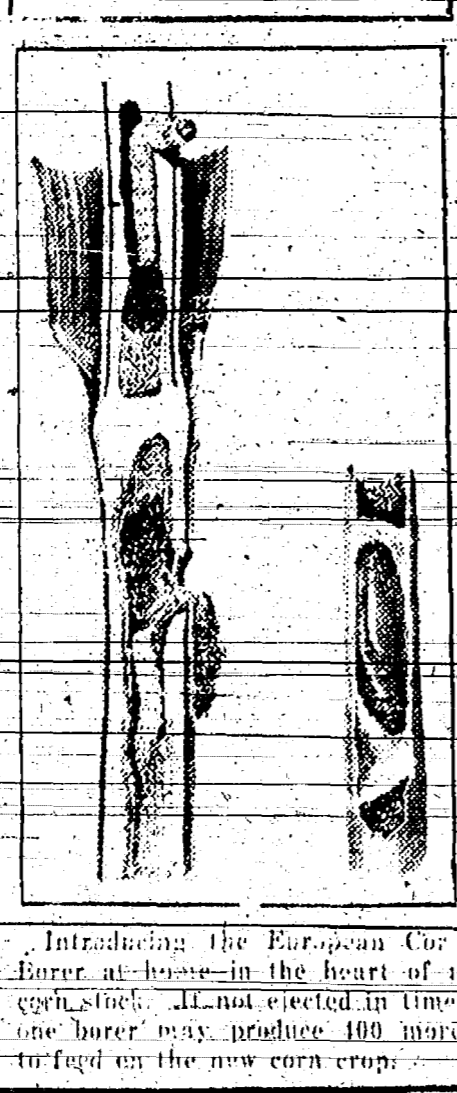

"The London policeman is the finest example of a Christian I have met," he will answer any foolish question that may be asked him," said Doctor Norwood, the bishop. As a definition of a Christian that seems to leave something lacking. The precise duty of the Christian in the home has never been satisfactorily stated. The question of the Jack M. Proverbs, wanted the question by writing in her own scintillating pen. "Answer a fool according to his folly," but the author of Proverbs was not in the strict sense of the word a Christian. St. Paul commended the Corinthians on superior tool study. But from the Corinthian associates had no traffic problems. "Doro Van Passen, in the Atlantic Constitution.

THE LIFE OF A BORER

Ten months of the year, from July through April, the European corn borer lives as a larva, or caterpillar, in the corn plant. In May it goes to the pupal stage (somewhat like a cocoon), shown at the bottom of this picture. In June it emerges from the cornstalk as a moth—male and female shown above. It flies wherever the wind takes it, always at night, and the female lays from 350 to 500 eggs on the young corn plants. Eggs change to larvae, and the borers are at work again.

Corn Borer in Action

Introducing the European Corn Borer at home in the heart of a corn stalk. It is not expected in time one borer may produce 100 worms to feed on the new corn crop.

**REASON ENOUGH**

When we sell a man a used car we are naturally hoping that some day he will come back and buy a new car. Honesty aside, that alone seems reason enough for selling him a GOOD USED Car at a fair price.
