Harris and Mayer Will Head Village Tickets

Chelsea's two political parties held their caucuses on Tuesday night, when candidates were named for the village election to be held on Monday, March 11. Both meetings were very quiet affairs, with a minimum of interest being shown by either party's following. Only two contests developed in the entire evening's proceedings, both being in the People's party caucus, when Arnold Steger defeated Donald Oosterle for the nomination of clerk, and Wm. G. Kolb won over Gurney Hopper for the treasurer's nomination.

With Herman J. Dancer presiding as chairman, the People's party caucus was called at 7:30. Lawton Steger was named clerk, with Clarence Bahmiller and Claude Spiegelberg as tellers. The following candidates were nominated:

President—A. D. Mayer.
Clerk—Arnold Steger.
Treasurer—Wm. G. Kolb.
Trustees—Harold Spaulding, D. A. Riker, Sidney W. Schenk.
Assessor—Russell Altstaetter.
L. B. Lawrence, Clarence Bahmiller and Claude Spiegelberg were named to act as party committee.

Ernest Adam presided as chairman of the Independent party caucus, which was held soon after the close of the other caucus. Waldo Kusterer was clerk, with John Keusch and Paul Maroney as tellers. This party nominated the following candidates:

President—Roy Harris.
Clerk—James Munro.
Treasurer—M. J. Baxter.
Trustees—Olie Johnson, A. E. Wilans, Wilbur Hinderer.
Assessor—Ed. Keusch.

Members of the Library Board for three-year term—Henry C. Schneider and Mrs. Katharine Kusterer.

The party committee consists of Henry Ahemiller, Waldo Kusterer, P. C. Maroney.

Graduates To Compete For MSC Scholarships

East Lansing—High school graduates will have opportunity to compete for 32 Michigan State College alumni scholarships, it was announced here by Glen O. Stewart, alumni secretary.

The scholarship, equivalent to the \$90 college tuition fee, will be awarded in each of the state's 32 senatorial districts to students who have outstanding high school records and who can show need for financial assistance.

Chairman of the scholarship in the 12th district, which includes Washtenaw and Oakland counties, is Howard Estes, 116 South Woodward, Birmingham. Candidates for scholarships are requested to have their qualifications completed and filed with a committee member in their district before May 1. Applications received after May 1 will not be considered.

Scholarship candidates are nominated by alumni groups or alumni committees in the various districts, in cooperation with high school principals. Candidates must be from the upper one-third of their high school classes, and nominations are confined to those students whose financial circumstances definitely warrant scholarship aid.

Scholarships are awarded by the Michigan State College faculty scholarship committee after results of a comprehensive examination, high school credits, and recommendations are considered.

Prospective applicants who desire further information are requested to see their high school principal or their district scholarship chairman.

LENTEEN MESSAGE

By Rev. Father Dorr

Lent is that penitential season of 40 days preceding the feast of Easter. The date of the beginning of the season (Ash Wednesday) varies from year to year, according to the date of Easter. Easter the day of Christ's Resurrection, is celebrated on the first Sunday following the first full moon after the spring equinox. It can fall on any day between March 22 and April 25. This year it falls on March 24, the earliest it has been since 1913.

The English name Lent is from the Anglo-Saxon lencen meaning spring. The word Lent has no religious significance. It was applied to the penitential season because it coincided with spring.

This penitential season has not always been the same. It has varied in its length and in the manner and vigor of its observance. Some sort of penitential time has been observed before the Easter festival from very early days. Today it is being generally observed, as we note in our country and in our city.

Lent was instituted by the Church as a remembrance of the 40 days' fast of Jesus in the desert, and as a means of sanctification of the people. The Church has always taught the necessity of penance for justification. "Do Penance". It was intended that the people would so pass the time of Lent that on Easter morning they might be able to say that they had risen spiritually with Christ to a new and better life.

The means recommended for this general renovation of spirit are the good works prescribed for Lent, i. e., fasting, alms deeds, and prayer. Abstinence and limitation in eating, drinking and amusements will help to control and direct our life. Our life is not to be controlled by our lower nature and physical appetites. The faculties of the soul, our intelligence and free will are to rule our physical nature.

Deeds of charity and mercy will obtain for us mercy. God is liberal to us. We are to be liberal and generous with our goods towards others. "Charity covereth a multitude of sins."

Prayer is one of the principle works of Lent, for under the works of prayer are comprised all the exercises of religion. What greater incentive to good living and what more helpful than prayer? May the observance of the practices of Lent assure for all in this troubled world the real joy and peace of Easter.

Chorus Festival Will Be Held Here May 16

Thursday evening, May 16 was selected as the date for the annual chorus festival at a meeting of music supervisors of surrounding schools, held at Grass Lake on February 14. The program this year will be held in Chelsea and will include singers from seven or eight nearby high schools in Jackson and Washtenaw counties.

There will be a group rehearsal with the guest conductor scheduled on May 16 from 3:00 to 5:00 p. m., followed by a supper for the participants in the high school gymnasium. The program will take place at 8:15 p. m. Further details on the festival will be announced at a later date.

SOPHS TO SELL RELIEF TICKETS

Announcement is made by P. G. Schaible, chairman of the local Finnish Relief Fund, that tickets for the Finnish Relief Benefit Concert to be given in Hill Auditorium, Ann Arbor on Tuesday evening, Feb. 27, will be offered for sale locally by members of the Sophomore class of Chelsea high school. The concert will be presented by the U. of M. Band and Glee clubs and the price of admission is 50c. All funds received from the local ticket sale will be credited to this community, and it is hoped the response will be generous.

SPEAKS ON "CITIZENSHIP"

A. H. Anderson, city assessor of Jackson, and chairman of the American Legion there, addressed the Chelsea Kiwanis club on Monday evening. The subject of the address was "Citizenship Responsibility." The speaker suggested that every good citizen should be awake to the youth problems in his community, and to legislative matters that have to do with our American institutions.

LIBRARY FACTS

Do you know how many people the Chelsea Public Library is serving in your community? There are 389 people (566 adults and 223 children under 14) registered. Of this number the village of Chelsea has 599, Sylvan township outside the village, 102, Lima township 97, and Lyndon 91.

Through the efforts of the library board to extend its interests to the schools of the community, approximately 10 schools are borrowing groups of books for their children. Although the library board feels very gratified with this patronage, it would like the goal to be "Every Citizen a Member". Adv.

Business Men Discuss Erection of US-12 Signs

At a meeting of local business men held Monday evening at Kolb's hall, the placing of signs on new US-12 to designate the approach to Chelsea was discussed.

Al Mayer presided as chairman of the meeting, which was attended by about twenty representatives of business places. The discussion dealt with the types of signs to use and the proper location for their erection in order to make them most effective.

The opinion of many is that the largest signs should be placed at the Manchester Road intersection, rather than at the east and west intersections of the old and new highways, where smaller signs should be placed. It is believed the State Highway Department will construct a new road straight south from Chelsea to the new highway.

A committee was appointed to investigate the cost of the different types of signs, the possibility of obtaining proper sites for their erection, method of financing, etc. This committee will present their recommendations at another meeting of business men which will be called as soon as the report is ready.

The committee consists of Emmett Harker, D. H. Wurster, O. D. Schneider, F. W. Merkel, Dillon Wolverton and Al Mayer.

Last Minute License Plate Rush Anticipated

Anticipating a terrific last minute demand for 1940 license plates, Harry F. Kelly, Secretary of State, says that all divisions of his department are in high gear to take care of the greatest plate sale in Michigan's history. "A satisfactory showing has been made to date", Kelly said, "with about 45,000 more sets of plates sold this year than during the same period a year ago. However the registrations of 1939 far exceeded the previous year and we must look forward to the enormous task of supplying license plates to thousands of late buyers."

Kelly stated that the license plate business totaled more than \$20,000,000 last year. This sum of money, coupled with more than \$30,000,000 received from the gas tax division is turned over to the highway department. The counties, in turn, receive all the money collected from the sale of license plates and six and one-half million dollars from the gasoline tax receipts.

This money, spent for new highways, bridges, underpass projects, the elimination of sharp curves, proper highway safety and directional signs, contribute much to the safety of motorists who use Michigan highways.

Kelly again appealed to the motoring public to purchase their 1940 license plates at the earliest possible date. Inconvenience, discomfort and frayed nerves will be avoided by applying for plates early in the day, thereby avoiding the rush hours.

CURTIS-WAHL WEDDING

The ceremony uniting Miss Margaret Bernice Curtis, daughter of Mr. and Mrs. Amos Curtis of Sharon township, and Harold L. Wahl, son of Mr. and Mrs. William Wahl of North Francisco, was performed Wednesday evening, Feb. 14 at the parsonage of St. John's Evangelical church, Rogers Corners, with Rev. John Fontana officiating.

The attendants were Miss Irene Wahl, niece of the bridegroom, and Reuben Hartman. The bride wore a dress of aqua blue crepe with gold trimmings and her accessories were brown. On their return from a trip to Florida, Mr. and Mrs. Wahl will reside on the groom's farm near Grass Lake.

WOUNDED BY GUN DISCHARGE

Henry N. Steel of Sugar Loaf Lake suffered a gunshot wound in his leg on Saturday when a .38 caliber revolver accidentally discharged as he was pulling it from a holster. The bullet entered Steel's leg near the knee and emerged at the heel. Deputy Sheriff David Mohrlock investigated the accident. Steel was treated by a local physician. A former resident of Detroit, he has been living in a cottage at the lake.

Lansing—Within the next few weeks while the average citizen is fretting about high taxes and wondering who will be the state party nominees next September, astute politicians will be diligently setting up party machinery for the next two years.

After township party caucuses are held, on or before March 10, the party's organization will have been completed in each township.

If democracy begins at the smallest unit of government, the township, then the responsibility for good government or for bad government—and likewise, good bosses or bad bosses—rests upon each citizen within the next week or so.

Here is the Michigan law, as revised by the 1939 legislature.

Notice by Clerk

First, a township caucus shall be held at least 20 days prior to the election on April 1 for the purpose of selecting a township party committee for each party in the township. The committee consists of three persons and selects its own chairman.

Second, the chairman elected at the preceding caucus issues a call designating date, hour and place for political caucus and transmits copy of the call to the township clerk.

Third, the clerk posts notice at least 10 days prior to the holding of the caucus (not later than March 1) in at least five conspicuous places. This notice may be published in a newspaper of general circulation in the township.

Any qualified and registered elector's name may be placed in nomination on motion of any qualified and registered elector present.

It's just as simple as that!

Plurality Nominates

Act 145 of the 1939 legislature further provides that "the candidate receiving the highest number of votes shall be the party nominee."

In other words, plurality nominates. The nominee for committeeman may receive a minority of the ballots cast; plurality only is required.

The township caucus chairman appoints a secretary and two tallies. The chairman and secretary certify the names and addresses of nominees

to township election commissioners, care of the township clerk.

One joker has been detected in this law. It is this: "Provided that this section shall not apply in any township where the ticket for township officers does not contain any political party which has filed its vignette with the secretary of state." Thus, if the township has had only one party ticket, such as "People's Ticket," or "Good Government Ticket," then the new procedure for a party caucus would not prevail. But if there are two or more tickets one of which is either the Republican or Democratic parties (which have filed their vignettes with the secretary of state), then the new law must be observed.

And furthermore, if citizens distrust the party caucus plan and prefer to hold their own primary, a township primary may be authorized by the township board upon petition of 10 per cent of the electorate. Only about 150 of the 1247 townships in Michigan use the primary system. The primary date this year was Monday, Feb. 19.

Liquor Home Rule

The fact that even control over local sale of liquor is a responsibility of local government, not a responsibility of some state commission at Lansing, was brought out recently by Muri H. DeFoe, Charlotte, a member of the state liquor commission.

"Basically all liquor permits begin at home," reminded Commissioner DeFoe.

What did he mean? Just this: In municipalities or townships where sale of beer or liquor by the glass is now permitted, all licenses are up for local renewal on or before May 1 of each year.

The state liquor control law clearly states that except in Wayne county all licenses, both new and renewal, must be approved by local authorities (village board, city council or township board). In Wayne county the state commission may grant licenses without recommendation of local officials; actually the state commission as a matter of procedure policy obtains the approval of local police before it grants a liquor license.

Who Gets Permit Fee?

If responsibility for granting of licenses rests on local government, then who gets the liquor license revenue? Eighty-five per cent is returned to the municipality or township that approves the license. The state keeps the remainder.

How is this money to be used? The law does not attach any strings to use of liquor revenue. It goes into the general fund for purpose of paying expenses of government. Implied in this practice is the thought, not expressed in the law, that the superfluous cost of law enforcement would be paid by these fees.

If a tavern sells beer or liquor to minors under the age of 21 or if conditions exist that are otherwise undesirable, then what can be done to revoke the tavern license?

Complaints may be registered with local authorities—the village board, city council, township board which originally approved the license application. While the law does not require the local governing body to hold a hearing, such may be done, or the board may revoke the license at any regular official session. The next recourse for action is the state liquor control commission which either may revoke the license outright or hold a public hearing.

Children In Court

By Judge Malcolm Hatfield

Practicing What We Preach
A church which is located only a few blocks from one of the most appalling slum districts in the country sent splendid donation to its foreign mission board for work among the heathens.

When we consider that so much work can be done at home in reclaiming the lives of thousands of pre-delinquent children, we are forced to inquire why more effort is not exerted at home.

Church attendance has fallen off thirty per cent in recent years. More attention should be given to strengthening the influence of churches here in the United States.

An Asiatic visitor to America once humorously observed, "Why is it that you Americans are always saving someone else when you haven't as yet saved yourselves?"

Churches frequently do not reach the Children Found In Juvenile Court. Ministers lament the fact that reduced church budgets force them to limit their operations among children to those who are on their church roster. It is very encouraging to note, however, that in various localities, associations of ministers are endeavoring to assume wider spiritual responsibility over the entire community, so that they may reduce the number of delinquent children appearing in court each year.

In order to enable the churches to reach the families that have no religious connections, local courts are reporting cases of child delinquency that come before them to the ministerial association. After the parents indicate a church preference, the courts insist that both the offender and his parents actively participate in the functions of the church.

There is a definite connection between the lack of church training and crime. If religion is removed, what can be substituted for the moral guidance of the child? Certainly not the liberal minded viewpoints which seem

to dominate many parents today. Young men and women require moral restraint. They should not look with scorn upon the religion, culture or ideals of their parents.

children to be guided by their own desires in deciding whether or not they should attend church or Sunday school. Even though the psychology of self expression should advocate such a plan, it must be remembered

that too many cases have appeared in court which definitely prove that the absolute authority of parents is positively essential in successfully guiding and rearing children.

HAVE YOU MONEY TO BURN?

You are burning up money needlessly as long as you have a hot water coil in your furnace.

Tests prove that to heat the water in the coil requires up to one-fifth of the fuel you burn.

Moreover, the coil is an undependable source of hot water. If the fire is low the water is cold. If the fire is high the water is too hot, often dangerous scalding steam.

Seldom does the coil supply water at the right temperature, and enough of it.

Why not reduce your heating bill by having the coil removed.

A gas automatic water heater will provide you with a dependable supply of controlled temperature hot water for a few cents a day.

F. F. A. News
 Suffering two defeats at the hands of Manchester and Dundee, the Chelsea Future Farmers' club basketball team will play their next game with Saline here. The first team has lost both games but the second team has won their games.
 As is the annual custom the F. F. A. will play a basketball game with the F. F. A. Alumni and will have a night meeting with them.
 Plans for a Home Ec. and F. F. A. banquet are going forward at a steady rate and this event will come off in the near future.

The Seniors
 The two activities which occupy the thoughts of the Seniors at this time are the play and the annual. Both of these projects require a great deal of time and effort, but with the cooperation of the class we hope to be successful in both of these ventures.
 Our play is scheduled for March 15, so rehearsals are in full swing and everyone is doing his part. The cast, which will be announced at a later date, is well chosen and each character closely follows his respective role. Mr. Chandler, with the aid of two students, is directing the play.
 Donald Cook is the editor of our annual and Eunice Hart is co-editor. Many different students have other positions on the staff, but everyone is contributing to our year book. We hope to publish a very fine annual at the close of our school year.

Choruses Are Busy
 Since the Christmas holidays members of the high school girls' chorus and mixed chorus have been busily preparing material for advance performances.
 Wednesday afternoon, February 7, twenty-five girls gave a program of choral music at the Methodist Home. The high school trio also had a part in the program.
 On Wednesday, February 21, the mixed chorus and orchestra collaborated to present an assembly program for the high school student body. The chorus program included: "Can't You Hear Me Calling, Caroline", "When I Grow Too Old to Dream" (high school trio) and "Good Night, Beloved", "Swing Low, Sweet Chariot", "Fair-

est Lord Jesus" and "Pilgrims' Chorus" by the mixed chorus.
 This year Chelsea is to play host to some three hundred singers from seven or eight surrounding high schools at the annual chorus festival to be held on Thursday, May 16, in the high school gymnasium. Further details will be announced at a later date.

Chelsea Has Chance To Finish Second in League

By Wayne Van Orman
 By capturing the game with Belleville last Friday, Chelsea high school basketball team is conceded an excellent chance of ending up in second place in the Huron League. The final score was: Chelsea 82, Belleville 20.

Chelsea outscored Belleville in every quarter except the third in which the latter scored seven points. The best play of the evening was a pass from Schneider, to Miller, to A. Policht, who scored the basket. Leading scorer for Chelsea was Schneider, with 13 points.

Chelsea's second team lost a close decision, 17 to 16. Kern and Birch were the leading scorers, with five points each.

(Last week's news)
 The entire school greatly enjoyed hearing Governor Dickinson's talk on Thomas Alva Edison, Friday, Feb. 9, which we heard on the radio, using our new loud-speaker. He told of how Edison was considered stupid when he was a great genius. He told of the many queer things Edison did as a child. He said that Edison invented such things as the phonograph, the dictation machine, motion pictures, and the electric light bulb. We considered his talk very interesting.

After the broadcast, we observed the thirtieth anniversary of the Boy Scouts of America by a program by the local troop, members of which staged the following demonstration:

MICHIGAN BELL PLANS HUGE 1940 CONSTRUCTION PROGRAM

Detroit—Plans for a 1940 gross construction program amounting to approximately \$18,000,000 were announced by George M. Welch, president of the Michigan Bell Telephone Company.
 President Welch said the figure obviously might fluctuate somewhat in accordance with business conditions, but added that "at this time, it represents our best judgment as to the plant improvements and expansion that will be required to enable the company to keep pace with and ahead of telephone demand."
 The program is the largest estimated by the company since 1930, Welch said. It represents an increase of approximately \$5,500,000 above

that of 1939. Net additions anticipated will result in the company's plant value passing the \$200,000,000 mark for the first time.
 The largest single project in the 1940 program calls for the expenditure of approximately \$1,125,000 in continuing to improve and expand the telephone plant in small communities and rural areas in order to provide them with the same high quality of service that is supplied in the larger urban centers. It is expected that 48 communities will benefit this year from that project, part of a program undertaken in 1937 on which \$2,500,000 already has been expended. Under that program new telephone central offices and improved plant have been provided in nearly 100 towns and small cities to date.

WITHIN THE REACH OF ALL

It is no accident that America's telephone service is the best and most widely used telephone service in the world. Instead, this is the result of a long-established policy of the Bell System . . . a policy that has always sought to provide the public with the best possible service at the lowest possible price. America endorses this policy by using the telephone about 70 million times a day. . . Guided by the same sense of responsibility to the public, the Michigan Bell Telephone Company strives to keep Michigan's telephone service good and cheap, and within the reach of all.

COURTS OF HONOR LISTED

One of the distinctive features of the Scouting program is that a boy advances from rank to rank largely on his "own steam". Facilities are provided by his leader to encourage advancement, among them, frequent Courts of Honor for the awarding of achievements.

Coming Courts of Honor include one to be held for the Copeland District on Thursday, March 14, at the Chelsea public school.

Before a boy appears before a Board of Review for awards, he is first reviewed by his troop committee serving as a Board of Review to make sure that he has done the required work and that he has caught the spirit of Scouting and that he is making an honest effort to live as a good citizen.

Frequent complaints have been made by various police departments because of improper lighting on automobiles. I want to discuss especially the matter of tail lights.

Have you ever had the experience of driving on a highway on a foggy, rainy night and suddenly realizing that there was a car parked a few feet ahead which you had not noticed because it had no reflectors or tail light burning? If you did, you will know how dangerous this condition can be.

The purpose of a tail light is to warn other drivers behind you, and therefore it is necessary that this equipment be in first class condition.

First in the Hearts of its Countrymen

YOU don't have to look farther than the nearest parking lot to see how the public has taken to this 1940 Buick.

Although it is not the largest seller, polls of public opinion mark it clearly as the car "first in the hearts of its countrymen."

On general appearance, for instance, Buick gets better than a 19% vote as best looking, to 11% for the Number Two car.

Its thrifty Dynaflex power plant, now balanced after assembly, gives it twice as many Best-of-the-Bunch votes as any other, as does its chassis construction.

With soft and easy coil springs all around it's only natural that some two and a half times as many people pick Buick as best for ride. And a two to one vote on room is understandable in view of the SUPER's close-to-five-foot front seat.

But the really satisfying thing to us is the way people size up Buick's value. Half again as many people pick Buick as best buy as pick any other. And three out of five who rate Buick No. 1 say it's the value that gives it the edge.

So it's not surprising when polls show more people wanting Buick than want any other car — and when Buick's midwinter sales hit new peaks.

And shouldn't that, in turn, logically suggest: better get yours now — and be sure of having it?

The model illustrated is the Buick SUPER model 51 four-door touring sedan \$1100 delivered at Flint, Mich. White sidewall tires additional.*

Machines Head List Of Hazards On Farm

As long as every farmer is pretty much his own engineer, farm hazards will continue to be numerous and only controlled largely by the care exercised by different individuals.

That is the deduction of H. H. Musselman, head of the agricultural engineering department at Michigan State College.

Electricity in Michigan has had such an unprecedented increase in use in rural areas in the last nine years that this new hazard alone requires exceptional watchfulness, says Professor Musselman.

Even the haymow still is a trouble-maker.

In the haymow, says Professor Musselman, haste can easily cause accidents. Precautions include such simple things as fixing safeguards and rails around chutes, using care in pitching feed down from the mows.

In fact haste is a national farm evil and causes the majority of farm accidents, Makeshift repairs, taking chances, using machinery without guards or with guards removed are included in accident causes and all of them related to haste.

Machines take top toll as farm hazards. The older hazard from working with farm animals still is second. Unruly bulls and horses that kick are in this class of troublemakers.

The moral of which, says Professor Musselman, is to take the time to do a job correctly, so that one will have the time to complete other necessary farm work instead of being crippled or temporarily laid up because of accidents.

Shortage of Rabbits Due To Mild Winter

Lansing—Wide dispersal of rabbits in open fields and on hillsides near swamps during the recent season is credited with causing many hunters' complaints of a cottontail scarcity by Paul Hickie, mammalogist of the department of conservation.

Warm weather and lack of snow during the cottontail season failed to drive the rabbits to the usual winter cover where hunters expected to find them, he explains. On a recent inspection trip through southwestern counties he found rabbit signs fairly abundant.

Few orchardists have reported rabbit damage to date, but since damage to trees is dependent on deep snow and ice crusts, the report is not conclusive for this winter. Areas where damage by rabbits was reported were well hunted this season. There was no rabbit damage reports in areas where hunters are asking the stocking of more rabbits.

In general, cottontails seem to have decreased in abundance from the extreme southwestern counties where they were plentiful, to Montcalm, on the north.

Spider: Red or Green?

The red spider isn't red at all, but a very delicate tint of green, though in some cases this destructive little insect is a very bright green. He, also, like most garden enemies, takes up his abode on the under side of the leaves, where he immediately begins spinning a web and leaves tiny red dots on the foliage.

MILAN—Early last Saturday morning a fire destroyed the Evangelical church of Whitaker and the adjoining parsonage with a loss estimated at \$10,000.

The origin of the fire was undetermined, but the loss was partially covered by insurance. Nearly all the furnishings of the church were saved despite the heat of the flames which threatened to block entrance to the building. The fire started in the basement of the parsonage.—Leader.

NEUTRALITY—Why, by interweaving our destiny with that of any part of Europe, are we to be drawn into the European ambition, rivalry, interest, honor or caprice?

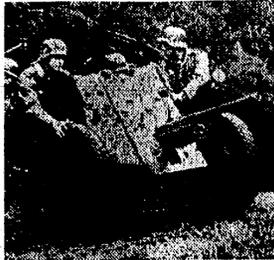

NATIONAL DEBT—As a very important source of strength and security, cherish public credit. One method of preserving it is to use it as sparingly as possible, avoiding likewise the accumulation of debt.

ARMY—It is our duty to avoid insult, we must be able to repel it; if we desire to secure peace, we must be prepared to meet it. It must be known that we are at all times ready for war.

NAVY—To secure respect to a neutral flag requires a naval force organized and ready to vindicate it from insult or aggression. It is our duty to encourage belligerent nations from committing violations.

EUROPEAN AFFAIRS—Europe has a set of primary interests which to us have none of a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are foreign to our concerns.

Michigan Bell Shows Increases In Past Year

Detroit—Reflecting the general business trend in the state, the Michigan Bell Telephone Company experienced heavy demand for its services in 1939 and increases in both operating revenues and expenses over the previous year, George M. Welch, president of the company, said in his annual report to stockholders.

At the end of the year, the company had 742,118 telephones in service, or 7.4 per cent over the previous record of 690,764, in May, 1930. The 1939 gain of 61,604 telephones was second to the record increase of 64,545 in 1937.

Net income was \$10,019,056.82, an increase of \$1,216,964.54 over 1938, equivalent to \$8.02 a share of common stock compared with \$7.04 the previous year.

Operating revenues of the company reached \$43,381,000 in 1939, a gain of 8.1 per cent over 1938. Operating expenses, exclusive of taxes, climbed 5.1 per cent to \$26,618,000. Taxes totaled \$6,088,000, which represented a 13.5 per cent increase over 1938. The tax bill was the equivalent of 14 per cent

of the Company's revenue and amounted to \$8.56 per telephone. Ten years ago taxes were \$5.83 per telephone. "The telephone business tends to follow general business conditions both up and down," President Welch pointed out in his report. "These variations are especially acute in Michigan where the large concentration of industry causes business generally to reach high levels in good times and correspondingly low levels when demand for manufactured products falls off. This results in wide fluctuations in the demand for telephone service, thus imposing on management the responsibility of conducting its affairs during both cycles in such a manner that the quality of telephone service does not follow the feast and famine aspects of such variations."

Residence telephones in service increased from 430,438 in 1938 to 482,777 last year. Business telephones increased from 249,727 to 259,341. Local calls averaged approximately 3,640,000 daily in 1939, an increase of 12.3 per cent over the previous year. Long distance calls were up 14 per cent.

Gross additions of \$12,564,000 were made to the company's plant during the year, total value now being \$192,730,000, or \$260 per telephone. Improvements in rural service and in many communities outstate continued during the year under the \$2,500,000 improvement program started in 1937.

In all, there were 55,175 more telephones operating on a dial basis than the year before. Plant improvements were further reflected in an increase of nearly 60,000 miles of wire in cable, bringing wire in cable up to a total of 3,862,000 miles.

The Public Service Commission

authorized the company to issue an additional \$10,000,000 in capital stock to increase its capitalization to \$185,000,000.

The intrastate toll rate case was appealed by the company to the state supreme court where it is still pending. The company set aside an additional \$453,000 during the year as possible refunds to customers in connection with the case, raising the total reserved for that purpose to \$682,000.

At the end of the year there were 8,587 regular employees on the company's payroll—3,991 men and 4,596 women. In addition, there were 94 men and 661 women classified as temporary employees.

During the year, under the Employees' Benefit Plan, there was expended for service pensions, and accident, sickness and death benefits, the sum of \$389,401, of which \$109,621 was paid from the Pension Trust Fund. At the end of the year, there were 163 retired employees on the service pension roll.

Welch's report revealed there are 180 other telephone companies in Michigan which operate 938 exchanges. The lines of these companies connect with the facilities of the Michigan Bell Telephone Company for long distance service.

THE RADIO AND EDUCATION Homework by radio is the latest in education. We may presently hear of the little boy who got "E" in radio.

A child's education may ultimately depend on good reception and whether there was much static in his formative years.

"Little Nell was cut out to be bright," some fond parent may explain in days to come, "but her outside aerial fell down at a crucial period in her education."

It has remained for the New York city board of education to introduce homework by radio. Teachers discuss subjects over the air 15 minutes at night, and the pupils report the next morning. Little Willie's excuse, "But, teacher, popper was using our set to get Bennie Goodman" will presumably not be acceptable.

We can imagine the conversation between mommer and her boy in many a home:

Mother—Now, Milton, don't you want to listen to the radio now?

Milton—No.

Mother—But your homework is on the air.

Milton—That's why I don't want to listen to the radio!

Mother—If you don't listen to the radio you'll grow up and be ignorant, and what happens to boys who grow up ignorant?

Milton—They get radio jobs at \$5,000 a night.

Mother—It's a wonderful thing to get school work over the radio.

Milton—What's wonderful about it?

Mother—Everything. When I was a little girl I had no radio to listen to and get my homework.

Milton—Those were the days!

Mother—Think of it! Just sitting in a chair by a radio and having your teacher come to you by air.

Milton—I get enough of her in school. Besides, it's not so easy. Last night I had an important lesson and I got my teacher, two shipwrecks, a mystery drama, a British war and the United States marine band all at the same time.

Mother—Milton, no more nonsense. Turn in and do your homework.

Milton—Okay, mom, but if I grow up, stupid you'll know this was a lousy radio set.

SMALL TOWN HOSPITALS

NEW YORK CITY.—It is hard to write a word unfavorable to the President's plan to have the federal government begin building small "experimental" hospitals in towns that do not have such service. I have lived in such towns myself. Even in larger towns which have had such hospitals, I have been made personally and painfully aware of the backwardness of some doctors who do not or cannot keep in touch with the rapidly improving and developing medical profession.

It is desirable to have hospitals in places where they are not. So are many other things desirable. If it is just and proper for the government to favor one small community by building a hospital for it, how can it refuse to build one in every town in similar circumstances? That wouldn't be a matter of \$16,000,000.

Furthermore, the mere building of a hospital is only a beginning. The cost of maintaining it high. If it had been only a matter of providing buildings, the billions that have gone through WPA into some far less worthy projects could probably have built all the hospitals that are needed—especially in the old federal and civil works administrations, where billions appropriated in part for national defense went for raking leaves.

Hard-boiled as any criticism of this project must seem, congress owes a positive and pressing duty to examine in all its implications before it opens any more expanding apogees into the federal treasury. It has all the earmarks of the Arab's camel which began by persuading its master to let it stick just the tip of its nose under the tent to get it out of the cold, and wound up by wearing the tent as a horse-blanket leaving the Arab—nose and all—in the chill of the outer darkness.

WASHINGTON WAS RIGHT

Finland is holding the pass leading to the Allied left flank. Yet, thus far, she has no Allied aid. Rumania is under pressure from the Allies, Germany, Russia, Bulgaria and Hungary. She, too, has promises of Allied assistance. But does she believe in them—and if so, why? The record of the Allies in helping small countries which they have persuaded to stand with them is uniformly rotten. Every time I write like this I am accused of bias in favor of Hitler and against England. I despise Hitler and like England, but in any international war situation, I wouldn't trust our fate to either of them as far as I could toss a bull by the tail. My only point in reciting them is to suggest to some among my own guild of columnist kibitzers that

TROUBLES OF A LADY'S MAN

They look at the record before they insist that the Allies are fighting for us, and that we have to rely on the British navy.

If Greece, Italy, Abyssinia, Poland, Czechoslovakia, Manchukuo, Finland and perhaps Rumania couldn't rely on their outright promises, how can we rely on no more than their vague good will?

Washington was right when he warned us that there is no soft-hearted altruism in the selfish and unscrupulous fengling of European diplomacy—especially in times of war and danger. France sent us help in our Revolution, but it was only because it was a terrible blow at her enemy—England.

We can rely on nothing in these times but our own hard-boiled common sense and the strength of our own right arm. They are enough.

GIRLS IN MEN'S JOBS

Miss Anderson of the Women's bureau of the department of labor, warns Madam Perkins in a formal report that "family life in this country will suffer serious consequences if a prejudice against women workers marrying is allowed to spread. Who is prejudiced against working women marrying? Such a prejudice would be positively immoral. Doesn't Miss Anderson really mean a possible prejudice not against working women marrying but against married women working?"

In our pioneering and development days when "Adam delved and Eve span" being a woman—whether married or not—was pure drudgery. Many a sturdy father wore out and buried from two to ten wives in the course of a lifetime—having babies, making soap, bread, butter, beer and candles—spinning, laundering, clothmaking, cooking, preserving food, curing hog meat, hewing wood, drawing water and raising children. All this is changed. Taking care of a home and family is now only a part-time job.
