Our newspapers continue to tell us of a changing world, but—

Every day we face unchanging facts:

- Equal rights are guaranteed to all by our democratic form of government.
- Each of us may worship his God in his own way.
- A man's success is limited only by his own talents, initiative and industry.
- As public servants we serve all people without prejudice or preference at a price each family can afford to pay.

We are here to answer all your questions about funeral service.

#### PARLIAMENTARY PROCEDURES

Will the meeting please come to order? This seems to be a familiar start for a class meeting, doesn't it; but it takes a little more than this. Next should come the secretary's report, but don't the classes have any secretaries? There never seems to be any report. During the discussion of business why is someone always wisecracking or bringing up unimportant business? How do committees get appointed these days? They were once appointed during class meetings; this is no longer the case. If things were discussed more before they were voted on everyone would have a better idea what they were voting for. After the business is supposedly taken over (but no one seems to know what went on) the meeting is not adjourned, but someone without authority says the meeting is over so everyone leaves. We know better than this, fellow students, why don't we do better?

#### STUDENT COUNCIL

The Spring Dance, to which the public is invited, was discussed, and a motion was made and seconded that no eighth grader would be admitted to the dance without a guest ticket.  
The committee for the ushers and guides for Parents' Night was chosen with Deloris Elmsman as chairman.  
The morning home-room period might be used to better advantage, such as having the speech class present material or show movies to the students that would be interesting.

#### SMALL TALK

Bob Toney seems to be getting writer's cramp!  
Neither rain nor snow nor sun

nor sleet will keep Joyce from going up town every nook and cranny. Who's going to buy that old broken-down wagon that's for sale?  
Mr. Newkirk, who won the dressing race over Happy Hank this morning?  
Why does Knick fascinate Shirley much?  
Who or what is Einstein's latest flame?  
"Everyone is walking on their heads?" (Oh, well, some people are crazy).  
What happened to Bob's jelly beans in Geometry class?

#### GAA

The girls are through with their regular basketball season and are now playing the class tournaments. The sophomores played the seniors last Monday and the freshmen played the Juniors.  
The bowling girls are improving as the year goes on. All the teams are very close and no team is in first place alone. Last week, Doris Gilson had the high game of the week, which was 170.

#### FACULTY PLUS FROSH DEFEAT SENIOR CHAMPS

The seniors, having won the class tournaments, played the faculty as the grand finale of the basketball season. The eligible male basketball players of the faculty, being few and far between, had to be substituted by the freshmen. Their starting line-up consisted of Mr. Cameron, Mr. Newkirk, Mr. Johnson, D. Crocker and S. Knickerbocker. The starting line-up for the seniors was D. Vogel, J. Miller, D. Baldwin, R. Carlson and O. Hansen.  
The game began with a rip roaring start. One could take particular notice of Mr. Newkirk, who seemed to be having trouble getting his bearings.  
After the first two minutes, the seemingly hardy faculty was getting a bit exhausted. Mr. Cameron soon dropped the ball in the hoop for the first basket, followed by Miller, who scored for the seniors to tie up the game. At the end of the first quarter, the faculty was leading 13 to 9.  
The second quarter continued at an even greater speed than the first, but the faculty kept their lead and by the half they were still ahead by a clean margin of 25 to 19. Maybe it was their avid cheering section, led by Miss DeRose that spurred them on.  
The faculty continued to hold their lead throughout the game, which ended with the faculty being the champs by the score of 43 to 38. Could it have been due to Mr. Newkirk's spectacular shooting and Mr. Johnson's fast foot work?

#### PARTIES

The Student Council sponsored a very successful All Hi party last Friday, for the students and their parents. Quite a few of the parents were present, although few of them danced. The gym floor was so crowded that some people merely stood in one position and swayed in time to the music.  
Clare Knickerbocker did a good job of playing the records. Some of the records played were: "Ballerina," "Squeeze Me," "Near You" and "Now Is The Hour." After these, two square dance records were put on. This didn't work out so well, however, and the rhythm changed to "Ham and Eggs."  
Although the floor was crowded, the dancers had a good time.

#### CLASS TOURNAMENTS

The intramural basketball tournaments which were played last week were a howling success—for the victors, that is! Each "game night" one would see a huge crowd of people madly flocking into the gym, and before you could say "basketball game" the room was overflowing with humanity.  
Monday, March 8, the first classes to play were the Seniors and the Sophomores. Guess who won that game? Well, as we heard it, the score was: Seniors 65, Sophs 25. I guess the Seniors won that time. Following that game, the Freshmen tangled with the Junior team. This final score was: Freshmen 39, Juniors 28.  
Wednesday, March 11, the champions—Seniors and Freshmen—locked their mighty horns. What a game! Well, what was that score, you ask? Let me see now—it was something like 199 1/2 to 199 1/4. Jeppers, that can't be right! Actually, the score was: Seniors 48, Freshmen 26. Wait a minute—don't go away! There was another game, too. The gallant Juniors and the mighty Sophomores finished their game with the score of:

Juniors 22, Sophs 26.  
That's all folks! Class tournaments are over, now.

#### KINDERGARTEN NEWS

Charles Cameron celebrated his birthday at school by serving chocolate cake and ice cream.  
The Kindergarten celebrated Jane McLaughlin's birthday party with decorated cup cakes and ice cream. Jane is now six years old.

#### SECOND GRADE NEWS

The second grade experimented with snow. They found out that snow is white, cold, wet and is winter rain. It also makes snowballs, and makes walking hard. It keeps crops warm and it carries germs. They also found out that snow is dirty and it melts, making about one-third cup of water in 15 minutes.

#### SEVENTH GRADE NEWS

We made booklets to put our themes and book reports in which were on display Parents' Night.  
The Junior basketball teams divided up. The captains of teams are as follows: Team A: Alfred Knickerbocker; Team B: George Winchester; Team C: D. Bott, and Team D: D. Merkel.

#### FIFTH GRADE NEWS

The fifth grade was surprised Monday morning by having cut cakes served to everyone by Connie Steinbach, on her birthday.  
The enrollment of our grade is now 42; Paul Jennings just came here from Napoleon.  
Tuesday afternoon after recess our grade enjoyed an Easter party which was a surprise given by the boys and girls for Mrs. Lange. Lovely Easter egg place mats were made by two members of the committee, Gale Lindwall and Martha Olin. Nut cups were made by Linda Walker. Everyone enjoyed the refreshments of cookies, marshmallow Easter eggs, jelly beans and wax dolls filled with syrup. Everyone worked hard to pre-

pare the room for Parents' Night. We hope they liked it.

#### FRESHMAN NEWS

The Freshmen held a class meeting last Thursday. Many plans have been made for their party in April. They are having a hard time getting everyone to pay his dues and wish the students would cooperate more.

#### JUNIOR NEWS

The Juniors have decided their theme for the prom, and all the committees are starting to work on it.

#### SENIOR NEWS

Plans for graduation are now well underway. Last week the seniors were measured for caps and gowns, and the order was placed.

Work has been started on the Annual. This year there will be a new plan for High School pictures; all High School students will have individual pictures in the Annual.

**Road Master for a new reason**

**— Dynaflo Drive**

PUT your mind's eye to measuring the makings of a truly masterful car — and you certainly can't overlook this one, especially this year.

Here you find the distinction of taper-thru styling — the regal comfort of an all-coil-spring ride, now newly shielded against vibration — the Fireball action of a great straight-eight engine that boasts the quietest purr and pulse in all motordom.

Already you have reason to grant that it sets a new measure of motorcar excellence, regardless of price. Now look at something where comparison ends — at Roadmaster's Dynaflo Drive.\*

For no automobile drive ever developed makes driving so effortless, yet gives you such near-miracle performance.

Here you not only drive without a clutch pedal and without manual gear-shifting — but also without any break in your Roadmaster's gait, as it accelerates between all speeds. That is because no gears ever shift anywhere

in the car — not even automatically!

Here the power plant itself does what gears used to do — responding to the touch of your toe on the treadle through all speed ranges — without trace of lag or halt or hesitation.

So though you've already decided there was no surpassing the Roadmaster's super excellence in terms of its 4400 pounds and 18 feet of top styling, luxury and power — just boost your expectations still higher.

See the Roadmaster — try Dynaflo. — and you'll find more reason than ever to get your order in — with or without a car to trade.

#### WHAT'S DIFFERENT ABOUT DYNAFLO DRIVE\*?

To an efficient new pump (left above), Buick engineers have added a true turbine (right) and an ingenious new supercharging assembly (in hand) which produces a torque-boosting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

## U. of M. Ext. Library Offers U. N. Material for Classroom Use

The University of Michigan is now the official distributing agency for educational materials about the United Nations. Dr. Warner G. Rice, director of the University Library, has announced.

All requests for such material from teachers, members of study clubs, and other Michigan residents should be directed to the Library Extension Service of the University, rather than directly to the United Nations, Dr. Rice said. This work is being done by the extension library at the request of the Educational Liaison department of Public Instruction of the U. N., making information about the international organization readily available to the public.

The United Nations is represented in the University's General Library by a complete set of documents, Dr. Rice points out, but these documentary materials are not circulated about the state. They are permanent records.

Home Ec. Extension Groups Study Use of Color in Home  
New ideas, new colors and new ways of using them in color plans for the home will be discussed at three district leader training meetings.

Leaders of the Home Economics Extension groups will meet March 18 at Ann Arbor, March 23 at Ypsilanti and March 24 at Royal Corners.

The meeting will start promptly at 10:00 and will include a discussion and demonstration of "Correlation of Color in the Home." Miss Jessie Marion, Extension Specialist in Home Furnishings at Michigan State college will be in charge of the meeting at Ann Arbor, and Mary C. Wiseman, Home Demonstration Agent at Ypsilanti and Rowes Corners. This lesson will then be presented at the 46 local Home Economics Extension groups in Washtenaw county by their leaders.

This is an opportune time to plan the colors for the new homes or remodeled homes which are being built now or in the not too distant future.

Redecorating and refurbishing of homes require careful planning, and one of the first problems is to decide on the colors which are to be used.

It requires time to study to plan colors and color combinations which will satisfy the family. The effect of color on the emotions and the effect of color on the light have long been recognized in large industrial plants where efficiency of the workers is important.

Color fashions in decorating change, so old fashioned rooms and furniture can be brought up to date simply through a change of color-plan for the paint, wallpaper and fabrics used in the room.

Red Cross Home Service workers provide counseling services in personal and family problems; give assistance in presenting applications for government benefits; make referrals to other community agencies; and offer information, communication and reporting services.

From where I sit . . . by Joe Marsh

## How to Keep 'Em Down On the Farm

The other day Pete Swanson's nephew, Bud, allowed as how he was fed up with farm and country life. . . and was going to the city where there was a lot more opportunity and excitement.

Some folks might have tried to stop him. But not Pete. He even advanced Bud carfare for the trip . . . figured that when he'd had a good look around, he'd come back where he belonged.

And what happened? After seven days of big-town bustle and excitement, Bud was back behind the

wheel of a tractor, with color in his cheeks again. And he'd traded the night life of the city for a quiet glass of beer with Dad.

From where I sit, that's how it goes. Try to prevent some one from getting what he thinks he wants—and he'll go on wanting it. But give him his head, and he'll settle for the sensible thing—whether it's country life, or a temperate glass of beer!
