

Michigan state government has too many boards, bureaus, commissions and other agencies. So declares Governor Kim Sigler.

He proposed that the state legislature consolidate many of them into a state department of administration. Furthermore, he favors—as a last alternative—placing a state constitutional amendment before the voters in November which would limit the total of state administrative departments to 20 or less, about one-fifth of the present total.

Governor Sigler's observation that Michigan's government has become too complex—too many boards and commissions—has received favorable support of many people in Michigan. There is some evidence to substantiate a belief that many of the voters who supported the sales tax diversion amendment in November, 1946, did so in the conviction that Lansing had too much money for its own good, too many state employees on the payroll.

And so the move to clip the wings of state bureaucracy—curtail the superstructure which has developed from year to year at the state capital—offers a popular political appeal.

Quoting Governor Sigler: "At the latest count there were more than 100 state boards, bureaus, commissions and agencies. Many of them perform overlapping functions or duties which are not necessary for the welfare of the people. Others enter into the everyday life of many citizens. The whole thing is a sprawling maze of organization. Perhaps disorganization would be a better term."

"In well organized states, recognized for their efficient operation, what do you find? Not 100 boards, but perhaps 20 agencies, to be put under the direct responsibility and power of the governor."

Right here the governor introduces a second reform. Not only would he reduce the number of state bureaus at Lansing, he would put them under the direct responsibility and power of the governor. And right here a basic conflict arises. Many state legislators, who are critical of top-heavy bureaucracy at Lansing, hesitate to centralize more power in the hands of the governor by giving him the right to hire and fire department heads.

Fred Green defeated Governor Alex Groesbeck, they recall, on a move to curtail the authority of the governor.

Governor Sigler argues his case as follows: "As it stands now, most boards and commissions are far removed from control of the people. The voters cannot make their approval or disapproval heard because the members of the boards, bureaus and commissions are serving overlapping terms. They frequently are a law unto themselves."

"The people quite properly expect the governor, the legislature, and other elected officials to be responsible for the entire government of the state. The governor is responsible to the people. If they don't like his policies they have the opportunity of registering a protest at the ballot box. I also have proposed the merging of certain other commissions and boards to eliminate overlapping, and thus save money and increasing services."

If the legislature votes to submit Governor Sigler's amendments to the voters next November, it will be more out of courtesy to the head of the party than to any personal enthusiasm of legislators. The governor is asking that the legislature give the jury (the voters) an opportunity to return a verdict.

Ask Change in School Law on Petitions

PTA, Teachers Club Sponsor Petition to Put Issue on Ballot

With the assistance of the Chelsea Classroom Teachers' Club, the Grade PTA and High School PTA are circulating initiatory petitions to place on the fall ballot two changes to the school laws of Michigan.

Changes recommended in the laws would permit a school district to bond itself for a period of 20 years, instead of five as at present, and would make it possible for a majority of voters to change the millage limitation. At present a two-thirds vote is required.

Since 1932, when the five-year bonding and the 15-mill limitation laws were passed, school construction has fallen far below actual needs. Michigan lacks more than 5000 classrooms today, according to reliable reports.

This lack of classrooms comes at a time when an unprecedented crop of "war babies" is entering the schools, and when a relatively new state law requires the attendance of all children physically fit under 16 years of age. Rural children could drop out of school at the end of grade eight under the old law, but that is no longer true.

Spokesmen of the group state that while school income has risen 66 per cent since 1940, school costs have risen 86 per cent for the same period.

Increasing scarcity of teachers is also one of the present-day problems. Last June Michigan schools had 5389 vacant teaching positions, though training institutions graduated only 1734 trained teachers, of whom more than 700 had taken jobs other than teaching, where salary and working conditions were better. In other words, records show that teachers are retiring faster than they are being replaced.

While the 15-mill limitation was made legal by a vote of 670,000 for \$40,000 against it, taken at a two-thirds vote, the proposed change would make a millage change possible by a simple majority.

The local teachers' club has organized a speakers' bureau, and seeks invitations to explain the situation, as they see it, to any organizations, groups or individuals interested. Any club, lodge, organization, or group which would give fifteen or twenty minutes of time to a discussion of this matter, is urged by the sponsoring committee to call the High School, 2-1521, and leave time, date, and place of meeting with the secretary. A speaker will appear.

Make Plans for Achievement Day Show on May 18

Mrs. William Bahnmiller and Mrs. Wilber Hatt were in Ann Arbor Monday and attended an all-day meeting of the Washtenaw County Home Economics executive committee, held at Bethlehem church on South Fourth avenue.

Various committees reports were given and final plans were made for Achievement Day, which is to be held May 18 at the Ann Arbor High school, and for the dinner which is to be served at noon that day at the First Methodist church, across the street from the High school.

Achievement day activities planned Monday will include Mrs. Warren Brown of Marshall as the main speaker on the afternoon program and a review of remedial hats in the morning. This latter feature will include one model chosen as the best from each group in the county and should prove very interesting.

Miss Mary Wiseman, Washtenaw County Home Demonstration agent, announced that the week of May 2-8 has been designated as National Home Demonstration Week. Displays showing the different lessons of the work will be placed in store windows at the various communities represented all during the week.

Again this year at the Achievement Day dinner there will be a contest for Extension Groups, competing for prizes in table centerpieces, it was decided at Monday's meeting. Judges are to be professional men and women or florists.

Mrs. Likert spoke to the group at the meeting, on relief for starving and dying children in Europe on behalf of the "Crusade for Children" of which she is a representative, and the assistant State Home Demonstration leader, Miss Elizabeth Koniger met in the afternoon with Extension Group chairmen to discuss program planning for 1948.

Blood Bank Program of American Red Cross Is Endorsed by Health Agencies

(This is the final article in a series describing the work done by the American Red Cross during the past year for funds is now being held.)

Blood and blood derivatives, provided without charge to anyone in the country who needs them—that is the aim of the new National Blood Program of the Red Cross.

Medical and surgical advances made during and after World War II developed many uses of whole blood and its by-products in the treatment of diseases. But the supply of blood now available in hospitals and from private agencies is far below the national need.

As a result, the American Red Cross has been authorized to carry out a program of collection and distribution of blood and its derivatives to the nation's entire population.

In addition to whole blood and plasma, new utilization of blood derivatives has been found effective in the treatment of shock and certain kidney diseases, for modification or prevention of measles, for hemophilia, for determining blood types, to promote recovery in brain and nerve surgery, to treat certain anemic conditions, and to promote healing of wounds and vascular ulcers. Also, whole blood is essential in the treatment of a person injured by atomic radiation.

The Red Cross, which collected more than 15,000,000 pints of blood during the war, has now set up six new collection centers and plans to incorporate existing local programs. Eventually there will be

Plans Com. Halts Sale of Land in Willow Run Area

At a special meeting Monday evening, the Washtenaw County Planning commission acted on the request of the Willow Run Area Planning committee to delay all land sales in the Willow Run area until such time as a sound land use plan has been developed.

Without such a plan the area would be open to unorganized and unrelated development. With definite plans made for the area before any of the lands were sold the developments would then fit into the over-all plans for the area and county. In the land use plan, places would be designated for agriculture, business, residential, and recreation in such a manner that it would improve the conditions existing in the area at the present time and prevent spotty, haphazard and uncoordinated development.

George D. Hurrell, director of the commission was authorized to confer with Ypsilanti and Superior Township officials and the Willow Run Area Planning committee preparatory to forwarding a letter to the RFA officials.

Another matter of importance coming before the Washtenaw County Planning commission was the recommendation of the Program committee that a land use inventory be made, township by township as quickly as possible. Other surveys will be made later.

Hurrell stated that assembled facts about land use, population, land types, drainage, and other important items will provide the basic information on which the Commission can formulate sound plans to guide the county's physical and economic development.

Worshippers Fill Churches Easter Sun.

Good Attendance Is Reported in Spite of Inclement Weather

All churches in Chelsea were filled to capacity Easter morning with worshippers. Snow and wind of almost blizzard proportions on Saturday and low temperatures Sunday morning, notwithstanding, many new Easter bonnets and outfits were in evidence although most people gladly wore their winter outfits for comfort.

All churches were profusely decorated with traditional Easter lilies, many of them placed on the altars by members of the churches in memory of departed relatives.

An estimated five hundred received Holy Communion at the two Masses at St. Mary's church, Father Lee Laige, pastor of the church, reported.

The Congregational and Methodist churches held Communion services and baptism of children and adults on Thursday evening. About one hundred received Communion at each of these two churches.

At the Methodist church seven persons were baptized Thursday in addition to eleven who were baptized on Palm Sunday. Twenty-three new members were taken into church membership at the Thursday evening service. It was stated by Rev. O. W. Morrow, pastor of the church that a total of 400 persons attended the Easter morning worship service at the Methodist church.

Seventeen persons were accepted as members of the Congregational church at the Thursday evening service and several children and adults were baptized. Rev. W. H. Skenebury said that the success of the Easter morning service was exceptionally good.

Fourteen new members were accepted at the Easter morning service at St. Paul's church. Communion services were held there on Palm Sunday as well as on Easter Sunday. One hundred and twenty-two persons received Communion on Palm Sunday and one hundred and sixty on Easter Sunday.

The Union-Good Friday service held at the Methodist church was attended by more than five hundred persons. All Union Lenten services, sponsored by the three Protestant churches of Chelsea were well-attended during the entire six-week period. Offerings at these services amounted to more than \$300 which is to be divided equally between the three participating churches to be given for overseas relief work through their respective denominations.

Rev. O. W. Morrow, in his first year of work in Chelsea, stated that it was his belief that the success of the services in all denominations here was the result of the co-operation and true spirit of unity evidenced by the participating churches of Chelsea, their pastors and the congregations.

Washtenaw Historical Society Told About Information Sources

"Adventures in Historical Research" was the subject of the address given by Dr. F. C. Bald, assistant director of the Michigan Historical Collections, in the Rackham Building in Ann Arbor, on Friday evening, March 19. Dr. Bald, speaking before the Washtenaw County Historical Society, stated that manuscripts, official papers, reports, statutes, newspapers, diaries, account books, personal letters, and photographs are very valuable for historical research. In his opinion, the best source for historical research is books, which are also the easiest source. Books, however, are not always correct, so information should be carefully checked. There is a saying that history does not repeat itself, but historians often do. An error in one book may be copied many times. He stated that often valuable sources of material may be hidden for years in attics and come to light after 40 or 50 years. Diaries are of particular interest in aiding historians. The historical collection has recently come into possession of the diaries of Sarah Caswell Angell, wife of a former president of the University of Michigan, which were written while Dr. Angell represented the United States in China and Turkey.

The Historical Society announces that anyone having letters or records may take them to the Rackham Building in Ann Arbor for safe keeping. It is important to preserve these documents, and at the Rackham Building they can be arranged and catalogue materials to make them available for use. Persons not wishing to present them to the collection may lend them.

'Watch Out for Kids' Is Safety Program of State Health Dept.

"How much is your child's life worth to you?" Then, surely, you can give up the extra few minutes it will take you to watch out for kids on your way to and from work, shopping or the theatre. "This is the time of year when bicycles, baseballs, marbles, jumping ropes, roller skates and kites come out of winter storage, when tiny scaries are flying, when little folks slip on unexpected ice, when

little feet run faster at the sound of a robin's song, or sight of sunlight and bursting buds; and children's hearts are so carefree that they forget to be careful. "Use special caution when driving in school zones just before

classes are called or just after dismissal. Accidents take more children's lives than any other thing. That's the way your State Health department talked today in urging cooperation in the national "Watch

Out for Kids" campaign this month. "Teach your child the right way to cross a street, and give every child the right-of-way for life," it said.

HERE'S THE STORY OF A BIG TELEPHONE YEAR

More telephones and more service for customers! More jobs and more money for employees! But earnings for investors continued

their downward trend because the rise in costs far exceeded the rise in revenues. That's how 1947 stacked up for Michigan Bell.

CUSTOMERS

At the end of 1947, there were 1,511,000 more telephones in service than in 1946, including 16,000 more in rural areas. In the territory we serve, 73 of every 100 families had a telephone. But 51,000 families were still waiting for service.

Service was better. Customers could call more people than ever before, and did. With the average customer making between 6 and 8 calls a day, total calls averaged 8,022,000 a day.

We added more switchboard "positions," switching equipment to connect 87,000 more dial telephones, and 350,000 miles of wire. We enlarged the capacity of 196 central offices and built 7 new ones.

Forty-eight million dollars were spent for expansion and improvement. But Michigan Bell's plant is still not big enough to serve everyone the way we would like.

EMPLOYEES

Michigan Bell's expanding business created 1,900 more telephone jobs during 1947. This required more supervisory jobs which were filled by promotion from within the ranks.

There were nearly 3 times as many employees at the end of 1947 as 10 years ago. Payrolls were nearly 4 times as high. Wage adjustments last Spring increased costs about \$5,864,000 annually. One out of every 11 employees received benefits because of illness or injury.

By purchasing A. T. & T. stock under a payroll deduction plan, 7,400 Michigan Bell employees were on their way to becoming part owners of the business.

INVESTORS

HOW WE DID FINANCIALLY		
	1947	Change from 1946
GROSS REVENUES	\$97,498,000	UP \$ 5,783,000

leaves		
EARNINGS	\$ 7,722,000	DOWN \$ 4,618,000
EARNINGS PER INVESTOR'S DOLLAR ...	3 1/2%	DOWN 3 1/2%

Money received from customers for service was 8% more than in 1946. But costs of providing service—wages, taxes, goods and services from others, etc.—rose 13%. Earnings per investor's dollar dropped to about half of what they were in the previous year.

750,000 investors in Bell System securities supply the money to build Michigan Bell's plant. Millions more have invested indirectly through savings accounts or insurance policies with institutions owning Bell securities.

1947 QUARTERLY EARNINGS ON INVESTOR'S DOLLAR		TOTAL EARNINGS FOR 1947—3 1/2%	
JANUARY	100	100	100
FEBRUARY	100	100	100
MARCH	100	100	100
APRIL	100	100	100
MAY	100	100	100
JUNE	100	100	100
JULY	100	100	100
AUGUST	100	100	100
SEPTEMBER	100	100	100
OCTOBER	100	100	100
NOVEMBER	100	100	100
DECEMBER	100	100	100

Even with the telephone system operating at capacity, because of rising costs only 3 8/10 cents were earned on each dollar invested. This is not an adequate return. So the Michigan Public Service Commission is now considering our application for an increase in telephone rates.

ALL THREE GROUPS—customers, employees and investors—have a stake in the business. Looking to the future, Michigan Bell fully expects to supply a continually improving service to the

public... good jobs for thousands of employees, with plenty of opportunity for advancement in a growing business... and a reasonable return to those whose savings are invested in the business.

Bulletin Tells How To Sew Handmade Rug

Making rugs is a practical way of using old clothing and scraps of materials. It is one way of getting your floor coverings the right sizes and colors without spending much money. 37

Miss Mary C. Wiseman, home demonstration agent, believes that a handmade rug should be worth the time and effort you put into it. For a satisfactory rug you will need to spend time to collect, sort and prepare the materials. In fact it will take you longer to prepare the materials than it will to make the rug. 37

You will want to make a definite plan for the entire rug before you start to make it. 37

For detailed instructions and illustrations for making rugs contact your county extension office and ask for the new bulletin, No. 289, "Handmade Rugs." 37

ONLY 6 MORE DAYS!

The Most Unusual Offer Ever Made In The Tire Business!!

YOUR MONEY BACK IF Super-Cushion TIRES DON'T GIVE YOU THE SOFTEST RIDE YOU'VE EVER HAD!

YOU RIDE... THEN YOU DECIDE!

Due to the demand for Super-Cushion tires we are able to make this unusual offer for only these few more days. Come in—we'll put a set of Super-Cushion tires and tubes on your car. Drive it for one week. Then, if you don't agree they give you a softer ride than any tire

you've ever owned, we'll replace your old tires and tubes and give your money back. Super-Cushion is a remarkable new kind of tire. Bigger, softer than conventional tires and runs on only 24 pounds of air pressure. It is so superior that we can afford to make this amazing offer.

Super-Cushion TIRES BY GOODYEAR

Super-Cushions give you a remarkable new ease in car handling. Your car hugs the road, seems to float through traffic, to flow around curves.

Super-Cushions soak up crosswise jolts, soak up vibration. Results: less driving fatigue, less wear and tear on your car, fewer rattles, fewer repair bills.

Super-Cushions consistently average more mileage than the best standard tires. More—they make small cars ride like big ones... big cars ride better.

Super-Cushions run cooler; and because they're softer they "roll with the punch", are harder to cut, bruise or blow out.

Arrange for a Super-Cushion trial on your car today.

Who's the old-fashioned girl who wears two petticoats to school?

Is Audrey's "Maxwell" a drip or a regular?

Thelma, you need a "new look!" Can't you achieve a more interesting look in class?

Norman, how did you acquire that black eye, again?!

Why did everyone have his coat on in Geometry class last Thursday? Maybe they all had "Spring Fever."

OCCUPATIONAL INFORMATION

Twenty-eight members of the Junior and Senior classes attended the College and Occupational Information conference on March 23.

The purpose of the conference was to help students choose their vocations after graduation.

Dr. T. Luther Purdom of the University of Michigan, spoke at the general assembly about "Some Things High School Students Should Know about Choosing a Vocation." After the address, the students separated into different discussion groups such as: Army, business administration, engineering, home economics, music, and teaching.

After a brief intermission, the discussion groups met in the second period beginning at 1:30 p.m. The groups were: chemistry, speech, forestry, navy, nursing, and physical education.

At the close of the evening all the students who attended had a broader outlook on the occupation in which they were interested.

STUDENT COUNCIL NEWS

A Spring dance will be held on April 2, sponsored by the Student Council. Music will be by Bill Henlin and his orchestra, from 9 to 12 p.m. Admission will be charged. Refreshments of sandwiches, soft drinks, and ice cream will be served.

The Seventy grade won the prize for having the most parents present on Parent's Night.

THE TELEPHONE

An opera, "The Telephone," was presented to the High school Thursday afternoon. The two people involved in this telephone-crazy musical were Mr. Gabel, as Ben, and M. J. Albright, as Lucy.

The plot of the opera was that Ben was leaving the vicinity for a while and wanted to ask Lucy to marry him, but the telephone seemed to have other ideas for every time he was ready to pop the question, the telephone rang. As the time came nearer for Ben's train to leave, he became desperate, and he left Lucy alone, forever, she thought. Then the telephone rang and it was Ben. It seemed to Ben the only way to have time to propose to Lucy, was to phone her and he was right. Lucy consented to become Mrs. Ben, and the two concluded the program with a duet about "Don't forget my number," which was wonderfully done. Everyone enjoyed the afternoon's entertainment immensely.

YEA, TEAM!

The High School students were presented with a very interesting movie of the New Year's Rose Bowl game, in which Michigan played Southern California. The pictures were clearly explained by Harold Lieber of the University

of Michigan's Physical Education department.

For admission everyone was asked to contribute a can of food to be given to the Navajo Indians.

The Sophomore line-up was: Dorothy Howard, Becky Hollifield, Mary Schrader and Winona Franklin as forwards. The guards were Marilyn Johnson, Gloria Fouty, Peggy Schaible, and Sarah Geer.

were "Heavenly Light" and "Jesus, Son of God." They are practicing on the operetta, which will be given on May 7. They are also beginning to work on the numbers for Baccalaureate, Class Night, and Commencement services.

The committees are as follows: refreshments—Doris Vickers, Don O'Dell; program—Phyllis Kelly, Martin Tobin; Gym clean-up—Ted Slane, Louise Wals; Home Ec clean-up—Ruth Guenthey, Carl O'Dell; decorations—Joan Schneider, David Crocker.

BIOGRAPHY

On Oct. 26, 1929, in the small town of Chelsea, there was born to the Vogels a baby boy. They named the baby Douglas Vogel.

"Doug," as he is called, is now 17 years old and a Senior in Chelsea High. Doug enjoys Physics and horses as his favorite subject and hobby. His favorite food is chop suey. It is a very common sight to see Doug walking down the street wearing a blue suit, merrily singing "Prisoner of Love."

Doug plans to attend college after graduation.

THANK YOU

I wish in this way to thank my relatives, neighbors, friends and the Central Fibre for the flowers, fruit and many cards sent me during my recent illness.

Mrs. Robert Adams.

White sidewall tires, as illustrated, available at extra cost.

It's NO. 1 on the "It" Parade

It's much the same way with cars as with people.

Some "have it" — some don't.

Some you go for, all out — without quite being able to lay a finger on why. And those — well, they usually become your firmest friends.

What is it that makes so many good folks say this trim honey's "got it"?

Good looks? One has to admit it's nice to ride in a car that is unmistakably itself and not just a slightly modified version of something else.

Size, weight? Well, the polls tell us it's a pretty important factor since, if you like an automobile that does things, there just is no substitute for brawn and solid substance.

Power? Naturally. You can't sit long behind this big Fireball straight-eight without falling for it plenty hard.

Handling? Ride? Room? They all have their avid fans among Buick owners. Especially now with a completely new kind of engine mounting ironing out vibration build-up as

never before, and in this Convertible model, with automatic top, door-window and front-seat adjustment.

Is it the wonderful new Dynaflo Drive* that's causing so much talk?

In ROADMASTER models that is certainly a big factor. You'll never know how silky smooth a drive can be — what fluent new ease there is to all your going — till you drive the car where liquid replaces both the clutch and first, second and high gears.

But as nearly as we can find out — and we talk to a lot of people — it isn't any one thing that puts Buick at the top of the "it" parade. It's the overall richness of this honey in all the things you've dreamed of finding wrapped in an automobile.

Ask any friend who drives a Buick — then see your dealer and get a firm order in, with or without a car to trade.

WHAT'S DIFFERENT ABOUT DYNAFLO DRIVE*?

To an efficient new pump (left above), Buick engineers have added a true turbine (right) and an ingenious new supercharging assembly (in hand) which produce a torque-boosting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

*Optional at extra cost on Roadmaster models only.

BUICK alone has all these features

- * DYNAFLO DRIVE (Optional, Roadmaster Series)
- * TAPER-THRU STYLING
- * VIBRA-SHIELDED RIDE
- * HI-POISED FIREBALL POWER
- * ROAD-RITE BALANCE
- * QUADRU-FLEX COIL SPRINGING
- * SOUND-SORBER TOP LINING (Rear and Roadmaster)

Allow Sufficient Space for Chicks in Brooder

Crowding can mean a lot of trouble in raising baby chicks, wrote Howard Zindel, extension poultryman at Michigan State college. Overcrowding and too little feeder space may result in uneven growth, cannibalism, barebacks, and high mortality.

Allow one square foot of floor space in the brooder house for each two and one-half chicks. Thus, a 10 by 12 foot colony house should hold not more than 800 chicks to six weeks of age. Allow one square foot of floor space per chick after the age of six weeks.

LEGION NEWS

Members—Are you interested in Big Wages? April 4 we need about 50 or 60 men for the Legion Home for two hours' work. Spring clean-up and fix-up. Bring rakes, shovels and axes. For the two hours work you will receive all you can eat and (coffee). This should net you about \$3.00 an hour.

Plans for the Ladies' party are under way and the second vice-commander will need some help. So expect a call. The Auxiliary Birthday party was a big success. Let's try to equal it.

We are sponsoring a junior baseball team for boys up to 17 years of age. Uniforms will be furnished by the Ford Motor Co. through the efforts of their local representative. The schedule will include four counties, or more, so let's attend as many games, particularly home games, as possible. The boys will look better in baseball uniforms than in khaki.

Numerous improvements have been made in our club rooms, thanks to the efforts of the Club committee. Come out and see them.

A drive is now on to re-instate 47 members. You must have a '48 card after June 1.

Regular meeting tonight, April 1. Special committee to be elected. Be there.

If you are not at the Sunday Bee, we'll accept a pound of good grass seed or a quart of white paint, delivered at Strider's Men's Store on or before the 3rd. If the weather is unfavorable, the Bee will be postponed until April 11.

PILGRIM'S INN
By Elizabeth Goudge
This is a novel of our time, presented against a background of magic woods in a corner of England which has been touched, but not destroyed by war. Pilgrim's Inn is a Goudge at her best—magic atmosphere, appealing lovers, delightful children—and, best of all, an interesting and exciting story.
