Bulldogs Win
Game from
Saline HighQuick Touchdown
Proves To Be Only
Scoring of EveningBy DWIGHT GADD
Chelsea High's Bulldogs smashed to a quick touchdown in the opening minutes of the ballgame last night and then made that score final for the rest of the game, as they downed the Saline Hornets, 7-0.

The Bulldogs took the opening kickoff, and with Stan Knickerbocker leading the assault, marched downfield for 65 yards on nine plays, with Bob Vogel racing over from the 11-yard line on a weak-side reverse for the score. This drive not only saw Stan running very well, but the team as a whole blocked much better than at any time this season. Heydlauff's kick for the point after was good and the score read Chelsea 7, Saline 0, after three and one-half minutes of play.

After that sort of a start, it appeared that it might be a crowd-pleasing game, but for the rest of the game it was almost a mid-field contest, and neither team could keep a sustained drive on to goal.

Saline penetrated into Chelsea territory in each of the last three periods, going to the 10 in the second quarter, the 26 in the third, and to the 18 in the last quarter, but the Bulldogs braced and threw back these invasions each time to protect their one touchdown lead.

While Chelsea gained more ground and around mid-field, they couldn't penetrate farther than the Saline 28, after that first score.

Chelsea racked up 11 first downs to Saline's five, and completed two out of four passes, while Saline connected for 7 out of 9.

The Bulldogs managed to control little Frank Randall, Saline quarterback, who had averaged one to two "long" punts a game until last week.

Tomorrow the Bulldogs will tangle with the Vikings of Dundee at the Dundee field. There is an interesting sidelight to this game because of the fact that a former football star, "Chuck" Lane, is now the Dundee coach.

Judgment of the writer of the "Michigan Mirror" is that the taxpayer is getting a good deal of value for the money he is paying for the school city and state government needs cannot be adequately financed out of present taxes.

As long as inflation keeps booming and taxes keep mounting, everything may appear to be rosy at Lansing. When deflation sets in, trouble is inevitable.

● Proposal No. 3 on the special ballot would permit the state legislature to fix salaries of state elective officials. The constitutional salary of Governor Kim Sigler, as set according to 1939 standards, is \$5,000. The same sum is earmarked for the attorney general.

The 1939 constitution also fixes the salary of secretary of state, state treasurer and auditor general at \$2,500 a year.

How does Michigan manage to induce qualified citizens to serve as state officials? Answer: By a legislative subterfuge, upheld by the state supreme court, of allowing an additional salary for membership on the state administrative board, or in the case of the governor, an "expense account" with no strings attached.

Governor Sigler is paid \$20,000 a year on this basis. Other state officials get \$7,500 a year, with the exception of the lieutenant governor who draws \$8,500 a year, plus \$3 per day, or around \$4,500. Governor Dewey and Governor Warren are paid \$25,000 a year by their respective states—New York and California.

A further adjustment in the governor's compensation may be forthcoming in the future when the governor's residence at Lansing is ready for occupancy. (Continued on page twelve)

High School-PTA
Supper Is Held
Monday Evening

About two hundred were present at the High School PTA-sponsored supper and entertainment held Monday evening, Oct. 26, in the High School gymnasium. This number included students and their parents and teachers. The prize for having the largest number of parents present went to the freshman class.

The supper, a planned pot-luck meal, proved to be a well-balanced and tasty one, much enjoyed by all who attended.

Following the supper, Albert C. Johnson, school superintendent, spoke briefly on the amendments in regard to school legislation which are to appear on the November election ballots. He also expressed his pleasure in the splendid participation in the evening's activities, saying that he hoped in later activities of the PTA-Student work, and thus "increase fellowship and understanding between parents and students."

Charles Cameron, High School principal, introduced the teachers, all of whom were guests at the gathering.

Questionnaires were distributed to all parents present, which are to be filled out, signed and returned to the PTA. Purpose of the questionnaire is to obtain the opinion of parents on the importance of parent-student-teacher cooperation and also to ascertain whether parents are in favor of High School PTA work.

The evening's entertainment was in charge of Mrs. Haulah Barnes, in charge of the PTA. Other members of the PTA, including Mrs. Jackson, Recreation department, who kept adults and students alike who provided a most enjoyable evening.

Mrs. Burnadine Hill of Detroit, spent from Friday until Sunday here with her mother, Mrs. H. D. Witherell. Mrs. Hill was enroute home from a ten-day trip to Washington, D. C.

Sunday dinner guests at the home of Mr. and Mrs. A. W. Lyons were Mr. and Mrs. Tom Lyons and children, and Mr. and Mrs. J. E. Stewart and daughter Linda Lou, of Detroit.

Old Landmark
Moved This Week
from Weber Farm

During the past week, the home of Mr. and Mrs. Sylvester Weber on Burdett road, was moved to the Klingier farm on Scio Church road, which the Webers purchased after they sold their own farm to the secret parties who have bought all the farms in that area through their agent, John Hanna of Detroit.

The house was moved by professional house movers, directly across the fields to the Manchester road, emerging at the timbered place, and continuing by road from there to the present location, over two miles east of its former location.

The large barn was moved in the same way and early this week was at the side of the road about a quarter of a mile east and beyond the house, where it awaited completion of the foundation walls near the barn already on the place.

The Weber house has been a landmark on Burdett road for many years. It was the home of Mr. and Mrs. Simon Weber, from the time of their marriage, and before that was known as the old Faust place.

In its old location the house faced east and was surrounded with fine old shade trees and a well-kept lawn. Now, facing south and without trees or shrubbery of any kind nearby, it appears rather alien and alone, a martyr to "the project," which no one, as yet, except the unnamed buyer, knows anything about.

The house, itself, seems to have come through the ordeal of moving in excellent condition.

at Busy Downtown Traffic Intersections

On Monday of this week Safety Patrol boys began their duties at the corners of Main and Middle, and at Main and Park streets, where the two village traffic lights are located, and also at other corners where children cross the streets on their way to and from school.

The Safety Patrol was organized under the sponsorship of the local Aerie of Eagles in cooperation with the Chelsea police department and school authorities. David Knickerbocker has been elected captain of the patrol.

George Doe, president of the Chelsea Eagles and a Chelsea police officer, and Albert Johnson, superintendent of schools, have contacted the Aerie which are to send a man to Chelsea to provide new belts and badges for patrol members as their uniforms. Prizes are to be awarded, in due time, to the boy who has made his corner the safest corner, to the one who will have been judged the most courteous and for other meritorious actions still to be decided upon.

The police department, school officials and officers of the sponsoring Eagles organization ask the cooperation of grown-ups in this safety program, the express purpose of which is to safeguard the lives of children by teaching them to cross streets where lights are located only when the green light is on. If grown-ups disregard the lights, the Safety Patrol boys are to courteously remind them to wait for the green light. If these requests are complied with as good examples to children who might be observing their actions, it will be much easier to teach the children to observe traffic rules and regulations for their safety.

Kiwanians Hear
Prosecutor Tell of
Law Enforcement

Douglas Reading, Washtenaw county prosecuting attorney, was the speaker at this week's Kiwanis meeting on Monday night at the Municipal building.

Prosecutor Reading was the speaker at a Kiwanis meeting some time ago, explaining the workings of his office and of county law enforcement agencies. In his talk on Monday he continued the subject, saying his talk might be called "Democracy in the Courtroom."

He said jury decisions in court trials were a reflection of the jurors' background and training. He said that jurors, as a rule, could be relied upon to make the right democratic decision. Almost invariably, he said, it is found that decisions made by juries are just.

During his years in the courtroom, the prosecutor said, he has noted the fact that jurors are quick to resent any infringement of the human or civil rights of a defendant, and that if it can be shown that the defendant was not fully informed of his rights in regard to obtaining legal counsel, that undue force was used by arresting officers, or that, in any way, his rights as a citizen were violated, decisions were almost invariably rendered in favor of the defendant.

He summed up his very interesting talk by saying that, in the courtroom true democracy is demonstrated at its best; that it is the American belief that a defendant is presumed innocent until proved guilty and for that reason has the right to receive every consideration and respect of the law.

The four also took a three-day lake trip by canoe and visited several lumber camps in the area.

Walter Mohrlock and Richard Hoelzer proudly drove into town Thursday evening with two moose apiece which they had bagged during their hunting trip in the Long Lac region in northern Ontario.

Dick Hoelzer got his moose the first day they hunted and Walter Mohrlock got his the second day. The men were accompanied on the trip by their wives and were away almost four weeks. After getting their moose they hunted several days, with their wives, enjoyed plenty of fishing.

The four also took a three-day lake trip by canoe and visited several lumber camps in the area.

Jerky's Station Is
Visited by Burglars

The storage building at Jerky's Service station, corner of M-92 and Old 15-12, was broken into some time Monday night, by thieves who took 24 cases of No. 10 and No. 20 oil, and left the place a shambles, turning everything upside down, even tipping over an oil stove.

The theft was discovered about 9 a.m. Tuesday by employees who called Police Officer George Doe. Doe, in turn, called Harold Swoverland of Ann Arbor, fingerprint expert of the Washtenaw County Sheriff's department, who examined the building for fingerprints.

Carlton Chiswell, the proprietor, who is ill at his home next door to the station, reported that he heard a noise about 1 a.m., which he believed at the time sounded like shots.

Examination of the other buildings at the station disclosed that the lock on the office building had been tampered with but entrance to this building was not gained.

VOTERS BEWARE

The Sylvan Community Farm Bureau desires to voice its opinion on the raising of the 15-mill tax limitation. The Michigan Education Association proposal which is amendment No. 5 on the November 2 ballot, is very drastic and would nullify most of the protection which the 15-mill limitation now provides to Michigan property owners. It has been condemned by both the Michigan State Grange and the Michigan Farm Bureau, and it certainly deserves your thorough study and all the publicity that it can get so that you, the citizens, would be aroused to an understanding as to just what is at stake.

The 16-mill tax limitation amendment to the Michigan constitution didn't just happen. It grew out of a very difficult period in which the general property tax became so burdensome that an increasingly large proportion of Michigan property owners were unable to meet the annual levies and were forced to allow their property to become tax delinquent. In 1932 the percentage of real property which became delinquent was 58% of the total value of Michigan real estate. It seems somewhat strange that folks would allow their title to so much valuable property to become impaired because of this amount of total tax. We think the explanation is that taxes had been desperately oppressive for a number of years, and property owners had used up their available liquid resources and knew no way to raise ready cash to meet these heavy levies. As you know, prices and tax-paying ability were at a low ebb in 1932.

The 15-mill tax limitation is Article X, Section 21, of our state constitution. It establishes the normal ceiling for property taxes at 15 mills, but does permit increasing this millage to not exceed 50 mills for not longer than 5 years at any one time, by a two-thirds vote of the electors participating in the election.

Now, however, the Michigan Education Association has secured enough signatures to place on the November 2, 1948, general election ballot a proposed amendment which would drastically liberalize the 15-mill limitation. Two changes are provided. 1. The maximum period for which millage could be raised above 15-mills anywhere, up to 50 mills would be increased from the present 5 to 20 years. 2. The vote required for such action would be reduced from a two-thirds majority to a simple majority. Bear in mind that all electors are permitted to vote on such an issue without regard to whether or not they are property taxpayers.

Although the vote required is reduced and the length of time for which an increased tax rate would be permitted as a result of a single election is multiplied by four, the possible ceiling of 50 mills, which is 5%, is not reduced. For instance if a person owned property valued at \$10,000 and if millage was raised to the maximum of 50 mills, this person would then be paying \$500 per year for taxes and in 20 years (the limit set for bonding period) this person would be paying out \$500 x 20 years which would be \$10,000 or 100% of the value of this property.

The M.E.A. has advocated this change on the strength of the fact that it would make possible bonding for a longer period of years for the construction or improvement of school houses. We voice no opposition to more and better school houses being built for our children but there is nothing in the new proposal which is tied in with the issuance of bonds, the payment of debt or the securing of any capital improvements. The wording of this amendment would make it possible to raise the annual tax rate to 5% for as long as 20 years, as a result of a single election by a simple majority vote of the folks who would happen to participate in the election, regardless of whether or not any of them own any property in the assessing district, and there would be no assurance that all of this new revenue would not be consumed in current operating expenses with nothing to show for it in the way of debt retirement, new construction or other capital improvements.

There are instances in which the present provisions of the limitations are quite restrictive and make it difficult for financing needed long-term capital improvements. Many folks would favor a longer period than 5 years for increasing the tax rate for capital improvements or debt retirement. If such action were taken, it might be well to reduce the present maximum ceiling of 50 mills to a more conservative rate such as 35 mills. To protect against abuses it would seem that revenue derived from any tax imposed above the 15-mill limitation should be definitely restricted to capital improvements and debt retirement.

The Hi-Light

Edited by the Journalism Club of the Chelsea Public School

CO-EDITORS
Joyce Hughes M. K. Palmer

The Kiwanis club is sponsoring their annual Halloween party Saturday night.

Chelsea football team plays at Dundee tomorrow evening.

Our next home game will be Nov. 5 at Flat Rock.

The seventh and eighth grades will have a party in the gymnasium tomorrow evening.

INSIDE DOPE

The Student Council and the Athletic Board decided last Thursday to have the first and second team cheerleaders cheer before the students go to the new gymnasium.

The Student Council has again decided to have the Thursday noon dances.

TEACHERS GIVE

EXCUSES TOO

We were going to try something different this week for editorials. To have a teacher act as a guest editor and there write an editorial was our idea. What happened? Oh, the teachers gave excuses. The main ones being lack of time, and they couldn't think of a thing to write about.

My goodness! Does that sound like a teacher? We are supposed to have time for everything and no excuses accepted. Maybe the teachers are busy, but so are we.

After this, teachers, when someone comes with an excuse, do not reject it immediately. Stop and think of all the excuses you have made and remember, we aren't superhuman either.

FUTURE FARMERS

GET AWARDS

The FFA awards which are given for the achievements and good work of the members, were awarded this year as follows: J. Neil Lantis, Norman O'Connor, Carl Koch, Duane Bott, Oscar Barais, Norman Koch, Paul Kaimbach, Bob Robbins, Keith Bradbury, Bill Lyons, Jim Palmer, Coyne Holiday, and Allan Erke.

SENIORS TREAT THEMSELVES

Last Tuesday evening, Oct. 19, the losing team in the magazine sale treated the winning team to a very delicious dinner.

The dinner was held in the Home Ec. room on one long table set to accommodate the 55 seniors, but not everyone appeared (particularly members of the losing team). The menu consisted of scalloped potatoes, spaghetti, cabbage salad, rolls and butter, and coffee. Many varieties of cakes and dishes of jello were served for dessert.

After everyone had finished eating, the seniors, and their home room teachers, Miss DeRose and Mr. Chandler, sat around the tables and sang. Then it was time to wash dishes. Everyone pitched in.

Hallowe'en refreshments were served at the regular meeting of the Pythian Sisters Lodge Tuesday evening by the losing team in the recent membership drive. Captain of the losing team was Mrs. Mary Beal. The winning team in the membership drive was captained by Mrs. Clara Hutzel.

PAST PRESIDENTS WRC

The Past Presidents club of the WRC met Thursday evening, Oct. 21, at the home of Mrs. Claire Rowe. The Hallowe'en theme was carried out in the decorations and the refreshments. Pedro was the evening's entertainment and high prize was won by Mrs. Harold Bair, while Mrs. David Schlock received low. Mrs. Bair also received the door prize. CHELSEA STUDY CLUB

A report of the Chelsea Study club Thrift Shop (rummage sale) held last week on Tuesday and Wednesday at the Town Hall, was given at Tuesday evening's regular meeting of the club, held at the home of Mrs. W. H. Skene. Proceeds of the sale are to be used for the many philanthropic projects of the club.

The report, as given Tuesday evening, stated that good woolen articles of clothing and boots and shoes which were not sold when the Thrift Shop closed Wednesday night, have been packed and sent overseas to Tom Walworth, stationed in Germany, who will see that they are distributed to needy persons there.

The report also mentioned the appreciation of the club for the many articles donated for the sale, not only by club members, but by others interested in helping them with their work of providing Christmas cheer to shut-ins; care of the two "adopted" French children, etc.

Twenty-three members were present at the meeting, which was concluded with refreshments served by the hostess.

CHELSEA CHILD STUDY CLUB

The Chelsea Child Study club met Tuesday evening, Oct. 26, at the home of Mrs. James Nutt with seventeen members and five guests present.

Mrs. Harold Dorr of Ann Arbor, chairman of Art in the Public schools there, spoke to the group on the topic, "Elementary Art." She pointed out that parents can guide their children in art work by cooperating with them in their efforts to express themselves through artistic channels, and advised parents not to try to hold children back. She said all children can be taught basic art work and a room in the home should be provided for them where their efforts will not disrupt the rest of the home. Finger painting and modeling with clay are both very good beginnings in artistic creation for young children, she stated. During the business meeting it was decided that club members will assist at the polls Tuesday; also, an invitation received from the Chelsea Study club to meet with the club at their next meeting was voted to be regretfully declined because of the fact that the Child Study club had already engaged a speaker for its own regular meeting that evening.

At the close of the business session, refreshments were served by the hostess, assisted by Mrs. G. L. Staffan and Mrs. Tom Murphy.

Wanted: 3,000 Owners To Claim Their Shares in Million Dollar Refund Kitty

Some 3,000 residents or former residents of the Ann Arbor division of the Michigan Consolidated Gas company are entitled to share in a \$1,400,000 kitty now awaiting claimants.

The money is part of a fund of \$12,300,000 which a Federal Court ordered distributed to customers of Michigan gas companies obtaining their natural gas supply from the Panhandle Eastern Pipe Line company. Everyone who was a natural gas customer between the autumn of 1942 (exact date depending on the community) and the end of September 1945 was entitled to some part of the refund. About a million checks already have been delivered by mail. About 145,000 customers are still to be found.

Of these, about 3,000 lived in the Ann Arbor division during the 1942-45 period.

These check owners are not persons who have continued to use gas in the area. Present gas customers who are entitled to a share in the refund already have received their checks. The unclaimed checks, for the most part, belong to people who have moved away or to people who have ceased to be gas customers.

If you were a gas customer between late 1942 and September 1945 in territory served by the Michigan Consolidated Gas company, Consumers Power company, Battle Creek Gas company, or in Monroe, and haven't received a refund, drop a line to L. L. Laing, 2302 Barium Tower, Detroit. He is the man appointed by the Federal Court to distribute the refund. If you know the address of anyone who was a gas customer between those dates and who has since moved away or stopped using gas, you may be doing that person a favor by advising him to get in touch with Mr. Laing.

Average amount due is about \$12 in the Detroit area and from \$3 to \$8 outstate.

VOTERS, NOTICE!

A VOTE 'YES' ON AMENDMENT NO. 5 . . . means a majority of electors in any district could increase the tax millage to 50 mills for a period of 20 years. It would mean a 50-mill limitation instead of a 15-mill limitation. The money might be used for any purpose.

TRAINS AND 18th CENTURY LIFE FEATURED IN MOVIES

Last week on Wednesday, the American History classes were shown a technicolor movie entitled "Life in Williamsburg in the 18th Century."

The movie centered about early colonial life, illustrated by a certain family of which the master was a cabinet maker. They had considerable wealth and many servants, who were very handy, considering the difficulties of that time. They had servants who worked in the kitchen, and in the stables. The kitchen servants were found to be most valuable. The inconveniences and lack of sanitation in meal preparation were clearly shown. Many of the habits of that time seemed very strange to the students, who discussed them the following day. The movie was very interesting and was very much appreciated.

One to make ready! Two to GO!

That's DYNAFLOW!

ONE of the big reasons for Dynaflo* success is that — from the moment you take over — you just do what comes naturally.

So, to "make ready," you start your motor — and it's plain common sense that your car should be in neutral.

Once your motor is purring, you flip a little direction lever to the "Drive" position — and forget that such things as low, second and high gear ever existed.

Your foot on the gas treadle makes you go — at any speed from 1 mile an hour to as many mph as the law allows. . . That's all there is to it.

All, did we say? Well, not exactly.

There's a glorious sense of freedom from driving drudgery.

There's the thrill of completely commanding a mighty power plant, such as you've never had before.

There's a sweetness to the whole "feel" of the car that's beyond anything in normal driving experience.

There's a smoothness to the ride that even the folks in the back seat are going to talk about.

How come this driving magic?

Buick engineers have found ways to make spinning oil do tricks it has never done before.

They've arrived at a whole list of new principles for the transmission of power — a new pump, a true turbine, a new supercharging assembly — which our friends of the press have been good enough to call "the biggest advance since the self-starter."

Why be a holdout? Sample Dynaflo for yourself. We'll be glad to arrange a demonstration — and beyond that, you can place an order, with or without a car to trade.

Rural Tele-news

SPARE THAT TREE!— Graduate foresters at Michigan Bell are in charge of trained crews that trim trees and control brush which might menace telephone lines. They work with utmost care to preserve the beauty of trees and landscape. Thus far this year, tree trimming and brush control have involved 450,000 man-hours.

"BLIFFY SNIFFER"— That's the nickname for a sort of "electrical bloodhound" used by telephone men. When work needs to be done on a certain pair of wires in a cable, an electric tone is placed on those wires at the central office. Out on the cable, the "Bliffy Sniffer," a pencil-like instrument, quickly picks out the wires by detecting the tone they carry.

GOOD NEIGHBORS— Everyone has good rural-line service when everyone helps make it so. This means spacing out calls, not interrupting when others are talking, giving up the line when a rural-line neighbor has an emergency call to make, and always making sure the receiver is in place when not being used.

MICHIGAN BELL TELEPHONE COMPANY

Our \$13,500,000 postwar rural construction program means more and better rural telephone service.

Ballot proposal No. 4 would permit adjustment of the \$2 per day salary now paid to members of the state legislature. Since this amount is paid daily, whether the legislature is in session or not, the year's compensation averages \$1,095.

New York pays \$2,500 a year plus actual traveling expenses for a round trip once a week; Pennsylvania, \$3,000 for each session and \$500 for a special session; Illinois, \$5,000 for two-year term plus 10 cents a mile traveling expense; and Ohio, \$2,000 a year plus traveling mileage once a week.

On a basis of compensation for time served at Lansing during a session of the legislature, Michigan legislators received the following salary: 1947 session, 158 days, \$6.95 per day; 1948 special session, 67 days, \$18 per day.

Twenty-one states now permit the legislature to fix salaries of its members, but not for the term for which members are elected.

Other ballot issues are as follows: Proposal No. 5: An amendment to modify the 15-mill limitation.

Proposal No. 6: A referendum on the act to regulate and control the operation of foreign agencies within the State.

Ballot A: A referendum on the question of calling a convention for the purpose of general revision of the constitution.

PROPOSAL NO. 5...

(Continued from page one)

15-mill limitation to permit increase of the limitation for a period of not to exceed twenty years, instead of five years, and to require a majority vote of the electors instead of a two-thirds vote to increase such limitation.

Shall Section 21 of Article X of the State Constitution be amended to modify the 15-mill limitation "Yes" or "No."

Wording of Proposed Revision of Article X, Sec. 21. The total amount of taxes assessed against property for all purposes in any one year shall not exceed one and one-half per cent of the assessed valuation of said property, except taxes levied for the payment of interest and principal on obligations heretofore incurred, which sums shall be separately assessed in all cases: Provided, That this limitation may be increased for a period of not to exceed five years at any one time, to not more than a total of five per cent of the assessed valuation, by a majority vote of the electors of any assessing district, or when provided for by the charter of a municipal corporation: Provided further, That this limitation shall not apply to taxes levied in the year 1932.

Present 15-Mill Limitation Article X, Sec. 21. The total amount of taxes assessed against

property for all purposes in any one year shall not exceed one and one-half per cent of the assessed valuation of said property, except taxes levied for the payment of interest and principal on obligations heretofore incurred, which sums shall be separately assessed in all cases: Provided, That this limitation may be increased for a period of not to exceed five years at any one time, to not more than a total of five per cent of the assessed valuation, by a two-thirds vote of the electors of any assessing corporation: Provided further, That this limitation shall not apply to taxes levied in the year 1932.
