**CONGRESS** continued with its legislative foot-dragging during this past week with little accomplished except debate on the controls extension act, with some indication that both houses may renege their action in extending the measure on a 31-day stop-gap basis banning price roll-backs. The indications were in the first days of debate in the house that the Administration might get through a fairly workable defense-production measure with the ban on roll-backs applying only to farm commodities.

In the meantime, if the President cares to make any further comparisons of congressional action, such as he did with the 80th congress, here is the box score as of July 1. By that date, the 80th congress had enacted 145 public bills into law. The 81st congress enacted 154 bills during its first six months, and the present congress has enacted only 58 through June 28, plus five which were awaiting the President's signature at that time.

In cold-shouldering some of Truman's proposals, the 82nd congress has been about the same as its predecessors.

Some defenders of the congress point to the intense investigative activity and assert that the exhaustive inquiries into the President's troops-for-Europe policy and his ouster of MacArthur, to cite two examples, plus the crime probe and the present inquiry into narcotics, have been as worthwhile in their way as action on bills would have been. They also declare that the Administration has been slow in sending up its proposals. However, the first tax message was sent to the congress Feb. 2, and the message asking extension of the whole economic controls program embodied in the defense production act was sent to congress April 26, while the message on the \$9.5-billion foreign aid program was sent up on May 24. All these programs, with exception of the tax bill had expiration dates of June 30.

The debate on extension of the defense production act started in earnest July 5 with a statement by Congressman Brent Spence, of Kentucky, chairman of the house

banking committee, with the warning that the nation faces a "disaster" if economic controls are allowed to lapse. Spence, fearing a letdown in defense mobilization as a result of the peace talks in Korea, said: "It takes a Pearl Harbor to arouse a people; it takes very little to lull it to sleep."

While over in the senate, no less a farm champion than Senator George Aiken of Vermont said that an armed truce in Korea "would pretty well wipe out whatever little need there may be now for those (price and wage) controls."

While the House was considering the production act, the senate took up debate on the \$529,000,000 appropriation bill for the Interior Department and restored much of the cut made in that measure by the house. Of this, the senate restored \$5,500,000 stricken by the house, for construction funds for the Bonneville Power Administration. On the public power question, the senate restored to a degree, an amendment agreed to by the House which would have prohibited the reclamation bureau from starting construction of duplicating power distribution lines where private utilities have agreements to transmit government-generated power. The senate version would permit the bureau to build these lines for which construction funds already have been appropriated, or for which contracts have been entered into, or where private utilities are "unable or unwilling" to carry out such "wheeling" agreements.

Over objections of Senator Wherry and others, who championed the measure, the Senate deferred further consideration of the now famous freight transportation measure called the "basing points" bill until August 2. The bill approved by the Senate Judiciary committee without hearings is virtually the same as the measure voted by President Truman last year. Senator Russell Long, of Louisiana, in opposing the bill, said it would injure business and do a great amount of harm to our competitive economy.

**Silent Practice!**  
 A triumph of science! An instrument company has an arrangement for its organs whereby only the student, wearing earphones, can hear his own practicing. Others sitting just a few feet away can't hear a thing.

**Composer Uses Organ**  
 Sigmund Romberg, dean of the American operetta, does his composing on an organ, instead of the usual piano. He can tell how the song will sound with a full orchestra playing because of the orchestral effects of the organ.

**REV. ROBERT H. HARPER**  
 Christian Social Life (Temperance)  
 Lesson for July 29: Romans 12: 1-2; 1 Corinthians 8.  
 Memory Selection: 1 Corinthians 3: 16.

**THE WORLD** has praised the dead sacrifices that have blessed mankind. But Paul writes in the first verse of Romans 12 of a living sacrifice. A man should be ready to give his life, if need be, for Jesus, but the apostle writes of living for Jesus day after day in consecrating all his powers to the Master's use. This is a service that demands keeping the body free from harmful indulgences.

And in a sacrificial service a man will not be conformed to the world, but will be transformed through the renewing of his mind. The foregoing is well adapted to indicate the spirit a man should have and the divine assistance he should seek if he undertakes to be a temperate man, rightly using his time and his powers for others.

In 1 Corinthians 8 Paul discusses at some length the matter of eating meats offered to idols. It was customary, after animals had been offered to idols, to sell the meat in the markets. The most of the meat used in Corinth was of the kind indicated. Some of the Christians believed it a sin to eat such meats. And they were faced with a problem when invited to eat with non-Christians, who set meat before them.

It was Paul's judgment that he would rather abstain than to give a brother cause for offense. Such a policy may be recommended.

## Our Neighbors

**South Lyon**—Wind-whipped flames destroyed a large barn, an adjacent tool shed and a milk house owned by George Ellward of 895 Latson Rd. about 5 o'clock yesterday afternoon. The loss was estimated at \$16,000. — South Lyon Herald.

**Frankfort**—As much as the local business people would like to there is no way of denying the present weather. It's been here a week and it's been bad most of that time. Beginning with the July 4th holiday the cold high winds and accompanying rains and fogs have cost the area untold thousands of dollars in resort revenue. — Benzie County Patriot.

**Manchester**—Four men were rescued from drowning by a fisherman who heard their cries for help at Wampanoag Lake Sunday afternoon. One of the four, C. Miller, 19, of Toledo, wound up two hours later at Bibby hospital, Adrian with severe injuries suffered in an automobile accident.

The other three rescued men are: John Salles, of Ann Arbor, Edward Strigow, of Toledo, and an unidentified man.

Miller was revived by artificial respiration and the doctor ordered that he be taken to Toledo hospital by his friends for a thorough examination and treatment. The rescue took place at 3:40 p.m. Sunday.

At 5:27 p.m. the car in which Miller was riding and Strigow was driving collided with another driven by Floyd Stubbs, 26, of RFD 3, Adrian, Miller was rushed to Bibby hospital where attendants said he was suffering from a fractured collar bone, multiple bruises and severe shock. — Manchester Enterprise.

Dexter—Dexter came up with its own "excavated ruins" of other days this week when men working at the D. E. Hoey & Sons yard dug into the old Michigan Central turntable foundation.

While digging under the edge of the Hoey mill building to install a pit in which wheat can be dumped from trucks as it is brought in, the small section of the wall was found.

The wall was built of large cut stones and is in excellent condition. The completed circle would run well under the building in a large arc, probably some 75 feet in diameter.

It is said that the turntable was fitted with a track that rested on the rock wall and a large post supported the center of the turntable platform. Locomotives would then be stopped on the turntable which would be easily swung around by hand, so that the locomotive could proceed back to Detroit.

Inasmuch as the first train came to Dexter in 1841, the turntable was probably built about that time. — Dexter Leader.

**Grass Lake**—Attempting to remove some tree stumps from his home in Leoni, Ben Hayes was caught beneath his tractor when it overturned on July 5, and pinned face down.

He was taken to Foote Hospital where it was ascertained that he suffered seven broken ribs, third degree burns on his shoulder from the exhaust and a cut on the iris of his left eye. He is reported to be recovering satisfactorily. — Grass Lake News.

**Saline**—Eds Grocery at 701 W. Michigan Ave., Saline, was broken into about 2:30 Wednesday morning of last week, but due to the alertness of Mrs. John Davis, 874 W. Michigan Ave. (diagonally across the street from the store) the take was small. Mrs. Davis, upon hearing the commotion and noise of the breaking glass, went downstairs to the phone of Aaron Wiedmayer, "ca" and "nd" notice.

## Scout Camp . . .

(Continued from page one)

C. P. Bedford. Also a large rubber raft was donated by D. M. Silkworth of Ypsilanti.

Another accomplishment which most of the Scouts are trying to achieve is the right to carry a Totin' Chip membership card. The Scouts may earn the card by learning the woodsman's code and

knowing the proper use of the knife and axe.

There are only two more one-week periods of camping remaining for this week—since camp closes Saturday, Aug. 11. Any additional Scouts who are not registered and who desire to participate this year should register through their Scoutmaster at Scout Headquarters, immediately.

## Feeding with antibiotics speeds growth of baby chicks

Aureomycin, a recent antibiotic development, promotes rapid growth in baby chicks, say poultry researchers at Michigan State College Agricultural Experiment Station. Believing that this drug acts on bacteria in the intestine of the baby chick, they fed Aureomycin to one group of chicks, then inoculated another group. They found that while Aureomycin injections had no beneficial effect on growth, including the drug in normal feeding practices substantially improved growth. More recent experiments have added Penicillin, Terramycin and Bacitracin to the list of antibiotics stimulating growth. For further information on the possibilities of antibiotic feedings for your poultry, call, write or visit your County Agricultural Agent.

## Operators' atlas places calls promptly

In each of Michigan Bell's 75 toll centers, long distance operators use a complete world communication atlas to speed calls along the highways of speech. The atlas lists 71,000 localities within the U. S. proper (2,214 of them here in Michigan); 16,000 in Canada, Cuba and Mexico; 17,000 vessels; and 330 airplanes. It includes 10,000 cars and trucks equipped with telephones; and 85 overseas countries and territories to which telephone service is available. The atlas is revised from day to day, keeping all these points at your operator's finger tips. It's another example of telephone efficiency working for you.

## look who's cooking NOW

Never could get Pop into the kitchen. Now you can't keep him out, since they replaced their old stove with a smart new automatic gas range. Pop's a great hand for broiling—and it's no trick in that new smokeless broiler. There's nothing like flame broiling to seal in the rich, flavorful juices. In the automatic GAS range you can broil with the door CLOSED to confine the heat while the flame consumes the smoke and grease. That's just another advantage of cooking with GAS. Only the automatic GAS range gives you full, intense heat INSTANTLY on ALL 4 or 6 burners. No gadgets to learn to push or punch—just finger pressure on the sensitive burner valves gives you any shade of heat desired. Cook COOL this summer with an automatic GAS range. Let the clock do your cooking automatically while you relax on the porch. Replace your old stove NOW.

## Red Cross Aids Victims of Kansas, Missouri Floods

Reports yesterday showed 185,000 persons in Eastern Kansas and Central Missouri have been disrupted by the history-making flood now pouring out of Kansas and swelling the Missouri River to new crests.

From St. Louis Red Cross Midwestern Area Headquarters a total of 125 trained national disaster workers have been dispatched into flood areas to aid thousands of chapter volunteers providing for emergency care, rescue, and medical needs and to prepare for the bigger task of rebuilding homes, replacing furniture, clothing, and household goods for families needing a financial assist back to normal.

Red Cross President E. Roland Harriman made an additional preliminary allocation raising to \$750,000 funds to meet initial expenditures. It is estimated that Red Cross expenditures for emergency and rehabilitation work in this disaster will total over \$1,500,000. To date 51 Red Cross chapters in the two flooded states are giving disaster relief service in as many counties.

The worst flood in the history of Kansas City, Mo., began to fall, leaving that city almost paralyzed by the worst fire in its history and a serious drinking water shortage, new flood crests began building up downstream on the Missouri River, disrupting the lives of 100,000. Chapters have been helping families evacuate, and 15 shelters were opened to house and feed more than 500 people.

In Eastern Kansas, Red Cross chapters in 22 counties saw waters falling slowly, but there are still 75,000 persons who cannot return to their homes. There are 10,000 persons in Red Cross shelters throughout the area, with food being provided for 21,000 persons.

Kansas flood waters forced quick evacuation of 7,000 U. S. Army troops from the Camp Funston area at Fort Riley.

### ENGAGEMENT

Mr. and Mrs. Hurshel O'Dell, of East Summit street, have announced the engagement of their daughter, Janet Ann, to Sgt. Henry Fletcher, son of Alton Fletcher, of Stockbridge. Sgt. Fletcher is stationed with the Army at Fort Knox, Ky.

No date has been set for the wedding.

### DUTCH COOKS 4-H CLUB

The Dutch Cooks 4-H club members served their sixth outdoor meal Tuesday afternoon, July 24, at the home of Kathleen Widmayer. The menu consisted of pineapple, wiener shish kabobs, steamed potatoes, relish plate, lemonade and raspberry tarts.

The business meeting was followed by several games and then the meal was prepared and served. Later, the girls taking "Outdoor Meals" worked on their fair exhibit which is a reflector oven. The first-year girls have been working on notebooks for the fair.

The two previous meetings of the Dutch Cooks club this summer were held at the homes of Mrs. T. G. Riemenschneider, the leader, Janet Widmayer (twice), and Jean Schweinfurth and at the Mitchell cottage at Cavanaugh Lake.

### HOME FROM HOSPITAL

John Hude has returned home from St. Joseph's Mercy hospital, Ann Arbor, where he had been a patient for three weeks. Sunday callers at his home included Mr. and Mrs. David Rosbach, of Ann Arbor, Mr. and Mrs. Ed. Riemert, Mrs. Minnie Bart, and Mr. and Mrs. Robert Schultz, of Lansing, and Mr. and Mrs. Carl Markwart and son, of Mason. Mr. Hude's mother, Mrs. Carl Markwart, Sr., of Okemos, who had spent the past two weeks here returned to her home with the Carl Markwart, Tuesday callers at the Hude home were Mr. and Mrs. John Markwart, of Okemos.

**NOTICE OF MEETING TO CONSIDER OBJECTIONS TO THE CONSTRUCTION OF CURB AND GUTTER AND SIDEWALKS IN THE VILLAGE OF CHELSEA**

**DURING 1951, THE COST OF WHICH IS TO BE PAID IN PART BY SPECIAL ASSESSMENTS.**

The Village Council will meet at the Council Room in the Municipal Building at 7:30 p.m., Monday, August 6, 1951, to consider objections to the construction of curb and gutter and sidewalks in the areas hereinafter listed, one-half of the cost thereof to be destroyed by special assessment, prorated according to abutting frontage. An estimate of the cost is on file in the Village Clerk's office. This notice is given pursuant to a resolution adopted by the Village Council at a special meeting held July 23, 1951.

(13) Curb and gutter, both sides Grant Street, from Lincoln Street to Pierce Street.

(14) Sidewalk, North side of Buchanan Street, from Broadway to North Main street.

Dated: July 23, 1951.

Robert B. Devine, Village Clerk.

Mrs. Ruth Riemenschneider and daughter, Esther, of Detroit, spent from Monday until Wednesday with her son and daughter-in-law, Mr. and Mrs. Richard Riemenschneider and family.

### BLUE-RIBBON FLORISTS

The Blue Ribbon Florist 4-H club is tentatively planning on Tuesday, July 31 for a tour of its members' flower gardens.

The last meeting was held at the home of Delores Zahn, Tuesday, July 10. Frank Gendron, county club agent, was at the meeting and offered comments and suggestions on the flower arrangements made by each of the members at the meeting.

**NEVER** let the ham bone get away from you before you use it to make nourishing bean soup with delicious ham flavor. Cook with chopped onion, navy beans and water to cover. Season with salt. It bone does not season soup sufficiently.

For your next dessert try cream puffs filled with easily prepared chocolate pudding, then frost them with chocolate confectioners' sugar icing.

An easy supper in a skillet can be prepared by frying pork chops golden brown, then sprinkling with rice, green pepper and tomatoes. Cook until tender.

### RECIPE OF THE WEEK

**Cottage Pudding**  
3 tablespoons shortening  
1 cup sugar  
1/2 teaspoon vanilla  
2 cups sifted cake flour  
2 teaspoons baking powder  
1/2 teaspoon salt  
1 cup milk

Cream thoroughly shortening, sugar and vanilla. Add sifted dry ingredients alternately with milk. Beat smooth. Pour into a greased 8x8-inch by 10x10-inch pan and bake in moderate (350°F.) oven for 40 minutes. Serve with fruit or berry sauce, lemon or chocolate sauce.

Old-fashioned cabbage salad is excellent for hot weather appetites. Season with onion and parsley, then toss with sugar dissolved in vinegar and a bit of oil to make the cabbage shreds gleam.

Give your best stew an old-fashioned hearty flavor by using the following seasonings in it: clove of garlic, chopped onions, dash of cloves or allspice, bay leaves and Worcestershire sauce.

Stuff pork steaks with an old-fashioned bread dressing, then bake with whole apples which have their centers stuffed with raisins and brown sugar.

Braised short ribs make a tasty dinner especially if they're served with onion gravy. Brown 4 cups sliced onions in fat, then blend drippings with flour and add water or meat stock and seasonings.

## Living in New

Mrs. Frederick Benson, Jr., is shown above as she appeared at her wedding in St. Paul's church Sunday afternoon, July 15. The former Marceline Hinderer and her husband returned here Saturday from Grand Bend, Canada, where they had spent their honeymoon. They remained overnight at the home of the bride's parents, Mr. and Mrs. Albin Hinderer, and left Sunday for Medina, N. Y., and are now at home on West Center street there.

## PERSONALS

Mrs. William A. Schulz and daughters, Marian and Eleanor, of Detroit, were Saturday visitors of Mrs. Caroline Thalhammer and Mr. and Mrs. Alfred Faulkner.

Carl L. Hesselwerdt left Friday of last week for Fort Worth, Tex., where he has enrolled in an instrument reading course in aviation.

Guests the past week at the home of Mr. and Mrs. Lester Schulze were Mrs. Carl Schulze of Carlisle, Ind., and Mrs. W. M. McCarter and children, Jimmy and Sarah Jane, of Oaktown, Ind.

Miss Betha Haas, who enlisted in the WAC is now training at Camp Lee, Va. Before enlisting she made her home with her aunt, Miss Alma Haas and was employed at the University Hospital. She spent several days with her brother, Eic. David Haas and family at Ft. Benning, Ga., before going to Camp Lee.

### LYNDON EXTENSION CLUB

Lyndon Extension group met last Thursday at the home of Mrs. Henry Prin with a pot-luck dinner on the lawn. Visiting was enjoyed by the 13 members and two guests and three children present.

## MICHIGAN MIRROR

(Continued from page one)

the state suffer no loss... but is showing a return on its investment... in private business the move would have been considered a stroke of financial genius... D. Hale Brake (state treasurer) will remain the unsung hero wizard."

Administration at the time made loud noises about a poor investment of state funds (VA monies) in the Arizona project.

Speculation is rife with possibilities of a special session this year. The Governor's office can't say yet, stating only that "it depends on the budget situation."

It is possible—but improbable—that the legislature will pass a corporations profits tax on its final adjournment day in June.

Says one spokesman: "If it looks like we'll be broke by January there will have to be a special session to find more money." After July 1, end of the fiscal year, there will be more light on the situation.

Michigan led the nation during 1950 in the amount of money received by county chapters from the National Foundation for Infantile Paralysis. During the month \$334,300 was sent to local chapters in the state whose funds had become exhausted by paying hospital and medical bills of polio victims.

But while Michigan gives itself for another polio season thousands of vacationers have begun trooping the state from all over the nation. The tourist trade still is rated second most lucrative industry in the state.

But farmers continue to claim theirs is the second largest business in Michigan—probably right—but most officials figure agriculture doesn't fit the term "industry." First? Automobiles, of course.

The 1,683 delegates to the moral rearmament world assembly trekked homeward after a 12-day conference at Mackinac Island which ended on an excellent if untimely note. Says Rep. Louis Rabaut (D-Mich.), "Moral Rearmament brings together people in a common program for humanity."

Of the 159 persons drowned in Michigan last year, only seven were swimming at places set aside and designated for swimming. Grave pits and the like took the lives of 122 persons.

Michigan State College has issued a plea to stop the flood of cash and checks piling up for tickets to the MSC-Notre Dame game Nov. 10. The stadium is sold out. Officials say they could have sold 100,000 seats. Mackinac stadium holds some 55,000 persons.

The State Highway Department expects to run in the red for nine months and then appeal to the legislature. Commissioner Charles M. Ziegler says his department will fall \$8,000,000 short because of the peculiar effects of the new highway tax distribution formula approved by the legislature along with the 1 1/2-cent per gallon gas tax increase.

Meanwhile the Michigan CIO is fighting the gas tax boost with petitions for a referendum. If 100,000 signatures are garnered on the petitions the tax will be dropped until after November when the citizens would have a chance to approve or disapprove at the polls.

• The 35,000 to 50,000 estimated

deer kill in Michigan has been a record—largest starvation loss in the state's history. Searchers of the conservation department counted 1,845 carcasses in one area alone. Loss is estimated at 25-30 deer per square miles in critical areas.

Some 419,000 visitors reached Michigan state parks during week of May 27-June 2, national park and recreation week. Parks with highest attendance were Bay City, Holland, Island Lake and Grand Haven.

Governor Williams still is booming the St. Lawrence Seaway project which would dredge out the St. Lawrence river and make Labrador ore available to Midwest smelters. Jointly sponsoring a conference of inland and Great Lakes states in Omaha, Nebraska with the Nebraska governor, Williams says: "This conference brings to the people of inland America the first opportunity to have this issue placed squarely before them."

Michigan college graduates are more fertile than those of the other 47 states—if anyone is interested. Population Reference Bureau says so. Matter of fact the class of '41 had 30 many more babies than graduates of other years it is known to the Bureau as "Fertile Forty-One."

Dr. and Mrs. Raymond Webb of Hollywood, Calif., returned to their home recently after a two-week visit with Dr. Webb's parents, Mr. and Mrs. George Webb, of North Lake and other relatives. They called on Mrs. George Webb's sister, Mrs. Joseph Morris, in Ypsilanti and were accompanied by Dr. and Mrs. Harmon Webb of Detroit, and Mrs. George Webb. They also took a short sight-seeing tour in Canada.

## FORD LEADS the truck industry!

Whether you haul with a Ford 145-h.p. BIG JOB (shown) or a 95-h.p. Pickup, you save money every mile with the Power Pilot. Two new cabs, 6-STAR and 8-STAR EXTRA (at slight added cost).

**Sales gains 6 times greater than all other trucks combined!**

• Yes, Ford's out front again in sales gains for 1950! Latest truck registration figures (1950 compared to 1949) show Ford has over double the greatest sales gain of any competitor, triple the sales gains of the truck industry and over 6 times greater sales gains than all other makes combined!

Small wonder that Ford Trucks are growing in popularity with such big features as the POWER PILOT, the fully-proven way to get the most power from the least gas. To fit your hauling job, Ford builds over 180 different truck models, which give you the industry's only choice of V-8 or Six!

Availability of equipment, accessories and trim as illustrated is dependent upon material supply conditions.

**FORD TRUCKING COSTS LESS**

**What's So Funny?**

Just finished reading a magazine article that "proves" you and I don't know what's funny.

A bunch of psychologists came to this sad conclusion after telling jokes to college students. Vary often they would give out with what they considered a side-splitter—and not get even a chuckle in response. Other times the students would laugh their heads off at stories that weren't considered really funny.

Maybe I'm wrong, but what makes a psychologist such a better judge of humor than the rest of us? If a man gets a kick out of a joke that proves it was funny to him—doesn't it?

From where I sit, when psychologists try to set up a standard for a sense of humor they're getting too serious for me. Stands to reason that different people laugh at different things, just as they have different tastes for most everything. I'm partial to a glass of beer with meals myself—but I promise not to make any "wise-cracks" if you prefer tea.

**Report from Washington**  
By Congressman George Meader

Washington, D. C.—The battle against inflation has been complicated in the Congress the past week by disagreement over the methods to be used and by the obvious attempt of bureaucrats to grasp for controls for control's sake.

There is no disagreement that inflation is an intangible but insidious evil which affects everyone, and there is no disagreement on the desire and the purpose of the nation to combat inflation.

There is, however, confusion and misunderstanding among the general public, partly because economic laws and principles are not simple and readily understood, and partly because the Administration has taken advantage of that fact to foist upon the general public a fraudulent and deceptive proposition.

Two main weapons are available to combat inflation. One is indirect controls; the other is direct controls. Indirect controls are the powers already existing in the Federal Reserve Board and the Treasury Department to control the currency and credit of the nation. Direct controls are ceilings on prices and wages, enforced by criminal penalties.

Within the Congress there are two schools of thought. One insists that all the weapons at our command, both direct and indirect controls, be utilized. The other seeks to place reliance almost exclusively upon the direct controls. This clash in philosophy was clearly disclosed in debate in the House on the Wolcott amendment to the Defense Production Act.

This amendment, submitted by Representative Jesse Wolcott, the ranking minority member of the House Banking and Currency Committee, sought simply to announce as the policy of the Congress that indirect controls must be utilized along with the direct controls.

The Administration opposed and defeated the Wolcott amendment, and successfully created the fraudulent impression that the amendment sought to do away with direct controls and, therefore, favored inflation. The exact opposite is true. The Representatives who voted for the Wolcott amendment were insisting that the forces which are causing inflation be attacked at their source at the same time that ceilings on prices and wages were being maintained.

The truth is that, shortly after the invasion of Korea, the Congress moved rapidly and effectively

ly to provide economic control powers far beyond those advocated by the Administration. The Administration delayed the use of these powers, taking a peevish attitude because the Congress had insisted upon full, equal controls instead of the partial, discriminatory controls the Administration had sought. During that delay inflation spiraled rapidly.

When it finally did impose controls, the Administration went about it in an involved, awkward and unbusinesslike manner. Instead of utilizing natural economic laws and forces to the maximum, the Administration sought to repeal them and to substitute new social and economic theories. Instead of holding the dissection of our economy to the minimum, the Administration sought, in a theoretical, bureaucratic, totalitarian fashion to reorganize the structure of our society, and ground out an endless procession of regulations, forms and red tape.

In an effort to make this approach palatable to the public, power-hungry bureaucrats have played upon the fears and uncertainties of the American people in the hope of producing an atmosphere of national hysteria in which logical thinking will be suppressed and emotional rashness will prevail. They hope that the public will become inured to police controls and, thus, will submit eventually to the planned economy which these theorists have dreamed of for two decades.

A dispassionate investigation of the administration of the Defense Production Act since its enactment last September would reveal bungling, stupidity, favoritism, discrimination and misadministration beyond anything heretofore seen in the Federal Government. The Congress must confess to a failure to exercise its duty to the people because it has not effectively exposed this condition.

The ability to win the inflation battle by spur-of-the-moment rewriting of the basic principles of the economy would require the wisdom of a super-Solomon. Yet the Solomons who propose to do this are the political hacks, the ax-

Have you checked it against the field—for room and power and ride and handling—and all the things that go with a really great automobile?

Do you know what gas mileage owners are getting from its F-263 Fireball Engine—newest of Buick's famed valve-in-head power plants?

Do you know that this is the most powerful engine you'll find in any automobile of the same size and price?

Do you know what headroom and legroom and trunk space this big and beautiful bargain gives you?

Do you know that this SPECIAL has the road-steady ride of soft-action coil springs on every wheel—and the firm keel of Buick's torque-tube drive?

Do you know the lift that you'll get behind the wheel of this trim and talented traveler—as it steps away from a traffic light or rolls up the miles on the open road?

Fact is—by every check—this Buick's a buy too good to miss.

Come in, look it over, and you'll agree.

The Easy J Ranch's 1950 Ford F-3 Express with POWER PILOT was one of more than 5,000 Fords in the nationwide, 50-million-mile Ford Truck Economy Run.

**"My ranch 'workhorse' runs for only 2 1/2¢ a mile!"**

Ranch owner George Stephens proved for himself, in the big Economy Run, just how little it costs to run his Ford Truck!

"The Easy J's Ford Express did itself proud in the Ford Truck Economy Run," says Stephens. "Daily records kept during the entire six months show that our Ford Truck ran up a total of 5,109 miles. My out-of-pocket expense for gas, oil, maintenance and repairs was exactly \$123.51 . . . about a \$20 bill each month . . . only 2 1/2¢ a mile!"

The Ford Truck POWER PILOT carburetion-ignition system is one reason why Ford Trucks cost so little to run, in ranch work or any work. The POWER PILOT gives you the most power from the least gas. In the low-price field, only Ford has it!

George Stephens of the Easy J Ranch says: "The low cost my Ford Truck showed in the Economy Run speaks for itself. I got regular service checkups from my Ford Dealer."

Swine Producers To Hold Conference at Charlotte

Hog raisers of the state will be brought up to date on the most profitable swine types for today's market, hear production needs for meeting present-day consumer demand and learn newest developments in swine management at the Swine Type Conference to be held at the Charlotte 4-H Club Fair Grounds, Charlotte, July 25.

After registration at 10:15 a.m., the conference will get under way with farmers, county agricultural agents and vocational agriculture teachers, along with wives, children and students taking part in a swine judging contest.

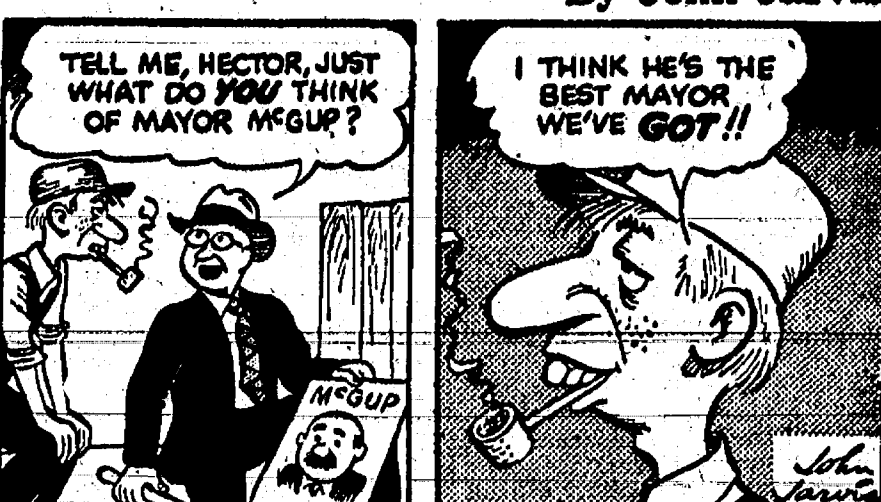

The conference participants can check their ideas on type and placings with those of A. W. Jordan, Ohio State University swine herdsman, a well-known swine judge.

The high-ranking sows and litters in the Michigan Sow Production contest will be exhibited, according to William Newland, swine specialist of Michigan State College. The college is sponsoring the conference.

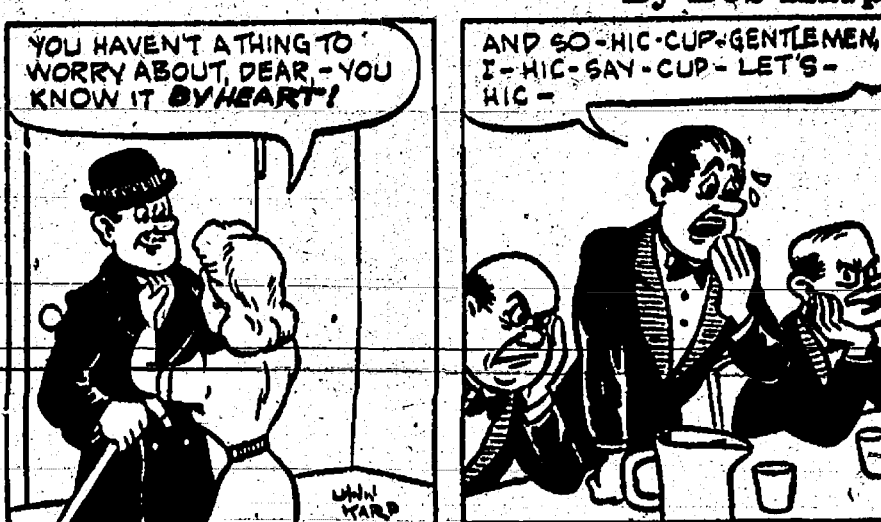

Farmers and agricultural leaders will see a market barrow grading demonstration, then see how they compare in the sale ring. Feeding and management displays, demonstrations and discussions will point up problems in this area.

Rounding out the day's program will be a look at latest develop-

## Hard-to-Start Tractors

When a tractor is hard to start, look for dirt which may collect around the spark plugs, magneto, or distributor cap. Dirt in these places gets damp and shorts the electrical system.

## Nickel in the Air

The aircraft industry uses substantial quantities of nickel in heat-resisting alloys and in engineering and stainless steels. Heat-resisting alloys such as Nimonic 78 and Inconel are used mostly in sheet for combustion chamber liners and exhaust pipes, and other Nimonic alloys and Inconel X are used for highly stressed parts operating at elevated temperatures.

place 27,162 cubic yards of gravel on the roads in Freedom, Lima, Lodi, Pittsfield, Lyndon, Sharon and Saline townships.

The entire program to date involves a total of 68,418 cubic yards of gravel. It is expected to complete this program by Oct. 1, 1961, according to Miner's statement. This amount of gravel, he points out, is in most cases only about 10 per cent of the amount required to make these roads passable the next summer.

Bridge and township is spending its matched funds for badly needed cross road culverts and Dexter township is spending its total amount on McGregor road to start construction of the base for future blacktopping.

Miner concluded his report of the 1961 "matching money" program by saying "the Washtenaw county Road Commission sincerely appreciates this help in improving these local roads and will do everything in its power to complete the program in a satisfactory manner."

## LAFF OF THE WEEK

"George, dear—I've just this minute decided what I want for my birthday."

## WO Richard Lyons Serving in Korea with Hospital Unit

With I Corps in Korea—Warrant Officer Junior Grade (WOJG) Richard G. Lyons, whose wife, Wanda, and their two children, Catherine and Gregory, live at 829 Kentucky, Amarillo, has been serving in Korea with the 8055 Mobile Army Surgical Hospital (MASH) since last August.

WOJG Lyons first joined the Army in 1941 and took his basic Army training at Camp Grant, Ill. From June 1941 until April 1944, he served as the first sergeant of the station hospital at Pendleton Field, Ore. After spending a short time in India, he returned to the United States in 1945 and was assigned to the Medical Field Service School at Fort Sam Houston, Tex. He remained there for four years. Shortly before coming to Korea, he was appointed a warrant officer. At the present time he is serving as the personnel officer of the 8055 MASH.

Lyons' outfit, the 8055, works close to the front at all times to insure proximity to the "battle-ground" in case of heavy action. The unit, equipped to apply treatment ranging from elementary first aid to surgical operations, has transportation facilities which enable a wounded man to receive medical treatment within three to four hours after being wounded.

In case of emergency, helicopter transport attached to the unit can get the casualty to the operating table in a matter of an hour. The unit was organized at the start of the Korean conflict as an experiment. It proved to be such a success, that several other MASH were organized and sent to the battlefield.

## DEATHS

## Mrs. Joseph Morris

Mrs. Joseph Morris, of 411 East Cross street, Ypsilanti, a great-granddaughter of Ellaha Congdon, one of the founders of Chelsea, died Saturday in St. Joseph's Mercy hospital following a week's illness. Funeral services were held Tuesday afternoon in the Stevens and Bush Funeral Home in Ypsilanti and burial took place in Forest Lawn cemetery in Dexter. Vicar Raymond Schmidt, of St. Paul's Lutheran church, Ann Arbor, officiated at the services.

Mrs. Morris was the former Bessie E. Faulkner, a daughter of John and Clara Congdon Faulkner. She was born in Ypsilanti town, Feb. 28, 1877. She was first married to Henry Hoffman who died in Feb. 1914. March 4, 1915, she was married to Joseph Morris and they lived on a farm on US-12 in Scio township for some time. Later, they lived in Marshall and for the past 15 years have made their home in Ypsilanti.

Survivors of Mrs. Morris, in addition to her husband, are two daughters; Mrs. Grace Hoffman Sells, of Ann Arbor, and Mrs. Irene Hoffman Myers, of Ypsilanti; one son, Alfred Morris, of Ypsilanti; eight grandchildren; three great-grandchildren; two sisters, Mrs. George Webb, of North Lake, and Mrs. R. J. Beck, of Jackson; and one brother, Alfred Faulkner, of Chelsea.

## Mrs. Arthur Schulte

Mrs. Arthur E. Schulte, a former Chelsea resident, died Friday morning at her home, 1753 Burlingame avenue, S.W., Grand Rapids, after an extended illness. The body was brought to the Staffan Funeral Home here Monday and funeral services were held in St. Mary's church at 10 a.m. Tuesday. Burial followed in Mt. Olivet cemetery. Father Lee Laige officiated at the services.

Born in Chelsea Sept. 4, 1889, Mrs. Schulte was the former Estella Weber. Her parents were the late Joseph and Elizabeth Hjadang Weber.

Following their marriage Mr. and Mrs. Schulte made their home on South Main street until they moved to Grand Rapids 23 years ago.

Survivors of Mrs. Schulte are her husband; three daughters, Mrs. Sylvester Beasecker, of Grand Rapids, Mrs. Cyril Abraham, of Ada, and Mrs. Richard Baar, of Rockford; a son, Gerald, of Grand Rapids; two grandchildren; and one brother, Edward Weber, of Ann Arbor.
