St. Mary's Scores
22 Points in Final,
Decisive Quarter

Chester's entry in the district basketball tournament at Jackson proved unsuccessful as they were defeated by Jackson's St. Mary's, 55-33.

The first quarter ended with St. Mary's leading, 9-4. Both teams moved slowly and only a few baskets were made. Joe Greenwood and Dick Merkley netted two points each for the Bulldogs, while Larry Morris and Ron Robe led St. Mary's with four and two points, respectively.

During the second quarter the tempo of the game picked up considerably. The lead changed hands many times. St. Mary's took a 19-14 lead at the half by making a basket during the last few seconds. Dick Merkley and Bob White made five points each for the Bulldogs. St. Mary's Larry Morris and Bob Urschaltz netted the only baskets for five points each.

The third quarter found Chelsea beginning to drop behind as St. Mary's netted 14 while the Bulldogs were accumulating only 6. The quarter ended with Chelsea trailing, 33-33. Dick Merkley led the Bulldogs with four points, while Don O'Connor and Art Morrissey each netted four points for St. Mary's.

The fourth quarter proved even more profitable for St. Mary's as they poured in 22 points to Chelsea's 11, resulting in Chelsea's defeat by the score of 55-33. Merkley again led Chelsea with four points, followed by Neil Buehler with three points. Art Morrissey put on steam to net nine points, while Bob Grimo and Larry Morris each had four points.

Capt. Dick Merkley ended a successful career with 15 points, followed by Bob White with six points, and Neil Buehler with six points, respectively. St. Mary's Larry Morris and Art Morrissey each netted 15 points, followed by Bob Urschaltz with nine.

L. E. RIEMSCHEIDER

Contract To Build Close Temperature Controlled Rooms

A local firm headed by L. E. Riemschneider has been awarded a contract for the construction of the first of a series of ultra-close controlled temperature precision instrument rooms for the Dearborn Gage company, with the trade name of RIEMCO.

The precision instrument room was developed by Mr. Riemschneider upon the request of the Dearborn Gage company because of the rapidly developing need of the precision tool and instrument manufacturers for a satisfactory enclosure in which final operations and inspections may be made.

This is necessary because of the extremely close tolerances which are now required in the manufacture of an increasingly large number of items, especially those of a military nature. Where thousands of an inch was formerly considered close limits, now the limits have been reduced to a very few millionths of an inch, and the construction of the enclosure is no longer adequate.

USE LIGHT WAVES
Measurements are now made and measured by light waves, and under these conditions, any fluctuations of temperature or of humidity cannot be tolerated.

This product incorporates several original and unusual features which are especially interesting, including a saturated vapor barrier under constant pressure surrounding the entire enclosure, and what is believed to be the first heat pump (heating by refrigeration in reverse) installation in this area, which will be used to pick up heat from the surrounding atmosphere when external temperatures demand, according to Mr. Riemschneider.

RESEARCH CABINETS
Ultra-low temperature biological research cabinets and industrial low temperature units are also built by RIEMCO. Mr. Riemschneider states that units with temperatures down to -200 degrees below zero are now available upon order. A low temperature installation is now being made for the Department of Bacteriology of the University of Michigan, and a similar installation was recently completed for the research department of the Medical School of the University of Illinois; it was announced by Mr. Riemschneider.

Red Cross Campaign Reaches One-Fourth of Year's Quota

Mrs. John Fischer, Red Cross drive chairman here, reported yesterday that approximately one-fourth of Chelsea's quota of \$1,600 has been raised to date. Most of this amount, she said, is from the industrial plants. She had not yet received reports from the block workers who are canvassing the residential areas.

Last year's quota of \$1,450 was topped by about \$400, Mrs. Fischer said, and she is hoping this year's "over the top" amount will compare favorably with last year's total.

Seitz, Charles Rabley, Paul Schable, Paul Barbour and William Blaes.

Three Schools Seek Visiting Teacher Okay

Representatives of the schools of Manchester, Saline, Dexter and Chelsea will meet with a representative from the Department of Public Instruction next Tuesday in Dexter to discuss the possibility of adding a visiting teacher to work in the four school systems on a basis similar to the speech correction program of the past two years.

If the visiting teacher program should become a reality here, the cost of the service would be divided between the four participating schools.

School officials advocate the visiting teacher as a desirable means of contact between the school and home in cases where a need for such contact is indicated for a better understanding between the two.

The speech correction program, with Robert Wallace as instructor, has proved its value and has worked out satisfactorily under the four-school plan. Proponents of the plan to add a visiting teacher believe the plan would prove to be similarly satisfactory and beneficial.

Tuesday's meeting is being held in the office of Kenneth Letsinger, superintendent of the Dexter school system.

Albert C. Johnson, Chelsea's school superintendent, will represent Chelsea at the meeting.

Edmund DeVine Tells Candidacy for Prosecutor's Post

He has lectured on criminal law at the University of Michigan Law School for the past three years, and spent three years in the U. S. Navy from which he was released as a lieutenant, junior grade.

For two years after completing his studies in Washington, he was a special agent with the Federal Bureau of Investigation.

They have been fellow skaters since they learned the skill as schoolboys in Paulding county, Ohio, where their families were neighbors.

Immunization Clinic To Be Held April 22

Medical Society
Sponsors Eighth
Annual Free Clinics

County-wide immunization clinics to protect children of Washtenaw county against diphtheria, tetanus and smallpox were announced this week by Dr. Bradley Harris, president of the Washtenaw county Medical Society, sponsor of the clinics.

This will be the eighth year that the Medical Society has sponsored these clinics in cooperation with the county Health Department and the schools, said Dr. Harris.

The clinic will be held in the Chelsea Public School gymnasium the morning of Tuesday, April 22. April 7 there will be a clinic at Dexter, and April 9, at Manchester.

Last Tuesday, grade school pupils at the Chelsea Public School were shown a cartoon movie pertaining to the clinics, to acquaint them with the purpose of the immunization program and its benefits.

Last year more than 8,000 children were served in these clinics. Six thousand of them were vaccinated against smallpox and more than 7,000 received protection against diphtheria and lockjaw. "If the clinics are as successful this year and in succeeding years as they have been in the past," said Dr. Harris, "danger of an epidemic of either smallpox or diphtheria will continue to be greatly reduced. Tetanus booster shots were added, the doctor reported, as a part of the civil defense program.

In the clinics, children who have not been vaccinated in the last five years will be offered vaccination for smallpox. Those who have not been immunized in the last three years for diphtheria and tetanus will receive booster doses for protection against these diseases.

Participating physicians are contributing their time for a charge in the clinics. "Washtenaw county physicians would much rather donate their services in protecting all of the children than to have to treat any of them for either diphtheria, smallpox or tetanus," Dr. Harris said.

The services of the Health Department and the schools are supported. No charge is made at the clinics for the immunizations or vaccinations made.

Ann Arbor schools clinics will be held in May, a detailed schedule to be announced later.

James C. Hendley Will Address Local Commerce Group

The March meeting of the Chelsea Chamber of Commerce will be held next Tuesday, March 18, at 7 p.m. in St. Mary's church hall. The annual election of officers will take place at this meeting.

He will also explain the effect of petitions for referendum on this legislation.

Proposed construction planned by the Road Commission, including several local road projects, will also be covered. His talk will touch upon various Road Commission problems of interest to Chelsea residents.

Mr. Hendley was recently elected a director of the County Road Association of Michigan.

Anyone interested in attending this meeting may do so by contacting any officer of the Chamber of Commerce before next Monday, March 17.

Railroad Strike Called Sunday but Settled Before Paralysis Hits

The surprise railroad strike, which began Sunday and ended late Tuesday afternoon, caused widespread inconvenience in the entire central section of the country served by the New York Central Railroad system. Buses were pressed into service to carry the mail and bus lines and airlines added extra sections to take care of most of the traffic.

In Detroit the walkout involved 800 men, while approximately 2,000 were affected in the entire state.

Cause of the strike was a three-year-old dispute over wages and working rules. Three of the railroad brotherhoods were responsible for the strike call, the Brotherhood of Railway Conductors, Locomotive Engineers and Firemen.

The strike was called off when the brotherhoods bowed to a court order to have the strikers return to work.

Service was expected to be back to normal by Wednesday night.

Economy at Lansing is the keyword these days.

At the state legislature finds itself doing some contradictory things.

They illustrate the predicament of Republican law-makers who are trying hard to find a solution to the state's accumulative \$50-\$60 million deficit and yet, at the same time, to modernize services rendered by state government. When the record is examined carefully, some embarrassing results are found.

Newspaper headlines have featured the economy stand of Republican legislators who threaten a pay cut of living pay boosts for state employees by the state legislature.

State civil service commission. If state civil service is enforced, there would be fewer state employees and perhaps payless paydays or unpaid paychecks at Lansing. We suspect that many voters would like to see this economy put to a test, especially when the legislature is asking local governments to economize by getting along with less state aid.

The House of Representatives recently passed a bill requiring a 10% cut in the salaries of state employees. Legislators were assured it would cost \$5,000 a year to enforce it. However, the state department of agriculture says it would cost from \$100,000 to \$175,000 yearly to properly administer the law. New benefits, Sure, but only by more tax dollars.

Fortunately for the taxpayers, Attorney General Frank Millard led the House bill to be unconstitutional. "Saved by the bell."

Here's another illustration.

Senate Bill 214 would regulate administration procedures and set methods and rules for the operation of the various agencies of the government. Senate Bill 214 would mean a heavy appropriation, employment of new personnel, a mountain of expensive work and an infinitum. Better government? Yes, but it would cost more.

William Palmer of the Civil Service Commission points out that while many of the suggestions have excellent points, there should be someone appointed to cut out just how much money is going to be involved.

"The necessary personnel, supplies, equipment and space and a hundred other aspects should be investigated and an estimate of the total cost given to the legislature so it can decide whether to pay for such a service," he said.

He cited other bills either passed or pending in the legislature, such as the sausage bill, which if passed, would put proper proportion of meat and filling material in sausage under state inspection.

Then there is the proposal for centralized record keeping system.

This measure, as Mr. Palmer notes, has a great deal of merit, but it would mean hiring skilled workers to handle the myriad records of the state. It also would require renting or building a structure of considerable size to house the records. All this at a time when the various departments formerly located in the state office buildings are being in rabbit warren all over Lansing and East Lansing.

Too often the legislature has passed a new state agency or department only to find later that the cost was far greater than originally anticipated. There is good logic to the opinion, expressed repeatedly by State Treasurer D. E. Drake, that true economy in state government can be achieved only by reducing or eliminating state services.

There is general agreement that economy should not be attempted at the expense of the aged or ill. The controversy starts, when you try to select the particular public services to be reduced or eliminated.

Let's take a case at hand: Michigan's public school system.

Between Jan. 1 and Dec. 31, last year, almost 4,000,000 new babies in the U. S. A. hit the sheets and went up a howl for milk, diapers (Continued on page four)

It was announced at the meeting that the annual meeting of the Women's Guild of the Ann Arbor Region of the Michigan Indiana Synod will be held in St. Paul's church here April 23.

Friday's program period was opened with a devotion in charge of Mrs. Fred Seitz and included a poem entitled "Little Churches," read by Mrs. Herbert Paul.

Miss Hazel Hafley, Willoughby Cook Speak Vows Here

Hazel Ruth Hafley, daughter of Mr. and Mrs. George Hafley, and Willoughby G. Cook, son of Mr. and Mrs. Willoughby A. Cook, of Howell, were united in marriage in a ceremony performed in St. Paul's Evangelical and Reformed church at 3 o'clock Saturday afternoon. Rev. P. H. Grabowski officiated.

Wanda Eschelbach was the soloist. Accompanied on the organ by Mrs. Carl Mayer, she sang "Because" and "The Lord's Prayer." Gowned in white slipper satin fashioned with long sleeves and a short train, the bride wore a finger-tip-length veil of lace and carried a bouquet of white sweet peas centered with a white orchid. She later pinned the orchid to her going-away suit. The suit was rose-colored and with it she wore black accessories.

Arlene Haist was the bride's only attendant. She wore a floor-length gown of powder blue organza and a headpiece formed of white carnations. Her bouquet was of pink sweet peas encircling a lavender orchid.

Bruce Byeraft was best man and Carlton Hafley, the bride's brother, and Richard Sidney, of Royal Oak, were the ushers.

Approximately 65 guests attended the reception which followed in the church hall. Mrs. Raymond Schmitz, a sister of the bride, was in charge of the guest book and Mrs. Elvira Gordonier, of Dexter, the bridegroom's sister, cut the cake. Doris Haist poured. Mrs. Frank Gieske and Mrs. Ola Hilsinger assisted with the serving. Supper was served later at the home of the bride's parents, to 100 guests.

For the wedding the bride's mother wore a purple dress with gray accessories, and the bridegroom's mother was dressed in aqua with black accessories. Both wore corsages of yellow roses.

The bride, a 1951 graduate of Chelsea High school, is employed at University hospital, Ann Arbor.

Mr. Cook is employed at the Chelsea Milling company.

The couple will reside at 163 Orchard street.

A November wedding is planned by the couple.

You're off in a Swirl of Power!

WE'RE willing to wager that not one person in a hundred knows what really goes on inside an automobile engine—so let's take this by easy stages.

The instant you nudge Buick's Fireball 8 Engine into action—a whole string of things starts to happen.

Eight sparks begin to crackle in well-timed sequence. Eight pistons start gliding up and down with rhythmic precision. Eight pairs of valves dance open and closed—to let fuel charges in, exhaust gases out of cylinder after cylinder.

All right, you say, what's so complex about that? Can't anyone build an engine that does this to perfection?

Well, we'd better add, these things happen at the rate of more than 10,000 times per mile—and that's 100 times per second at 35 miles an hour!

So—it's important to know that Buick uses a deep-breathing valve-in-head design that shoots a fuel charge in—cleans exhaust gases out—in a hurry.

It's important to know that all the power released by the fuel concentrates its driving force right on the head of each Buick piston. (Everyone who has recently built "new" high-compression engines copied this "Buick first.")

But most important of all—Buick adds one more twist which others still haven't copied.

Every charge of fuel rushing into a Buick engine becomes a twisting, swirling, high-compressed ball that flashes with sudden, consuming completeness the instant the spark sets it afire.

And to add this all up: clean, complete combustion—10,000 times per mile—is the secret of getting more power—more

miles—from each gallon of gasoline.

So we're not simply using picture words when we tell you that Buick—and only Buick—has a FIREBALL ENGINE—or that you're off in a swirl of power with one of these high-powered performers under the hood.

1952 has brought a lot of sparkling new improvements which you'll want to see and admire when you come to our showrooms.

But the thrill of thrills is still what you and a Buick—and a Fireball 8 Engine—can do out on the road. When do you want to try a sample?

Equipment, accessories, trim and models are subject to change without notice.

Sure is true for '52

Things you'd like to know about your Railroad

**Who's Who
On The Tax Roll?**

1. CENTRAL'S ON YOUR SIDE of the tax roll... the tax paying side. The tracks, stations, bridges it builds and maintains with its own money are taxed locally just like your home, factory or store. Here in Michigan, New York Central taxes lighten your tax load by more than \$2,060,000!

2. \$300 MILLION DIFFERENCE! Only railroads pay their own way and taxes, too. Heavy, inter-city trucks, subsidized and barge lines all get far more out of the public funds than they put in. That's a big difference. In Railroad state and local taxes alone, it's a \$300,000,000 difference!

3. RAILROAD TAXES AT WORK! New York Central taxes help pay the corrections of many a new school. Help pay the teachers' salaries. Help keep up police and fire departments. That's only fair. But is it fair to make Central also pay taxes to help subsidize competing transportation?

4. WOULDN'T IT BE FAIRER for all to compete on the same basis? Then each kind of carrier would do the jobs at which it could earn its way and pay its share of taxes. Your tax load would be lighter. You'd get better service all around. And better service for you is the CENTRAL IDEAL!

Girls' Bowling Team from Detroit Feted at W. Smith Home

Mr. and Mrs. Walter Smith of Pleasant Ridge, entertained the members of a girls' bowling team from Detroit, their husbands and guests, at a spaghetti dinner especially prepared by "Chef Walter" at their farm on Ivey road, Saturday evening, March 1.

During the evening the group played on a grudge bowling match, at the local bowling alley, the husbands versus wives, with the ladies walking off with two of three games and high total pins for three out of four points.

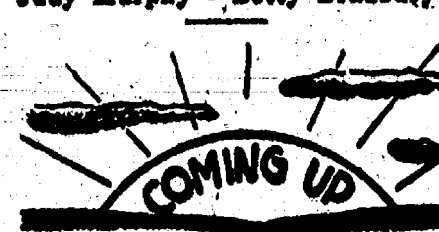

Just a year ago the same group had a match game here when the husbands were victorious, so it was sweet revenge for the ladies. A return match is planned for next year and wagers are being made with the ladies' team top favorites, at four to one.

The group was made up of the following couples, Mr. and Mrs. Robert Wieber, Mr. and Mrs. John Raab, Mr. and Mrs. Carl Rochon, Mr. and Mrs. Clarence Janssen, Mr. and Mrs. Bernard Bieke, Mr. and Mrs. Mark Oldani, and Mr. and Mrs. Frank Koss, all of Detroit.

The loops of a towel in large measure determine its absorbency. Look for towels with loops which are set reasonably close together and which are fairly long, about one-eighth of an inch. THIS WEEK IN Washington

IN A RULING which may have far-reaching repercussions, Speaker Sam Rayburn of the house of representatives has barred television and radio broadcasts of the proceedings of house committee hearings. Since the speaker's word is final in interpreting house rules, unless overruled by a majority vote of the house itself, it is likely that his decision will stand for this session of the congress.

Republicans in the house led by minority leader Joseph W. Martin, Jr., and Congressman Paul W. Shaffer of Michigan, immediately charged the speaker with "administration censorship."

The speaker told newsmen his ruling applied not only to "live" radio and TV coverage of hearings, but to tape recordings, TV filming and newspaper coverage as well, but not to "still" news photographs.

While the speaker's ruling does not affect the senate, last week Senator Herman Welker, Republican, Idaho, a freshman senator and a member of the senate crime committee which has been investigating crime in the District of Columbia, fired a broadcast at his colleagues for making a "speaker's ruling" out of the proceedings of the senate committee.

After charging that the senate probe committees had no rules of decorum and were governed by no rules of law, that they admitted hearsay evidence and conclusion of witnesses in violation of all the rules of jurisprudence, that the witnesses were subject to the whims of the senators on the committees invading the constitutional rights of citizens, Senator Welker said: "I say there has been too much mugging on the part of many senators who have enjoyed this limelight of being on the television and before the radio audience, and I say it is about time to get back to fundamental justice, and decency, and get some courtroom judicial demeanor into this matter."

Both house and senate armed services committees have now approved a similar universal military training bill. The house committee

report said the bill would save the nation \$13 billion dollars a year once the plan was in full operation. Without UMT, the report said, the national security would require a standing force of 3,700,000 servicemen, plus 1,000,000 active reservists. With UMT, it said, the standing force could be reduced to 2,000,000 and the reserve upped to 2,500,000. As the bill came from the senate committee, S-2441, it provides for six months military training and 7 1/2 years reserve service for all able-bodied 18-year-olds. Major difference between the house and senate bill is that the latter would require selection of trainees by lottery, while the house bill called for selection by local draft boards.

Little was done on the floor of either house of the congress and at one point Senator Joseph O'Mahoney, Wyoming, felt called upon to apologize to the spectators in the galleries. Said Senator O'Mahoney: "The reason the seats are empty today is principally because all the Republican senators who were honoring Lincoln have not yet returned, and Democratic senators, who are about to travel to the four ends of the continental United States to honor Jefferson and Jackson, are getting their bags packed to depart."

Because of the tactics of some of the members of the promoting committee, the citizens committee for the Hoover report has time and again been charged with playing politics with some of its recommendations. So in a conference the committee decided to dissolve and quit "to avoid becoming involved in politics." The committee has seen about 55 per cent of its recommendations enacted into law and plans one more drive to revamp the government personnel system.

Dr. Robert L. Johnson, national chairman and president of Temple university, said the group would disband May 31. The Truman administration has approved most of the recommendations of the Hoover commission which brought out its report for reorganization of the executive branch of the federal government in 1949.

Methodists Hold Family Night Affair

The attendance at the regular monthly Family Night supper at the Methodist church last Thursday was under average because of the prevalence of colds and other illnesses. Those who did attend, however, enjoyed the evening's program.

Those present were divided into four groups and each of the four foreign students met with one of the groups informally instead of giving a formal talk before the assembly.

One of the students was from Korea, one from Ethiopia and two from Pakistan. They were accompanied by Mr. and Mrs. Erle Stewart, of Ann Arbor, Mrs. Stewart being the former Ruth Boyce, a daughter of Mrs. Florence Boyce.

Sunday dinner guests of Mr. and Mrs. Edwin Gaunt were Mr. and Mrs. William E. Gaunt and son, Bill, of Detroit, and Mr. and Mrs. James Gaunt.
