Announce Plans for New Series of Adult Education Classes

Enrollment Choice Needed by School Before Jan. 1

The first of the new Adult Education classes will be held on Jan. 1. The Chelsea Public Schools will be the first to announce the classes. The school board will be holding a public hearing on the matter at 7 p.m. on Jan. 1. The hearing will be held in the school building. The school board will be holding a public hearing on the matter at 7 p.m. on Jan. 1. The hearing will be held in the school building. The school board will be holding a public hearing on the matter at 7 p.m. on Jan. 1. The hearing will be held in the school building.

Numerous comments were made by the adults to the effect that they felt the time spent in adult classes was valuable from the standpoint of self-improvement as well as a pleasant social evening. Jan. 3 is the beginning date for a new series of courses that will run for ten weeks, according to John Griffin, high school principal. He said, "We are anxious to offer a course in which approximately 10 people show an interest. On page eight of this issue you will find a list of the courses that will be offered. The courses will be held in the school building. The school board will be holding a public hearing on the matter at 7 p.m. on Jan. 1. The hearing will be held in the school building.

There has been considerable interest expressed in the following: community chorus for the people in the community who enjoy singing and would like to get together. The courses will be held in the school building. The school board will be holding a public hearing on the matter at 7 p.m. on Jan. 1. The hearing will be held in the school building.

Other possible courses might be photography with opportunity to develop negatives, print and develop pictures and make enlargements as well as instruction in the proper use of the student's own camera; tailoring, an advanced sewing class; arts and crafts—a course to include such things as ceramics, basketweaving, copper and metal, weaving, metal etching and leather work; music appreciation, in which it would be possible to listen to some of the world's great music on a high-fidelity phonograph, study and discuss the composers and the great periods of music development; and oil painting, offering instruction in oil painting and experience with oil paints.

The above mentioned courses are not all-inclusive but form a list of courses in which some interest has been expressed. Anything in which sufficient community interest can be aroused might be included. "If there are other courses in which you are interested, please fill out the blank in this issue of the Standard and send it to the Chelsea Standard, 100 N. Main St., Chelsea, Mich. 48118. We will be glad to have your suggestions. We must have these slips by Dec. 27 indicating your interest in order to make final preparations for classes to begin Jan. 3. We will be looking forward to seeing more of you in classes on Jan. 3," he concluded.

The present driver training course has been extended for an additional seven-week period. A new 16-week course will be started Feb. 21, according to present plans.

INSIDE THE CAPITOL

By Charles M. Ziegler
 State Highway Commissioner

A series of conferences have been held with representatives of the Michigan Public Service Commission, the State Highway Department, the County of Wayne, the City of Detroit and the railroad, for the purpose of preparing suggested legislative amendments to a 1931 law governing the installation of flashing lights at railroad crossings.

The Highway Department has previously operated in these matters with the understanding that its procedures were entirely within the right of the Highway Commissioner. However, recently the Attorney General's office was of the opinion that Act 336 of 1931 superseded other statutory provisions, and that the department should operate in the future strictly on the basis of that act, even though the same procedures the department has been using were used by the past three Highway Commissioners and the counties and municipalities, including the City of Detroit, and installations have always been on orders of the Michigan Public Service Commission.

All railroad crossing protection installations made under the jurisdiction of the State Highway Commissioners in recent years were installed under agreements between the highway agency and the railroad involved. Each of these agreements was reviewed by the Public Service Commission, including an inspection of the site, which Commission then issued an order for the installation and in accordance with the agreement. The contract for each installation under the State Highway Commissioner's supervision was then presented to the State Administrative Board, which Board gave its official approval to the contract for installation.

Recognizing the cost distribution as stated in Act 336 of 1931, previous legal opinion was that an agreement wherein the highway agency paid the cost of initial construction and the railroad accepted the responsibility for maintenance thereafter, that these maintenance costs become equal to to greater than one-half of the initial construction cost long before the installation outlives its usefulness, and inasmuch as the railroads were agreeable the State benefitted thereby.

Further complication is involved by the fact that since 1944, the Federal Highway Acts have provided that the Federal government would pay the State's entire cost on all Federal-aided installations as a part of the allocation of funds for the elimination, improvement and protection of railroad crossings. It must be further pointed out that Act 336 deals only with standard side of the street flashers and does not provide for the installation of half road gates, full road gates, cantilever arm suspension over the roadway of additional lights as necessary in modern

multi-lane highways, or the suspension by catenary supports over the roadway. Many of our present day installations embody much more than standard side of the street flashers.

Kiwanians, Guests Attend Annual Christmas Party

Eighty-five Kiwanians and their ladies, together with other guests, were present for the Christmas Ladies' Night dinner Monday evening. The annual affair was held in the social center of the Methodist church.

Among the guests were Mrs. Vail Hull of Adrian, widow of a former Kiwanian Division VII lieutenant-governor, and James and Janet Hibbs, Chelsea High school seniors.

Paul F. Niehaus was program chairman for the evening and introduced Byron Pearson and Robert Balmer, Chelsea High school P. F. Niehaus, sang "O Holy Night" and "The Holy City" as trumpet duets. They were accompanied on the piano by Olive Ann Reddeman.

Sharon Treacher of Dexter, accompanied on the piano by Mrs. P. F. Niehaus, sang "O Holy Night" and "Birthdays of a King."

M. J. Anderson, who is a past Kiwanian Michigan District governor, was the evening's speaker. His talk centered on the Christmas theme as related to the aims of Kiwanians.

Kiwanian President Donald Alber opened the evening's activities with a brief address of welcome.

125 Attend Annual C. of C. Christmas Party Tuesday

Approximately 125 members and guests were present for the Christmas Ladies' Night dinner and program of the Chelsea Chapter of the Commercial Club Tuesday evening in the dining room of the Congregational church.

Each of the ladies who attended was presented with a holiday card of greens encircling a red carnation.

Alvin Wistert, former U. of M. football player and 1950 All-American tackle, now with the Michigan Life Insurance company, was the guest speaker during the after-dinner program.

Harmonizing in a number of musical selections for the entertainment of the group were a quartette headed by Don Morrey of Ann Arbor. They were introduced as members of the Society for the Preservation and Encouragement of Barber Shop Quartette singing of America, or SFEBSQSA, for short.

When planning menus, seek variety in flavor, advise food specialists at M.S.C. Always serve at least one dish of outstanding flavor, but use strong flavored foods in moderation at the same meal.

"But this is different, Tom," she said, putting a pan of biscuits in the oven, "tomorrow is Christmas. It's a long way to the coast. Maybe he wrote but didn't mail it in time."

"Ma," his tired old voice was filled with bitterness, "there's no

need to stick pins in yourself by hopin'. Christmas or no Christmas... that boy is still mad."

The old lady's eyes shone with faith. "He might stay mad all year long but when Christmas comes... he'll write. I know. I'm his Ma."

"Don't forget," Tom said as he blew smoke at the ceiling. His eyes crinkled at the corners. "I'm his father."

"Dinner's ready, Pa," she said, filled with a deep longing and fought to keep the tears out of her voice.

"I can understand that boy still bein' mad at me, but why does he have to take it out on you?"

"You're wrong, Tom," Ma replied as she lifted her head and smiled. "The day after Christmas, first delivery, we'll get a letter. You'll see."

"Not from him," he shook his head grimly. "You're forgettin' Judy," she reminded him as they sat down. "She's a good daughter-in-law."

"Oh, I'm not blamin' her," replying as he covered his biscuits with gravy. "Judy's a fine girl. It's his bull headed pride."

She got up and taking the coffee pot off the cook stove filled his cup. They ate on in silence. Finally he pushed his plate back.

"You aren't eatin' much," he scolded.

"I'm just not hungry, Pa."

"I see," he stood up. "I'm goin' out and turn the heater on in the hen house. It'll be cold tonight."

His old shoulders slumped forward as he went outside. She shook her head and started picking up the dishes. Her mind sank back into the past. To the days when Christmas was alive with the excitement and laughter of young voices. She could see Pa striding into the living room bearing a large evergreen on his shoulder. Behind him there was always a highly excited little boy, bearing an axe. She wondered if the little boy ever thought of it.

PA CAME back on the porch. She smiled as he kicked his toe against the threshold. It's a wonder, she thought, that there's any threshold left after all these years. He came into the kitchen, dumping an arm load of kindling in the box behind the range.

"Snowin', Pa?"

He shook his head and took off his wraps, replying, "Stopped."

She hung the dish towels up to dry. He pulled a rocker in from the living room and sat down.

"Everything all right in the barn?" Ma asked as she threw a few lumps of coal in the fire.

"Sure," Pa said. A sad smile crossed his lips. "What's the use pretendin', Ma? We're both feelin' blue."

She sat down at the old kitchen table and started peeling apples, uttered, "I know it."

"Gonna bake me a pie?" he asked. She nodded. "Apple was always Billy's favorite, too."

"Now, Ma, what's the use of... He stopped as they heard a car drive up in the yard. "Must be Jim Rogers. Said today that new calf of his was sick."

He opened the kitchen door and peered out into the night. She could hear him catch his breath as he watched a man and a woman get out. "Ma, who do you think?" his voice was low.

"I know," Ma laughed as she laid the paring knife down with a happy smile. "I knew it all the time."

Allan Erke Becomes Member of Holstein Association

Brattleboro, Vt.—Allan Erke, Chelsea, Mich., has been accepted as a member of the Holstein-Friesian Association of America by action of the Board of Directors at their recent meeting in Brattleboro, Vermont.

The association is the world's largest dairy cattle breeders' registry organization, with more than 45,000 members.

Whitey Fisher, from the State Motor Vehicle Department, dropped by to discuss some of our local traffic problems.

"Up at Center Junction," Whitey says, "they've got a new sign that really slows down the traffic going through town."

"The sign says, 'At 25 miles an hour, you can drive through Center Junction in 2 1/2 minutes!' It slows people down too—some just take it easy to check on that 2 1/2 minutes, I guess. Hasn't even been a dent fender since that sign went up."

There were other interesting items also. The class enjoyed the trip very much.

DEMONSTRATION SPEECHES

They were also shown how to run a projector, and a film strip was shown. Football and basketball plays were popular demonstrations with the boys and these demonstrations helped many to understand the two games much better. A drum and clarinet display were also given.

SENIOR CHORUS

The senior chorus had the band put on a joint Christmas program Dec. 13 at 8 p.m.

There was a sacred section, a merry section and a few skits. Familiar songs were also sung by the audience with the band playing.

GRADUATES FROM INFANTRY NON-COM SCHOOL

COMPLETES TEST PERIOD

Averaging 19 quarts daily, Rainbow Fobes Kitty Rose, a registered Holstein owned by George Macomber, Ann Arbor, recently completed an official Herd Improvement Registry production record totalling 13,842 lbs. milk and 522 lbs. butterfat in 328 days.

Testing was supervised by Michigan State College, in cooperation with The Holstein-Friesian Association of America.

Milked twice daily, the cow was 2 years and 10 months of age when her test began. Her total was about two-and-one-half times the production of the average U.S. cow.

Motorists Urged To Prepare Autos For Winter Driving

When the newspapers start running those "so many days to Christmas" notices, it should serve as a warning to tardy motorists who have failed to get their cars ready for winter to wake up and get busy, Chief of Police George W. Doe warned yesterday.

"The season of hazardous driving is here or near, and we might as well face it," the chief said. "The time to make your car winter-safe is before the accident, and I would like to remind all drivers that President Eisenhower has declared December 15 as 'Safe Driving Day.' Let's be ready and make 'S-D Day' a deathless, accident-free day and then try to continue it."

He offered the following rules of longevity, prepared by the National Safety Council:

1. Don't blame the weatherman for accidents. Be prepared.
2. Get the "feel" of the road when starting out on slippery mornings.
3. Keep the windshield clear of sleet, fog and frost. And be sure the windshield wiper blades, defrosters, and all lights are in good condition.

4. When streets are covered with snow or ice, use tire chains, which cut stopping distances in half, and increase traction 4 to 7 times. Also, remember to drive slow on ice or snow.

5. When you stop on ice, don't jam on your brakes. That is inviting a skid. "Pump" the brakes until the car comes to a halt.

6. Keep a safe distance between your car and the one ahead. You'll have a hard time explaining why you couldn't stop, if the car ahead was able to.

Tests have shown, Chief Doe said, that a car equipped with reinforced tire chains, going 20 miles an hour, can stop in about 77 feet on glare ice and in 40 feet on hard packed snow. The same car with so-called "winterized" tires takes 188 feet to stop on glare ice, and from 60 to 70 feet to stop on hard packed snow.

When you are buying "bargain" nylon tricot garments in 40-denier yard, textiles specialists at MSC advise you to check to see if the yard is of the twisted or untwisted variety. Although fabrics knitted of untwisted yarn may cost less they don't wear as well and probably won't save you money in the long run.

Tennis was purely an amateur sport until 1928.

MARTIN STEINBACH, OWNER

When politicians took a fresh
look at Michigan's new state gov-
ernment this week they wondered
when the rolling pins would start
to fly.

For the first time since 1937,
the administration will be Demo-
cratic from top to bottom, giving
Gov. Williams his long-sought
"team" on the State Administra-
tive Board. Williams was over-
joyed at the thought. Republicans
were disappointed, but thoughtful.

Republican leaders in the legisla-
ture already are planning to ex-
pand their House and Senate
staffs to do work they previously
could count on from state officers.
"It's too tempting for a Democrat
in state office to do what Williams
wants and forget the legislature,"
said Senator Crichton R. Cole-
man (R-Battle Creek).

Best bet is that the auditing
staff of Comptroller C. J. McNeil
will be increased and an informal
"watchdog" committee will be
created for the legislature.

At the same time, Republicans
are leaning toward giving Wil-
liams what he wants in the way
of legislation this winter and
letting him live with the record.
He has earned the right to have
to explain himself, said one
GOP leader. He will have no one
to criticize but himself.

The Senate also is ready to con-
firm 38 holdover appointments
they ignored last year in the hope
of putting the posts at the dis-
posal of a Republican governor.

Helmets in the Senate predict
that the 38 will be brought out
on the floor and confirmed quickly in
the 1955 session and 32 others
appointed since last spring will
also get the nod.

Republicans are itching to see
what Williams does with his "cab-
inet," a handful of comparative un-
knowns who have only limited ex-
perience in government. "Now in-
stead of blasting a Republican
every time things don't go as he
wants, Williams will have to be
a leader," said one Republican.

Law enforcement officers over
the state are jumping at what
they consider a mandate to chase
charitable bingo out of their coun-
ties.

The Nov. 2 election turned down
a proposed constitutional amend-
ment which would permit the leg-
islature to legalize lotteries for
non-profit charitable organizations.
The vote was close, however.

In Oakland County, Prosecutor
Fred C. Ziem has ordered a stop
to bingo games, which have been
running openly in defiance of an
unenforced state law for years.
It's the same in many other parts
of the state and more crackdowns
are expected every day.

Now that election day is his-
tory, Senator Clyde W. Geerlings
(R-Holland) will move along
with recodification of the elec-
tion code and proposals for some
major changes. "I didn't want to
get started before the election
on anything that would
confuse the voters," he said.
Working with Geerlings are sev-
eral of the top elections experts
in the state. The changes, how-

ever, will have to clear the leg-
islature before they go on the
books as laws.

Republicans in state offices still
are sniping at Democrats and prob-
ably will until Dec. 31 when they
plead out their desks and bid adieu
to state government.

Auditor General John B. Martin,
who spent the fall digging into
the insurance department with em-
barrassing results, has taken off
on the Democratic-controlled Liq-
uor Control Commission.

He said that up to 3,000 cases
of liquor were turned loose as gifts
every year by the commission. This
figures out at 60,000 bottles. "This
is too good a thing to call samples,"
he said.

Commission executives say that
Martin is exaggerating the situa-
tion, that liquor salesmen and
vendors are permitted only a re-
stricted amount to distribute each
year.

Martin asked one embarrassing
question, however: How many of
the "samples" are going to politi-
cians?

Latest attempts to relieve the
overcrowding in Michigan pris-
ons came when the corrections
commission decided to take over
the abandoned tuberculosis hospi-
tal at Pinckney, near Kalamazoo.
The hospital, when fitted
out like a prison, will house
another 100 inmates-joining a
long list of make-do installa-
tions that have been built or
remodeled in the past year.

Corrections Director Gus Harri-
has rebuilt and expanded one pris-
on work camp, built six more cot-
tages for youthful offenders at
Cassidy Lake Training School, a
new 100-man barracks at Jackson
State Prison, started work on a
150-man dormitory at Ionia State
Reformatory. But to keep the pris-
ons from overflowing, he has jugged
inmates from here to there,
taking advantage of every possible
cell.

Public Funds Once Used To Attract Immigrants to State

Ann Arbor—Michigan legisla-
tures once provided funds to at-
tract immigrants to the state!

According to information in the
Michigan Historical Collections at
the University of Michigan, this
first was done in 1845. To further
the effort, in 1849 a pamphlet
entitled "The Emigrant's Guide"
or "Des Auswanderers Wegweiser
nach dem Staate Michigan" was
published and distributed in Ger-
many.

Another brochure, "Michigan
and Its Resources," was translated
into German, Dutch, French and
Swedish.

From 1870 to 1875, Michigan
maintained an agent in Germany
to direct emigrants to the State.
As a result of these efforts, the
University's Collections indicate,
thousands of Europeans were at-
tracted to Michigan.

First State History Was Written in 1839

Ann Arbor—the first general
history of Michigan was written
by James H. Lanman and pub-
lished in New York in 1839, ac-
cording to information in the
Michigan Historical Collections at
the University of Michigan.
The complete title is "History of
Michigan, Civil and Topographical,
in a Compendious Form: With
View of the Surrounding Lakes."

Council Room
October 25, 1954

Special Session:
This meeting was called to order by Pres. Sweet at 7:30 p.m. for the purpose of discussing financial problems facing the Village of Chelsea and the Chelsea Electric Light and Water department.

Present: Trustees Merkel, Eisemann, Hass, Canine, Spiegelberg and Riker.

Comparative statements comparing the Receipts and Disbursements to date with the proposed budgets were produced and studied by the Council.

Building problems were discussed along with sewer and water extensions now pending. The possibility of all future sub-divisions accepted by the Village constructing all improvements at the builders expense prior to being accepted by the Village was considered.

The inadequacy of the present financial system of the Village caused by limitations of the Village Charter and the need for a new approach to this problem was discussed. It seemed to be agreed that perhaps the need for a city form of government for the Village of Chelsea would solve many problems. It was brought out that limitations suitable to the needs of Chelsea could be written into the charter of a city form of government. The Council decided to give further study to a city form of government and discuss further at a later date.

Motion by Hass, supported by Spiegelberg, the overtime pay for Police officers be raised from \$1.30 to \$1.45 per hour. Roll call: Yeas all. Motion carried.

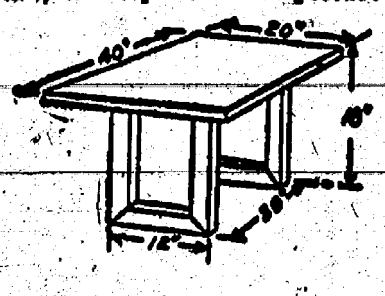

Motion by Spiegelberg, supported by Hass, to adjourn.
Meeting adjourned.
Approved: Nov. 1, 1954.

HERE'S HOW ...**MAKE A COFFEE TABLE**

An attractive coffee table can be easily made with a few hand tools.

The legs resemble heavy picture frames, 12 inches wide and 17 inches high, made of 2 x 2 material, with mitered joints. The joint cuts are easily made at 45 degree angles with a mitre box; or by marking the inner corners 2 inches deeper than the outer ones.

As shown in the frame detail, the top of each "picture

DETAIL OF TOP

frame" forms one end of the table frame. Two 2 x 4's, 22 inches long are used for the side of the table frame. The table frame is screwed together using 3/4-inch wood screws, countersunk. Brass blocks, fastened into each corner, add greater strength.

The top may be made of 1-inch boards or of tongue and groove material, left plain or covered with hardwood plywood. Either way, the top may be fastened from below with wood screws. A border of 1 x 2 material produces an illusion of greater thickness to the top. The border is fastened with finishing nails.

Except for the finishing nails in the border, all metal fasteners are out of sight, and the finishing nails may be sunk into the wood and hidden with files.

children entering school for the first time, and still others may have children well advanced in elementary and secondary schools.

Some of you are wondering what can be done to better prepare your child for school or what can be done to help him now that he is starting school. Others of you have children who are not succeeding in school as well as you feel they should and would like to know what can be done to help them.

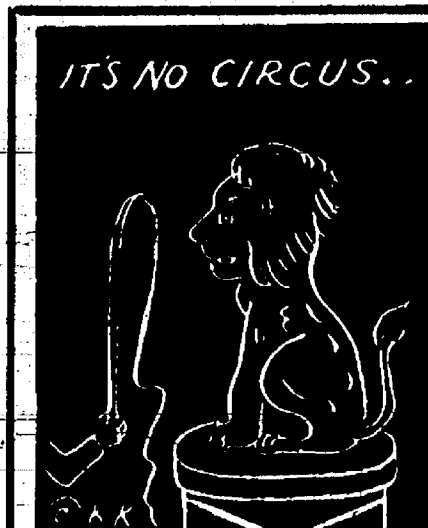

Many of you feel that the foundation for succeeding in school is mastery of the reading skills. In a sense this is true. One would certainly think so if he accepted, at face value, the articles which appear on this subject in the various popular magazines.

Since there is such an interest, especially on the part of parents, in how children learn to read and why some children do not learn to read, this series of articles has been designed to acquaint you with the kinds of problems faced in teaching children to read and the part parents can play in helping their children.

Perhaps a fresh look at a few facts may help us attain mutual understanding. In spite of what critics of the public schools say, children in the elementary schools of today read as well as, if not better than, children of comparable grade levels in the schools of 40 or 50 years ago.

It is also probably true that your child has or will have a teacher with more training than your teacher had when you were in elementary school.

And finally, modern methods of teaching reading are based on what is known about how children learn best. Certainly no one would

argue that the ABC method of teaching reading did not develop good readers, but from the evidence available there are better ways of teaching reading. That is the reason why teacher training institutions now teach prospective teachers other methods for developing reading skills.

It is not the purpose of this article to discuss methods of teaching reading. That will come later. The only reason for the three previous paragraphs is to point out a very important matter. That is, if we as parents feel that public schools are not as effective as they were years ago, or if we disapprove of modern methods of teaching, there is danger that our children will reflect these same attitudes. And most of us would agree that we do not accomplish as much as well when we approach a task with a good deal of skepticism.

The first step in preparing a child for school then is for the parents to develop a constructive attitude toward the schools. Before deploring the reading instruction your child is receiving or criticizing the schools for ineffective methods, let us make certain that the blame lies with the school.

Succeeding articles will discuss what can be done in the home to better prepare children for effective work in school, why some

children fail to respond to what is being done in school, and what can be done for children in the upper grades who apparently are less proficient in the reading skills than they should be.
