Bulldogs Lose Manchester Game, 43-45

Conference Champs Come Here Friday To Close Season

Too many mistakes and some clutch shooting cost the Chelsea Bulldogs their fourth defeat of the current campaign, as the Manchester Dutchman downed the Bulldogs, 43-45, last Friday at Manchester.

After falling behind, 8-0, early in the first period, the Bulldogs hit on 21 straight points, and then went on to take a 23-17 lead at the half.

In the third quarter the Bulldogs missed several opportunities, while the game, as they failed to hit on easy scoring chances, was missing four out of six from the foul line. Meanwhile the Dutchman hit on five of seven shots from the floor, and 6 of 8 from the foul line.

David McLaughlin, playing his last offensive game of the year, led the Chelsea scoring with 16 points. Behind McLaughlin were Nixon with 11 points, Alvin Nixon with 7, Daryl Keizer 4, the Marsh 3, and Ed Lauson 2. Jerry Creech led the Manchester scoring with 12 points.

The Chelsea Junior Varsity continued their winning ways by defeating the Little Dutchman for the 12th time.

Tomorrow night many senior players will be playing their last game in the friendly rivalry of the Chelsea High school basketball team.

At the same time, will be competing to hard league championship of the season. These boys who have supplied the Chelsea fans with many a thrilling moment, are: Jerry Keizer, Charles Koenig, Ed Lauson, Mike Marsh, Danny May, Alvin Nixon and Homer Nixon, and Jerry Creech.

It will also be parents' night, as parents of varsity players are honored before the varsity game begins.

KEITH T. MCKENNEY

McKenney Named Sales Manager of Detroit TV Station

Keith T. McKenney has been appointed general sales manager of WJBK-TV, Detroit, effective immediately, according to an announcement made by Bill Michaels, regional vice-president for television, Storer Broadcasting Co.

McKenney is the husband of the former Betty Ruth Fletcher, daughter of Mrs. John Fletcher, 116 East St. and the late Mr. Fletcher. The McKennys have two sons, Thomas, 11, and Steve, eight years old.

McKenney has been with Channel 2 for eight and one-half years, and for the past six has served as local sales manager. Before that he was a member of the sales staff.

Prior to joining Storer Broadcasting, he spent a year and a half with Peter, Griffin and Woodward, station representatives, as their first television representative in Detroit.

Between 1947 and 1951, McKenney was associated with WJW-TV where, after one year of local sales, he became program and production manager.

He started his "tv only" career in 1946 with WRGB, Schenectady, N. Y., as a producer-director after graduation from the University of Michigan in June of that year.

He is active in Little League and Cub Scouts work in the Birmingham area, and is a member of Adcraft Club, Economic Club and Oakland Hills Country Club.

Sheep Tour To Take Place This Friday

Donald Johnson, Washtenaw county extension agent, joins Lenawee County Agent James Sprague in inviting farmers of both counties to participate in the Lenawee-Washtenaw sheep tour this week Friday (March 3).

Four stops are scheduled, with Grayden Blank, animal husbandry specialist at Michigan State University, and John Miller, of the Michigan Livestock Exchange, accompanying the tour for discussion at each stop.

The extension agents state that, contrary to public opinion, sheep numbers in this area have increased and sheep raising is an important enterprise on many farms.

Friday's tour will provide an opportunity to see and hear the latest development in the sheep business, according to Sprague and Johnson.

Morning stops, at 9 and 10:30 a.m., will be near Dexter and Manchester while the two afternoon stops are scheduled for the Blissfield vicinity.

The farm of Harold and Leroy Wing at 5335 Dexter Rd., about half way between Dexter and Ann Arbor, is to be the first stop.

The Wing farm is described as "a very good commercial flock" with 270 Corriedale breeding ewes, 35 ewe lambs, and 335 cross-bred feeder lambs.

Good feeding and housing facilities are a feature at the Wing farm.

The 10:30 a.m. stop is at the Allen Paulhaber farm on the west edge of Manchester. The address is 18428 West Austin Rd.

Principal feature at the Paulhaber farm will be a dipping demonstration which will be of special interest since sheep shearsers report that ticks are worse this year than in many previous years.

Paulhaber has what is described as a good flock of feeder lambs. No special luncheon arrangements have been made, participants in the tour being advised to (Continued on page five)

Children Asked To Cross Street Where Guarded

Chelsea Police Chief John Palmer is requesting that parents of children at South Elementary school remind their children to cross South Main St. only at the Pierce St. crossing—the only place where a regular school crossing guard is on duty.

Chief Palmer says children should not attempt to cross South Main St. at the Lincoln St. crossing on their way to and from school. This safety practice should be impressed on the children by their parents.

Chief Palmer said teachers at South Elementary school are co-operating by making similar announcements in their classrooms.

With the coming of spring, traffic danger to young children increases and Palmer said every effort should be made to prevent accidents. He said automobile drivers, generally, observe the warning signal at the Pierce St. crossing and children should be taught to cross at this designated spot.

Jiffy Mixers Win from Milan Prison

The Jiffy Mix basketball team celebrated one of their best victories of the year with a 91-71 win over Milan Prison. Earlier in the year Milan defeated the Mixers by eight points.

A major factor in the victory was the Jiffy Mixers' ability at the foul line as they hit 33 out of 44 attempts.

The individual scoring was well balanced as Art Walker led the team with 20 points. Following close behind Walker was Willie Hieigh with 19. Eleven of Hieigh's points came on free throws as he connected on 11 of 16 attempts.

Jack Patrick was third leading scorer with 18 points. Loren Keizer, Frank Fredericks and Odis Richardson added 12, 11 and 8 points, respectively.

Matt Murphy and Dalice Ferris played outstanding defensive games.

Widespread Damage by Ice Storm

Periods of rain and sleet which began about 4 p.m. Saturday and continued until midnight together with 45 mph winds combined to cause hundreds of dollars in damage to Michigan Bell Telephone Co. equipment in the Chelsea area and left the entire west side of Chelsea without electricity for two hours and 45 minutes.

The electric power failure was caused when an ice-laden television antenna fell across a primary line on Grant St. just off West Middle St. at 3:25 p.m. The falling antenna took down three wires.

Service was restored to the area at 5:10 p.m.

In the Chelsea area, the weight of the ice on telephone wires resulted in downing 23 line wires and breaking 18 telephone poles. A total of 78 telephones in Chelsea and 138 in the rural area were out and service was not completely restored until Monday evening.

Damage from the ice storm was widespread throughout the county. Many TV antennas were bent and broken and most of the power and telephone damage was caused by the weight of the freezing rain on wires, coupled with tree limbs which fell on wires and poles.

Temperatures rising to 40 degrees Sunday caused most of the ice to melt and by Tuesday, spring-like weather prevailed.

Saturday's sleet storm was the worst suffered in this area since the winter of 1958-59.

Blind Girl Wins Teacher Contract

Publicity in city newspapers recently concerning an Illinois girl, blind since birth, who has overcome her handicap to the extent that she has earned a high school teaching contract, brought to the attention of several Chelsea residents the fact that the girl is a niece of Mrs. Carl Schlosser and a cousin of the Chelsea Co-Operative Nursery teacher, Mrs. Raymond Schairer. The girl is Barbara Winters of Princeton and Normal, Ill.

According to published stories of her accomplishments, Miss Winters has been hired to teach English and social studies to students with normal eyesight in a junior high school at Palatine, Ill., a suburb of Chicago. She will have an aide who will read to the students and keep administrative records but otherwise will "be on her own."

At Illinois State Normal University Miss Winters was voted one of the outstanding members of her class.

The further tired machine has many advantages over the crawler for this type of operation, according to experienced operators. It is faster operating, more maneuverable, more economical to operate in sand, (which is highly abrasive on tracks) and will provide the village with a mobile and versatile piece of equipment which can be driven into town to aid in snow removal, bulldozing, lifting and many other operations for the Public Works and Light & Water Departments.

It is hoped that the village sanitary land fill will be in operation within a month to six weeks. The actual opening will, of course, be dependent upon the acquisition of the front end loader.

Why a sanitary land fill? One year ago the village closed its dump on Cavanaugh Lake Rd. after a year of constant difficulty with the residents of the area, the township zoning board and the township board. The main trouble was the large fires, which often burned far into the night.

This past year the village operated without a dump with the garbage and rubbish contractor taking everything from the residences and commercial establishments to his dump on Lehman Rd. Industry which required a dump (Continued on page six)

Space Exploration or Missiles . . . Which Should Have Top Priority?

In April, we are told, one of those Project Mercury astronauts now in training at Langley Field, Va., will very probably get the first ride in a nose cone that any man has ever had. The trip will be brief, only 16 minutes in duration and some 130 miles each way—up and down! By the end of 1961, according to present plans of the National Aeronautics and Space Administration, the first astronaut will be sent into orbit.

Additionally, according to former President Eisenhower's recent state-of-the-union message, the "near future" will see the landing of instruments on the moon and reconnaissance of Mars and Venus—via instruments in unmanned rockets.

How near this future may be, however, appears in some doubt since a Kennedy task force on space matters has recommended de-emphasizing Project Mercury and the more fanciful space probes to put more heat on the missile program and development of king-sized rocket engines.

Clearly, such decisions are for the experts. But Project Mercury has generated far more public excitement than the more impersonal programs. We understand, too, that the astronaut for the first flight may already have been selected. And we wonder how he feels about the change of pace that may delay the culmination of his dreams and hopes of being that first man into space.

Michigan Is Abundant Power . . .

Michigan is possessed of resources, both human and natural. So much so, that often we permit the unusual to become the obvious and we neglect to give it the prominence and attention it deserves.

Michigan is highly skilled in workmanship and industrial know-how. We who live here know that and expect everyone else knows it. That is not entirely the case. Not every State has these same advantages of trained workers and management. Not by a long way.

So it is with one of the most important facilities that industry needs—electric power.

Michigan has abundant power for industry through our private utility companies, our municipal utilities and our co-operatives. Our Upper Peninsula is ably served with electric power and so is Lower Michigan where we have international tie-ins to make certain there is no disruption of power.

We take it for granted that when we flip a switch or push a button in our homes that our lights will go on or our appliances will start to work. It's just what we expect. But, industry needs more than our acceptance of these things. It must know that we have power in adequate supplies. We have it, and industry throughout our nation should be told about it.

Our rivers furnish some of the power to turn our generators and others are run by steam. Even more progress is in the near future with two atomic energy plants under construction. Michigan companies are not satisfied merely to meet the demands of today. They are building for the greater tomorrow which requires the help of every Michigan resident to accomplish.

If you are wondering whether to accept the Eisenhower or the Kennedy appraisal on the state-of-the-union, brace yourself. The Bureau of Labor Statistics, which compiles the data for the Cost of Living Index, has just been ordered to add the price of tranquilizers to the formula. Does that answer your question?

TIME MARCHES ON

MICHIGAN MIRROR

By Elmer E. White, Secretary, Michigan Press Association

"Tax reforms proposed by Gov. John B. Swainson have already accomplished their purpose: To fulfill a campaign promise without starting a political fight."

Democrats contend the plan has "something for everybody." The plan imposes a three percent corporate and personal income tax, wipes out or reduces the most inequitable taxes on business and exempts food and drugs from the sales tax.

It gains no extra revenue for the state treasury, but offsets \$418 million in new taxes with \$418 million in tax relief.

Perhaps it should make everyone happy, but opponents find two flaws: The plan cannot become law and it fails to solve Michigan's problems.

Democrats say the tax relief will create prosperity and the existing taxes will consequently grow into a flood of new dollars. A main ingredient of the plan is optimism. But Republicans in the State Senate will reject anything with an income tax label. They proved that in 1955—and again when voters approved the one-cent sales tax increase in 1959.

Liberals and pseudo-liberals like the Swainson plan because it is something fresh. All other tax ideas have threatened to pinch the family pocketbook.

This one affects only those making more than \$7,000 a year. If they have a family and it's hard to feel sorry for someone who has a job when 320,000 Michigan workers are idle.

Swainson had to come up with the plan. During his campaign for the executive office, he promised "fiscal reform," while his opponent, Fred D. Bugwell, backed the sales tax on the Nov. 8 ballot. Swainson opposed it.

Swainson won and promptly endorsed the sales tax, which also won, because "the people have

spoken." The resultant reform plan is close to Bagwell's own ideas.

Democrats around the state are calling meetings to explain Swainson's ideas.

It will take nine legislative bills to enact the plan into law; requiring at least 18 votes in the Senate where Republicans hold a 22 to 12 majority and 56 in the House where Republicans hold a 56 to 54 edge.

Many weary of financial crises in Lansing and the threat of new taxes, are happy with the thought that the problem is solved without costing them more, but time will tell if their hopes are soundly

met. Voters went to the polls to approve that extra penny of the sales tax to raise an estimated \$120 million a year more for the state treasury. This too will fall short of solving the problems.

The \$120 million will be piled on top of the \$50 million in "nuisance taxes" due to expire June 30. If they do expire, it will be the first time in the memory of man that temporary taxes have not become permanent. And if they do expire, it will leave the treasury only \$70 million a year.

This is indeed a modest gain in the light of the needs of state agencies, particularly the universities and colleges. New buildings have been under a moratorium for three years.

The best bet around the capital is that, if the nuisance taxes expire and if no new taxes are enacted, the next "crucial" crisis will arrive about the time Gov. Swainson's first term expires.

But the Governor's promise has now been fulfilled.

He has given Michigan a tax reform program—and it is not written into law, will have a powerful argument when the 1962 campaign is launched.

Remember this historical note: Gov. G. Mennen Williams came to

Professional Groups Adopt Resolutions Praising Mabel Fox

The Chelsea School District Board of Education and School Superintendent Charles Cameron have received copies of resolutions adopted at the Michigan State Teachers Club Conference in Port Huron Jan. 21 and at the January Michigan Education Association board of directors meeting, conveying sympathy, because of the death of Miss Mabel Fox, "to the Chelsea Public Schools, Chelsea Methodist Church, and to all who mourn her loss."

Copies of the two resolutions were received here the past week.

The Michigan State Teachers Club resolution stated in part, "Her vigorous and energetic labors in behalf of her profession and its organizations which included three years as president of Michigan State Teacher Club are recognized with deep gratitude."

The MEA included in the resolution the statement that Miss Fox was a "master teacher, devoted worker, colleague and friend" and that she was "always a credit to her profession, constantly giving of herself and her talents; and that she had 'set a worthy example for others to follow.'"

Miss Fox, a Chelsea High School teacher for 22 years, was killed Dec. 23 in a traffic accident near Williamston.

JET CARGO PLANE SOUGHT

The Government plans to develop a gigantic jet plane that could carry tons of cargo long distances either for military or civilian use. As envisioned, the plane would have the capacity to fly ten tons of cargo across the Pacific or 25 tons across the Atlantic.

The project comes under the Government's general program to modernize the Military Air Transport Service.

Progress would be faster if people could go forward on excuses.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

It's at great pity some of them Washington column writers don't cover our sessions at the country store. They'd get more horse sense in one Saturday night than they get from a whole session of the Congress.

Saturday night, for instance, Ed Doolittle unveiled a plan that would help get a heap of folks out of debt. He called to mind how they Federal income tax officials come out several years ago with colored stripes on envelopes to let the public know how much income tax a fellow was paying. If he was reporting \$10,000 a year, for instance, he got an envelope with a yellow stripe on it, so the folks in the post office, the mail man and all his neighbors would know about it. The politicians made the tax folks cut it out, but Ed allows as how the idea is sound as a 1910 dollar.

Take the merchants, for instance, said Ed. If a fellow is a couple months behind on his bill, let the merchant send him an envelope with two big red stripes on it. If he's behind three months, send him one with three red stripes. And when he gets a whole year behind, send him one printed red all over with his name in black. Ed allowed as how people could tell just exactly how everybody else was getting along and that folks would start paying their bills a heap better. Zeke Grubb allowed that the system was good, would cover about everything except a woman's age. Clem Webster said they ain't no system to cover this situation, that about the only way you could find a woman's age for shore is to ask her mother-in-law. Bug Hookum was lamenting

while Ed's system might help a little, they ain't no cure for debt in this country unless we do away with automobiles. Bug claims we got millions of people in this country that ain't doing nothing but supporting their automobile. Out this way, for instance, Bug says most folks keep up the payments on their car and if they is anything left, they pay their taxes and get some groceries. Got any of them kind over in town, Mister Editor?

Well, I see by the papers where President Kennedy aims to get a team of folks and train 'em in the field of promoting peace and disarmament. Up to now, allows Kennedy, them that's been handling that department ain't had no more training in it than a hound dog has had pointing a covey of quail. But the Prime Minister of England says he ain't going to follow suit, is going to stick to the one-man system. I reckon he figures that one man can handle about all the peace and disarmament we got at present.

Yours truly,
 Uncle Lew.

MICHIGAN IS ELECTRIC POWER

Power? Michigan, in all its industrial history, never has been hampered by electric power shortages. With everything that industry needs, Michigan stands high in the ranks of the industrial states. It's a fact to be proud of, for even in this nation of plenty, most states are not as fortunate.

Michigan has an abundance of electric power and skilled workers, a combination which has made Michigan a mighty industrial empire.

What about electric power costs? Michigan, cradled by the Great Lakes, enjoys economical

rates for water transportation of coal, the source of most of the state's electrical energy. So there will be electricity flowing from two Michigan nuclear energy plants to provide an even greater source of power to meet the needs of the state's growing industrial community.

Help carry Michigan's message to the nation. Clip these ads and mail them to people in other states with your own comment. Let's talk up Michigan and its advantages for industry. Together, we can assure a greater future for all of us.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

GIRL SCOUTS

TROOP 48—
We had flag ceremony for the opening. Then we discussed the Girl Scout council meeting in Ann Arbor which Penny Eisenbeiser gave a report on.

Then we got the cookie order kits. Cynthia Hepburn served refreshments which were cookies. We had badge reports. Then we elected Carolyn Wilkerson, treasurer.

The troop chose parts for a play which we will give at a banquet for our mothers. We have not decided the date yet. The play is called "Ghost in the House." Next Friday we will stay until 5:15 to rehearse our play.

We made Girl Scout Calendars to keep in our folders.

For our closing we sang "Good Night, Girl Scouts."

Sherry Clark, scribe.

TROOP 148—
Girl Scouts of Troop 148 held a

meeting at South Elementary school Wednesday and conducted a flag ceremony. Elaine Paul and Julie Rosebush brought the refreshments.

Julie Rosebush, scribe.

Sanitary Fill

(Continued from page one)

was allowed to use his dump alone. William Terns, the contractor, has done a Herculean job. He and the Council members were amazed at the tons upon tons of material which appeared at the curb each Wednesday morning.

In an attempt to lighten the load the Village conducted a spring and fall rubbish day but even that didn't quell the tide, completely. Terns gamely fought on, however, until the old bug-a-boo, fires, in the dump got him. Once again neighbors, a township board and the county health department started exerting pressure to close the dump. The Council once again started looking for an answer when Mr. and Mrs. Donahue came forward with their offer of a site for a land fill.

The land fill will offer the village residents, business places and industry a place close by to take their refuse as they accumulate it. The definition of rubbish in the 1961-62 garbage and rubbish contract has reverted to the one used prior to 1960. There will, however, be two pick-ups per week—Tuesdays and Fridays—of both garbage and rubbish. Unusual amounts of trash and rubbish may be taken to the land fill by the resident or by a hired trucker.

Residents will be notified prior to the opening of the sanitary land fill and will be instructed as to the proper procedure to be used in dumping in the fill.

Neither the definition of rubbish nor the days of garbage and rubbish pick-up will change until the village sanitary land fill is in operation.

MYSTERY FARM No. 139 was identified as the Albert E. Forner farm at 1160 Pierce Rd. west of Chelsea, formerly known as, and still called by many area residents, "Guthrie Rd." It was originally shown, without identification, in the Feb. 23 issue of The Standard.

Many Area Persons Quickly Identify Albert Forner Home

Formerly known for many years as the William Laird farm, Mystery Farm No. 139 was identified by a number of area residents after the photo originally appeared without caption in the Feb. 23 issue of The Standard. It is located on Guthrie Rd., but now renamed Pierce Rd. The house number is 1160. The place has been owned since 1928 by Albert E. Forner.

The original owners were Hugh and Ellen Rowe Guthrie. The present home was built in 1874, the carpenters being Samuel Guthrie, (father of Miss Lida Guthrie and Mrs. Allie Floyd) and his brothers, Thomas and James. Miss Guthrie's father, Samuel Guthrie, and his two brothers, Thomas and James, were the carpenters who built the present house in 1874 for their parents. It replaced an older house which was moved back and used for storage purposes for a number of years. The Hugh Guthrie family included three daughters, Ada who married Burnett Steinbach, Rachel

who became Mrs. Henry Wilsey, and Ellen Jane who married William Laird. The William Lairds became the owners after the death of Mrs. Hugh Guthrie who had managed the operation of the farm for many years following her husband's death. The William Lairds were the parents of the late Nathaniel Laird, prominent area farmer and fruit grower for many years. The William Lairds also had a daughter, Lenora, who married the Rev. F. A. Stiles, who was a Baptist minister and served at the former Chelsea Baptist church, located at the southeast corner of Orchard and South Main Sts.

Nathaniel Laird and his sister, as heirs of the William and Ellen Laird estate, sold the farm to the present owner in 1928.

In 1881, William Laird had purchased 40 acres of the nearby Samuel Guthrie farm to add to his acreage and 25 acres of this land was purchased from Albert E. Forner by his son, Albert P. Forner. The land is across the road from the senior Forner's property and the younger Forner and his wife and family live in a new home here.

The younger Forners, often called the Albert Forners, Jr., have a family of six children—Jerome who attends the University of Detroit, Marie, a student at Olivet College, Donald and Janet Ann in Chelsea High, Susan, in the fourth grade at St. Mary's school, and Tommy, in the kindergarten at South Elementary school.

The Forners all are members of St. Mary's church. The senior Albert Forner also has a daughter, Gertrude, now Mrs. W. Lee Ferguson of Pontiac. She has a family of five children, Richard, Donna Lee, Margaret, Michael and Willie; and three grandchildren.

The senior Mrs. Albert E. Forner died Nov. 27, 1956.

The present owner of "Mystery Farm No. 139" is familiarly known as "Bert." He still operates the farm himself, his principal stock being sheep.

"SUPPORT COUNTS"

The "Pep Assembly" Tuesday afternoon preceded a victory over U. High, a rival of Chelsea. The assembly began with cheers led by Varsity and Junior Varsity squads. Co-Captains Mike Marsh, Alton Nixon, and Homer Nixon expressed their hope to win, counting on the student body to help them. Mr. George Prinzing then took the stand. He expressed the lack of support from the student body, and the effect it had on the team. The cheerleaders led a few more cheers. The assembly was dismissed after singing the school song. Everyone now agrees, support does the job.

The Varsity cheerleaders helped sponsor the parents' night at the Saline-Chelsea game, Mar. 3. Each of the players' mothers received yellow mums with navy blue "Cs" to wear during the game. The parents were introduced before the game and each player escorted his parents to their seats afterwards. The flowers and refreshments were furnished by the Varsity Club.

Mr. Prinzing's economics classes have been studying management in a business world. Along with reading, their text and listening to class discussions, several movies have been shown, pertaining to the business world and how to manage in such.

American history classes have been studying the periods of depressions, inflations, and the reconstruction of such. At a later date, Mr. Smith's history class plans to have a debate among themselves.

Future Nurses of Chelsea are now planning their constitution. They also are making plans for future visits to hospitals, etc. Plans are being made also for the next year's activities.

Mrs. Sharp's speech class has been doing interpretative reading.

The sixth hour English III class was pleased to have their last semester student teacher, Mr. Robert Anderson, return for a visit on Tuesday, Feb. 21. The class discussed with Mr. Anderson the various interpretations of poems by Edna St. Vincent Millay; and a poem by Dylan Thomas. Mr. Anderson enlightened the class greatly on certain effective poetic uses of diction. The class looks forward to seeing him again.

to look into buying membership pins. The membership cards have already arrived, and are being made out by Mr. Bergman.

Mrs. LaGoe's English class has just finished studying the 17th century poets, and have started on the Romantic Age poets, such as William Wordsworth.

Mrs. Sharp's Senior English classes are looking up jobs in the "want ad" section. They are also doing exercises in their Learning to Write book.

Mr. LaGoe's senior English class has been assigned to write to a congressman, just for the experience. They are also studying the Romantic Age poets.

The Student Council meeting was brought to order, on Feb. 23, by President Dick Haist. Paula Romine passed out the membership cards. There was a discussion about a private Student Council party to be held Mar. 18 at the home of Lynn Lipphart. Lynn Lipphart reported that the pins were on their way. The meeting also consisted of deciding to have an assembly before the student body concerning the Code of Ethics.

Mr. Cowell's Advanced Algebra class is studying fractional exponents and learning how to find the roots of a given number. Mr. Sharraz will also student teach in the Advanced Algebra class.

Chemistry classes have been studying families of elements and their reactions to tests. Second hour Chemistry class has another student teacher this semester, Mr. Sharrar from the U. of M.

The choir, under the leadership of Mr. Sanborn, has been having the students do a lot of sight reading, and they also have been working with contemporary music this semester. The Chellettes, with Shari Frisinger, have been practicing once a week for upcoming engagements.

Members of the Journalism club have been given three-week permanent assignments which will be used for the Bulldog. A discussion was held on having a dance later in the year but was tabled and will be brought up again in the near future. A dinner has been set for Monday, Mar. 13. A fun night will follow until 9:00 in the gym.

At a senior class meeting Wednesday, Feb. 22, the class decided how many points should be given to the students who have come here in the past two years. The class also listed two faculty members' names whom they would like the annual dedicated. Chapmans for the senior trip were also voted on. The ballots have not yet been counted.

Chelsea High's branch of the Hi-Y is sending three members to the Older Boys' Hi-Y conference entitled, "Our Responsibility in Today's World" to be held in Detroit, Mar. 4-5. The three boys, David Fraser, Duke Weiss, and Stanley Hand, are Juniors at CHS. The conference meetings will take place at Faith Community church. The boys are scheduled to stay overnight at private homes of Detroit Hi-Y members.

Comet is one of the least expensive compacts you can own! These are the facts. Comet costs less when you buy—up to \$331 below other compacts. Comet gives you high resale value—up to \$46 more than other compacts. That's why it pays to own a Comet. But that's not all. Comet has fine-car features, too. It's the first family-size compact. Longer wheelbase—up to 7.5' longer than other compacts—means more Comet room, not only in pleasurable comfort-for-six seating but in over 28 cu. ft. of trunk space—up to twice as much as other compacts.

Comet's big-car ride is the comfort difference. Extra length also contributes to Comet's road-leveling ride. The refined new suspension and easier-action springs give Comet a better ride than many standard cars. And you'll find Comet turns, parks and handles almost as easily as a tricycle!

Talk about economy and you're talking Comet. To save on gas, choose either of Comet's two thrifty engines. You change Comet oil only every 4,000 miles, get 10% better tire mileage, save on licenses and insurance. And Comet's super-enamel finish won't cost you a cent for waxing—never comes it!

Both two- and four-door sedans and wagons. Take your pick from sedans or wagons. Comet wagons have up to 30% more cargo space behind the front seat than most other compacts, plus a convenient roll-down rear window.

Lasting quality, even where it doesn't show. Comet is quality, inside and out. Unit-built to keep quiet, stay sturdy and durable. Comet also has rustproofed vital underbody parts, complete soundproofing and an aluminum muffler.
