Willow Run Wins Holiday Cage Tourney

Flyers Wear Milan Out To Take Championship Trophy in 75-57 Win

In a real fine ball game Wednesday evening Willow Run was strong in the final quarter to walk away with top honors in the sixth annual Chelsea Holiday Basketball Tournament. Final score was Willow Run 75, Milan 57. Milan led by eight points at half-time but simply "ran out of gas" and the Flyers zoomed out to a comfortable win. Milan hit for 20 points and Stovall gathered 26 in the championship final game for the Flyers.

Stockbridge, champions of the Tourney for the past two years, managed to take a close victory from Leslie, 56-51, to wrap up consolation honors.

Chelsea won their final game from Monroe Jefferson in a easy 77-48 romp but committed 30 turn-overs on mistakes which would have proved fatal against a stronger opponent. In the other Wednesday evening game Jackson St. Mary won over East Jackson, 77-67.

Coach Terry Pokela, who was in charge of the tournament, reported that everything ran smoothly in the entire tournament with attendance figures being about the same as last year—good, but not large.

Chelsea's next game will be at Dexter on Friday evening, Jan. 1, 8 in what always proves to be a hard-fought game when the two rivals meet.

SENIOR GIRL SCOUTS of Troop 77 appear happy to be doing their good deed for the March of Dimes. Shown at the home of the Wilber Wordens' stuffing and addressing envelopes for the committee to send out in January are, left to right: Julie Eisenman, Diane Worden, Sharon Sutter, Kathy Sutter, Lee Spaulding, Penny Eisenbeiser and Mrs. Leslie Eisenbeiser. Barb Arnett, Carolyn Wilkerson, Ray Worden and Wilber Worden are also working on the project but are not in the picture.

Kiwanis Club College Youth Participate in Sponsoring Diplomats

Dexter Kiwanians are sponsoring basketball's internationally famous Harlem Diplomats at Dexter High school gym at 7:30 p.m. on Jan. 11.

Our own Dexter Leaguers will play at 6:30 p.m. under the direction of Athletic Director—Tom Wadsworth. The Diplomats, who are rapidly becoming world renowned, recently played in Mexico, Cuba, Jamaica, Nassau, Brazil and Venezuela where they were labelled the "funniest team ever".

The team features two of basketball's great comedians, Dick Harlow and Gussie. Also there is a bright new sensation dribbler and ball handler, Pete Russell, Jim Scott, standing almost 7 feet, is the tallest player with the team.

The Diplomats will present basketball's most spectacular magic circle. Parts of this unique circle are done in darkness; only visible objects are the hands, shoes and a glowing basketball. The tricky ball handling will precede the game.

The team is believed to have the greatest group of razzle-dazzle ball handlers ever assembled. While playing before 200,000 fans last season, the Diplomats compiled a 173 to 4 win and loss record. At present the team is undefeated. The game promises to be one of fine basketball mixed with delightful comedy.

The game is sponsored by the Dexter Kiwanis Club for the benefit of local community programs. Tickets are available from all Dexter Kiwanis members.

Personal Notes

Mr. and Mrs. Robert Benedict, Jr. and family, and Dr. and Mrs. Clare Warren and their family, spent Christmas week-end in the thumb area of Michigan at the home of their parents Rev. and Mrs. Robert Benedict in Akron, Ohio. Rita Kyte returned to her home at 3044 W. Middle St., Saturday after being a patient at St. Joseph's Hospital for the past two weeks.

Christmas day dinner guests of Mrs. Inez Rank were her son and his family, Mr. and Mrs. Donald Rank and son, David, of Plymouth; her sister and brother-in-law, Mr. and Mrs. John Hamp of Niles; and her granddaughter, Laurie, and their daughter, Gwili Shaw, of Kansas City, Kansas. Also present were Mr. and Mrs. Charles Bidwell of Grass Lake.

Coffee-punch hour afterwards was prepared by Mrs. Livingston with help by Mrs. Dyson. Serving were Laura Weir and Bev Windell.

The sermon by Judy Livingston and Laura Weir and their talks were called "Views from the Camps." Miss Livingston spoke on "Involvement" and pointed out how necessary it is in today's world; that we're involved because we are born. Jesus pointed out the ultimate involvement, offering your life out of love for your brother man. Miss Weir spoke on "Pretense" and showed how the masks we wear are not appropriate anywhere, but especially in church. She pointed out three good reasons that Christians will try to "be themselves" . . . God wants us to be honest and open and be our best selves . . . Others are misled by a false face and might be

Agriculture Classes Set For January

Adult education classes in agriculture are being held again this year, as announced by Gary Jackson, Chelsea agriculture teacher. These classes are sponsored by the Advisory Council for Agriculture Education and are open to all Washtenaw county residents.

Classes will be held Monday nights at 8 p.m. in the Chelsea High school cafeteria starting Monday, Jan. 11. They will run for 11 weeks and deal with such topics as record keeping, farm law, government programs and credit.

Interested Chelsea area residents should get their \$5.00 enrollment fee to Mr. Jackson or any Council member as soon as possible. Enrollment will be on a "first come, first served basis."

Babson Believes Chances About Even That Red China Will Win UN Seat

By Roger W. Babson

Promising the people of the United States "peace and prosperity," President Johnson was carried to victory last November on an overwhelming landslide. By nature he is more likely to compromise than to contest. Also, he is deeply sincere in his desire to accelerate the economic growth of this country and to wipe out poverty.

But we must not forget that both Woodrow Wilson and Franklin D. Roosevelt promised to keep America out of "foreign" wars. And already the British financial crisis has forced the Federal Reserve to raise its discount rate to 4 percent despite President Johnson's dislike of higher money rates. Therefore, as we look forward to 1965 from our more than 60 years of experience in forecasting and analysis, we emphasize once again that the great rolling tides of economic fundamentals and social currents are likely to have a greater impact on what is to unfold than will the campaign promises of successful candidates.

1. There will be no war with Russia during 1965. The Russian people want some of the "peace and prosperity" that President Johnson promised our citizens.

2. Watch Russia's satellites in 1965. They will try to make a deal with the new Moscow Administration which will involve more trade and prosperity and less politics. Following Khrushchev's fall, the satellites will aim for more consumer goods for their people rather than for more personal freedom.

3. Russia will not bring the Red issue to a crisis in 1965. The tendency will be to soft-pedal talk about Berlin until Red China's course of action becomes clearer.

4. Red China made the biggest news in 1964 by exploding a nuclear bomb. In 1965 Communism's greatest effort will be to gain admission to the United Nations. World leaders cannot ignore this awakening giant with its 700,000,000 people. We believe there is a 50-50 chance that the Red Dragon will get into the UN in 1965.

5. However, Communist China will not risk all-out war in the year ahead. She has neither a sufficient stockpile of nuclear bombs nor adequate means of delivering them in quantity. Red China's biggest use of her new-found nuclear power will be to "blackmail" the West.

6. Regardless of what happens in the next few months, we look for President Johnson to compromise on the situation in South Vietnam sometime during 1965 and move toward "neutralization."

7. Conditions in Cuba are not likely to change radically in 1965. The Russians will do nothing to handicap Castro; neither will they do much to help him. Thus Castro will be unable to deliver the economic help he has been promising other Latin American nations. And with world sugar prices down, the Cuban chieftain will try to make a deal with the United States before the end of 1965.

8. Cutbacks in defense spending will not result in radical unemployment in the U.S. in 1965. Companies and regions seriously affected by the loss of "conventional" defense work will shift to meet the rapid changes due in our system of defense during the next few years.

9. Our Defense Department, under Secretary McNamara's leadership, will increase efforts in 1965 to produce new super-weapons. It is realized there would be no Maginot or other "line" to protect any country in future wars. Control of space will be the new aim in defense.

10. Intensified emphasis on new space-age defenses will provide more jobs in 1965 than the closing down of obsolete installations will eliminate.

11. The stock market will continue to be a paradox in 1965. The Dow-Jones Industrial Average may push to 1000 before any real turn-around takes place. Many stocks, however, including numbers of issues oriented to conventional warfare and defense, will still do little or nothing. Look for greater selectivity in stocks next year.

12. 1965 may be an advantageous time for investors to put very small sums of money into "space" stocks. These are outright speculations, but so were the ventures of Columbus, Magellan, and other explorers of the past. If there were no risk-takers there would be no progress. Such "investments," however, should be well diversified and limited to amounts you would be prepared to lose.

13. Cash dividend payments should increase in 1965 . . . although at a much slower rate than has been the case this year.

14. No assessment of finances in the United States can be made without carefully weighing Britain's plight. We are convinced that unless the Labor Government adopts strict austerity measures, the pound will fall before the end of 1965.

15. Until the fate of the pound is resolved, short-term interest rates must be kept high to prevent foreigners from withdrawing their deposits held here. Also, domestic demand for credit promises to remain strong. Hence, interest rates will edge upward during 1965.

16. There may be some erosion in bond prices as interest rates move upward, but there should be no massive decline unless a real credit crisis develops. Investors making new purchases should do well, however, to stick now to bonds maturing within five years. Some during 1965 longer bonds may become good buys.

17. Inflation fears may rise in 1965, but we do not look for runaway prices next year as productive capacity is too large.

18. More wage hikes are certain in 1965. Liberal concessions won in the auto and other industries in 1964, paying tempting targets for the steel unions and secondary labor groups to shoot at in 1965.

19. To the extent — and this could be considerable — that higher costs cannot be compensated for by price hikes and greater efficiency, profit margins will suffer in 1965.

20. Indeed, despite the projected 2 percent cut in the corporate income tax rate next year, we look for only a very slight overall rise in corporate profits . . . nothing to

MRS. HELEN FAIRMAN

Home Extension Agent Named For Washtenaw

Mrs. Helen Fairman has been appointed Washtenaw County Extension Agent, Home Economics, the position formerly held by Mrs. Alice Epple.

Mrs. Fairman received her BS degree from Albion College in 1945, taught home economics for five years in Lainesburg, Romulus and Ann Arbor High school and did some elementary teaching in Wayne.

Helen, her husband, Ben, and five children, Margaret 15, Paul 12, Lori 10, Becky 8 and Robert 7 reside at 212 South Glendale, Ann Arbor. She will assume her position with the Co-operative Extension Service Jan. 1.

Fred Bollinger entertained his family at his home on Washington St. Christmas day. Those present were Mr. and Mrs. Rudolph Bollinger and daughter, Janet, Mr. and Mrs. Henry Buss and twins, Karen and Kay, and son, Melvin. Mr. and Mrs. Waldo Horning; Mrs. Lambert Meynans and daughters, Barbara and Sharon; Mr. and Mrs. David Grossman and daughter, Tracy of Saline; Mr. and Mrs. Duane Bollinger and daughter, Becky; Mr. and Mrs. Irvin Knickerbocker and their daughter, Tonya.

tempted to become hypocrites also . . . and we ourselves are most hurt by our pretence and may never find out who we really are. Jesus spoke against hypocrisy and said false worship does harm rather than good.

The Rev. Livingston was able to sit in the pew on this Sunday and worship with the congregation. However, he had spent many hours last week preparing parts, talking and planning and rehearsing with the young people. There were many good comments on how worshipful and inspiring it was.

Rep. T. Sharp Forming District Citizen Committee

George Anderson of Saline has been appointed chairman of a 5th district Citizen's Committee via periodic newsletters. He also will inform Sharp of the committee's reaction to legislation.

The creation of the new district, which includes parts of Lenawee and Washtenaw counties including Chelsea, Dexter, Maumet and Saline, necessitates such a committee in Sharp's opinion. Sharp says he feels that a cross-section of the district composed of professional and non-professional people co-ordinated by Anderson would best be able to make the district's requirements and desires known.

Sharp chose Anderson as chairman because of his activity in civic affairs.

Anderson received the Ford Motor Community Service Award for 1964, the Outstanding Young Man of the Year JCC Award, and was one of eight Ford employees written up in "Michigan Challenge" (official Michigan Chamber of Commerce magazine) in August, 1964. Anderson also served on the Saline Area Recreation Commission, the City Tax Board of Review and the Saline Area Development Corp. He was a member of Citizens for George Meader and has been vice-chairman of the Saline area Republican Commission.

Mr. and Mrs. Ivan Gutter and family of Kalamazoo spent Christmas week-end with her mother, Mrs. Mildred Jarvis.

the Chelsea Holiday Tournament went into final play last night. Willow Run and Milan were going for first place, Stockbridge and Leslie were vying for the consolation trophy, while losers East Jackson and Jackson St. Mary and Monroe Jefferson were against each other.

Trophy will be given this year for the first time to the tournament runner-up in the Willow Run-Milan game, as well as to winners.

Chelsea Coach Terry Pokela summed up the games through the night:

MONDAY
Stockbridge 48, East Jackson 59
Dick Owen, 12 points for Stockbridge, while Terry Van Antwerp 17, Bob Tyulicki, 12 points for Jackson.

Stockbridge had a poor night, shooting and no rebounds. Jackson had more size and rolled the boards.

Willow Run 81, Monroe Jefferson 48
Dishman, 22, Lynn Stovall, 17, Tim Thomas 13 points for Willow Run, while Pete Penza, 22, and Burgess, 14, for Monroe.

Pressing defense and control rebounding gave Willow Run a huge over Jefferson. Good thing by Dishman, Stovall and was also.

Jackson St. Mary 88
Tom Wojcik, 20, Tom Steele, Charles Schmunk, 10 points for Chelsea, while Terry Conklin, Jerry Stark, 18, Joe Filip, 16 St. Mary.

Chelsea held a 20-8 first quarter but blew it in the second quarter. Dave Clark and Tom Wojcik were the stars.

Chelsea in the first quarter with 6 and 8 points, respectively.

The second quarter Chelsea was cold at shooting and made errors. St. Mary capitalized on the opportunities to go ahead at half-time, 38-30.

Third quarter was even with St. Mary maintaining their small Tom Steele, Charles Schmunk and Tom Wojcik each had five in that quarter for Chelsea. Fourth quarter was all St. Mary as they scored 31 points to

TUESDAY
Leslie 72, Chelsea 67
Lou Cooper had 18, Phil Brown 18, Tom Connell, 14 for Leslie while Tom Wojcik gathered 14, Dave Clark, 13, Gary Dresch, 12 for Chelsea.

A dead Chelsea team could not overcome a hot-shooting Leslie squad which hit on 45 percent of its shots from the floor.

Leslie dominated the first half, leading at half-time, 42-36. Chelsea pulled into the lead at the third quarter—at one time holding a seven-point edge, only to see it whither away in the fourth quarter. A poor defense set up by Chelsea allowed Leslie to score easy baskets when they needed them. Also, the Bulldogs were very poor on rebounding—on two best rebounders combined for only four rebounds in the entire game.

Milan 79, St. Mary 53
Rex Plasters totaled 30 points and John Thompson, 12 for Milan, while Joe Filip had 15 and Jerry Stark 13 for St. Mary.

Very much alive Milan Big Red team stunned the tournament crowd with an easy victory over St. Mary. Superior rebounding and general floor play was the difference. St. Mary could not get any second shots, which they normally capitalize on. A magnificent game by Rex Plasters of Milan on shooting and rebounding cannot be over-stated.

CARD OF THANKS

I wish to extend my sincere thanks to the OES, Past Matrons and the Cythereans for a plant and fruit, the church for a plant, the Rev. R.A.J. Livingston for his call; also many thanks to my relatives, friends, and neighbors for their many gifts, remembrances, and acts of kindness.

Mrs. May Luick.

IN MEMORIAM

In loving memory of our mother and grandmother, Emma K. Young, who passed away ten years ago Jan. 2, 1955. She is sadly missed by her children and grandchildren.

CARD OF THANKS

To each and every person, group and organization we extend deepest gratitude for the holiday remembrances given to the patients and staff members of Colonial Manor Nursing Home. Very special thanks to Miss Nina Greening for her gifts to us. May we, in our humbleness extend to one and all our wish for a very Happy, healthy and prosperous New Year!

Colonial Manor Nursing Home
Mrs. Nellie Flood.

CARD OF THANKS

We wish to extend our heartfelt thanks and appreciation for the many acts of kindness and messages of sympathy received from our kind friends and neighbors during our recent bereavement. We especially wish to thank the ladies of the church circle for their help, the Class of '62 for the floral arrangement, and the Rev. Paul Schnake and Rev. P. H. Grabowski for the help and comfort they gave us.

Mr. and Mrs. Stanley Hand and John

Forecast: Prosperity

(Continued from page one)

compare with this year's huge 20 percent expansion.

21. Labor disputes will be numerous in 1966. Many labor pacts can and will be re-opened for wage adjustments during the coming year.

22. Employment will continue favorable in 1966, but additions to rolls will be most noticeable in fields such as teaching, personal services, and government work.

23. Little real progress will be apparent in the drive to reduce unemployment. We are only now just "touching off" the big new explosion in growth of the labor force.

24. Due to rising labor costs, look for business to turn even more to automation and labor-saving devices in 1966. Pressures on profit margins will spur cost-cutting and efforts to raise productivity.

25. Because of rising expenses and overwhelming competition, a further increase in failures will be seen in 1966.

26. As a result of automobile strikes in late 1964 and the fear of a possible steel shutdown in mid-1965, we look for a bulge in business volume during the first half of 1966.

27. In a nutshell, business should make new all-time highs in early 1966; after midyear, a tapering-

off appears likely. However, 1966 will set another new record.

28. Following the strike interruptions of late 1964, personal income should move smartly ahead to new highs in the first half of 1965 . . . although the rate of advance will slow after midyear.

29. This projected rise in income will be beneficial to retail trade. And though buying in the second quarter may be dampened by heavy income-tax payments due Uncle Sam on April 15th as a result of under-withholding during 1964, the last half of the year will find retail trade in certain lines—such as furs and jewelry—spurred by President Johnson's promised excise-tax cuts.

30. The important automobile industry should pose another excellent sales year in 1966, but as the year advances we feel that gains will be harder to come by.

31. The powerful building and construction activities should prove a strong support to general business during 1966 . . . even though we foresee no marked improvement. Some gain in dollar volume will be largely due to higher costs. Apartment building has been overdone in some sections, and a breathing spell is logical. One- and two-family houses could post a small increase, but the big market for new housing is still some years distant.

32. Over-extension of credit and over-ambitious operators have put the real estate market in a bind in many large metropolitan areas. We strongly advise caution in making new commitments, especially in commercial real estate where a thin equity exists.

33. However, even if scarcer than in recent years, there will still be opportunities for selective purchases of real estate in 1966. Each area is a law unto itself. Know your locality and study the direction of growth trends. Farm land bought in the path of expanding suburbs may be a better long-term buy in 1966 than stocks.

34. Non-farm real estate foreclosures will continue in an up-trend during 1966. This should be particularly true in regions where overbuilding of speculative homes has taken place and where cut-backs in defense spending cause local distress.

35. Productive farm land that lends itself to mechanization will not decline in price in 1966. Rising use of farm equipment makes it necessary for operators to cultivate ever-larger spreads. This trend is maintaining the demand for fertile acreage in the farm belt.

36. As 1965 begins, prices for agricultural products are generally well above their lows for 1964. Unless severe widespread drought intervenes, we look for no more than seasonal strength in agricultural prices during the year ahead. In a word, we do not see any near-term important uplifting forces on the farm scene.

37. The situation in industrial commodity prices is somewhat different. With business heading higher in the first half and with labor costs scaling new peaks, industrial commodity prices, with some exceptions, will push upward at least during the coming six months.

38. Living costs will also rise to new all-time heights. And, since President Johnson is committed to getting Medicare passed at this session of Congress, look for hospital, nursing, and doctors fees to spike before the end of 1965.

39. Even with federal income taxes already slated to drop a notch next year and with prospects excellent that excise taxes will be cut, rejoicing should be restrained by the knowledge that local taxes will take another upswing and social security levies will rise again . . . even faster after the 80th Congress enacts Medicare.

40. Climbing capital goods outlays will be one of the brightest spots for 1966. Gains over this year could run as high as 10 percent.

41. Further progress in United States exports will be harder to achieve in the coming year. Certainly, if the steel labor outlook appears bad by mid-spring, heavy imports of foreign steel may be resorted to by U. S. businessmen. This would result in a narrowing of our favorable trade balance and have a further adverse impact on the U. S. international balance of payments.

42. Although we are not forecasting runaway inflation for 1966, we do feel that attempts to keep money easy in this country, in the face of a world-wide trend toward tighter credit, will greatly increase the danger of a later inflationary blow-off. Conditions remind us of the late 1920's when the Federal Reserve here kept credit too cheap and plentiful to support the British pound. Hence the eventual collapse came from an even more dangerous level.

43. It is unlikely that the United States will raise the price of gold during 1966. However, we may well see the calling of a monetary conference to deal with the weakened British financial situation and to attempt greater liquidity for world currencies generally.

44. As far as gold stocks are concerned, they are already high and should only be held in 1966 as insurance against the long-range trend toward higher world prices for gold.

45. The silver coinage situation will become more acute as the year progresses. The 89th Congress will be forced to consider a

Mrs. Patrick Farrell

Elizabeth Anne Berry Becomes Bride of Patrick Farrell in Detroit

Saturday at eleven o'clock, Elizabeth Anne Berry exchanged wedding vows and rings with Patrick F. Farrell in Our Lady of Loretto Church, Detroit. The Rev. Father Clair J. Berry, cousin of the bride, solemnized the marriage and officiated at the nuptial High Mass.

Mr. and Mrs. Vincent Berry, 13820 Aberdeen Dr., North Lake, are the parents of the bride. The bridegroom is the son of Francis Farrell of 6384 Walsh Rd., Dexter, and the late Mrs. Farrell.

The bride's white-pearl de-soie gown of ballroom length was made by Miss Berry. The contoured bodice featured elbow-length sleeves of Italian lace. The bell-shaped skirt was accented with soft pleats at the waistline and a large bow at the back. The lace motif was repeated in her hairpiece of a pillbox topped by a veil. She carried her grandmother's prayer book with moth orchids and white streamers.

As her sister's matron of honor, Mrs. William McGinn, 14240 N. Territorial Rd., wore a ballerina length gown of turquoise chiffon over taffeta and a matching head dress, carry a white muff. Mary Beth McGinn, niece of the bride, was her aunt's flower girl.

Assisting as best man was Richard Dunlavy of Dexter. Altar boys were Dennis and Michael McGinn, nephews of the bride.

After a dinner at Topink's Country Inn, Detroit, the newlyweds departed for a honeymoon in northern Michigan.

The new Mrs. Farrell is a teacher at McGinn school, Southgate out.

Clarence Prestons Honored Sunday on 50th Anniversary

Mr. and Mrs. Clarence N. Preston were honored on the occasion of their 50th wedding anniversary with an open house from 2 to 6 p.m. Sunday at the Ann Arbor VFW home. Approximately 100 guests were present. Among the guests were a grandson, Robert Sears, from Goose Bay, Labrador; Mr. Preston's sister, Mrs. Pearl Roepeke of Alma; Howard Wilson of Rochester, and Mrs. Joseph Wondt of St. Clair Shores, all present at the Preston's wedding. Other guests present came from Detroit, Lake Orion, Brighton, Grass Lake, and the Ann Arbor-Dexter-Chelsea area.

Mr. and Mrs. Preston were married Dec. 23, 1914, at the home of the bride's parents in Highland township. Mr. Preston, 68, is the former Margaret Wilson. The late Rev. G. A. Benecok performed the wedding ceremony.

Mr. and Mrs. Preston have three children including L. W. Preston, Mrs. Carl Zwaan, and Robert Preston, all of Ann Arbor. They have seven grandchildren and six great-grandchildren.

The Prestons have lived in the Ann Arbor area for 40 years. Mr. Preston, 72, is semi-retired and works part-time at the Washtenaw Farm Bureau.

POTTED PLANTS

Regulated light, heat and water is the key to longer life for potted plants from the florist, say U. S. Department of Agriculture horticulturists. Florist plants are grown in greenhouses. So, for longer plant life, it's best to continue these greenhouse conditions, say the experts, once the plant is in your home.

What Is A Cop?

What is a cop? Cops are human (believe it or not) just like the rest of us. They come in both sexes, but mostly males. They also come in various sizes. This sometimes depends on whether you are looking for one or trying to hide something. However, they are mostly big.

Cops are found everywhere. On land, on the sea, in the air, on horses, in cars and sometimes in your hair. In spite of the fact that "you can't find one when you want one" they are usually there when it counts most. The best way to get one is to pick up your phone.

Cops deliver babies, lectures and bad news. They are required to have the wisdom of Solomon, the disposition of a lamb, and muscles of steel and are often accused of having a heart to match. He's the one who rings your doorbell, swallows hard and announces the passing of a loved one; and then spends the rest of the day wondering why he ever took such a crummy job.

On TV a cop is an oaf who couldn't find a bull fiddle in a telephone booth. In real life he's expected to find a little boy "about so high" in a crowd of half a million people. In fiction he gets help from private eyes, reporters and "who dun it" fans. In real life mostly all he gets from the public is "I didn't see nuttin'."

When he serves a summons he's a monster. If he lets you go he's a doll. To little kids he's either a friend or a bogeyman, depending on how the parents feel about it. He works "around the clock," split shifts, on Sundays and holidays it always kills him when some joker says, "Hey, tomorrow is election day, I'm off, let's go fishing." (That's the day he works 20 hours).

A cop is like a little girl who when she was good was very, very good and when she was bad she was horrid. When a cop is good he's getting paid for it. When he makes a mistake he's a grifter and that goes for the rest of them, too. When he shoots a stick-up man he's a hero except when the stick-up man is only a kid; "anybody could've seen that."

Lots of them have homes, some of them covered with ivy, but most of them are covered with mortgages. If he drives a big car he's a chiseler, a little car, "Who's he kidding?" His credit is good; this is very helpful because his salary isn't. Cops raise lots of kids—most of them belong to other people.

A cop sees more misery, bloodshed, trouble and surprises than the average person. Like the postman, cops must be out in all

kinds of weather. His uniform changes with the climate, but his outlook on life remains about the same; mostly a blank but hoping for a better world. Cops like days off, vacations and coffee. They don't like auto horns, family fights, and anonymous letter writers. They have unions, but they can't strike. They must be impartial, courteous and always remember the slogan "at your service." This sometimes is hard, especially when a character reminds him "I'm a taxpayer, I pay your salary."

Cops get medals for saving lives, stopping runaway horses, and shooting it out with bandits (once in a while his widow gets the medal). But sometimes the most rewarding moment comes after some small kindness to an elderly person, he feels a warm hand clasp, looks into grateful eyes and hears, "Thank you and God bless you, son."

for Stockbridge; Bob Burgess, 25 for Jefferson.

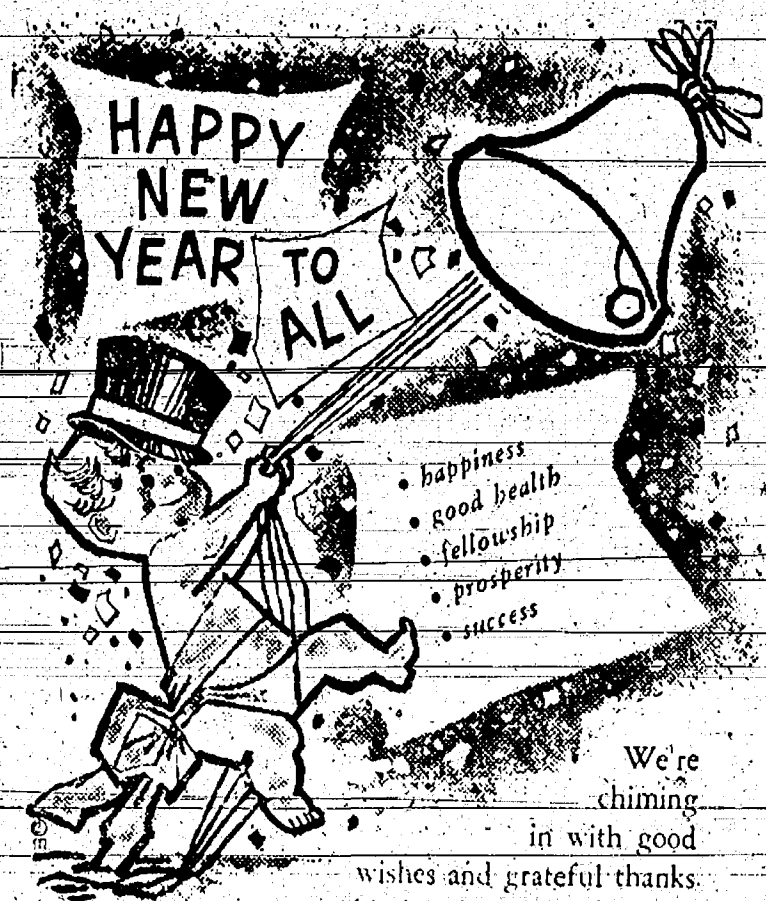

Stockbridge completely dominated this game with their fine shooting and hustle. Stockbridge led at half-time, 35-21. Everbody played for Stockbridge as Coach Duane Clark cleaned his bench in the second half.

Willow Run 90, East Jackson 63.

Al Dishman, 25; Lynn Stovall, 24, and Tim Thomas, 14 for Willow Run; Terry Van Antwerp, 20, and Bob Tylutki, 10 for East Jackson.

Willow Run dominated this game with their pressing defense and superior rebounding. East Jackson looked like they might give Willow Run a good fight in the early stages of the first quarter, but they collapsed and Willow Run ran to a 26-13 lead at the end of the quarter. Fine shooting by Al Dishman and Lynn Stovall of Willow Run was enough to keep East Jackson and Jackson St. Mary and gap.

Christmas day guests of Mrs. Walter Vicary and Mrs. Annabelle Woolley were Mr. and Mrs. Richard Vicary and daughter, Linda, of White Pigeon, Mrs. Mabel Wolley of Manchester, and Mr. and Mrs. Fremont Boyer and son, David. Mr. and Mrs. Vicary and daughter were overnight guests of his mother and sister. In the afternoon Mrs. Walter Vicary, Mr. and Mrs. Richard Vicary and daughter, Linda, Mrs. Mabel Woolley and Mrs. Annabelle Woolley called on Walter Vicary at Cedar Knoll Rest Home.

GOP PARTY CONFERENCE
House Republican Leader Charles A. Halleck of Indiana has cleared the way for an early party conference to discuss changes in leadership procedures—if not in leadership personnel. The meeting had been set for January 4, the day the new Congress convenes. Halleck was quoted as saying that if enough members requested an earlier meeting it could be arranged.

The Chief of Police says: "You don't have to be a scientist to realize the value of THIS formula: One ounce of pressure for every inch of blade-length. It refers to the pressure your windshield wipers should exert against the windshield to keep it clear of slush and snow in the wintertime. One ounce of pressure for every inch of blade-length. Have you tested YOUR windshield wipers lately?"

THE NATIONAL OUTLOOK

By GEORGE HAGEDORN

★ Current Events in Britain Point to Crisis ★

It is surely platitudinous to point out that an impairment of confidence can have damaging effects on the performance of a nation's economy. Current events in Britain, however, give some insights into how the process works. A deterioration of confidence does not ordinarily come about without cause. Usually it reflects the recognition of underlying economic difficulties, which have persisted for some time. When the impression becomes widespread that the political authorities will

not take action to solve these problems, and that they will probably take a course that will make the problems worse, the crisis in confidence is likely to burst forth suddenly and develop quickly.

Lag in Efficiency. In fairness to the Labor Government it should be pointed out that the basic cause of Britain's difficulties lies in conditions antedating Labor's assumption of power. The British simply haven't been improving the productive efficiency of their economy at the same rate as the other leading industrial nations.

But the British working people want the good things of life just as much as their counterparts in other countries. Their wage rates have been trending upward and politicians in power haven't dared to take economic action that would slow down the rise. As a result, imports have risen faster than the exports that Britain must sell to pay for them.

The present crisis is due, as much to the ineptitude of the Labor Government as to its ideology. At the very start it announced its intention of nationalizing the steel and transport industries. It also proposed higher taxes on business, and a new tax on capital gains to pay for expanded welfare programs. These proposals could hardly be interpreted as likely to improve efficiency or reduce the cost of production.

Ineffective Moves. The Labor Government at first tried to meet the immediate problem of the balance of payments deficit through a 14 percent surcharge on imports. It thereby irritated the foreign governments and business concerns with which Britain deals. The surcharge seems, in any case, to have been ineffective and the figures for November showed a continuing large trade deficit.

The rise in the bank rate was delayed and so poorly timed as to suggest that it was an act of desperation. It failed to draw into Britain the flood of funds that was once considered the automatic effect of a high bank rate. The reason was simple—it is not very attractive to keep balances in Britain, no matter how high the interest rate may be, if you anticipate the possibility of a devaluation of the pound.

The assemblage of a \$3 billion pool of foreign funds did give reassurances of immediate protection for the pound. But the very magnitude of the sum revealed how serious the problem was. Now the British have had to defer a scheduled \$140 million loan repayment to the U.S., adding that much to our balance of payments deficit.

The Bank of England has had to step in to support the price of its own government's securities. The government is of course supporting the value of the pound in foreign exchange markets. But forward sterling is at a sizable discount, reflecting the fear of future devaluation.

We still don't know how it will all turn out. One moral of the story, as it appears so far, is this: a balance of payments deficit and a rise in domestic costs can be tolerated for an extended period without provoking a crisis. But when the crisis does break, events are likely to move very fast.

"It's a fine feeling when your car engine starts in a winter cold snap," observes the Police Chief, "and this goes double when your tires dig into snow and your car moves out without any nonsense like spinning wheels and getting stuck." This double-good feeling comes regularly to car owners who keep their engines in tune and their tire chains handy, he said.

SCIENCE TOPICS

★ Science Has Its Lighter Moments ★

CALCULATIONS by a West German chemist illuminated a recent meeting of the American Chemical Society. If his theory is correct, electric light bulbs three times as bright as those now in use may become a reality. Proper introduction of a trace of fluorine gas into light bulbs makes them burn brighter, cleaner and more efficiently, the scientist's experiments indicate.

VORACIOUS INSECTS will be frightened into curbing their ap-

petites if electronic "scarecrows" being tested by government researchers are successful. One device emits high-pitched screeches like those made by bats when they hunt nightflying insects and seems to frighten away boll-worm moths. Complaints about neck-pains can be a pain in the neck to neurosurgeons. At such a Cleveland University that such complaints, with the exception of those stemming from accidents such as auto-rear-end collisions, are a challenge because in addition to conventional problems

they can be either a symptom of tumors or infections, or the root of a psychiatric illness. The University says each case can be a puzzler, making diagnosis a tricky proposition.

PORES SO SMALL, that a million of them would barely cover the period at the end of this sentence give industrial catalysts a fantastic surface area, says Girdler Catalysts, Louisville. The total surface area of a handful of some as-pirine-size catalysts weighing under an ounce would equal that of an entire football field. A NEW LINK in marine life has been discovered and may offer insight into the evolutionary process, say marine scientists. This link is a "population" of non-living organic and inorganic particles created on air bubbles in the sea. It provides food for the sea's tiniest creatures, the basic food supply for all higher marine life.

CLEFT LIPS may stem from "environmental shock" says a University of Michigan dental researcher. Mice with cleft lips and palates, occurring when facial or palatal tissues fail to merge properly, were born to females who were injected with large amounts of a hormone, creating environmental trauma.

TEEN-AGE GIRLS now account for 15 percent of all births in this country, say some medical experts. They warn that teen marriages are a serious problem because they are more likely to end in divorce.

ON REAPPORTIONMENT
The Supreme Court has indicated that it will keep hands off legislative reapportionment problems so long as state or lower federal courts can solve them in acceptable "one-man, one-vote" fashion. The approach to specific legislative reapportionment problems seems similar to that taken concerning the 1964 school desegregation decisions. That it be left up to the district courts as far as practicable.

Successful living, which few of us acquire, depends upon simple things.

ON CAPITOL HILL

By Congressman George Meader

This is my last newsletter as your congressman—at least for awhile.

Certified election statistics show I received 76,280 votes — 49.504 percent of the 154,088 votes cast—losing by a margin of 1,526 votes. Senator Goldwater lost Michigan by over a million votes. So far as I can find out, I have the dubious distinction of failing re-election by the smallest margin of any incumbent Republican congressman.

In concluding my congressional affairs, naturally the highlights of seven terms in Congress come to mind. My first reaction is one of gratitude for being permitted to serve the people of the United States and my congressional district as a policy-maker during important period of our national history.

A second thought is one of disappointment in not having been able to achieve more toward important goals. One of these was to modernize, strengthen and improve the Congress as the agency of the American people for originating, determining and declaring national policy.

The doctrine of executive privilege, used to conceal from Congress the activities and expenditures in the bureau and departments, was announced during this period and has been extended in scope from year to year. Policies and programs are conceived, developed and propagated increasingly in bureau and agencies, which then proceed to use all weapons at their command to pressure legislation through Congress.

The courts, through reapportionment decisions, have undertaken to order legislative bodies how they should exercise legislative powers. The Congress has failed to do those things necessary to protect and promote its prerogatives and regain its policy-making authority. It has not improved committee staffs in size or in quality. It has refused to modernize its proceedings. The House has rejected full utilization of new media, TV, radio and photography, to make the American people partners in the legislative process, all of which I have advocated.

As a graduate from the House of Representatives, my interest in government and the preservation of our unique, free political and economic institutions has not diminished. I do not yet know what role I will be given to play, but am looking forward to the change with interest and anticipation. Mrs. Meader and I are spending Christmas in Ann Arbor and then plan to go to Florida for some rest and recreation. Naturally, I've been giving a good deal of thought to what I will do from now on and have come to a final conclusion as yet except that I do not intend to take any action which would preclude my running for office again, if that seems wise at the time for making a decision. It is probable, however, that I will resume private practice of the law in Michigan.

Thanks for the privilege of serving as your congressman, and best wishes for an enjoyable Holiday Season and an interesting and successful 1966.

Sincerely,
George Meader.

Aliens Must List Address By Jan. 1

The Immigration and Nationality Act requires that aliens in the United States on Jan. 1, each year shall report their address during the month of January. This is required even though the alien has not changed his address since the last report.

This law does not apply to aliens here in diplomatic status nor to those who are accredited to the United Nations. The parent or legal guardian of alien children under 14 years of age must submit an address report for such alien.

Any alien who is temporarily absent from the United States on Jan. 1, must report his address within 10 days after his return. The alien may go to any United States Post Office or any Immigration and Naturalization Service Office and ask for the Address Report Card, Form I-55. When the alien has filled in all the items, he should sign the card and hand it to an employee in any Post Office or Immigration and Naturalization Office. Do not mail the card! Do not fold or tear the card! The alien must hand in the Address Report Card during the month of January each year.

In addition to his address an alien reports the date and place of entry into the United States, date and place of birth, nationality and, most important, his alien registration number.

An alien required to report his address who willfully or inexcusably fails to report is liable to be taken into custody and deported. Furthermore, such alien may be fined or imprisoned before deportation.

If the alien is a newly arrived immigrant who has not yet received his alien registration receipt, he should write "not received" in that space. If he has lost his receipt he should write "lost" in the space and immediately apply for a new receipt at the nearest office of the United States Immigration and Naturalization Service.

Next to making a speech, about the most useless thing is listening to one.

station was a 16-pointer, weighing 555 pounds dressed out. Its live weight was estimated at about 1,000 pounds. The animal, taken by Gary W. Leebach of Sanford, also had the biggest rack examined with a spread of 40 inches and a tip-to-tip beam measurement of 50 inches.

Shooting the biggest cow elk was Adrian L. Foreman of Grand Haven. His trophy tipped the Department's scales at 459 after being field dressed. It was believed to have weighed about 650 pounds on the hoof.

Everything considered, Department game men wouldn't be surprised now if about 90 percent of the season's nearly 300 hunters were successful when shooting closed at 7 p.m., Dec. 13. This would place the harvest at around 270 animals.

Kill during the first four days was well distributed in five crop-damage and food-shortage areas bounded by Gaylord, Indian River, Onaway, and Atlanta. The breakdown of kill by sexes was also fairly even, totaling 125 cows and 108 bulls.

Significant to game biologists is the fact that 88 percent of all 233 animals they examined at the Department's Pigeon River research station were less than six years old.

"This means that elk, like deer and other game, cannot be stockpiled," explains David H. Jenkins, acting chief of the Department's research and development section. "Our findings so far show that Michigan elk don't live very long even though animals in this present herd have never been legally hunted before. The large percentage of young animals also points to a rapidly increasing herd."

CUTBACK ON BASES
Robert McNamara, Secretary of Defense, said that the closing of the 96 military installations, great and small, will not diminish the fighting ability of the armed forces. Over the last four years 574 United States military bases have been closed around the world. The Pentagon said these bases "have outlived their usefulness for military mission."

Snappy remarks are often senseless utterances.

THE LBJ PROGRAM
Until recently, medical care for the aged under Social Security and the Appalachia bill were top contenders on President Johnson's legislative program. After a White House conference with the President, House Democratic Leader Carl Albert said there were several other bills being considered. Revision of the Immigration bill, increased unemployment compensation, and general aid to education bill below the college level.

YOUTH trained at Mackinac sets a new pace, purpose for America

Last summer 2400 youth from every section of the U.S. and Canada attended the Conference for Tomorrow's America at Mackinac Island, Michigan. They say to America:

Our aim is to build tomorrow's America and tomorrow's world as different from today's as a rocket is from a rowboat. By 1966 half the population of the U.S. will be under 25. The rest of the 20th Century is ours. What kind of America and what kind of a world do we want? We do not want the hypocrisy, corruption

and complacency which our parents' generation has accepted. We are not satisfied with more money, more comforts and conveniences. We want a great purpose for our lives and for our nation — more satisfying than materialism and more revolutionary than Communism. We want men and women great enough in heart, mind and muscle to match the marvels of our technology. We refuse to be a problem generation. We want to be remembered as the generation that dared not only to go faster and harder, higher in space, deeper in the ocean, but who banished hate, fear, greed, poverty, war and famine from the earth.

THE CONFERENCE FOR TOMORROW'S AMERICA EXPLODED FROM MACKINAC TO THE NATION

TODAY'S PAUL REVERES

A new generation of Americans has grasped the torch. Like modern Paul Reverses they are riding out across the land. There is an emerging revolution led by young rebels with a cause.

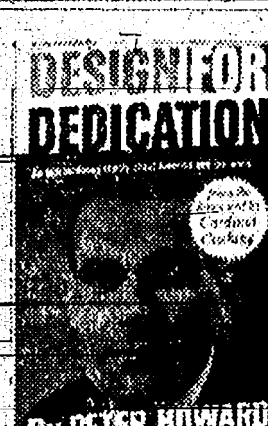

America's choice will be made, not by the President in the White House. It will be made by ordinary Americans in their millions.

Our aims are:

- To build homes in which families learn to live together.
- To demand schools and colleges which build faith and character as well as brains and skills.
- To produce films, plays, books which give a new purpose to America and mankind.
- To challenge promiscuous parents, cynical teachers, watered down religion and polluted politics.
- To make absolute honesty, purity, unselfishness and love the standards of America.
- To raise a force of young Americans more disciplined and revolutionary and more dedicated to building a world that works than any Communist, Fascist or other materialist.

The Colwell Brothers and Bob Quesnel (on the drums) are sweeping through West Virginia in a series of school assemblies and television appearances.

We asked ourselves

"What answer do we have for people who give in without a fight or thought in the face of Communist temptation, if we give in without a fight or thought to sex temptations, liquor temptations, hate temptations, or the first temptations.

We need to ask ourselves what image of America are we going to give mankind?

Is it the Hollywood image—sex and violence?

Is it the Pentagon image—reliance on hardware and bombs alone?

Is it to be the Madison Avenue image—you can tell a slick American anywhere but you cannot tell him much?

The CIA image—pulling secret strings in other countries, and sometimes the wrong strings.

The Wall Street image—trust in the mighty dollar?

The Mississippi image—violence, intolerance and hate?

These are the images the world sees today.

Or shall it be the image of Abraham Lincoln? A figure of justice, charity and honor lived out personally and nationally against a global background.

We all of us have something of Abe Lincoln within us. Something, perhaps, of Bobby Baker, too, with his love of sex, money, selfishness and personal position. Why don't we begin to pattern a great and united society by taking time at the start of each day to throw Bobby out and let in the eternal spirit of Abe which can yet give perspective and corrective to a perplexed generation?

Community College Trustee Candidates from Many Fields

The 38 candidates for Board of Trustees running in the Jan. 15 Community College special election represent a varied cross section of businesses and professions.

Dexter's candidate, Paul Rosel, a graduate of the University of Minnesota who took two years of education at a Community College, is Credit and Collections Manager for General Electric.

Manchester's candidate, Mrs. Elvira Vogel, a graduate of Iowa State College, was at one time supervisor in the personnel department of Marshall Field and Co.

Mrs. Florence Mayer of Chelsea is a former teacher and businesswoman. Allan Grossman, an attorney, is the candidate from Saline. Dr. Marcia L. Potter, a physician of Ypsilanti is among the candidates.

University of Michigan faculty members on the list are Eugene A. Glysson, an associate professor of civil engineering; Ralph Wenzel, chairman of the department of vocational education and practical arts; Lee E. Danielson, professor of industrial relations; and Wilford J. Eitman, professor of finance.

Five U-M staff members had filed. They are Kenneth L. Yound, assistant to the dean of the University Medical School; David Otto, a research assistant in the School of Public Health; Ewart W. Ardis, director of the

Series of Classes Slated To Start for Expectant Parents

A new series of classes for expectant parents, sponsored by the Visiting Nurses Association and the Washtenaw County Health Department, will begin at 7:30 p.m. Thursday, Jan. 7, in Basement Room 1 of the County Building.

The opening discussion will include a talk on pre-natal growth and the showing of a film, "Human Reproduction." Following an explanation of the anatomy and physiology of pregnancy, there will be a question and answer period.

The series will be conducted by Miss Donna Kirkbridge, public health nurse, and will continue for seven weeks. Registration fee is \$2.50 per couple. A special class for fathers is planned, and there will be a tour of the hospital and maternity wards.

'65 Feed Grain Program Provisions Listed By ASC

USDA has announced the major provisions of the voluntary 1965 Feed Grain Program, including the decision to keep total price-support levels for co-operators the same as for 1964. Within total price-support rates, loan levels were decreased with corresponding increases in payment rates. The diversion payment rate will be the same as for 1964.

Department officials said the 1965 program is designed to maintain participants incomes at least as high as current levels. They also stressed that the program will help maintain over-all feed grain income for producers at near current levels, or about a billion dollars a year higher than with previous feed grain programs.

Changes within the total price support rate were made to encourage greater participation in the program by farmers. Department officials noted the success of the program depends on the level of participation being sufficiently high to offset program costs by reduction in public investment in Government feed grain inventories. For the 1965 program, a larger proportion of price support will be in payment form with some reduction in the average loan rate for all three feed grains. The acreage substitution feature for wheat and feed grain acreage, which is new to the program for 1965, gives producers a more flexible range of cropping opportunities and income possibilities.

Participation in both the Wheat and Feed Grain Programs will bring more returns than non-participation, USDA officials said.

The following 1965 loan and price support payments (national averages) were announced for the 1965 Feed Grain Program. For comparison purposes the 1964 rates are also indicated:

	1965	1965	1965
Loan Support Total			
Rate Payment Support			

1965 1965 1965

Corn (per bu.) \$1.05 \$0.20 \$1.25

Barley (per bu.) 0.80 0.16 0.96

Grain Sorghum (per cwt.) 1.65 0.35 2.00

The greater reduction in the grain sorghum loan rate, which is offset by a higher payment rate, is needed to bring grain sorghum price-support loan values more in line with market prices of recent years.

Program participants, since they help cut Government costs by diverting acreage to conserving use and thus reducing production, not only can get price support loan and purchases, but also price support payments and acreage diversion payments.

Since yields have trended upward in recent years, the moving five-year average (1960-63), which is being used for the first time in 1965 generally will mean higher

DOOR SLAMS—GIRL HEARS

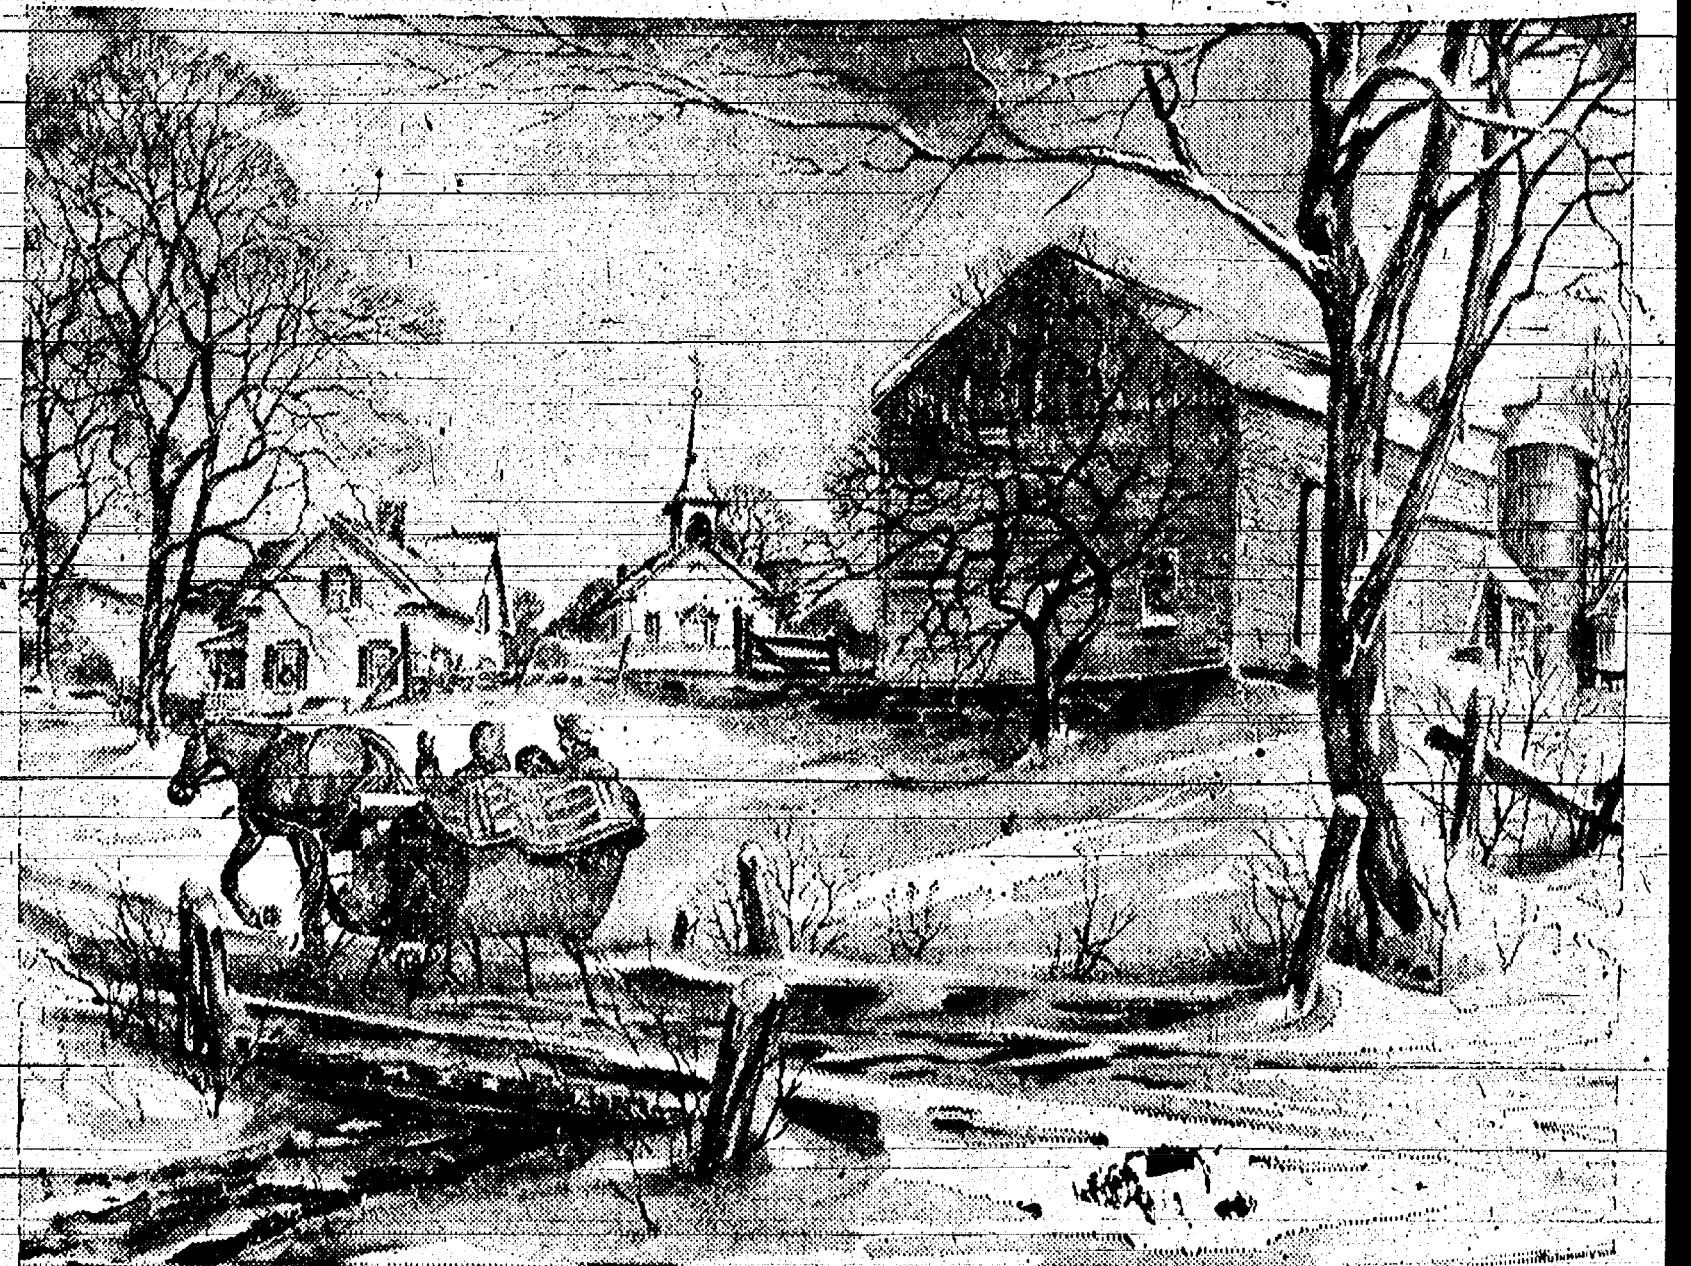

Lansing—Rubyanne Doll, 19-year-old high school senior, hasn't been able to hear since she lost her hearing after ear infections following mumps when she was five. Recently a car door was slammed nearby and she was conscious of hearing the conversation of the two youngsters with her. Doctors believe the slammed door created pressure which dislodged ear tissue.

RINGO'S TONSILS

London—The Beatles drummer, Ringo Starr, recently had his tonsils out. A devoted friend told him she wanted the tonsils for a keepsake. The nurse said there could be trouble. Ringo didn't want his tonsils out and teenagers might want to copy him and have their own removed.
