Wrestling Clinic Sessions Underway

Dexter High is once again hosting a Summer Wrestling Clinic at the high school gymnasium, with two three-hour sessions, one in the morning and another in the afternoon hours, according to Dreadnaught Wrestling Coach Al Ritt.

Boys from several schools in the area have signed up, and are attending the instruction and practice sessions.

Again this year, Dexter has been fortunate in enlisting the know-how and experience of Detroit Catholic Central Coach Mike Rodriguez, nationally famous personality and NCAA champion and Olympics star in the wrestling field.

Rodriguez is working with the young wrestlers on an individual basis, helping them learn the basics as well as assisting them to perfect their mat techniques. Young John Rodriguez is working with his father at the clinic this year.

Boys from Dreadnaught Country enrolled in the clinic include Rich Gilbertson, Mike Devine, Tim Mammel, Dan Krull, Dave Gibbs, Jim Tite, Pat Gregory, Kevin Drake, Dave Trapp, Jeff Aiken, Mike Klapperich, Dan Trapp, Bill Bernard, Tony Rettig, Randy Gregory, Pat O'Doherty and Jack Starzec. Tim Mattie and Dan Lavalli were scheduled to join the clinic on their return from Boys State late this week.

Chelsea boys who are participating this summer in the clinic include Steve Stebert, Glenn Musolf, Tom McKernan, Ken Schiller, Larry Jones, Steve Straub, Mike Robbins and Dale Robbins.

Plane Crash Kills 2 at Youngs Airport

A tragic plane crash at Youngs Field on Jackson Rd., not far from Dexter took the lives of two men Tuesday evening, shortly after 7 o'clock.

Herman Harold Rowe, Jr., 30, of Ann Arbor and Bruce Warren Barnett, 46, of Wayne, were reported as co-owners of the plane which was apparently based at Youngs Field.

Witnesses estimated the plane to be about 200 feet above a runway at the airfield, just prior to the plane's sudden plunge groundward.

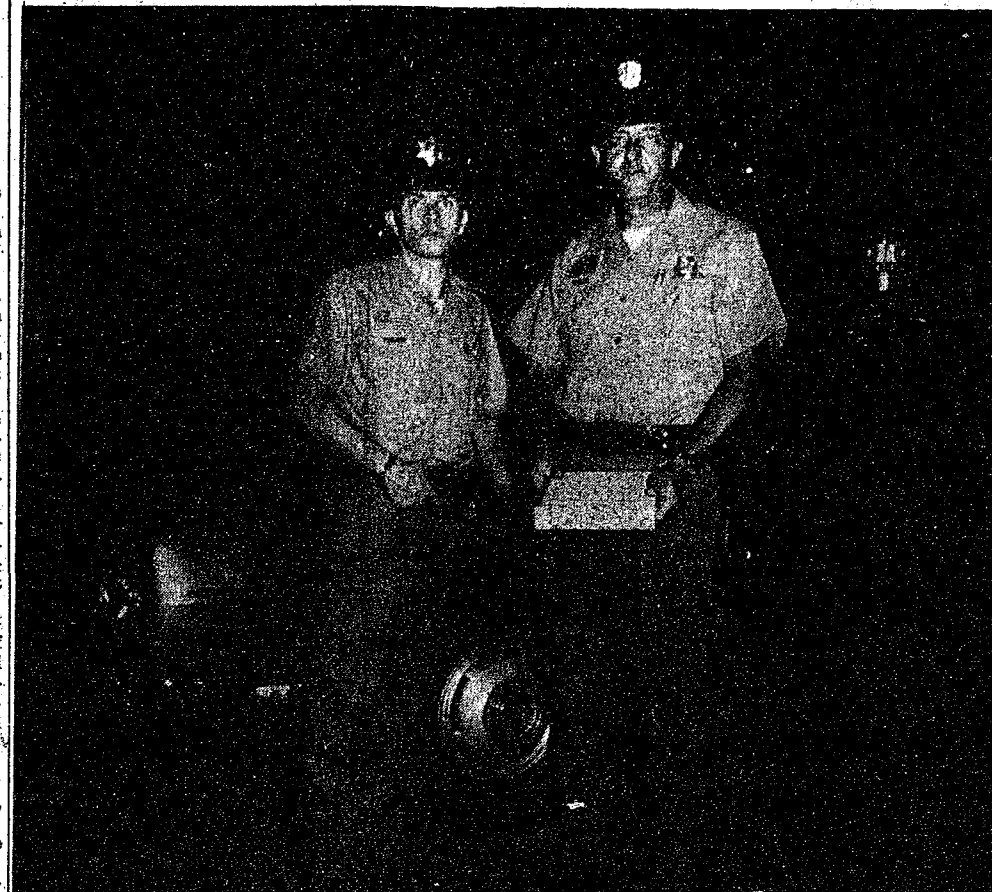

The aircraft was a North American AT-6S, according to reports filed by deputies of the Washtenaw County Sheriff Department following the crash.

Witnesses to the incident explained the craft had taken off shortly before the accident, and that as the plane began its skyward climb, it evidently experienced a loss of power, turned and plummeted toward the airfield below, then burned after impact.

Dr. Fred Van Bessena, deputy medical examiner, of Ann Arbor, was called to the airfield where he pronounced both men dead at the scene of the crash.

Dexter firemen, as well as firemen from the City of Ann Arbor, rushed to the airfield after being summoned by the deputies.

The bodies of the men were transported to Ann Arbor hospitals by Superior Ambulance.

Auxiliary Police Help on Regular Night Patrol Duties

Seventeen civic minded Chelsea area residents serve as a supplement to Chelsea Police Chief George Meranuck and his force of four regular and two part-time policemen. Known as the Auxiliary Police Force, these men take turns accompanying the assigned patrolmen on their rounds between 7 and 11 p.m. Monday through Thursday, supervising athletic events, parades, fairs, and other village "happenings," and generally assist the regular force by freeing them for other duties.

Since they have all received a certain amount of first-aid training, crowd control, and instruction in police techniques by the Washtenaw County Sheriff's Department, they are also empowered to assist both the local police and the sheriff in cases of emergencies.

Recently, two new members of the community, Peter DeFant and Greg Kuhl joined the Auxiliary following the successful completion of a 14-week course administered by the Washtenaw County Sheriff's Department. They will join their fellow Auxiliaries: Opt. Calvin Summers, Sgt. Lt. Roy Guenther, Sgt. Robert Bauer, Sgt. Charles Wiggins, Sgt. Donald Knoll, and Patrolmen James Krichbaum, Robert Robbins, Bruce Graham, Leonard French, Britton Graham, Norman Bauer, Hugh Hosjer, Calvin Summers, Jr., Richard Harvey, and William Dettling when they don the uniform of the Auxiliary to assist in promoting the welfare of Chelsea area residents.

National Priorities Caravan Visiting Methodist Church

The public is invited to attend a pot-luck dinner and a program presented by a National Priorities Caravan tonight, June 25 at 5:30 p.m. in the First United Methodist church social center.

Students on the caravan, from colleges all over America, will be discussing America's current "national priorities." They want to exchange opinions freely with the people attending the pot-luck.

Basically, the travelling students are concerned about many of the domestic problems facing our country, including poverty, the decay of our cities, lack of adequate schools and housing, inflation and the destruction of our environment.

Caravan members fear that, in light of current federal military spending which accounts for more than half our national budget, or 70 billion dollars, we may be leaving our domestic problems unsolved and allowing the quality of life in our country to erode dangerously.

Caravan members, who are donating their summer without pay, will be travelling in Michigan for six weeks. Sponsored by the American Friends Service Committee, a Quaker-founded non-profit organization for relief, service and non-violent social change, the caravan program has been in existence for more than 30 years.

Lt. James Maynard Injured in Navy Training Plane Crash

Lt. James D. Maynard, 25, son of Mr. and Mrs. D. C. Maynard, North Lake, was injured while piloting a Navy A-6 Intruder jet which crashed while making routine practice bombing runs at the Boardman, Ore. bombing range Friday, June 12. No reason was given for the crash which resulted in the death of the plane's bombardier-navigator. Maynard, who graduated from Chelsea High school in 1962 and from the Naval Academy in 1966, was reported by his mother to be in good condition. He is recuperating nicely from his injuries which included a sprained knee. She believes he will go back to flying as soon as he is able.

Cassidy Lake Building New Vo-Tech School

Camp Superintendent Outlines State Corrections Dept. Philosophy

Louis C. Utess, superintendent of Cassidy Lake Technical school, was guest speaker at the Kiwanis Club meeting Monday night, June 22. He informed the group that the present population at Cassidy Lake, an autonomous division of the Michigan Department of Corrections, is 224, most of whom are in the 17-23 year age group.

Utess pointed out, Cassidy Lake has the minimum amount of security measures of any facility in the state for first offenders. There are no uniforms, fences and guns around to constantly put the prisoners on the defensive. Rather, the school tries to instill feelings of responsibility and self-respect in the inmates.

Merchandise Still Needed for Jaycee Rummage Sale

Chelsea Jaycees are still accepting household items for their annual rummage sale July 25 at 1 p.m. at Chelsea Fairgrounds. Auctioneer at the sale will be George Staffan. To arrange a Tuesday evening pick-up, call either Mitchell Zink at 479-5361, Dan Eder at 475-2668, or Glenn Weir at 475-7509. Useful items such as bicycles, dishes and household appliances will be gratefully accepted. Proceeds of the annual rummage sale are used to support Jaycee community projects.

Many of the innovations at Cassidy Lake are the result of the progressive thinking of Gus Harrison, chief of the Michigan Corrections Department. He encourages such programs as prisoners working in the community, and reliable inmates going home on week-ends.

Work has been started on a \$1 million school building for vocational and high school training at Cassidy Lake. An anticipated \$1,700,000 will be the total amount allocated for the building four program.

Utess complimented the Chelsea Kiwanis Club for their program of bringing in two inmates each week as guests at the Kiwanis club meetings. Also several Chelsea Kiwanians and other local residents have participated for four years in a weekly counseling-discussion program with the inmates. Three 12-week sessions are in progress from September to May for the benefit of Cassidy Lake Technical school residents. Other Kiwanis Club news is the unanimous club vote to fund the re-lighting of the football field. The new field, to be dedicated to Paul "Jerry" Niehaus, should be ready for the opening of this year's season.

ADDRESSES KIWANIS CLUB: Cassidy Lake Technical School Superintendent Louis Utess delivered an enlightening speech to the Chelsea Kiwanis Club June 22 on the innovations in rehabilitation at Cassidy Lake.

Washington Report
 by Congressman **MARVIN L. E.**

Through some misinformation the word has gone out that the United States faces a beef shortage by 1975. To the thousands of Michigan people who love beef as an essential part of their weekly diet, let me say it just isn't true.

The American Meat Institute says we will need an increase of four million cattle and calves from 1968 to 1975. According to the Department of Agriculture we added 2 1/2 million in 1969 alone, more than half needed over six years.

At least part of the beef supply question gets entangled in the price of beef and the wisdom, or lack of it, of increased meat imports.

While in a period of unfortunately high inflation, all prices are too high and every price increase hurts, a look at prices in the last decade helps us put the question in perspective.

From 1960 to 1970 the retail price of beef rose 20.7 percent. Meanwhile, the average cost of all food was up 29.6 percent, the average cost of all consumer services rose 41.4 percent. Inflation has hurt us all, the cattlemen and

Measles Muzzled
 State health officials say the massive measles vaccination campaign they carried out last winter and spring was successful in stamping out a threatening measles epidemic in Michigan.

An estimated 600,000 kindergarten through third grade school children, normally key spreaders of the disease, were immunized during the campaign.

State Health Director Maurice S. Reizen said as a result "the rubella epidemic as been aborted in Michigan."

"The stage is set for our continuing rubella vaccination program aimed at ensuring that rubella will never occur in epidemic form again," he said.

Success of the immunization program has saved "many Michigan babies" from severe crippling birth defects which can occur when rubella hits a mother in the early months of pregnancy, says Reizen.

For many years rubella, also known as German Measles, was regarded as a mild disease. But in the 1940's research revealed it as a major cause of birth defects.

In the past, rubella epidemics have swept the nation every six to nine years. The last U. S. epidemic resulted in killing or crippling an estimated 50,000 unborn babies, whose mothers contracted the disease.

Reizen said Michigan is among a handful of states in the vanguard of the attack on the disease.

Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

Bug Hookum made a strong case for women's rights during the session at the country store Saturday night. Bug had saw these statistics that showed 20 percent of the households in this country has women for breadwinners and that women on the average make less than half what men make.

Bug told the feller this kind of treatment hadn't ought to be allowed in a free country. He said he was 200 percent in favor of letting women win the bread for 100 percent of the households, and he was just as strong for paying the women a wage that would permit their husbands and younguns to live in the manner to which they have become accustomed, as they say, under a man breadwinner.

They ain't no sensible reason, Bug allowed, to keep a good woman down. Like the feller said, Bug declared, the Indians had the right idee in this country til them civilized invaders come along. In the good old days when the Indians had the country to themselves, allowed Bug, the wimmen kept the tent, raised the younguns, planted the crops and general kept things going while the men hunted and fished. You got to be real civilized to figger you can improve that kind of system, was Bug's words.

Ed Doolittle was agreed and disagreed with Bug. Ed said he is fer giving wimmen all their rights, but agin pushing them out in front of everthing. Ed said men and wimmen needs one another, and he had lived too long and was too fer down the pike to believe wimmen really wants to run things, or that men can git along without em.

Ed said he never has saw a bachelor that could do anything as well as a married man that has got a wife to keep reminding him what he wants to do and how to do it. Ed pointed out that we ain't never had but one bachelor President, James Buchanan, and he was about the biggest flop of all, including all the New Dealers, Fair

FAMILY POT LUCK

You can enjoy fresh cranberries year round by buying berries while the supply is plentiful and putting them into the freezer. When ready to use, just rinse in cold water and chop or grind in frozen state or cook as usual.

For a tasty tidbit, try sardines and cheese. Mash together 1 can (3% oz.) Norway sardines and 1 cake of cream cheese. Spread on round crackers and top with thin olive slices. Yields 8 to 10 canapes.

Yams, or sweet potatoes, if you prefer, are a popular menu item. You can buy canned Louisiana yams in three styles: whole, cut and mashed. The sirup added consists of pure refined sugar.

An extra special taste is imparted to Caesar Salad when the croutons are browned in melted butter and A.I. Steak Sauce.

A good appetizer uses miniature cream puffs with a filling of creamed oysters.

When Your Back Screams for Help Better Listen Before Trouble Hits

Don't look now, but the guy who just stabbed you in the back was you!

When you hurt your back, you create an enemy who may follow you around for life, issuing painful reminders that you never mastered the proper technique for lifting.

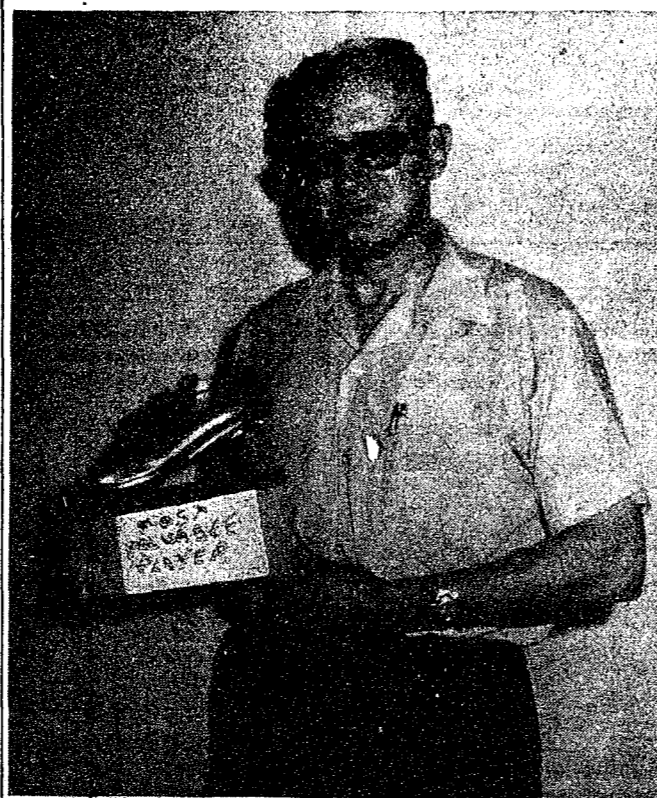

Each day 30 persons in Michigan begin this painful pursuit through on-the-job back injuries, according to safety consultants in the Safety Education and Training Division, Michigan Department of Labor. Many of these compensable back injuries are the result of improper lifting techniques and consequently are avoidable, the safety consultants point out. The following procedures for safer lifting are suggested:

First, size up the load and the area where you wish to carry it. Get a good footing and bend your knees to grasp the load. Get a firm grip and keep your back straight. Keep the load close to your body and then lift gradually by straightening your legs.

The safety consultants emphasize that when the load is too heavy for one person to handle, get help before attempting to move it.

Social Security

By Robert A. Kehoe
Social Security District Manager

Q. I don't have a birth certificate. What kind of evidence do I need to prove how old I am.

A. When a person's birth is not recorded, we suggest some of the following items as evidence of age: Baptismal Certificate, school records, census records, marriage records, insurance policies, or other documents that show your age or date of birth. If you call our office, we may be able to save you time and assist you by providing applications for documents, form letters, or advice on which documents to get. Call our office anytime Monday through Friday from 8:45 a.m. to 4:45 p.m. Our phone number is 663-8541 ext. 446.

Q. I do the cooking and washing for a widowed farmer and his children. How do my wages count for Social Security?

A. Domestic work on a farm operated for profit is considered agricultural labor and you are covered under the same rules as other farm employees. That is, you earn Social Security credits if your employer pays you \$150 or more in cash during the year, or you perform domestic work for him on 20 or more days during the year for cash wages figured on a time basis.

PLEASE BE FAIR TO YOUR HAIR

Just as in many other phases of life, where we only get one chance, so it is with our natural head of hair. Everyday care: shampooing, conditioning, brushing, etc., is most important if hair is to stay healthy, and of course careful attention to any scalp condition is a must.

There are many products available, some on a doctor's prescription, that can help keep hair healthy by controlling even a severe dandruff crusted scalp condition. But, beware of "Baldness Cure," quacks and rely on your physician to help you with any scalp or hair problem.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

Are you paying more than 11¢ a gallon for your home's heating oil?

If you are, you can heat your home for less with Gas.

If you are now using natural Gas (or plan to) for cooking, water heating, clothes drying or Gaslights, and your use is equal to that of our average residential nonheating customer, read on. You can get your Gas for heating under our special service rate at a price equal to fuel oil costing 11¢ a gallon.

Whether you convert your present furnace, or even install a new Gas furnace, we will pay for it and its installation by a participating Gas heating contractor. Repayment can be made on your Gas bill.

We'll buy the oil that's in your tank at the price you paid for it. We'll remove the tank from your home at no cost to you, and we'll even haul it away if you want.

Convert to thrifty natural Gas today and cut your heating bills up to one-third. Call us today for the name of a participating Gas heating contractor for full details.

Gas heat gives you a better deal.

Soil Conservation Service Staff Gets Special Training

Clark Backer, district conservationist, and John Layher, soil conservation technician with the U.S. Soil Conservation Service, recently received special training in soil suitability and engineering design for earthen dams.

Training was conducted by soil scientists and engineers from the area office of the U.S. Soil Conservation Service in Ann Arbor.

Actual field training required participants to examine a proposed site and determine if it was a feasible location for an earthen dam. Feasibility was based on soil suitability and engineering surveys.

Backer explained that this type of training will enable soil conservation service personnel to better answer the needs of landowners in the Washtenaw County Soil Conservation District.

Embankment type ponds requiring earthen dams are becoming more and more in demand, explained Backer. The need for water for recreation, wildlife, livestock, fire protection and irrigation is an increasing need in Washtenaw County. Because of the soil conditions and topography, there are many potential sites that would lend themselves well to the development of embankment type ponds.

The special training on site suitability for earthen dams is just one of several technical training sessions attended by the local soil conservation service personnel this year.

TV Documentary Assesses UN Role on 25th Anniversary

East Lansing—The Alvir Alley American Dance Theatre, mirrors the reality of life for black Americans on "On Being Black" Friday, July 3, at 7 p.m. on WMSB (Channel 10), Michigan State University television.

The internationally recognized company performs two dances, "The Black Belt" and "Revelations."

Choreographed by Talley Beatty, "The Black Belt" depicts the ferment, conflict, hope and aspirations of life in the ghetto.

"Revelations," choreographed by the company's director, Alvin Ailey, explores the motivation and emotion of the American Negro as expressed in religious music—spirituals and songs of trouble, love and deliverance.

UNITED NATIONS—"NET Journal" assesses the U. N., where moral authority is encumbered by such stark realities as Vietnam, Biafra, Czechoslovakia and the Middle East, on "Who Speaks for Man?" Sunday, June 28, at 4:30 p.m. and Friday, July 3, at 12 noon.

This documentary marks the 25th anniversary of a body established as the world's collective conscience and covers some of the most pressing and troubled areas of U. N. responsibility through its machinery in action at sessions of

the Security Council, General Assembly and Commission on Human Rights.

The program contains exclusive interviews with Abba Eban, foreign minister of Israel; Carlos Romulo, foreign minister of the Philippines; George Wald, Nobel Prize-winning biologist from Harvard University; Dr. Eugene Loeb, former Czech government official, and Anglican Bishop C. Edward Crowther, who left South Africa in opposition to that country's apartheid.

AMERICAN LIFE—British-born actor David Silver and veteran radio humorist Jean Shepherd present three clashing attitudes toward life in our country today, on "America, Inc.," a "NET Playhouse" production, Sunday, June 28, at 11 p.m.

A young family man (Silver) sets out on an odyssey to discover what America is like underneath the facade. What he finds depends upon who does the talking—Silver, Shepherd or the program's mythical "sponsor," an organization calling itself America, Inc.

VENICE—For the past 68 years, the city of Venice has hosted a leading international exposition of art every two years. "NET Festival" reports on American participation in the 34th Biennale held in 1968, on "Venice 34," Sunday, June 28, at 8:30 p.m.

The program looks at the general decline of this once-important art exhibition, caused by student riots in 1968 and the failure of the American government to back the U. S. exhibition there through the years.

A portion of the program focuses on three of the artists who participated in the 34th Biennale—Ruben Nakian, Red Grooms and Byron Burford—briefly looking at their careers, their lives and their form of art.

TODAY'S THOUGHT BY LOUIS BURGHARDT The 4th of July holiday is celebrated with no special religious significance. This lack of religious attachment is contrary to the customs, beliefs and behavior of our forefathers. In blunt language, some of them would turn over in their graves if they saw how we celebrate the holiday. We owe gratitude to God for having placed our forefathers on earth at that particular time in history. They fought for human rights; for freedom against tyrannical rule. After they won the struggle, they considered victory NOT as rights won by them, but as God given privileges they were permitted to proudly participate in. What sort of men were Washington, Adams, Madison, Franklin, Jay, Jefferson, Hamilton — and all the rest? Watch for the illustrations next week that answer the question. It will be interesting. Don't miss it... BURGHARDT FUNERAL HOME, 214 East Middle St., Chelsea, Mich. Phone GR 5-4141.

REPORT from LANSING
State Representative
Thomas G. Sharpe

Much Legislative Business Pending

Many currently pending and delicate matters currently pending will demand the utmost in experience and ability from the next legislature.

Our war on pollution, our struggle to protect and preserve our environmental heritage, has scarcely begun. Yet through the last few years, an understanding of this problem has been gained in state government, and we can hope that the past mistakes of attempting over-simplified solutions will not be repeated.

Our struggle against the use and abuse of narcotic and dangerous drugs, largely initiated in just the past two sessions and involving a multi-pronged assault through tighter enforcement, better education and more extensive research, is already regarded by experts as one of the best in the nation. Yet this struggle must be not only continued but also intensified; both the nature and the increasing seriousness of the drug problem demands this.

Since all else is dependent upon it, firm legislative support for law enforcement and law enforcement agencies must be maintained.

We live in an age of change and crisis, an age of glaring inconsistencies. We live in a time when property is burned and destroyed and policemen are assaulted in the name of "peace."

I look upon the law as the very foundation and framework of our society. There are others, in the legal profession and on some judicial benches and in some prosecutor's offices, who look upon the law as a tool to be used to gain their own private ends.

The legislature must set an example beyond suspicion, if respect for the law is to prevail. I will be the first to respond to any complaint, from any citizen I serve, that certain laws are inequitable or outdated or inadequate, the first to work for needed changes in our statutes.

But until the law is changed, it exists to be enforced and obeyed. This and this alone is what permits the unique degree of individual freedom we enjoy in this nation.

The greatest inconsistency of our day lies with those who break the law in the name of gaining greater individual freedom. The fact that we are a government of laws, and not men, is the very essence of our freedom.

All the unfinished business that will await the next legislature, no matter how more important...

*** Mow 'Em Down**

Wandering outside the security of the living room to attack the grass is a ritual. What is amazing is the number of young children pushing these 200 miles per hour revolving danceton choppers. Slipping and sliding, sneaker-footed youngsters are mowing with a monster which spits sticks and catapults stones to shatter glass and bones and anything else in its path.

The U. S. Health, Education and Welfare department reported in the Wall Street Journal that 140,000 persons were injured by power mower mishaps in 1968 alone, and that's not including the accidents not reported. Can you imagine, that's a figure 14, with four zeros strung out behind it, just from harvesting the grass (not marijuana).

There should be mower training courses patterned after driver training to reduce the carnage from our lawns. For the adults, enforcement could be enhanced with slogans, "if you drink don't mow," or "drunk mowers go to hammock and sleep it off."

Toes, feet, fingers and hands can't seem to pay heed to the whirling blade beneath the superstructure of the home-based work horse which levels turf and limb with ease.

The law mower phenomenon has grown to 37 million, at much the same pace as the American automobile—bigger and better. In fact the lawn mower cowboy atop his seven-horse rider is common on the range, even though many of those you see have pint-sized harvesting chores.

But does it really matter, it's a big breakthrough for the industry, and a bigger one for the enthusiast, beheading the grass for once can be done with pleasure if done with safety. It also helps the middle class mow-man to rid pent up hostilities on the green stuff, with style—the aid of a mighty roar of a power plant and with the muscle of a locomotive.

It's the greatest tool for the large-yard man and an ideal toy for Walter Mitty's. Highlights are available on most models for night time missions and fog and smoggy times. This high riding corps in the gallop for status, file just ahead of the shiny motorized walkers. On rare occasions you can spot the pusher (not drug type) although its difficult because these lawn mowers are compact, noiseless, practical, economical and driven on callous power.

No-Till Plan Helps Anchor Valuable Soil

Nearly a quarter of a million acres of Michigan's cropland resisted erosion by wind and water last year because farm operators left plant residues from the previous crop on the soil surface while planting and growing the 1969 grain and row crops. A possible doubling of the acreage thus protected may be expected this year. This announcement by Arthur H. Cratty, State Conservationist of the USDA Soil Conservation Service in East Lansing, followed a county-by-county survey of planting methods used. Only planting which did not involve the use of a moldboard plow in seed-bed preparation was counted. Often called No-Till, such methods are also called zero tillage, slot planting, chisel planting, or till

planting. They all have one goal—to keep as much crop residue as is possible on the surface, still permitting a good stand and high yields of the new-planted crop. Cratty stresses the importance of these residues as an erosion control measure. When most farms had livestock, grass and hay crops made up a large part of the crop acreage. Erosion was slight under such crops. Fewer farms have livestock today. Economics forces farmers to grow larger acreages of row crops. Under normal plowing and cultivation the soil is bare between the crop rows for a large part of the growing season. Bare soil moved by wind and water contributes to pollution problems such as sediment filled streams and lakes, impaired drainage channels, and even dust in homes.

Cornstalks or other crop residues on the soil surface can provide protection similar to that of grass and hay crops, says Cratty. On a field where corn planted year after year with conventional methods would lose 10 tons of soil per acre per year, No-Till leaving 90 percent of the previous crop residue on the surface would cut soil loss to one ton per acre. Continuous corn under this system can be as soil conserving as a rotation of corn-oats-and three years of hay. No-Till planting methods still have some problems. "Securing good crop stands and adequate weed control are just a couple of them. Farmers, researchers, and equipment companies are proving that these problems can be licked. The rewards are great—less time, labor and money to fit the soil and plant and cultivate; equal or better yields, and protection from soil loss. These are the reasons nearly 33,000 acres of row crop and 163,000 acres of small grain were planted with crop residues on the soil surface last year.

The Billion Dollar Beer Mug plays an important role in helping keep the American economy on the move, strong and dynamic! Before beer reaches the consuming public it employs 60,000 workers in the brewing industry alone and 1 million in collateral and support businesses and industries, paying \$1.5 billion in state and federal excise taxes, over \$2.7 billion in wages to employees, and distributors, and \$1 billion for agricultural products and packaging. Michigan Ranks at Top in Accessibility to Air Travelers

Lansing—Michigan has one of the finest airport systems in America, State Aeronautics Director James D. Ramsey said recently. Ramsey, speaking at a dinner held to observe the 40th anniversary of the creation of the Michigan Aeronautics Commission, said Michigan ranks first from first to fourth nationally in three major airport categories.

Michigan ranks third in the number of publicly-owned airports with 127. California, with 247, is first followed by Texas with 230.

"Considering the square miles involved in each of the states, Michigan's coverage is much more extensive than the other two," he said.

Michigan ranks fourth in the number of airports with lighted and paved runways and third behind California and Texas in number of published instrument approaches to its airports.

"Although we are third in number of airports with instrument approaches, Michigan ranks first in percentage of its airports to which instrument approaches can be made during adverse weather," Ramsey said.

"Twenty-two percent of Michigan's airports have published instrument approaches compared to only 13 percent of California's system and eight percent of Texas' system."

Ramsey said the activities of the Aeronautics Commission during the last 40 years plus "outstanding co-operation" between federal, state and local aviation officials "has created an accessibility to our state by air that is second to none."

The State Aeronautics Director said the number of airplanes registered in Michigan has more than doubled during the last 15 years

while the number of airline passengers has quadrupled. And he believes aviation has the potential to grow at an equally rapid pace during the 1970's.

The number of registered aircraft increased from 2,493 in 1954 to 5,333 in 1969 and there will be an estimated 9,500 aircraft registered in Michigan by 1980.

During the same period, the number of airline passengers went from 2.3 million annually to 9.3 million last year and are expected to nearly triple during the next decade to nearly 26 million in 1980.

"If these projections follow the pattern of the past, we may achieve this level of activity about five years prior to the predicted date," he said.

Morgan Horse Show Slated At Fairgrounds

Michigan's 18th All - Morgan Horse Show, featuring nearly 300 of the finest park and pleasure Morgan Horses, will be held in the Michigan State Fair Coliseum in Detroit, July 11 and 12.

For this spectacular show, Governor William G. Milliken has proclaimed July 11 and 12 as "Justin Morgan Horse Days in Michigan." Mayor Roman S. Gribbs named the week of the show as "Morgan-Horse Week" in Detroit.

Prize money totaling \$2,200 will be distributed in 80 classes with nearly 500 participants aged three to over 60 years competing. Entries will come from a dozen states and Canada.

Show times are Saturday at 8 a.m., 1 p.m. and 6 p.m. and Sunday, 9 a.m., 1 p.m. and 6 p.m.

"The Morgan Horse is the most versatile of all breeds, and at our show people can see Morgans in every type of competition including English, western, fine harness and in hand," said Robert Driggs of Mason, president of the Justin Morgan Horse Association.

Known as the classic horse of the show ring, the Morgan breed was originated in this country in 1789 by Justin Morgan, a Vermont school teacher-farmer, from whom the breed derives its name. Show chairmen for 1970 are Ed Earhart of Northville, and Basil Hiner of Novi. Tickets are on sale in advance through Morgan Club members and at J. L. Hudson and Grinnel's ticket centers and the General Motors Girls Club.

The census of Agriculture will count about 2,979,000 farms this year, according to the U. S. Department of Agriculture. This is nearly 28 percent less than in 1959 and the lowest number since 1870.

SUNDAY'S SERMON

Your Life

Yesterday's potatoes are cold. Yesterday's disappointments should not be warmed over. Today is important.

Rely on experience gained in wins and losses, but always look to the thing that needs doing now, to the preparations necessary for a better tomorrow. Use the magic moments of your life not to dream, but with determination and purpose.

Believe that you are never done with temptation, hardship and doubt. Recognize them, meet them head-on and turn them aside.

Believe in God and in the truth that life has meaning. Find your faith, within yourself, and strengthen it day-to-day. Look back only to see where you have been and remind yourself of the lessons that you have learned.

Open your eyes and see the world that God created. See all the good and, yes, the bad, and then choose yourself a road that leads to a life of goodness and joy.

North School Students Enjoy Field Day To Close Year

Chilly weather did not upset the plans for the all-day field day program on June 19 at North school. Instead of having the traditional picnic away from the school, to celebrate the last day, elementary teachers at North school decided to let the students participate in outdoor games and races on the school-grounds in addition to a picnic.

The field day was a real treat for the third, fourth and fifth graders who took part since they do not have any regular physical education program during the school year. Approximately 100 students from Mrs. Paplow's fifth grade, Mrs. Heller's fourth grade, and Mrs. Edmonds' and Mrs. Hire's third grade classes joined in the day's events. Mrs. Paplow's

experience in organizing outdoor games from her previous summer recreation work helped in planning the day.

The morning started with races such as the crab race won for the third grade by Jeff Smith and for the fourth and fifth grade by Jeff Policht. In the sack race, for the third grade competition, Glenn Rooke won the first heat, and Doug Wetzel won the second heat; for the fourth and fifth graders,

Tommy Young won the first heat, Debbie Hayworth won the second heat, and Vicki Downer beat out the competition in the third heat. The three-legged race resulted in David Cross and Mike Hardy triumphing over the third graders, and Gayle Hume and Penny Collinsworth finishing first among the fourth and fifth graders. The wheelbarrow race was led by Billy Moore and Scott Powers of the third grade and Don Morrison and Todd Ferguson for the fourth and fifth grades.

South Dakota Club Holds Picnic-Reunion At Plymouth Park

The South Dakota Club of Michigan held its annual picnic-reunion Sunday, June 21 at Riverside Park Division of Plymouth Park. Approximately 250 people from 56 families attended the 31st reunion compared to only 21 at the first one held.

Games, contests, door prizes, drawings and refreshments were supplied by the planning committee and enjoyed by families from all over the state of Michigan.

Residents in the Chelsea-Dexter area, who attended are Mrs. Ralph Parker, president, 7207 Webbs Landing, North Lake; Mrs. Lloyd Mull, 7680 Fourth St., Dexter; John Bouillon and family, 8510 North Territorial Rd., Dexter; Mr. and Mrs. Joe Klapperich, 9025 Huron River Dr., Dexter; and Mrs. Al Zeck, 2201 Baker Rd., Dexter. Gov. Frank Farrar of South Dakota sent a greeting to the group which was read at the picnic.

RADISH ANCIENT
Ancient Egyptian records show that radishes were a common food before the Pyramids were built.

CHAMPIONS Dick Gillespie, fifth grade; Craig Ferguson, fourth grade; Todd Ferguson, third grade; and Ben Kinzer, third grade, display the ribbons they won at North school's field day events Friday, June 19.

FIELD DAY WINNERS in the fun and games at the North school celebration of the last day of school keep quiet long enough to have their photo taken. Shown, back row, left to right are Tom Young, Billy Edwards, Don Morrison, Steve Marriott, Doug Wetzel, Scott Powers, Vicki Downer and Debbie Hayworth; front row, David Cross, Mike Hardy, Jeff Smith, Billy Moore, Jimmy Brown, Glenn Rooke and Jeff Policht.

New Farm Wheat Allotment May Be Requested in June

A new farm wheat allotment may be established for the 1971 crop of wheat for farms that did not have a 1970 allotment if they meet eligibility requirements, Earl Dolezky of the Washtenaw County ASC Committee announced today.

A 1971 wheat allotment will be established automatically for all farms that had a wheat allotment in 1970.

To be eligible for a new farm allotment, the operator must expect to receive 50 percent or more of his income from the production of agricultural commodities on the farm; neither the owner or operator may have an interest in any other farm which has a 1971 wheat allotment; and the person making application must have had at least two years experience in the last five years in producing wheat.

Applications for a new farm allotment must be filed in the county office on or before June 30, 1970. Any interested producer who can meet these requirements should contact the county office before the final date for filing.

G. Bursley Heads Intergovernmental Co-operation Body

Senator Gilbert E. Bursley (R-Ann Arbor) has been elected chairman of the Michigan Commission on Intergovernmental Co-operation.

Senator Bursley has served as a member of the commission for the past four years and replaces Senator Robert VanderLaan who was recently elevated to the post of Senate majority leader.

The commission is composed of five senators, five representatives and five appointees of the Governor including two members of his staff.

Vice-chairman of the Commission is Representative William

Copeland, Ex-officio members include Governor William Milliken, Acting Lieutenant Governor Thomas F. Schweigert, Chief Justice Thomas E. Brennan, Attorney General Frank Kelley, Speaker of the House William Ryan, and Glenn S. Allen, Jr., State Budget Director.

The Commission on Intergovernmental Co-operation meets regularly and discusses intergovernmental problems and works closely through the Council of Governments with other state's executive and legislative branches, particularly in the mid-west. The commission has standing committees on taxation, transportation, education and agriculture that work closely with similar committees in other states.

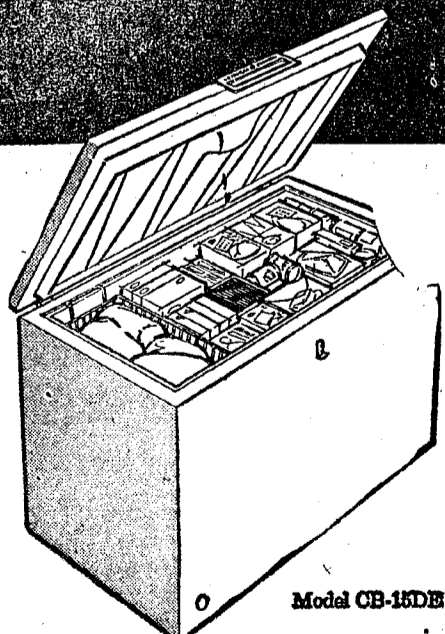

"We plan to maintain an increasingly close contact with the federal government in Washington," explained Senator Bursley.

"Other states have found that a Washington office to look out for their own state's interests pays with rich dividends and we are carefully exploring that possibility."

Sometimes wise men and women fall for fascinating hokum.
