Uncle Lew from Lima Says:

DEAR MISTER EDITOR:

I don't know nothing about naughts and figgers, Mister Editor, and I git that mixed up. So I pled ignorance to that feller's charge about how many zeroes in a trillion. I final got around to his letter you passed on to me, and I'm about his correction the way I would be if you told me the ink for your paper is \$20 a quart. I don't know no better. When I said the national debt was \$6 trillion in that piece the other week I put a 6 and 18 naughts. This feller said I only needed 12. He's right, I reckon, but I don't know where the zeroes go fer blue million and blue billion.

I mention that mistake in figgering cause two of the items the fellers took up at the country store Saturday night had to do with big numbers, and you might want to check behind me. I git lost when I can't git a total on my fingers, and it's most to cold to take off my shoes.

Bug Hookum has this clipping where a outfit in Sweden has added up the power of all the nuclear bombs in the world. It come to 50,000 megatons, and a megaton, Bug said, is a million tons. When you try to break that down into numbers you can deal with, Bug said it come to a blowing up force of 15 tons of TNT fer every person on the face of the earth. Bug reckoned that much TNT would be like 150 tons of dynamite. Bug said he put three sticks of dynamite under a stump o'ct, and he found out quick that he used about two sticks to many. The three must of weighed five pound, he said.

The fellers got to kicking Bug's report around, and they was full agreed that being born with 15 ton of TNT assigned to you is a heap more scary than coming into the world owing \$7,000 on the national debt. That's a figger one of the fellers had picked up as ever American's share of what the Federal Government owes. Bug said the report from Sweden declared that if countries keep building up their nuclear stock they threaten the existence of mankind. Bug said he'd go along with that. Then 50,000 megatons would make

this old world look like a stepped on grape, was Bug's words.

The other item dealing with figgers was in Ed Doolittle's handful of clippings. Ed was of a mind that all of us folks who say we was born to soon is wrong. The cost of coming into this world is gitting out of this world, and it could git to the place where people will stop having people. Ed had this item that put the average cost of having a baby in a hospital at \$2,200. That's two twos followed by two zeroes, but that's still big money fer most folks, Mister Editor. Ed said the price has gone up from \$1,600 in 1971.

Actual, allowed Clem Webster, that baby is like a car, and that \$2,200 is like a down payment so you can drive it home and keep making payments. And Clem said you can throw the cost of weddings in with that deal. He said the one bright side he could think of to the rising cost of funerals is that they are one-shot deals, but he'd rather have payments all his life.

Yours truly, Uncle Lew.

MICHIGAN MIRROR

By Warren M. Hoyt, Secretary, Michigan Press Association

PFB Worry Grows Scientists called in to study the effect of PBB on Michigan residents say the toxic chemical may indeed cause ill health among some people. Of 1,029 people examined by a

special medical team, about one-third showed symptoms tentatively linked to PBB, which was accidentally mixed with Michigan livestock feed in 1973. The mistake wasn't discovered, however, until spring, 1974, too late to prevent it

from fainting the state's food supply. Dr. Irving Selikoff, who headed the study team, was reluctant to predict what effect PBB might have on the study's subjects in the future. They were people—farm residents and persons who bought farm food regularly—who likely consumed more PBB than the average Michigan resident.

So people who bought their meat, milk and eggs in stores can't know what effect the PBB they inevitably ate might have, he said.

That is a question that likely will go unanswered for decades. It is "reasonably clear," Selikoff said, that PBB is responsible for skin disorders, painful and swollen joints, memory loss, sleep disorders and other problems that turned up in about a third of his study group.

But in Michigan residents who consumed much smaller amounts of PBB, the effects of the chemical could be dormant for years. Scientists are worried that PBB could cause cancer or birth defects, as it has in animals fed large amounts.

A long-term study of several thousand people by the Michigan Department of Health is intended to keep an eye on that.

New Phone Rules Thousands of deposits will be returned to Michigan phone customers under new rules covering the state's 53 phone companies.

Michigan Bell already has returned close to \$4 million to its customers, but most companies are not expected to follow suit until the new rules formally take effect in mid-May.

Dubbed the "customers' bill of rights," the rules were approved by the state Public Service Com-

mission which regulates the companies.

Specifically, they: —Prohibit companies from charging deposits of most customers, —Give customers 21 days to pay their phone bills, rather than the 10-day deadline many companies have used.

—Set up a hearing procedure which customers can use to challenge a company decision to cut off their service.

—Forbid companies from charging late-payment fees or giving discounts.

Under the new rules, a company can charge a deposit for phone service only from persons who left unpaid bills owed to other companies or who damaged telephone company equipment.

Deposits were regularly charged of students, unemployed persons and so-called "known credit risks."

Reform Stalled Worker's compensation reform is one of those issues that was discussed for hours in 1976 but which ended in a draw.

Legislative Democrats coalesced to approve a reform bill aimed at beefing up the staff of Workers' Compensation Appeal Board, which is inundated with more than 2,000 backlogged claims.

But Gov. William Milliken, who wants to see one massive reform measure correcting all the system's problems, vetoed the bill as he had promised all along.

So it's back to the negotiating table, where so far management and labor have been unable to settle their differences. Both agree the system needs reforming, but disagree on where the changes should be made.

Michigan State University faculty in 1974-75 contributed 8,888 articles to publications and published 187 books. Nearly 300 faculty members received awards for outstanding service to their professions.

A Standard Want Ad Gets Results!

"Dad, why do people take drugs?" To most people who have used drugs all of their lives, it seems like it has a simple answer. But to a 4-year-old boy who has never seen the inside of a hospital or a medical doctor, or had as much as a half an aspirin or a teaspoon of cough syrup, the answer takes on a definite change of meaning. "People take drugs, because they don't know about Chiropractic... no one tells them so they think they have to 'take poison. We have to tell them," I said. "... and when I get big I'm going to tell people that they should get adjustments and then they won't need drugs," he said. As strange as Chiropractic may seem to many people... medicine seems just as strange to our kids and our patients' kids. They see our patients and their friends getting well under Chiropractic and can't understand why everyone doesn't try it. We can't understand it either. This morning, Jason, our 4-year-old, got dressed and asked me if he could talk to the patients about Chiropractic! So if you see him... he'll talk your ear off on why you and your family should be under Chiropractic care if you are not already. Maybe some day, if enough Jasons tell enough people... your grandchildren or great-grandchildren may say to you... "grandma, why did people used to take drugs?" SPECIAL Reduced Interest Rates on Home Improvement Loans for Energy Conservation The cost of heating a home has gone up an average of 76.3% in the last five years, and it is predicted to go up an additional 211.3% in the next ten years. This means the average monthly \$30.00 heating bill you were paying five years ago is now \$52.89. If these dire predictions are true, by 1987 you could be paying as much as \$164.65 per month for the same amount of heat. What can you do about it? For one thing, you can insulate your house. It is a lot cheaper than gas, electricity or oil. To help conserve energy, Ann Arbor Federal Savings is now offering a special reduced rate on Home Improvement Loans, through March 31, 1977, for any approved home energy conserving program. Maximum loan \$5,000, up to 60 months to repay. This low rate would put energy conserving within your budget. For example: a \$500 loan with term of 24 months would cost \$23.33 per month an annual percentage rate of 11.13%, and with term of 36 months \$16.38 per month, an annual percentage rate of 11.08%. ### Woman's Club Makes Plans for Coming Teas

Woman's Club of Chelsea met on Jan. 25 at McKune Memorial Library. Roll call was answered by 3 members.

Plans were made for a Valentine Tea and Newcomers Tea. The Valentine Tea will be held at the Methodist Home on Feb. 8, whereas the Newcomers Tea is slated for March 17 in McKune Memorial Library.

Members also discussed plans for a trip to Chicago on April 29 and 30.

Ruby Strieter was in charge of the program for the evening. Each member received a kit containing yarn, canvas, and a needle for knitting; needle-point. Demonstration of a couple of stitches followed.

Hostesses for the meeting were June Burghardt and Carolyn Williams.

### The 'Sunshine Special'

Roosevelt, Churchill and Stalin got together to hash out some controversial war-time issues in 1945 at Yalta in the Crimea. Among other things, their agreement, signed on Feb. 11, 1945, brought the Soviet Union into war against Japan. As on many official trips, President Roosevelt took along his 1939 Lincoln convertible, the "Sunshine Special." This massive armor-plated car is now among the 200 antique, classic and historic vehicles on display at Henry Ford Museum in Dearborn.

MSU is the largest institution of higher learning in the state with 43,749 students on the 5,100-acre campus in East Lansing.

### Child Study Club Members Hear Talk On Mental Illness

The Jan. 25 meeting of Chelsea Child Study Club was held at the home of Nita Mills. In attendance were 27 members, three associate members, and two guests, Pat Wiele and Diane Smith.

The evening's program revolved around the work of Dr. James Driver, psychiatrist, who delivered an informal address on mental illness, psychiatric therapy, and mental illness treatment methods.

New member Marge Lazarz was welcomed to the club by president Joan Eisele. Co-hostesses for the evening were Marty Neumeyer and Marge Robbins.

Next meeting of the group will be Feb. 8 at the home of Mrs. Marge Branch, with Dr. Robert Powers from Lane Animal Hospital to speak about pets. Guests are welcome.

### Town & Country Members Hear Talk On Project COPE

Town and Country Woman's Club met at the studio of Ben Bower on Jan. 25. Hostess for the evening was Sherry Lawton, assisted by co-hostess, Sue Calus.

The first part of the evening's program was on Project COPE presented by Dr. Virginia Razmier-ski. It was followed by a fascinating presentation on framing by Ben Bower.

Next meeting will be Feb. 8, 7:30 p.m. at the home of Bobby Johnson. Program topic will be transcendental meditation.

There are 169,000 Navy veterans among the nation's 577,000 women veterans, according to the Veterans Administration.

### Controls for Radio

President Calvin Coolidge set out to untangle the air waves with his creation of the Federal Radio Commission on Feb. 23, 1927. The Commission was charged with granting licenses and allocating power and position on the dial so there would be a minimum of interference between the 732 stations then in operation. Early broadcasting and receiving equipment may be seen in the communications section of the Henry Ford Museum, Dearborn.

**Ruth Circle**  
Because of inclement weather only 13 members of the Ruth Circle of United Methodist Women of First United Methodist church met at the Crippen Building, Jan. 19 at 1 p.m. to enjoy refreshments at tables centered with pink carnations and grouped around an open fire. Mrs. Mary Lou Haas and Bessie Buxton were hostesses for the occasion.  
Mrs. Cora Dowland opened the meeting with a prayer. President Joan Weber's monthly letter was read and action taken on two recommendations. The circle endorsed the plan for a Bible study on Mark with the hope that some members would attend.  
A recommendation asking that \$25 be given to missions in memory of Mrs. Schmunk was passed unanimously.  
The secretary's report was read and approved. Due to the absence of the treasurer, no report was given.  
Miss North announced that the group's yearbooks would be ready next month.  
Mrs. Dowland read 2 Corinthians 5:10-11 and the life story of Mother Theresa of India by Desmond Doig. The meeting was closed with the fellowship circle benediction.

**First Movie Studio**  
Thomas Edison completed the world's first motion picture studio on Feb. 1, 1893. Officially named the Kinetographic Theater, the crude wooden structure became affectionately known as "the black maria" because of its tar paper walls and black draperies. The theater relied on the sun for light and in order to catch its glare, the whole building revolved. A model of the "black maria" is on display in the Communications Section of Henry Ford Museum in Dearborn.

The Monday evening preview was organized by Chelsea's band and orchestra directors Steve Bergman, Warren Mayer, and Anna Alimpich.

**Hockey Team Loses In Final Seconds**

It was only an exhibition game for the Chelsea High hockey team last Sunday, Jan. 23, but the game turned out to be one of the Bulldogs' best of the year. Grand Ledge and Chelsea seemed evenly matched in the contest, confirmed by the fact that the winning goal was scored with just 16 seconds left on the clock as Grand Ledge nipped the Bulldogs, 4-3.  
Chelsea scored the only goal in the first period. Greg Hastings

**Ask the Governor...**

Question: I understand that the task force which studied how to make our state government more efficient and cut down on the cost of government has made its report. Will the recommendations be implemented?

Governor: The Michigan Efficiency Task Force submitted its report to me recently. The final report contains more than 500 recommendations on ways to make more efficient use of tax dollars, reduce costs and improve the efficiency of state government. All departments and agencies of state government were reviewed. Recommendations ranged from elimination of front license plates to consolidating intermediate school districts.

Although I support the intent and scope of this report, I wish to make it clear that there may be some recommendations that I question or even disagree with.

I have asked that each department head review the recommendations that apply specifically to his or her department and report on the feasibility of the recommendations to me by Dec. 10. The implementation phase is expected to begin after I have received those feasibility reports. The Department of Management and Budget will assist in the implementation of this project.

Following departmental and executive office review, all recommendations that are reasonable and in the public interest will have my full support. I am confident that government can make good use of many of these findings.

Question: The Defense Department has proposed closing Kicheloo Air Force Base in the Upper Peninsula and Wurtsmith Base in Oscoda. What is being done to prevent these closures?

Governor: The proposed closing of Kicheloo or Wurtsmith Air Force Base would be devastating to the State of Michigan. My office, in co-operation with legislators and private citizens, is working to present Michigan's cause to the Defense Department. A large, strategically located and industrially productive state should not have to suffer economic impact of the closing of military installations and the loss of defense contracts to other states.

At several hearings on the threatened closures, I have demonstrated that the projected cost savings would be eroded by higher unemployment benefits, welfare payments and loss of state and federal revenue from business failures and reduced income.

One unexpected benefit of these threats has been the uniting of Michigan citizens in all parts of the state. We are beginning to realize that such closures, strikes, and urban problems in one region affect us all. Successful solutions to these problems must also involve us all. We are finding that working together on state-wide concerns can produce results.

Question: I'm planning a car trip over the holidays. Is there anywhere I can get an updated report on road conditions, weather, etc.?

Governor: The Michigan Travel Bureau has two hot lines which provide telephone callers with road conditions, upcoming events, gasoline availability, campsites and weather forecasts. The toll free numbers are: 800-292-2521 (in Michigan) and 800-248-5456 (out-of-state).

Several other departments maintain numbers for callers to receive information or report problems. For example:

Citizens with problems concerning utilities or desiring information about utilities may call the Public Service Commission at 800-292-9555;

Information about planned or proposed highway projects, scheduled hearings, planned improvements to facilities and citizen input may be obtained by calling 800-292-9576;

Complaints regarding auto dealers, mechanics and repair shops are handled by Automotive Regulation at 800-292-4204 or 800-357-5109 (Detroit only);

Medicaid recipients and health care providers may have questions answered by calling Medicaid Information at 800-292-2550.

All of these numbers may be used free of charge. Democracy requires that citizens have access to the agencies designated to serve them. I hope these numbers help provide that access.

**Sylvan Board Acts on Zoning**

(Continued from page one)  
change which was calculated at approximately \$2,200 by Liebeck, minus legal fees. According to some estimates, the legal fees alone could run in excess of the \$2,200 figure.

In a further show of economic good-will, the township board proposed to eliminate the current \$150 fee required to obtain a conditional use permit for building single-family dwellings on land zoned recreation-conservation. To do so, they advocated making this a permanent, rather than variance-granted use of recreation-conservation land resources.

A public hearing on both the elimination of conditional-use permits and the proposed road frontage requirement change in recreation-conservation districts will be held Monday, Feb. 7, 8 p.m., in Sylvan Township Hall.

### Tips Offered On Saving Heat Energy

### Cold Weather Holds Up Mother's March

Chelsea's March of Dimes Mother's March, Jan. 15 through Jan. 22 was extended in some areas because of poor weather conditions. However, the majority of those joining this year's campaign for the prevention of birth defects have concluded their canvassing crusade, and preliminary results indicate widespread support throughout the local area.

### 'Londontown' Will Be Seen In Saturday's Travelogue

"Londontown," the third travelogue presentation in the six-part Chelsea Kiwanis Club's Annual Travel and Adventure Series, will be shown Saturday, Jan. 29, 8 p.m. in the Chelsea High school auditorium.

HOWARD POLLARD  
Chelsea Kiwanian, or at various area business firms including Chelsea Drug, Chelsea State Bank, Gambles, Heydauff's, or Kusterer's Market. Tickets will also be available at the door.

Narrating this tour through England's historical and tradition-steeped capitol, will be Howard Pollard, a native midwesterner with a degree in mechanical engineering, who made a transition from the medical-surgical motion picture industry to the film lecture field in 1959.

On Saturday, Pollard will guide his audience through Piccadilly Circus, London's 19th-century theatre district. There, he will focus on the Vic Theatre and the Palladium. Following a trapeze through the theatre district, travelogue participants will witness an auction at Sotheby's, where great art objects and antiques are sold.

The area to be affected is described as follows:

**VILLAGE OF CHELSEA**  
THOMAS NEUMEYER, CLERK

# Letters to the Editor

Dear Mr. Editor: A "typographical error" to quote the "Standard," a "typographical error" to quote the village administrator Wepfer, "mistakes like that happen all the time" to quote attorney Grommet and Giardina, who drew up the agreement between the Merkel family and the village, "yes, you don't know how it got in." Unbelievable! Surely they do not expect we taxpayers to swallow this hogwash. A legal document is dictated by attorneys, rewritten and rehashed several times between counsel for each interested party, typed by legal secretaries, read and retyped before it is presented for signatures. And what about the Chelsea village council? Do they affix their signatures to such important legal documents without reading them? Had it not been for the fact that an Ann Arbor newspaper stirred up the hornet's nest, our council would not have met Dec. 21 to "rectify" (6 months later) their misdeed. If the \$10,000 of taxpayers' money has not been irrevocably contracted to the Merkel family for the sewer easement to supply their planned subdivision, council members would be well advised to reconsider in favor of condemnation proceedings or face a possible recall action by their electors. Rosalie H. Caine.

Among the nation's 577,000 women veterans, 288,000 were in uniform during World War II, the Veterans Administration reports.

Editor, The Chelsea Standard: The word "chairperson" is only one of several terms currently accepted and used by increasing numbers of people and he used it in the Jan. 20 edition of The Chelsea Standard. The article "Local Girl Scout Cookie Sale Chairmen Named" mistakenly called Mrs. Barbara Wolf and Mrs. Barbara Seabury "chairmen." The term appeared in the title and the caption under their picture. These women are certainly "chairwomen," "chairpersons," or "chairpeople," not "chairmen." That masculine nouns and pronouns have been used to denote both sexes has been accepted without question for more than 2,000 years. Granted, something so deeply-rooted in our culture is hard to change, but our out population has recognized the merits of this reform. Kirsten Jensen.

## Intramural Basketball in Third Week

Boys and girls intramural basketball entered its third week of play with a seven-game series last Wednesday, Jan. 19. In both leagues, most teams exchanged leads down to the wire, with the final moments of play crucial to each team's victory or defeat.

Spotlighting girls league action was an overtime thriller between the Ringes and Apilado. Ringe sank the winning bucket to tip Apilado, 13-1. Other results included Ville nure over Eisele, 9-6; Feehey edging Van Ripper, 11-8; and Hats over Bush, 16-5.

## Cager of the Week

JERRY LIKAVEC (22) is a newcomer to the varsity squad and to the Chelsea area. After moving from Detroit to Chelsea with his family, the 6'2" center began playing his first season of interscholastic high school basketball for the Bulldogs this winter. According to Likavec, "Columbia Central was our best game so far, even though we lost. We held our mistakes down, and didn't choke at the end." While he admits the Bulldogs have not been playing well this season, the cager was optimistic when considering the team's forthcoming games. "There's still hope for us, we won't have a spectacular season, but we will be winning a few more games." Likavec speculates Chelsea's biggest handicap this year "could be psychological, although that's hard to estimate in terms of team performance. We've had many close games, we come to the wire in most of them, only to finish behind." In addition to basketball, Likavec also ran cross-country for Chelsea High this fall, and he plans to participate in spring track. A CHS senior, Likavec has two sisters and one brother. He is the son of Mr. and Mrs. Paul E. Likavec of 5 Maple Ct.

## Ask Project COPE

Question: I am really worried about my 18-month-old daughter. She was born six weeks premature, so we couldn't take her home from the hospital for a month or so. She had breathing problems soon after her birth, also. Her development is really slow; for example, she couldn't sit by herself until she was a year old and was about 14-months-old before she could grasp objects by herself. She doesn't walk and she uses no words yet. She may have trouble seeing, too. Several doctors have run tests on her, but we haven't been told much, yet. No one has mentioned where I could get help for her—either the location of programs or someone who can tell me what to do at home. Is there anything I can do? I am afraid that something is really wrong and would feel better if I could just do something.

Project COPE is a federally funded program which is being operated during the current school year by Special Education Region V for Chelsea, Manchester, and Whitmore Lake School Districts. Its aim is to inform the community about the special problems and needs of pre-school children. Those who have questions, concerns, or who wish to refer a child for diagnostic services can contact Ellen Eagen, Project COPE Director, at 475-9131, ext. 50 or Dr. DeYoung at ext. 43.

Of the nation's 577,000 women veterans, 288,000 were in the Army according to the Veterans Administration.

## Prospective Brides Please Note

Reports of area weddings are always welcomed but must adhere to certain time limitations. Preference will always be given to those reports submitted for the first edition following the wedding, preferably with a photograph. Photos of good quality can be used if supplied so they may be used not later than the second week following the ceremony.

Our office has information forms to help the bride supply all pertinent details. Stop in before the wedding, secure an information form and let us help you plan your wedding story.

The Veterans Administration reported that among the nation's 577,000 women veterans, 110,000 are between the ages of 50 and 54.

### ★ Bad Advice

The vegetable oil industry spokesmen have had a field day over the past few years in their efforts to lure consumers away from animal fats and into the vegetable oil fold. Their excuse is that the polyunsaturated oil diet will prevent the buildup of cholesterol, and thereby prevent heart attacks.

A career investigator of heart disease and nutrition at Vanderbilt University says the hypothesis that saturated (animal) fats and cholesterol cause coronary heart disease has been repeatedly tested and found wrong. Dr. George Mann, speaking at the recent annual meeting of the National Livestock and Meat Board, said, "The American Heart Association, the American Medical Association and other official agencies which endorse that hypothesis as fact have given the public bad advice."

Mann said that a polyunsaturated (vegetable) oil diet recommended as a means of preventing heart disease "doubles the rate of gall bladder disease and it may increase the frequency of cancer and thrombocytosis."

Mann attacked the advertisements for spreads and cooking fats prepared with hydrogenated vegetable oils. He said, "The sales pitch is based on the promise that eating these products and avoiding animal fats will prevent coronary heart diseases. The fact is that the hypothesis on which this copy and advice is based, that saturated fats and cholesterol cause heart disease, a proposal raised in 1950 on shaky evidence, has been repeatedly tested and found wrong."

Dr. Mann is no crackpot scientist. He is highly respected in his field, and has traveled the world over in his research with much emphasis on tribes in Africa who are on high animal fat diets, but do not have heart disease.

He pulls no punches in his speeches. He said he expects no relief from the medical profession in telling this story, and he also expects no help from the media. "They are a part of the problem because there are advantages in sensationalism," he said.

It would seem that Dr. Mann's research should be a sensational story for producers of milk, meat and eggs and those who enjoy eating them.

MSU cyclotron scientists have designed and are now building the world's most powerful superconducting magnet. The magnet will eventually be used to accelerate the heaviest of naturally occurring atomic nuclei.

## Frosh Cagers Split Last Two Games

Chelsea High's freshman cagers straddled their way to a 2-4 record during the past two weeks as they devastated South Lyon on Thursday, Jan. 13, only to be whisked to defeat by a strong Milan team the following week, on Thursday, Jan. 20.

"We just killed them," said Coach Jim Winter after watching South Lyon crumble under Chelsea 43-84. "Everybody played, and everybody scored," he continued, "it was a good game to boost our confidence."

The Bulldogs dominated throughout the contest to record their second win of the season. Leading scorers were Mike Killelea with 21 points; Mike Wood, 17 points; and John Dunn, 10 points. Headlining Chelsea's rebounding action that evening were Wood, Killelea, and Dave Seyfried.

While the Bulldogs played well against South Lyon, a defensive lapse against Milan on Thursday Jan. 20, sabotaged a second-half comeback effort and caused Chelsea to finish behind Milan, 51-65.

At half-time, the Bulldogs trailed Milan by only four points, 22-26. "We still had a shot at the game,"

Coach Winter explained, "but in the third quarter, our defense fell apart. Our problem was defense, it has been our biggest trouble all year."

Top scorers for Chelsea were Mike Killelea with 14, and John Dunn with 10 points. Leading rebounders were again Killelea and Dave Seyfried. "Guard Bob McAllister also played well in the game," Coach Winter praised.

The freshman cagers will host their next three games in Chelsea beginning Thursday, Jan. 27, when they face-off against Dexter.

Abraham Lincoln began a 12-day trip by train to Washington and the presidency of the United States on Feb. 11, 1861, a day before his 52nd birthday. He arrived in the nation's capital from Springfield, Ill. on Feb. 23. Among the many items associated with the Great Emancipator at Greenfield Village in Dearborn, are several pieces of furniture from the house in Springfield which Lincoln left behind and to which he never returned alive. Some of that furniture is displayed in the Abraham Lincoln Courthouse where as a young circuit rider Lincoln once practiced law in Illinois.

## Woolworth Discouraged

Profits from nickels and dimes proved initially disappointing to Frank Woolworth who established his first "five-and-ten" on Feb. 22, 1879, in Utica, N. Y. A few weeks after its opening, the store was taking in only about \$2.50 a day. Four months later, Woolworth moved the store to Lancaster, Pa., where it proved a success. Woolworth's five-and-ten was in many ways a later development of an already established institution—the general store, that place where Americans went to swap goods and stories. One such general store, built in Waterford, Mich., in 1854, stands today on the green at Greenfield Village in Dearborn. Its shelves contain everything from the candle molds and coffee mills to the dry goods and doll heads that attracted the attention of our ancestors.

Campus life at Michigan State University is represented with several large photographs in the special American exhibit on display in the USSR. The Moscow exhibit, which is attracting huge crowds, includes several life-size photos depicting MSU research and student life.

# Real Estate

By PAUL FRISINGER

## SELL HOME YOURSELF?

I'm sure you've heard it said: "Why should I sell my home through a REALTOR? I can sell it myself and save a lot of money." Right? Wrong! This kind of thinking usually turns out to be financially unwise. The prospects will usually start by mentally deducting the commission and then start negotiating from there. On the average, a homeowner saves NO money when he sells his own home. In fact, the opposite is true. Studies over a ten year period show that the net proceeds from owner-sold property are LESS than the REALTOR-sold piece of real estate, even after the payment of commission. As a private seller you're at a great disadvantage in the intricate areas of financing, negotiating and protecting yourself from all sorts of do-it-yourself pitfalls. You've got a lot invested in your home. It makes sense to list it with a REALTOR. He'll sell it for you — without hitches — for the best price and in the shortest amount of time.

If there is anything we can do to help you in the field of real estate, please phone or drop in at FRISINGER REALTY CO., 935 S. Main St., Chelsea. Phone: 475-8681; evenings 475-2621. We're here to help!

# Wrestlers Lose One But Defeat Milan

A strong effort by Chelsea High varsity wrestlers on Tuesday, Jan. 18, failed to pull the mat from under a tough Lumen Christi team as the Bulldogs lost, 21-34. However, they maintained their undefeated SEC record Thursday night, Jan. 20, as they crushed Milan, 18-20.

Tuesday's action supported a turnaround for Chelsea, when the lighter weights who did the job and the heavier weights who failed, according to Coach Richard Bareis.

## Class of '67 Reunion Plans Underway

Chelsea High Class of '67 reunion committee conducted its first meeting at McKune Memorial Library on Tuesday, Jan. 18. In attendance were Cindy Beauchamp, Sue Craig, Chuck Fredette, Tina Foster, Ellen Hall, Pam Harden, Becka Mann, Jill Seitz, Debbie Spalding, Lee Tremper, and Joyce Watkins.

The 11 class members present elected to celebrate their upcoming 10th-year reunion with a catered buffet dinner dance at the Chelsea Rod and Gun Club on July 16. Further plans include a picnic the following day in Spaulding Grove at North Lake, so classmates might meet each others' families.

Currently the reunion committee is gathering addresses of their former classmates, and expects to post letters announcing the reunion to all Class of '67 members by mid-February.

A second reunion planning meeting is slated for Feb. 15 at the home of Jill Seitz. Any classmates interested in attending, are cordially invited to do so. For further information concerning the reunion, contact any of the above committee members.

### Jeff Makes it on TV!

Friends of the Chelsea Players have issued a reminder to area residents to watch for Chelseaite Jeff Daniels during the commercial breaks of nationally televised college basketball games, to be aired Sunday afternoons on Feb. 5 and 19. Daniels will be promoting Mutual of New York. As a former member of the Chelsea Players, he was one of the many recipients of the Friends support.

Dan Wilson picked up his fourth win at 100 lbs. on an 8-1 decision to start the Bulldogs on their way at 107 lbs., Scott Dalton lost by a score of 2-8, but John Bullick followed in the 114 lb. class with a pin victory. Again the effort was counter-balanced when Chuck Young was defeated, 4-8, at 121 lbs.

John Whitaker, filling in for injured Rick Beeman, wrestled extremely well in a losing effort 3-11, at 147 lbs., followed by Jo Branham at 157 lbs., who continued to improve his record with a tough 2-1 win.

At this point in the contest, Chelsea's hopes for a victory were dashed as Bruce Bennett, Bryan Van Reesema, and Todd Headrick all lost by pins. A 9-2 decision was won by heavyweight Leon Brown was still not enough to push Chelsea ahead, but did boost Brown's record to 13-1-1.

"It was a close match all the way, it was simply unfortunate we got caught with those three pins," said Coach Bareis following the contest. "Other than that, the team performed well, especially the new men, Joe Keiser and John Whitaker."

On Thursday, Chelsea wrestlers rolled over Milan beginning with a 12-0 shut-out win by Dan Wilson at 100 lbs. The Bulldogs lagged in the two succeeding divisions as Scott Dalton lost by a pin at 107 lbs., and John Bullick lost to a tough Milan wrestler, 0-8, at 114 lbs.

Then Chelsea began to gain momentum as Chuck Young collected a fall victory at 121 lbs. Joe Keiser scored an 11-2 win at 128 lbs.; Mike Young ran up a 13-0 decision win; captain Jim Stahl received a forfeit at 140 lbs.; and Rick Beeman wrapped it up with a fall victory at 147 lbs.

Two draws kept the Bulldog level as Joe Branham wrestled to a 3-3 draw at 157 lbs., and Bruce Bennett landed a 1-1 draw at 167 lbs. However, Todd Headrick broke the stalemate situation with a fall victory at 180 lbs., before Milan was able to get on the board again with a pin over Bryan Van Reesema at 193 lbs.

Chelsea came through with the winning stroke as Leon Brown scored a fall victory in the heavyweight division.

SWIM MEET ACTION: The critical part of every close race in swimming is initial speed off the starting block. Here, contestants in the Aquatic Club swimming meet at Beach school last Saturday,

## International Day Set At Methodist Home

More than the generation gap will be bridged at the Chelsea United Methodist Retirement Home Friday, Jan. 28.

A group of University of Michigan students will share insights on the religion, culture and customs of their homeland, Israel.

The Chelsea Home's first International Day is being organized by the Home's education committee. An open invitation was issued through the U-M's International Center to any student groups wishing to present a program at the Home. The Israeli Student Organization (ISO) was the first to respond.

Benjamin Melamed, a post-doctoral fellow and president of the 70-member ISO, said the Israeli students accepted the invitation because they wanted to share their culture. He also predicted the day would be a special event for the Chelsea residents.

"We all need our horizons broadened—at any age," said Patti Lawson, assistant administrator at the

Chelsea Home, who promoted the International Day idea.

Books about Israel have been ordered from the Washtenaw County Library so residents can investigate the subject in advance.

International Day will begin at 2 p.m. with a film about Israel. Flags, posters, literature and artifacts from the country will be on display.

A musical program will be presented at 4 p.m., followed by a dinner featuring a typical Israeli soup, bread and dessert. The 10 to 15 students who are expected to participate will be hosted by residents who have visited Israel.

Following the meal, a pianist will present more Israeli music until 7 p.m., when there will be a slide show and panel discussion with students answering residents' questions.

Mrs. Lawson said she hopes the day will bring out what the student and residents have in common—mainly their Judeo-Christian heritage.

## Friends of Chelsea Players To Preview Video Tape Project

Friends of the Chelsea Players will announce a special program to be shown at their first meeting; open to the public, Monday, Feb. 7 at 7:30 p.m.

Members of the Children's Theater Workshop, held each summer here in Chelsea, made an educational documentary video tape of children with learning disabilities. Judith Smith, a Chelsea resident and principal investigator of

the Video Tape Package project, will be a presentation of the slate of officers for the coming season.

Included in the evening's agenda will be a presentation of the slate of officers for the coming season. Mrs. Charles Mattoff, president, encourages those wishing to attend the meeting, to please phone 475-7678 or 475-7674, so that adequate space and seating may be provided.

## JCs Sponsor Address On Reye's Syndrome

On Tuesday, Feb. 1, at 7:30 p.m. in the basement of Chelsea Lanes, Glenn E. Denstaedt, a graduate student in bio-chemistry, will deliver an address and slide presentation on Reye's Syndrome. Although the event is sponsored by the Chelsea Jaycees, the public is invited to attend.

Recently, Michigan Jaycees unanimously adopted Reye's Syndrome as a state-wide project at their Grand Rapids state convention, following the review of a statistical survey which showed Michigan had the highest incidence of Reye's Syndrome in the United States. Local chapters were asked to help make their respective communities aware of the disease.

Reye's Syndrome is a suddenly occurring non-communicable disease which attacks generally healthy children under 18 years of age. Fatal to 50 percent of its victims, the illness attacks the liver and the brain. It is characterized by uncontrollable vomiting, delirium and coma. Its cause and cure are unknown.

Reye's Syndrome usually follows

soon after a viral illness such as the flu or chickenpox. A child may be recovering from the first illness when the symptoms of Reye's Syndrome appear. Immediate attention to the early signals of the disease provide the best opportunity for a child to survive the experience.

The disease is named after an Australian pathologist, Ralph D. Reye, who with an Australian medical team, conducted studies of the illness for 12 years. World-wide attention was drawn to his research when the findings were published in 1963. Since that time, more cases of Reye's Syndrome have been recognized and treated.

Drew Williams, Personnel Director spoke to the Board: "Whereas this is the last meeting of the Board of Commissioners for this year and three of your numbers will not be returning at the end of this term, as Chairperson of the 1976 Department Head's Committee, the privilege has been given to me to thank Commissioners Bradbury, Bredernitz and Hansen for the dedicated years of service that they have provided to the citizens of Washtenaw County. Further the Department Heads would like to thank each of you individually for your assistance, cooperation and perseverance. We wish you every good fortune in your future endeavors, we wish you good health and lastly, peace of mind. It is my understanding that somewhere in the western states there is a place called inscription rock whereupon this rock all the names of many brave and courageous individuals who moved west to open up a new frontier. We at the County do not have such a rock nor a plaque to place the names of distinguished persons. But, if there should ever be one let it read: Jay Bradbury, Albert Bredernitz, Paul Hansen - Pasco por aqi. (Pass this way.)"

Chair Murray presented mentions to Commissioners Hansen, Bradbury and Bredernitz.

Report of the Chair of the Board of Commissioners: Went to the UAT's meeting today and we approved an out County Dial-a-ride system and that was with a federal grant and during the last six months they have had

approximately 12,000 trips. This is a service for the handicapped and the elderly and that translates to about 600 to 700 a week and they have seven vehicles. The thing that I think is significant 2/3 of the riders were handicapped and about 12% of these 2/3rds were in wheel chairs and 54% of the people who were using the service were using it to get to jobs or to go to classes to further their education so actually the service was producing the results that I think was very good. SEMTA feels that we ought to add the other townships. This is only in the UAT's area so it doesn't include the four western townships that they should add the four western townships. The reason I bring this up is that there are various possibilities for partial funding after the first year funding ends and that they may be coming to the Board of Commissioners for some part of funding for this particular program for the second year.

There have been so many questions asked about what happened with the Ford Boulevard Bridge and I thought you ought to know that FAUS interim quarter funds which have just recently been made available throughout the State of Michigan have been given to the County toward the Ford Boulevard Bridge and they put out bids and the contract will be awarded on January 4th.

We brought up solid waste the last time and we have now got in touch with the University of Michigan. Getting on the agenda of the Board of Regents is not so simple. We have been told that Mr. Price and I should go talk to the Vice-President of the University of Michigan and most likely we can be on the agenda in February. But unless you go through this process, you can go and speak during the audience participation time and we prefer that we be on the agenda. Also we are preparing a packet to send to each of the regents about what the history has been and with a copy of the study. I have been approached by some people who have been reading the paper and they are concerned because they indicate that there are more possibilities available to us because evidently at one time in order to use solid waste for fuel for cement plants it had to be pelletized which is a costly process and evidently that is not necessary any longer and the information is that with the rising cost of fuel to use solid waste for a cement plant is more cost effective than it once was and so I would like the Board to ask the DPW Board who is meeting tomorrow to develop the information for us early in 1977 about the status and about the various possibilities because they did have a study done and indicate the Board of Commissioners interest in moving on this project and also asking that the DPW Board representative of the Policy Board and Mr. Price who represents the technical committee go talk to some of the cement companies around and see what their feelings are about perhaps cooperating with the County.

76-0618 Comm. Nielsen supported by Comm. Bradbury moved that the Board ask for a report early next year and ask them to discuss these possibilities with the cement company in the area and Mr. Price and Meri Lou Murray will be going to the University of Michigan. Motion carried.

Chair talked with Mr. Lillie and there's some agreement that the County really ought to set up as this process moves along, a liaison committee with representatives from the Township Association. Mr. Lillie discussed this with them last night when they met. Also with the DPW Board and some of the units of government because they would all have to be involved in this process.

76-0619 Chair Murray proclaimed the year one thousand nine hundred seventy seven as the Sesquicentennial Year of Washtenaw County and recommends that all residents commemorate the occasion by serious reflection on the heritage of the County and on the furtherance of the mutual well-being of the residents of the County. Chair Murray thanked Lydia Muncy for preparing the proclamation.

**John Palmer Enlists In Air Force Program**  
John Palmer, 17, son of Mr. and Mrs. Ned Palmer, 3710 Hudson St., Dexter, has entered the U. S. Air Force's Delayed Enlistment Program (DEP).

According to Technical Sergeant Bill Hughes, Air Force recruiter in Ann Arbor, Palmer's entry into the DEP serves two purposes. First, it allows the Air Force to schedule an opening for him to attend basic military training and be assigned to a job or skill area.

Second, the DEP enables Palmer to complete his high school education and wrap up personal affairs before commencing four years active duty.

## Outdoor Shelter To Be Built With Cookie Sale Proceeds

Area Girl Scouts are setting out to build a barn when they launch their annual Girl Scout 1977 Cookie Sale Feb. 1.

The Board of Directors of the Huron Valley Girl Scout Council Jan. 18 approved expenditure of \$2,000 of Cookie Sale profits for a 24 by 36 foot wooden pole barn at Camp Linden in Livingston county as a year round rainy-day shelter for girl campers.

"The barn is an experiment. The girls have requested a place for outdoor cooking and large group projects on rainy days. If this pole barn proves to be as useful as we expect, we may try to construct others. After all, Michigan weather is not dependable," commented William Schlier, Council camp director.

Ten- to 17-year-old Girl Scouts will raise money for the barn in the Feb. 1 to 14 sale which will offer a new cookie, the Peanut Butter Patty, it has been announced by Mrs. Jean Spence of Ann Arbor, sale chairman. The Patty, which has proved popular elsewhere in the country is a vanilla cookie, topped with peanut butter and covered in chocolate.

Traditional flavors being offered this year are Shortbread, Thin Mint, PB (oatmeal peanut creme sandwich), and Vanilla Cronie Sandwich Cookies. Prepared by national bakery FFV of Virginia the cookies are wrapped for freezing and range from 18 to 72 counts per box.

Price for the cookies is the same as last year, \$1.25, which provides a contribution of 20 cents to the troop of the Girl Scout taking the order, and 54 cents to the Huron Valley Council. Goal for the 1977 sale is 350,000 boxes sold.

Cookie orders will be delivered and paid for during Girl Scout week, March 5 to 13.

In addition to the barn, cookie sale profits will provide camping scholarships for area Girl Scouts (last year 185 were awarded), maintenance of facilities at Camp Linden, Camp Hilltop in Ann Arbor, and Camp Crawford in eastern Washtenaw county as well as staff assistance, training, and reference materials for the Council's 600 troop leaders.

Cookie sale profits also fund scholarships for area girls attending Wider Opportunities events, career conferences, historic excursions and public service seminars held annually by Girl Scouts of the U. S. A. and local councils

throughout the country. Last year eight area girls attended.

The Huron Valley Council, a United Way agency is authorized by the State of Michigan to conduct the 1977 Cookie Sale under license No. 9054.

## SCD Annual Meet, Election Set for Feb. 1

Washtenaw County Soil Conservation District's 28th annual meeting is scheduled for Tuesday, Feb. 1, at 8 p.m. It will be held at the Pittsfield Grange Hall on Ann Arbor-Saline Rd. The public is invited.

The feature program is entitled "Liberty," a slide-tape presentation developed by the U.S.D.A. Soil Conservation Service. The presentation traces the history of the conservation movement in America and reflects the philosophy of several of our conservation leaders; it also illustrates the need to take positive action as we begin our 201st year as a nation.

SCD Cooperator Hal Weidner of Ann Arbor township will present a short slide series "It's A Blast," illustrating his efforts in creating a shallow wildlife pond.

Also on the meeting agenda is the election of two District Directors (all landowners and occupiers of three acres or more in Washtenaw county and of legal voting age are entitled to vote), musical entertainment, door prizes, conservation awards and refreshments.

All interested persons are invited to attend. Advance reservations are not required. For more information, contact the SCD office at 761-6721.

Mary Washington gave birth to a father of our country, that is on Feb. 22, 1732 in Westmoreland county, Va. Her son, whom she named George, would one day grow up to be President and help get a brand new nation off to a good start. The collections of Henry Ford Museum in Dearborn, boast a number of Washington-related items including a folding camp bed and campaign chest used by the general during the later years of the Revolutionary War.

Comm. Israel spoke to the Board: would like Corporation Counsel to check into the County's policy of closed doors in the building during board meetings and see if we are in accordance with the fire code, because there is only one way we can get out of here. It was stated that several of the bar doors can be opened. Just the front doors of the building are locked. Guenzel stated he would look into it.

Comm. Israel spoke to the Board on the contract with Osler. He would like it to be known that he is on the Design Committee and that anybody who wishes to have some input on the process of the 14th District Court, feel free to get in touch with him.

Chair Murray: want to indicate that we have a couple of things to solve before the next Board meeting: 1) the statutes will change on April 1st, the open meeting bill will go into effect and I think probably would be a good idea for Mr. Guenzel and Mr. Harrison to get together because a lot of the things have to do with the publication of minutes and agendas and that sort of thing and prepare for us the rules that are necessary so that they could be adopted as part of our rules at our first meeting in January rather than having Rules and an in April having to amend the rules. Is that agreeable?

Comm. McClary supported by Comm. Kuebler so moved. Motion carried.

Mr. Guenzel spoke to the Board: your rules which arguably could be in effect for the next Board of Commissioners for the next term indicate that the first regular meeting shall be held the Tuesday following the second Monday which is January 11th. Gerry Creeth put the agenda that we would adjourn until January 5th which would our regular meeting time and it seems to me that is completely appropriate, but we should probably have that resolution and also include in the resolution a request to the Clerk asking him to give efficient notices. I have talked with Mr. Harrison and he has no problems with it and he will be here on the 5th as your rules indicate at least call the first roll of the new term. But, I think you ought pass a resolution indicating that the first meeting of the new Board of Commissioners will be January 5th at 7:00 p.m. in Circuit Court Room No. 4.

76-0640 Comm. Walter supported by Comm. McClary so moved and so requested that the Clerk give sufficient notice. Motion carried with a nay vote recorded.

Audience Participation: none.  
Comm. Taylor supported by Comm. Shultz moved to adjourn until Wednesday, January 5, 1977 at 7:00 p.m. in Circuit Court Room No. 4. Carried.

Meeting adjourned at 8:50 p.m.  
Merl Lou Murray, Chair.  
Robert M. Harrison, Clerk.

**STOPWATCHES IN HAND**, Chelsea Aquatic Club swim meet timers hang motionless in their intent to accurately clock the swiftly gliding figures in Chelsea's Beach Middle school pool. ## Varsity Swimmers Lose To State-Ranked Teams

Chelsea High's varsity swimming team lost its first two meets of the season last Tuesday, Jan. 18, and Thursday, Jan. 20, falling behind Detroit-Northern, the Detroit Public League champs, 68-101, and Erie-Mason, a constant finisher in the top 10 of state meets, 61-109. In each of these meets, Chelsea was missing three of their top performers. Yet, against Northern they were able to break six school records in 11 events, and came back two days later to break another six school records.

Leading the way for the Bulldogs was Jeff Rudd who twice lowered his records for the 200 and 500

freestyle races, and was a member of the double record-breaking freestyle relay team along with Dave Steinbach, Jeff Rudd, John Oesterle and Henri Vanderwaard. Vanderwaard also lowered his varsity and freshman records twice in the 100-yd. backstroke, while Larry Hafner smashed the school record in diving twice, and set a personal best of 190.2 points. John Oesterle lowered the school record in the 50 freestyle and Doug Pichlik set a new standard for freshmen in the breaststroke. The Bulldogs have two meets this week against Ecorse and Willow Run.

## Federal Tax Help Offered In Ann Arbor

Most area taxpayers will be able to get their federal income tax questions answered with the help of assistants at IRS's new toll-free telephone center. The "toll-free center" is now situated in the new Patrick V. McNamara Building in Detroit. The "center" serves taxpayers from Ironwood to Erie and with no telephone toll charge. The IRS phone system operates weekdays from 8:30 a.m. until 5:15 p.m. Phone numbers are listed in the tax forms packages.

Taxpayers with more complex questions who feel they need in-person help may obtain it locally at the Internal Revenue Service office. There is no charge for the service. Hours are 8 a.m. until 5:30 p.m., Monday through Friday. The office is located at Georgetown Mall, 2548 Packard Rd., Office Building "A", in Ann Arbor.

Internal Revenue also reminds taxpayers whose 1976 income was less than \$8,000 that they may be entitled to a special benefit, in some cases as much as \$400. It's called the "earned income credit." It is available to certain qualifying persons, even some who may not otherwise be required to file a tax return, or perhaps even had no tax withheld in 1976.

IRS urges everyone whose income last year was under \$8,000 to inquire about the details of the earned income credit by calling the toll-free tax assistance phone number.

## Summer Fluoride Program Offered

Topical applications of fluoride will again be offered to Chelsea area children this summer, but those who have received the benefits of fluoridated water while their teeth were developing, will need the treatments, according to Carol Smith, chairman of the Chelsea Jaycee Auxiliary's topical fluoride committee.

The fluoride program, which is supervised by the Michigan Department of Public Health, will be made available to selected preschoolers, youngsters in kindergarten, 2nd, 5th and 8th graders, and special dentist-referred cases, depending upon whether or not children in these groups drink fluoridated water and the length of time they have been receiving it.

The procedure consists of four visits to the fluoride clinic. The child's teeth are cleaned on the first visit and a fluoride solution is applied directly to the surface of the teeth. The fluoride application is then applied during the three succeeding visits. This technique has been shown to reduce tooth decay by about 40 percent compared to 60-65 percent reduction obtained with fluoridated water.

In addition to providing protection against cavities, the program offers a valuable dental experience for children, minus any discomfort. Dental health education by clinic personnel, including instruction in the proper method of brushing teeth, also is an important part of the program.

Parents of eligible children will

be notified at a later date and be given the opportunity to enroll their children in the program. A small fee is charged to cover the cost of operating the clinic.

## Area Students On Ferris State Honors List

Three Chelsea area residents were among 1,772 Ferris State College students named to the Academic Honors List for scholastic excellence achieved during the college's fall quarter. The list of those honored was announced recently by Dr. James V. Farrell, vice-president for academic affairs.

Students on the list from Chelsea are Kurt J. Alshouse, son of Mr. and Mrs. Robert J. Alshouse, 521 S. East St.; and David K. Frame, son of Mr. and Mrs. William D. Frame of 13880 McKinley Rd.

Also named was Timothy A. Nickels, son of Mr. and Mrs. Bob J. Nickels of Manchester.

To be named to the Academic Honors List, a student must earn at least a 3.25 average on a 4.0 basis, and carry a full academic load. A full academic load is defined as 14 quarter hours of credit.

## Unlimited Fishing Starts

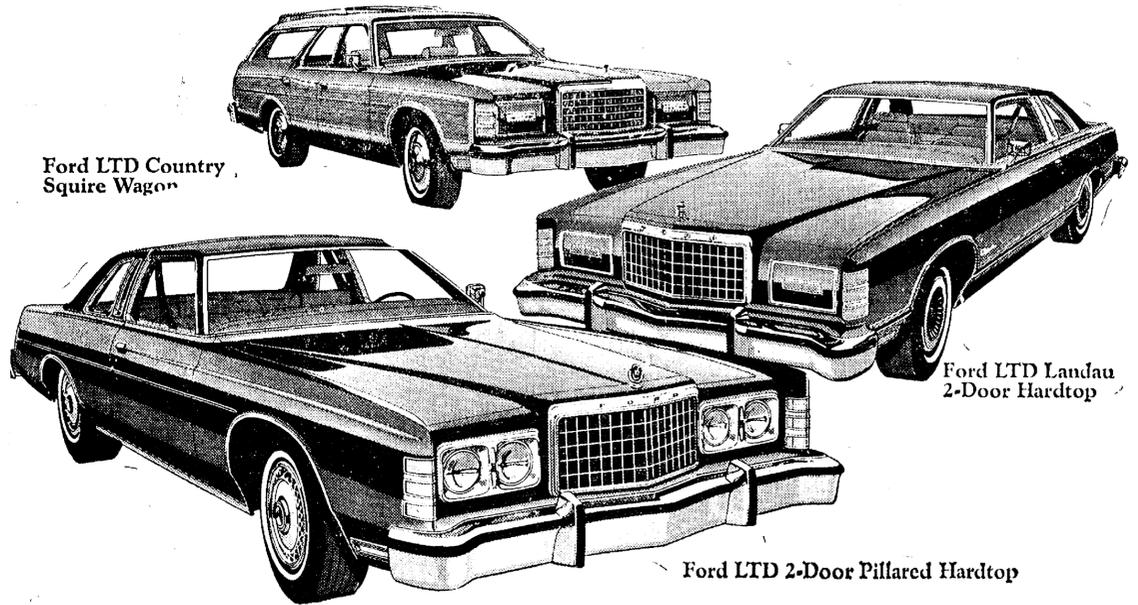

Because of the winter kill factor, licensed area ice fishermen are the beneficiaries of a wide open fishing policy at nearby Winnewanna Impoundment, Ed Bacon, District Fish Supervisor for the area's Conservation Department announced Wednesday.

Effective Jan. 26 through March 31, under the authority of Act 165, P.A. 1929 (Chapter III, Sec. 2) Winnewanna Impoundment, Washenaw county (T 15, R 3E, Sec. 28, 29, and 30) has been declared open

to fishing with hook and line, hand or spring propelled spear, bow and arrow, hand dipped net, or manual techniques for all species of fish. There is no limit to the number or size of a catch.

This policy will operate as declared unless otherwise revoked, Conservation Department officials confirmed. According to Conservation Office John Caroffino, "Winnewanna Impoundment is one of the best pike fishing lakes around the entire area."
