Bob Silva Chevrolet Liquidating Inventory, Closing Dealership

After a little more than a year as Chelsea's sole Chevrolet dealer, Bob Silva will close his firm's door Wednesday evening. Up until that time, a liquidation sale of models in stock will be available to local car buvers.

Silva took over the former Lloyd Bridges Chevrolet dealership on Monday, Oct. 6, 1980 after selling his former dealership, Campus AMC/Jeep on Washtenaw Ave. in Ypsilanti, to John Lee, owner of John Lee Oldsmobile of Ann Arbor. Silva had owned the dealership since 1974 but made the decision to sell following Lee's unwillingness to sell his Renault franchise. The French car company and American Motors are closely affiliated in that the Renault is built in AMC plants in the U.S. Without having the opportunity to purchase the franchise that Lee has owned since 1976, Silva opted to sell the dealership in an expansion move for the Oldsmobile

Silva selected the former Lloyd Bridges dealership based, in part, on a desire to remain in Washtenaw county. In the purchase. Bob Silva became the sole owner of the property, franchise and inventory.

Management positions were filled by employees of the former Campus AMC/Jeep dealership as well as some of those who had been employed with Lloyd Bridges Chevrolet.

Silva explained that his Ypsilanti dealership was extremely successful, moving no fewer than 500 units each year and that he

Immunization Clinic Set at High School

At its Jan. 18 meeting, the Chelsea Board of Education passed a resolution which will exclude from school attendance on April 13 all students who are new to the Chelsea School District who have not presented evidence of required immunizations. This action of the Board is in compliance with state law.

To assist parents in obtaining proper immunization for their children prior to the April 13 exclusion date, the Chelsea School District, in co-operation with the Washtenaw County Health Department, will offer a free immunization clinic on Thursday, Feb. 4, from 8:30 a.m. until 12-noon in Room 23 (Science Building) at the high school. This week-end came in like a lamb, turned into a lion and went out like a mess as anywhere between 10 and 12 inches of heavy, inconvenient snow was dumped on the area. Blizzard conditions caused major traffic hazards and State Police warned motorists to stay indoors unless it was absolutely necessary to travel.

Snow plows worked overtime to clear the highways and byways to major hubs of industry though many workers found it all but impossible to get through their own driveways let alone onto major service streets.

Winds whipped across fields, in between buildings, and over highways, drifting masses of snow across highway center lines, often making the roads onelane highways with two-way traf-

Snow shovels, helpful motorists, snowmobilers and cross-country skiers all came in handy as the blinding snow and blistering winds assisted pedestrians and motorists into the nearest ditch.

Again, lucky school children were given the opportunity to sleep in during the first day of the school week as buses found a majority of back roads untouched by road commission snow plows and thereby, impassable. Local schools taking advantage of the snow days included Chelsea, Manchester, Dexter, Saline and Tecumseh.

After being a part of the Chelsea coaching staff and a substitute teacher in the Chelsea School District for four years, David Johnson and his wife, Traci, are leaving Michigan and heading to San Antonio, Tex., where Johnson has accepted a full-time teaching job and a head coaching position at Thomas Edison High school.

Johnson, who holds a bachelor's degree from Central Michigan University and a master's degree in education from the University of Michigan, has been unable to locate a fulltime teaching position in this area. His decision to move has been based on the availability of teaching jobs in the west as well as the fact that his wife will be employed in a capacity which is similar to that which she holds at the Plymouth Parks and Recreation Department. She is also a member of the Chelsea Recreation Council.

Since coming to Chelsea, Dave Johnson has been an aquatics instructor, head coach of the high school girls swimming team, the Beach Middle school swim teams and the Chelsea Aquatic Club. He has also served as assistant coach of the CHS boys swim

School Tax Petition Drive Launched

An upstart group, calling itself Tax Reform in Michigan (TRIM) has announced the launching of a petition drive to put a proposed constitutional amendment on the November ballot that would eliminate property taxes as the basis for school financing.

As an alternative to property taxes, the group proposes to substitute several other taxes to support education.

The proposal could save more than \$2.5 billion in property taxes and a potential \$836 million total cut in state revenues.

The plan was announced recently by Mecosta County Commissioner James Obert.

To pay the cost of K-12 school aid, the TRIM amendment would increase state income and sales taxes to 5 percent from the current 4.6 and 4 percent levels, respectively.

Of the total, one percent of each tax would be allocated to public

Also specifically allocated to schools would be 25 percent of all business taxes and oil and gas production lease revenue and royalties.

Additionally, local school districts could implement, with local voter approval, local income taxes that would receive a 50 percent match from the state government.

The proposal will guarantee property tax relief to those overburdened by the tax, Obert said. But, he added, it will not affect property tax paid to finance local governments and to pay off buildings in the school district.

The state could lose up to \$826 million through the proposal, but there would be no lost revenue if the state decided against cutting business property taxes, Obert

Howver, the amendment specifically says property taxes for school operations will not be levied on all commercial and industrial property.

Uncle Lew from Lima Says:

DEAR MR. EDITOR:

The fellers had Ed Doolittle outnumbered and outgunned during the session at the country store Saturday night, but Ed claimed he swept the field because his cause was just and his heart was pure. The first item on the agender was rating Mr. Reagan's first year, and he got marks ranging from hopeless to salvation. Ed kept saying we all knowed things had to git worse before they could git better, and they did and they are. Clem Webster led the attack with lines like the Reagan Administration is so out of touch with people it thinks no problem is so big it can't be solved by giving everybody a nice big wedge of surplus cheese.

When you got a outfit in Washington that can work out a \$35 billion tax cut and a \$70 billion tax hike and call the hole thing revenue enhancement you got a situation where two and two can add up to any desired number, was Clem's words. The way this works, Clem said, if gasoline changes from \$1.25 to \$1.35 a gallon the oil company ain't raised the price, it just enhanced it. But you can try this plan with a beef you want to sell, Clem said, and you'll find the market ain't learned the new program. They'll still give you 40 cent a pound instead of the 60 cent you was wanting to enhance the price to.

On the other hand, Ed argued, the Administration is plugging a lot of holes in the Federal money bucket. It is cracking down on food stamp fraud, fer one thing, Ed said, and it is moving to git back hundreds of millions lent to college students and never repaid. Farthermore, Ed said, he had saw where the General Services Administration is studying the sale of Federal property that's never used. One GSA estimate is that as much as \$40 billion could be raised by selling unused land and such property as a \$50 million resort hotel in Hawaii. As soon as we close enough of these veins that's bleeding us dry, Ed said, we can git on with building this country

back to health. Zeke Grubb said he couldn't give the President a passing grade because he don't think he's plugging the right holes. Zeke had saw where the Air Force has brought 1,600 sets of uniform stars fer four star generals. Even if you agree the country's defense needs beefing up, declared Zeke, you got to wonder about this item since the Air Force ain't got but 13 four star generals. Does ever general own 100 uniforms? Is the Air Force fixing to permote 1,587 three star generals? Or did some budget cutter figger out stars were cheaper by the ton? These

Yours truly, Uncle Lew.

Despite a poor showing Friday hight. Chelsea took on Jackson Northwest Saturday in one of the nost exciting games seen in Ray-nond's rive years of coaching. In ver-time, the Bulldogs managed n 82-81 victory.

A key to the game was fine shooting as Northwest made good on 59 percent from the floor, beng successful on 36 of 61 atempts. Chelsea hit 52 percent on 3 of 63 shots and attributed its win to fine free throw shooting. Chelsea hit 73 percent from the ine, successfully completing 16 of 22 while Northwest hit nine of 6 for 66 percent.

Northwest was up, 23-24, at the end of one quarter and took a 9-31 half-time lead as the Bulldogs could muster nothing more than lethargy. But, in the second half, the Bulldogs came back and gave their all to tle the game at the end of regulation time at 77-all on a shot by Marty Steinhauer with 12 seconds remaining on the clock.

In the period of over-time, Chelsea played extremely well, scoring the first basket to raise the score to 79-77. Then, Northwest came back with two baskets, 81-79. Marty Steinhauer hit two crucial free throws for an 81-80 advantage. Northwest again came back but missed a shot and, with 12 seconds left, David Kiel took a shot, was fouled, missed a free throw, fouled a Northwest player who missed his free throw attempts and the Bulldogs won the game.

The Chelsea crowd was tremendous during the final minutes and supportive of the Bulldogs' successful comeback efforts. The Chelsea defense, according to Raymond, was, in the fourth quarter, the best it had been since the second game of the season, providing the offense the opportunity to make up the 13-point deficit.

"Our effort was phenomenal considering we had played the night before," commented Raymond. It was exciting to learn that the team was able to come back against a decent team and learn what it takes to win a game."

Pacing the Bulldogs was Mike. Bareis with 23 points, 13 rebounds and seven assists. Late in the game he fouled out and the team rallied and played well to compensate. David Wojcicki had 12 points and five assists and Matt Villemure played extremely well in the last five minutes, applying significant defensive pressure in

Bareis' absence.

Marty Steinhauer scored season-high 16 points, 13 of which came in the second half during the Chelsea comeback and David Kiel had 12 points, four in overtime, and nine rebounds.

John Welton added eight points, David Mann five. Matt Villemure four and Ken Nadeau

Chelsea outrebounded Northwest, 36-33, with Bareis and Kiel in the lead. Chelsea committed just 18 turnovers as compared to Jackson Northwest's 26 while Steinhauer and Bareis also made

Gourmet Chef S. Sundling. Preparing Dinner Theatre Meal

Chelsea theater goers are looking forward in anticipation of the lavish buffet planned for the upcoming Chelsea Players' "Plaza Suite" dinner theater. Gourmet chef Sherry Sundling, known for her mouth watering cuisine, has been busy planning the menu with the dinner theater committee made up of Mary Beth Rosenberg, chairman, Julie Yorus, Joan Wolf, Daphne Hodder and Suzanne Morrison.

Julie Vorus reports on the many enthusiastic comments received by the Chelsea Players Board following last year's dinner theater also catered by Sherry Sundling. "Sherry's attention to detail in not only her cooking but also her imaginative presentation of the food focuses' on the fact that she is a showman as well as an artist," comments Julie. "She has given cooking classes and demonstrations as well as catering many memorable dinner parties in the Chelsea area. We are pleased to have her services again this year," Julie continued.

Sherry Sundling's background is varied and extensive. She studied nine years under Baroness Charity de Vicq Suczek of Grosse Pointe, a renowned Cordon Bleu graduate. During this time, too, she served as Madame Suczek's assistant in her gourmet cooking classes. She also studied Chinese cuisine for two years under Ina Tchen of Farmington and later worked with Yvonne Gil Davis of Tweeny's, Birmingham; Duglass Duglass of The Great Dane, Farmington Hills; and Beth Campbell of Elizabeth's Restaurant, Northville.

The Feb. 27 dinner theater tickets include a gourmet meal and the performance immediately following. They are being sold for \$12.50 each. There will be a cash bar beginning at 6 p.m. and dinner will be served at 7 p.m. Patrons are advise to purchase their tickets as soon as possible because of an early cut off date

Dear Editor,

I am writing this because I fear for my child and all the children in this community. How can we believe in a justice system that frees men that sexually abuse our children?

I recently heard of a case in Chelsea where a child abuser was released for as little as \$200. I would like to meet the judge that allowed this to take place. He must not have children of his own or he would not have set this 35-year-old sick man out on the streets, free to abuse other inno-

I pray that the Lord will protect our children, for I fear our (so

called) justice system will not. Because of my fears I cannot

We cannot allow you to print our name, as we must protect the privacy of a minor child. But I would like to make an appeal to all parents in this area:

As the parent of one of the children who has been molested, I am urging anyone whose child or children have come in contact with this family to talk with their youngsters. I fervently hope your child was

not molested. But if they were involved, or ever witnessed anyone else's involvement, please report this to the local authorities!

If this kind of sick behavior is to be stopped now and prevented in the future, it is important that we prosecute anyone who perpetrates deeds of this type!

I would also like to take this opportunity to thank the Chelsea Police Department for their kindness to our child and commend the sensitive manner in which they handled this delicate situation with our youngster.

Good Things Growing In Michigan

By Margaret G. McCall This week's column is prompted by an inquiry from a newspaper friend who writes, "I am looking for fondue recipes. I received a fondue pot for Christmas and would love to use it, but my cookbooks seem to have very little information on this."

Ten years or so ago, fondue parties were all the rage, to be superseded by Chinese wok cooking. So it goes. Fondue is making a comeback now, and I'm glad because it's a pleasant informal way to entertain on a cold winter night. It's also a nice way to use some of the Good Things Growing in Michigan.

Classic cheese fondue is made with any Swiss-type cheese, dry white wine, a little flour for thickening, and a pinch or two of dry mustard, nutmeg and salt. The same basic ingredients are used for Champagne fondue, but use Michigan champagne instead of wine, add a clove of garlic and a small measure of cognac. Traditionally, crusty French bread cut into chunks is used for dipping into cheese fondue.

Fondues are so versatile, you can create your own favorite recipes using whatever you have on hand.

One of my favorites, Honolulu fondue, calls for 2 large whole chicken breasts, sliced into oneinch squares (this is easier if you freeze the chicken slightly); 1 pound cooked ham, diced into one-inch cubes. Combine 1/2 cup Michigan apple juice with 1/2 cup orange juice and I cup dry white Michigan wine. Thicken with 1 tablespoon cornstarch and add 2 teaspoons brown sugar, I teaspoon curry powder, and a dash of

Heat sauce in fondue pot until slightly thickened. Spear chicken or ham cubes, cook until done or heated through. About 6 servings.

Beef or chicken broth can be used for cooking poultry, minimeatballs, beef or pork cubes (which can first be marinated for variety in flavoring). Just remember to use tender cuts of meat and keep the cubes small so they'll cook in a short time.

Dessert fondues, served around the coffee table, encourage lively after-dinner conversation. Fruits are great for dunking, and will help ease your conscience about the calories in a chocolate or caramel sauce. Fresh Michigan apples are especially nice, but you can also use canned fruits if they are firm. Again, keep the size of wedges or chunks small so they'll be thoroughly warmed and coated with sauce.

Apples are delicious in a cheese sauce, or you might like to combine marshmallows with cream and a liqueur. For an added touch when using canned fruits, serve guests individual portions of vanilla ice cream as a base for the fruit and sauce.

Possibilities are limited only by your ingredients and your imagination.

ANN ARBOR TRUST'S DESIRABLE RETIREMENT PLAN

Everyone should be able to enter retirement with sufficient financial resources to enjoy this very special part of their life. Recent legislation now makes it possible for everyone who works to acquire a meaningful retirement fund through an Individual Retirement Account (IRA).

Our DESIRABLE Retirement Plan allows you to contribute up to \$2,000 each year to your IRA and deduct the entire contribution from your current taxable income.

If you've been wanting to save for retirement, but just can't seem to get started, you'll like our Floating Rate Account that allows you to make regular contributions of \$25 or more after an opening deposit of just \$100. You'll earn an attractively higher rate than the current 6-month Treasury Bill auction rate*, and the rate will be adjusted quarterly.

If you find it more convenient to make a deposit of \$1,000 or more, you may prefer our Fixed Rate Account where the rate in effect when you make your opening deposit remains constant during the term of the deposit. Both of these plans offer terms of deposit ranging from 18 to 60 months. Interest is compounded quarterly, and each account is insured to \$100,000. How's that for safety, convenience, and flexibility?

Need more information? Just call or stop by any of our offices today.

*6 month Treasury Bill auction rate plus 25 basis points. Withdrawals from an IRA prior to age 591/2 are subject to substantial tax penalties. If certificates of deposit are used, added penalties may also apply. Withdrawals must begin and no contributions may be made past age 701/2.

Senior Nutrition Program Thriving

The senior nutrition program is designed to provide senior citizens with one-third of their daily nutrition requirements by offering a hot dinner-type meal once a day in a pleasant environment which includes recreation, education and entertainment.

In Chelsea, these activities take place at the North school Senior Citizens Activities Center on McKinley St. Monday through Friday, the site begins its daily activities at 10 a.m. with the hot meal being served at noon, 11:45

"a.m. on Thursdays Transportation to the Center no problem; the CATS bus will pick up participants at their homes at 10 a.m. and will transport senior citizens home at 1 p.m. Advance reservations for both the noon meal and bus transportation are advised.

Activities at the Senior Citizens Center are varied and numerous. ranging from regular class sessions and events to special classes offered by Washtenaw Community College. During this winter term, WCC will provide senior citizens with the opportunity to partake in three, 12-week non-credit courses.

The classes began Tuesday, Jan. 26 with a creative expression course taught by Sharon Hunt which includes drawing and basket-weaving.

On Wednesdays, Mary Ellen Hinkel will teach recorder from 10 a.m. to noon and she will also serve as the instructor of a music appreciation class. This course will involve listening to excerpts from various musical masterpieces as well as a field trip to view the Stearn's collection of ancient instruments at the University of Michigan. Prior knowledge of music is not imperative. Department of Labor.

Rather, it is hoped that senior citizen participation will expand and enhance familiarity and understanding of music.

"Fitness After 60" is the name of a class which got underway last Thursday. Seniors should not fear that the exercises will be too strenuous for their abilities. Instead, those participating will find that the activities are built around their needs and abilities.

There is no fee for these noncredit courses and there is no income requirement or charge for the nutrition program. Neverheless, donations are accepted.

In Memoriam

IN MEMORIAM

In memory of my husband, and our father, son and brother, Donald W. Messner, who passed away, one year ago Feb. 1, 1981. To some he may be forgotten, but to the ones who loved him and lost

him, his memory will always last. Wishing God could have spared him for just a few years. God gave us the strength to fight this and the courage to bear the blow, but what is meant to lose him no one will ever know. Because our hearts cry for you now and forever. Oh we loved you so much. Sadly missed by his

Bob Ditta was born and raised in New York City. Because of his mother's affiliation with the United Nations, Bob had the good fortune of attending the United Nations International School. This private school, consisting mainly of delegates' children, gave Bob his first encounter with the different peoples of the world. Today, Bob traces his interest in learning more about the world's different cultures from these early school years.

As a very young man, Bob had already visited more than 20 countries. He has traveled extensively through Europe and the Iron Curtain countries and his ability to speak French fluently greatly eased the problems that most American tourists face.

France is a haven for the traveler in search of something different. In "Byways of France," Bob has tried to show "the familiar along with the unique, less seen, delights of a country rich in cultural heritage. The familiar and expected is no less delightful when it means exploring beautiful Paris, the "City of Lights." Paris is still as exciting as she has even been. Spend "Bastille Day" with the Parisians and join in the raucus celebration of French Independence day.

What trip to France would be complete without a stop on the French Riviera? Enjoy the luxury and sophistication of resort cities like Nice and Cannes. See the pebbled beaches and azure waters of the Mediterranean. Tour the chateau district of the Loire River and see the marvelous castles built for the elaborate status of conscious royalty of France.

Spend springtime in the Provinces. Learn the art of omelette making from a genuine craftswoman, Madame Poulard. The art of perfumery is another special area of interest since the French are famous for their expertise. The provincial joie de vivre of Normandy and Brittany will delight the traveler.

Step off the beaten path with Bob Ditta to search out the French who are the heart and soul of France.

Q. I bought stock a number of years ago in my local electric company. The stock had done well for many years, going up in price each year and also paying a higher dividend each year. Since I bought the stock. it has come down steadily in price until it is less than onethird of what I paid for it and the dividend has only been increased a couple of pennies. I guess I made a mistake in buying the kind of stock the "big boys" decided to run down. How do you tell which stock the "big boys" are going to favor and run up in price?

A. I run into quite a few people who express the same opinion you have, that stock prices are controlled by big investors or people in important positions. That is an opinion that is not true and can keep you from making sensible decisions and quite possibly from making money in the stock market.

First, let's talk a bit about the idea of controlling the stock market, then let's talk about your particular stock. It is possible at any one time for an individual or a group of them to control or exert influence on a particular stock or even a particular commodity, but the market is so big and so complicated that no one, no matter how big, can control or affect the market for very long. An illustration can make this point. Look at what has happened to the price of oil. While the OPEC countries have greater control over this commodity than probably any group has had in the past over any commodity, the oil consumers of the world have economized and other nations have raised the incentives for producing oil to the extent that, at least for the present, there is a surplus of oil, and its price has weakened. The unprecedented control of the OPEC nations has been dented by the oil consumers of the world.

In the case of the electric company stock you bought, several things have happened which were difficult to foresee. The nation has been faced with a long period of a high rate of inflation. This has caused the cost of new plants to produce electricity to rise very rapidly. It now costs several times more to build a new plant than it did a decade ago. The inflation has also caused interest rates to go from 5 or 6% to 18 to 20%. Since electric plants are built with a high percentage of borrowed money, this has been a major factor in the rising cost of new plants. At the same time, inflation has been boosting the cost of both fuel and wages.

Electric company rates are controlled by local politicians and the one that you bought stock in is located in a city with a highly unionized work force. The dominant union has worked strongly with the politicians to keep rates low. The result of all these factors is that the company in which you bought stock has not prospered. It is not making as much money per share today as it did more than 20 years ago when you bought it. That is why the price of the stock is down and the dividends have not increased.

Successful investors look for stocks that have better than average prospects for growing sales and earnings per share.
